Since joining the company in January 1990, Rubenstein had served as the company's chief operating officer. In this capacity, Rubenstein played an integral role in overseeing the daily operation of the company while also successfully initiating and implementing key growth strategies for QSI. This role will be significantly expanded in Rubenstein's capacity as president.

Rubenstein's previous management experience includes nearly 30 year of increasingly significant leadership positions within Rockwell International. Rubenstein served as president for three of Rockwell's corporate divisions, including the Space Transportation Systems Division, where he was a principal designer, chief engineer, and program manager for the space shuttle.

Razin, the company's founder, chairman of the board, and chief executive officer, will remain in an overall leadership position of the company. He will now take a more active role in long-term strategic planning and business development for QSI. The company believes that Razin and Rubenstein form a complimentary, experienced leadership team for QSI.

On August 10, 1990, the company announced a profitable 42.5 percent increase in revenues for the first quarter of fiscal 1991 as compared with

the first quarter of the previous year. The company believes that this management strengthening further solidifies the company's position for future growth.

Quality Systems is engaged in the sale of computerized information processing systems to medical and dental group practices.

LAS VEGAS (AUG. 14) BUSINESS WIRE - Southwest Gas Corp. (NYSE:SWX) reported a second quarter loss of 33 cents per share, compared to zero earnings per share for the same quarter a year ago, according to George C. Biehl, senior vice president and chief financial officer.

The company's second quarter 1990 loss applicable to common stock was a deficit $6,463,000 compared to a deficit $61,000 in the second quarter of 1989.

Consolidated net loss for the quarter was $6,057,000, down from net income of $388,000 for the same period in 1989. The gas segment's contribution to the consolidated total was a deficit $8,491,000 during the current quarter, compared to a deficit of $3,059,000 recorded in the second quarter of 1989. Biehl attributed the drop in earnings from gas operations partially to increases in operations and maintenance expenses that resulted principally from cost increases associated with providing service to the company's rapidly increasing customer base.

Also contributing to the decrease in gas operations' earnings, according to Biehl, were increased depreciation expense and general taxes relating to natural gas pipe replacement programs in Arizona, expansion of company facilities to accomodate continued customer growth throughout its system, and the upgrading of existing operating facilities.

Net earnings from the company's financial services subsidiary, PriMerit Bank, also decreased from $4,483,000 in the second quarter of 1989 (contributing $3,447,000 to consolidated net income after deducting tax-effected carrying costs associated with its acquisition by Southwest Gas) to $3,395,000 in the second quarter of 1990 (contributing $2,434,000 to consolidated net income after deducting tax-effected carrying costs).

Consolidated operating revenues for the second quarter of 1990 were $171,744,000 down from $183,378,000 for the same quarter a year ago. Average outstanding common shares increased to 19,525,000 during the second quarter 1990 from 18,929,000 in 1989.

Southwest Gas is a diversified natural gas and financial services organization. It provides natural gas to approximately 800,000 customers in Nevada, Arizona and California. In addition, it provides gas for resale to almost 100,000 customers of Sierra Pacific Power Co. and CP National Corp.

FRESNO, CA. (AUG. 14) BUSINESS WIRE - WestAir Holding Inc. (ASE:WAH), which operates as United Express and is the largest regional airline in the nation, Tuesday announced that it has signed a purchase option to acquire up to 60 Embraer EMB-145 jet aircraft.

The preliminary agreement between WestAir Holding and the Brazilian aircraft manufacturer is valued at approximately $700 million with the first delivery anticipated during the fourth quarter of 1993. The transaction is subject to the airline signing a formal purchase agreement in 1992.

''As we look at our fleet requirements for the mid-1990's and beyond, we believe the EMB-145 has many characteristics -- including its size and speed -- that could well serve new and existing missions on our route network,'' said Timothy P. Flynn, chairman of WestAir Holding.

The EMB-145 is one of the new genre of ''regional jets'' that Flynn said could be successfully utilized on his company's longer, ''thin'' routes. The aircraft design features 45-48 passenger seats and wing-mounted twin jet engines. Flynn said the aircraft is being designed to cruise at approximately 500 mph and have a range of about 1,150 statute miles.

Powered by high-bypass Allison GMA 3007A engines, the EMB-145 will satisfy the FAA's Stage 3 requirements for operating at noise sensitive airports, Flynn said. The size of the aircraft will also provide advantages at airports that have aircraft seating-capacity restrictions, he said.

WestAir Holding's airlines currently fly 90-seat British Aerospace BAe-146s, 36-seat Shorts 360s, 30-seat Embraer Brasilias, 19-seat Embraer Bandeirantes and 19-seat British Aerospace Jetstream 31s. The company is retiring its Bandeirantes and Shorts 360 aircraft as it takes delivery of new Jetstreams and Brasilias it has on order.

WestAir Holding Inc. operates through two wholly owned subsidiaries and one operating division -- WestAir/United Express, NPA/United Express and Atlantic Coast Airlines/United Express.

The company operates over 850 daily flights and serves 60 cities in the west and along the east coast utilizing both jet and turbo-prop aircraft.

The company's major hubs are Los Angeles, San Francisco, Fresno, Sacramento, Calif., Portland, Ore., Seattle and Washington.

WestAir Holding Inc. is headquartered in Fresno.

SANTA CLARA, CALIF. (AUG. 14) BUSINESS WIRE - Applied Materials, Inc. (NASDAQ/NMS:AMAT) reported record net sales of $144.2 million for the three months ended July 29, 1990, which resulted in net income of $9.5 million, or $.55 per share.

These results compare to net sales of $130.2 million, with net income of $12.5 million, or $.74 per share, for the third quarter of 1989. For the nine-month period ending July 29, 1990, net sales were $426.1 million with net income of $31.1 million or $1.82 per share.

This compares to net sales of $359.7 million and net income of $39.9 million, or $2.39 per share, for the same three-quarter period in 1989. Backlog rose to a record $227.3 million, compared to $177.2 million at the end of third quarter of 1989 and $209.6 million at the end of second quarter of 1990.

''Revenue growth was fueled by continued demand for the company's leading technology semiconductor wafer processing systems, particularly products aimed at the markets of chemical vapor and physical vapor deposition,'' said James C. Morgan, chairman and chief executive officer. ''Our existing products have done quite well this year in a relatively flat market. The strong acceptance of our latest products has allowed us to continue our growth.

''Shipments within the quarter of tungsten CVD and our recently introduced PVD systems added to our already strong revenue base in dry plasma etch and dielectric CVD.''

Net income was down versus both the prior quarter and the prior year due to increased operating expenses. The company's research and development expenditures increased by $2.6 million over the second quarter to $25.3 million due principally to increased activity in the Applied Conductor Technologies Division.

Applied Materials, Inc. is a global growth company and the leading independent producer of wafer fabrication systems for the worldwide semiconductor industry. It is a market leader in chemical vapor deposition (CVD), dry plasma etching and silicon deposition.

The company is also a leading manufacturer of ion implantation systems, and recently launched its entry into the physical vapor deposition market (PVD). The company's stock is traded on the NASDAQ National Market System under the symbol ''AMAT.''

PHOENIX (AUG. 14) BUSINESS WIRE - U.S. Bankruptcy Court Judge Robert Mooreman has confirmed the plan of reorganization submitted by Scottsdale, Ariz.-based Kroy Inc. and one of its European subsidiaries.

Kroy was sold in 1986 to a management group and an employee stock ownership plan, or ESOP, in a highly leveraged transaction commonly referred to as a leveraged buyout. As with many other LBOs structured in the 1980s, Kroy was unable to repay the substantial debt incurred in the LBO, which in this case was more than $60 million.

Kroy, an international manufacturer and distributor of labeling, lettering and printing products and signs, and its European subsidiary Kroy Europe filed for reorganization May 15 under Chapter 11 of the Federal Bankruptcy Code. Judge Mooreman, sitting in Phoenix, confirmed the reorganization plan Aug. 10.

The confirmed plan discharges more than $1.9 billion in liabilities and provides for significant infusion of new working capital by Minneapolis-based Red Oak Investment Corp.

''Confirmation of the plan of reorganization is one of the final steps to Kroy's successful recovery,'' said Kroy President Howard Klemmer. ''It provides sufficient working capital to enable Kroy to continue to expand its operation and products, and it preserves the jobs of our nearly 300

employees.''

While Kroy's headquarters are in Scottsdale, it also has manufacturing facilities in Osceola and St. Croix, Wis.

According to Klemmer, a turnaround specialist hired by Kroy in October, the special prepackaged Chapter 11 filing, which included the reorganization plan, allowed the company to proceed through the bankruptcy process with no disruption in services to its customers.

Thomas Salerno, one of Kroy's bankruptcy attorneys, said: ''From a litigation and negotiation standpoint, the prepackaged bankruptcy gave Kroy some advantage in dealing with its recalcitrant creditors. Bankruptcy is ultimately a negotiation process,and the prepackaged bankruptcy really helps to level the playing field.''

The plan of reorganization was supported by virtually every significant creditor of Kroy. From the time of the Chapter 11 filing to Friday's plan confirmation, just 88 days had elapsed.

During the confirmation hearing, another Kroy bankruptcy attorney, Craig Hansen, announced that the company had reached a settlement with the U.S. Department of Labor and Valley National Bank of Arizona (trustee of the ESOP) in the Labor Department's $35.5 million lawsuit against Kroy. As part of the settlement, the Labor Department has agreed to dismiss Kroy from the lawsuit.

The settlement, according to Hansen, is the result of a cooperative effort of the ESOP, the Labor Department and Kroy to ensure the viability of Kroy.

BOISE, ID (AUG. 14) BUSINESS WIRE - Club Wholesale's board of directors Tuesday announced it will redirect the company's efforts into the office supply side of its business.

As a result, Club Wholesale will close its general merchandise warehouses to recapitalize the company, allowing it to open additional office supply superstore outlets.

At present, Club Wholesale has two office supply superstores in Boise; and Yakima, Wash. The outlets stock more than 3,000 different items. Shoppers can order more than 20,000 additional items through the company's catalog.

In addition to stocking a full line of office staples, Club Wholesale Office Supply carries computer systems, telephones, facsimile machines, calculators, typewriters, office furniture, overhead projectors, televisions, VCRs, cash registers, paper shredders, lights and best-selling business books.

Roark said the company is price-driven, providing shoppers with as much as 70 percent savings on merchandise, based on manufacturers' suggested retail prices. ''Club Wholesale will not be undersold,'' Roark said. ''We guarantee the lowest prices in our markets.''

Furthermore, he said the company is service oriented, offering customers the ability to place orders via telephone and FAX machines. The store even gives customers free coffee while they shop. Roark said the company also delivers orders, and its on-site business service centers provide customers with such services as photocopying, faxing, engraving and custom rubber stamp making.

ENGLEWOOD, CO (AUG. 14) BUSINESS WIRE - Basic Earth Science Systems Inc. incurred a net loss of $27,000, less than one cent per share, on oil and gas sales of $423,000 for the quarter ended June 30, 1990, Basic's first fiscal quarter, compared to net income of $32,000, less than one cent per share, on revenue of $451,000 for the comparable 1989 quarter, announced G. W. Breuer, president.

The decrease in oil and gas sales, and subsequent net loss, in the 1990 quarter can be attributed to normal production decline from 20,965 barrels in the 1989 quarter to 19,540 barrels in 1990 together with a decrease in the average price per barrel from $17.66 in 1989 to $16.12 in 1990.

Basic is an oil and gas exploration and production company with primary operations in south Texas and the Williston and Denver-Julesburg basins in the Rocky Mountain Region.

Basic is traded on NASDAQ under the symbol BSIC.

MELVILLE, NY (AUG. 14) BUSINESS WIRE - AVIATION EDUCATION SYSTEMS INC. (NASDAQ: AES.X) announced Tuesday that it has acquired all of the outstanding common stock of BARTON ATC Inc., a prominent private air traffic control company, in consideration for $1 million in cash and the issuance of 1.5 million shares of AES common stock.

BARTON's assets are estimated at $3.7 million with liabilities of approximately $250,000. BARTON's revenues for the first five months of 1990 were $941,000. The acquisition adds a much needed asset and revenue base to AES and is the first major step in AES's expansion in the highly lucrative private air traffic control industry.

The capabilities, experience and reputation of BARTON ATC Inc., combined with the resources, commitment and global capability of AES, now places AES in a far stronger position to meet the growing demands for air traffic control and educational services in private sector support of governmental operations, not only in the United States but throughout the world. BARTON ATC Inc. is currently involved in a wide variety of international projects, including the building of air traffic control simulators, towers and weather stations for service both in the United States and internationally.

AES also announced Tuesday that it has entered into an agreement to sell 2,687,500 shares of its common stock to Commcept Ltd., a Swiss corporation at a price of 65 cents per share. As of Aug. 13, 1990, 1.5 million shares had been sold pursuant to this agreement and the company anticipates that the balance of the shares will be sold by Aug. 23, 1990. The subscription agreement provides Commcept with registration rights for its shares.

LAS VEGAS (AUG. 14) BUSINESS WIRE - Dunes Hotels and Casinos Inc. (the ''company'') Tuesday announced that its current assets exceeded its current liabilities by $6,653,000 at June 30, 1990.

The company's current assets decreased $6,027,000, principally as a result of investments in real property, and current liabilities decreased $2,166,000 for the period ended June 30, 1990 over the year ended Dec. 31, 1989.

The company's shareholders' equity increased $387,000 from Dec. 31, 1989 to June 30, 1990. The company's announcement is based upon information contained in its quarterly report on form 10-Q for the quarter ended June 30, 1990, filed with the Securities and Exchange Commission.

The company also announced that it settled disputes with Nevada Gaming Authorities regarding compliance with various Nevada gaming rules and regulations for the period Oct. 1, 1980 through Aug. 31, 1983 and Sept. 1, 1983 through Nov. 30, 1985, and the company's claim for refund of pre-paid gaming taxes for the period ended June 30, 1988.

In settlement of all such disputes and claims, the company paid the Nevada Gaming Commission approximately $452,000.

The company further announced that a jury in Clark County, Nev., returned an $8.7 million verdict in an eminent domain action, originally filed in 1983 by the State of Nevada, to condemn certain unimproved land owned by the company in Las Vegas.

The verdict includes approximately $2.4 million received by the company at the commencement of the action. The funds have not been paid to the company, and the state's appeal rights have not been waived or exhausted.

At a result, the company has not treated the verdict in the financial statements for the quarter ended June 30, 1990.

WALNUT CREEK, CA. (AUG. 14) BUSINESS WIRE - Longs Drug Stores Corporation today announced an 11 percent increase in sales and a 3 percent increase in net income for the second quarter ended July 26, 1990, the declaration of a 26 cent quarterly dividend, and the appointment of two officers.

Unaudited sales for the second quarter were $558,687,000, as compared to $503,365,000 reported for last year. Sales for the two quarters ended July 26, 1990, increased 10 percent to $1,096,113,000 from $996,180,000 reported for the like period last year.

Unaudited net income for the second quarter was $15,660,000, or 77 cents per share, as compared to $15,248,000, or 74 cents per share, reported for last year. Net income for the two quarters ended July 26, 1990, increased 3 percent to $30,461,000, or $1.50 per share, as compared to $29,680,000, or $1.45 per share, reported for the like period last year.

The Board of Directors declared a quarterly dividend of 26 cents per share of Common Stock to holders of record at the close of business August 28, 1990, payable October 2, 1990.

The Board also announced the appointments of Richard A. Collins and James D. Sweeney to the position of Vice President-District Manager. Collins joined the Company in 1962 and Sweeney has been with Longs since 1973. Both moved up through the ranks in store management to positions of District Manager, which they both achieved in 1988.

Longs now operates 253 stores in California, Hawaii, Alaska, Arizona, Nevada and Colorado. Three new stores were opened during the quarter. Currently the Company has 11 stores under construction and anticipates opening eight more stores before the end of the fiscal year.

NEW YORK (AUG. 14) BUSINESS WIRE - B+H Maritime Carriers Ltd. (ASE:BHM) reported Tuesday operating results for the three- and six-months periods ended June 30.

The shipping company also announced that its board of directors had declared a dividend of 15 cents per share, payable Sept. 7 to shareholders of record as of Aug. 24.

For the second quarter of 1990, B+H Maritime Carriers reported net income of $729,000, or 24 cents per share, on revenues of $6,392,000, from the operation of five bulkcarriers and five product tankers, compared to net income of $753,000, or 24 cents per share, on revenues of $4,043,000, in the prior year's second quarter, during which four vessels were delivered, bringing the company's total fleet at June 30, 1989 to five bulkcarriers and four product tankers.

The decline in net income in the second 1990 quarter as compared to the like 1989 quarter is primarily attributable to an increase in vessel operating expense for the company's full fleet of vessels and to a substantial increase in the purchase of spare parts for three vessels. This year's revenues also reflect an approximate 8.5 percent decline in COTCO charter rates which was partly offset by an increase in on-hire days and an approximate 19.5 percent rise in PROTRANS charter rates.

In the 1990 six-month period, net income was $1,697,000, or 55 cents per share, on revenue of $12,617,000, compared to net income of $967,000, or 38 cents per share, on revenues of $5,618,000, in last year's six-month period.

The 1989 six-month results reflect the commencement of the company's operations on Feb. 3, 1989, when the company acquired its first vessel.

The company did not drydock any vessels during the second 1990 quarter. However, over the balance of 1990, three vessels are scheduled to be drydocked, one in the third quarter and two in the fourth quarter.

#90226b0311 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - B+H Bulk Carriers Ltd. (NASDAQ:BULKF) reported operating results for the 1990 second quarter and first half-year 1990.

The company also disclosed that the board of directors had elected not to pay a quarterly dividend covering the recent three-month period. The shipping company has paid quarterly dividends since January 1988.

For the quarter ended June 30, 1990, the company incurred a net loss of $658,000, or 32 cents per share, on revenues of $2,707,000, compared with net income of $9,266,000, or $4.54 a share, on revenues of $11,942,000.

In the six months ended June 30, 1990, the company incurred a net loss of $985,000, or 48 cents per share, on revenues of $5,275,000, compared with net income of $10,640,000, or $5.21 per share, on revenues of $16,294,000. Revenues in 1989 include a $8,519,000, gain on the sale of two vessels.

Apart from the impact of this gain, the decline in the results of the company in the second 1990 quarter compared with the same period a year ago reflects primarily (1) a loss of revenue from substantially more off-hire days (2) an approximate 8.5 percent decline in COTCO charter

rates, and (3) an increase in operating expenses, mainly attributable to an increase in drydocking costs and a significant increase in repair and spare parts costs incurred for two vessels.

The company expects to drydock one more vessel before year end in the third quarter.

Mr. Hudner indicated, ''We view upgrading of the vessels as an important investment in the future as it will prolong the life of our ships and improve shareholder returns.''

The company operates seven hand-size dry bulkcarriers.

SEATTLE (AUG. 14) BUSINESS WIRE - Horizon Air Tuesday issued the following statement:

We are extremely disappointed and perplexed that on Aug. 13, 1990, Judge Marsh issued an order finding that Horizon had not made reasonable efforts to reach and maintain an agreement with the Association of Flight Attendants (AFA), the union representing the company's flight attendants.

As we have maintained all along, AFA's insistence on ''major airline'' concepts and union security has been the greatest roadblock to progress in achieving a first labor agreement covering our flight attendants. Horizon

has consistently maintained a position of providing wages and working conditions which are competitive with those provided by our regional airline competitors. That Judge Marsh would construe the negotiation process that resulted from the parties beginning so far apart as bad faith negotiating is unfounded and we believe to be legally incorrect. We have directed that an appeal be filed with the 9th Circuit Court of Appeals in San Francisco.

In the meantime, we will reiterate to the National Mediation Board (NMB) that Horizon stands prepared to negotiate. The NMB has been very helpful in bringing an understanding to the table about the realities of the regional airline industry, and instrumental in helping achieve agreement on the majority of sections of the proposed contract. At this point tentative agreement has been reached on 18 of the 25 major sections of the contract. Unfortunately, AFA's demand for issues involving union security still appear to be the major impediment to achieving a contract.

FOSTER CITY, CA (AUG. 14) BUSINESS WIRE - Blyth Software announced Tuesday its selection as a Microsoft SQL Business Partner.

Blyth, developer of the best-selling Omnis development environments for both Windows 3.0 and Macintosh desktops, is distinguished among its 150,000 current customers by its commitment to user training, and will be bundling Microsoft SQL Server and the complete Macintosh/PC Omnis development software with a one-week training course in SQL application development.

''Together, SQL Server and Omnis 5 offer a powerful development platform for client-server applications that take full advantage of the rich Windows 3.0 graphical environment. Training from Blyth creates an excellent opportunity for users to get started with graphical client-server applications,'' said Dwayne Walker, SQL Server product manager at Microsoft Corp.

''The same Omnis applications run without modification or recoding on Macintoshes, under Windows 3.0 and, soon, the OS/2 presentation manager,'' said A. Brean Murray, Blyth president and chief executive officer.

''There is now an incentive to bring large system applications to the desktop, to relieve minis and mainframes of data validation and presentation overhead.

''In other words, servers can now dish up massive amounts of data, leaving applications development and execution to less expensive (on a dollar-per-MIPS basis) desktop platforms.''

Murray concluded with one of the many Omnis technological innovations: ''Omnis customers such as Walt Disney Productions and U.S. Sprint have taken advantage of the rich Omnis bit-mapped graphics capability and the SQL LONG VARCHARACTER data type to store graphical objects in mainframe and minicomputer SQL databases. We feel this graphical technology, along with our commitment to training, will greatly strengthen our relationship with Microsoft.''

Added Walker, ''We think everyone from real estate companies to wholesale suppliers will be displaying pictures and even animation using SQL Server and Omnis.''

#90226b0333 08/14/1990 ~Business Wire

EL PASO, TX (AUG. 14) BUSINESS WIRE - Tony Lama Company Inc. (NASDAQ:TLAM) Tuesday announced the results of operations for the three-month and six-month periods ended June 30.

Net sales for the three-month period ended June 30 were $16,035,000 compared with $16,080,000 for the comparable period of 1989. Net loss for the second quarter of 1990 was $901,000, or 47 cents per share, compared with a net loss of $130,000, or 7 cents per share, for the comparable period of 1989.

For the six-month period ended June 30, 1990, net loss was $1,977,000, or $1.02 per share, on net sales of $29,211,000 compared with a net loss of $191,000, or 10 cents per share, on net sales of $34,043,000 for the like period last year.

The loss for the second quarter of 1990 as compared with the like period in 1989 primarily resulted from a decrease in gross margins because of increased product costs due to workers' compensation insurance and material costs and an increase in selling expenses in advertising, salaries and operating eight additional retail stores.

Partially offsetting these expense increases was a decrease of 13 percent in general and administrative expenses resulting from substantial payroll cuts.

The loss for the six-month period ended June 30, 1990, as compared with the like period in 1989 was primarily due to a 14 percent decrease in sales, a decrease in gross margins because of costs increases of workers' compensation insurance and material costs and an increase in selling expenses in advertising, salaries and operating eight additional retail stores.

Partially offsetting these expense increases was a decrease of 7 percent in general and administrative expenses.

#90226b0365 08/14/1990 ~Business Wire

LA JOLLA, CA (AUG. 15) BUSINESS WIRE - Precision-Aerotech Inc. (ASE:PAR) Thursday announced a 33 percent increase in sales to $71,923,000 for the year ended April 30, compared with sales of $53,984,000 in the prior year.

These sales amounts do not include sales of a former subsidiary, Micronics International, which is accounted for as a discontinued operation.

The company reported a net loss of $9,856,000, or $2.99 per share after adjusting for the effect of preferred stock dividends, compared with a net loss of $4,444,000, or $1.41 per share, for fiscal 1989. Funded backlog at year end was approximately $63.6 million compared with $72.9 million a year ago.

The majority of the decrease in backlog levels occurred at the Aero Technologies subsidiary where two large unprofitable contracts were completed during the period and a potentially unprofitable follow-on contract was terminated for the convenience of the government.

For the three months ended April 30, 1990, sales increased to $18,908,000 compared with $16,604,000 for the like period a year earlier, after the elimination of Micronics International as a discontinued operation. The net loss was $2,391,000, or 71 cents per share after preferred stock dividends, compared with $1,248,000, or 39 cents per share, for the like quarter of the prior year.

The sales increase is primarily the result of the company's first full year of sales from the Speedring Inc. and Speedring Systems subsidiaries acquired during the prior fiscal year. The two Speedring subsidiaries and the L&S Aerotech subsidiary performed very well during the year.

As communicated earlier in the year, the company's operations at the

Micronics International Inc. subsidiary were stopped. Chapter 11 bankruptcy proceedings were initiated and substantially all of the assets of the business were sold. Proceeds from the sale were used to reduce term loan balances.

Losses from operations and the write-down of investment in Micronics adversely impacted earnings by $5,775,000, or $1.71 per share. This brings to a conclusion a very unfortunate and frustrating experience for the company.

Operating losses for the year at the Coast Aerotech and Aero Technologies subsidiaries resulted from the recognition of losses on certain contracts.

#90226b0383 08/14/1990 ~Business Wire

LOS ANGELES (AUG. 15) BUSINESS WIRE - C.M. Communications Inc. (NASDAQ:CMCOM) announced Tuesday its revenue and net loss for the second quarter ended June 30, 1990.

The company's net loss for the second quarter was approximately $516,000, or 36 cents per share, on revenues of $5,903,000. For the same period last year, net income was $159,000, or 24 cents per share on revenues of $5,230,000.

The loss resulted from several factors, some of which the company believes could affect its ability to generate profits in the future.

One of the primary factors causing the second-quarter loss was the continued decline of overall margins in the cellular industry. A comparison of the company margins for the second quarter to those of the same period last year shows that the margin declined from 17 percent on revenues of $5,663,000 to 7 percent on revenues of $5,903,000.

Although the company expects that the higher margins available on sales of its OEM product will compensate for the overall decline in industry margins, during the second quarter the sales of the company subsidiaries which sell the OEM product were significantly below expectations.

This was due to several factors including certain quality problems which the company believes in large part have been resolved, customer resistance to a new line and greater than anticipated finance costs.

Effective the end of August 1990, the company will be terminated as a distributor for one of its less significant manufacturers but the company

believes that such termination will not have a materially adverse effect on gross profits due to the extremely small margins available on those products.

The company is currently out of compliance with certain loan covenants under its revolving line of credit with its bank and is currently attempting to renegotiate the terms of such arrangement. The company believes that successful restructuring of such arrangement is necessary in order for the company to satisfy the anticipated cash requirements of its business.

#90226b0609 08/14/1990 ~Business Wire

FREMONT, CA (AUG. 14) BUSINESS WIRE - Vitalink Communications Corp., a leading LAN internetworking company, announced Tuesday that it has added multi-protocol routing support to the Vitalink TransPATH family of bridge/routers.

TransPATH, which previously routed only TCP/IP, will now route XNS and IPX protocols.

''The addition of these routing protocols to TransPATH positions Vitalink as a prime contender in the multi-protocol router market,'' said Donald J. Herman, Vitalink's chairman and chief executive officer.

Available in October, the new 11.2 software release will enable TransPATH users to add routing capabilities for both Xerox and Ungerman-Bass versions of XNS as well as Novell IPX protocol suites.

Developed and implemented as a network standard by Xerox, XNS is also currently implemented as a network standard by Metaphor, Intergraph and 3Com. Ungerman-Bass XNS, a proprietary version of XNS, can only be routed by an Ungerman-Bass XNS compatible router. Novell IPX, a proprietary protocol based on XNS, is commonly found in both Ethernet and Token-Ring networks. IPX is used in PC-based networks that use Novell Netware Servers.

In addition to XNS and IPX support, this new TransPATH software offers several significant TCP/IP routing enhancements including IP socket level security. With socket level security, TransPATH will have the ability to filter IP applications such as telnet, FTP, TFTP, and SMTP, providing users increased control over information accessed to and from any IP applications.

The router also offers increased network security by participating in IP inherent protocol suite security. Other enhancements include Exterior Gateway Protocol (EGP), which allows autonomous systems to communicate: SNMP MIB II, the most up to date Management Information Base for the Simple Network Management Protocol; and IBM Source Routing, which enables router protocols to pass beyond a source routing bridge.

Current TransPATH users can add, as a field installable software release, the new XNS and IPX routing features. The 11.2 software release will retail for US$2,500 for the VX350 model and US$2,000 for the new VX335 model. A complete TransPATH 335 bridge/router for US$13,500. Current and potential TransPATH users can order the 11.2 software release or TransPATH systems by contacting Vitalink directly at 1-800/767-4533.

#90226b0610 08/14/1990 ~Business Wire

CULVER CITY, CA (AUG. 14) BUSINESS WIRE - At its annual meeting Aug. 3, Showscan Film Corp. (NASDAQ:SHOW) announced a new sale of a Dynamic Motion Simulator (DMS) to be installed in Abu Dhabi (United Arab Emirates) in 1990.

The shareholders also approved a change in the company's name, removing the world ''Film.'' According to Roy Aaron, president and chief executive officer: ''The name 'Showscan Corp.' better identifies us as a technology company whose business is images and experiences using the best of film and video sources.

''It more accurately positions our broad range of products including the DMS and our involvement in high-definition television.''

Aaron also said Showscan's DMS sales and proposal activity ''increased dramatically'' following the successes reported in Japan and Las Vegas over the past eight weeks, causing the company to raise its DMS sales expectations for the current fiscal year, ending March 31, 1991.

Aaron told shareholders additional DMS sales are expected to be announced within the next few weeks.

''Our string of successes grew with the opening of the new DMSs at Odakyu Mukugaoka, in Tokyo, and at Gardaland, near Verona, Italy,'' Aaron said. ''The Gardaland DMS was originally scheduled to operate only four hours per day, but the audience reaction has kept it open for eight to 10 hours each day.

''There are now eight DMSs operating worldwide with two more scheduled to open next month at the Tokyo Roof Center adjacent to Shimbashi Train Station. We are very optimistic about the future of the DMS product line and are devoting considerable resources to it.''

Aaron added: ''We're now expecting to deliver and install considerably more DMSs during fiscal 1991 than we had originally planned. We expect that fiscal 1991 revenues will be approximately equal to those in fiscal 1990, but those revenues are likely to be dominated by the expansion of the DMS installed base.

Showscan Corp. develops and supplies advanced image and experience technologies that stimulate, entertain and educate the public. It is also developing products for use in high-definition television.

#90226b0611 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - PolyGram NV - one of the world's three largest recorded music groups and the largest outside the United States - announced Tuesday that its net sales and income from operations in the first six months of 1990 were higher than any equivalent period in the history of the company.

While net income and net income per share were lower than in January-June 1989, this was partly due to the loss of interest income as a consequence of using cash reserves for acquisition in 1989.

PolyGram's net sales were a record Netherlands Guilders (NGL) 2,177 million, 24.5% higher than the NLG 1,749 million recorded in the first half of 1989. Income from operations was NLG 188 million, compared with NLG 181 million last year. Net income and net income per share were NLG 118 million and NLG 0.69 respectively in the first half of 1990, compared with NLG 148 million and NLG 0.93 for the same period in 1989.

The sales for the first six months of 1990 were influenced positively by the acquisitions of Island in 1989 and A&M as of January 1990. There were also the positive effects of the consolidation of PolyGram Taiwan and of the increase in PolyGram's stake in one of its Japanese companies, Nippon Phonogram, from 50%-63% effective January 1990.

Net income was further impacted by the loss of interest income on funds

subsequently used for the purchase of Island and A&M Records and for music publishing acquisitions. These funds earned NLG 46 million in interest income in 1989, whereas interest income in the first half of 1990 was only NLG 8 million.

Earnings per share for the six month period therefore show a reduction to NLG 0.69, against last year's first half figure of NLG 0.93, having been diluted further on a comparative basis by the additional 10 million shares outstanding since the flotation in December 1989.

#90226b0612 08/14/1990 ~Business Wire

FREMONT, CA (AUG. 14) BUSINESS WIRE - Vitalink Communications Corp., a leading LAN internetworking company, announced Tuesday a new bridge and bridge/router platform.

The new VX335 is a competitively-priced platform available as either an entry-level TransPATH remote Ethernet bridge/router or a mid-range TransLAN remote Ethernet bridge. Vitalink also announced the availability of several other enhancements for its TransPATH, TransLAN and TransRING systems.

According to Maureen A. Lawrence, Vitalink's assistant vice president for product marketing, ''The VX335 lets us offer customers both an advanced bridge and a superior bridge/router at a very competitive price. The VX335 enables customers to purchase a two port bridge or bridge/router with excellent price/performance.''

The VX335 can operate as a bridge/router with the TransPATH 11.1.4 software release or as a bridge with the TransLAN 10.3.4 software release. This new platform offers users one Ethernet port and two CCITT V.35 serial ports and supports a bandwidth of two T1/E1 lines.

Customers using the VX335 can also upgrade their TransPATH software to the new multi-protocol 11.2 software release, which was also announced today,

enabling them to route IPX and XNS in addition to TCP/IP.

This VX335, including software, will be available September 1 as a TransPATH 335 bridge/router for U.S.$13,500, or as a TransLAN 335 bridge for US$12,750.

Vitalink also announced today that several new features will be made available to customers using the TransPATH, TransLAN and TransRING systems via two new software releases. Scheduled for availability in October, the 10.4 and 20.2 field installable software releases will include features such as multicast damping and single destination damping.

Both damping features, which detect abnormally high traffic levels often generated by malfunctioning devices on the local area network (LAN), can significantly increase the reliability of a backbone network.

Additional features include enhanced filtering capabilities, an improved user interface, the ability to segment the network into separate bridged domains, concurrent support for both IEEE 802.1 Spanning Tree Protocol and Digital Equipment Corp.'s version of Spanning Tree Protocol, more detailed traffic statistics, and the ability to manage Vitalink's Token-Ring systems using IBM's LAN Manager network management program.

Additionally, Vitalink announced that customers using TransPATH 350, TransLAN 350 or TransRING 550 can configure their systems to support three T1 lines. VX350 systems can be upgraded via the 10.4 software release and the addition of new serial interface cards, available this October. The serial interface cards support a variety of interfaces including CCITT V.35 and are priced at US$2,500 each.

Customers wanting to order the VX335, the expanded T1 support for their VX350 platform or the capabilities of 10.4 or 20.2 can contact Vitalink directly at 1-800/767-4533.

#90226b0616 08/14/1990 ~Business Wire

OWINGS MILLS, MD (AUG. 14) BUSINESS WIRE - Universal Security Instruments Inc. (NASDAQ:USEC) Tuesday announced results for the first quarter ended June 30.

The company reported a rise in net income of 127 percent to $121,974, or 4 cents per share, compared to net income of $53,688, or 2 cents per share, for the first quarter last year. Sales for the first quarter wre $4,995,269 compared to $6,240,809 for the like quarter last year.

Universal further stated that it has commenced initial deliveries of innerView (TM), a wireless broadcast system. The innerView appears to be the most significant product introduction in Universal's recent history and the company is presently planning to increase production capacity in order to meet customer demand. The company also stated that its telephone business is progressing substantially better than anticipated. Based, in part, on increased sales from innerView and telephones, the company expects to report increased sales and earnings in its second quarter ending Sept. 30.

Due to the fire on March 28, which totally destroyed Universal's plant and administrative offices, the company has not been able to complete its audited financial results for the year ended March 31. The company anticipates completion of the results of the past fiscal year within thirty days.

Universal Security Instruments Inc. designs, manufactures and markets video, telecommunications and security products.

SUNNYVALE, CALIF. (AUG. 14) BUSINESS WIRE - Logic Devices Inc. (NASDAQ:LOGC) Tuesday reported net income of $360,000, or 8 cents per share, on net sales of $3,231,000 for the second quarter ended June 30, 1990.

Net income for the six-month period ended June 30, 1990 was $793,000, or 17 cents per share, on net sales of $6,511,000.

''During the quarter we completed both internal and customer qualifications on many of our ultra high-speed SRAMs. These products offer leadership performance with 8 nanoseconds (ns) access time at the 16K and 64K densities and 12 ns at the 256K level.

''In addition, we began characterization of our new broad line of FIFO and dedicated cache memory chips which will be introduced later this year. We expect these new products to fuel growth during the second half of 1990,'' stated Bill Volz, president of Logic Devices.

Logic Devices also announced the company has signed a non-exclusive agreement with AT&T Microelectronics which licenses AT&T to manufacture and sellproducts designed by Logic. The initial products licensed include Logic's ultra-fast static random access memories (SRAMs).

The two companies have also agreed to extend the current wafer foundry agreement, signed in January 1989 until 1996. The foundry agreement provides Logic Devices finished silicon wafers from AT&T for manufacturing its advanced products.

''We believe this long-term cooperative relationship between AT&T and Logic Devices will result in the proliferation of the world's fastest family of high-speed static memory products,'' explained Volz.

Logic Devices manufactures ultra high-performance CMOS digital integrated circuits for applications requiring high operating speeds and low operating power. The company's products include performance leadership SRAMs, arithmetic computational circuits used in real-time and signal processing applications, and proprietary products which address specific application requirements.

The company's products are used in numerically intensive applications including computers, workstations, medical instruments, video image processing and telecommunications.

#90226b0619 08/14/1990 ~Business Wire

LOS ANGELES (AUG. 14) BUSINESS WIRE - The Kushner-Locke Co. (NASDAQ:KLOC) Tuesday reported increased revenues and net earnings for the third quarter ended June 30, 1990.

The company reported revenues this year of $4,848,000 compared with $1,110,000 for last year and net earnings of $210,000 compared with $41,000 for last year.

Kushner-Locke's current production activities include 15 half-hour episodes of its long-running (sixth season) comedy series ''First and Ten'' for HBO, a two-hour NBC television movie ''Cops Are Robbers,'' starring Edward Asner and Ray Sharkey, 34 episodes of a new nationally

syndicated television series ''The Krypton Factor'' and 13 episodes of a late-night television series for CBS entitled ''Sweating Bullits.''

During the third-quarter 1990, the company had completed production and had delivered ''Murder C.O.D.,'' a NBC two-hour television movie as well as ''Aladdin,'' a one-hour music special for Disney.

Co-Chairman Peter Locke and Donald Kushner reported that increased revenues and earnings for the quarter ended June 30, 1990, were attributed to the later delivery and revenue schedule for this year's programming as opposed to last year's earlier one. Revenues from production are not recognized by the company until the programming is available for delivery and/or delivered.

Founded in 1983, The Kushner-Locke Co. is one of the leading independent television production companies engaged in developing and producing television series, pilots, movies-for-television, miniseries, and animated programming.

#90226b0620 08/14/1990 ~Business Wire

GREENBELT, MD (AUG. 14) BUSINESS WIRE - Group 1 Software (NASDAQ/NMS:GSOF) Tuesday reported revenue of $4,921,000 for the first fiscal quarter, ended June 30, as compared with revenue of $4,733,000 for the like quarter the prior year.

Net earnings were $747,000, or 18 cents per share, as compared with $691,000, or 17 cents per share, reported for the like quarter last year. Both revenue and net earnings were the highest for any first quarter in Group 1's history.

The company launched the marketing program for its new AS/400 midrange computer software during the first quarter. This represented significant expense in advance of offsetting revenues, since the full midrange software line will be phased-in over coming months. Response to the initial marketing effort has been excellent and sales pipelines are building.

License and maintenance/enhancements revenue for Group 1's mainframe software continued to be strong. Revenue for PC products was depressed during the quarter, however, by the transition to dealer distribution, which offers substantially greater volume potential for the long term.

Group 1 Software is the leading supplier of computer software for the

direct marketing industry and for other volume mailers. The company's customer base for mainframe computer software now totals approximately 950 clients, including a number of Fortune 500 companies and other premiere organizations in the U.S. and Canada. Approximately 4,500 copies of Group 1's microcomputer (PC) software packages are in use.

REDMOND, WA (AUG. 14) BUSINESS WIRE - Microsoft Corp. Tuesday shipped Microsoft LAN Manager version 2.0, the advanced network operating system for MS-DOS, Windows and OS/2 users.

The new version provides significant new product features with an innovative pricing scheme that delivers top-of-the-line functionality for all users, regardless of the size of their network.

Traditional ''server-based'' pricing schemes for networks restrict product functionality for small networks and require users to purchase dramatically more expensive versions of the product for more powerful servers. With LAN Manager version 2.0, there is only a single LAN Manager product, which is priced at $995. Customers then buy as many, or as few, additional user packs as they require to support the number of users connected to the server. Each additional set of ten users costs $995 each; the price for an unlimited number of users is $5495.

To make the product especially appealing to customers with small networks and to development teams, LAN Manager comes with support for five users built in at no charge. This makes the product very inexpensive for companies installing small LAN Manager workgroups or test sites, or

setting up LAN Manager or Microsoft SQL Server product development teams.

This ''user-based'' pricing scheme allows customers to size their system economically, without sacrificing functionality in a small network, and without incurring a cost penalty for using more powerful servers. Each pricing level includes every product feature -- from 386/486 support to domains to fault tolerance.

With the release of LAN Manager version 2.0, Microsoft is also inaugurating a new distribution program through reseller channels. The Network Specialist Program, announced earlier, will make LAN Manager available directly to end users through carefully selected and trained networking resellers. Microsoft is supporting resellers with the largest development and marketing initiative the company has ever made, and putting into place substantial support programs for both resellers and end users. In addition, LAN Manager remains the standard PC network operating system provided by leading computer manufacturers such as 3Com, AT&T, Digital Equipment Corp., Hewlett-Packard, IBM, NCR, Olivetti, Ungermann-Bass, Unisys and others.

Microsoft Corp. (NASDAQ:MSFT) develops, markets and supports a wide range of software for business and professional use, including operating systems network products, languages and application programs, as well as books, CD ROM products and hardware for the microcomputer marketplace.

CHICAGO (AUG. 14) BUSINESS WIRE - GEO International Corp. (NYSE, PSE:GX) announced earnings for its third fiscal 1990 quarter of $335,000, or 2 cents per share, on revenues of $41 million.

In the prior year comparable quarter, the company reported a loss of $2.1 million, or 13 cents per share, on revenues of $42.4 million.

For the nine months ended June 30, earnings were $672,000, or 3 cents per share, on revenues of $119.6 million. In the prior nine month comparable period, the company reported a loss of $8.3 million, or 51 cents per share on revenues of $121.9 million.

John E. McConnaughy Jr., chairman and chief executive officer of GEO, said all operating segments of the company showed improvement over the prior

nine month period.

GEO International Corp. provides: equipment, inks and supplies to the graphic arts industry, production equipment and supplies to the oil and gas industry and non-destructive testing services to assure quality to many industries.

SAN MATEO, CA (AUG. 14) BUSINESS WIRE - Bay Meadows Operating Co. and California Jockey Club (ASE:CJ) Tuesday reported a 23 percent increase in revenues for the quarter ended June 30, 1990, compared with the like period a year ago.

Revenues were $3,051,000, compared with $2,483,000 for the second quarter of 1989. The companies reported a decline in net losses to $1,187,000, or 21 cents per share, compared with a loss of $1,304,000, or 23 cents per share, in 1989.

For the first six months of 1990, revenues increased 19 percent to $13,428,000 compared with $11,254,000 for the first six months of 1989. During the first six months of 1990, the companies reduced their losses to $437,000, or 8 cents per share, compared with a loss of $1,148,000, or 20 cents per share, a year ago.

The 1989 results reflect the cumulative effect of a change in the method of accounting for income taxes.

Because the companies' primary source of revenue is the thoroughbred race meeting which takes place between August and January, the results of operations from the first six months are not representative of results to be expected for the full year.

''Our improved results thus far in 1990 reflect the impact of an enhanced racing program, including the return of a quarter horse racing meet, and an expanded night satellite program of quarter horse and harness racing,'' said James P. Conn, president of Bay Meadows Operating Co.

''We have shown substantial improvement in our results of operations over the past three quarters. During this nine-month period, revenues were $39.4 million, an increase of 6.5 percent over the comparable year earlier nine-month period and net income was $3.1 million, an increase of 146 percent over the comparable year earlier nine-month period.

''We believe this demonstrates the success of our efforts to build a strong future at Bay Meadows,'' Conn added. ''Our performance for all of 1990 will be heavily dependent on the results of our 22-week thoroughbred race meet which begins Aug. 24.

''We have been working aggressively to enhance our racing program through improvements to the track surfaces and the recruitment of better horses. In addition, we have scheduled an exciting program of special events and stake races, including the Bay Meadows Handicap, which will be televised live nationally on ESPN. We are highly optimistic about the upcoming meet.''

California Jockey Club is one of the nation's three publicly held real estate investment trusts whose primary asset is a horse racing track. Bay Meadows Operating Co. operates Bay Meadows Racetrack on the San Francisco Peninsula. The companies' shares are traded as a single unit under a pairing agreement on the American Stock Exchange.

FORT WORTH, TX (AUG. 14) BUSINESS WIRE - Paul I. Stevens, Chairman and Chief Executive Officer of Stevens Graphics Corporation (AMEX:SVGA & SVGB) today announced a realignment of responsibilities for several of the Company's top executives.

C. Philip Crampton is promoted to Corporate Senior Vice President-Technology, reporting to the Chief Executive Officer. Fred H. Harding is promoted to Corporate Senior Vice President, reporting to the Chief Executive Officer, handling special assignments.

Richard I Stevens, President and Chief Operating Officer of Stevens Graphics Corporation, has been given the additional responsibility of President of The Hamilton- Stevens Group. Andrew J. Jones has been promoted to Executive Vice President of The Hamilton-Stevens Group. Jones will be in charge of all functions except marketing and sales, which will be headed by Richard H. Bell, Corporate Vice President-Marketing.

Stevens stated, ''The present business environment and our continuing growth and acquisition activities create new and changing challenges. These organizational changes are aimed at meeting these challenges and are a part of our ongoing process of upgrading and increasing our capabilities and effectiveness.''

Stevens Graphics Corporation, headquartered in Fort Worth, Texas, is the

only U.S. based company that designs, manufactures and markets web-fed offset, gravure, flexographic, and intaglio printing and packaging press systems, collators, and related pre-press, printing and post-press equipment on a worldwide basis.

The Company serves the packaging, commercial, business forms, and currency/securities segments of the U.S./North American and international printing and packaging industries. Corporate strategy is to create a larger company, by internal growth and by acquisition, of industry-related companies, that provides ''complete systems solution'' lines of products.

#90226b0627 08/14/1990 ~Business Wire

WALNUT CREEK, CA (AUG. 14) BUSINESS WIRE - Mission Resource Partners L.P. (ASE:MRP) Tuesday reported results for the second quarter ended June 30, 1990.

Revenues decreased from $5,396,042 a year ago to $3,832,908, while net income was $697,285, or 16 cents per unit, compared with $1,663,321, or 38 cents per unit, a year ago. Cash flow per unit was 31 cents, compared with 60 cents in 1989.

For the six months ended June 30, 1990, revenues were $7,802,867, compared with $8,820,256 in 1989. Net income decreased to $1,508,493, or 35 cents per unit, compared with $2,046,967, or 47 cents per unit, a year ago. Cash flow per unit was 63 cents, compared with 85 cents in the like period a year ago.

''Our financial performance reflects a number of factors, including a significant drop in oil prices and the absence of revenues from several major properties which we sold as part of our restructuring program initiated last year,'' said Douglad K. Brown, president of Mission Resources Inc., MRP's manager.

Brown said these factors were offset by an increase in average gas prices received by the partnership from $2.06 per thousand cubic feet (MCF) to $3.01 MCF in the second quarter of 1990 and increased production from the Patrino Fee, the company's principal property interest.

''While we met our production budgets on the Patrino Fee property for the quarter,'' Brown added, ''the drop in prices resulted in a shortfall of

aproximately $800,000 from budget in revenue and cash flow.

''Accordingly, we will not pay a distribution for the second quarter as the cash flow from second quarter operations will be used to pay for capital expenditure requirements.

''However, assuming prices return to 1989 year-end levels, we expect to restore the distribution in the third quarter as new wells and increased production put us in an excellent position to capitalize on potentially higher oil prices in the months ahead.

''During the quarter, we completed a $7.3 million capital expenditure program on the Patrino Fee, adding 30 new producing wells and two water injectors, as well as finishing a major water treatment program,'' Brown said.

''Consequently,'' he continued, ''we have increased production levels from 1,560 Bbl per day and 1,820 MCF per day to 2,766 Bbl per day and 3,089 MCF per day. Complementing improved production from the Patrino Fee property were new 12-month contracts, effective July 1, 1990, which called for premiums of 66 cents per Bbl over oil price postings and 23 cents per MCF over utility industrial gas prices.''

The partnership's restructuring program helped reduce overall expenses by some $600,000 compared to the like quarter a year ago. During the quarter, several properties and property interests were sold for some $2.8 million, Brown said.

He added that the partnership continues to work with First Boston Corp. for the sale of its remaining assets and is continuing to hold discussions with prospective buyers or merger candidates.

Mission Resources Partners L.P. has interests in approximately 475 oil and gas wells which are located principally in California.

#90226b0629 08/14/1990 ~Business Wire

NEWBURY PARK, CA (AUG. 14) BUSINESS WIRE - HOH Water Technology Corp. (NASDAQ:HOHI,HOHIU,HOHIW) Tuesday announced the promotions of Ronald J. O'Hare to vice president, product development, and Henry Mora to engineering design manager.

The announcement was made by HOH President James E. Cruver.

Cruver said on commenting on the announcement, ''Ron's experience in the desing and installation sector of the water treatment industry has proven invaluable to HOH over the years and has, in large part, been responsible for the rapid development of the company's newest product as well as the refinement of our EDI product.''

Cruver said that O'Hare will supervise all aspects of the company's new water system products.

Mora is responsible for plastics mold and product design engineering and development of the company's water system products. ''Henry's versatility and experience has enabled us to develop superior designs for our growing family of products,'' Cruver said.

Since 1986, O'Hare has been the operations manager for HOH and involved in the company's ongoing research and development process.

Prior to HOH, O'Hare was with the service division of Culligan Water Conditioning for 14 years where he supervised the design, installation and

repair of domestic and industrial water purification systems.

He has extensive experience in water treatment applications, including cooling towers, boiler feedwater, ultraviolet, deionization and reverse osmosis systems. O'Hare is the son of HOH fonder and Chairman Harry M. O'Hare. He has been a director of the company since May 1987.

Mora first joined HOH in February 1988 to assist in the design and development of the company's EDI product systems. Before HOH, Mora was design supervisor for Spear System Inc., a mold component supplier to the Fortune 500 of the plastics industry.

He brings to HOH more than 15 years experience in specifying, designing and purchasing of manifold systems and components as well as material testing, mold start-ups and new product development. Mora has conducted seminars and trade shows in the plastic field and has experience in plastics sales.

A member of the Society of Plastic Engineers and the Society for Manufacturing, Mora is fluent in Spanish and has had wide experience with mold makers throughout the world.

HOH Water Technology is engaged in the development and supply breakthrough line of water filtration and treatment systems for residential, commercial and industrial water treatment.

#90226b0630 08/14/1990 ~Business Wire
FREMONT, CA (AUG. 14) BUSINESS WIRE - Flextronics Inc. (OTC:FLEX) Tuesday announced results for the quarter ended June 30, 1990.

Net sales were $28,956,000 with net income of $10,013,000, or $1.07 per share, including a pre-tax gain of approximately $15,196,000 on the recapitalization of its Asian operations. Net sales for the comparable period last year were $46,585,000 with a net loss of $2,277,000, or 25 cents per share.

Weighted average shares outstanding were 9,395,000 as compared with 9,281,000 for the like quarter of the prior year.

In the quarter ended June 30, 1990, the company completed the recapitalization of its Asian operations and reported a pre-tax gain of approximately $15,196,000 on the transaction. From the date of recapitalization, the company reports its investment in and income from

its Asian operations on the equity method as compared to the consolidated presentation used prior to the recapitalization.

Since the recapitalization was consummated late in the quarter, the impact of the transaction on the company's reported net income (loss) from operations was not significant for the quarter ended June 30, 1990.

Net sales for subsequent periods will not include sales of the Asian operations and the company's results of operations will include only the company's 44 percent share of the Asian operation's net income (loss).

The reported results for the quarter ended June 30, 1990, exclude net sales and operating losses of facilities which were closed or which are scheduled to be closed in connection with restructuring plans announced in the fiscal year ended March 31, 1990. Such losses were accrued as a charge to income in the year ended March 31, 1990.

The decrease in net sales for the quarter is due primarily to the April 1990 sale of a component test facility, the restructuring of U.S. operations including plant closures in December 1989, April 1990 and a planned closure in December 1990, and the reporting of the Asian operations' net sales only through the June 18, 1990 recapitalization date.

Flextronics Inc., headquartered in Fremont, is a leading provider of electronics contract manufacturing services to the computer, peripherals, medical, automotive and telecommunications industries.

#90226b0634 08/14/1990 ~Business Wire

BERKELEY, CA (AUG. 14) BUSINESS WIRE - Thoratec Laboratories Corp. Tuesday announced financial results for its second quarter ended June 30, 1990.

Sales of the Thoratec VAD System in the second quarter of 1990 were 36 percent higher than product sales in the second quarter of 1989 and sales for the first half of 1990 were 59 percent higher than those in the first half of 1989. This is primarily the result of new domestic and

international users of the Thoratec System in 1990 and continued purchases of the disposable portion of the Thoratec System by existing users.

Total revenue for the second quarter of 1990 was 6 percent higher than total revenue in the second quarter of 1989. This is the result of the off-setting effects of the increased product sales and a decrease in contract research and development revenues.

The comparisons of both total revenue and net income for 1990 and 1989 are heavily impacted by two 1989 transactions; a $1 million gain from a technology sale and a $5 million extraordinary gain from debt restructuring. Because of the decline in contract revenues and the major technology sale in the first quarter of 1989, total revenue for the first six months of 1990 was 34 percent lower than total revenue in the first six months of 1989.

Also because of the technology sale and the debt restructuring in the first half of 1989, net income for the first six months of 1990 was 104 percent lower than net income for the like period in 1989. Excluding the extraordinary gain and the gain from the technology sale, results from operations improved from a $807,000 loss in the first six months of 1989 to a $196,000 loss in the like period of 1990.

Results from operations in 1990 were improved from those in 1989 because of facility closures, related to the technology sale, which resulted in lower research and development and general and administrative expenses in 1990.

Net loss for the second quarter of 1990 was $48,000 (per share: $0.03 primary and fully diluted) and for the first six months was $196,000 (per share: $0.08 primary and fully diluted). Net income for the second quarter and first six months of 1989 were $4,507,000 (per share: $0.31 primary and fully diluted) and $5,151,000 (per share: $0.35 primary and $0.34 fully diluted), respectively.

All per share amounts reflect the deduction of accrued but unpaid preferred dividends.

In the quarterly report on Form 10-Q, filed this date with the SEC, the company also discussed a loan agreement with its new investor group. The company will continue to explore sources of additional working capital loans for ongoing operations.

CONTACT: Thoratec Laboratories, Berkeley

#90226b0635 08/14/1990 ~Business Wire

REDMOND, WA (AUG. 14) BUSINESS WIRE - Microsoft Corp. Tuesday announced the shipment of a new release of Microsoft SQL Server, the intelligent high-performance database management system for PC networks, coupled with a range of support and promotional programs to accelerate the development of new client-server applications.

''SQL Server has received a tremendous reception based on the excellence of the product,'' said Steve Ballmer, senior vice president of systems software at Microsoft. ''The industry has already judged SQL Server the premier client-server network application on the market. SQL Server now supports not only traditional development tools but next-generation object-oriented GUI tools and applications.''

SQL Server has been rated number one in performance and functionality by InfoWorld and Software Digest, and more than 25 leading developers of database products are currently shipping front ends for it.

Enhancements for Easier Development, Administration

Developed jointly by Microsoft and Sybase Inc., SQL Server is an intelligent, high-performance relational database management system for personal computer local area networks (LANs) running under the OS/2 operating system. Developed specifically for client-server computing, SQL Server can be accessed from a wide variety of client applications, also called front ends, running on MS-DOS, Windows and OS/2 workstations. It provides mainframe-caliber performance, security, data integrity and crash recovery features at PC prices and flexibility. Microsoft SQL Server version 1.1 retains full compatibility with SYBASE SQL Servers for UNIX and VMS.

Enhancements made to version 1.1 include:

-- New DB-Library interface. The applications programming interface has been rewritten to be smaller and faster; it now occupies only 40K rather than the original 80K, leaving more memory for applications.

-- Protocol-independent architecture. A new installable protocol architecture in DB-Library provides MS-DOS, Windows and OS/2 users the means to access SYBASE SQL Servers on other platforms in the future.

-- Network operating system independent. SQL Server offers tight integration with LAN Manager networks and now also supports any named-pipes-compatible network operating system including IBM LAN Server and Novell NetWare and, soon, Banyan VINES.

-- More flexible configuration. Microsoft added an option to the setup utilities to allow SQL Server to be configured on a stand-alone OS/2

workstation. This allows developers to use SQL Server for development without impacting production network environments. In addition, SQL Server comes in a package with support for five users, allowing small development teams to use the product inexpensively.

-- Easier administration. The SQL Server System Administration Facility (SAF) has been enhanced to make better use of network resources. The administrator can now display network IDs on screen and select those to be automatically defined by SQL Server.

-- New BASIC Language Support. SQL Server comes with an interface to Microsoft BASIC Professional Development System, allowing robust client-server applications to be developed with a modern, powerful structured BASIC.

-- Support for Microsoft Windows Environment Version 3.0.

-- Improved support for the SQL Server Database Gateway to DB2. Jointly developed by Microsoft and Micro Decisionware, the gateway is available from Micro Decisionware.

-- 30 days of free support. There is also a comprehensive set of new support plans.

Microsoft Corp. (NASDAQ: MSFT) develops, markets and supports a wide range of software for business and professional use, including operating systems network products, languages and application programs, as well as books, CD ROM products and hardware for the microcomputer marketplace.

#90226b0640 08/14/1990 ~Business Wire

EMERYVILLE, CA (AUG. 14) BUSINESS WIRE - Chiron Corp. (NASDAQ:CHIR) founded in 1981, Tuesday reported the first quarterly profit in the company's history.

A strong performance during the quarter by Chiron's joint diagnostic business with Ortho Diagnostic Systems Inc., a Johnson & Johnson company, and increased product sales at its subsidiary, Chiron Ophthalmics Inc., helped to almost double revenues over the second quarter of 1989.

Costs increased at a slower rate, as research and development and selling,

general and administrative expenses were essentially flat during the quarter compared to a year ago.

Chiron's year-to-date results also improved as a result of significant increases in revenues from collaborative research agreements, product sales and its joint business with Ortho, while expenses grew more slowly.

For the three months ended June 30, 1990, Chiron had earnings of $3,448,000, or 20 cents per share, on revenues of $17,770,000, compared to a loss of $4,060,000, or 30 cents per share, on revenues of $9,170,000 for the second quarter a year ago.

For the six months ended June 30, 1990, Chiron had a net loss of $1,228,000, or 8 cents per share, on revenues of $31,966,000, vs. a net loss of $8,979,000, or 68 cents per share, on revenues of $16,551,000 for the six months ended June 30, 1989.

Revenues for the quarter and for the year increased largely as a result of Chiron's diagnostic product sales and share of profit from its joint business with Ortho, and from increases in Chiron Opthalmics product sales.

For the quarter, profit from Chiron's joint business with Ortho was $7,851,000, and was $6.4 million for the year to date, which included a $6 million charge for the purchase of technology in the first quarter.

Product sales include shipments of antigens and diagnostic material sold to Ortho at cost of $1,412,000 for the quarter, and for the year to date, $2,786,000.

Chiron's opthalmic business continues to expand. For the quarter, sales of opthalmic products were $1,558,000, compared to $647,000 a year earlier, and for the year to date $2,865,000 compared to $1,161,000 in 1989.

Chiron Corp., headquartered in Emeryville, applies genetic engineering and other techniques of biotechnology to develop products that diagnose, prevent and treat human disease. Chiron is building a health care business to address needs in four markets: diagnostics, vaccines, biopharmaceuticals and opthalmics, through its fully integrated subsidiary Chiron Opthalmics Inc.

#90226b0641 08/14/1990 ~Business Wire

BEVERLY HILLS, CA (AUG. 14) BUSINESS WIRE - Columbia Savings and Loan Association (PSE:CSVPRA), announced Tuesday a net loss for the second

quarter of 1990 of $136.5 million, or $6.78 per share, primary and fully diluted.

This loss compared with net earnings of $6.4 million, or 16 cents per share, primary and fully diluted, for the comparable period in 1989. Columbia reported that the quarterly loss was primarily attributable to four factors:

1. An $88.5 million provision for credit losses on investment securities and loans;

2. A $65.0 million loss from real estate investment operations due largely to the declining commercial real estate market in Southern California;

3. A $29.2 million loss recorded with respect to certain corporate facilities;

4. A $20.9 million lower of cost or market adjustment for its investment in mortgage-backed securities, which were designated as held for sale.

Columbia noted that there had not been a substantial change in the market value of its high yield bond portfolio during the second quarter of 1990.

Columbia also reported a net loss of $429.9 million, or $21.39 per share, primary and fully diluted) for the six months ended June 30, 1990 as compared to net income of $14.3 million, or 36 cents per share, for the first six months of 1989.

During the first six months of 1990, provisions for credit losses on Columbia's investment securities and loans totaled $282.2 million and recorded losses from its real estate operations of $70.8 million. The losses recorded for the first six months of 1990 have reduced stockholders' equity to a deficit of $352.2 million at June 30, 1990.

President and Chief Executive Officer Edward G. Harshfield stated that: ''Our primary efforts during the second quarter of 1990 and continuing through the present have been to stabilize Columbia, to identify realizable values for the assets Columbia holds and to position the association for the sale of its high yield bond portfolio.

''Through a fair and open auction process, we believe we have obtained the highest available price for Columbia's entire portfolio of high yield bonds. However, as is obvious from our negative capital position, we will need the continuing patience and cooperation of our regulators if Columbia is to survive.

''We are making every effort to submit a plan to the regulators which will

reflect the potential for maximizing the return to Columbia's shareholders.''

Columbia is a California-chartered savings and loan association with 24 offices in Southern California.

#90226b0644 08/14/1990 ~Business Wire

DENVER (AUG. 14) BUSINESS WIRE - Tele-Communications Inc. (TCI) Tuesday reported that the company's total revenue increased to $1.75 billion for the six months ended June 30, 1990, as compared to $1.38 billion for the corresponding period of the prior year.

Operating income before interest, depreciation, and amortization expenses in the first six months of 1990 was $671 million compared to $519 million in the same period a year ago. Net results for the six months ended June 30, 1990, were a net loss of $101 million, or 29 cents per share, compared to a net loss of $115 million, or 33 cents per share for the same period in 1989.

The company experienced improved operating results and increased gain on sales of assets but incurred additional interest expense as compared to the prior period.

Consummation of the purchase of the TCI/Cooke Systems, the purchase of a 42.5 percent indirect interest in SCI Holdings Inc., and the business combination involving United Artists Communications Inc. and United Cable Television Corp. have had a negative impact on the company's earnings due to the cost of servicing the indebtedness incurred to finance the transactions and the resulting increase in depreciation and amortization.

Cable television operations increased revenue for the current six-month period by 33 percent as compared to the same period in 1989. Approximately 5 to 6 percent of such increase resulted from growth in subscriber levels, an additional 4 to 6 percent was due to increases in prices charged for cable television service. The balance of the increase in cable television revenue was substantially attributable to acquisitions.

Theatre operations increased revenue by approximately 4 percent for the current six-month period as compared to the corresponding period of 1989. This increase was primarily attributable to modest increases in average and actual ticket prices.

At June 30, 1990, the company provided basic cable television services to

approximately 8.3 million subscribers and premium (or ''pay-TV'') services to approximately 6 million subscribers. A basic subscriber may subscribe to one or more pay-TV services, and the number of pay-TV subscribers represents the total number of such subscriptions to pay-TV services.

In addition the company's 50 percent or less owned affiliates, accounted for under the equity method, own systems which, at June 30, 1990, provided services to approximately 2.9 million basic subscribers and 2.4 million pay-TV subscribers. The foregoing information does not include any subscriber data related to cable television systems in which the company had, at such date, an investment accounted for by the cost method.

On Jan. 18, 1990, the company announced that its board of directors had authorized management to proceed to develop a plan to distribute to its shareholders a new company consisting of certain of TCI's programming interests, cable television assets, and other operating businesses. On March 29, 1990, the company further announced that it was considering effecting this distribution by means of a rights offering to its shareholders which would entitle them to exchange a portion of their shares of Class A and Class B common stock for stock of the new company.

The March 29 announcement by the company further indicated that the company's investment in Turner Broadcasting System Inc. (TBS) would not be among the assets included in the new company.

The assets that management has identified for contribution to the new company, subject to the receipt of governmental and third party consents and waivers, include substantially all of the company's programming interests (other than its investment in TBS), the company's interest in certain cable systems owned by the company that served approximately 26,000 basic subscribers at June 30, 1990, the company's interest in certain cable systems owned by equity affiliates of the company that served approximately 760,000 basic subscribers at June 30, 1990, and substantially all of the company's investments accounted for by the cost method in other cable systems that served approximately 1.3 million basic subscribers at June 30, 1990.

On Oct. 17, 1989, the company and Viacom International Inc. executed a letter of intent providing for the purchase by TCI from Viacom of 50 percent of the common stock of Showtime Networks Inc. Consummation of this purchase is subject to the satisfaction of a number of conditions.

Given the uncertainties as to whether and, if so, when the proposed acquisition of an interest in Showtime will be consummated, no decision has been made regarding the possibility of contributing such interest to the new company.

Also, a certain subsidiary of the company is a 50 percent general partner

in a general partnership which owns a 30 percent limited partnership interest in a certain partnership (the remaining 70 percent of which is owned by the company) that owns 50 percent of the common stock of SCI Holdings Inc., the parent of Storer Communications Inc.

At June 30, 1990, Storer and its consolidated subsidiaries owned cable television systems serving approximately 1.6 million basic subscribers. Subject to the receipt of necessary third-party consents and waivers, the company may contribute the stock of such subsidiary to the new company.

The aforementioned distribution by means of a rights offering is subject to the satisfaction of a number of conditions, including, among others, defining an appropriate structure, determining the consideration to be received by the company in exchange for the assets to be contributed to the new company, obtaining required governmental and third-party consents and approvals and registering the stock of the new company under federal and state securities laws.

There can be no assurance that such transaction will ultimately be effected.

On a separate issue, TCI also announced that it has arranged $200 million in long-term financing for a wholly owned subsidiary with a group of major insurance companies led by The Metropolitan Life Insurance Co.

First Boston Corp. acted as placement agent for the financing.

The company will pay a blended coupon of approximately 9.9 percent on the senior unsecured notes with maturities extending to the year 2000. The borrower, TCI Northeast Inc., serves approximately 815,000 basic subscribers in Ohio, West Virginia and Pennsylvania. It is based in Pittsburgh. Proceeds will be used to repay floating rate bank debt.

Tele-Communications Inc. is traded over-the-counter with Class A common stock and Class B common stock trading separately under symbols of TCOMA and TCOMB, respectively.

The company's 11-1/8 percent senior subordinated debentures, 7 percent convertible subordinated debentures, and TCI rights are traded in the over-the-counter markets, the latter two under the symbols of TCOMH and TCOMR, respectively.

#90226b0647 08/14/1990 ~Business Wire

LOS ANGELES (AUG. 14) BUSINESS WIRE - Republic Pictures Corp. (NASDAQ:RPICA) reported net income of $131,000 on revenues of $11,919,000 for the quarter ended June 30, 1990, it was announced Tuesday by Russell Goldsmith, chairman and chief executive officer.

The profitable results reflected new video acquisitions, television production activities and achievements in video and television distribution.

For the quarter ended June 30, 1990, consolidated revenues amounted to $11,919,000, as compared with $15,496,000 in the second quarter of 1989. Quarterly operating income decreased to $224,000 in 1990 from $426,000 in 1989. Net income for the second quarter was $131,000, or 3 cents per share, as compared with $433,000, or 10 cents per share, for the three months ended June 30, 1989.

For the six-month periods ended June 30, consolidated revenues were $24,479,000 in the current year, as compared with $26,205,000 in 1989, while operating income amounted to $718,000 and $792,000, respectively. Net income for the six months ended June 30, 1990, was $419,000, or 10 cents per share, as compared with $639,000, or 15 cents per share, in the comparable period of 1989.

Video revenues increased to $5.46 million in the second quarter of 1990 from $5,263,000 for the three months ended June 30, 1989. During this year's second quarter the company profitably released three new features from its video acquisition program: ''Cold Comfort,'' ''Quarantine'' and ''Private War.''

Also contributing to the revenue increase were continued strong sales of Republic library titles at sell-through prices and the Blackhawk Catalog, Republic's direct-mail video catalog.

Second-quarter television revenues were $6,459,000 in 1990 and $10,233,000 in 1989. The current quarter included the CBS network license fee for ''Bare Essentials,'' a just-completed two-hour romantic comedy starring Gregory Harrison, Lisa Hartman and Mark Linn-Baker, as well as both international and domestic license fees for the company's library and newer productions, including ''Beauty and the Beast.''

The prior year's second quarter included several large multiyear license agreements for ''Bonanza.''

Republic Pictures Television, the company's television venture with United Artists Entertainment Co., recently completed principal photography on ''Son of the Morning Star,'' an epic four-hour drama for the ABC Television Network. Gary Cole and Rosanna Arquette star in this story of General George Armstrong Custer and his role at the legendary Battle of the Little Bighorn.

Production began in August on ''Separate But Equal,'' also a four-hour miniseries for ABC, starring Oscar-winner Sidney Poitier as Thurgood Marshall. ''Separate But Equal'' is the story of the landmark Brown vs. Board of Education school desegregation case.

The company recently announced an exciting new slate of motion pictures for upcoming release in U.S. home video and, in certain cases, other markets. Included in this group are ''Deceptions,'' ''Night of the Cyclone,'' ''Priceless Beauty'' and ''Cadence.''

''Deceptions'' is a mystery thriller, which has received very positive advance press, starring Harry Hamlin, Nicolette Sheridan and Robert Davi. ''Night of the Cyclone'' is an action drama featuring Kris Kristofferson

and Marisa Berenson. ''Priceless Beauty,'' a tale of love and illusion, stars Christopher Lambert and Diane Lane.

''Cadence,'' starring Charlie Sheen and Martin Sheen in Martin Sheen's directorial debut, has been licensed to New Line Cinema for U.S. theatrical release in January 1991, prior to the company releasing it to domestic home video.

Republic Pictures Corp. is a producer of television programming and a distributor to the worldwide television and video markets.

In addition to its own television productions, Republic distributes television and theatrical films produced by other companies, as well as Republic's extensive library of classic films and off-network television series, including ''Beauty and the Beast,'' ''High Noon,'' ''The Quiet Man'' and ''Bonanza.''

#90226b0652 08/14/1990 ~Business Wire

PALO ALTO, CA (AUG. 14) BUSINESS WIRE - Collagen Corp. Tuesday announced a 33 percent increase in net income to $4,095,000, or 46 cents per share, for the fiscal year ended June 30, 1990, compared with $3,071,000, or 37 cents per share, during the prior year.

Earnings per share increased 35 percent before inclusion of a 3 cents per share tax loss carry-forward recognized in 1989. Total revenues for fiscal 1990 were $54,347,000, an increase of 26 percent over last year's revenues of $43,173,000.

Total product sales for the year increased 35 percent to $50,959,000. Research and development expenses for the year were $14,975,000 compared to $13,612,000 during the previous year.

For the fourth quarter ended June 30, 1990, Collagen reported net income of $1,310,000, or 15 cents per share, on revenues of $14,442,000. Fourth quarter earnings per share grew by 25 percent. This compares with net income of $1,020,000, or 12 cents per share, on revenues of $12,417,000 during the like period the previous year.

Product revenues for the fourth quarter grew 22 percent to $13,815,000 from $11,279,000 in the like period of fiscal 1989.

''We are very pleased with our product sales and earnings for both the

fiscal year and the fourth quarter,'' said Howard Palefsky, Collagen's president and chief executive officer. ''The company's performance reflects strong product sales growth with prudent cost containment, resulting in the improved earnings.''

Collagen Biomedical reported continuing strong product sales of $41,398,000 for 1990, an increase of 29 percent over last year, primarily due to increased physician and patient demand and improved pricing. Collagen Biomedical's international product sales increased 18 percent to $9,204,000 for fiscal 1990.

Target Therapeutics Inc., the company's specialty catheter subsidiary, reported a sales gain of 76 percent to $9,067,000.

Celtrix, the company's research and development subsidiary, is focusing on the development of therapeutic products based on naturally occurring, biologically active peptides, including the company's proprietary Transforming Growth Factor beta, type 2 (TGFb2).

Collagen is refining its plans for Celtrix and currently anticipates paying a special dividend to its shareholders of all Celtrix stock, pending receipt of certain approvals. Collagen expects the initial capitalization for Celtrix to be approximately $20 million in cash, in addition to technology, personnel, assets and liabilities specific to Celtrix.

Following the dividend, if approved, Collagen expects to continue investing a significant percentage of its product revenues in collagen based research and development. Contigen Bard Collagen Implant and Collagraft Bone Graft Substitute, products developed by Celtrix, will remain with Collagen Corp. when the two companies separate.

Collagen Corp. is a scientific and commercial leader in applying the science of cell biology to healing human tissue.

#90226b0656 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - John L. Weinberg Tuesday announced his retirement as Senior Partner and Chairman of the Management Committee of Goldman, Sachs & Co., effective Nov. 30, 1990, the end of the firm's fiscal year.

Weinberg had held this position since 1976. He will continue with the firm as Senior Chairman, responsibile for various client relationships and other activities for the firm.

Robert E. Rubin and Stephen Friedman, who have served as Co-Vice Chairmen of the Management Committee since 1987, will become Senior Partners and Co-Chairmen of the Management Committee.

Weinberg joined Goldman Sachs in 1950, becoming a partner in 1956. In 1976 he was named Senior Partner and Co-Chairman of the Management Committee, and then Chairman of the Management Committee in November, 1984 following the retirement of John C. Whitehead who became Deputy Secretary of State in March, 1985. He received a Bachelor of Arts degree from Princeton University in 1948, and a Master in Business Administration degree from Harvard Graduate School of Business in 1950. He twice saw service with the U.S. Marine Corps, during the Second World War as Second Lieutenant, and during the Korean War as Captain. Weinberg is a director of Capital Holding Corp., Champion International Corp., E.I. du Pont de Nemours and Co., the BFGoodrich Co., Knight-Ridder Inc., the Seagram Co., the Japan Society Inc. and the New York City Partnership Inc. In addition, he is a member of the Chicago Board of Trade, The Business Council, the Council on Foreign Relations and the Advisory Council of

Stamford Graduate School of Business, as well as a Governor and member of the Executive Committee of the New York Hospital-Cornell Medical Center and a Charter Trustee of Princeton University. Weinberg, who is married and has two children, resides in Greenwich, Conn.

Rubin joined the firm in 1966, became a Partner in 1971, a member of the Mangement Committee in 1980, and Co-Vice Chairman of the firm in 1987. He served as co-head of the Fixed Income Division with Stephen Friedman from 1985 - 1988 was formerly the head of the Trading and Arbitrage Division, and prior to this had Management Committee responsibility for J. Aron & Company, the firm's commodity & foreign exchange subsidiary.

He received a Bachelor or Arts degree from Harvard University in 1960 and his law degree from Yale Law School in 1964. He is Chairman of the New York City Host Committee for the 1992 Democratic Convention, a Vice-Chairman of the Mount Sinai Medical Center, a member of the Board of Trustees of the Carnegie Corp., a Trustee and Vice-President of the American Ballet Theater Foundation Inc., a Trustee of WNET/Channel THIRTEEN, and he sits on the Capital Markets Advisory Committee of the Federal Reserve Bank of New York International. Rubin, his wife and two chilren, reside in Manhattan.

Stephen Freidman was graduated from Cornell University in 1959 and received his law degree from Columbia University Law School in 1962, where he was an editor of the Law Review. He joined Goldman Sachs in 1966, was elected a Partner in 1973, became a member of the Management Committee in 1982 and Vice Chairman of the firm in 1987. He headed the Mergers and Acquisitions Department for many years, and subsequently was co-head of the Investment Banking and the Fixed Income Divisions. Among his other outside affiliations, he is a Director and Member of the Executive Committee of Witco Chemical Corp., a Trustee of Columbia University and the American AAU Foundation, and a Member on the Council on Foreign Relations. Friedman, who is married and has three children, resides in Manhattan.

Founded in 1869, Goldman, Sachs & Co. is a leading international investment bank and brokerage firm, with 22 offices worldwide: New York, London, Tokyo, Boston, Chicago, Dallas, Detroit, Hong Kong, Houston, Los Angeles, Madrid, Memphis, Miami, Montreal, Paris, Philadelphia, San Francisco, Singapore, Sydney, Toronto, Washington D.C. and Zurich.

VALENCIA, CA (AUG. 14) BUSINESS WIRE - HR Textron Inc. Tuesday announced the appointment of Joseph S. Edwards to the position of vice president of finance.

Edwards, 43, will be responsible for all of HR Textron's financial activities, which include accounting, pricing and negotiation, planning and analysis, information systems, government accounting and internal audit for both the headquarters facility in Valencia and the company's Pacoima operations.

''Having held senior financial positions with both commercial and defense and aerospace manufacturing companies, Joe brings to us a diversified financial expertise that will be invaluable, particularly at a time when we at HR Textron, like most defense and aerospace companies, are looking to expand our commercial product base,'' said Richard J. Millman, president of HR Textron.

''He is a solid addition to our executive management team.''

Immediately prior to joining HR Textron, Edwards was controller for Delco Systems Operations of General Motors Hughes Electronics in Goleta, Calif., where he was responsible for directing all financial activities for the 2,000-employee organization.

Other managerial positions included dual responsibility as both assistant group controller for the Missile Systems Group's Canoga Park, Calif., company, and chief financial officer for their 8,000-employee Tucson, Ariz., facility. Before that, Edwards was assistant controller for the Santa Barbara Research Center, a manufacturer of infrared devices for commercial satellite, NASA and DoD applications.

Edwards received a bachelor's degree in economics from Hofstra University in Hempstead, N.Y., and a master's degree in accounting from Fairleigh Dickinson University in Rutherford, N.J.

In his new position, Edwards replaces A. J. Grillo, who will return to the East Coast to pursue other business interests.

HR Textron designs and produces servovalves, control actuation systems, automatic test equipment and other aerospace components for numerous helicopter, fixed-wing aircraft and missiles and space vehicle applications.

HR Textron is a subsidiary of Textron Inc., a multi-industry company with operations focused in three business sectors -- aerospace technology, commercial products and financial services. With headquarters in Providence, R.I., Textron's 1989 revenues were over $7.4 billion.

LEVITTOWN, NY (AUG. 14) BUSINESS WIRE - Quantech Electronics Corp. (OTC) Tuesday reported results for its first quarter ended June 30.

For its first quarter, the company reported revenues of $611,463 as compared to $653,487 in the prior year's first quarter. The company reported net income of $56,925, or 1 cent per share, as compared to $198,102, or 6 cents per share for the year ago quarter. In the year ago quarter, the company experienced $121,412, or 5 cents per share, of extraordinary income, as compared to $11,841 or $.00 per share, in the current period.

Quantech Electronics Corp., through its AAA Installation and Maintenance subsidiary, is believed to be the largest independent consumer electronics service organization in the greater New York metropolitan area.

#90226b0659 08/14/1990 ~Business Wire

SUNNYVALE, CA (AUG. 14) BUSINESS WIRE - Actel Corp., a leading supplier of Field Programmable Gate Arrays (FPGAs), Tuesday unveiled the ACT 2 product family, the industy's highest capacity devices and a new generation of advanced FPGAs that take direct aim at meeting the requirements of mainstream logic-integration applications.

Ranging in density to 8,000 masked gate array equivalent gates, the ACT 2 family represents the industry's most advanced devices with nearly three times the capacity and twice the performance of competitive offerings.

According to The Technology Research Group (TRG), a Boston-based market research firm, the 8,000-gate density and 60-MHz system performance of the A1280, represent the capacity and speed needed to satisfy more than 66 percent of today's masked gate array designs.

As such, the A1280 can easily provide mainstream logic designers with a viable programmable device alternative for low- to medium-volume production needs. As an alternative to low-volume gate arrays, FPGAs shorten a product's time to market, eliminating the long device turnaround times typically associated with masked gate arrays.

As a logic integration alternative to TTL and PALs, FPGAs provide lower overall cost and more efficient use of the printed circuit board area.

John East, president and chief executive officer of Actel, remarked that the ACT 2 family represents a dramatic improvement in FPGA technology and firmly establishes Actel in a rapidly expanding, high density FPGA market.

The ACT 2 family, processed in a proven 1.2-micron CMOS technology, consists of the A1280, A1240 and A1225 devices of 8,000, 4,000 and 2,500 gate-array equivalent gates.

Also introduced by Actel is its new design automation system, the Action Logic System (ALS) Release 2.0, the most sophisticated environment to date for configuring Actel FPGA devices; and the Activator 2, Actel's programming hardware that now allows four devices to be configured simultaneously.

Actel Corp., inventor of the PLICE antifuse, offers the ACT 1 and ACT 2 family of field programmable gate arrays. Offering a channeled gate array architecture, the desktop-configurable devices allow production units to be configured in minutes without expensive non-recurring engineering costs.

#90226b0660 08/14/1990 ~Business Wire

SAN FRANCISCO (AUG. 14) BUSINESS WIRE - William & Clarissa Inc. (NASDAQ:WMCL) Tuesday reported that net sales for the second quarter of its 1990 fiscal year, ended June 30, were $1,906,300, compared to $73,200 in the second quarter of 1989 and $976,100 in the first quarter of 1990.

The net loss for the quarter was $2,968,600, or 91 cents per share. In the corresponding period of 1989 a net loss of $375,700, or 17 cents per share was reported.

''The significant sales growth is the result of the successful introduction of our new Kids William & Clarissa product line following initial shipments in March 1990,'' commented William A. Meyer, president and chief executive officer.

''We are very pleased with the initial trade and consumer response to the kids line,'' added Meyer. ''The substantial operating loss in the second quarter reflects marketing and advertising expenses associated with the

new line's introduction, including extensive nationwide media advertising.

''These costs will be at much lower levels in the second half of the year. In addition, costs of approximately $490,000 were incurred in the second quarter in connection with phasing out our original William & Clarissa product line. This will allow us to focus our efforts entirely on the larger opportunities offered by the mass retail market.''

The Kids William & Clarissa line consists of 16 personal care products formulated especially for children, including tear-free shampoo, lotion, liquid soap, cornstarch powder, bubble bath, sun block, lip balm and cologne.

All products are hypoallergenic, dermatologically tested, contain no animal ingredients, and are not tested on animals. The company is marketing this line to drug stores, mass merchandisers and supermarkets nationwide.

#90226b0662 08/14/1990 ~Business Wire
NORTH STONINGTON, Conn. (AUG. 14) BUSINESS WIRE - Analysis & Technology Inc. (A&T)(NASDAQ:AATI) has announced that its subsidiary, Applied Science Associates Inc. (ASA) has been notified that Loral Defense Systems (LDS-Akron) was awarded a contract on which ASA is a subcontractor.

The contract, awarded by the U.S. Air Force Aeronautical Systems Division, Wright-Patterson Air Force Base, Ohio, is to develop, operate, and support an Aircrew Training System for the Special Operations Forces (SOF).

ASA will have primary responsibility for developing all courseware materials for all crew positions for five fixed-wing aircraft and two helicopter aircraft. Two subcontract options, for the MC-130H Combat Talon II and the MC-130E Combat Talon I fixed-wing aircraft, have been negotiated for a total value of $6.7 million, which will be incrementally funded.

With all options exercised, the contract will have a value of over $19 million.

ASA, a wholly owned subsidiary of A&T, provides specialized training services to industry and government. A&T specializes in engineering services to the U.S. Navy for submarines and antisubmarine warfare.

#90226b0665 08/14/1990 ~Business Wire

TEMPE, AZ (AUG. 14) BUSINESS WIRE - Circuit Research Labs, Inc. (NASDAQ:CRLI) Tuesday announced unaudited results for the second quarter and six months ended June 30, 1990.

Revenues for the second quarter of 1990 rose 20.4% to $808,723 representing the highest quarterly sales volume in the Company's history, from $671,618, in the same period last year. Net income increased 31.5% to $145,562 or $.03 per share, up from $110,663 or $.02 per share last year.

Revenues for the first half of 1990 increased 25% to $1,351,646 from $1,083,465 in the first six months of 1989. Net income was up 200% to $169,002 or $.03 per share, compared to $56,113 or $.01 per share last year.

Ronald R. Jones, Chairman, President and CEO, commented, ''Our second quarter results were positively impacted by the sale of equipment required by AM radio broadcast stations to meet more stringent quality requirements. Since most stations have now met this requirement, CRL's sales of this equipment are expected to decline in future quarters.

''In April, we introduced a number of new products at our national trade show which received very positive customer response. We expect these new products will begin to generate revenues in the fourth quarter. In addition, we are considering the acquisiton of complementary products to further enhance our product line.''

Circuit Research Labs, Inc. manufactures and markets electronic audio processing and encoding equipment for the broadcast industry and noise reduction systems for the professional audio industry.

#90226b0666 08/14/1990 ~Business Wire

DANVERS, Mass. (AUG. 14) BUSINESS WIRE - ABIOMED Inc. (AMEX:ABD) Tuesday reported fiscal 1991 financial results for the first quarter ended June 30

1990.

There was a net loss of $755,000, or 12 cents per share on consolidated revenues of $1,001,000. This compares with a loss of $434,000, or 9 cents per share on consolidated revenues of $1,040,000 for the same period last year.

The company noted that the financial results for this quarter were affected several factors, including: (a) the start-up costs associated with initiation of domestic sales of the PerioTemp System; (b) increased development costs for the ICS System in preparation for expanded clinical studies; and (c) a slowdown in foreign sales of the BVS system.

The slowdown is due, in part, to a temporary shift in priorities to emphasize activities related to the company's application to the FDA for approval of domestic BVS sales, and to the company's ongoing management reoganization to strengthen its marketing and sales capabilities which, in the short term, has diverted attention from its foreign sales efforts.

The company expects to experience continued quarter-to-quarter fluctuations in revenues and earnings until it has achieved full market introduction of the PerioTemp System and has received approval for domestic sales of the BVS System.

Based in Danvers, Mass., ABIOMED Inc. develops innovative medical and dental products and is a leader in the research and development of cardiac support systems.

#90226b0667 08/14/1990 ~Business Wire

DALLAS (AUG. 14) BUSINESS WIRE - Tuesday Morning Inc. showed improvement in second-quarter profits from the first quarter 1990 loss, announced Lloyd L. Ross, chairman of the board and chief executive officer of Tuesday Morning Inc. (NASDAQ: TUES).

For the second quarter of 1990, Tuesday Morning achieved a net income of $658,330, or 17 cents per share, which is the highest second-quarter profit in the history of the company. These results exceeded the $631,450, or 16 cents a share posted in the second quarter of 1989.

Total revenues in the quarter rose 9 percent to $23.9 million from $22 million in 1989. For the first half of the year, revenues rose 11 percent to $39.8 million, compared to the $35.9 million reported in the first half of last year. Comparable store sales for the first half of 1990 are 1.06 percent.

The strong second-quarter performance reversed the company's soft first quarter, which had losses larger than the previous year. For the first half of 1990, Tuesday Morning showed a loss of 17 cents a share, or $657,485, compared to the 3 cents, or $120,789 loss in 1989.

Tuesday Morning is a growing chain of 123 deep-discount closeout gift stores in 20 states that anticipates having 132 stores open for the fourth quarter holiday selling season, compared to 114 last year.

The stores are open four times a year on an event basis during the retail industry's peak selling seasons. Each location offers thousands of closeout items in categories that include gifts, crystal, luggage, linens, toys and seasonal items such as holiday trim.

All merchandise is sold at 50 to 80 percent off retail prices, and the firm specializes in famous-maker, first quality merchandise, which is often found in prestigious department and specialty stores.

#90226b0671 08/14/1990 ~Business Wire

SCOTTSDALE, AZ (AUG. 14) BUSINESS WIRE - Alanco Resources Corp. (NASDAQ:ALAN), a publicly traded, diversified natural resources company, has set its technological sights firmly on a troubling national air pollution problem and its solution.

On July 31, in Prescott Valley, Ariz., Asphalt Paving Co. began use of their new EcoTech Air Pollution system, installed by Environetics Inc. The air pollution control system is expected to revolutionize the asphalt hot mix industry as well as have a major impact on numerous other companies with air pollution problems.

Using a dry process requiring no disposal of water or cleaning of bag houses, the EcoTech system can clean most hot gas streams of both particulate and pollutants while not requiring the hot gases to be cooled.

Alanco, through its subsidiary company, Environetics Inc. and former partners, has developed breakthrough technology which could clean up thousands of landfills, provide EPA compliance for the asphalt industry and provide a new product for asphalt paving, rubberized asphalt.

Along with the effective disposal of toxic wastes in the environment, an ever-escalating problem is the removal and reclamation of the literally hundreds of millions of used tires which blight the landscape in virtually every county of every state, nationwide.

Jones added that it has taken 12 years and in excess of $9 million to develop this process to its present state. The EcoTech system, in which Alanco originally became interested for mining and milling of precious minerals, is expected to meet EPA air quality standards, thus making the manufacturing of rubberized asphalt economically feasible.

Though proven in pilot tests, the asphalt paving installation will be the first full-sized system and through a special arrangement, Environetics Inc. will be able to use this system to test numerous applications of the EcoTech system. ''The marketable use of the technology is almost unlimited,'' states Jones.

Rubberized asphalt is extremely desirable because it will expand and contract, making it much less susceptible to cracking, thereby preventing water from seeping underneath, destroying a roadway.

Alanco, which has a 20-year history in the sophisticated recovery of various natural resources, feels this development creates a benchmark for its further diversification into areas where fundamental technological research and development can benefit the public at large.

#90226b0672 08/14/1990 ~Business Wire

SALT LAKE CITY (AUG. 14) BUSINESS WIRE - Pinnacle Environmental Inc. (NASDAQ:PENV) Tuesday reported that revenues increased 28 percent to $5,887,000 for the year ended March 31, 1990 from $4,616,000 in the prior year.

Net income from continuing operations increased 35 percent to $323,586, equal to 23 cents per share, compared with net income of $237,663, or 17 cents per share, in the previous year.

On a pro forma combined basis, including Rex Industries and Insulation Distributors which were acquired May 18, 1990, on the effective date of Pinnacle's public offering, revenues for the combined companies increased 14 percent to $9.9 million for the year ended March 31, 1990, from $8.7 million in the prior year. Net income from continuing operations increased 48 percent to $686,000, equal to 39 cents per share, compared with net income of $463,000, or 27 cents per share.

Higher net income for both the company and the combined companies as compared to the previous year resulted from increased sales, higher gross margins, and broad increase in the demand for all of the company's services.

Rex Crosland, chairman and chief executive officer of Pinnacle Environmental Inc., stated, ''We are particularly pleased with the growing strength of our industrial asbestos abatement divisions, which continue to increase their gross margins and profitability.

''As a consequence of our successful initial public offering, Pinnacle's current financial position is the strongest in the company's history.''

Pinnacle Environmental Inc. provides industrial asbestos abatement and insulation services. The company also distributes industrial insulation products and materials, both to customers in connection with providing insulation services and to others, and fabricates specialty steel items.

Its principal customers are industrial concerns or governmental bodies that own or operate fossil fuel or nuclear power plants, petroleum refineries, chemical processing complexes, mineral smelters, steel mills, and other plants and facilities. The company services the Intermountain states of Utah, Idaho, Wyoming, Nevada, Arizona, Colorado and New Mexico.

NEW YORK (AUG. 14) BUSINESS WIRE - Projectavision, Inc. (NASDAQ Symbol: PJTVU) announced that its Board of Directors has authorized a reduction in the exercise price of its outstanding five-year redeemable common stock purchase warrants to $3.00 from $6.30.

Projectavision, Inc. (the ''Company'') pursuant to its initial public

offering declared effective by the Securities and Exchange Commission on July 24, 1990, offered and sold 800,000 units (the ''Units'') on July 31, 1990, at a price of $5.25 per Unit.

Each Unit consists of one share of common stock, par value $.0001 per share (the ''Common Stock''), and one five-year redeemable common stock purchase warrant (the ''Redeemable Warrant''). The securities comprising the Units are not separately transferable or detachable until August 24, 1991, or such earlier date as is determined by Rosenkrantz Lyon & Ross Incorporated, the Underwriter of the Company's initial public offering.

The Company has decided, in its discretion, to reduce the exercise price of the Redeemable Warrants. Accordingly, upon separation,each Redeemable Warrant shall entitle its holder to purchase one share of Common Stock at the reduced exercise price of $3.00 per share of Common Stock until July 23, 1995.

The Company has reduced the exercise price of its Redeemable Warrants in response to the recent, unexpected turbulence in the securities markets caused by such factors as the Iraqi invasion of Kuwait and recently released statistics regarding recession and unemployment.

The Company is developing a solid state television projector utilizing its proprietary, patent-pending technology, which is designed to produce a sharp, bright, giant color picture display on a screen or on any white or light colored wall or ceiling. The Company anticipates that its technology will be capable of producing giant screen displays that are bright and sharp, have rich color saturation and high contrast and that are relatively inexpensive to produce in comparison to existing projection television systems.

IRVINE, CA (AUG. 14) BUSINESS WIRE - Disease Detection International Inc. (NASDAQ:DDII) announced Tuesday that the company has received the necessary FDA (510k) pre-market approval to sell its herpes simplex virus (HSV) antibody test.

The rapid whole blood elisa test kit enables physicians and hospitals to determine a patient's past exposure to both herpes simplex virus I and II in less than 10 minutes, compared to the three hour elisa methods currently used. The new SeroCard test kit screens for HSV I and II simultaneously, whereas the company's previous test required two individual test cards.

H. Thad Morris, president and chief executive officer of DDI, noted that this approval will enable the company to launch its complete product line to the physician's office market for screening expectant mothers for a variety of infectious diseases.

Disease Detection International plans to introduce its rapid test kits to the physician's office market in mid-September during the Health Industry Distributor's Association (HIDA) national convention in Baltimore.

Morris also stated the the company will sell its products directly to the 200-dealer network formerly used by Access Medical Systems of Branford, Conn. The Access/DDI exclusive distribution relationship has been terminated, allowing DDI to sell directly to the various companies reponsible for purchasing over $1 million in DDI's pregnancy and strep throat test kits in the first quarter of 1990.

GREAT NECK, NY (AUG. 14) BUSINESS WIRE - BRT REALTY TRUST (NYSE Symbol: BRT) Tuesday announced results of operations for the nine months and third quarter ended June 30, 1990.

Revenues for the nine months ended June 30, 1990 were $24,019,000 compared to revenues of $25,521,000 reported for the same period in the prior fiscal year. Operating income for the first nine months of fiscal 1990 was $5,505,000, or $0.75 per share, compared to $12,718,000, or $1.73 per share, for the nine months ended June 30, 1989.

Net income for the nine months ended June 30, 1990 was $6,390,000, or $0.87 per share, as compared to net income for the 1989 nine month period of $13,327,000, or $1.81 per share. Net income for the 1990 nine month period is after a provision for possible losses of $5,600,000, whereas the provision for the comparable 1989 nine month period was $900,000.

In the 1990 nine month period, the Trust realized a gain on the sale of real estate and foreclosed property of $885,000, or $0.12 per share. In the comparable nine month period in 1989, the Trust had a gain on the sale of marketable securities of $609,000, or $0.08 per share. The weighted average number of shares outstanding during the nine months ended June 30, 1990 was 7,363,850 compared to 7,350,195 during the first nine months of fiscal 1989.

For the three months ended June 30, 1990, revenues were $7,683,000 compared to revenues of $8,507,000 for the same three month period in fiscal 1989. Operating income for the third quarter was $279,000, or $0.04 per share, versus $4,096,000, or $0.56 per share, reported for the

quarter ended June 30, 1989. Net income for the three months ended June 30, 1990 was $1,164,000, or $0.16 per share, compared to net income for the comparable quarter in fiscal 1989 of $4,096,000, or $0.56 per share.

Net income for the third quarter of fiscal 1990 is after a provision for possible losses of $2,600,000, versus a provision for the 1989 three month period of $600,000.

In the quarter ended June 30, 1990, the Trust realized a gain on the sale of real estate and foreclosed property of $885,000, or $0.12 per share; there was no such gain in the comparable 1989 quarter. The weighted average number of shares outstanding during the three months ended June 30 1990 was 7,346,624 as compared to 7,373,029 for the three months ended June 1989.

Commenting on the results for the nine and three month periods ended June 30, 1990, Israel Rosenzweig, President of BRT REALTY TRUST, noted that the principal reason for the decrease in the Trust's operating income is the provision for possible losses of $5,600,000 and $2,600,000, taken in the respective nine and three month periods of 1990, as compared to $900,000 and $600,000 in the respective 1989 periods.

He stated that the Trust analyzes its portfolio on a quarterly basis and that provisions are taken by the Trust when required in order to reflect market conditions. He also noted that accelerated problems in many real estate markets, including Metropolitan New York real estate market, and a developing liquidity problem in the real estate industry, were among the factors the Trust considered in deciding to take a $2,600,000 provision in the June 30, 1990 quarter, bringing the total allowance for possible losses to $5,455,000.

Mr. Rosenzweig stated that an additional factor affecting operating income in the nine month and three month periods was the increase in non-earning loans and real estate acquired by foreclosure held for sale from $7,381,000, net of allowances, at September 30, 1989, to $42,241,000, net of allowances, at June 30, 1990.

Included in the $42,241,000 is an asset encumbered by a non- recourse loan in the amount of $11,506,000 on a property acquired by the Trust in foreclosure in the third quarter of 1990. At June 30, 1990, non-earning loans and real estate acquired by foreclosure held for sale aggregated 13% of total assets, net of the previously mentioned non-recourse debt.

Further, an increase in interest expense caused primarily by increased borrowings to fund an increase in the loan portfolio and an increase in general and administrative expenses, due in part to professional fees incurred in foreclosure proceedings instituted by the Trust, were other factors which caused the decrease in operating income.

Mr. Rosenzweig further commented that as a result of continued activity in the Texas marketplace a total of approximately 14% of the mortgage portfolio at June 30, 1990 relates to the Trust's Texas activity. These loans are primarily medium term participating loans and although these loans contribute less to short term revenues then the Trust's short term loans, they should provide long term benefits since the Trust will participate in the incremental value of the real estate.

BRT REALTY TRUST is a mortgage-oriented real estate investment trust (REIT).

#90226b0691 08/14/1990 ~Business Wire

ALBUQUERQUE, NM (AUG. 14) BUSINESS WIRE - Diagnostek Inc. (NASDAQ:DXTK) Tuesday announced net earnings of $2,508,000 or 11 cents per share on revenues of $45,090,000 for the quarter ended June 30, 1990.

Net earnings for the quarter ended June 30, 1990, increased 47 percent over net earnings for the same period in 1989 of $1,403,000 and earnings per share increased 38 percent over that of the same period in 1989 of 8 cents.

Revenues for the quarter increased $23 million compared to the same period in 1989, an increase of 106 percent. The increase in revenues was attributable to revenues from the addition of HPI Health Care Services, Diagnostek's hospital pharmacy operation, and to increased revenues from HCS, Diagnostek's mail service prescription drug operation.

The acquisition of HPI was completed by Diagnostek last August and was effective Aug. 1, 1989.

Nunzio P. DeSantis, chairman of the board and chief executive officer stated, ''Mail service prescription drug operations continue to show strong growth in revenues and profitability. Our recent acquisition of EPIC Health Group Inc. firmly places Diagnostek as the second largest mail service pharmacy in the country.

''Our hospital pharmacy operation continues to contribute positively to our earnings although the cyclical nature of HPI's revenues has affected the first quarter's profitability. However, the profitability levels achieved are within our expectations.''

BIRMINGHAM, AL (AUG. 14) BUSINESS WIRE - Precision Standard Inc. (NASDAQ:PCSN) announced that it earned $312,000 (or 3 cents a share) for the three months ended June 30, 1990, on net sales of $32.8 million vs. $1,682,000 (or 13 cents a share) on net sales of $32.7 million for the three month period ended June 30, 1989.

The company said that it earned $1,280,000 (or 10 cents a share) for the six months ended June 30, 1990, on net sales of $61.7 million vs. $2,195,000 (or 17 cents a share) on net sales of $60.7 million for the six month period ended June 30, 1989.

Results for the comparable year earlier period were adversely impacted by a $923,000 non-cash purchase accounting adjustment taken in connection with the company's September 1988 purchase of Hayes International Corp.

Matthew L. Gold, the company's president, stated that the results for the second quarter were down primarily due to unexpectedly high overhead rates resulting from slower than anticipated volume recovery following the 16 week work stoppage at the company's Birmingham facility which was settled in mid-January.

Gold said that the Birmingham operations improvement program which the company announced in late June alreay had generated some savings. He cautioned, however, that these savings would not be reflected in the company's results for another few months due to the company's reporting of revenues and expenses under the unit of delivery method of accounting.

Precision Standard, with facilities in Alabama, California, Colorado and Florida and offices in Denver, Boston, and London, performs maintenance and modification of aircraft for the U.S. government and foreign and domestic commercial customers. The company also manufactures aircraft cargo systems, aerial targets for military customers, precision springs and components and rocket vehicles and control systems.

#90226b0703 08/14/1990 ~Business Wire
LOS ANGELES (AUG. 14) BUSINESS WIRE - Leisure Technology (NYSE:LVX) Tuesday announced a net loss of $1.8 million for the first quarter of fiscal 1991 ended June 30, 1990 on revenues of $23.1 million.

For the first quarter of fiscal 1990, the net loss was $825,000 on revenues of $31.9 million.

After deducting preferred dividends, the company reported a primary and fully-diluted loss per share of 42 cents vs. a primary and fully-diluted loss per share of 25 cents a year earlier.

Revenue from housing sales in the first quarter was $22.1 million compared to $24.4 million last year. The company attributed this nominal decline in housing revenues to a reduction in units delivered in the first quarter of fiscal 1991 compared to the first quarter of fiscal 1990.

Fiscal 1990's first quarter results included $6.6 million in revenue and $1.6 million in gross profit from land sales. While no land sales occurred in the first quarter of fiscal 1991, the company recognized approximately $1 million of a deferred gross profit from land sales which occurred in prior periods.

The backlog of homes scheduled for future delivery at July 31, 1990 fell to $46.2 million from $110.2 million last year. According to Michael L. Tenzer, chairman and chief executive officer, the decline primarily reflects continued weakness in the market for single-family homes in southern California, although activity at Leisure Technology's active adult communities in California, New Jersey, New York and Florida also has declined.

''The sluggish resale marrket, which has made it increasingly difficult for customers to sell their existing homes and to close on new Leisure Technology homes, is primarily responsible for the decline in the company's operating results and backlog,'' Tenzer said.

Yesterday, Leisure Technology announced that it closed a joint venture partnership with a subsidiary of a Tokyo-based company to develop the final 335 homes at Leisure Village Ocean Hills, an active adult community in Oceanside, Calif., where Leisure Technology has developed and sold approximately 1,300 homes since 1984.

Leisure Technology sold land to the partnership for $15 million in cash, of which approximately $10.5 million was applied to secured borrowings and to expenses of the transaction. The partners anticipate revenues in excess of $110 million from sale of the homes.

The company also announced yesterday that it will make the next interest payment of approximately $1.8 million on its 13-5/8 percent senior subordinated notes due 1996, as scheduled on Sept. 1, 1990, and will not make the Sept. 1, 1990 dividend payment on its $2.25 cumulative convertible exchangeable preferred stock.

Leisure Technology, founded in 1957, is the largest publicly-owned nationwide developer of active adult communities and is currently

developing active adult, single-family or full-service retirement communitites in New Jersey, New York, Florida, Illinois and California.

#90226b0709 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - Sales of Tiffany & Co. (NYSE: TIF) increased 25% and net income rose 27% in the second quarter ended July 31, it was announced Tuesday by William R. Chaney, chairman.

Sales rose to $107,274,000, compared with $85,914,000, in the second quarter a year ago. Earnings were $7,098,000, or 45 cents per share, compared with $5,588,000, or 36 cents per share, in the second quarter.

For the first six months of fiscal 1990, sales increased 26% to a record $200,501,000 from $159,163,000 in the first half of 1989. Net income rose 28% to $12,542,000, or 80 cents per share, compared with $9,821,000, or 63 cents per share, a year earlier.

International Retail sales rose 94% in the second quarter to $40,749,000, and increased 103% in the six months to $76,776,000. U.S. retail sales increased 2% in the second quarter to $50,741,000, and increased 1% for the six month period to $93,644,000. Direct Marketing sales in the second quarter increased 5% to $15,784,000, and grew 5% in the six months to $30,081,000.

Chaney commented, ''Tiffany's overall results in the first six months demonstrate the strength that we draw from our geographic diversity. International Retail sales growth continued at a very strong pace in both the Far East and Europe, and more than compensated for the relatively low growth achieved by our U.S. Retail and Direct Marketing businesses. Sales in the United States, while ahead of last year, are below our expectations. We believe these sales results are due to the current consumer caution which has resulted from regional economic slowdowns.''

He continued, ''Based on our worldwide store expansion, merchandising and marketing plans, we look forward to strong international growth, including further expansion in Japan, the opening of a store in Taiwan later this year and continued development of our presence in Europe.

''We are also optimistic about developments in the U.S. for 1990 and 1991, which include new TIFFANY stores serving the Washington, D.C.,

Philadelphia and San Diego markets, as well as expansion of existing stores in Atlanta, Beverly Hills, Houston and San Francisco,'' Chaney added.

Chaney also reported that Tiffany's board of directors today declared a regular quarterly dividend of seven cents per common share. The dividend will be paid on Oct. 10, to stockholders of record on Sept. 20.

Tiffany is an internationally renowned retailer with locations in the United States, the Far East and Europe. The company's merchandise offerings include an extensive selection of fine jewelry, sterling silverware, china, crystal, watches, clocks, stationery, leather goods, scarves and fragrances.

In addition to its flagship New York store, Tiffany operates retail stores in Atlanta, Beverly Hills, Boston, Chicago, Costa Mesa, Dallas, Houston, San Francisco and the Washington, D.C. area. Exclusive TIFFANY & CO. merchandise is also offered through a select group of prestigious jewelers and specialty retailers in other cities. Direct Marketing is carried out through the Corporate Division and the TIFFANY SELECTIONS catalog. International Retail sales are made through Mitsukoshi department stores and a wholesale distributor in Japan, TIFFANY & CO. stores in London, Munich, Zurich and Hong Kong, and through FARAONE stores in Milan and Florence.

CHARLESTON, WV (AUG. 14) BUSINESS WIRE - The board of directors of City Holding Co. (NASDAQ: CHCO), a five bank holding company headquartered in Charleston, announces an increase in its third quarterly dividend.

The dividend, payable on Sept. 15, 1990 to shareholders of record as of Sept. 1, 1990, will be 11 cents per share. This represents an increase of 10 percent in City Holding Co.'s regular quarterly dividend.

As previously announced, City Holding Co. reported record earnings for the six month period ended June 30, 1990. Net income was $1,406,000, an increase of 20.6 percent over that reported for the six months ended June 30, 1989.

City Holding Co. common stock is publicly traded ''Over-The-Counter'' on the NASDAQ national Market System under the symbol CHCO.

AUSTIN, TX (AUG. 14) BUSINESS WIRE - American Physicians Service Group Inc. (APS) (NASDAQ:AMPH) Tuesday announced results for the second quarter of 1990.

For the three months ended June 30, revenues declined to $3,355,000 from $3,811,000 in the year-ago period. Net earnings amounted to $69,000, or 1 cent per share, vs. $393,000, or 8 cents per share, in 1989.

For the first six months, APS reported revenues of $6,115,000 vs. $7,279,000 in 1989. A net loss of $165,000, or 3 cents per share, compares to income of $810,000, or 16 cents per share, in 1989.

Expected losses at the company's 42 percent owned affiliate, Prime Medical Services Inc. (Prime) contributed to the lower earnings as did lower interest income resulting from the purchase for cash of the interest in Prime in the fourth quarter of 1989.

Ken Shifrin, APS chairman and chief executive officer stated, ''Prime's development continues on-track. Operational and administrative progress is encouraging and should begin producing improved results as we approach year-end.'' Prime is a leading provider of non-medical management services for seven diagnostic imaging centers and 47 cardiac rehabilitation clinics.

Bill Hayes, vice president - finance said, ''Lower sales, particularly at our insurance management subsidiary, have been the cause of lower earnings in 1990, but we expect plans implemented earlier to begin to have a positive effect on the sales trend.'' He cited the improved financial condition of the managed insurance companies, two recently signed contracts at the software company, and expansion of the brokerage business as results of these plans.

APS is a financial services firm, with subsidiaries and affiliates that provide: management of medical malpractice insurance companies; third party medical and dental administration services; brokerage, financial planning and investment services to individuals and institutions; computer systems for large medical clinics and university medical schools; Hispanic yellow page directories; and management of cardiac rehabilitation and diagnostic imaging centers through its Prime Medical affiliate.

Its corporate headquarters are located in Austin, with regional offices in San Antonio, Dallas and Little Rock, Ark.

BOSTON (AUG. 14) BUSINESS WIRE - Clinical Data Inc. (NASDAQ:CLDA), a multinational medical company Tuesday reported sales and earnings for its first fiscal quarter ending June 30, 1990.

Revenues for the three month period were $2.63 million compared with $1.97 million for the same period a year ago. The company showed a net profit for the period of $179,000, or 6 cents per share, compared with a net loss of $145,000, or 5 cents per share, for the first quarter a year ago.

Israel M. Stein, M.D., president, commenting on the results stated, ''We are encouraged by the performance of our Dutch subsidiary, Vital Scientific, and with our domestic business units which have resulted in restoring our operating profitability. We continue to search for appropriate acquisition candidates that will provide us an opportunity for growth in both revenues and earnings.''

Clinical Data Inc. is a multinational medical company offering computer-based services and products for pharmaceutical research, clinical laboratories, and health care practitioners. The company provides ambulatory monitoring services and technology used in cardiovascular drug research.

The company's Dutch subsidiary, Vital Scientific NV, designs and manufactures blood analysis instrumentation which is marketed worldwide. EnviroMed Inc. collects and disposes of medical and hazardous waste from small quantity generators.

MANCHESTER, NH (AUG. 14) BUSINESS WIRE - EnergyNorth Inc. (NASDAQ:ENNI), the parent holding company of EnergyNorth Natural Gas Inc. and EnergyNorth Propane Inc., Tuesday reported financial results for the third fiscal

quarter ended June 30, 1990.

Earnings for the third quarter showed a loss of $647,000, compared to one year ago when earnings showed a loss of $725,000. Third quarter results typically show losses because of the seasonal nature of the natural and propane gas business.

Earnings on a per share basis for the third quarter showed a loss of 25 cents as compared to a loss of 29 cents during the same period last year, based on 2,584,656 and 2,461,046 weighted average shares outstanding, respectively.

The third quarter showed a 10.7 percent increase in the volume of natural gas sold to firm customers compared to the same period one year ago. Retail propane sales increased by more than 18 percent. The weather was 2.6 percent colder compared to the third quarter last year but slightly warmer than normal. Gas utility customers numbered 59,958 as of June 30, 1990, while propane customers rose to more than 6,400.

For the nine months ended June 30, 1990, operating revenues were $71,651,000, an increase from $65,825,000 in the same period last year. Earnings applicable to common stock for the first nine months of the fiscal year were $6,080,000, or $2.36 per share. This compares to $5,917,000, or $2.43 per share for the same period one year ago.

Operating revenues for the 12 months ended June 30, 1990 increased to $78,782,000 from $73,070,000 in the prior year. Earnings applicable to common stock for the last 12 months were $3,786,000 or $1.47 per share for the previous year. This compares to $4,478,000, or $1.84 per share for the same period last year.

Included in earnings for the 12 months ended June 30, 1989 is $410,000 or 17 cents per share which is attributable to revenues recorded in September 1988 relative to settlement of a rate case in October 1988.

NEW YORK (AUG. 13) BUSINESS WIRE - Loral Corp. has been selected to provide sonar systems and fire control electronics for upgraded combat systems to be used aboard Israel's Dolphin-class submarines.

The contract is worth $92.5 million to the team comprised of Loral Defense Systems-Akron, Krupp Atlas Elektronik GmbH of Bremen, West Germany, and selected Israeli subcontractors.

Loral will proceed under limited funding until all State Department and Defense Security Assistance Agency reviews are completed.

The Israeli program marks a continuation of Loral's strategy to become a significant participant in the international antisubmarine warfare market. Last year, a Loral team was selected to provide sonar systems and associated electronics to upgrade Romeo-class submarines for another foreign country.

Under the Israeli program, Loral will supply sonar and fire control systems for two submarines and one land-based test system. Deliveries are expected to begin in 1994.

Loral Defense Systems-Akron has designed and produced a wide range of undersea systems for the U.S. Navy, including the Captor mine and the Mk-30 mobile undersea training target.

Loral Corp. (NYSE:LOR) is a high technology company that primarily designs and manufactures defense electronics.

HOUSTON (AUG. 14) BUSINESS WIRE - Howell Corp. announced Tuesday that Byron L. Teufel, Richard N. (Rich) Tyler and Jeffrey C. (Jeff) Lee joined its crude oil marketing unit as, respectively, vice president, operations, vice president, supply and crude oil representative.

During 1990 the crude oil marketing segment has improved its contribution to operating earnings by 15 percent over the same period in 1989. This has been accomplished through significant increases in controlled barrels of crude oil and, consequently, gross revenues. The company expects Teufel Tyler and Lee to continue to expand upon these positive trends.

Teufel commenced his career as a crude oil representative for Koch Oil in the early 1980's. He has almost a decade of experience, with increasing levels of responsibility in all aspects of the crude oil purchasing and marketing business.

Most recently he was a partner in Producer Management Corp., which was primarily engaged in consulting with producers and arranging for them opportunities to share in downstream profits. Teufel has a degree from East Central Oklahoma State University. He is married, with one child.

After receiving his degree from the University of Southwest Louisiana, Tyler started his crude oil purchasing and marketing career in 1981 in Kansas. He quickly moved to Koch Oil, where he remained for over eight years. Tyler managed Koch's Lafayette, La., office during his last three years with that company, where he was responsible for lease purchases of 48,000 barrels of oil per day.

During 1990 he has been an independent crude oil representative for producers, doing business as Tyco Marketing. Tyler is married, with two children.

Howell Corp. (NYSE:HWL) is an energy industry holding company. Through wholly-owned operating units, it is engaged in oil and gas exploration and production, crude oil marketing, technical fuels refining and marketing, custom chemical processing, product terminalling and common carrier bulk liquids transportation of hydrocarbons and chemicals.

NEW YORK (AUG. 14) BUSINESS WIRE - Leisure Concepts Inc. (NASDAQ:LCIC) announced Tuesday that revenues increased 17% for the second quarter ending June 30.

The company had revenues of $1,316,826 and net income of $168,312 or 5 cents per share, compared with $1,127,416 and net income of $113,787, or 4 cents per share for the same period of 1989.

Stanley A. Weston, chairman and chief executive officer of Leisure Concepts, said the increased performance was due primarily to continuing strong revenues from the Nintendo characters and trademarks, along with increasing interest in the World Wrestling Federation and the addition of new properties such as ''Captain Planet.'' ''The continuing public concern over the environmental issues has brought attention to 'Captain Planet.' We are seeing strong interest from a broad range of marketers for this exciting, new property,'' he said.

Leisure Concepts Inc. with offices in New York and Los Angeles, is the only public company engaged primarily in the business of licensing commercial rights to properties and personalities. Leisure Concepts also owns an equity position in ACTV, the interactive television system.

CHANTILLY, Va. (AUG. 14) BUSINESS WIRE - VERDIX Corp. (NASDAQ: VRDX) Tuesday announced a 56 percent increase in first quarter net income on a

24 percent increase in revenue.

The company earned $492,311, or 4 cents per share for the fiscal 1991 first quarter ended June 30, 1990 compared to $315,593, or 3 cents per share a year earlier.

Revenue for the quarter climbed to $3,020,747 from $2,432,280 in the first quarter of fiscal 1990.

E. Gary Clark, president and chief executive officer of VERDIX said: ''We are pleased to be able to report continued growth in earnings at the same time as we are increasing our investments in new products, the Verdix Secure Local Area Network (VSLAN) and VADS/APSE, our Technical CASE product line.''

VERDIX Corp. is headquartered in Chantilly, with major software development facilities in Aloha, Ore.

#90226b0744 08/14/1990 ~Business Wire

FRAMINGHAM, MA (AUG. 14) BUSINESS WIRE - The TJX Companies, Inc. (NYSE:TJX), the major off-price apparel retail operator of T.J. Maxx, Hit or Miss, Chadwick's of Boston and Winners Apparel Ltd. (Canada), today announced a strong increase in its operating results for the second quarter ended July 28, 1990.

Income from continuing operations was $.21 per share, up 40 percent over comparable earnings per share of $.15 in the prior year. Last year's reported second quarter income of $12.9 million, or $.20 per share from continuing operations is not comparable because it included certain one-time items related to the Company's 1989 restructuring as well as dividend income from Ames Department Stores, Inc. preferred stock which was subsequently fully reserved against by TJX. Thus, this year's second quarter income from continuing operations of $14.4 million, or $.21 per share, compares with an adjusted $10.4 million, or $.15 per share last year.

For the first half of fiscal 1990 income from continuing operations was $29.0 million, versus comparable earnings of $23.9 million in the prior year, adjusted for the effects of the Company's restructuring and the Ames Preferred Stock. Earnings per share from continuing operations increased 23.5 percent for the six month period to $.42 per share, up from an adjusted $.34 per share in the prior year.

Net sales for the second quarter increased 14.4 percent to $572.5 million from $500.3 million last year, bringing sales to $1,086.2 million for the first half, up 12.4 percent over the same period last year.

The TJX Companies, Inc. is a major off-price specialty apparel retailer, with 367 T.J. Maxx stores, 572 Hit or Miss stores, the nation's leading women's fashion off-price mail order catalog, Chadwick's of Boston, and 5 Winners Apparel Ltd. stores in Canada.

Since the company is no longer reflecting the dividend income on the Ames preferred stock, comparable prior year pro forma income from continuing operations is $10.4 million, or $.15 per share for the 13 weeks and $23.9 million, or $.34 per share for the 26 weeks.

VICTORIA, BRITISH COLUMBIA (AUG. 14) BUSINESS WIRE - Battery One-Stop Inc. (ASE: BOSIF) (NASDAQ: BATTF), a specialty retailer of over 1,000 types of batteries and battery powered electronic products, announced Tuesday that three key management personnel of the corporation, including A.William Dittmer, president and director; P. Geoffrey Edmunds, vice president and director; and Larry E. Swaykoski, vice president and director (Management Group) are in the process of closing a transaction previously announced pursuant to which affiliates of The Edward J. DeBartolo Corp., Michael Monus of Youngstown, Ohio, a director of the corporation, F. Stephen Allen of Tulsa, Okla., and other investors (Purchasers) are acquiring 750,000 shares of the common stock of the corporation from the Management Group.

In addition, the corporation has been advised that the Management Group has approached representatives of the Edward J. DeBartolo Corp. and its affiliates and Messrs. Monus and Allen regarding the potential acquisition from the Management Group of the rights of the Management Group to earn and acquire 2,550,000 common shares of the corporation reserved for issuance to the Management Group under an earn-out share agreement dated Dec. 15, 1987, as such rights have been proposed to be amended.

In subsequent discussions representatives of The Edward J. DeBartolo Corp. and its affiliates and Messrs. Monus and Allen have discussed the purchase of options to purchase an additional 322,000 common shares of the corporation from the Management Group as well as the rights to the earn-out shares.

The Management Group has advised the corporation that these discussions have been temporarily halted pending the closing of the 750,00 share transaction described above although the parties currently intend to resume discussions concerning such acquisition in the future. The corporation has been advised that there is no current agreement between any of the parties to purchase either the earn-out shares or the options to purchase shares and there can be no assurance that any transaction contemplated will be consummated.

#90226b0760 08/14/1990 ~Business Wire
LONDON (AUG. 14) BUSINESS WIRE - British Gas (NYSE:BRG) Tuesday announced the key senior appointments in its new regional structure, implementing the first stage of the most significant organizational change the company has undertaken for more than a quarter of a century.

Operations directors have been appointed in the 12 British Gas Regions. They will take up their new positions on Sept. 1.

The operations directors, reporting to regional chairmen, will each be responsible for a number of general managers soon to be appointed within regions. Each general manager will be responsible for the day to day needs of about 250,000 customers and will have the devolved authority to respond rapidly to their needs.

British Gas Chairman Robert Evans said, ''The new structure is designed to encourage a single minded concentration on the needs of customers.''

The organization will support the company in its policy of Committment to Customers; will enable British Gas to respond more effectively to changes in the market place and allows for new developments in research and technology to be introduced more quickly and uniformly throughout the company.

British Gas, headquartered in London, is the largest integrated gas company in the Western world and is primarily involved in the purchase, transmission, and sale of natural gas to domestic industrial and commercial customers in Great Britain. Important support activities to its marketing efforts include appliance trading and customer service to domestic gas customers. British Gas is also active in the exploration for and production of hydrocarbons both offshore and onshore. Expertise developed in the gas business is offered for sale overseas through the British Gas International Consultancy Service. American Depositary Receipts are traded on the New York Stock Exchange. One ADR is equivalent to 10 ordinary shares.

CHICAGO (AUG. 14) BUSINESS WIRE - PC Quote Inc. Tuesday announced record revenues of $2,505,242 for the quarter ended June 30, compared with $2,185,652 for the quarter ended June 30, 1989.

The company reported a net loss of 7 cents per common share compared with a loss of 3 cents per common share in the year earlier period. The net loss was $459,194 compared with a loss of $166,569 for the previous period.

The results were adversely impacted by the costs of investment in three new product lines which are expected to begin producing revenues in the third and fourth quarters.

The company has recently signed a letter of intent with Euro American Group for the provision of its data to satellite subscribers in Europe.

The company also announced that its new HyperFeed product is now in production at another major Wall Street firm in addition to Charles Schwab & Co.

PC Quote is a provider of real-time stock quotations via satellite to customers' personal computers in approximately 1,300 locations in the United States. The company's clients include brokerage firms, banks, insurance companies, professional fund managers, and institutional and individual traders.

MEMPHIS, TN (AUG. 14) BUSINESS WIRE - Insituform of North America Inc. (''INA'') (NASDAQ:INSUA (Class A Common Stock)) Tuesday reported financial results for the second quarter and six months ended June 30.

Total revenues for the second quarter were $5,184,870 compared to last year's $5,560,412. Second quarter net income was $617,892, or $.08 per share compared to $1,052,129, or $.13 per share in last year's second quarter.

For the six months ended June 30, 1990, total revenues were $10,311,198, as compared to $10,397,410 in the first six months of 1989. Net income was $978,356, or $.13 per share in the first six months of 1990 versus $1,565,358, or $.20 per share in the same period one year earlier.

The company stated that the decline in revenues in the second quarter was due to both continuing softness in contract award activities experienced by many of its licensees and a concomitant decrease in the volume of Insitutubes (R) shipped to licensees. This softness was also reflected in lower royalty income during the period.

At the same time, completion of the development of the NuPipe (R) technology and its attendant market introduction expenses increased as the company's subsidiaries NU-PIPE, Inc. and NU PIPE Limited began performing demonstration installations of this new product. These expenses totaled approximately $891,000 for the second quarter and $1,387,000 for the six

months just ended versus $361,000 and $731,000 for the same periods during 1989.

Commenting, James D. Krugman, Chairman and CEO of Insituform of North America, stated, ''The delays in contract awards are, we believe, a result of the discontinuity of funding for infrastructure projects as the funding shifts from the federal to the state and local level and the desire of our customers to delay contract awards so as to take a look at various widely publicized but little used new market entrant technologies.

''While troublesome on a quarterly basis, it appears that the log jam is clearing and that our licensees are maintaining their leadership position in this market against these newcomers to our industry. In addition, in the second quarter our wholly-owned subsidiary, NU-PIPE, Inc. completed the development of the first size of the NuPipe product and made substantial progress toward the finalization of a license agreement with licensees.

''We are hopeful that in the third quarter the license agreement will be finalized and the licensees will commercially introduce this exciting product. NU-PIPE, Inc. is already actively installing the product at various sites in conjunction with prospective licensees and recovering the costs incurred in performing such installations. As a result of the successful experience with these activities, we believe that the technology transfer to the NuPipe licensees should be started during the third quarter with the initial royalty and product sales revenue being generated both in the United States and Europe in the fourth quarter.''

Based in Memphis, Insituform of North America Inc. provides state-of-the-art techniques for the reconstruction of deteriorated pipelines utilizing the Insituform (R) Process. In addition, INA furnishes its present network of thirteen United States licensees with the Insitutube (R), resins and other related products used by them in the rehabilitation of pipeline systems throughout the country, and is a center of research and development for trenchless pipeline rehabilitation processes.

Through a wholly-owned subsidiary, NU-PIPE Inc., INA plans to introduce the NuPipe (R) Process later this year. INA serves the needs of America's infrastructure.

#90226b0776 08/14/1990 ~Business Wire

CHICAGO (AUG. 14) BUSINESS WIRE - VMS Mortgage Investment Fund (NYSE:VMG), VMS Mortgage Investors L.P. II (NASDAQ:VMTGZ) and VMS Mortgage Investors L.P. III (NASDAQ:VMORZ), a Real Estate Investment Trust (REIT) and two Master Limited Partnerships (MLPs), respectively, collectively ''the funds '' Tuesday announced that through a series of agreements the funds and their senior lender have taken possession of a large group of office buildings in southern California known as the Buckeye Portfolio from VMS Realty Partners, the funds' original sponsor.

According to the funds, the properties, divided into six groups, consist of a total of 19 office buildings mainly in the Beverly Hills, Hollywood and San Fernando Valley areas in Los Angeles. Several buildings are

located on Wilshire Boulevard, near the Rodeo Drive and Westwood sections of Los Angeles.

As of June 30, the total outstanding loans to all six groups by the funds were $154 million. The senior lender for the Buckeye Portfolio is First National Bank of Chicago (''the First''). At June 30, the outstanding loan balance to the First was $255.4 million.

The funds indicated that on Aug. 6 VMS Realty Partners filed bankruptcy petitions for the properties in Groups I, II and IV. These groups consist of nine properties and at June 30 had outstanding loans to VMS Mortgage Investment Fund in the amount of $110.9 million.

As a result of VMS's action, the funds proceeded to foreclose on its collateral assignment of partnership interests in the partnerships owning all 19 properties in the six groups.

On Aug. 10, the funds entered into a settlement agreement with the First allowing the First to take title to the properties held in Groups III, V and VI. Group III consists of four properties, which at June 30 had outstanding loans from VMS Mortgage Investors L.P. II and VMS Mortgage Investors L.P. III in the amount of $4.6 million and $11.6 million, respectively.

Group V consists of two properties, which at June 30 had an outstanding loan to VMS Mortgage Investment Fund in the amount of $19.8 million. Group VI consists of four properties and at June 30 had an outstanding loan balance to VMS Mortgage Investors L.P. II of $2 million and VMS Mortgage Investors L.P. III of $5.1 million.

VMS Mortgage Investment Fund, VMS Mortgage Investors LP II and VMS Mortgage Investors L.P. III are among eight publicly traded REITs and MLPs established by VMS Realty Partners in the late 1980s to make mortgage loans to VMS affiliated projects.

The Funds are currently in negotiations with VMS regarding approximately 75 loans collateralized by VMS affiliated partnerships and joint ventures.

#90226b0781 08/14/1990 ~Business Wire

GARDEN CITY, NY (AUG. 14) BUSINESS WIRE - Cable Applications Inc.

(NASDAQ:CBLE) reported Tuesday that Margolin, Winer & Evens, which accounting firm had been engaged to conduct an audit of the company's financial statements for the fiscal year ended March 31, 1990, resigned on August 2, 1990.

The company indicted that, because no new accounting firm has been engaged filing of its annual report on Form 10-K would be further delayed.

The company also announced the resignation of Richard Capaldo as the chairman of the board, president and a director of the company. He will continue to assist the company in its business segment of installing telecommunications systems. The company will seek a new chief executive officer.

Among the reasons cited by Margolin, Winer & Evens as the basis for its resignation were the lack of or insufficient internal controls during fiscal 1990; the failure to file certain income tax returns since 1985 and a lack of supporting documents relating to certain expense reimbursements and payroll and with respect to certain federal, state and local taxes, making it difficult to confirm certain potential liabilities; and the failure to pay all of the firm's accounting fees.

Management indicted that, in its opinion appropriate internal controls have been instituted since the end of fiscal 1990, including the engagement of a financial consultant to monitor operations and expenditures for the board and the installation of a new controller, and stated that it is taking other steps, consistent with the company's previously reported major cash flow problems, to deal with the matters raised by the accountants.

The company also reported the resignation of Vincent Cestaro as a vice president and a director of the company effective June 28, 1990.

CHICO, CALIF. (AUG. 14) BUSINESS WIRE - Duckback Industries Inc. (formerly Empire Financial Corp.) announced Tuesday that its U.S. Forming subsidiary reached a three-year agreement with Clark Manufacturing Inc., of Chino, to have Clark produce approximately 24,000 spa shells valued at approximately $15 million.

Additionally, Duckback's subsidiary Sierra National Cooperage Inc. agreed to supply Clark with redwood spa cabinets and gazebos valued at approximately $9 million over the same time period. The total value of this transaction is based on the estimated sales value of these products over the next three years.

Jeffrey L. Hilgert, president of Duckback Industries, stated that he expects significant industry consolidation in 1991 and 1992 and that these agreements will serve to strengthen both subsidiaries and provide a more stable long-term supply mechanism for U.S. Forming and Sierra National Cooperage customers. ''This arrangement is indicative of a maturing industry,'' Hilgert said, ''and is an early example of the consolidations I expect to see occur industrywide as production capacity adjusts to the market demand for portable spas.''

The 70 jobs associated with the production of U.S. Forming spa shells in Chico will be shifted from the Hegan Lane facility to Clark Manufacturing in Chino. ''These jobs represent an annual payroll loss to Chico of approximately $1.2 million,'' said Hilgert. The shift of production to Clark is expected to be completed by Aug. 31.

MIDDLEBURG, PA (AUG. 14) BUSINESS WIRE - Poloron Products Inc. (NASDAQ:PPRI), which designs, manufactures and distributes modular and custom mobile housing, Tuesday reported operating results for the three month and six month periods ended June 30.

Sales for the six month period this year totaled $7,396,000 compared with $9,912,000 in the year ago period. The company had a net loss of $1,201,000 or 33 cents per share, for the first half of 1990 compared with a net loss of $952,000 or 26 cents per share, a year ago.

Per share figures are based upon 3,586,906 average shares outstanding for the first half of 1990 and 3,626,517 average shares outstanding a year ago.

For the most recent quarter Poloron's sales were $4,691,000 and the company reported a net loss of $351,000, or 10 cents per share. In the year ago quarter sales totaled $6,494,000 and the company reported a net loss of $338,000 or 9 cents per share.

Poloron Products Inc. operates through its wholly-owned subsidiary, Poloron Homes of Pennsylvania Inc. The company distributes its modular and mobile housing in the Northeastern section of the country. -0- T

ADA, OK (AUG. 14) BUSINESS WIRE - Pre-Paid Legal Services Inc. (ASE:PPD) an Oklahoma corporation which merchandises, in 34 states, a contract enabling individuals to prepay the cost of certain legal services, reported financial results for the three months and six months ended June 30, 1990.

The company reported a net loss of $700,000, or 6 cents per share for the six months ended June 30, 1990, which included a $430,000, or 4 cents per share operating loss of an economic affiliate, compared to a net loss of $605,000, or 6 cents per share for the comparable period in 1989.

Total revenues for the six months ended June 30, 1990, were $13.2 million, a decrease of 28 percent from revenues of $18.2 million for the same period of 1989.

Net loss for the second quarter 1990 was $174,000, or 1 cent per share, compared to a loss of $422,000, or 4 cents per share for the second quarter 1989. The 1990 second quarter loss of $174,000 included a $175,000 loss of an economic affiliate, Sooner Web and Offset (''Sooner'') the company's former printing operation. Revenues for the second quarter 1990 were $6.5 million, compared to $8.9 million for the second quarter 1989.

As indicated, operations for the company returned to a break-even point for the second quarter of 1990 excluding the previously mentioned loss of Sooner. The company is currently evaluating its options as they relate to Sooner to ensure that all operational efficiencies have been achieved as Sooner continues building its base of printing business.

For the six months ended June 30, 1990, the company reported cash flow from operations of $1,850,000 and net reductions in debentures and notes payable of $1,807,000. The company remains on an aggressive debt reduction schedule with similiar reductions expected for the remainder of 1990 and 1991.

#90226b0803 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - Millicom Inc. (NASDAQ: MILL) Tuesday reported results for the second-quarter and six-month periods ended June 30.

For the second quarter ended June 30, 1990, the company reported revenues from sales and services of $38,392,000 versus $21,886,000 in the same

three-month period a year ago, which is an increase of 75 percent.

For the second quarter of 1990, Millicom reported a loss from operations of $17,923,000, offset primarily by a gain of $7.7 million from the sale of a cellular telephone license, which resulted in a net loss of $8,708,000, or 56 cents per share. In the same period last year, the company reported a loss from operations of $18,055,000 and a net loss for the quarter of $10.2 million, or 74 cents per share.

Revenues from sales and services in the 1990 six-month period ended June 30 were $76,366,000, compared to revenues of $41,298,000 in the same period last year. For the first two quarters of 1990, the company reported a net loss of $23,475,000, or $1.52 per share, compared to a net loss of $5,238,000, or 38 cents per share in the prior year.

The significant increases in sales and services revenues in the 1990 periods are primarily due to growth in Millicom's United Kingdom Cellular reselling subsidiary and its U.S. paging operation, Metagram America Inc.

For the six months ended June 30, 1990, the company's gain on the sale of maarketable equity securities was to $2,236,000, as compared to $21,652,000 for the corresponding six-month period during 1989 as the result of decreased sales of Racal Electronics Plc ordinary voting shares.

A change in accounting method, which was adopted in the fourth quarter of 1989, resulted in the capitalization of acquisition fees relating to the addition of new subscribers by the company's United Kingdom cellular reselling business.

This change resulted in a decrease to net loss for the six months and quarter ended June 30, 1990 of $5,665,000, or 37 cents per share and $1,487,000, or 10 cents per share, respectively. Prior to Oct. 1, 1989, it was the company's policy to expense such fees in the current period.

Millicom Inc. is a diversified international communications company with interests in telecommunications, satellite television and media.

#90226b0807 08/14/1990 ~Business Wire

VALLEY STREAM, N.Y. (AUG. 14) BUSINESS WIRE - Nationwide Cellular Service Inc. (NASDAQ:NCEL) Tuesday announced financial results for the company's second quarter ended June 30.

During that period, revenues increased to $27.3 million, up from $17.6 million in the second quarter of 1989. For the six months ended June 30, 1990, revenues increased to $50.1 million, up from $31.3 million in the corresponding 1989 period.

During the second quarter of 1990, the company's net loss decreased to $1,990,000 or 35 cents per share of outstanding common stock, from a loss of $2,869,000 or 60 cents per share in the same 1989 period. Net loss for the first six months of 1990 also decreased to $4,632,000 or 80 cents per share, from a loss of $4,860,000 or $1.23 per share in 1989.

Included in the quarter ended June 30, 1989, the company recorded an expense of approximately $1,620,000, which was incurred in connection with the exchange of its 9 percent convertible subordinated debentures for common stock and warrants to acquire additional shares of common stock. Of such expense, $1,427,000 represents the fair market value of the warrants.

Also included in the company's net loss for the three months and six months ended June 30, 1990 and June 30, 1989 is the company's 50 percent share of the loss of Cellular Technical Services Co. (''CTS''). For the three months ended June 30, 1990, CTS' loss decreased to $138,000 from a loss of $209,000 for the same period in 1989. For the six months ended June 30, 1990, CTS' loss decreased to $302,000 from a loss of $412,000 for the same period in 1989.

During 1990, the company continued to expand its subscriber base and currently has 63,000 subscribers in its various markets. The losses associated with this expansion are primarily the result of selling and administrative costs associated with acquiring new subscribers. Once subscribers have been activated and begin using the company's services, they generate ongoing revenues.

#90226b0808 08/14/1990 ~Business Wire

BETHESDA, MD. (AUG. 14) BUSINESS WIRE - Survival Technology Inc. (NASDAQ:SURV) Tuesday announced that the United States Department of Defense (DoD) has awarded the company a contract for the production and delivery of AtroPen (R) auto-injectors, resulting from a request for proposal originally issued in December 1989.

The AtroPen auto-injector contains the nerve agent antidote atropine. The company's military auto-injectors are intended to be used by military

personnel for self administration under combat conditions against the effects of chemical warfare. The company is the only domestic producer of auto-injectors to the DoD and is also a supplier of these injectors to allied foreign governments.

The total procurement of AtroPens, including option quantities, aggregates $2 million and was competitively bid. Survival Technology received 70 percent of the quantities ordered under this contract. Deliveries under the basic contract were scheduled to begin in September and continue through November 1990.

The DoD has recently informed the company that it expects to exercise the option under the contract and accelerate delivery of all product to Sept. 1990.

Survival Technology Inc. provides pharmaceutical delivery systems and cardiac monitoring services for the treatment of emergency medical problems. The company's products include automatic injectors for self-administration by the military, as well as injectors such as the EpiPen (R) auto-injector containing epinephrine for severe allergic reactions and the LidoPen (R) auto-injector (lidocaine) for treatment of cardiac arrhythmias.

Survival provides complete sterile parenteral contract filling and packaging services for prefilled syringes, including pharmaceutical research and development. The company also operates a transtelephonic cardiac monitoring service for high-risk heart patients and markets the CardioBeeper (R) ECG transmitters.

LOUISVILLE, KY (AUG. 14) BUSINESS WIRE - Rally's Inc. (NASDAQ/NMS:RLLY), the nation's largest double drive-thru restaurant chain, reported record financial results for the fourth quarter and fiscal 1990.

The company reports results on both an actual and a pro forma combined basis. Pro forma figures include company results plus those from franchised restaurants in the New Orleans, Birmingham, Ala., and central Indiana markets, which were acquired Oct. 19, 1989.

For the quarter ended July 1, pro forma combined revenues increased 24 percent to $19.4 million, compared with $15.7 million during the prior period. Pro forma combined net income before an extraordinary credit rose 56 percent to $1.5 million, or 22 cents per share, compared with $1.0

million, or 14 cents per share, last year.

For the year, pro forma combined revenues grew 32 percent over 1989 to $69.6 million. Pro forma combined net income increased 78 percent to $4.6 million, or 67 cents per share, compared with $2.6 million, or 39 cents per share, in 1989.

Actual results also improved substantially. Actual revenues for the quarter reached $19.4 million, up 104 percent from $9.5 million during the prior period. Actual net income for the quarter, after a pro forma adjustment for income taxes, increased 165 percent to $1.5 million, or 22 cents per share, compared with $0.6 million, or 15 cents per share, before an extraordinary credit of 6 cents per share, a year ago.

Actual revenues for the year reached $62.1 million, a 100 percent increase over $31.1 million for 1989. Actual earnings, after a pro forma adjustment for income taxes, improved by 179 percent to $4.0 million, or 67 cents per share, compared with $1.4 million, or 37 cents per share, before an extraordinary credit of 15 cents per share the previous year.

Systemwide sales increased 37 percent to $44.9 million for the quarter and increased 56 percent to $159.8 million for the year ending July 1, 1990. The number of restaurants also increased substantially for the year and fourth quarter.

Richard F. Sherman, chairman, chief executive officer and president of Rally's Inc. said, ''We are particularly optimistic about the future because our combination of speed of service, low prices and quality products are right on track with today's times.''

Sherman said the company and its franchisees opened 18 new units during the quarter, bringing to 228 the number of units in operation at the end of the fiscal year.

''We projected a year ago that we would open 80 restaurants this year and end the fiscal year with 228 units. We're pleased to have achieved that objective,'' Sherman said.

Named by Inc. Magazine as the country's fifth fastest-growing public company, Rally's is the fastest growing hamburger chain in the United States. Its stock is traded on the NASDAQ National Market System under the symbol RLLY.

#90226b0812 08/14/1990 ~Business Wire
SANTA ANA, CA (AUG. 14) BUSINESS WIRE - Effective June 30, 1990, Larry Fox was promoted to vice president of field support for Novadyne Computer Systems Inc.

Reporting to Novadyne President and Chief Executive Officer Bert J. Novak, Fox is responsible for the logistics operation, the company's three repair centers, purchasing, fourth-party sales and manufacturing and integration.

''This promotion is well-deserved,'' Novak said. ''Larry has brought tremendous expertise to Novadyne over the past several years and he continues to demonstrate the leadership qualities which have brought him to this point in his career,'' he said.

Prior to this assignment, Fox reported to Novak and was the director of field support for the last two years. He transferred to the company from McDonnell Douglas Manufacturing and Engineering as director of CAD/CAM field operations on Feb. 1, 1988.

Joining McDonnell Douglas (NYSE:MD) in August 1982, Fox held management positions both internationally and domestically over the last eight years. Before joining McDonnell Douglas, Fox held several service- management positions both internationally and domestically with Data General and Xerox Data Systems.

Having spent the past 20 years in the high-tech service industry, Fox has gained extensive knowledge of the service industry.

Fox was a chemistry major at Portland State University in the mid-1960s until he joined the Air Force in 1966, where he began his electronics career.

Born and raised in Oregon, Fox moved to Southern California in 1986. He presently resides in Anaheim.

Novadyne Computer Systems is a nationwide company with 1000 professionals in over 100 locations. Revenues in 1989 exceeded $100 million.

FORT WORTH, TEXAS (AUG. 14) BUSINESS WIRE - Lomak Petroleum Inc. (the

''company''), announced Monday an ongoing program to repurchase up to 400,000 shares of its common stock.

A total of $150,000 has been authorized for such purchases. The program is designed primarily to offer small investors a market for their shares. Open market transactions have been prohibitively expensive for small holders due to high transaction costs. The repurchase may be made in negotiated transactions or otherwise and will be based on the then prevailing quoted bid price of the stock. Shareholders owning less than 200 shares will be contacted to determine their interest in participating in the repurchase program.

The company is engaged in the acquisition, production and development of oil and gas properties and provides brine disposal and other ancillary services to the oil industry. Its common stock is listed on NASDAQ under the symbol ''LOMK.''

ARLINGTON, TX (AUG. 14) BUSINESS WIRE - Total Assets Protection, Inc. Tuesday reported more than doubled revenues for the quarter ended June 30, 1990 compared with the same period last year.

For the six months, revenues also more than doubled and the company posted much smaller operating and net losses compared to the same period in 1989.

In the second quarter, revenues totalled $4,518,608, up 116 percent from $2,088,370 in the year earlier quarter. The company posted an $82,757 loss from operations for the quarter versus an operating loss of $1,238,656 in the year ago period. The net loss amounted to just $77,663 compared with a net loss of $1,749,929 in the year ago quarter, a turnaround of almost $1.7 million.

On a per share basis that was equal to a net loss of two cents versus a loss of 42 cents in the year ago quarter. There were 4,159,507 weighted average shares outstanding in the quarter this year and 4,147,907 in the quarter a year ago.

In the six months, total revenues rose 137 per cent to $11,125,835 from $4,702,701 in the first half last year. The company narrowed its six month loss from operations to $753,124 from a loss from operations of $2,464,564 in the same half of 1989. The net loss this year totalled $69,879 in the half, after other income of $683,245 primarily in the first quarter, versus a net loss of $2,915,298 in the year ago half. This was

equal to two cents in net loss per share this year versus a net loss of 70 cents a share in the first six months last year. There were 4,153,707 average shares outstanding in the period this year and 4,147,240 in the half a year ago.

TAP is an international consulting company providing solutions for information systems environments. TAP services include the planning and design of computer centers and other technologically enhanced facilities, communications consulting, security analysis, contingency planning and technology integration. The company has international representatives in Australia and maintains corporate headquarters and regional offices in the United States.

CINCINNATI (AUG. 14) BUSINESS WIRE - Manhattan National Corp. (NYSE:MLC) Tuesday announced second quarter and year-to-date 1990 financial results for the Cincinnati-based holding company.

Manhattan National Corp.'s financial results for the second quarter and six months of 1990, were improved compared with the same periods a year earlier.

Second quarter 1990 net income was $1,138,000, or 18 cents per share, compared with net income of $905,000, or 11 cents per share, in the same period a year ago. For the six months ended June 30, 1990, net income was $682,000, or 10 cents per share, compared with net income of $671,000, or 8 cents per share, earned over the same period last year.

Shareholders' equity at June 30, 1990 was $62,230,000, equivalent to $9.85 per share outstanding. At June 30, 1990, the company had 6,315,260 common shares issued and outstanding.

The company repurchased 36,400 shares of its common stock during the second quarter for $206,570, or an average price of $5.625 per share. To date, the company has repurchased 415,800 shares for $2,241,135 or an average of $5.39 per share, since its $5 million share repurchase program

was adopted in August, 1987.

Commenting on financial results, Larry R. Pike, chairman, president and CEO stated, ''The company's financial results show solid improvement. Net income was the highest level reported since the third quarter of 1985.

''I am especially pleased with the improved results of our insurance subsidiary, Manhattan Life Insurance Co., which contributed 35 percent of the profits reported for the quarter. I expect to see continued improved performance in this 140 year old, financially strong company in future quarters.''

Manhattan National Corp. is a holding company with major subsidiaries in life insurance, investment services and pension adminstration.

IRVINE, CA (AUG. 14) BUSINESS WIRE - Advanced Logic Research Inc. (NASDAQ:AALR) Tuesday announced that Therese E. Myers and Kenneth W. Simonds were selected by ALR's board to succeed I.F. Tang and Frederick Tan who, as contemplated at the time of ALR's initial public offering in April, recently submitted their resignations to make room for two outside directors.

''We are delighted to have individuals with such impeccable credentials in the computer industry bring their talents and experience to our board of directors,'' stated Gene Lu, president and chief executive officer of Advanced Logic Research and the company's founder.

Simonds is chairman, president and chief executive officer of Teradata Corp. in Los Angeles, manufacturer of fault-tolerant database-management computer systems. Myers is a founder and president of Quarterdeck Office Systems, a supplier of software to the computer industry.

ALR also announced that it has registered its common stock under the Securities Exchange Act of 1934 and has applied for inclusion of its common stock on the National Market System of the National Association of Securities Dealers Automated Quotation System.

''We expect that more comprehensive quotation data available by virtue of our being an NMS company will prove to be worthwhile to our stockholders and investor,'' Lu added. ALR has been advised by the NASD that the company's stock will be included on the National Market System by the end

of August.

Founded in 1984, Advanced Logic Research is a leader in personal- computer technology. The company's products cover a broad range of performance and functionality, incorporating all three of the industry bus standards EISA, ISA and MCA as well as supporting the three industry operating systems MS DOS, UNIX and OS/2. The company markets its products through a worldwide network of distributors and dealers.

HOUSTON (AUG. 14) BUSINESS WIRE - The Enron Corp. board of directors Tuesday declared a third-quarter dividend of 62 cents per share on the corporation's common stock, payable Sept. 20, to stockholders of record as of Sept. 4.

The dividend rate remains unchanged from its previous level, with an indicated annual rate of $2.48.

The board also declared a dividend on the $10.50 cumulative second preferred convertible stock payable Oct. 1, to stockholders of record as of Sept. l4. The quarterly dividend rate is $2.625 per share.

Enron Corp., America's leading natural gas company with approximately $10 billion in revenues and $9 billion in assets, operates the nation's largest natural gas transmission system; markets natural gas, gas liquids, crude oil and refined products nationally and worldwide; owns 84 percent of Enron Oil & Gas Co., one of the country's largest independent (non-integrated) natural gas exploration and production companies; and also is one of the largest independent producers of electricity in the United States, with extensive experience in combined heat and power installations.

DAYTON, OHIO (AUG. 14) BUSINESS WIRE - Corporate licensing and reseller agreements were signed Tuesday by Standard Register (NASDAQ:SREG), a Fortune 500 forms manufacturer, and BLOC Development (NASDAQ:BDEV), a

software company based in Coral Gables, Fla.

The agreements allow Standard Register to use the F3 Forms Automation System and to incorporate BLOC's F3 applications - including the F3 Pro Designer - into existing forms manufacturing processes.

The F3 Pro Designer allows the user to electronically design a form that can be electronically transferred to Standard Register manufacturing plants throughout the nation for production. In addition the agreements allow Standard Register to resell BLOC's F3 products to Standard Register customers.

''The F3 Forms Automation System represents a quantum leap forward in forms development technology for Standard Register,'' says Peter S. Redding, executive vice president - administration.

''It replaces the traditional, manual design methods used to design and develop business forms with professional, advanced software products or complete business form composition and processing. This commitment will boost communication efficiences between our customers and the manufacturing plants.''

''Moving to this new system further enhances Standard Register's ability to serve its customers by reducing the time it takes to design and produce business forms,'' Redding adds.

According to BLOC's chairman and chief executive officer Frank Millman, ''BLOC is pleased to establish a relationship with Standard Register - a major player in the forms arena. They are an important link in the distribution strategy for our F3 products to Corporate America.''

Standard Register, with 1989 sales of $708 million, produces business forms and related forms processing, financial and bar code systems equipment for the health care, financial, hospitality/travel and general business markets.

BLOC develops, publishes, and markets business and personal productivity and information management software for use with IBM PC, IBM PS/2, IBM compatibles and Apple MacIntosh products. In addition, BLOC provides business automation services to small and mid-size businesses.

#90226b0831 08/14/1990 ~Business Wire

ASHLAND, KY (AUG. 14) BUSINESS WIRE - Addington Resources Inc. (NASDAQ/NMS:ADDR) Tuesday reported higher revenues and net income for the second quarter and the first half of 1990.

For the quarter, net income increased to $1.4 million, or 10 cents per share, compared with $397,000, or 3 cents per share, in theprior period. Revenues rose 16 percent to $70.9 million from $61.1 million. Per share figures are based on 15.2 million and 11.7 million shares outstanding as of June 30, 1990 and 1989.

Addington Resources President Larry Addington said second quarter net income was reduced by a $885,000 (6 cents per share) net loss in the company's road construction subsidiary. The unit experienced higher-than-expected costs to complete its three construction contracts. Addington said no bids are outstanding on additional projects and that road construction operations were being re-evaluated.

Addington said difficulties stemming from mine permit delays in West Virginia in 1990 and disruptions from picketing United Mine Workers and from flooding in 1989 also affected net income in both quarters.

The higher revenues and net income during the second quarter came predominantly from an increase in coal sales. Coal revenues rose from $50.6 million to $70.3 million, due predominantly to a 39 percent increase in net coal sales from 1.4 million tons to 2.2 million tons.

Through June 30, net coal sales rose from 3 million tons to 4.2 million tons. Revenues for the first six months improved to $138.7 million from $117.1 million. Net income increased to $14.3 million, or 94 cents per share, compared with $2.2 million, or 18 cents per share, for the first half of 1989.

Revenues and net income for 1990 include an extraordinary credit from the sale of the company's Addwest Gold subsidiary, which produced a $17.9 million pre-tax gain.

In addition to the company's focus on coal mining and marketing, Addington said the company has taken steps to continue its increasing emphasis on integrated solid waste disposal systems. As previously reported, Addington Environmental has entered agreements to acquire a South Carolina landfill and a Tennessee paper mill, and it has also purchased technology that removes recyclable materials from solid wastes.

Addington Resources mines coal in Kentucky, West Virginia, Ohio and Illinois and is engaged in contracting, highway construction operations

and the development of solid waste disposal systems. Its stock is traded on the NASDAQ National Market under the symbol ADDR.

MIAMI (AUG. 14) BUSINESS WIRE - Video Jukebox Network Inc. (VJN) (NASDAQ:JUKE) Tuesday announced its results for the three month period ended June 30.

The company reported second quarter revenues of $3,380,000, an increase of 568 percent over the $506,000 for the like period in 1989. The company realized a loss of ($276,000) or (3 cents) per common chare, as opposed to a loss of ($761,000) or (9 cents) for the like period in 1989.

Income before non-cash expenditures (which include stock compensation, depreciation, and amortization) was $188,000.

Year-to-date figures for the six months ended June 30 show revenues of $6,024,000, an increase of 582 percent over the $883,000 reported for the comparable period in the previous year. The six month loss was ($598,000) or (6 cents) per common share, compared to ($1,442,000) or (18 cents) for the like period in 1989.

The reduction of the loss compared to 1989 was attributed to significantly increased distribution of The Jukebox Network combined with effective cost control and economies of scale inherent in the expansion.

Commenting on the second quarter results, VJN President/Chief Executive Officer Andrew H. Orgel said, ''We are generally pleased with the performance of the Company throughout this period, particularly because we were able to sustain our rate of expansion while we worked toward the resolution of our financing.

''Now that TeleCommunications Inc. has agreed in principle to invest in the Company, we expect to solidify our expansion plans and financial position. In the third quarter, we hope to complete the financing package sustain our growth, and continue to move toward profitable operation.''

The Jukebox Network added 17 units reaching 1 million households in the second quarter, including launches with Time-Warner, Cox Cable, Comcast, Sammons, Cooke Cable, and KBLCOM, as well as six low power television stations. The Jukebox Network is now seen in 18 of the top 25 U.S. television markets and is affiliated with 15 of the top 20 cable multiple system operators.

Video Jukebox Network Inc. is an interactive television company that currently operates 109 units of The Jukebox Network, the leading interactive television network in the country. The Jukebox Network is available in 29 states and reaches 9.6 million households.

#90226b0840 08/14/1990 ~Business Wire

CLARK, N.J. (AUG. 14) BIZ WIRE - Whitman Medical Corp. (NASDAQ:WHIT) Tuesday reported net income of $66,074, or 6 cents per share, on revenues of $761,765, for the first three months ended June 30, 1990.

The company recorded net income of $86,411, or 7 cents per share, on revenues of $624,110 for the comparable quarter last year.

The company attributes the minor decline in net income to an increase in expenses ($485,220 in 1990 vs. $374,737 in 1989), primarily associated with the opening of a new Ultrasound Diagnostic School in Atlanta. Enrollment has increased considerably anad revenues are increasing from this division. Students attending any of the 10 Whitman Medical-owned schools earn college credits.

It takes approximately three years of operation for each school to turn a profit. Therefore, in order to maximize shareholder value, the company's management decided to delay the opening of other schools until the schools opened in 1988 have had time to mature and become profitable.

Instead, the company is hastening the development of other surgical and medical products, which they intend to license.

At this time the company is completing a prototype of the Fluid Flow Control Valve. This device will be utilized to regulate the amount of fluid the patient receives in intravenous therapy and enteral feeding therapy.

The company is also developing a new needleless injection valve. There is now a dramatic need for this type of device as it protects the medical staff from sticking themselves while giving fluid therapy treatment to patients, thereby eliminating the potential of being contaminated by infectious disease such as AIDS and hepatitis virus.

Whitman Medical Corp. develops medical and surgical products and is the largest operator of schools specializing in the training of sonographers for the field of medical diagnostic ultrasound.

#90226b0841 08/14/1990 ~Business Wire

NEW YORK (AUG. 14) BUSINESS WIRE - AmBase Corp. (NYSE:ABC) Tuesday reported a net loss of $106 million, or $3.12 per share, in the quarter ended June 30, 1990.

The company reported net income of $30 million, or 90 cents per share, in the 1989 second quarter.

The 1990 second quarter results have been significantly affected by losses realized in the high-yield portion of the investment portfolio of the company's insurance subsidiaries. In addition, these results reflect lower earnings by each of the company's operating segments due to unfavorable market conditions in property/casualty insurance, retail securities brokerage and banking, and by restructuring costs. The 1990 second quarter net loss also includes a $17 million charge for income tax benefits established in this years's first quarter which are no longer available as a result of AmBase's most recent forecast which anticipates a pretax loss for all of 1990.

For the six months ended June 30, the company reported a consolidated net loss of $148 million, or $4.36 per share, in 1990 compared with consolidated net income of $56 million, or $1.65 per share in 1989. Second quarter 1990 consolidated revenues were $770 million compared with revenues of $911 million reported in last year's second quarter. For the six months ended June 30, revenues totaled $1,547 million in 1990 compared with $1,759 million in 1989. The decline in revenues is primarily attributable to realized losses associated with the insurance investment portfolio and a decrease in banking revenues associated with the restructuring of that operation.

The company also announced that it had signed an amendment to its current bank credit agreement which provides for adjustments to certain financial covenants, additional contingent fees and accelerated repayment schedules.

Consolidated insurance operations reported a second quarter statutory combined ratio after policyholders' dividends of 110.4 compared with 110.0 in last year's second quarter. The statutory combined ratios for the first six months of 1990 and 1989 were 109.4 and 108.7, respectively.

AmBase Corp. is an insurance, banking and investment services organization. Its principal subsidiaries include The Home Insurance Company, US International Re, Carteret Bancorp, Gruntal Financial Corp., and Sterling Forest Corp.

#90226b0843 08/14/1990 ~Business Wire

HOUSTON (AUG. 14) BUSINESS WIRE - American Oil and Gas Corp. (AMEX: AOG) Tuesday announced the following results for the three and six months ended June 30, 1990:

AMERICAN OIL AND GAS CORP.
(In Thousands, Except Per Share Amounts)

	Three Months Ended	Six Months Ended

	June 30,		June 30,	
	1990	1989	1990	1989
		(Restated)		(Restated)
Revenues	$107,478	$25,552	$240,473	$53,182
Operating income (loss)	5,830	(280)	8,694	674
Equity in loss of WellTech, Inc.	(1,447)	(3,428)	(2,060)	(6,411)
Other income (expenses)	(1,536)	669	(3,216)	515
Net income (loss)	2,847	(3,039)	3,418	(5,222)
Net income (loss) applicable to common stock	1,138	(3,465)	1,156	(6,074)
Net income (loss) per common share	7 cents	(41 cents)	7 cents	(72 cents)

For the quarter and six months ended June 30, 1990, American Oil and Gas Corp. reported significant increases in its revenues and operating income as compared to the same periods in 1989. The increase in revenues is primarily a result of AOG's acquisition of the natural gas pipeline business of Cabot Corp., which was effective Nov. 1, 1989.

The increase in operating income was substantially due to measures implemented to improve the operations of the acquired business.

Second quarter results reflect the favorable impact of hot and dry weather conditions in the company's primary service area that caused heavy demand from agricultural and electric utility customers. The favorable operating results were also due to improved coordination and matching of purchase and sales transactions, and improved efficiencies in field operations.

The improvement in net income for the quarter and six months ended June 30 1990, compared to the like periods in 1989 was primarily attributable to the increase in operating income and the decrease in the company's equity in loss of WellTech.

This improvement was partially offset by interest expense related to the debt issued in connection with the purchase of the acquired operations.

NEW ORLEANS (AUG. 14) BUSINESS WIRE - Robert E. Howson, chairman of the board and chief executive officer of McDermott International Inc. (NYSE:MDR), said Tuesday the board of directors voted a quarterly dividend

of 25 cents per share on the common stock of the company, payable Oct. 1, 1990 to stockholders of record on Sept. 14, 1990.

In a separate action, the board of directors of McDermott Inc., a subsidiary of McDermott International Inc., declared a quarterly dividend of 55 cents per share on the Series A $2.20 Cumulative Convertible Preferred Stock and 65 cents per share on the Series B $2.60 cumulative preferred stock, both payable Oct. 1, 1990, to stockholders of record on Sept. 14, 1990.

McDermott International Inc., is a leading worldwide energy services company. The company and its subsidiaries manufacture steam-generating equipment, defense products, and tubular products. They also provide engineering and construction services for industrial and utility facilities onshore, and to the oil and gas industry offshore.

NEW YORK (AUG. 14) BUSINESS WIRE - AmBase Corp. (NYSE:ABC) Tuesday announced that it has signed a letter of intent to sell The Home Insurance Co. to Vik Brothers International, a European-based investor group.

The total value of the transaction, which includes The Home's subsidiaries Gruntal Financial Corp. and Sterling Forest Corp., is $905 million including cash and the assumption of AmBase corporate debt, which together aggregate $620 million, and leaves in place the $285 million of $2.95 Series A, Cumulative Preferred Stock of The Home.

The proceeds available from the sale and the anticipated proceeds from the $124 million par value of The Home Insurance Co.'s Cumulative Preferred owned by AmBase will be used to liquidate AmBase's outstanding indebtedness, which is estimated to be approximately $730 million at closing.

The expected proceeds make it unlikely that AmBase will distribute a special cash dividend to its stockholders.

George T. Scharffenberger, chairman, president and Chief Executive Officer of AmBase said, ''After several months of discussions with many interested parties, I am pleased that Vik Brothers, an international firm, has been selected to be the new parent of The Home Insurance Company.''

''The purchase price paid by Vik Brothers International reflects the tremendous improvement in the underwriting operations of The Home

Insurance Company over the last four years. I am also pleased that Vik is committed to The Home's strategic direction and its current management team,'' according to James J. Meenaghan, president and chief executive officer of The Home Insurance Co.

The proposed transaction is subject to the completion of due diligence by Vik Brothers, the execution of a definitive agreement by Sept. 28, and regulatory approvals. Additionally, AmBase will submit the Vik Brothers offer to AmBase stockholders for their approval at a Special Meeting to be held later this year.

AmBase Corp. is an insurance, banking and investment services organization. Its principal subsidiaries include The Home Insurance Co., US International Re, Commonwealth Insurance Co., Carteret Bancorp, Gruntal Financial Corp., and Sterling Forest Corp.

NEW ORLEANS (AUG. 14) BUSINESS WIRE - Robert E. Howson, chairman of the board and chief executive officer of McDermott International Inc. (NYSE:MDR), announced that the board of directors has elected John P. Eckert president and chief operating officer of the company.

Eckert will report to Howson.

The Board also promoted Joe J. Stewart to executive vice president and Group Executive, Power Generation Group and William L. Higgins to executive vice president and Group Executive, McDermott Marine Construction. Stewart and Higgins will report to Eckert.

Eckert has been senior vice president and Group Executive, Defense and Nuclear Power since 1988. He joined the company in 1955 as an engineer in Barberton, Ohio. He holds a B.S. degree in civil engineering from Lehigh University and an MBA degree from Lynchburg College.

Stewart has been senior vice president and Group Executive, Power Generation Group since 1988. He joined the company in 1972 as manager of project management in Lynchburg, Virginia. He holds a BS degree in chemical engineering from Purdue University, an MS degree in nuclear engineering from Kansas State University and a doctorate in nuclear

engineering from North Carolina State University.

Higgins has been senior vice president and Group Executive, McDermott Marine Construction since 1988. He first joined the company as a field engineer in 1968. He holds a BS degree in electrical engineering from Louisiana State University.

McDermott International Inc., is a leading worldwide energy services company. The company and its subsidiaries manufacture steam-generating equipment, defense products, and tubular products. They also provide engineering and construction services for industrial and utility facilities onshore, and to the oil and gas industry offshore.

PISCATAWAY, NJ (AUG. 14) BUSINESS WIRE - Unitronix Corp. (NASDAQ:UTRX) announced Tuesday that it has agreed to sell its computer service business which consists of contracts and inventory, to Bay State Computer Group Inc., located in Boston.

The purchase price is $400,000, consisting of a cash payment of $100,000 at closing and a three year note for $300,000. This sale is contingent upon Bay State's satisfaction with its review of service and maintenance business.

The company is also in negotiations with other parties to sell certain portions of its computer distrbution business. The company expects to complete these negotiations within the next month.

Frank Zimmer, president and CEO, said, ''Upon completion of the presently ongoing negotiations, we will terminate all distribution agreements, which will conclude our planned exit from the distribution business, and will allow us to devote our entire business focus to the PRAXA software division.

''To the extent that we have been unable to sell any portion of our distribution business as a going concern, we will sell off the remaining inventories. At the present time we are unable to determine the full extent of reserves, which will be taken as of June 30, 1990, the end of our last fiscal year, to provide for this divestiture.

''Our internal analysis indicates the company will take a write off of between $750,000 and $1 million, subject to a final audit for the fiscal year ended June 30, 1990.''

NORTHVALE, NJ (AUG. 14) BUSINESS WIRE - Baltek Corp. (NASDAQ:BTEK) Tuesday announced results for the second quarter and six months ended June 30, 1990.

Commenting on the results, Jacques Kohn, president, stated: ''Our balsa sales continued to be affected by the softness in the U.S. pleasure boating industry, thereby affecting demand for our balsa wood. This decline was, however, somewhat offset by continued growth of balsa sales to the European market.

''While our shrimp operations did operate at a loss for the first six months of fiscal 1990, we expect that the recent 50 percent addition to our shrimp farm acreage will create a more efficient operation in the near term,'' Kohn noted.

Book value continued to grow during the latest six months. At June 30, 1990, it amounted to $24,537,919, or $9.73 per share, substantially higher than the current stock price.

NEW YORK (AUG. 14) BUSINESS WIRE - Geoffrey Jurick, chairman of Fidenas Corp. announced Tuesday that Fidenas has acquired an additional 2 percent of the common stock of Emerson Radio Corp., thereby bringing Fidenas' total ownership of that company to 10.95 percent.

Fidenas has been acquiring stock in Emerson since August, 1989 and since then has had discussions from time to time with respect to Fidenas involvement in Emerson Radio Corp. affairs. According to the most recent 13D report filed by Emerson, the purpose for these acquisitions has been for investment purposes. The report notes, however, that Fidenas recently

has held and will continue to hold discussions with senior officials of Emerson Radio Corp. to develop ways to enhance shareholder value.

These discussions relate to many items and include (but are not limited to) such topics as Fidenas' participation in a possible joint venture for European marketing of products and the possible assisting in a general way with the capital required therewith; the possible collaboration by Fidenas or others recommended by Fidenas, with respect to development of products and the possible appointment of a Fidenas representative to the board of directors of Emerson Radio Corp.

No aggreements, understandings or commitments have been made with respect to any of the items discussed at this time.

#90226b0888 08/14/1990 ~Business Wire

STAMFORD, Conn. (AUG. 14) BUSINESS WIRE - Petroleum Heat and Power Co. Inc. (AMEX:PHP) has announced that unit volume for the second quarter of 1990 increased to 87 million gallons bringing total volume for the first six months of 1990 to 291 million gallons.

Cash flow for the six months was $15.8 million ($1.05 per Class B Common Share) and net income $352,000.

While operating income before depreciation and amortization significantly inmproved in the second quarter primarily due to the impact of the acquisitions made in 1989 and 1990, the improvement was not sufficient to offset the impact of the abnormally warm weather experienced during the first quarter of 1990 when temperatures were 12 percent warmer than the comparable period in 1989 as well as 20 percent warmer than normal and the warmest in the century.

As a result, the company's income and cash flow were lower for the first six months as costs related to the twenty-two 1989 and 1990 acquisitions were incurred without the full benefit of additional sales due to the weather's impact on volume while operating costs could not be commensurately adjusted in the one-quarter time frame.

Because of this, the company expects cash flow for the year to be below that generated in 1989.

Home heating oil volume for the six months was approximately 2 percent below the comparable period the year earlier as the abnormally warm weather combined with lower volume resulting from the October 1989

exchange of the company's Westchester County, N.Y. operations more than offset the approximate 12 percent increase resulting from the 1989 and 1990 acquisitions. (While the company's volume decreased as a result of the exchange, the volume received was integrated into an existing branch and has resulted on lower operating costs.)

The company's net income of $352,000 reflected an annual income tax rate of 8 percent, substantially before the 40 percent rate for the same period in 1989. The company expects that it will incur a loss for the year which because of limited amounts of federal tax carrybacks and deferred tax provisions, will generate a tax benefit rate of only 8 percent for the year.

Petroleum Heat and Power Co. Inc. is the largest distributor of home heating oil in the United States and currently serves 370,000 customers in 24 marketing areas from Portsmouth, N.H. to Washington D.C.

FORT LEE, NJ (AUG. 14) BUSINESS WIRE - On-Line Software International Inc. (NYSE:OSI) Tuesday announced that its board of directors approved a stockholder rights plan intended to prevent accumulation of On-Line Software's stock under circumstances which could jeopardize On-Line Software's business relationships, to deter coercive and unfair take-over attempts and to encourage potential acquirers to negotiate with On-Line Software in advance regarding any acquisition proposal.

On-Line Software said that the board of directors is committed to a program of enhancing stockholder values. The stockholder rights plan is intended to allow On-Line Software to pursue this program without interference, and to insure that any person or group seeking to acquire control of On-Line Software accord all On-Line Software stockholders fair and equitable treatment and maximum value for their shareholders.

On-Line Software is a NYSE corporation headquartered in Fort Lee. The firm combines consulting and educational services with a full range of systems software designed to enhance the productivity of IBM computer systems users. On-Line Software offerings include CICS, DB2 and development systems software products and services. The corporation's distribution network services more than 25 countries through 15 offices and many distributors.

#90226b0892 08/14/1990 ~Business Wire

FAIRPORT, N.Y. (AUG. 14) BUSINESS WIRE - Voit Corporation (NASDAQ:VOIT) today announced results for the thirteen and twenty-six week periods ended June 29, 1990.

Revenues for the second quarter ended June 29, 1990 were $5,489,506 compared to $6,791,484 in the prior year's second quarter. The net loss before a preferred stock dividend of $87,659 was $169,444, producing a net loss applicable to common stock of $257,103 or $.09 per share. In the prior year's second quarter ended June 30, 1989, there was a loss of $123,907 (including one-time charges of $225,000) before a preferred stock dividend of $94,958, producing a loss applicable to common stock of $218,103 or $.08 per share.

For the twenty-six week period ended June 29, 1990, revenues were $13,743,395 compared to $15,937,694 in the prior year's first six months. The net earnings before a preferred stock dividend of $175,318 were $133,712, producing a net loss applicable to common stock of $41,606 or

$.02 per share. In the prior year's first six months ended June 30, 1989, there were net earnings of $892,909 (including one-time charges of $225,000) before a preferred stock dividend of $189,917, producing earnings applicable to common stock of $702,992 or $.25 per share.

The decrease in revenues and earnings for both the quarter and the twenty-six weeks ended June 29, 1990 was due to lower shipments of home exercise equipment and swim gear, the Company's highest volume and highest gross margin lines, respectively.

David Goldman, President, commented, ''Since the close of the second quarter, sales have improved moderately but continue to remain under the pressure of nationally depressed retail sales. However, we note improved, continuing progress in income derived from licensed products.''

Voit Corporation is a national distributor of sporting goods equipment located in Fairport, New York.

NATCHEZ, MS (AUG. 14) BUSINESS WIRE - Callon Consolidated Partners L.P. (NASDAQ/NMS:CCLPZ) reported its results of operations for the three and six-month periods ended June 30, 1990.

For the three months ended June 30, 1990, the partnership reported a net loss of $327,000, or 6 cents per unit of limited partnership interest, compared to a net income of $644,000, or 11 cents per unit, for the second quarter of 1989. Operating results for the second quarter of 1990 reflect revenues of $2,214,000 compared to revenues of $3,619,000 for the second quarter of 1989.

For the six months ended June 30, 1990, the partnership reported a net income of $147,000, or 2 cents per unit, on revenues of $5,294,000. For the like period of 1989, net income was $1,300,000, or 22 cents per unit, on revenues of $7,193,000.

The reduction in first-half 1990 income was attributed to declining production rates. The partnership's average daily production rates were 1,100 barrels of oil and 4.1 million cubic feet of gas in the first six months of 1990, compared to 1,536 barrels of oil and 5.1 million cubic feet of gas in the like period of 1989.

During the first six months of 1990, as opposed to the like period of last year, the average price received per barrel of oil increased to $18.64 from $18.58, and the average price received per thousand cubic feet of gas decreased to $1.81 from $1.84.

Callon Consolidated Partners L.P. produces oil and natural gas from domestic onshore properties located primarily in the Gulf Coast region. The partnership's 5.9 million depositary receipts for units of limited partnership interest trade on the NASDAQ National Market System under symbol CCLPZ.

CAMBRIDGE, MA (AUG. 14) BUSINESS WIRE - The Board of Directors of Bolt Beranek and Newman Inc. (NYSE symbol:BBN) today authorized the company to expend from time to time in open market or negotiated transactions up to $15 million for the purchase of the company's 6 percent Convertible Subordinated Debentures due 2012.

The debentures currently trade at a discount from the face value on the New York Stock Exchange under the symbol ''BBN12.'' Approximately $85 million face value of the debentures are outstanding.

The authorization gives the company the opportunity to strengthen its balance sheet and to reduce interest costs. The company also intends to continue its current, authorized purchase program for up to two million shares of the company's outstanding common stock. Approximately 1.3 million shares have been purchased since that program was initiated in October 1987.

Headquartered in Cambridge, MA, Bolt Beranek and Newman is a diversified high technology corporation. BBN develops, manufactures, sells, and supports products including private wide-area communication networks, data analysis software, and parallel processing computers; provides research and development services in the computer and physical sciences; and builds distributed simulation and sensor and surveillance systems.

#90226b0907 08/14/1990 ~Business Wire

HOUSTON (AUG. 14) BUSINESS WIRE - Baker Hughes Inc. (NYSE:BHI) Tuesday announced that it intends to call for redemption its convertible exchangeable preferred stock.

The redemption date is anticipated to be August 31, 1990, with a payment to holders of preferred stock being approximately $52.61 per share for each share redeemed, which includes accrued dividends through the

redemption date.

Each share of preferred stock is currently convertible into 1.9608 shares of common stock. The company's common stock closed at $32.75 on the New York Stock Exchange Tuesday.

A company spokesman indicated that the company expects substantially all holders of the preferred stock to convert into common because of the relative disparity between the value of the redemption price and the current common trading value.

Baker Hughes is a leading provider of products and services for the oil, gas and process industries.

NEW YORK (AUG. 14) BUSINESS WIRE - Orient-Express Hotels Inc., owner and operator of deluxe hotels, tourist trains and cruise vessels Tuesday reported net earnings of $954,000 (10 cents per common share) on revenue of $19.4 million for the second quarter ended June 30.

In the second quarter of 1989 the company earned $1.6 million (17 cents per common share) on revenue of $16.7 million. The negative variance between quarters is due to serious delays in completion of renovation works at the Splendido Hotel, resulting in most of the rooms not being available in the quarter, plus a foreign exchange loss vs. a foreign exchange gain in the previous year's second quarter.

For the six months ended June 30 the company reported net earnings of $15.4 million ($1.58 per common share) on revenue (excluding gain on asset sale) of $29.3 million, compared with a net loss of $1.5 million (loss of 15 cents per common share) on revenue of $26.1 million in the first six months of 1989. The favorable variance between periods is due to the sale fo the Welcombe Hotel. The company has retained a long term management contract for this property.

CAMBRIDGE, MA (AUG. 14) BUSINESS WIRE - Bolt Beranek and Newman Inc. (NYSE:BBN) Tuesday reported net income of $3,821,000, or 21 cents per

share, on sales of $69,280,000 for the fourth quarter ended June 30, 1990.

This compared to a net loss of $22,743,000, or $1.27 per share, on sales of $71,921,000 for the same period a year ago. Results for the fourth quarter ended June 30, 1989 included substantial provisions and other charges.

For the year ended June 30, 1990, the company had a net loss of $34,804,000, or $1.91 per share, on sales of $261,927,000; compared to a net loss of $25,125,000, or $1.37 per share, on sales of $291,570,000 in fiscal 1989. Results for fiscal year 1990 include a restructuring charge of $20,400,000, or $1.12 per share.

Results for fiscal year 1989 included a fourth-quarter restructuring charge of $5.1 million and provisions and writedowns of approximately $27 million, of which $13.7 million was recorded in the fourth quarter. In addition, results for 1989 included a benefit for the cumulative effect of a change in accounting for income taxes of $6,395,000, or 35 cents per share, reflecting the company's adoption of Statement of Financial Accounting Standards No. 96.

Headquartered in Cambridge, Bolt Beranek and Newman is a diversified high technology corporation. BBN develops, manufactures, sells and supports products including private wide-area communication networks, data analysis software, and parallel processing computers; provides research and development services in the computer and physical sciences; and builds distributed simulation and sensor and surveillance sytsems.

AUSTIN, TX (AUG. 14) BUSINESS WIRE - HealthVest (ASE:HVT) Tuesday announced results for the second quarter and six months ended June 30, 1990.

For the second quarter, the company reported a net loss of $2.7 million, or 25 cents per share compared with net income of $5.4 million, or 48 cents per share in the second quarter a year ago. For the six months ended June 30, 1990, HealthVest posted a net loss of $6.8 million, or 64 cents per share compared with net income of $10.9 million, or 96 cents per share in the same period last year.

Funds available for distribution or reinvestment for the second quarter amounted to a negative $1.1 million compared with $7.3 million in the year-earlier period, and for the six months ended June 30, 1990, amounted to a negative $3.7 million compared with $14.9 million in the same period last year.

HealthVest's second quarter results reflected the reduced revenues provided for under the standstill agreement with its principal operator, Healthcare International Inc., and reduced revenues from other operators who continued to experience operating and cash flow difficulties. Expenses for the second quarter of 1990 were higher than those in the same quarter of the previous year.

HealthVest is a self-administered Real Estate Investment Trust (REIT) that invests in income-producing health care-related properties including psychiatric, general health and rehabilitation hospitals, skilled nursing facilities, retirement centers, medical office buildings, medically oriented fitness centers, and facilities offering other related health care products and services.

#90226b0930 08/14/1990 ~Business Wire
NEW YORK (AUG. 14) BUSINESS WIRE - B+H Ocean Carriers Ltd. (ASE:BHO) Tuesday reported operating results for the 1990 second quarter and first half-year and announced the company's board of directors had declared a dividend of 80 cents per share payable Sept. 7, 1990 to shareholders of record on August 24, 1990.

For the second quarter, B+H Ocean Carrier's net income was $1,014,000, or 25 cents per share, on revenues of $8,681,000 as compared to net income of $2,204,000, or 54 cents per share, on revenues of $8,588,000 in the like period a year ago.

For the six months net income was $4,140,000, or $1.01 per share, on revenues of $17,542,000 vs. net income of $4,636,000, or $1.14 per share, on revenues of $17,147,000 in the like period a year ago.

In this year's second quarter, the company, as previously reported, had a total of 68 days of off-hire for its 13 vessels of which 63 days related to scheduled drydockings of two product tankers.

The reduction in net income in the second 1990 quarter over the second 1989 quarter is primarily attributable to a substantial increase in drydocking costs, the loss of revenues from increased off-hire days and a reduction in COTCO pool charter rates of approximately 8.5 percent, partially offset by an approximate 19.5 percent increase in PROTRANS pool charter rates.

Over the balance of 1990, the company expects to drydock three vessels, two of which will be taken out of service in the third quarter and one in the fourth quarter.

Michael S. Hudner, president, said in making today's announcement, ''We view upgrading of the vessels as an important investment as we expect it will prolong the life and value of our ships, improve our competitive position and shareholder returns.

The company operates seven handy-size dry bulkcarriers and six product tankers.

HOMER, AK (AUG. 13) - An earthquake of moderate force shook the Kenai Peninsula south of Anchorage, Alaska Monday, but caused no casualties or major damage, authorities said.

The quake, measuring 5.6 on the Richter scale, struck between the towns of Homer and Ninilchik, an area 180 kilometers (110 miles) south of Anchorage and a popular destination for vacationers, the Alaska Earthquake

Information Center in Fairbanks, Alaska said.

"Everything was dancing -- it felt like the roof was coming in," said Fran Skaggs, an employee at Ulmer's Rexall drugstore in Homer. "There were quite a few things falling off the shelves."

But she said the store suffered no losses, only a "few piles of things here and there that need to be cleaned up."

Police in Homer and other towns of Kenai said there were no reports of injuries or damage.

MANILA (AUG. 14) - The Philippines is about to seal a "debt for nature" agreement worth 25 million dollars with Washington and wants to expand the program to 100 million dollars, an official said here Tuesday.

Environment and Natural Resources undersecretary Celso Roque said the agreement with the U.S. Agency for International Development (USAID) calls for erasing 25 million dollars of the country's foreign debt in exchange for projects to protect the environment.

Under this system, 25 million dollars' worth of debt notes would be purchased on the secondary market at a 50 per cent discount by USAID, which would then give the notes to a local non-government group to be redeemed at full value in Philippine pesos.

The proceeds would then be put in a trust fund to support environmental projects in this country.

Mr. Roque said Manila was trying to get the amount of the scheme increased to 100 million dollars as France and Japan had expressed an interest.

He said last year Manila sealed an agreement with the World Wildlife Fund,

under which two million dollars in foreign debt was converted for use in protecting two wildlife preserves in the western island of Palawan.

Mr. Roque said the Monetary Board, the country's monetary policy body, was still reviewing an expansion of the 25 million dollar swap to 100 million dollars, but he said the officials were sympathetic.

He said the scheme would have only a small effect on the country's 26.1 billion dollar foreign debt but would have a "huge" impact in maintaining the country's dwindling national parks, since the government only earmarks about 30 million pesos (1.2 million dollars) for their maintenance.

He also said the money would go almost entirely to non-government organizations (NGOs), which had guaranteed that none of the money would be used to pat foreign consultants.

TOKYO (AUG. 14) - Japan is to give greater powers to the Office of the Trade and Investment Ombudsman, which mediates trade disputes between Japan and other countries and eases the import of foreign goods, officials here said Tuesday.

Three non-Japanese members could soon sit on a committee that studies the cases to be submitted to the body, founded in 1982 under the Economic Planning Agency, they said.

The Ombudsman's office will also be authorized to examine complaints by foreign firms on trade barriers, ensure that its decisions are carried out properly, and have closer contact with foreign chambers of commerce here, they said.

The new measures are part of an agreement reached in June between Japan and the United States after talks on structural barriers to bilateral trade.

The Ombudsman's office, which currently has a staff of four, was founded to look into disagreements over such matters as standards, procedures and inspections, to contact the Japanese government offices involved and find speedy solutions to problems.

It has handled 393 cases since its creation, and the committee deciding on the complaints it should handle is currently headed by former foreign minister Saburo Okita.

TOKYO (AUG. 14) - Japan's domestic wholesale prices rose 0.4 percent from the previous month and 0.5 percent from a year earlier in July, the Bank of Japan said Tuesday.

The month-on-month increase rate was the sharpest since August last year, the central bank said, adding that the index in July stood at 94.9, against 100 for the base year of 1985.

The import price index stood at 63.2, down 2.5 percent from June but up 1.9 percent from the previous year, while the export price index in July was 85.2, down one percent from the preceding month but up 2.3 percent from a

year earlier.

The overall index, including domestic and foreign trade prices, stood at 90.4, down 0.1 percent from June but up 0.8 percent from July last year, the Bank of Japan said.

There is strong pressure to push up prices in Japan, central bank officials said, adding that they were worried about the tense Middle East situation.

#90226d4280 08/14/1990 ~French/German News Agency

FRANKFURT (AUG. 14) - The West German central Bundesbank on Tuesday withdrew a net 2.5 billion Deutsche marks (1.59 billion dollars) under a repurchase arrangement at rates ranging from 7.95 percent to 8.25 percent, a bank spokesman said.

The bank made available 19.8 billion marks for 36 and 64 days to replace expiring arrangements totalling 22.3 billion marks.

The banks had sought 37.3 billion marks for 36 days. The bank provided 11.9 billion marks at rates ranging from 7.95 percent to 8.10 percent. It accepted 20 percent of the bids at the lowest rate of 7.95 percent.

Banks had requested 18.7 billion marks at 64 days, and the bank provided 7.9 billion marks at eight percent to 8.25 percent.

Last week the bank provided 23.2 billion marks at rates ranging from 7.95 percent to 8.25 percent.

RIYADH (AUG. 14) - A U.S. serviceman killed accidentally Sunday in Saudi Arabia was "sleeping" when military truck backed into him and crushed him, the official Saudi Press Agency (SPA) reported.

The agency, citing a defense ministry spokesman on Monday, said that Sergeant John Campisi was "sleeping" behind the truck and was killed accidentally when the vehicle ran him over.

U.S. military sources also reported the death of Sgt. Campisi, 30, who became the first American victim of the Gulf crisis, but they said only that he was hit by a truck during military preparations.

The United States has deployed 50,000 troops in Saudi Arabia since Thursday and Pentagon sources said they could send up to 250,000 as part of a multinational force to protect the kingdom against any Iraqi attack.

-30- 995
#90226d4340 08/14/1990 ~French/German News Agency
SANAA (AUG. 14) - The two ruling parties in Yemen have issued a joint call for an emergency Arab summit to support Iraqi proposals for a settlement in the Gulf, press reports said here Tuesday.

The General People's Congress and the Socialist Party, led by Yemeni President Ali Abdallah Saleh and Vice President Ali Salem Al-Beidh, urged the government here to endorse their appeal for an emergency summit.

They said in a joint statement that proposals by Iraqi President Saddam Hussein for a settlement to address the Gulf crisis and the "issue of occupations in the Middle East" offer a "genuine global settlement to regional problems".

President Hussein on Sunday proposed a three-point plan calling for the "immediate and unconditional withdrawal" of Israeli troops from occupied Arab territories, a pullout of Syrian troops from Lebanon, "a withdrawal between Iran and Iraq and the laying down of arrangements for the case of Kuwait".

Mr. Hussein also urged the withdrawal of U.S troops from the Gulf and their replacement by an Arab force -- excluding Egypt -- chosen by the U.N. Security Council and approved by both Saudi Arabia and Iraq.

Yemen officially backed the initative on Monday, and the Iraqi plan has also received the endorsement of several Palestinian groups and figures in the Israeli-occupied territories.

But Saudi Arabia, Iran, the United States and Israel rejected the plan.

Yemen -- the only Arab member of the U.N. Security Council -- abstained from a council vote on August 6 to impose sanctions against Iraq and on Friday it voted against an Arab summit resolution to send Arab forces to the Gulf.

-30- 1859
#90226d4410 08/14/1990 ~French/German News Agency
WASHINGTON (AUG. 14) - Four members of the U.N. Security Council sharply criticized the United States in an informal session Monday for deciding to proceed unilaterally with a naval blockade of Iraq, the Washington Post reported Tuesday.

France, Canada, the Soviet Union, and Malaysia were the four members who questioned the announcement by Secretary of State James Baker that the

United States would interdict ships bound to and from ports in Iraq and Kuwait, the Post said, citing U.N. sources.

The United States contended that the action was permitted under Article 51 of the United Nations charter, which allows member states to engage in individual or collective self defense when faced with armed aggression. Kuwait's having requested the U.S. action was sufficient to make it legally justified, according to Washington.

But U.N. Secretary General Javier Perez said Monday a blockade could only be decided through a Security Council resolution.

"What we are seeing is that in agreement with the governments of Saudi Arabia and Kuwait, some decisions have been taken by the United States, France Britain and other countries, even Arab countries, but not in the context of the United Nations resolutions," he said.

The Security Council has passed three resolutions directed against Iraq -- 660, 661 and 662. They condemn Iraq's August 2 invasion of Kuwait, call for a total embargo of Iraq and occupied Kuwait, and reject Iraq's annexation of Kuwait.

However, diplomats here say none of the resolutions mention a "blockade", which under international law is considered an act of war.

Mr. Baker, in an attempt to sidestep the issue semantically, took pains Sunday to insist that the U.S. action was not a blockade but an "interdiction".

But in Paris Monday, sources said France had decided that any blockade of Iraq would need U.N. approval and questioned the U.S. position.

The sources said that France saw a clear distinction between the notion of "embargo" voted last week by the U.N. Security Council in response to the invasion, and a "blockade", which Paris considered to be an act of war requiring a fresh U.N. Security Council vote.

#90226d4430 08/14/1990 ~French/German News Agency

STOCKHOLM (AUG. 14) - Swedish consumer prices rose by one percent in July taking the increase during the previous 12 months to 10.8 percent, and the increase during the last six months to eight percent, the central statistical office reported on Tuesday.

Food accounted for 0.4 percent of the July increase.

An increase in the rate of sales tax from 19 percent to 20 percent, which

took effect on July 1 as part of an austerity programme, had not yet worked through fully into the price index, the office said.

Part of the increase was due also to increased duties on tobacco and alcohol.

#90226d4470 08/14/1990 ~French/German News Agency

COPENHAGEN (AUG. 14) - The Danish balance of payments deficit fell sharply in the second quarter to 168 million krone (28 million dollars) from 1,398 million krone (233 million dollars) in the first quarter, official figures showed on Tuesday.

The deficit in the second quarter of 1989 was 3,309 million krone (551 million dollars).

The deficit for the first half of 1990 was 1.6 billion krone (266 million dollars) down from 5.5 billion krone (916 million dollars) in the same period of last year.

The improvement was due mainly to a good performance by exports which earned a surplus of 17.1 billion krone (2.85 billion dollars) in the first half compared with a surplus of 9.8 billion krone (1.6 billion dollars) in the same period of 1989.

The biggest outgoing item on the balance of payments was debt servicing totalling about three billion krone (500 million dollars) per month.

Interest in the second quarter totalled 8.98 billion krone (1.496 billion dollars) which was about the same level as during the first quarter, and during the second quarter of 1989.

#90226d4490 08/14/1990 ~French/German News Agency

LISBON (AUG. 14) - The Portuguese trade deficit grew by 26.1 percent in the first half to 569 billion escudos (3.9 billion dollars) compared with the same period of last year, official figures showed on Tuesday.

Imports rose by 24.1 percent to 1,743 billion escudos (about 11.9 billion dollars) and exports rose by 23.2 percent to 1,174 billion escudos (about eight billion dollars).

Countries in the European economic Community (EEC) accounted for 69.4 per cent of exports compared with 66.7 percent during the first half of 1989, and for 73.9 percent of imports compared with 73.1 percent.

#90226d4620 08/14/1990 ~French/German News Agency
LONDON (AUG. 14) - Britain will continue to produce substantial quantities of oil for 25 years and will be self-sufficient until nearly the end of the century, the Grampian regional authority in Scotland said in a report on Tuesday.

During the coming 20 years about 80 additional oilfields will be developed, the report said.

Exploration activity was running at the highest level for 10 years, with 38 drill holes under active investigation.

The exploration boom had increased the oil workforce by about 3,000 people to 52,500 last year in the Grampian area around the city of Aberdeen.

The number of people employed off-shore had risen by 10 per cent to about 26,000, and this level would be maintained until the year 2000.

Overall 51 fields were producing oil and seven were being developed in the British sector of the North Sea.

Britain produced about 1.8 million barrels per day of oil last year, and at current prices this represented about 1.5 per cent of gross domestic product.

#90226d4710 08/14/1990 ~French/German News Agency
NICOSIA (AUG. 14) - Arab League Secretary General Chedli Klibi, quoted Tuesday by the Iraqi News Agency has welcomed Iraq's proposal for a package settlement to the Gulf crisis saying it exposed the West's double standards in the Middle East.

INA, in a dispatch monitored here, carried an interview conducted in Tunis with Mr. Klibi in which he said the proposals of Iraqi President Saddam Hussein were of "special importance in that they throw light on the contradictory attitude of the U.N. Security Council in dealing with the principles of international legitimacy."

"President Hussein's initiative exposed the attitude of the superpowers in discriminating between the cases of occupation (in the Middle East) and in adopting different standards according to their vital interests," INA quoted Mr. Klibi as saying.

The Arab League official said the attitude of the superpowers was "inconsistent with their declared principles".

According to INA, Mr. Klibi also questioned the "reasons that pushed the Security Council to implement its resolutions (sanctions) against Iraq while deliberately ignoring violations committed by the Zionist entity (Israel)" in Lebanon, the occupied West Bank and Gaza Strip and in the Golan Heights.

The Iraqi president on Sunday outlined what he called a "comprehensive solution to the issues of occupation in the Middle East" and said his plan could solve regional problems, including the Gulf crisis he triggered with his August 2 invasion of Kuwait.

Among other things, Mr. Hussein called for an "immediate and unconditional withdrawal" of Israeli troops from occupied Arab territories and the withdrawal of Syrian and Israeli forces from Lebanon. He also proposed that "arrangements be made for Kuwait" which he annexed a week after invading it.

The Iraqi proposals have been rejected by Israel, Saudi Arabia, Iran and the United States.

Washington has sent troops to Saudi Arabia after spearheading efforts at the United Nation to secure a resolution imposing trade and arms sanctions against Iraq.

#90226d4810 08/14/1990 ~French/German News Agency

LONDON (AUG. 14) - A Royal Navy frigate enforcing the embargo on Iraq checked out a Cypriot-registered tanker in the Gulf by radio on Tuesday, the Ministry of Defence announced.

The captain of the frigate Jupiter asked the ship's crew what it was carrying, the ministry spokesman said. He denied reports that the tanker had been intercepted, and described it as a routine operation for Britain's Gulf force.

An unconfirmed report from Britain's Press Association, citing sources in the Gulf, said the 113,258 tonne tanker Gloria was sailing empty after being repaired in Dubai.

Foreign Office Minister of State William Waldegrave said Monday that the British force in the Gulf, two frigates and a destroyer, would intercept any vessels suspected of sanctions busting.

KAMPALA (AUG. 14) - At least 26 people have died of starvation in Uganda's Karamoja region since the world Food Programme (WFP) suspended relief food deliveries there three weeks ago, the Minister for Rehabilitation and Social Relief Adoko Nekyon was quoted Tuesday as saying.

An official quoting the minister said famine was rife in Bokora, Namalu and Nabilatuk counties and people were streaming into Karamoja's main town of Moroto in search of food.

The official said it was believed some of the ambushes on WFP trucks were the work of food traders who resent the relief food because it interferes with their business.

A WFP official Mr. Apolo Lawoko meanwhile said food deliveries to Karamoja had resumed and a first consignment of 210 metric tons of maize had arrived there on July 27.

He said another consignment of 13 trucks carrying an estimated 300 tons of maize and beans left for Karamoja last week. However he said the quantities delivered were inadequate for an estimated 100,000 people facing starvation.

Mr. Lawoko said WFP could not deliver more food because trucks can only move to the area under military escort and in weekly convoys from the eastern town of Mbale which is 256 km (160 miles) from here.

The Karamoja region is devoted mainly to livestock rearing and suffers from recurring food shortages due to pastoral traditions which discourage cultivation.

WFP suspended delivery of food relief to the region after one of its drivers was killed in an ambush.

DUBAI, UNITED ARAB EMIRATES (AUG. 14) - Two Iraqi vessels have been unable to unload their cargo in Dubai and are waiting offshore for official permission to enter port, a shipping source said here Tuesday.

Al-Abid and Al-Baya were outside the Djebel Ali port some 30 kilometers (18 miles) from Dubai, the source said.

ROME (AUG. 14) - Italian warships are to patrol the Western Mediterranean following the dispatch of the American fleet to the Gulf, Foreign Minister

Gianni De Michelis announced Tuesday.

Italian ships may also be sent to the Gulf, but that will depend on the outcome of a meeting of the Western European Union (WEU) military alliance next week, he said.

Tuesday's cabinet meeting denounced Iraq's behaviour as "intolerable" and said Italy would participate in any U.N. initiatives.

The emir of Kuwait, Sheikh Jaber al-Ahmad al-Sabah, has sent an appeal for support to President Francesco Cossiga, Mr. De Michelis said.

The message was delivered Monday night via Kuwait's representative at the United Nations.

The cabinet meeting decided to help defend any Middle East countries who requested assistance.

The Italian government is empowered to send troops to help any of Rome's NATO allies, such as Turkey, but must obtain parliament's approval before becoming involved militarily anywhere else.

The nine-nation WEU, the only exclusively West European defence organization, meets in Paris next Tuesday.

The Italian parliament is scheduled to meet in the middle of next week to discuss the cabinet decisions.

LAGOS (AUG. 14) - Nigeria has contributed 900 troops to the Economic Community of West African States monitoring group (Ecomog), official national television (NTA) reported here late Monday.

The report, sent to Lagos by a correspondent of the NTA accompanying the Nigerian troops is the first official indication of the strength of the Nigerian contigent to Liberia.

Officials in the Nigerian capital have kept the nation's participation and operation in the Ecomog a guarded secret, observers noted.

The airlift of the troops to Freetown by three Hercules C-130 and a DC-10 which started last Saturday, ended here Monday, sources at the airport said.

The Nigerian troops are expected to begin moving into Liberia next Tuesday with troops from Ghana, Sierra Leone, the Gambia and Guinea.

Togo has also decided to sent some troops down to Liberia to join the Ecomog.

The Nigerian press Tuesday here gave prominence to the declaration of President Samuel Doe's close aide, Mr. Selly Thompson, who said that the embattled President would no longer resign in October, one year ahead of his term in office, because, according to him, that might lead to further bloodshed and political chaos.

#90226d5630 08/14/1990 ~French/German News Agency

CAIRO (AUG. 14) - Hundreds of Egyptians fleeing Iraqi-annexed Kuwait arrive back home each day, telling of horrors and nightmares they went through.

''We have been living in hell for the past couple of weeks,'' said the wife of an Egyptian who worked in the Kuwait oil industry.

A young female student, among the first batch of Egyptians who managed to escape from Kuwait, said: ''We left my father behind and escaped with a Saudi friend of his.''

''My mother disguised us in Saudi cloaks and veils and my brother wore a dish-dash (traditional white garb worn by Arab men in the Gulf),'' she added.

Reports reaching here said Iraqi troops were plundering the rich emirate, and Indian and Filipino house maids working there were raped.

The Cairo newspaper Al-Akhbar meanhwile began publishing long lists with names of Egyptians still remaining in Kuwait, in a move to allay mounting concern for them.

Egyptians, who have been working in Kuwait, arrive at an average daily rate of 1,500, putting an additional burden on the already battered Egyptian economy.

Egyptians make up the lion's share of foreign workers in the Gulf. About 2 million Egyptian workers are still believed to be in Iraq. Iraq's economy, throttled by the eight-year Gulf war against Iran, is still badly in need of foreign labour.

An estimated 150,000 more Egyptian workers are in the tiny oil-rich emirate, which was invaded by Iraqi troops on August 2 and annexed six days later.

Like several thousand Americans and Westerners there, they are stranded. Although Washington has avoided terming them hostages, they are refused permission to leave.

In Paris, Iraqi Ambassador to France Abdul Razzak al-Hashimi, in a veiled threat, said the fate of the foreigners was ''tied to the positions of their respective country's governments''.

''We wish that the nations that are concerned about the fate of their citizens take action to appease the situation and to prevent an explosion '' al-Hashimi warned.

At least 3,000 foreigners have left Iraq via Jordan, according to official figures. An unknown number of others - probably tens of thousands - held as possible bargaining chips hope to follow suit.

China meanwhile became the latest country to announce that it had decided to pull its citizens out of Kuwait.

Eyewitnesses said the Iraqis had prevented thousands of Egyptians from fleeing to Saudi Arabia where U.S. troops are deployed to prevent the threat of an Iraqi attack.

Cairo has set up ferry services to ship Egyptian refugees from the Jordanian Red Sea port of Akaba home to the town of Nuwaiba.

SYDNEY (AUG. 14) - A poll to be published Wednesday by Sydney's Daily Telegraph indicates Australians support by almost two to one the decision to send Royal Australian Navy warships to the Gulf.

The first opinion poll by a major Australian newspaper was completed as the Cabinet endorsed the decision by Prime Minister Bob Hawke to order ships to the Gulf in response to a request by U.S. President George Bush.

The poll also showed, however, that many of thosep polled had qualms about

the long-term outcome of committing forces to the Gulf conflict.

It was taken the day after the guided missile frigates HMAS Adelaide and HMAS Darwin were given a send-off from a Sydney dockyard by Mr. Hawke.

By late afternoon the poll showed 1,379 people in favour of the decision and 743 against, contrasting with a poll in the Arab newspaper El Telegraph indicating 82 per cent of the migrant Arab community opposed the decision.

BRUSSELS (AUG. 14) - Three Belgian warships will head for the Mediterranean on Friday pending a decision to join the international naval operation in the Gulf, the Belgian armed forces headquarters said Tuesday.

The decision to send the flotilla was made late Monday by the Belgian government. But it postponed until next Tuesday any decision to deploy the ships in the Gulf.

The three ships, with a total crew of 203, comprise a command and support ship, the Zinnia, which is listed as a 23-year-old 2,685-tonne vessel equipped with 40-mm guns and a helicopter, and two minehunters, the Iris and the Myosotis.

The commander was named in the headquarters' communique as Captain Georges van Dijcke.

Defence and foreign ministers of the nine-nation Western European Union (WEU) meet in Paris next Tuesday.

They will discuss a Belgian request for a coordinated WEU response to the Iraq-Kuwait crisis in order to provide good protection for ships from smaller western countries.

Among the other WEU members, Britain and France already have ships in the Gulf, and the Netherlands has promised to send two frigates. The Italian foreign ministry on Tuesday said several Italian ships would be sent to the eastern Mediterranean in order to cover areas that have been left by U.S. units now dispatched to the Gulf.

Any decision to send Italian ships to the Gulf would flow from the WEU meeting, the ministry said.

The Belgian flotilla will leave the North Sea port of Zeebrugge around 10:00 a.m. (0800 GMT) Friday, military headquarters said. They are scheduled to dock 16 days later at the Greek island of Crete, in the eastern Mediterranean, after stopovers at Lisbon and Sardinia, reliable

sources said.

Belgium sent a similar anti-mine force to the Gulf under WEU auspices, from November 1987 to November 1988.

TEHERAN (AUG. 14) - An Iraqi opposition leader Tuesday said he could mobilize 100,000 fighters to overthrow Iraqi President Saddam Hussein and counter Baghdad's military movements in the Gulf.

Hojatoleslam Mohammad Baqr Hakim, head of the Supreme Assembly of the Islamic Revolution of Iraq (SAIRI), denounced the Iraqi invasion of Kuwait and said his group had been in contact with the Syrian and Kuwaiti governments on the next moves to take.

"The Iraqi regime has no respect for international regulations and principles and, in a bid to rid itself of an internal economic, political and military crisis, it invaded ... neighboring rich Kuwait," he said in remarks carried by the official Iranian news agency IRNA.

He stressed that the crisis in Gulf could only be resolved by the removal of President Hussein, which he said was his organization's priority.

"In an initial stage the SAIRI can mobilize 50,000 fighters within the next few days and double it in the later stage using capabilities of Iraqis residing abroad," Hojatoleslam Hakim declared.

But he insisted that foreign forces withdraw from the Gulf and called for the consolidation of relations among friendly countries of the region.

"The presence of foreign forces is not in the interest of the people and countries of the region," he stated.

"Had the Arab regimes respected the will of their people ... Saddam Hussein would not have dared to attack Kuwait."

The United States has committed some 50,000 air and ground forces to defend Saudi Arabia against a possible attack from Iraq while several Western nations have stepped up their air and naval presence in the Gulf.

Hojatoleslam Hakim also disputed claims by President Hussein that he was struggling to protect Islam from foreign aggression.

"The Iraqi regime does not believe in Islam," he charged.

#90226d5740 08/14/1990 ~French/German News Agency
DAMASCUS (AUG. 14) - Syrian President Hafez al-Assad had talks here Tuesday with U.S. presidential envoy John Kelly for the second time in less than a week, a government spokesman said.

It was not immediately known what topics were discussed but the visit comes as Washington is seeking cooperation to enforce strict sanctions against Iraq for its August 2 invasion of Kuwait.

Mr. Kelly, assistant secretary of state for Near Eastern and South Asian affairs, was here last Thursday for talks with Syrian officials on the Gulf crisis.

Shortly before meeting the Syrian president, Mr. Kelly had a meeting with Foreign Minister Farouk al-Shara.

After Mr. Kelly's earlier mission to Syria, U.S. Secretary of State James Baker said the United States was exploring the possibility of "coordinating" efforts between Washington and Damascus on sanctions against Iraq.

On Sunday President George Bush said he had a "good talk" with Mr. Assad, with both leaders underlining their government's intentions to implement sanctions against Baghdad.

Mr. Kelly has also been to Saudi Arabia and Egypt.

Syria has been Iraq's principal Arab adversary over the years, notably during the Gulf war when Damascus backed Iran.

#90226d5750 08/14/1990 ~French/German News Agency
CAIRO (AUG. 14) - Egypt cannot prevent ships heading for Iraq from using the Suez Canal, as Cairo is bound by terms of an 1888 treaty regulating freedom of navigation there, a reliable source at the state-run Canal agency said.

Iraq is not at war with Egypt and, therefore, under terms of the 1888 Treaty of Constantinople Cairo cannot stop Iraq-bound ships from passing through the Canal.

The source said that instead of asking Egypt to violate the treaty, interested parties should prevent Iraq-bound ships from leaving for the Gulf from their ports of origin.

An unnamed U.S. official quoted Monday by the Washington Post newspaper

said that the administration of U.S President George Bush was hoping that Egypt would "close the Suez Canal to all ships bound for Iraq or whose cargo is bound for Iraq via the Jordanian port of Aqaba."

"Closing the canal is like slitting a major vein," he added.

DURBAN, SOUTH AFRICA (AUG. 14) - Family members of detained top African National Congress (ANC) official Mac Maharaj, began a protest sit-in on Tuesday at police headquarters here.

The 20 family members, of eight ANC and SACP members detained last month following police allegations that the SACP was planning a coup under cover of exploratory talks with the white-minority government, told reporters they would stay at C.R. Swart Square until "something is done about the detainees".

In a fax to Law and Order Minister Adriaan Vlok, the group demanded that they receive immediate access to the detainees and claimed that security police were torturing the eight detainees who were being held under South Africa's Internal Security Act (ISA).

The ISA allows police to hold suspects for interrogation indefinitely, without access to family or lawyers. The ANC has repeatedly called for its abolition.

#90226d5880 08/14/1990 ~French/German News Agency

MOSCOW (AUG. 14) - A former KGB officer who was stripped of his military rank, decorations and pension is attempting to sue Soviet President Mikhail Gorbachev, Prime Minister Nikolai Ryzhkov and security services boss Vladimir Kryuchkov, the government newspaper Izvestia reported here Tuesday.

Former Major-General Oleg Kalugin, 56, who was dismissed from the security services several months ago following disagreements with his superiors, lost his pension rights after publicly alleging that some KGB operations at home continued to be unlawful, including surveillance of citizens.

Izvestia said the Moscow central court had received a letter from Mr. Kalugin asking that action be taken against Mr. Gorbachev for ordering his medals confiscated, against Mr. Ryzhkov for stripping him of his rank and against Mr. Kryuchkov for withholding his pension.

The president of the tribunal, Zoya Kornyeva, told Izvestia the complaints

were being investigated, but suggested it would be difficult for Mr. Kalugin to sue individuals when seeking redress from the government.

Mr. Kalugin is currently campaigning in Krasnodar, southern Russia, for a parliamentary seat left vacant by Ivan Poloskov, the newly-elected Russian communist party boss.

#90226d6020 08/14/1990 ~French/German News Agency

DUESSELDORF (AUG. 14) - The machinery, car components and weaponry group Rheinmetall said Tuesday it made pre-tax profits of 117.4 million Deutschmarks (74.4 million dollars) in the first half of 1990, up on the 104.4 million marks in the same period last year.

The West German company said its world group turnover in the first half increased by about 12 percent to 1.3 billion marks.

Rheinmetall said its turnover was mainly accounted for by the car technology unit Pierburg (34.5 percent), the weaponry firm Rheinmetall (30.6 percent), and by the machinery company Jagenberg (29.5 percent).

Orders in the first half of 1990 reached 1.6 billion marks, up 13.6 percent over the same period last year.

#90226d6040 08/14/1990 ~French/German News Agency

LONDON (AUG. 14) - The authorities in Pakistan have arrested more than 100 members of deposed prime minister Benazir Bhutto's Pakistan People's Party and are holding them without charge, her mother and former deputy prime minister Begum Nusrat Bhutto said here Tuesday.

"Up to now they have not brought any charges, just arrested them. It's really witch-hunting," Mrs. Bhutto said, adding that the caretaker government was preparing to set up special tribunals to try PPP members.

Speaking in an interview with Agence France-Presse, Mrs. Bhutto, 61, denied reports that her daughter Benazir was under house arrest at her home in Karachi and said reports that the caretaker government under Prime Minister Mustafa Jatoi had offered her daughter a "package deal" to leave Pakistan were false.

"I spoke to her last night and she was surprised" at the reports. "She asked me 'What offer?'" Mrs. Bhutto said, adding that even if the new authorities in Islamabad had made an offer to allow Benazir Bhutto and her family to leave the country in exchange for staying out of politics it would not be accepted.

Dressed in an orange floral sari and fanning herself as she spoke, Mrs. Bhutto said the PPP still had widespread grassroots support throughout the country and would return to power with "an even bigger majority" in the next general elections.

But she said the new government would concoct an excuse for postponing the elections, due in October, and would probably not hold them for between a year and 18 months from then.

Referring to charges of nepotism and corruption in Benazir Bhutto's government which were used by President Ghulam Ishaq Khan to justify sacking the former administration, Mrs. Bhutto said: "By nepotism they mean me."

"But I am an elected member of the parliament, I am a politician in my own right and I would have become a minister myself," she said.

She did not deny accusations of corruption within her daughter's administration but said if it did occur it should have been dealt with through the legal process.

"There may have been corruption. I don't say there wasn't any corruption among the ministers. But for the past 40 years there has been corruption and Pakistan is not one of those countries that didn't know what corruption meant."

"If the ministers took some commissions they must have done wrong" and should have been exposed and tried legally," she said.

Mrs. Bhutto, sitting in the kitchen of a flat in London's exclusive Knightsbridge district and flanked by the former government's minister for petroleum and natural resources Jehangar Bader, said she was worried about the return of a military dictatorship in Pakistan.

"If the world community, if the superpowers, the democratic countries will discourage dictatorship in this country then they will not be bold enough to bring about dictatorship," she said.

"I would like to ask all democratic-loving countries to try and dissuade them from bringing martial law and dictatorship and to let democracy take root in our country."

The response of the superpowers to her daughter's unceremonious ousting on August 6 had so far not been adequate, she said, adding that opponents of Benazir Bhutto's government had been "very clever" to time her dismissal with the crisis in the Gulf which had served to divert world attention.

Mrs. Bhutto denied assertions that her daughter had been a "good little girl" and had not exercised strong enough control over the military during her 20-month government and said her firm hand with the military regarding the Kashmir dispute with India had precipitated her ousting.

Benazir Bhutto was dismissed "because they, the military, didn't want peaceful negotiations, a peaceful solution of Kashmir affairs, and she wanted a peaceful solution," Mrs. Bhutto said.

Another key factor in the dissolution of the Bhutto government had been its declared intention to combat the heroin trade in Pakistan and to arrest its kingpins "no matter how senior."

Heroin lords in Pakistan "spent millions and billions of rupees to destabilize our government," Mrs. Bhutto said, adding that they looked on the expenditure as "an investment."

AIGUILLON, FRANCE (AUG. 14) - A violent hailstorm hit thousands of hectares (acres) of farmland, ripped off rooftops and dented cars on Monday night in the Aiguillon region of southwest France, emergency services said.

The hailstorm, which rescue workers called a "mini tornado", was extremely localised and lasted only a half hour.

Two people were slightly injured when struck by hailstones the size of tennis balls.

Greenhouses were badly damaged, and fields, vineyards and orchards devastated. Many roof tiles were smashed in the town of Aiguillon and nearby villages Damazan, Port-Sainte-Marie and Saint-Leger.

Dozens of cars were also badly damaged by hailstones, which broke windshields and dented bodywork.

Rescue workers estimated that 400 houses sustained major roof damage in Damazan alone.

A farmers' union said near 30,000 hectares (74,000 acres) of cereal crops, horticultural land and fruit orchards were damaged by the hail.

Vineyards in Buzet were also severely hit. The local cooperative estimated that 20 per cent of the harvest had been lost.

#90226d6080 08/14/1990 ~French/German News Agency

BAD REICHENHALL, WEST GERMANY (AUG. 14) - Israeli Foreign Minister David Levy Tuesday urged West Germany to do everything possible to prevent ''disastrous arms shipments'' to Iraq.

Israel felt threatened by Iraqi President Saddam Hussein's warning that he would ''burn half of Israel with chemical weapons'', Levy told reporters after talks with West German Foreign Minister Hans-Dietrich Genscher in this Bavarian spa town.

Genscher urged West German industry to distance itself from firms involved in illegal arms exports in defiance of national laws banning sales of weapons to international hotbeds or countries at war. He said West Germany's good name and its moral position were at stake.

Commenting on the Gulf crisis, which was sparked by Iraq's August 2 invasion and following annexation of Kuwait, Levy said if Baghdad carried out its threat Israel would react, leaving Saddam no time to repent his threats.

Levy went on to visit the former Nazi death camp in Dachau, near Munich, capital of the southern state of Bavaria. Genscher continued a vacation here.

In a related development, Britain's Jane's Defence Weekly said Iraq had tried to obtain chemicals from Britain to counter the effects of poison gas just before it invaded tiny Kuwait.

Baghdad had in vain attempted to obtain so-called nerve agent preparation sets from several British firms, it added.

NAIROBI (AUG. 14) - The rebel Sudan People's Liberation Army (SPLA) forces stormed and overran a government garrison at Shimago in Sobat region in central Sudan early Friday, the rebel radio reported in a broadcast monitored here on Tuesday.

According to the radio, the government soldiers were completely routed and remnants fled to the nearby major garrison town of Renk.

In other actions around Renk, the radio said, SPLA forces had planted land mines, which had been detonated by government platoons, resulting loss of life and damage to military materiel.

The new development came only 24 hours after the SPLA radio claimed that its guerrillas had in the last week attacked and dispersed two government

military convoys near the southern regional capital, Juba, inflicting heavy casualties.

#90226d6230 08/14/1990 ~French/German News Agency

TOKYO (AUG. 14) - The Japanese Government is considering providing financial support to Middle East countries affected by Iraq's invasion of Kuwait, a press report said Tuesday.

The finance ministry and the international trade and industry ministry are studying concrete measures for such help at the request of Prime Minister Toshiki Kaifu, Jiji Press said.

Japan's war-renouncing constitution promulgated after World War II prohibits the country from sending troops overseas.

Saudi Arabia, Egypt and Turkey will be among countries expected to receive special Japanese economic assistance in the wake of the Gulf crisis, the report said.

Mr. Kaifu decided Monday to postpone his visit to Turkey, Saudi Arabia, Oman, Jordan and Egypt scheduled for this month.

He was asked by U.S. President George Bush by telephone Tuesday to help Arab countries affected by the Iraqi military action, officials said.

-30- 1117

#90226d6250 08/14/1990 ~French/German News Agency

JOHANNESBURG (AUG. 14) - South African President Frederik de Klerk, on a one-day visit to Madagascar, signed an economic and commercial cooperation agreement with his Madagascan counterpart Didier Ratsiraka Tuesday, the South African news agency SAPA said.

The agreement was believed, among other things, to give the go-ahead for South African Airways to start direct flights from Johannesburg to the Madagascan capital Antananarivo from the beginning of next month.

Mr. De Klerk is heading a delegation of senior officials including Foreign Minister Pik Botha at the invitation of Mr. Ratsiraka, who said in April he wanted to establish trade links with South Africa severed in the mid-1970s in protest at apartheid.

#90226d6370 08/14/1990 ~French/German News Agency

NEW YORK (AUG. 14) - The U.S. economy, already sluggish and slowing down, stands to be hurt even further by the higher oil prices resulting from the Gulf crisis, a survey of economists by the Wall Street Journal found Tuesday.

The newspaper said its survey of 34 leading economists found them expecting either no, or only slight growth for the U.S. economy in the second half of 1990.

At the same time, both inflation and unemployment rates will likely rise, the newspaper reported the economists as predicting.

Some of the more pessimistic predictions were for the U.S. economy actually to slide into a recession. Already, many regions and economic sectors in the U.S. are on road to recession.

On average, the economists foresaw a 0.3 per cent growth for the gross national product in the second half of this year, followed by a one per cent rise in the Gnp in the first half of 1991, the Wall Street Journal survey found.

By comparison, the U.S. Gnp increased by 1.2 per cent in the second quarter of this year.

The economists foresaw unemployment rising to 6.1 per cent by next May, compared to the current 5.5 per cent rate.

-30- 1346

#90226d6470 08/14/1990 ~French/German News Agency

MOSCOW (AUG. 14) - The Soviet Government newspaper Izvestia on Tuesday suggested Moscow should renounce its former friendship with Iraqi leader Saddam Hussein, who it called "a ferocious dictactor".

Cooperation with the United States in the Gulf crisis showed Moscow could gain "strategic profit" from its dealings with Washington "which will by

far compensate for the loss of friendship with Saddam Hussein", Izvestia said in a commentary.

However, the paper stressed that Moscow and Washington could not always share the same policies, speaking of the United States' dispatch of troops to Saudi Arabia which was partly motivated by Washington's own regional interests in the Gulf.

Moscow would lose much from enforcing its arms embargo on Iraq, but when "the basis of such a relationship rested on unscrupulous pragmatism, in time, one had to expect deplorable political and practical results," Izvestia said.

Moscow, in the past, had too often helped prop up dictatorships and by providing aid "contributed to the construction abroad, as was the case at home, of anti-democratic and autoritarian systems," Izvestia added.

#90226d6480 08/14/1990 ~French/German News Agency

RIO DE JANEIRO (AUG. 14) - Brazil indicated Tuesday that it could sell food to Iraq despite the United Nations-ordered embargo on international commerce with Baghdad.

Foreign Minister Francisco Rezek, speaking on Brazilian radio, said approval of possible food shipments hinged on official confirmation from Iraq that it faced a ''nutrition emergency''.

Apparently moving to defuse any accusations that shipments would violate the international trade embargo endorsed last week by the U.N. Security Council, Rezek maintained that the sanctions did not apply to ''humanitarian'' supplies such as food and medications.

Rezek also denied any link between the shipments and the fate of the roughly 400 Brazilian citizens still in Iraq.

The minister's statement came as officials in the port of Santos awaited word whether to allow a freighter loaded with food supplies for Iraq to leave for the Middle East.

Trade between Brazil and Iraq last year totalled some 1.8 billion dollars, with food and military supplies accounting for the bulk. Government officials in Brasilia have described the military hardware sold to Iraq as purely ''defensive''.

Purchases of Iraqi oil by Brazil stood at a daily 160,000 barrels, or 30 per- cent of total crude oil imports, before the U.N. embargo.

#90226d6660 08/14/1990 ~French/German News Agency
WASHINGTON (AUG. 14) - Libyan leader Moamer Gaddafi in an interview broadcast here Tuesday defended the use of poison gas to fight off a military attack but dismissed the Iraqi invasion of Kuwait 12 days ago as ''illegal''.

Gaddafi made his remarks in an interview with U.S. Cable News Network (Cnn) during his visit to Alexandria, Egypt, Sunday.

Asked whether he advocated the use of chemical arms in case of an attack,

Gaddafi said: ''You have the right to use any means to defeat that enemy, to destroy this enemy ...''

Gaddafi voiced fears that Iraqi President Saddam Hussein might take foreigners, stranded in Kuwait and Iraq, hostage.

Asked about the chances that foreigners there might be taken hostages, Gaddafi said there was ''a strong possibility, unfortunately ...'' that this could happen.

U.S. troops were rightfully in Saudi Arabia, he conceded. But from an Arab point of view the U.S. military presence there was unacceptable.

DAMASCUS (AUG. 14) - Syrian Foreign Minister Farouk Sharaa Tuesday conferred here with U.S. under-secretary of state for Middle East affair John Kelly over the Gulf crisis.

The Syrian News Agency Sana reported that the two ''exchanged views over the current situation in the region and the latest developments of the Iraqi invasion of Kuwait''.

''We have the opportunity with the Syrian foreign minister to reveal the situation in the region and in the Gulf, to talk about the importance of the U.N. Security Council's resolutions and to consult on bilateral relations,'' Kelly said in a statement.

JAMMU, INDIA (AUG. 14) - Thirteen more people died in Kashmir where troops Tuesday enforced a curfew to prevent Moslem secessionists from sabotaging India's independence day, officials said.

Gunbattles between Indian troop and militants flared across the valley as Moslem secessionists hoisted Islamabad's flag on several government buildings to mark Pakistan's independence day Tuesday, a day before India's, officials said.

Three paramilitary troops and an equal number of militants died in exchanges of fire in the towns of Pulwama, Baramulla and Srinagar, Kashmir's summer capital, the officials said.

Four troops and four civilians were injured in seven separate gunbattles in the strife-torn city Tuesday, officials said, where militants exploded bombs and hoisted the Pakistani flag on 23 complexes.

Moslem militants also killed four unidentified civilians in the Moslem-majority Kashmir Valley, said a state government spokesman in Jammu, this northern state's Hindu-dominated winter capital.

Three more deaths occured elsewhere in overnight violence, but details of the killings were not immediately available.

Srinagar and all towns in the Kashmir valley were under strict curfew

enforced Tuesday by army soldiers and para-military troops, crippling normal life.

Authorities sounded a top security alert and imposed the curfew following intelligence reports that Moslem groups were planning to sabotage India's annual independence day celebrations Wednesday.

India and Pakistan, which have fought two wars over Kashmir, gained independence from Britain in 1947 and India's independence day falls on August 15, with Pakistan's a day earlier.

Pakistan controls one third of Kashmir and disputes New Delhi's control of the remainder.

PARIS (AUG. 14) - France is to send tens of thousands of gas masks to Saudi Arabia following a request from Riyadh, industry sources said here Tuesday.

Officials at a defence ministry agency, the Delegation Generale de l'Armement (DGA), confirmed that France had begun shipping certain equipment to the Gulf in response to requests from the region.

The DGA would not give details, but said that the requests were urgently being considered by an ad hoc French export commission.

The confirmation came after a medium-range Boeing 727 loaded up with gas masks left for Qatar on Monday, and a larger consignment of masks was to be sent on an Airbus to the same destination on Tuesday.

The gas masks for Saudi Arabia would be supplied by the French military supply company GIAT Industries, the industry sources said.

Part of the delivery from GIAT would come from stocks earmarked for the French army, the sources said.

French President Francois Mitterrand said last Thursday that Saudi Arabia had asked for some military equipment, and that he would respond positively if Arab nations failed to find an "Arab solution" to the Gulf crisis stemming from Iraq's annexation of Kuwait.

The "ANP 49 modified 56" masks being sent to the Gulf were soon to go out of production, and to be replaced by an updated model, according to the industry sources.

HINESVILLE, GA (AUG. 14) - The U.S. military buildup in the Gulf has proven a windfall for K-Mart, a large chain variety store near the Fort Stewart Military Base, which is sending a large contingent of troops to the Middle East.

Store manager Wesley Bennefield said one order telephoned in by the base's quartermaster was as follows:

-- 5,550 bottles of skin lotion.

-- 2,400 cans of insect repellent.

-- 5,550 tubes of lip balm.

-- 5,550 cans of foot powder.

-- 5,550 bottles of suntan lotion.

Mr. Bennefield said he was delighted with the order, but added that the Army was getting a big discount and that the store would be making little if any profit.

"You might say we're waving the flag," he said. "I'm a patrotic guy."

#90226d6740 08/14/1990 ~French/German News Agency
ISLAMABAD (AUG. 14) - Under a presidential decree published in Pakistan Tuesday, murderers can try to gain freedom by paying blood money.

It also bars the president and provincial governors from granting a reprieve to a convicted murderer without the consent of the family of the victim.

President Ghulam Ishaq Khan issued the decree after a religious court declared the relevant provisions in the country's penal code unislamic.

Legal circles said the amended law would allow out-of-court settlement of cases of murder and murderous attacks at the trial stage.

#90226d6890 08/14/1990 ~French/German News Agency

CAIRO (AUG. 14) - A second contingent of Egyptian troops will leave here later Tuesday for Saudi Arabia to join an estimated 3,000 soldiers who arrived there on Saturday, informed sources said here.

But they would provide no details on the number of troops, nor would they disclose the nature of their assignment.

Egyptian forces are being deployed in Saudi Arabia in line with an Arab League decision to shore up Saudi defenses against a possible Iraqi attack from Kuwait, which Baghdad invaded and annexed earlier this month.

Several hundred Egyptians, shouting anti-Iraqi slogans, gathered earlier Tuesday outside the Saudi embassy here, offering to volunteer for the Saudi armed forces, correspondents said.

Embassy sources said as many as 9,000 Egyptians had signed up to fight for Saudi Arabia against any attack by Iraq, with nearly 3,000 enrolling daily since Saturday.

Hundreds of Egyptian youths were also offering their services at the embassy of the United Arab Emirates, where a spokesman said names of all candidates were taken down.

But the spokesman stressed that the embassy had received no official instructions to enroll any Egyptian in the UAE armed forces.

According to analysts most of the volunteers were young Egyptians who had done their military service and are currently unemployed.

#90226d6980 08/14/1990 ~French/German News Agency

ISLAMABAD (AUG. 14) - Pakistan has decided to send ''a reasonable number of troops'' to Saudi Arabia only to protect the Kaaba in Mecca and the Prophet Mohammad's tomb in Medina, caretaker Prime Minister Ghulam Mustafa Jatoi said Tuesday.

''We have no aggressive designs and our contingent will not be a military

threat to any country,'' he said in a policy speech marking Pakistan's 43th independence anniversary.

Jatoi did not say when the contingent, requested by Saudi King Fahd, would leave for Saudi Arabia.

But he gave an assurance that the dispatch of troops would not affect Pakistan's own defence needs in the face of a concentration of Indian troops on its eastern border and civil war in Afghanistan.

Pakistan's decision ''in principle'' to join Arab troops being assembled in Saudi Arabia sparked a controversy immediately after it was announced Monday.

Columnist Ghani Erabie however wrote in the ''Daily Nation'' that Riyadh had financed some of Pakistan's military purchases and ''unless we go to the aid of our friends when they need us, we should not expect them to come to our rescue in our moment of need''.

Pakistan kept two divisions of its crack troops in Saudi Arabia from 1983 to 1987 when Riyadh terminated the agreement on Islamabad's refusal to recall Shiite officers in the troops.

Pakistan is reported still to have nearly 5,000 non-combatant, mostly technical military personnel under contract in Saudi Arabia.

#90226d7010 08/14/1990 ~French/German News Agency

ZURICH (AUG. 14) - The airline Swissair said Tuesday it would be raising its fares by five percent from September because of rising fuel prices.

The current rise in oil prices due to the Gulf crisis will mean extra costs for Swissair of an estimated 10 to 20 million Swiss francs (7.6 to 15.2 million dollars) between now and the end of the year.

Swissair is planning to spread the overall five per cent increase unevenly over its fare scale, with one possibility under consideration a steeper rise in economy class than in first class, which would see first class fares rise only one per cent.

The airline said it hoped to work out with other airlines a price policy valid until the end of the year during a meeting of the International Air Transport Association (IATA) in Geneva on August 28.

#90226d7030 08/14/1990 ~French/German News Agency

LONDON (AUG. 14) - Nuclear Electric, one of two British state-owned nuclear power companies excluded from next year's electricity privatisation, said Tuesday made a loss of 419 million pounds (788 million dollars) in the year to the end of March.

Operating profit excluding exceptional items and financial charges came to 225 million pounds (424 million dollars).

The difference was largely due to liabilities linked to the division of the nationalised electricity generating industry in March as a prelude to the privatisation of all but the nuclear sector early in 1991.

The industry was divided into 19 companies, all to be privatised except the two nuclear operators Nuclear Electric and Scottish Nuclear.

NAIROBI (AUG. 14) - George Foreman, the 42-year-old former world heavyweight champion, will fight Walter Massoroni of Italy in a 12-round non-title fight here in November.

Samuel Vance, vice-president of a newly-formed American sports promotion company, announced here on Tuesday that they had signed an agreement in principle with Foreman and that a final contract "will be signed as soon as we get back to the United States".

The fight was orignally scheduled for October 20 but has been moved to a date in November to be fixed when the final contract is signed either on Friday or early next week.

-30- 789

#90226d7060 08/14/1990 ~French/German News Agency

LONDON (AUG. 14) - The number of homes in Britain repossessed for non-payment of mortgages doubled in the first six months of this year over the second half of 1989, the Council of Mortgage Lenders said Tuesday.

The Council, which groups Britain's leading building (home loan) societies, said that 14,390 houses and flats were repossesed in the first half of this year, against 7,390 in the second half of 1989 and more than the 13,740 for the whole of last year.

Mortgage interest rates stood at 15 per cent in the first half of the uear, against 9.5 per cent in 1988, as a result of the government's high interest rate policy to combat inflation.

At the same time, the housing market has slumped, leaving many home buyers

who cannot afford the higher rates unable to escape the problem by selling their homes to repay their mortgages.

The number of home buyers in arrears with their mortgage payments has also reached unprecedented levels, with 76,280 borrowers between six months and a year behind with payments as of June 30, the Council said.

The report stressed however that the number of repossessions represented only a tiny percentage of the country's some eight million mortgages.

"We have to watch very closely this market," a spokesman for Abbey National, Britain's second largest mortgage lender behind Halifax, said Tuesday.

But "the overall mortgage market is still fairly busy" even if it is not at the same level as two years ago, he added.

Mortgage lenders have tried to limit the number of repossessions by organising special advisory services and plans to spread repayments.

The National Westminster Bank, one of the country's main deposit taking banks, on Monday launched a special plan for debtors with repayment problems.

#90226d7090 08/14/1990 ~French/German News Agency

LOCTUDY, France (AUG. 14) - A 14-year-old boy from the Paris suburbs "borrowed" his parents' car and drove 600 kilometres (375 miles) alone in search of his holiday sweetheart in western Britanny, police said here Tuesday.

The boy, who met the young girl at a holiday camp here in Britanny, managed to fill the Renault-9 with petrol without attracting attention.

But after running out of petrol a second time, he continued his journey by hitch-hiking as he had no more money.

He was picked up by police just before he arrived at his destination.

-30- 748
#90226d7120 08/14/1990 ~French/German News Agency
BONN (AUG. 14) - West German armed forces will get involved in the Gulf crisis only in a very limited scope and only in accord with the nine member countries of the Western European Union (Weu), government spokesman Dieter Vogel stated here Tuesday.

The foreign and defence ministers of the Weu alliance, whose task is to harmonize the views of member countries on security and defence questions, are to meet August 21 in Paris to coordinate the activities of European countries in the Gulf.

Vogel said if the ministers reached agreement on coordinated measures in the crisis region, then the government ''would participate within the framework of its legal and factual possibilities''.

In the past, political leaders in Bonn have always held that West German forces should not be deployed to regions outside the sphere of the North Atlantic Treaty Organisation (Nato), in keeping with the constitution (Basic Law) which stipulates that the forces are defensive in nature.

Earlier Tuesday, Italian Foreign Minister Gianni de Michelis had disclosed in Rome that West German Chancellor Helmut Kohl told Italian Premier Giulio Andreotti he was prepared under certain conditions to send West German minesweepers to the Gulf.

However, Kohl's office later said the chancellor had not made any further promises.

#90226d7340 08/14/1990 ~French/German News Agency
LONDON (AUG. 14) - Iraq is continuing to build up its troops along the border between Kuwait and Saudi Arabia, the Foreign Office said Tuesday.

A spokesman said Iraqi soldiers have taken "defensive positions" along the border, but said no additional information was available.

Eye-witness reports from the area said moral was low in the Iraqi army, he added, but gave no further details.

Many foreigners believing they were authorised to leave Kuwait have been stopped by border police, he said. Foreigners can leave Kuwait only if their destination is Iraq.

British diplomatic personnel in Kuwait have meanwhile reported that there were food and petrol reserves in Kuwait but they are difficult to obtain.

Banks are closed and while internal telephone communication had improved international calls were still impossible, the spokesman said.

-30- 1056

#90226d7390 08/14/1990 ~French/German News Agency

FORT STEWART, GA (AUG. 14) - U.S. Defense Secretary Dick Cheney Tuesday warned Iraqi President Saddam Hussein against using chemical weapons in the Gulf crisis.

He said a "wide range of measures" was available to the United States should Iraq resort to chemical weapons, but said the use of Washington's own stockpiles of chemical weapons was not among them.

"I cannot conceive of a situation where the United States would want to use chemical weapons," said Mr. Cheney, who has been ordered by President George Bush to return to Saudi Arabia on Friday.

"We're trying to discourage all nations" from relying on chemical weapons, he told a press conference here after inspecting troops preparing to depart for the Gulf.

#90226d7430 08/14/1990 ~French/German News Agency

NICOSIA (AUG. 14) - The United States, apparently responding to criticism from several countries including France, is attempting to obtain U.N. coordination of its naval intervention in the Gulf against Iraq.

Ambassadors of the five permanent members of the U.N. Security Council were invited Tuesday to the State Department to explore the idea of a U.N. joint military command of U.S., British, French and other warships in the Gulf.

The United States was criticised in a closed-door U.N. session Monday by several countries, for having threatened to intercept Iraqi boats without a decision from the Security Council to impose a naval blockade.

U.N. Secretary-General Javier Perez de Cuellar said Monday that only a U.N. Security Council resolution can declare an international embargo.

Meanwhile as the embargo on Iraqi shipping gathered momemtum, King Hussein of Jordan left for the United States, where he is to meet President George Bush to discuss the Gulf crisis.

King Hussein, who has distanced himself from Arab and international condemnation of the Iraqi invasion of Kuwait, met in Baghdad Monday with Iraqi President Saddam Hussein.

A Royal Navy frigate enforcing the embargo on Iraq checked out a Cypriot-registered tanker in the Gulf by radio Tuesday and asked the crew what it was carrying as two Iraqi vessels were forced to wait offshore near here.

Foreign Office Minister of State William Waldegrave said Monday that the British force in the Gulf, two frigates and a destroyer, would intercept any vessels suspected of breaking sanctions, which were approved by the United Nations Security Council following Iraq's August 2 invasion of Kuwait.

Vessels in the Gulf have meanwhile been warned of mines after a U.S. warship spotted an Iraqi freighter in a "suspicious act".

The eight-nation Western armada enforcing the trade embargo of Iraq and Kuwait will exceed 60 ships within two weeks.

The United States, with a total of 28 ships already present, has the largest fleet. Three aircraft carrier groups constituted around the Dwight Eisenhower, Independence and Saratoga, are expected to be joined by a fourth that includes the aircraft carrier John F. Kennedy, along with the cruiser Wisconsin.

Also already in place is the USS La Salle, command and control flagship of Joint Task Force Middle East, accompanied by one cruiser, one destroyer and five frigates.

U.S. aircraft, including chartered planes carrying personnel, have been landing in the Saudi desert carrying troops and equipment roughly every 10 minutes.

Some 50,000 U.S. troops have already been ordered to Saudi Arabia. Pentagon sources say the figure could increase to 250,000 in the months ahead.

Britain now has three ships in the Gulf area, one destroyer and two frigates. In addition, it dispatched from Scotland three minesweepers that will bring the British strength in the Gulf to over 1,000 men: the greatest British military deployment since the 1982 Falklands War against Argentina.

Britain and the United States have indicated they would board or fire on any vessel leaving or entering any Iraqi or Kuwaiti port, as has Australia which is sending two missile-launching frigates.

France, which has indicated it would not take such actions unless the U.N. Security Council voted a blockade, has a missile-launching frigate and two corvettes in the area and will be joined by a anti-submarine frigate.

On Monday, the French aircraft carrier Clemenceau, carrying 40 helicopters and four planes, left with a missile cruiser and a refueling tanker. When they arrive in the Gulf within two weeks, they will bring French strength in the area to 2,650 men, the largest Western force after the United States.

Canada, the Netherlands, Belgium, West Germany are also sending ships. Greece has indicated it has prepared a frigate and will send it as soon as requested by NATO.

Italy will replace some of the U.S. fleet that normally patrols the eastern Mediterranean.

Syrian President Hafez al-Assad had talks Tuesday in Damascus with U.S. presidential envoy John Kelly for the second time in less than a week as Washington sought to tighten cooperation to enforce strict sanctions against Iraq.

The deposed crown prince of Kuwait, Sheikh Saad al-Abdallah al-Salem al-Sabah, on Tuesday left Damascus for Turkey after talks here with President Hafez al-Assad.

There have been reports that Syria has committed troops to the Gulf but no official confirmation from Damascus.

Syria has been Iraq's principal Arab adversary over the years, notably during the Gulf war when Damascus backed Iran.

Jordan's King Hussein who travelled unexpectedly Monday to Iraq for talks with President Saddam Hussein, left Tuesday for Washington.

King Hussein's visit to Iraq came a day after he accused industrial nations in the West of "redrawing the map" of the region to serve their own interests.

The New York Times reported Tuesday that Iraq had enriched itself in the affair by seizing between three and four billion dollars in gold bullion, foreign currencies and goods from Kuwaiti banks and businesses and transferred them to Baghdad.

WASHINGTON (AUG. 14) - The United States confirmed Tuesday that it was considering -- at the request of the Soviet Union -- consigning a role to the United Nations military staff committee in naval operations in the Gulf.

State Department spokeswoman Margaret Tutwiler said Robert Kimmit, undersecretary for political affairs, would meet Tuesday with the ambassadors and charges d'affaires of the five permanent members of the U.N. Security Council -- the United States, the Soviet Union, France, China and Britain.

The purpose of the meeting, she said, was "to follow up on the Soviet Union's suggestion to engage the U.N. military staff committee in discussion of the situation in the Gulf."

"The meeting today will seek to review what role the U.N. military staff committee might play in connection with implementation of the U.N. Security Council Resolution 661," said the spokeswoman.

Resolution 661 imposed a worldwide trade embargo on Iraq following its invasion and annexation of Kuwait.

"We anticipate that this meeting will be followed by further discussions among the permanent representatives of the five in New York with a view to activating the military staff committee in this regard," said the State Department spokeswoman.

The United States was criticized in a closed-door U.N. session Monday by several countries, including France, for having threatened to intercept Iraqi boats without a decision from the Security Council to impose a naval blockade.

Britain announced Monday that it was also willing to intercept ships that

violated the embargo.

France distanced itself from this position, but affirmed its solidarity with the Security Council.

-30- 1901

#90226d8150 08/14/1990 ~French/German News Agency

OSLO (AUG. 14) - Jordanian police in the Gulf of Aqaba forced Tuesday a Norwegian ship to reload its cargo of wheat destined for Iraq, informed sources here said.

The cargo of wheat had been intercepted by United Nations forces enforcing the U.N.-approved embargo against Iraq in response to its invasion of Kuwait.

Terje Moe, the captain of the Norwegian cargo ship Tanga owned by the company Gearbulk of Bergen, was told he and crew members would be arrested if the boat was not reloaded, the sources said.

A spokesman for Gearbulk de Bergen said the cargo ship has been used as a wheat silo in the Gulf of Akaba for the past five years.

All grain-laden boats in the Gulf unload onto the Tanga, which transfers the grain to freight trains destined for Iraq, the spokesman said.

"We don't know what will happen in the future or if we will continue to load grain in the Tanga," the spokesman said.

-30- 1104

#90226d8160 08/14/1990 ~French/German News Agency

AMMAN (AUG. 14) - Jordan is "committed" by United Nations sanctions against Iraq, Jordanian Crown Prince Hassan Ibn Tallal declared here Tuesday, adding that his government's position in the Gulf crisis had been misunderstood.

Prince Hassan was addressing a press conference as the Jordanian monarch, King Hussein, was leaving for the United States and talks Thursday with President George Bush.

King Hussein, who met Monday in Baghdad with Iraqi President Saddam Hussein, received a message from the Iraqi leader just two hours before his departure, authoritative sources said here.

But they would not disclose the nature of the note, nor if it was intended for Mr. Bush via King Hussein.

Jordan, with critical economic ties to Baghdad, has sought to distance itself from Arab and international condemnation of Iraq's August 2 invasion and subsequent annexation of Kuwait.

The Jordanian government voted against an Arab ministerial decision condemning the invasion and abstained from another measure calling for Arab troops to be deployed in Saudi Arabia.

To the annoyance of the United States, Jordan has yet to halt overland shipments of goods to Iraq despite United Nations-approved trade sanctions against Baghdad.

But Prince Hassan insisted Tuesday that Jordan was "committed" by the U.N. decision on sanctions against Iraq, which he said did not cover food and medicine.

He asserted Jordan's opposition to the acquisition of territory by force and said his country's stand on the issue had been misunderstood.

Jordan, he added, was in contact with the United Nations on the sanctions question and argued that the U.N. charter "allows each country 30 days to formulate its position."

Stressing the grave consequences that the embargo would have on the Jordanian economy, Prince Hassan said the charter called for "compensation for countries that are harmed" by sanctions.

The southern Jordanian port of Aqaba on the Red Sea has traditionally been a critical transit point for Iraqi goods, which are trucked over the desert to the Iraqi-Jordanian frontier 1,000 kilometers (600 miles) to the north.

Visitors to Aqaba on Tuesday said license plates carried by trucks in the port suggested that the vehicles were bound for Iraq.

Hundreds of trucks, weighing from 30 to 60 tonnes, were seen transporting machine tools, pipes, bags of cereal and closed metal and wooden containers.

Seven ships were in port and three others were waiting further out to sea but authorities refused to discuss their cargo or its destination.

LIMA (AUG. 14) - Armored vehicles rumbled through Lima's streets Tuesday a day after suspected rebels car-bombed the presidential palace, as outrage over the fledgling government's draconian austerity plan intensified.

The bombing was the most spectacular of a series of attacks which have left three people dead and 23 wounded in two days, and it came 18 days after President Alberto Fujimori took office.

Police cordoned off the presidential palace after the bombing, in which a stolen car packed with 40 kilograms (90 pounds) of explosives was slammed into the rear wall of the building while Mr. Fujimori was inside.

Authorities said two people jumped out of the moving car after pointing it at an iron gate in the rear of the palace.

The president was not hurt, but the blast injured four passers-by and blew out windows in the building.

A presidential spokesman said Wednesday that Mr. Fujimori was spending the day studying proposals to raise salaries to compensate for price hikes that included a 30-fold increase in gasoline prices.

Among other things, the plan eliminates government subsidies in an effort to make the economy more responsive to market forces. Prices of some food items have quintupled.

Authorities investigating the palace attack said they suspected the Tupac Amaru Revolutionary Movement, which takes its name from an Indian chief who fought the Spanish conquistadores in colonial Peru.

In other attacks, a car-bomb exploded Tuesday in the Andean city of Ayacucho, a stronghold of Peru's other main rebel group, the Shining Path. The blast destroyed the front wall of the local headquarters of Mr. Fujimori's party, Change '90. There were no reported injuries.

In Cusco, the ancient capital of the Incas, a car-bomb with 30 kilograms (65 pounds) of explosives went off Monday outside an army barracks, killing one civilian and injuring 19 other people, five of them seriously.

RIYADH (AUG. 14) - U.S. Defense Secretary Dick Cheney is due Friday in the western Saudi city of Jeddah for talks with Saudi officials on the situation in the Gulf following the Iraqi invasion of Kuwait, U.S. diplomatic sources said here Tuesday.

The United States has so far deployed some 50,000 air and ground troops in the kingdom, which Washington says is now threatened by Iraqi troops in neighboring Kuwait.

Mr. Cheney was in Jeddah for meetings with King Fahd and Defense Minister Prince Sultan bin Abdel Aziz on August 6, after which Saudi Arabia requested U.S. military assistance.

-30- 792

#90226d8430 08/14/1990 ~French/German News Agency

JERUSALEM (AUG. 14) - Pro-Iraqi demonstrators gathered in the Israeli-occupied territories Tuesday, shouting support for Iraqi President Saddam Hussein and burning U.S. flags.

Some 200 persons marched through the streets of Nablus and called for the overthrow of the Egyptian and Saudi governments, which have denounced Iraq's August 2 invasion of Kuwait and approved the deployment of Western forces in the Gulf.

On the Gaza Strip four demonstrators were arrested as they brandished Palestinian flags and portraits of President Hussein.

The Iraqi leader has struck a responsive chord among Palestinians living under occupation who see him as an Arab leader strong enough to end Israeli rule.

Mr. Hussein has also linked a settlement in Kuwait to an end to Israel's occupation of the West Bank and Gaza, Arab territories it seized in the 1967 Middle East war.

-30- 1062

#90226d8460 08/14/1990 ~French/German News Agency

LONDON (AUG. 14) - The Lloyd's War Risks Rating Committee raised war premiums Tuesday on cargoes for Saudi Arabian ports and instituted a

similar premium for Jordanian ports, Lloyd's announced.

A premium of 0.5 percent was ordered for the Saudi port of Dammam, west of Bahrain, and for all Saudi ports farther north, with the exception of the Neutral Zone along the Kuwaiti border.

Those ports were previously rated as "held covered", i.e., existing policies would apply but subject to increased premiums to be imposed later in case of a worsening of the situation.

The premium for the other Saudi ports was increased to 0.05 percent of the insured cargo value, against the previous 0.0275 per cent. The Iraqi and Kuwaiti coasts and the Saudi Neutral Zone remain "held covered".

A premium of 0.1 percent of the insured cargo value was ordered for Jordanian ports.

BOURGES, FRANCE (AUG. 14) - Leka I, the pretender to the Albanian throne, Tuesday called on Albanians to stay at home and overthrow communism, during a visit to the Royal Albanian Foundation near here.

In a statement, Leka I, who lives exiled in South Africa, also expressed the hope that Albania would "rejoin the free world, democratically".

The Royal Albanian Foundation, at the castle of Chapelle d'Angillon in central France, was set up in 1983.

The exiled monarch's call came as several hundred Albanians have fled to France from Albania, although many say they want to emigrate to the United States.

A total of 34 Albanian men, women and children arrived in Paris Tuesday from a centre in nearby Mourmelon, with the intention of going to the U.S. embassy, police said.

The police were trying to persuade the refugees to return to Mourmelon or to go to a Paris hostel as the embassy is closed until Thursday because of the French Assumption holiday on Wednesday.

GENEVA (AUG 14) - Elio Erriquez, the Swiss hostage freed Monday after being held for 10 months in Lebanon, arrived Tuesday in Geneva where he was welcomed at the airport by his family and hundreds of friends.

Mr. Erriquez, 24, was also greeted by members of the Swiss government and officials from the International Committee of the Red Cross (ICRC).

The bone specialist was working for the ICRC in Saidon, southern Lebanon, when he was abducted.

Pale with hair cut short, Mr. Erriquez embraced his mother, twin sister, two brothers and his fiancee upon stepping down from the airplane that arrived from Damascus.

On the plane with Mr. Erriquez was Emanuel Christen, another ICRC worker taken hostage at the same time last October and released last Wednesday.

Mr. Christen, 33, had flown to Damascus to accompany Mr. Erriquez.

Speaking in a low voice and with long pauses, Mr. Erriquez, who thanked the Swiss people for their support, told journalists that the conditions in which he and Mr. Christen were held were "atrocious."

He said he was kept in a tiny barely-lit and suffocating room and was given no information about what was happening in the outside world.

"What helped a lot was that during the whole ordeal the two of us were never separated, so we were able to give each other moral support," Mr. Erriquez said.

Though Mr. Christen speaks Swiss German and Mr. Erriquez speaks French, toward the end of the 312 days of detention Mr. Christen was able to speak some French, Mr. Erriquez said.

LONDON (AUG. 14) - Liberian rebel leader Prince Yealu Johnson telephoned the BBC Tuesday afternoon to deny reports of his death in an ambush by rival rebels, BBC officials said here.

Officials of the Focus on Africa program said that a man who was "very certainly" Prince Johnson telephoned at 1730 GMT, probably from Monrovia, to say he was "alive and well".

A spokesman for Charles Taylor's National Patriotic Front of Liberia (NPFL) had said earlier Tuesday in Abidjan that Mr. Johnson had been killed in an ambush in Monrovia by NPLF rebels.

But U.S. State Department spokeswoman Margaret Tutwiler said in Washington later in the day that "We have a reliable source this morning that told us

they have seen him today, alive".

The BBC officials said that during the telephone conversation, over a "very bad" line, Mr. Johnson said he was "very surprised" to have heard the NPFL claim.

He said that many people had seen him and expressed relief to find him alive and in good health.

Speaking of Mr. Taylor, he asked "How can a man who wants to be president be such a liar"?

The Focus on Africa officials said they were virtually certain that it was actually Prince Johnson to whom they were speaking. He had telephoned them on Monday, and they compared recordings of the two conversations.

In addition, they asked him a number of tough questions which only he could have answered.

NEW YORK, UNITED NATIONS (AUG. 14) - The U.N. decolonization committee Tuesday approved a measure urging Argentina and Britain to resolve their differences over the Falkland Islands through negotiations.

The measure was approved with a majority of 20 votes in favor, while Sierra Leone, Norway, and Trinidad and Tobago abstained.

The Iraqi representative has not participated in the committee's proceedings since the Gulf crisis erupted over Iraq's August 2 invasion of Kuwait.

The draft resolution -- proposed by Cuba, Chile and Venezuela -- said the "maintenance of colonial situations is incompatible with the U.N. ideal of universal peace," a position considered very favorable to Argentina's claims of sovereignty over the British-administered South Atlantic archipelago.

Argentina and Britain fought a six-week war over the archipelago in 1982. A total of some 900 soldiers from both sides died in the brief war.

The draft resolution also stressed that renewed British-Argentine cooperation "should facilitate the renewal of negotiations to find a peaceful solution to the controversy over sovereignty."

The proposal, which must be approved by the General Assembly before the end of the year, underscores the importance Secretary General Javier Perez de

Cuellar has placed on finding a negotiated solution to the Falklands issuel.

After Britain and Argentina resumed diplomatic relations earlier this year, the traditional debate on the issue in the assembly has taken on less polemic tones.

But Argentina has insisted on keeping the matter on the U.N. agenda.

PHOLA PARK, South Africa (AUG. 14) - Four people were killed Tuesday in continued fighting between rival black factions in this squatter camp east of Johannesburg which, over the past few days, has left 15 dead and about 55 injured, the South African news agency Sapa reported.

Scores of armed police and appeals for calm failed to achieve peace Tuesday between warring Xhosa and Zulu groups.

Thousands of squatters, most of them Zulu, fled the 35,000-strong squatter camp with their belongings after renewed fighting broke out early Tuesday morning, Sapa said.

By late afternoon the camp was virtually deserted. Only armed Zulu residents remained.

Some fleeing squatters have sought refuge in nearby houses. About 1,000 of them are holed up at a nearby Roman Catholic Church but plans are being made to evacuate them because of fears the church may come under attack.

The latest violence fuelled fears that a bloody civil war in the Natal Province, between supporters of Zulu Chief Mangosuthu Buthelezi's conservative Inkatha party and those of the socialist African National Congress (ANC) and United Democratic Front (UDF), were spilling into Transvaal Province townships.

Eyewitnesses said the fighting here broke out when the squatters attacked a nearby migrant workers' hostel Sunday in retaliation for the death of "one of their friends" Monday last week, Sapa said.

Police said they were trying to arrange talks between the ANC and Inkatha to defuse the violence. Colonel Frans Malherbe said leaders from both factions had undertaken to stop the fighting and agreed on further talks.

He added that the situation was still tense.

Mr. Buthelezi denied, in a panel discussion on State-run television Tuesday

night, that Inkatha was "exporting violence" from Natal to other parts of the country.

He said Inkatha councillors had in the past been brutally killed in the Transvaal and that these attacks were now re-surfacing since President Frederik de Klerk lifted the country's four-year State of Emergency everywhere but in Natal.

There could be no peace between Inkatha and pro-ANC factions until ANC deputy president Nelson Mandela agreed to meet him on the issue, he said.

TUNIS (AUG. 14) - More than 10,000 Tunisians rallied here Tuesday to demonstrate support for Iraq and to denounce U.S. military intervention in the Gulf, witnesses said.

The demonstrators, grouping the ruling Rassemblement Constitutionnel Democratique party along with six legal opposition groups, marched toward Arab League headquaters, shouting slogans hostile to King Fahd of Saudi Arabia and Egyptian President Hosni Mubarak.

Mr. Mubarak and King Fahd, who have condemned Iraq's August 2 invasion of Kuwait and have accepted the deployment of foreign forces in the Gulf, were denounced as "traitors" and "cowards."

Brandishing Palestinian, Tunisian and Iraqi flags, marchers called on Arab states to shut down U.S. embassies on their soil and vowed to defend Iraq.

Once at the Arab League the crowd burned the U.S. and Israeli flags, while representatives of the demonstrators met with Arab League Secretary General Chedli Klibi.

Iraq's defiance of the United States, notably after Washington ordered the deployment of air and ground forces in Saudi Arabia, has been hailed by many ordinary Arabs who deeply resent what they see as foreign intrusion.

In addition, Iraqi President Saddam Hussein has endeared himself to the Arab masses by linking a settlement in Kuwait with an end to Israeli occupation of the West Bank and Gaza Strip.

-30- 1566

#90226d8730 08/14/1990 ~French/German News Agency

TUNIS (AUG. 14) - Chedli Klibi, Secretary General of the Arab League, described the Gulf initiative of Iraqi President Saddam Hussein as being of ''especial importance'' in a statement to the Iraqi news agency Ina

released by the Arab League in Tunis Tuesday.

Saddam Hussein had suggested a global Middle East solution providing among other things for Israel's withdrawal from the occupied territories, Syria's withdrawal from Lebanon and a pullout of American troops from Saudi Arabia.

The proposal had been rejected immediately by the United States and other Western countries but was welcomed by some Arab leaders.

Chadli said Saddam Husseins initiative demonstrated the ''contradictions of the big powers'' in safeguarding their interests in the Gulf region.

SAN SALVADOR (AUG. 14) - Fighting between leftist Salvadoran rebels and government troops has left at least 19 dead and 21 wounded in the past two days, the armed forces said Tuesday.

Some of the most dramatic fighting occurred on the Pan-American Highway, 70 kilometers (40 miles) east of the capital San Salvador.

Rebels from the Farabundo Marti National Liberation Front (FMLN) had held up traffic on the highway for two hours before the army summoned the air force to help dislodge the guerrillas.

Two soldiers died, six others were wounded and another was taken prisoner during the fighting, the military said.

In other clashes, the army said seven soldiers died and 10 others were wounded in the central department of Cuscatlan and there were numerous casualties among rebels.

The FMLN claimed over its clandestine Radio Farabundo Marti to have killed eight soldiers, wounded 13 others and taken six prisoners in that clash.

In other fighting, the military said two soldiers died and five others were wounded while guarding a grain storage facility in northern Chalatenango province.

Another two soldiers died in a clash north of the capital and four rebels and a soldier died in fighting in central La Libertad department, the army said.

The army also claimed to have broken up a guerrilla camp and to have killed one of the rebels in eastern El Salvador.

WASHINGTON (AUG. 15) - The incomes of some 130,000 poor farm families in central China will nearly triple as a result of a project to develop fruit orchards near the Yangtze River, the World Bank announced here Tuesday.

The International Development Association (Ida), the World Bank's concessionary lending affiliate, is supporting the project with a credit of 48.6 million Special Drawing Rights (64 million dollar).

The project includes steps to improve domestic marketing of fruit and increase agricultural agencies' capacity for producing and distributing disease-free trees to farmers.

The average farmer in the project region currently earns as little as 50 dollars a year. In addition to raising farmers' incomes, the project is also expected to generate thousands of jobs in rural areas.

The Ida credit is for 35 years, including 10 years of gracen it carries no interest, but has an annual charge of 0.75 percent on the disbursed balance and a variable charge of up to 0.5 percent (currently zero percent) on the undisbursed balance.

#90226d9940 08/14/1990 ~French/German News Agency
FRANKFURT (AUG. 15) - West Germany's Commerzbank AG on Tuesday announced plans to raise 500 million Deutsche marks (317 million dollars) to help the bank expand its operations in Germany and elsewhere.

In a statement, the bank said the planned issue of convertible nonvoting certificates would boost the bank's funds to 7.3 billion Deutsche marks.

The company said more information concerning the issue, a formula which offers tax benefits to the purchaser, would be announced at the end of the month.

During a period which has not yet been determined but will be less than the 10-year life of the certificates, purchasers will be able to convert them to regular Commerzbank shares, at a rate which remains to be decided, according to the statement.

#90226e0005 08/14/1990 ~Latin America New Agency
LOJA, SPAIN (AUG. 14) EFE - Residents of a small southern Spanish town will no longer be able to sing in the bath, shout across to their neighbors or allow their dogs to bark after 10 p.m. under a new law passed

by local officials desperate to curb noise, a Madrid newspaper reported Tuesday.

Municipal authorities in Loja, some 400 km south of Madrid, have given the go-ahead to a by-law which they hope will reduce noise in the town during the evening and early morning, the daily El Pais reported.

The regulation, which affects some 21,000 people, prohibits "speaking and singing in a loud voice inside homes, on stairways, in patios and on the street between 10 p.m. and 8 a.m.".

It stresses that unacceptable noise also includes pets barking, wailing or crowing.

"Singing at night can be relaxing, but two drunkards warbling away is not so pleasant," Loza Mayor Manuel Martin explained to El Pais.

"Neither is it normal that because some fellow has to spend 15 minutes trying to start his motorbike outside a disco at 3 a.m. that he has to shout to his friends as he does so," added the mayor.

Martin, who is aware the law will probably give rise to many jokes both in Loza and elsewhere in Spain, said the town hall has spent the last two years trying to persuade a breeder of fighting cocks that the birds make too much noise and do not let his neighbors sleep in in the mornings.

"The lack of regulations meant we could do nothing against this person whose 40 cocks were cock-a-doodle-dooing every day at 5 a.m.," the mayor explained.

#90226e0009 08/14/1990 ~Latin America New Agency

MEXICO CITY (AUG. 14) EFE - Czechoslovak President Vaclav Havel is to arrive Tuesday for a two-day official visit to Mexico where he will discuss bilateral trade ties with Mexican President Carlos Salinas de Gortari.

In a press release, the Mexican Foreign Ministry announced that the two leaders will also talk about +the opening and democratic process in which Mexico as well as the Czech and Slovak Federated Republics are resolutely carrying out+.

The two countries have maintained diplomatic relations since the end of World War I, and began trading in 1974.

In 1989, Mexico imported from Czechoslovakia dlrs 23.9 million in machinery, chemical products and manufactured goods, while it exported to

the East European country dlrs 3.3 million worth of coffee, cotton, and textiles.

#90226e0015 08/14/1990 ~Latin America New Agency

ELCHE, SPAIN (AUG. 14) EFE - Some 277 people have been injured in the southeastern Spanish town of Elche during an annual festival in which hundreds of youths hurl fireworks at each other, police said Tuesday.

Twelve of the victims were seriously burnt in Monday's festivities and transfered to hospital, but all but one of them were later released, the police spokesman said.

Most of the youths were however treated at local clinics for superficial burns and sent home.

During the so-called "Night of the Dawn" fiesta, firefighters put out some 30 fires around the town, 400 km southeast of the capital.

Last year, 264 people were slightly injured during the festival and two suffered serious burns.

#90226e0018 08/14/1990 ~Latin America New Agency

MADRID (AUG. 14) EFE - Spaniards may complain a lot about the havoc reigning in their telephone system, but its inefficiency this month enabled police to nab a group of drug traffickers, authorities said Tuesday.

Thanks to a crossed telephone connection, a frustrated caller was able to tip police off to a drug gang based in a Madrid hostal, leading to the arrests of five people.

Police raided the hostal, arrested its owner, her son, the manager and two Algerians, and seized 15 kg of hashish as a result of a follow-through investigation initiated after the tip-off.

The raid came after earlier this month a Madrid resident told police that he had overheard a drug deal being pacted when his telephone line crossed with another conversation.

Somebody seeking drugs was given the address of the hostal and told to go there and ask for +Yamed+, the informer told authorities.

Police, who had staked out the site prior to the raid, said that at the hostal the drug clients were greeted by the owner and were asked to wait

in a room until one of the Algerians came to deliver the goods.

Spaniards have been increasingly irked with their telephone system, run by the communications giant Telefonica, and constantly complain of crossed lines, the absence of a dial tone, and the inability to complete their calls.

#90226e0023 08/14/1990 ~Latin America New Agency

HAVANA (AUG 14) EFE - Five more Cubans Tuesday scaled the fence surrounding the residence of the Belgian ambassador in Havana bringing to nine the number of Cubans who have entered the grounds seeking asylum, diplomats reported

Ambassador Louis Cornet Delzius said the five refuge seekers had entered the residence grounds despite increased police security around the building, ordered after four others had climbed the residence fence a day ealier.

Delzius described the latest arrivals as "robust" but declined to say if he suspected that they were planted by Cuban security officials.

"What they want is to leave the country," Delzius said of the nine refugees.

Eighteen Cubans wanting to leave the Communist-ruledc island have been holed up for almost a month in the Spanish embassy in Havana.

The Cuban refugee crisis began early July 9 when 19 Cubans entered the Czechoslovak embassy and five more broke into the residence of the Czech charge de affairs in Havana.

Soon after, four Cubans sought refuge in the residence of the Italian ambassador in Havana and three more asked for asylum after entering the Swiss embassy.

The refugees in the Czechoslovak, Italian and Swiss missions later surrendered "unconditionally" to Cuban authorities.

But Spain's refusal to hand over its Cuban asylum seekers and Havana's refusal to allow them to leave the country has strained the two countries' normally close relations.

#90226e0026 08/14/1990 ~Latin America New Agency

BUENOS AIRES (AUG. 14) EFE - Argentine President Carlos Menem has agreed

that the question of sovereignty over the disputed Falkland Islands should be put aside while Argentina and Britain "worked together in all other fields", according to the British ambassador to Buenos Aires, Humphrey Maud.

Maud's comments came after he had visited Menem at the Casa Rosada presidential palace Monday, their first meeting since the ambassador presented his credentials following renewal of diplomatic ties between the two nations in February.

Maud rejected the idea of a prompt meeting between Menem and British Prime Minister Margaret Thatcher who sent a task force to retake the Falklands when the South Atlantic archipelago was invaded by Argentina in 1982.

Some 1,000 combatants died in the ten-week ground, naval and air war that ended with the islands returning to British rule.

On the sovereignty question Maud said, "We are agreed in putting this matter to one side, but that we should work together in all other fields."

He added that trade between the two countries could not increase "from one moment to another" but he believed that the visit of an Argentine trade mission to London in November would "without doubt interest British investors".

He said that the question of Argentine families being allowed to visit the graves of soldiers buried in the Falklands was being discussed with the International Red Cross Committee which was handling the issue.

The Menem-Maud meeting came the same day that Argentine diplomat Alfredo Chiradia told the United Nations decolonialization committee that "valid reasons" for delaying talks over the sovereignty of the Falklands were running out.

But while he said an outcome must be found for the "anachronistic colonial situation" he ruled out any use of force.

#90226e0032 08/14/1990 ~Latin America New Agency

LA CORUNA, Spain (AUG. 14) EFE - A festival event where roosters are hung from a cord and then beaten to death with sticks has been banned from the fiesta programs of two northwestern Spanish towns, officials said Tuesday.

The clampdown on the so-called Corrida del Gallo (rooster party) events came after the Spanish ecology group Arco Iris called them "public lynchings".

Arco Iris protested to the authorities about two events due to be held this week in the towns of Carral and As Pontes, some 500 km northwest of Madrid.

The Corrida del Gallo is held in various parts of the Galicia region.

Arco Iris claims it amounts to the "public lynching of an animal+ and is "against the rights of the animals and the sensitivity of many citizens+.

The group's latest victory follows a similar banning in the town of Zas.

But although civil guards were sent in to prevent the planned corrida there it is believed the event was switched to another part of town.

Interior Ministry representative Ramon Berra told the mayors of Carral and As Pontes that he had banned the event from their fiestas because it "involved cruelty, maltreatment and possible sadism toward the animals."

It also "ruptured the harmonious relation between man and beast" he added.

#90226f2012 08/14/1990 ~United Press International

LONDON (AUG. 14) UPI - Stock prices closed higher Tuesday in quiet summer trading on the London International Stock Exchange boosted by some selected bargin hunting in the gold and oil sectors.

The blue-chip Financial Times 100-stock index, which fell 14.3 points Monday, gained 14.5 points to 2,234.0. The narrower top 30 industrial average added 10.4 points to 1,742.6.

An estimated 330 million shares chnaged hands, compared with 295 million shares on Monday.

Analysts said prices edged higher from the opening bell as local investors sought selective issues at lower levels.

Market watchers noted volume continued to remain sluggish as large institutional investors remained cautious over the Middle East crisis, and many professional traders were on summer holidays.

On the local economic front, the Central Statistical Office reported Britain's industrial production rose 2.2 percent in June from May and 5.6 percent from June 1989, largely as a result of output from Britain's energy sector.

Analysts said the report had little or no impact on investors despite market forecasters expecting the government report to show an 0.2 percent

month-on-month rise.

Among the most widely traded stocks, oil stocks continued to benefit from the ongoing worries in the oil-rich Middle East crisis.

On the London Petroleum Exchange Brent Crude prices for September delivery inched up to $26.95 a barrel.

In the oil patch, British Petroleum added 7 cents to $10.13 and Shell gained 7 cents to $8.70.

As gold traders moved in to buy gold as a safe haven in the Gulf conflict, gold prices continued toe strongly, sending Val Reefs surging $3.75 to $97.

Eurotunnel managed to recover some of its 45-cent fall Monday on news that the group is facing delays in raising additional bank loans to complete the Channel Tunnel. Eurotunnel added 9 cents to $8.64.

Elsewhere in Europe, stock prices on the Frankfurt Stock Exchange closed slightly higher in quiet trading.

The closely watched German Stock Index, which fell 43.29 points Monday, rebounded 9.00 points to 1,715.05 amid a round of bargin hunting.

TOKYO (AUG. 14) KYODO - THE NUMBER OF BUSINESS FAILURES IN JAPAN FELL 12.5 PERCENT IN JULY FROM A YEAR BEFORE TO 483, A PRIVATE CREDIT RESEARCH AGENCY SAID TUESDAY.

JULY WAS THE 67TH STRAIGHT MONTH TO SHOW A YEAR-ON-YEAR DECLINE IN THE NUMBER OF BANKRUPTCIES WITH DEBT OF 10 MILLION YEN OR MORE, TEIKOKU DATA BANK LTD. SAID.

THE BANKRUPT FIRMS LEFT COMBINED DEBTS OF 86.7 BILLION YEN IN JULY, DOWN 59.1 PERCENT FROM A YEAR BEFORE.

-30- 604

#90226k0042 08/14/1990 ~Japanese News Agency

TOKYO (AUG. 14) KYODO - JAPAN'S POPULATION GROWTH RATE WAS THE LOWEST ON RECORD IN THE YEAR ENDING LAST MARCH, THE HOME AFFAIRS MINISTRY SAID IN A REPORT RELEASED TUESDAY.

THE REPORT, BASED ON A SURVEY OF RESIDENTIAL REGISTRIES, SAID THE POPULATION INCREASED FROM THE PREVIOUS YEAR BY 409,639 OR 0.33 PERCENT -- THE LOWEST RATE OF INCREASE SINCE THE SURVEY BEGAN IN 1968 -- TO 122.74

MILLION.

THE SURVEY ALSO REVEALED THAT THE AVERAGE NUMBER OF PEOPLE PER HOUSEHOLD FELL TO 2.98, DIPPING BELOW THREE FOR THE FIRST TIME. THE NUMBER OF HOUSEHOLDS, HOWEVER, GREW BY 1.47 PERCENT TO 41.15 MILLION.

SENIOR POLITICIANS HAVE EXPRESSED CONCERN ABOUT THE DECLINING BIRTHRATE, WHICH REACHED A RECORD LOW OF 1.57 BIRTHS PER WOMAN IN 1989, AND HAVE URGED THE GOVERNMENT TO CONSIDER MEASURES TO ENCOURAGE WOMEN TO HAVE MORE CHILDREN.

TOKYO'S POPULATION FELL BY 15,281 -- THE BIGGEST LOSS AMONG 21 PREFECTURES THAT REGISTERED DECREASES -- TO 11,639,293.

SAITAMA PREFECTURE, BENEFITING FROM THE SO-CALLED ''DONUT'' PHENOMENON OF PEOPLE MOVING FURTHER AWAY FROM CITY CENTERS DUE TO SOARING LAND PRICES, TOPPED THE LIST OF 26 GROWING PREFECTURES FOR A THIRD STRAIGHT YEAR WITH AN INCREASE OF 100,941 PEOPLE. SHIGA PREFECTURE HAD THE HIGHEST GROWTH IN PERCENTAGE TERMS WITH 0.94 PERCENT.

KANAGAWA, CHIBA, AICHI, HYOGO, AND IBARAKI PREFECTURES -- NEIGHBORING THE THREE MAJOR CITIES OF TOKYO, OSAKA, AND NAGOYA -- ALSO GOT BIGGER.

POPULATION GROWTH IN THE NAGOYA AREA, INCLUDING AICHI AND MIE PREFECTURES, SLOWED FROM 0.61 PERCENT IN THE PREVIOUS YEAR TO 0.58 PERCENT, WHILE IN THE OSAKA AREA, ONLY HYOGO PREFECTURE SHOWED ANY GROWTH, WITH A RISE OF 0.15 PERCENT.

THE SURVEY ALSO SHOWED THAT WOMEN CONTINUE TO OUTNUMBER MEN IN JAPAN, BY 62.36 MILLION TO 60.38 MILLION.

FOLLOWING TOKYO, OSAKA RANKED SECOND IN TERMS OF POPULATION AT 8,557,512, KANAGAWA THIRD AT 7,847,465, AICHI FOURTH AT 6,576,699, AND SAITAMA FIFTH AT 6,294,960.

TOKYO (AUG. 14) KYODO - JAPAN WILL EXPLAIN ITS PLAN TO HELP VICTIMS OF THE 1986 CHERNOBYL NUCLEAR PLANT ACCIDENT WHEN SOVIET FOREIGN MINISTER EDUARD SHEVARDNADZE VISITS IN EARLY SEPTEMBER, FOREIGN MINISTRY OFFICIALS SAID TUESDAY.

THE GOVERNMENT, WHICH RECENTLY RECEIVED A DETAILED SOVIET PROPOSAL FOR BILATERAL COOPERATION ON THE ISSUE, HOPES TO HAVE A RESPONSE READY BY THE TIME SHEVARDNADZE COMES TO TOKYO, THE OFFICIALS SAID.

''WHILE WE MAY NOT BE READY BY THEN TO ANNOUCE SPECIFICS, WE AT LEAST

EXPECT TO BE ABLE TO GIVE THE SOVIETS AN INDICATION OF THE DIRECTION WE ARE AIMING AT,'' SAID ONE OFFICIAL.

OFFICIALS SAID THE SOVIET PROPOSAL ON CHERNOBYL COOPERATION WAS PRESENTED TO JAPAN IMMEDIATELY AFTER A DEPUTY MINISTERIAL-LEVEL MEETING IN MOSCOW IN LATE JULY, WHERE THE JAPANESE SIDE INDICATED THAT JAPAN WOULD POSITIVELY RESPOND TO A FORMAL SOVIET GOVERNMENT REQUEST FOR ASSISTANCE.

THE PROPOSAL IS NOW BEING CONSIDERED AMONG THE MINISTRIES CONCERNED, WITH ADDITIONAL INPUT FROM MEDICAL PROFESSIONALS, THEY SAID.

LAST SATURDAY, JAPANESE AMBASSADOR TO MOSCOW SUMIO EDAMURA TOLD SOVIET DEPUTY PRIME MINISTER VITALY DOGUZHIYEV THAT JAPAN IS WILLING TO ACTIVELY ASSIST IN CHERNOBYL-RELATED EFFORTS, BOTH BILATERALLY AND MULTILATERALLY, OFFICIALS SAID.

JAPAN FIRST EXTENDED GOVERNMENT-LEVEL COOPERATION IN JANUARY 1987 BY HOSTING A DELEGATION OF SOVIET MEDICAL SPECIALISTS, OFFICIALS SAID.

A SERIES OF SYMPOSIUMS AND JOINT STUDIES HAVE ALSO BEEN HELD SINCE DECEMBER 1988, WHEN RADIOLOGICAL MEDICINE EXPERTS COOPERATED AT A SESSION OF THE JAPAN-SOVIET COMMISSION FOR SCIENTIFIC-TECHNOLOGICAL COOPERATION.

ISLAMABAD (AUG. 14) KYODO - PAKISTAN PRESIDENT GHULAM ISHAQ KHAN ISSUED AN ORDINANCE TUESDAY THAT ALLOWS CONVICTED MURDERERS TO FINANCIALLY COMPENSATE HEIRS OF THEIR VICTIMS IN EXCHANGE FOR CLEMENCY.

THE PRESIDENTIAL ORDER, EFFECTIVE FOR SIX MONTHS AFTER WHICH IT MUST BE APPROVED BY PARLIAMENT, REFLECTS A RECENT ISLAMIC COURT RULING WHICH SAID SO-CALLED ''BLOOD MONEY'' COULD BE PAID TO HEIRS OF MURDER VICTIMS IN EXCHANGE FOR MERCY.

THE GOVERNMENT OF DEPOSED PRIME MINISTER BENAZIR BHUTTO HAS FILED AN APPEAL BEFORE THE SUPREME COURT TO OVERTURN THE RULING, CALLING THE PAYMENT OF BLOOD MONEY ''UNCIIVILIZED.''

KHAN'S CARETAKER GOVERNMENT, HOWEVER, WITHDREW THE APPEAL MONDAY AND VOWED TO AMEND THE NATION'S PENAL CODE IN LINE WITH THE COURT RULING.

#90226k0117 08/14/1990 ~Japanese News Agency

MOSCOW (AUG. 14) KYODO - SOVIET PRESIDENT MIKHAIL GORBACHEV WILL LIKELY VISIT JAPAN EARLY NEXT APRIL, SOVIET DIPLOMATIC SOURCES SAID TUESDAY.

GORBACHEV INDICATED IN TALKS WITH SOKA GAKKAI HONORARY PRESIDENT DAISAKU IKEDA IN LATE JULY THAT HE WANTS TO VISIT JAPAN EARLY NEXT SPRING, BUT TUESDAY WAS THE FIRST TIME ANYTHING CONCRETE WAS DISCLOSED ABOUT THE SOVIET PRESIDENT'S TRAVEL PLANS.

SOVIET AUTHORITIES ARE CURRENTLY MAKING ARRANGEMENTS FOR THE APRIL TRIP, THE SOURCES SAID.

THE SOVIET UNION WILL PROPOSE MEASURES TO BUILD MUTUAL TRUST BETWEEN MOSCOW AND TOKYO DURING THE VISIT OF SOVIET FOREIGN MINISTER EDUARD

SHEVARDNADZE ON SEPTEMBER 5, THEY SAID.

THE SOVIETS WILL PROPOSE AN EXCHANGE OF MILITARY PERSONNEL AND VISITS BY NAVAL VESSELS FROM EACH NATION TO THE OTHER'S PORTS, THEY SAID.

RATHER THAN GOING TO KYOTO AND WESTERN JAPAN AS DO MOST VISITING DIGNITARIES, GORBACHEV IS CONSIDERING VISITING NIIGATA, WHICH HAS BEEN AN IMPORTANT PORT OF CALL FOR SOVIET GROUPS AND DELEGATIONS, THEY ADDED.

#90226m0001 08/14/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (AUG. 14) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

IN THE NEWS:

The COMMERCE DEPARTMENT reports that retail sales for July rose 0.1%, but excluding autos it rose 0.3% Analysts were expecting a modest 0.4% rise in retail sales.

After yesterday's power outages, the AMEX will open on time, the MERC at 11:00. ... In Tokyo it is a rare up day as the Nikkei gains 496 points on buying by big brokerage firms. ... Stocks were also higher in mid-day London trading. ... TLC BEATRICE INTERNATIONAL says second-quarter earnings rose 99% from the same quarter last year. ... USAIR says it will lay off 200 pilots and a number of other workers to cut costs. ... SEARS denies a published report that Chairman EDWARD BRENNAN has six months to improve sales or face ouster. ... AT&T and KOKUSAI DENSHIN DENWA, Japan's international telecommunications monopoly, sign an agreement with CHINA's telecommunications ministry to expand China's communications links with Japan and the United States. ... GENERAL MOTORS reached a tentative accord with the UAW to settle a five-day strike at its Flint, Mich. parts-making factory. ... UNITED PARCEL SERVICE union workers ratified a new labor agreement, spurning the recommendation of their leadership. ... At midyear 35 out of 40 economists surveyed by "The Wall Street Journal" believed the economy would continue expanding for another year. Now only 19 out of 34 economists responding to a follow-up survey believe that there will not be a recession this year.

WHAT'S AHEAD:

Treasury Undersecretary DAVID MULFORD testifies today before the House Banking Committee on foreign currency intervention. ... The FEDERAL DEPOSIT INSURANCE CORP. board meets to consider an increase in insurance premiums. ... U.S. - Arab CHAMBER OF COMMERCE holds a briefing on the status of U.S. business interests in the Persian Gulf.

FROM THE BULLS:

KEN HACKLE, president of SYSTEMATIC FINANCIAL MANAGEMENT, says, "Let's carry on with this bull market, which we believe we're in, still. Stocks have gotten extremely, extremely cheap. ... Stocks are selling at very low cash flow multiples." (CNBC "Market Wrap-Up", 8/13)

FROM THE BEARS:

PETER GRANDICH, chief market strategist for AFFILIATED FINANCIAL MANAGEMENT, says the market has not hit bottom. "The artillery has [just] stopped for a while," he says. "You might stick your head out for a quick trade for the extreme short-term, but we're still in the bunker. I think the market will be stuck in a trading range of Dow 2600 to 2800. Unless you are an aggressive trader, there won't be much room on the upside." He sees the Dow in the low 2000s by October-November, dragged down by disappointing third-quarter earnings. ("USA Today", 8/14)

"We would be surprised if any politically inspired advance [in stocks] proves durable," says GERALD APPELL of "Systems and Forecasts." Even if the Mideast cools off, he believes a heavy zone of resistance now lies in the area of 2850-2900. "This is probably a time when all prudent men should retain large cash positions." At the "Mutual Fund Strategist," editor CHARLES HOOPER agrees that a money market fund is the safest place to be. His timing models recommend selling intermediate trend and international stock funds, as well as bond funds. (CNBC "World Business", 8/14)

Stocks are "still somewhat overvalued," even though the Dow has fallen more than 200 points since mid-July, says WILLIAM KEALY, director of research at GOLDMAN, SACHS & CO. Since March, the firm has been recommending that investors be "underexposed in equities." (WSJ, 8/14)

"The trend is still down" in the stock market, says BRAD WEEKES, senior vice president of sales and trading at DONALDSON, LUFKIN & JENRETTE SECURITIES. "This whole correction was not caused by Iraq, but by second-quarter earnings and higher interest rates." Mr. Weekes predicts the Dow industrials will find their next support level at the 2500 mark. He adds, "People are taking a wait-and-see attitude to see what happens in the Middle East." (UPI, 8/13)

STOCK MARKET:

"We were watching an oversold market trying to rally [yesterday]," says block trader JOHN BURNETT at DONALDSON, LUFKIN & JENRETTE. "They got it down over 30 points on the Dow at the start and when the selling stopped the 'bargain-basement' people came in and it was up from there. But it's

not what you'd call a broad-based rally. The market's being held up by pockets of bargain hunting -- that's about it." ("The Washington Post", 8/14)

HUGH JOHNSON of FIRST ALBANY doesn't make much of yesterday's rally, especially in light of the fact that more stocks declined than advanced. "Sure, it's nice to see the averages up. Sure, it injects a little bit of confidence or a little bit of optimism into an otherwise bleak picture. But at the same time, it's not good to see that many stocks declining." (CNBC "Market Wrap-Up", 8/13)

"When oil is strong and gold is strong, those are enemies of industrial shares anyway. And they certainly don't do utilities and airlines any good either," says ROBERT STOVALL of STOVALL/TWENTY- FIRST ADVISERS. Due to the fire disruption on Wall Street, "I think you had a misleadingly strong Dow Jones the last hour." As far as events in the Mideast, Mr. Stovall believes that if this situation drags on for months it will be bad news for the stock market. (FNN "Marketwrap", 8/13)

"There are selected opportunities to take advantage of here, but by-and-large we don't really see a whole lot of goods on the horizon," says CHARLES COMER, director of research for CL GLOBAL PARTNERS. "We may get a little bounce or two along the way, but I think the markets are going to stay under pressure for an indeterminate time." (CNBC "Market Wrap-Up", 8/13)

"This is the most oversold condition we've had in the last two years," says BEAR, STEARN's technical analyst JACK SOLOMON, explaining that share prices were long overdue for a rebound. LADENBURG THALMANN president JON GROVEMAN says the market's ability to hold above 2680 lured buyers. "It bounced off that like a charm." (Reuters, 8/13)

Give the Bush Administration some credit for yesterday's rebound in blue chip stocks, says ROBERT RITTER, chief market analyst at LADENBURG, THALMANN. "The Bush Administration is doing quite a good job of getting their act together," says Ritter. The idea that things seem to be going well in the Mideast halted a market selloff at 2680, last week's low. "When it couldn't go [down] any further, there was room for a big rally," says Ritter. (CNN "Business Morning", 8/14)

"I'd rather own stocks that can act as a hedge against inflation than bonds that can get hurt by it," says JOSEPH McALINDEN, director of equity research at DILLON READ. He says people are beginning to recognize that companies other than those in the oil industry, such as basic and precious metals producers, will be able to make money despite higher inflation. (WSJ, 8/14)

"I think we've really got a case of sellers' fatigue here," says MICHAEL

METZ of OPPENHEIMER & CO. "There's nothing new in the external environment." (Reuters, 8/13)

"This market is much better prepared for an oil problem than it was in 1978," says GENE JAY SEAGLE, director of technical research at GRUNTAL & CO. He says the market rise yesterday, which included blue chips, might have given a technical buy signal to the market. (NYT, 8/14)

#90226p4961 08/14/1990 ~PR Newswire

HUMBLE, TX (AUG. 14) PR NEWSWIRE - Marin Fund Inc. (OTC) ("Marin") reported gross revenues for the quarter ended June 30, 1990 of $1,505,714 representing a 233 percent increase over second quarter 1989 revenues of $645,087. Net income for the quarter totaled $2,625 as compared to a net loss of ($141,868) in the second quarter of 1989. Revenue for the first six months of 1990 totaled $2,566,817 as compared to $1,553,281 for the like period in 1989. The increase was primarily associated with a 120 percent improvement in hardware/peripheral sales (from $1,081,121 to $2,449,943). Net income for the first six months of 1990 totaled $29,795 as compared to losses of ($133,248) for the like period in 1989.

Gross profits as a percentage of revenue totaled 19 percent compared to second quarter 1989 levels of 15 percent. General and administrative expenses totaled $282,357 in the second quarter of 1990 as compared to $237,365 in 1989 as a result of increased marketing expenses. Marketing expenses during the second quarter of 1990 increased to $95,529 from first quarter 1990 levels of $55,302. A moderate increase in marketing expenses is expected in the third quarter of 1990, as MBSI continues to expand its advertising campaign.

On March 2, 1990, Marin announced that its operating subsidiary, Micro Business Solutions Inc. ("MBSI") had reached an agreement with Samsung Information Systems of America ("Samsung") of San Jose, Calif., involving the sale and marketing of Samsung's new MU9511 Dual Page Display Monitor for the Apple Macintosh microcomputer. Samsung had granted MBSI the exclusive right to market the MU9511 in the United States from May 1 through Oct. 31, 1990. MBSI will actively market the MU9511 Dual Page Display Monitor to the Macintosh marketplace under its tradename "Software and Hardware That Fits." Due to production problems incurred by Samsung, MBSI will not receive these monitors in significant quantitiy until late August 1990. As a result, Samsung has extended MBSI's exclusive right to market the Dual Page Display Monitor through Feb. 28, 1991. The management of the company anticipates that the sale of Samsung's Dual Page Display under this agreement will significantly contribute to revenues beginning in October 1990.

Marin Fund through its operating subsidiary, Micro Business Solutions, is

engaged in the sale of computer hardware, peripherals and software for the Apple Macintosh computer and specializes in system integration under the tradename "Software and Hardware That Fits".

The common stock of Marin Fund is traded in the over-the-counter market and is listed in the "Pink Sheets" published by the National Quotation Bureau.

RIVERTON, WYO. (AUG. 14) PR NEWSWIRE - Metro Cable Corp. (NASDAQ: METO) today announced net earnings of approximately $8,000 for the quarter ended June 30, 1990 compared to year-earlier net earnings of approximately $74,000.

Robert Thrailkill, president, said the company had income of $215,000 from oil production and investment income earned on short-term cash investments and marketable securities. Thrailkill noted that oil production income was lower in the current quarter due to declining oil prices and workover costs associated with two wells.

Thrailkill also indicated that management continues to view Metro's stock as undervalued and the company will continue to purchase its shares in the open market.

FARMINGTON, NM (AUG. 14) PR NEWSWIRE - Mesa Airlines Inc. (NASDAQ: MESA) today reported net income of $1,014,359 or 61 cents per share for its third quarter, an 898.9 percent increase over last year's $101,546. Operating revenues rose from $5,826,363 to $13,182,464 for the third quarter, an increase of 126.2 percent.

Mesa has also released its July traffic figures. The airline carried 69,587 passengers in July which is a 114 percent increase over July, 1989. Revenue passenger miles increased 156 percent to 14,806, and available seat miles were up 129 percent at 28,549 as compared to the same time period last year. Load factors also increased to 51.9 percent from 46.3 percent in July of 1989. The air carrier has posted traffic increases for the past 16 months.

"This quarter's figures are the first to reflect the positive impact the United Express operation has had on Mesa," said Larry Risley, president of the airline. "Our other operations also continue to expand and to add to Mesa's financial growth. Despite the continuing expansion, Mesa has maintained its profitability."

Mesa also announced that due to the instability at the present time in the stock market because of the Persian Gulf crisis, the company has delayed its announced second public offering of approximately 2 million shares of common stock for which it had previously filed a Registration Statement. Management believes that better than expected operating results have lessened the company's anticipated equity requirements. Accordingly, it is anticipated that when the delayed offering comes to market, the size of the offering will be reduced to approximately 1 million shares.

Mesa Airlines, operates as an independent carrier out of its Albuquerque and Phoenix hubs and as an United Express carrier out of is Denver hub. Skyway Airlines, a wholly-owned subsidiary, operates as a code-share with Midwest Express Airlines out of its Milwaukee hub.

JACKSON, MI (AUG. 14) PR NEWSWIRE - If you are building a new home in Michigan, chances are greater than one in three that a central air-conditioning system is part of your plans.

Consumers Power Company notes a sharp increase in the number of new homes which include central air conditioning. In the past three years, more than 45,000 new central air-conditioning systems have been installed in all homes in the utility's service territory. Homes with central air conditioning now account for one out of every six residences served by Consumers Power.

"It costs 26 cents per hour to run an energy-efficient central air unit today, approximately the same as what it cost one year ago," said Paul A. Elbert, vice president of marketing, rates and wholesale power transactions. "Unlike many commodities, the price of our electricity has remained stable."

Homes with either a central air-conditioning system, or at least one room air-conditioner, account for almost half of all residences served by Consumers Power.

Consumers Power Company, the principal subsidiary of CMS Energy Corporation (NYSE: CMS), is Michigan's largest utility serving almost 6 million of the state's 9 million residents in 67 of 68 Lower Peninsula counties.

#90226p4984 08/14/1990 ~PR Newswire

INDIANAPOLIS (AUG. 14) PR NEWSWIRE - For the third quarter of its fiscal 1990, the three months ended June 30, Anacomp Inc. (NYSE: AAC) recorded

net income of $5,034,000 or $.12 per share ($.07 before extraordinary credit), on revenues of $164,945,000.

That compares to net income of $4,473,000 or $.10 per share ($.06 before extraordinary credit), on revenues of $158,229,000 in the third quarter of fiscal 1989.

For the nine months ended June 30, Anacomp recorded net income of $15,172,000 or $.36 per share ($.22 before extraordinary credit), on revenues of $473,627,000. That compares to net income of $8,922,000 or $.19 per share ($.22 from continuing operations before extraordinary credit), on revenues of $476,632,000 in the prior year. The revenue decline from the same period in fiscal 1989 resulted from reduced sales of certain low margin magnetics products, which have been eliminated from the company's product line. The magnetics revenue decline was largely offset by increased sales in several segments of the company's core micrographics business.

Louis P. Ferrero, Anacomp chairman and chief executive officer, noted the earnings strength of the company's core micrographics business, particularly computer output microfilm (COM) service bureau revenues, which were up $7.9 million, or 12 percent from the first nine months of the previous year. Total service revenues also generated a gross profit of 38 percent in the first nine months of the fiscal year, up from 36 percent in the first nine months of the previous year.

Ferrero also highlighted gains in micrographics sales and operating profits from Anacomp's Supplies and International Divisions, indicating that operating profits had increased 8.5 percent and 11.7 percent, respectively, over the first nine months of the previous year.

Ferrero indicated that net income in the third quarter was reduced more than $1.9 million or $.05 per share, compared with the third quarter of fiscal 1989, by amortization of fees incurred in connection with the waiver of certain stipulations in the company's senior and subordinated loan agreements. Debt-related fees will be reduced following the restructuring of the company's debt.

Anacomp is an information management company with leading market positions in micrographics services, systems and supplies. Anacomp's customers include banks and other financial institutions, large government and industrial users, and a variety of other businesses around the world. Anacomp common stock is listed on the New York and Midwest stock exchanges.

#90226p4986 08/14/1990 ~PR Newswire

BOCA RATON, FLA. (AUG. 14) PR NEWSWIRE - Cascade International, Inc. (NASDAQ: KOSM) today announced its purchase of the controlling stock interest in Conston Corporation (AMEX: KCS) from the Conston family, for approximately $5,132,000 in cash. This represents approximately 63.7 percent of the outstanding voting stock of Conston.

Conston, presently in Chapter 11 Federal bankruptcy proceedings, is a specialty retailer of women's clothing and accessories, focusing primarily on large-sized women's apparel. Founded over 40 years ago, Conston operated as many as 350 retail stores under the names Famous Made, 16 Plus Charles and Kristy Corner with reported sales for the fiscal year ended March 3, 1990 of approximately $170,000,000. Since filing for protection under the Federal Bankruptcy Act in June 1990, Conston has reduced the number of its stores to approximately 290. At the time of the filing under Chapter 11, it reported assets of approximately $62,700,000 and liabilities of approximately $25,600,000.

Cascade, operating through wholly owned subsidiaries, is a broad line retailer of cosmetics, skin care products, designer fragrances and women's apparel. Cascade's cosmetics are distributed under the name Jean Cosmetics. Its women's apparal are retailed under the names JB's Boutiques, Boutiques Diana and Boutiques Allison.

Victor G. Incendy, Cascade's chairman and chief executive officer, described the transaction in the following terms: "This equity investment in Conston will secure the continued growth and stability of Cascade's combined cosmetics and retail operations. It is part of our long-range plan to control the retail locations of our subsidiaries for the distribution of our proprietary cosmetic products. We are very excited about this new investment opportunity. Conston will fit extremely well into our strategy of decentralized retail operations with centralized financial control. This acquisition will allow Cascade to extend further its retail strategy of combining its proprietary cosmetics distribution with women's apparel and accessory sales."

Cascade will operate Conston as a separate, publicly held subsidiary under a management team headed by Ira Quint, formerly president and chief executive officer of Lane Bryant. John J. Cebular will continue as the chief financial officer of Conston.

HERZLIYA PITUACH, ISRAEL (AUG. 14) PR NEWSWIRE - Rada Electronic Industries Ltd. (NASDAQ: RADIF) today announced its financial results for the three and six month periods ending June 30, 1990. Revenues for the six month period reached a record level of $11,545,000, a 10.5 percent increase over the 1989 period and net after tax profits rose to $708,000, a 4.1 percent increase over 1989. For the three month period ended June 30, 1990, the company achieved revenues of $5,502,000 as compared to $5,050,000 in 1989, and had net after tax profits of $318,000 as compared to $340,000 in the 1989 quarter. The decrease in the net income was principally due to a one time provision for taxes of $100,000.

According to Haim Nissenson, president of the company, the growth in sales and profits was mainly attributable to its industrial sector consisting of Rada (Israel) and Tasco Electronic Services Inc., a majority-owned subsidiary, located in Anaheim, Calif.

Rada Electronic Industries Ltd. is an Israeli-based company with subsidiaries in Israel, the United States and the Netherlands. Rada's product lines include advanced automated testing equipment, avionics and airborne computers, military standard computers and peripherals. Rada is also involved in the distribution of sophisticated electronic components, functional circuits and subassemblies in Israel, the United States and Europe.

#90226p4993 08/14/1990 ~PR Newswire

PITTSFORD, N.Y. (AUG. 14) PR NEWSWIRE - SelecTronics, Inc. (NASDAQ: SELE) today reported that income from operations for the first quarter ended June 30, 1990, was $137,000 compared to a loss of $823,000 from operations

last year on a 26 percent increase in revenues to $8.5 million.

Interest expense and amortization of goodwill made final net for the quarter a $335,000 loss or $0.01 per share compared to a $783,000 net loss or $0.02 last year. Last year's quarter included a $245,000 tax benefit.

Mike Weiner, chairman and chief executive officer, said revenues increased due to a 25 percent increase to $6.5 million in sales of SelecTronics handheld electronic reference products (ERP) and a 30 percent increase to $1.9 million in Microlytics software revenues.

Operating expenses were down slightly from the year-ago quarter and more significantly, were down more than $1 million or 29 percent from the prior quarter, when the company reported an operating loss of $1.9 million and a net loss of $2.7 million or $0.08 per share.

SelecTronics Inc., which is 30 percent owned by Xerox, manufactures and markets handheld electronic reference products including the Electronic Bible licensed from Harper & Row; the Electronic Encyclopedia licensed from Random House; multi-language translators licensed from Berlitz; and WordFinder dictionaries, thesauruses, and spelling checkers.

Its wholly-owned subsidiary, Microlytics Inc., develops and markets software through traditional distribution channels and OEM licenses, including Microsoft, WordStar, Lotus, Tandy, Citizen, Hewlett-Packard, Claris, Symantec, XyQuest, Caere, DEC, and others. It also is the creator of "The Pocket Word Finder Thesaurus for Pocket Books."

CONTACT: Bruce Marche, CFO, SelecTronics, 716-248-3875, or Gary Fishman of Reynolds Associates (financial), 212-661-1830, or Connie Connors of Connors Communications (product), 212-431-9300, both for SelecTronics

COLUMBUS, OH (AUG. 14) PR NEWSWIRE - The Limited, Inc. (NYSE/LSE/TSE: LTD) announced today that during the second quarter net income increased 24 percent to $79.0 million from $63.8 million a year ago, while earnings per share increased 22 percent to $.22 from $.18 a year ago. Net sales increased 17 percent to $1.155 billion from $990 million.

Leslie H. Wexner, chairman and chief executive officer, said, "I believe our focus on quality produced a solid second quarter, including a record second quarter gross margin, 30.5 percent; and operating income rate, 12.2 percent. Net income as a percent of sales was 6.8 percent, nearly a record for the second quarter.

"I am pleased to recognize the significant contributions of: Howard Gross

and the Victoria's Secret Stores associates for generating record second quarter operating income as a percent of sales. Michael Weiss and the Express associates for continuing to compound an outstanding annual rate of growth in the Division's operating income. Cynthia Fedus and the Victoria's Secret Catalogue associates for producing record second quarter operating income.

Martin Trust and the Mast Industries associates for producing extraordinary results and shipping record second quarter levels of merchandise."

Wexner concluded, "Earlier this year I said, 'This is a time of economic uncertainty; this uncertainty demands caution, but at the same time can offer substantial opportunity. Hopefully, we can work to take advantage of each opportunity.' My view remains unchanged."

The Limited, Inc., through the Limited, Express, Victoria's Secret, Henri Bendel, Lerner New York, Lane Bryant, Abercrombie & Fitch, and Penhaligon's, presently operates 3,290 specialty apparel stores and distributes apparel nationally through the Victoria's Secret, Lerner Direct, Lane Bryant Direct and Roaman's catalogues.

#90226p5003 08/14/1990 ~PR Newswire

PHILADELPHIA (AUG. 14) PR NEWSWIRE - Americanino Capital Corp. announced today that audited consolidated financial statements of its Italian subsidiary CORA S.r.l. (the former top holding company of the Americanino Group) and its subsidiaries as of Dec. 31, 1989, and for the year then ended, show an operating loss of $8.2 million on net sales of $147 million.

Americanino acquired CORA and interests in certain subsidiaries in exchange for cash and Americanino stock earlier this year. The Americanino Group manufactures and distributes sportswear and other leisure apparel, principally in Italy.

Taking into account interest expense of $12.2 million and other items, net after tax loss before minority interests was $25.3 million, resulting in a net loss attributable to CORA of $12.4 million. Management indicated that the $25.3 million loss included certain non- recurring events and write-offs totaling $15 million. The loss also included a charge of $3.5 million for accelerated amortization of intangibles, which was computed at the fastest rate permissible under Italian tax laws. Americanino has not yet determined over what period to amortize such intangibles in the future.

After careful analysis of those results, Americanino said it is satisfied

that its expectations for 1990 remain substantially unchanged, especially in light of the significant restructuring put in place to date, as explained below. Management earnings projections for 1990 are roughly in line with the $7 million pre-tax earnings figure estimated earlier this year. Consolidated sales for 1990 are expected to be about $200 million.

Americanino is now negotiating with the former owners of the Group with respect to a reduction of the acquisition price in light of disagreements regarding the manner in which the purchase price was computed.

Management said it believes that the causes of past losses in the Americanino Group have now been turned around or eliminated. It is actively working on further improvements in operations which will rapidly make the Americanino Group a clear European leader in its industry.

NEWMARKET, NH (AUG. 14) PR NEWSWIRE - Vitronics Corporation (AMEX: VTC) announced the receipt of an order from Davidson Interior Trim, a subsidiary of Textron, Inc. (NYSE: TXT), for its newly released Aquapro SMT Aqueous Cleaner System. Although the cleaning system was designed to be used in the electronics industry, the system can be utilized in other industries that require similar cleaning technology.

VITRONICS(R)' aqueous and semi-aqueous cleaning systems are environmentally safe and are alternatives to cleaning systems which use CFCs that damage the earth's ozone layer.

James J. Manfield, Jr. president and CEO of Vitronics Corporation said "We are pleased with the receipt of this order from Davidson/ Textron, a leading manufacturer of automotive interior parts. This order is significant because it is the first Aquapro SMT system sold as a result of our efforts to market our semi-aqueous and aqueous cleaning systems to industries outside the electronics industry. After considerable testing, Davidson was pleased with the results of our system in terms of increased productivity, as well as, safety for the environment. Davidson's progressive efforts to replace its CFC-based cleaning systems with environmentally safe aqueous cleaning systems should be applauded. Vitronics Corporation is working with many companies in a variety of industries to replace their current CFC-based cleaning systems with our aqueous and semi-aqueous cleaning systems. In addition, Vitronics Corporation has just completed record consecutive three-month bookings with with over $5.5 million in bookings during the three-month period ended July 31, 1990."

Vitronics Corporation is a rapidly growing supplier of state-of-the- art thermal processing and associated equipment, with an established reputation as an innovator and leader in the surface mount industry. VITRONICS' equipment is primarily aimed at the huge electronics industry and has achieved considerable technical recognition in the production of printed circuit boards. The company also supplies equipment to the medical, chemical, pharmaceutical, plastics, graphics and textile industries.

VITRONICS' customer list includes all 20 of the largest electronics companies with IBM, AT&, Hewlett Packard, Delco Electronics, Chrysler, Compaq Computer and Motorola among the grouping.

#90226p5006 08/14/1990 ~PR Newswire

WOODBRIDGE, NJ (AUG. 14) PR NEWSWIRE - GR Foods, Inc. (AMEX: GRX) today reported net income of $432,000 for the three months ended June 30, 1990, on sales of $83,138,000, compared with net income of $1,049,000, on sales of $50,662,000 for the comparable 1989 period. Earnings per share for the quarter were 7 cents compared with 29 cents.

The lower reported earnings are primarily due to a significant loss in the company's tuna division resulting from disruption in the U.S. tuna market caused by the move to dolphin-safe tuna. The Ground Round restaurant chain continues to perform well with increased profits and same store sales.

Losses in the tuna division are expected to continue over the next several months as the U.S. tuna industry adjusts to dolphin-safe tuna. As a result the company now expects that net income for 1990 will be below that reported for 1989.

For the six months ended June 30, 1990, net income was $1,728,000, or 27 cents per share, on sales of $173,908,000 compared with $1,998,000, or 56 cents per share, on sales of $108,313,000 for the comparable 1989 period.

GR Foods, Inc. is a diversified food company with businesses in restaurants and food products.

HAMILTON, BERMUDA (AUG. 14) PR NEWSWIRE - Nord Pacific Limited (NASDAQ: NORPF) announced today that its net loss for the second quarter ended June 30, 1990, was $1,786,000 or $.60 per share and its net loss for the two quarters ended June 30, 1990 was $3,841,000 or $1.29 per share. Comparatively, for the second quarter of 1989 the net loss was $302,000 or $.10 per share and for the first two quarters of 1989 the loss was $874,000 or $.29 per share. Lower gold prices, increased production costs and continued exploration and development activities contributed to the higher losses for the respective periods.

Nord Pacific Limited is incorporated under the laws of Bermuda and is engaged in gold mining in Australia and in exploration for precious metals base metals and strategic minerals in Australia, Papua New Guinea and North America. At the Kurara gold mine in Western Australia, Pacific has an open pit mine in operation in which it has a 65 percent interest. On the Tabar Islands located in Papua New Guinea, drilling and feasibility studies are continuing on several gold deposits.

In Eastern Australia, Pacific has a promising copper project (Girilambone) in the advanced exploration stage and has recently engaged Minproc Engineers Pty. Ltd. to perform a mining feasibility study. Pacific also owns a 72.35 percent interest in a major deposit of the strategic minerals chromite, cobalt and nickel located near the Ramu River, Papua New Guinea. A U.S. subsidiary company, Hicor Corporation, based in Albuquerque, N.M., conducts North American exploration.

NORD PACIFIC LIMITED

A summary of the consolidated statement of earnings follows:

	Quarter Ended June 30		Two Quarters Ended June 30,	
	1990	1989	1990	1989
Revenues	$2,445,000	$3,282,000	$4,060,000	$6,005,000
Net (loss)	$(1,786,000)	$(302,000)	$(3,841,000)	$(874,000)

#90226p5009 08/14/1990 ~PR Newswire

NEW YORK (AUG. 14) PR NEWSWIRE - Dyansen Corporation (NASDAQ: DYAN) today reported record revenues and profits for the second quarter ended June 30, 1990.

For the second quarter ended June 30, 1990, net sales increased 32 percent to a record $14.4 million compared to the $10.9 million during the same period one year ago. Net income rose 203 percent to $1,212,000, or $0.21 per share on a primary share basis ($0.18 per share on a fully diluted basis), compared to the $400,000, or $0.07 per share on a primary and fully diluted basis for the second quarter of 1989. In a preliminary earnings release issued on June 28, the company announced estimated sales for the second quarter of $13 million and $0.11 to $0.13 per share. The substantial increase from preliminary estimates is the result of higher than anticipated shipments at the end of the quarter, combined with the benefit of our cost reduction program.

Net sales for the six month period of 1990 increased 19 percent to a record $23.6 million compared to the $19.9 million reported for the same period in 1989. Net income for the six months rose 92 percent to a record $1,250,000, or $0.22 per primary share ($0.19 per fully diluted share), compared to $650,000 or $0.12 per share on a primary and fully diluted basis for the same period in 1989.

Harris Shapiro, chairman and chief executive officer, commenting on the favorable results, stated, "Sales and net earnings for the quarter and six month period were the highest in the Company's history, as was the backlog of unfilled open orders, which exceeded $10 million at the end of the period."

He attributed these strong gains primarily to increased sales of Erte artwork, which resulted in an increase in same store sales for the second quarter of 1990 of approximately 32 percent over the second quarter of 1989. Erte, the world-renowned artist who for more than nine years had been Dyansen's leading artist, died in April at the age of ninety-seven. Contributions of Dyansen's newest retail location in the Taj Mahal in Atlantic City also favorably impacted the quarter.

In addition, he noted that the implementation of a cost reduction program was an important contributor to the company's record first half performance. He noted that selling, general and administrative expenses declined to 48 percent of revenues, from 52 percent one year earlier. He also pointed to Dyansen's strengthened financial position at the end of the quarter. "Increased sales and cash flow has enabled the company to reduce long term debt by $4 million during the second quarter," remarked

Shapiro.

Looking forward, Shapiro stated that the company does not expect the first half performance to be indicative of the results for the remainder of the year. The company's backlog of unfilled orders stood at $10.3 million at the end of the quarter, which should provide momentum for the third quarter. However, new orders for July have been weak as a result of the sluggish economy.

Dyansen is the largest publicly owned retailer of fine art with 90 percent of its revenues being generated at its 14 retail locations throughout the United States.

#90226p5011 08/14/1990 ~PR Newswire

WATERTOWN, MA (AUG. 14) PR NEWSWIRE - American Superconductor Corp. (ASC) today announced an agreement with Inco Alloys International (IAI) for joint development of the metal alloys it uses as a base material in manufacturing flexible ceramic superconductor wires.

IAI, a division of Inco Ltd. (NYSE: N), is the world's largest processor of nickel-based alloys. Materials it develops with ASC (known technically as metallic precursors) are converted into ceramics via ASC's process. Under the right conditions, these ceramics become superconductors -- materials that conduct electricity with no resistance.

ASC's proprietary manufacturing process produces ceramics that, in contrast to their normally brittle form, are highly flexible and still retain their electrical properties. The durability of superconducting wires created in this process means they can be incorporated in a wide variety of applications, such as electric motors or magnetic coils. ASC has manufactured coils purchased by private industry and government organizations.

Funding for the multimillion dollar development work is being provided by Inco Ltd. and its subsidiary, IAI; Inco also has made an equity investment in ASC. Additional details of the agreement were not disclosed.

Under the partnership, ASC and IAI will develop metallic precursors, and will establish worldwide manufacturing operations over the next several years. The arrangement effectively extends a collaborative research effort the two firms established in 1988.

IAI has manufacturing facilities in England and the U.S., and has sales and marketing representation throughout the world to support applications in the aerospace, electronic, marine, power and chemical industries. IAI uses its strong position in technology and materials innovation to expand into new areas of materials and process development to develop new high-value-added business.

American Superconductor Corporation creates and develops materials and manufacturing processes for making flexible ceramic superconducting wires -- a class of materials that are exceptionally efficient at conducting electricity and in producing magnetic energy. ASC manufactures a broad range of ceramic superconductors, marketing them worldwide in the form of wires and electromagnetic coils for use in commercial and defense applications such as electric motors, power cables and magnetic devices.

MT. HOLLY, N.J. (AUG. 14) PR NEWSWIRE - Franklin Electronic Publishers Inc. (NASDAQ-NMS: FPUB) announced today an agreement with the Oxford University Press for the exclusive rights worldwide to publish the Concise

English/Chinese Chinese/English dictionary in hand-held electronic form.

"This agreement marks another step for Franklin in securing the most renowned and authoritative reference works available," said Peter N. Yianilos, president, Franklin Electronic Publishers. "We are honored to enter into another license arrangement with Oxford University Press, and through the license establish ties with Commercial Press, the largest dictionary publisher in mainland China. Franklin's renowned search and retrieval technology will transform the print work into a compact, easy-to-use, all-in-one reference tool."

"The electronic English/Chinese Chinese/English bilingual dictionary will provide definitions, phonetic spelling correction and grammatical information. It will serve well the needs of businesspeople, students and consumers," said Simon Murison-Bowie, director of Electronic Publishing and Development, Oxford University Press.

"Oxford University Press has established a worldwide reputation as the publisher of authoritative reference works and as such is happy to be working with Franklin Electronic Publishers who have demonstrated their concern for and commitment to quality.

"The opportunities provided by electronic reference tools are exciting and we intend to play a full role in developing this market."

Franklin Electronic Publishers Inc. is the creator and leader of the electronic reference product category. With more than 3 million volumes sold throughout the world, Franklin publishes a library of 20 of the world's most accurate, authoritative and scholarly reference products including the popular Spelling Ace(R) spelling corrector, Wordmaster(TM) electronic thesaurus, Language Master(TM) electronic dictionary, Spanish Master/Maestro Ingles bilingual dictionary and electronic Holy Bible. Franklin's publication list is being broadened to include hand-held electronic versions of "The Concise Columbia Encyclopedia" and "Bartlett's Familiar Quotations."

#90226p5019 08/14/1990 ~PR Newswire

LOS ANGELES (AUG. 14) PR NEWSWIRE - Imagine Films Entertainment, Inc. (NASDAQ: IFEI, IFEIU, IFEIW), today announced increased revenues and profits for the third quarter and nine months ended June 30, 1990. Results for both periods were as follows (all amounts in thousands, except per share data):

Selected Financial Data

Three months ended June 30	1990	1989
Net revenues	$14,515	$5,900
Net income (loss)	$420	($231)
Net income (loss) per share	$.08	($.04)
Nine months ended June 30	1990	1989
Net revenues	$36,743	$10,980
Net income (loss)	$1,882	($865)
Net income (loss) per share	$.36	($.16)

Commenting on these results, Brian Grazer and Ron Howard, co-chief executive officers of Imagine, said, "Our third quarter results continue the positive trend from fiscal 1989, with revenues and profits reflecting the exploitation of our first five films, 'The 'Burbs,' 'The Dream Team,' 'Parenthood,' 'Opportunity Knocks,' and 'Cry Baby,' as well as our involvement in other films, including the recent hit comedy, 'Problem Child.' This film, which was produced with Universal Pictures and stars John Ritter and Jack Warden, has grossed over $31 million at domestic theaters in only 17 days of release. We are now in production on two promising films: 'Kindergarten Cop' and 'Backdraft.'"

"Kindergarten Cop," starring Arnold Schwarzenegger, is the story of a tough cop who reluctantly goes undercover as a kindergarten teacher to catch a dangerous killer. The movie is being produced by Brian Grazer and Ivan Reitman, who is also directing. "Backdraft" is a supenseful drama about a young man who joins the Chicago Fire Department to regain the respect of his family and gets involved in the investigation of a deadly arsonist. The film is being directed by Ron Howard and executive produced by Brian Grazer. Kurt Russell, William Baldwin, Scott Glenn, Robert DeNiro, Jennifer Jason Leigh, Rebecca De Mornay and Donald Sutherland are starring in "Backdraft."

Imagine is also involved in a production by Carolco Pictures, "The Doors," a film biography of Jim Morrison and The Doors. The film is being directed by Oliver Stone and executive produced by Brian Grazer.

Imagine Television, L.P., the television production partnership formed with MCA, Inc., in 1988, is currently producing for NBC-TV a half-hour series titled "Parenthood," based on Imagine's critically acclaimed hit motion picture. The series is scheduled to air in the Fall of 1990, with a pilot premiere on Aug. 20. The partnership's innovative late-night talk strip, "My Talk Show," which is scheduled for first-run syndication in Fall 1990, has already been bought by television stations covering over 80 percent of U.S. television households. The program is being produced by the partnership in association with Second City Entertainment and is being distributed by MCA TV.

In addition, the partnership has received a seven-episode commitment from

NBC-TV for an untitled comedy, a pilot commitment from the Fox Broadcasting Company, and a commitment from MTV's newly formed "Ha!" commedy channel for a half-hour comedy sketch variety series featuring the Second City comedy group.

Imagine Films Entertainment is an independent producer of feature films. It also produces television programming through its partnership with MCA, Inc., Imagine Television, L.P. The company was founded in November 1985 by its co-chief executives, producer Brian Grazer and director Ron Howard, and went public in July 1986.

HOUSTON (AUG. 14) PR NEWSWIRE - CRSS Capital, Inc., a majority owned subsidiary of CRSS Inc., (NYSE: CRX), announced that it has executed agreements with G.A.S. Orange Development, Inc. to be managing general partner of Project Orange Associates, L.P., the owner and operator of an 80 MW cogeneration project to be located at Syracuse University. As Managing General Partner, CRSS Capital has agreed to invest up to $35.5 million in equity. Budgeted at a total cost of $210.5 million, the facility will supply 80 MW of electric power to Niagara Mohawk Power Corp. (NYSE: NMK) and steam to Syracuse University. The facility will be built by Becon Construction Company using 2LM-5000 gas turbine generators supplied by Stewart and Stevenson Services Inc. (NASDAQ: SSSS).

The project budget includes a prepurchase of 120,000,000 MMBTU of natural gas from Noranda Inc. which will meet the projects fuel needs for a 16 year period. Noranda will transport natural gas for the project through Canadian pipelines to Niagara Falls, N.Y. Tennessee Gas Pipeline, a subsidiary of Tenneco, Inc., (NYSE: TGT), will transport the project's natural gas from Niagara Falls to Syracuse, N.Y. The Federal Regulatory Commission is currently reviewing the project's natural gas transportation agreements as part of the Niagara Import Point Projects Phase 3 (NIPS 3). Final approval is expected within 90 days.

CRSS Capital also announced that definitive commitments for construction and term financing have been executed with Algemene Bank Nederland N.V. The plant is expected to close financing in the fall of 1990 and will begin Commercial Operation in early 1992.

Houston-based, CRSS, through its subsidiaries, is one of the most diversifies and largest design and construction services companies in the nation. CRSS Capital, Inc., an 85 percent owned subsidiary, currently maintains ownership in five operating power and cogeneration projects aggregating 434 MW and representing a capital investment in excess of $360 million. CRSS has also expanded through its interest in NaTec Resources Inc. into the acid rain pollution control market.

PITTSBURGH (AUG. 14) PR NEWSWIRE - James D. Roy, president of the Federal

Home Loan Bank of Pittsburgh, announced today that Iron and Glass Bank, Pittsburgh, is the first commercial bank in Pittsburgh to join the Federal Home Loan Bank of Pittsburgh.

Prior to the Financial Institutions Reform, Recovery and Enforcement Act of 1989 (FIRREA), Federal Home Loan Bank System membership was limited to traditional home-finance lenders -- thrift institutions, as well as certain types of insurance companies. Post-FIRREA, eligibility was expanded to include commercial banks and credit unions that have a significant commitment to home-mortgage finance. Iron and Glass joins an ever-growing list of commercial banks across the country to become members in the Federal Home Loan Bank System.

To gain entry in the Federal Home Loan Banks, qualifying financial institutions must have at least 10 percent of total assets in residential mortgage loans, satisfy safety-and-soundness criteria, and demonstrate management and lending policies consistent with economical home financing.

Iron and Glass commenced operation as a state-chartered commercial bank in 1871. As of June 30, 1990, total assets were $116 million, with residential mortgage loans amounting to $13 million, 12 percent of total assets. Total deposits were $101 million, and net income was $768,000 for the six months.

Iron and Glass' lending programs include residential, construction, commercial, consumer loans and direct leasing of autos and equipment. Deposits are insured by FDIC. In addition to its main office in Pittsburgh's Southside, Iron and Glass operates four full-service branch offices in Pittsburgh and surrounding communities.

Iron and Glass joins nearly 200 other financial institutions that are stockholders of the Federal Home Loan Bank of Pittsburgh, in the states of Delaware, Pennsylvania and West Virginia. First National Bank of Keystone, Keystone, W.Va., which joined the Pittsburgh bank last month, was the first commercial bank to join, since the passage of FIRREA.

The Federal Home Loan Bank of Pittsburgh, on June 30, 1990, had assets of $5.7 billion. The bank's economical funding and operating services are available to qualifying institutions engaged in residential mortgage financing, including thrifts, banks, credit unions and other financial institutions. Owned by its members, the bank is one of 12 regional banks, which together with the Federal Housing Finance Board, compose the Federal Home Loan Bank System.

LOWELL, MA (AUG. 14) PR NEWSWIRE - Wang Laboratories, Inc. (AMEX: WAN) today announced that Ken Olisa has been elected to the office of senior vice president in charge of operations in Europe, Africa, and the Middle East. Since March 1990, Olisa has served as interim vice president and general manager for Europe, Africa and the Middle East and has been responsible for all sales and marketing activites in these geographic areas.

Richard W. Miller, chairman and chief executive officer, said, "Since I joined Wang last August, I have asked Ken to help in three important areas of our business: initially, as head of worldwide marketing, then as head of our newly organized applications engineering group, and since March, as head of our Europe, Africa, and Middle East theater. In each of these roles, Ken has performed well. Additionally, last December he led the roll-out of Wang's new technology strategy entitled "Innovation on Standards".

"Ken's promotion to senior vice president is in recognition of these important contributions. I believe that Ken is already off to an excellent start as head of our Europe, Africa, and Middle East operations and I am confident of his future success in that role."

Olisa said, "The European, African, and Middle Eastern markets are being transformed as a result of wholesale social, political, and economic change. Wang Laboratories is prepared to provide our cusotmers in these regions the information processing solutions they will need to maintain

their competitive advantage in a dynamic and volatile world."

Prior to his current assignment, Olisa served as vice president for applications engineering, the organization that develops specialized applications and solutions for customers in key industries that Wang serves, and as vice president for U.S. and then worldwide marketing. Olisa has also been district sales manager for London, United Kingdom marketing manager, and director of marketing for Europe, Africa and the Middle East.

OKLAHOMA CITY (AUG. 14) PR NEWSWIRE - Hadson Corporation (NYSE: HAD) today announced the pending sale of its two subsidiaries involved in the defense electronics business (HRB Systems, Inc., and Ultrasystems Defense, Inc.). Therefore, in accordance with generally accepted accounting principles, Hadson is treating these businesses as discontinued operations and has recorded the loss estimated upon completion of the sales. This accounting treatment results in a loss for the three months ended June 30, 1990, of $146,758,000. This amount includes losses of $1,050,000 related to the operations of the defense companies and an estimated loss of $142,529,000 from the sale of the companies.

Hadson is currently negotiating the sale of Ultrasystems Defense, Inc. In addition, Hadson has also recently received bids for the purchase of HRB Systems, Inc., and is currently evaluating those bids. Both of these transactions are subject to the negotiation of definitive agreements; however, Hadson hopes to close both transactions within the next 90 days.

Results from continuing operations amounted to a loss of $3,179,000 on revenues of $106,511,000 for the second quarter of 1990 as compared to earnings of $79,000 on revenues of $130,206,000 for the same period of 1989. For the six months ended June 30, 1990, the loss from continuing operations amounted to $1,763,000 on revenues of $245,004,000 vs. earnings of $1,584,000 on revenues of $314,638,000 for the first six months of 1989.

Hadson president and chief operating officer, J. Michael Adcock, said, "The sales of the defense units are a very important step in Hadson's program to reduce long-term debt and concentrate on our core energy businesses. Given the current defense market environment, we are very pleased with the results of the sales process. Despite the losses we are currently recognizing, these transactions will position Hadson as a stronger and more stable company. Even though Hadson now has a negative book equity, the tangible book-value of Hadson has increased because of the write-off of the goodwill related to the defense companies."

Hadson Corporation is an independent producer and supplier of energy products as well as an electric power services firm. Hadson has operations in natural gas and gas liquids; the development, construction, operation and ownership of electric power generation facilities.

MINNEAPOLIS (AUG. 14) PR NEWSWIRE - Analysts International Corporation (NASDAQ: ANLY) today reported record net income of $5,991,000, up 21 percent from the previous year's $4,954,000. Net income amounted to $1.29 per share, compared with $1.09 per share in the previous fiscal year.

Revenues were a record $107,843,000, compared with $89,852,000 in 1989, a gain of 20 percent.

"We continued to emphasize internal growth during the year, with the result that most of our gains came from expanded market share in our existing markets," said Frederick W. Lang, chairman and chief executive officer. "We also established four new branches during the year, extending our branch network to 22 cities."

Lang said the company's pre-tax margin was basically unchanged at 9.2 percent for the year. He also said the company's staff, most of whom are billable technical personnel, expanded to 1,700 at year end, up from 1,500 a year earlier.

In the fourth quarter, the company earned $1,835,000, equal to 39 cents per share, compared with 1989's $1,491,000, equal to 33 cents per share. The fourth quarter pre-tax margin was 10.4 percent, as compared with 9.9 percent in 1989. Revenues were $28,737,000, up from $24,668,000 in the fourth quarter of the previous year.

Analysts International Corporation is a Minneapolis-based computer software services company.

LIVINGSTON, N.J. (AUG. 14) PR NEWSWIRE - William P. Tuggle, III, has assumed the position of chairman and chief executive officer of the Howard Savings Bank (NASDAQ: HWRD).

Tuggle was selected for the top job at the Howard on July 23 by the board of directors. His appointment has been approved by the Federal Deposit Insurance Corporation (FDIC), the regulatory authority that supervises state-chartered savings banks.

The Howard's new chairman was previously a director, president and chief executive officer of First Fidelity Bank, N.A. of New Jersey, where he was also a director and senior executive vice president of the parent company, First Fidelity Bancorporation.

Commenting to Howard employees today, Tuggle said that he is pleased and excited about joining the bank and is eager to face the challenges and opportunities ahead.

"These are difficult times for the Howard and for the financial service industry in general given the state of the economy today, especially the real estate markets," he told the bank's 1,500 staff members, adding "it is our job to take whatever steps are necessary to return the bank to profitability."

Tuggle said that it is important to continue building on the bank's strengths -- its branch system, good name and the expertise and dedication of employees.

"Having been active in the New Jersey banking business for a number of years," he commented, "I can tell you that the Howard's name has long been synonymous with quality and integrity, and I believe it is our responsibility, yours and mine, to continue that fine record of service."

WALTHAM, MA (AUG. 14) PR NEWSWIRE - Tecogen Inc. (AMEX: TGN) has received a $700,000 order to convert 10 California school buses to compressed natural gas (CNG). The bus chassis will be modified to operate with CNG tanks and the Tecodrive(tm) 7000 natural gas-fueled engine.

The ongoing program to develop these buses has been sponsored by the California Energy Commission and a consortium of California utilities including Southern California Gas Company, San Diego Gas & Electric, and Pacific Gas & Electric Company. The bus chassis have been supplied by General Motors, and the bus bodies will be assembled by the Blue Bird Body Company, the country's largest manufacturer of school buses.

This program is part of a statewide effort in California to replace older school buses with safer, cleaner vehicles. These buses are expected to begin actual service in early 1991, carrying students in several different California school districts.

"We are very please to have received this order as a follow-on to the CNG work we have already completed on two other school buses," said Dr. Ravinder K. Sakhuja, president and chief executive officer of Tecogen. "Those buses are now being readied for additional testing with one on the way to Buffalo, New York, and the other to California for further emissions testing."

Tecogen Inc. manufactures, markets and services packaged cogeneration and commercial cooling systems fueled principally by natural gas. The company also conducts research and development on low-emission natural gas engines for vehicles; pump, compressor, and electric generator drives; as well as advanced systems for clean-coal combustion and other high-efficiency gas-fueled devices. Tecogen is a public subsidiary of Thermo Electron Corporation (NYSE: TMO).

#90226p5037 08/14/1990 ~PR Newswire

WASHINGTON (AUG. 14) PR NEWSWIRE - The following was issued by the Communications Workers of America:

Members of the Communications Workers of America (CWA) Local 2177, employed by Western Union, will hold a demonstration at the company's District of Columbia office located at the corner of 14th and H streets N.W. today, Tuesday, Aug. 14, from 11 a.m. until 2 p.m.

The union members are protesting the company's lock-out of 2,500 employees in a contract dispute and its hiring of replacement workers. Local 2177 represents about 150 Western Union workers in D.C., Maryland, Virginia and West Virginia.

Western Union is attempting to thwart the collective bargaining process by "selectively" locking-out employees. As a result, CWA filed unfair labor practice charges with the National Labor Relations Board on Monday (Aug. 13).

"The union has done everything possible to attempt to reach a reasonable and equitable settlement," maintained CWA President Morton Bahr. "But the company, acting in a bizarre and reckless manner, has frustrated efforts on our part to reach an agreement and is costing its shareholders millions in lost business."

The union contract covering some 2,500 Western Union employees expired at midnight on Aug. 6. CWA and the company continued to bargain past the contract expiration. The union laid out a proposal at the bargaining table early on Friday evening, but rather than responding to the proposal, the company told the union that within minutes employees would be locked-out.

"We were working towards a settlement when Western Union management acted in this totally irresponsible and inappropriate manner," Bahr said. "They have tossed out hundreds of skilled, dedicated, experienced workers

and brought in a group of minor leaguers, with a few hours of training who flat-out don't know how to do the jobs. The lost business will cost this company millions."

Part of the union's charges stem from the fact that the company has imposed a "selective" lock-out. Not all employees have been temporarily replaced. Service and business representatives, administrative clerks and a handful of technicians have been kept on the job.

"This idea of a 'selective' lock-out adds a whole new dimension to labor/management relations," Bahr declared. "From day-one they have issued a series of ultimatums and that's not how the collective bargaining process works. But we have stayed at the table and on the job in an effort to work this out and are prepared to continue to do so."

WILMINGTON, DEL. (AUG. 14) PR NEWSWIRE - Airgas Inc. (NYSE: ARG) has announced that it entered into a new $165 million senior bank credit agreement.

The new credit agreement replaces the prior $100 million bank credit agreement and will be used to fund the company's acquisition program and working capital.

Peter McCausland, chairman and chief executive officer, stated, "The strategic acquisition program is accelerating and the new revolving credit agreement will handle this increased activity."

Airgas has acquired more than 50 industrial gas distributors since March 31, 1988, with annual sales of approximately $200 million.

Airgas Inc., with annual sales of approximately $320 million, is the largest independent distributor of industrial, medical and specialty gases in the United States with more than 225 locations in 29 states and Canada.

NEW YORK (AUG. 14) PR NEWSWIRE - Handy & Harman (NYSE: HNH) today announced results for the second quarter and first half of 1990.

Earnings for the quarter ended June 30, 1990 were $2,494,000, or $.18 per share. In the same 1989 period, Handy & Harman reported earnings of $2,478,000, or $.18 per share. Sales for the quarter were $148,661,000 versus a restated $151,948,000 in the same three months of 1989.

For the first half of 1990, Handy & Harman had earnings of $4,983,000 or $.36 per share, versus $5,402,000, or $.39 per share, in the comparable first half of 1989. Sales were $289,313,000 compared to a restated $313,305,000 for first half of 1990.

Sales for both the 1989 and 1990 periods were restated reflecting the June 1, 1990 transfer of the automotive replacement segment to a 50/50 joint venture partnership named GO/DAN Industries.

Handy & Harman, a leading fabricator, processor and refiner of precious metals, also produces a variety of specialty metal products for industrial uses through over thirty subsidiaries here and abroad. Founded in 1867, Handy & Harman is headquartered in New York.

#90226p5046 08/14/1990 ~PR Newswire

WHITE PLAINS, N.Y. (AUG. 14) PR NEWSWIRE - Texaco Inc. (NYSE: TX) announced today that its subsidiary, Texaco Petroleum Development Company, has signed an agreement on principles of cooperation with the Ministry of Geology of the Soviet Union for proposed joint participation in the exploration, development and production of hydrocarbons -- including development of areas of identified and established oil reserves -- onshore the Soviet Union.

Texaco anticipates beginning a feasibility study this summer, focused on some areas of the Timan-Pechora region. This region is located in the Northern European part of the Soviet Union. These areas have high prospects for exploration, and the development of oil and gas fields with reserves estimated to be well in excess of five billion barrels of oil. Texaco is studying information provided by the Ministry relating to the oil and gas resources of these areas and their infrastructure.

Negotiations would also proceed toward detailing a joint venture project for this region. Exploration and development in the proposed joint venture would be carried out primarily by the Soviet personnel, supplemented by Texaco technical experts.

The new "agreement for principles of cooperation" is broad in scope and also provides for study of potential operations in other regions of the Soviet Union.

"Texaco has an interest in pursuing the many business opportunities emerging in the Soviet Union," said Paul B. Hicks, Jr., president of

Texaco Europe. "The Timan-Pechora region holds significant potential for early production, and for the ultimate development of world-class fields."

As part of the agreement, Texaco will organize seminars for specialists of the Ministry of Geology, dealing both with technical and economic aspects of exploration and development of oil and gas deposits.

On May 24, 1990, Texaco announced that its subsidiary, Texaco Europe Research Inc., signed an agreement for research cooperation with VNIIZARUBEZHGEOLOGIA, the All-Union Research Institute of the Ministry of Geology of the Soviet Union. As part of that agreement, Texaco and Institute personnel will process geophysical and geological data for the assessment of oil and gas potential in Soviet and other basins.

The agreement announced today together with the agreement for research cooperation with VNIIZARUBEZHGEOLOGIA, which specifically provided for the delivery and installation of computer facilities in VNIIZARUBEZHGEOLOGIA's new Moscow building, are important steps in developing cooperation between Texaco and Soviet geological organizations.

ORLANDO, FLA. (AUG. 14) PR NEWSWIRE - RoTech Medical Corporation (NASDAQ-NMS: ROTC), a marketer and distributor of home care products, announced its signing of the agreement of purchase between itself and American Medical Technologies, Inc. Such agreement, made pursuant to a letter of intent signed June 1, 1990, is for purchase of substantially all of the assets of American Medical Technologies, Inc.

The primary asset acquired is a home infusion company headquartered in Houston, which has service locations in Houston, Dallas and Beaumont, Texas; Philadelphia; Reno, Nev. and Longwood, Fla; Its net revenues for the year ended Dec. 31, 1989 were in excess of $6 million.

The agreement of purchase, which is subject to regulatory approval and the approval of American Medical Technologies, Inc.'s shareholders, calls for an initial payment of 675,000 shares of RoTech Medical Corporation common stock. In addition, the agreement provides for additional shares to be issued if certain performance levels are obtained for the periods ending July 31, 1991 and 1992.

It is anticipated that with this acquisition, home infusion annual net revenues for RoTech Medical Corporation will exceed $10 million and will represent over half of the total net revenues for RoTech Medical

Corporation. This acquisition by RoTech Medical Corporation and its continued expansion and growth in the home infusion market, reflect RoTech Medical Corporation's commitment to home infusion therapy.

#90226p5048 08/14/1990 ~PR Newswire

MINNEAPOLIS (AUG. 14) PR NEWSWIRE - MEI Diversified Inc. (NYSE: MEI) today announced a net loss for the second quarter ended June 30, 1990 of $2,279,000 or $.12 a share, compared with a net loss of $1,350,000 or $.07 a share for the 1989 quarter. Second quarter sales were $42,196,000 in 1990 and $47,872,000 in 1989.

The six-month 1990 period had a net loss of $6,820,000 or $.36 a share compared with a net loss of $3,717,000 or $.19 a share for the first six months of 1989. Sales for the six months were $86,865,000 in 1990 and $91,781,000 in 1989.

As announced in early June the company completed sale of its Candy and Snack Group to Ezaki Glico, Co., Ltd., an Osaka, Japan- based company. The cash sale proceeds approximated $58 million and resulted in a $1,086,000 second quarter gain.

MEI will own 80 percent of the outstanding stock of the acquiring entity which will include The Glemby Company, Inc. and Subsidiaries, headquartered in New York; Essanelle Salon Co. and Maxim's, both located in Minneapolis. The remaining 20 percent of the acquiring company will be owned by Regis Corporation and affiliates, Minneapolis, the current owners of both Essanelle and Maxim's. Regis Corporation is a privately owned company, which owns and operates hairstyling and hair care salons throughout the United States and Canada, predominantly in shopping malls and department stores.

The three combined companies will have sales of approximately $400 million annually and will operates salons in the United States and Canada. The total purchase price for the combined companies will approximate $50 million cash plus the assumption of certain liabilities of the acquired entities. The initial financing will come from existing MEI company cash with refinancing with lending institutions to be subsequently arranged.

The acquisition is subject to completion of definitive agreement for each acquisition. The company anticipates consummation of the acquisition in 3rd qtr. 1990.

In addition, it was recently announced that MEI and LecTec Corporation (NASDAQ: LECT) ceased negotiations concerning an MEI investment in LecTec

as an alternative to an earlier announced MEI and LecTec plan of merger. Under the terms of the November 1989 financing provided by MEI to LecTec to acquire New Dimensions in Medicine, a unit of Baxter HealthCare Corporation, ownership of New Dimensions in Medicine will be transferred to MEI. The transfer will occur in third quarter 1990 upon formal execution of a settlement agreement.

#90226p5049 08/14/1990 ~PR Newswire

LAWRENCEVILLE, NJ (AUG. 14) PR NEWSWIRE - In a month in which nine casinos reported a drop in gross revenues, the casino industry posted the second best month in its New Jersey history.

The 12 casinos reported a "win" of $286,751,520 during July, a slight decrease from the $288,434,062 recorded in July, 1989. "Win" is the amount which the casino retains after all bets have been paid off but before operating expenses and other extraordinary costs have been paid. "Win" does not represent profit.

The state collected $22,603,755 in taxes during July to defray the cost of programs for senior citizens and handicapped persons. Thus far this year the state has collected $135,749,343.

Programs funded by the casino taxes include real estate tax rebates, lifeline assistance programs, transportation aid, pharmaceutical assistance, and various programs for shut-ins.

Thus far this year the industry has reported gross revenues of $1,719,498,713, a 3.9 percent increase over last year's $1,654,429,196 for the first seven months of the year.

During July, Taj Mahal reported revenues of $39,955,672 and reported that its "win" exceeded $1 million on 22 separate days during the month. Claridge and Sands were the only other casinos to register improvement compared with last July. Claridge grossed approximately $1.4 million more this year and Sands about $300,000 compared with last year.

Others reported revenues as follows: Caesars, $29,783,279 ($32,758,979); TropWorld, $26,250,749 ($31,584,935); Bally's Park Place, $25,339,018 ($28,812,423); Harrah's Marina, $24,127,822 ($29,267,290); Showboat, $23,410,698 ($25,565,578); Trump Plaza, $23,398,060 ($30,656,629); Sands, $21,411,719 ($21,151,506); Resorts International, $20,943,879 ($24,045,007); Trump Castle, $20,831,185 ($29,717,872); Bally's Grand, $18,118,254 ($23,130,700) and Claridge, $13,181,185 ($11,743,143).

The daily average for July was $9,250,049 compared with $9,304,325 for July of last year.

#90226p5050 08/14/1990 ~PR Newswire

NEW YORK (AUG. 14) PR NEWSWIRE - "If you're a panhandler on the streets of New York City, you have a tougher life than your counterpart in L.A. -- you're outnumbered, it's harder to make money and people are more indifferent." This according to Los Angeles psychologist and researcher Robert R. Butterworth, Ph.D., who dressed as a bum and began Sunday to panhandle in various sections of New York to study people's reactions to beggars.

From families on a picnic in Central Park to businessmen on the way to work on Wall Street, similar patterns are evident. Due to the high number of panhandlers in New York, people have become desensitized and indifferent to beggars. "Asking for a nickel, I was able to get an average of one donation every hour in New York, compared to every fifteen minutes in L.A. -- beggars make less money in New York," said Butterworth. Although New Yorkers are more indifferent to panhandlers, they are also less hostile and not as likely to tease or make fun of people panhandling than their counterparts in L.A. Both in New York and L.A., panhandlers do not live the good life, unable to make minimum wage in either city.

Butterworth, who has been begging by day and sleeping in his rented car by night, will wind up his study this evening.

#90226p5051 08/14/1990 ~PR Newswire

DALLAS (AUG. 14) PR NEWSWIRE - J. C. Penney Company, Inc. (NYSE: JCP), reported today that net income in the second quarter amounted to $83 million, or 63 cents per share, down from $98 million, or 74 cents per share, in the same period in 1989.

For the first half ended July 28, 1990, net income totaled $237 million, or $1.84 per share, up from $226 million, or $1.71 per share, in the comparable period a year earlier. In 1989, earnings were impacted by a nonrecurring after tax charge of $20 million, or 16 cents per share, for discontinuing an interactive television shopping service.

"The underlying factor in the 15 percent decline in second quarter

earnings was the relatively low level of overall consumer demand," according to William R. Howell, chairman of the board. The slowdown in economic activity, he said, has had a particularly negative impact on JCPenney's sales in the Southeast and Midwest. "In addition," he noted, "as we bring our merchandise in line with an appropriate department store mix, we are temporarily giving up some volume in conservative women's sportswear.

"Neither the refining of our merchandise mix nor the costs associated with the development of new specialty businesses would be particularly felt," Howell said, "if the economic climate were more favorable. At the same time, it's important to keep in mind that these activities are essential components of our strategic repositioning process."

For the second quarter, JCPenney store and catalog gross margins were on a par with those of the prior year's period. This performance, however, was more than offset by lower margins from drug store operations and custom decorating services.

Selling, general, and administrative expenses, as a percent of retail sales, increased in both periods as a result of the lower than expected consumer demand.

Revenue and income from the company's other businesses, principally the life insurance and banking operations, were at record levels in the quarter and first half.

Looking to the future, Howell said, "One cannot ignore the significant decline in the level of consumer confidence from a year ago. Adding to the uncertainty of the outlook is the present Mideast crisis and resulting rising energy prices, which could have a negative effect on consumer spending. We will continue to keep a tight rein on costs and a close watch on inventory levels."

#90226p5053 08/14/1990 ~PR Newswire

RIVIERA BEACH, FLA. (AUG. 14) PR NEWSWIRE - Consulier Engineering, Inc. (NASDAQ: CSLR) (the "company") (formerly Consulier Industries, Inc.) of Riviera Beach, Fla., announced net income of $180,294 or $.01 per common share for the quarter ended June 30, 1990 which compares to a net loss of $693,944, or $.02 per share, for the three months ended June 30, 1989.

Results of operations for the six month period ended June 30, 1990, showed a net loss of $572,955 or $.02 per share as compared to a loss of $1,191,942 or $.04 per share for the six month period ended June 30, 1989.

Additionally, the company noted that continuing operations for the six month period ended June 30, 1990 showed a net profit of $120,111.

The company pointed out that with respect to the quarterly and six month results, the company's automobile business was predominant in all of calendar year 1989. Accordingly, virtually the entire loss for the three and six months periods ended June 30, 1989 was directly related to automobile operations. Conversely, since the automobile business was sold on March 31, 1990, the three month period ended June 30, 1990, did not include any automobile activity.

Consulier Engineering, Inc.'s common stock and warrants trade on the over-the-counter market under the NASDAQ symbols CSLR and CSLRW, repsectively.

#90226p5061 08/14/1990 ~PR Newswire

LITTLETON, COLO. (AUG. 14) PR NEWSWIRE - Bingo King Co. Inc. (NASDAQ: BNGO) today reported that in the six months ended June 30, 1990, the company earned net income of $756,000 or 25 cents per share on pre-tax earnings of $1,310,000 and sales of $19.4 million. This compares with net income of $560,000 or 18 cents per share on pre-tax earnings of $907,000 and sales of $17.1 million for the like period in the prior year.

For the second quarter ended June 30, 1990, the company earned net income of $406,000 or 13 cents per share on pre-tax earnings of $706,000 and record quarter sales of $9.8 million. This compares with net income of $282,000 or 9 cents per share on pre-tax earnings of $458,000 and sales of $8.8 million for the like period in the prior year.

Leonard A. Stuart, chairman and chief executive officer of Bingo King, stated that "the strong performance during the first six months of 1990 was primarily the result of the successful implementation of a program formulated in late 1989 and early 1990 designed to revitalize the company by increasing market penetration, generating manufacturing efficiencies and controlling selling, general and administrative expenses." One aspect of this program was a decision to de-emphasize the company's retail business and concentrate on the continued development and expansion of sales through its national network of distributors. Stuart noted that

"Bingo King has addressed this goal by selling a number of its retail outlets during the second and third quarters of 1990 to existing distributors or to individuals who have become members of Bingo King's distributor network." Stuart added that "the sale of the majority of its retail branches will enable Bingo King to focus its attention on its more profitable wholesale operations." No appreciable gains or losses were recognized on the sale of these branches.

Stuart also emphasized the strong positive cash flows generated by Bingo King during the first six months of 1990 which have enabled Bingo King to significantly reduce its indebtedness. Stuart expressed his belief that "with incoming orders remaining substantial Bingo King should be able to continue to generate strong earnings and significant positive cash flows."

Stuart closed by stating that "although the Bingo industry remains highly competitive we at Bingo King are very optimistic that the company can continue to improve upon prior year performance during the remaining six months of 1990."

Bingo King is the leading manufacturer of supplies and fund raising products associated with the game of bingo.

PITTSBURGH (AUG. 14) PR NEWSWIRE - Mellon Bank (NYSE: MEL) emphasized its continuing commitment to the corporation's service products businesses by announcing today a partnership agreement with Software Alliance Corp., which will develop proprietary software for InFiServ, thus further enhancing the product features of this state-of-the-art trust management system developed by Mellon.

Under the agreement, Mellon will continue to service InFiServ's existing and new service bureau customers, as well as existing in-house (license) customers. (Service bureau customers use Mellon's computer system for InFiServ, and license customers run InFiServ software on their own computer systems.) Software Alliance is a leading financial systems integrator and software developer and will be responsible for the marketing and client service (i.e., installation, maintenance and administration) of InFiServ for future license customers. In addition, Software Alliance will contribute significant development resources to

InFiServ. Mellon will own all software that is developed and make the software available to all InFiServ customers. Mellon plans to install InFiServ and the software developed by Software Alliance in its own personal trust department.

Developed in 1989 by Mellon Fiduciary Services Group, InFiServ is an IBM mainframe trust accounting system using state-of-the-art Computer Aided Software Engineering (CASE) tools, Structured Code and Data Base Technology. InFiServ operates as a service bureau or under an in-house licensing agreement. Mellon's InFiServ system is currently used by some 100 banks throughout the country, providing service to approximately 150,000 of their customers' accounts.

Software Alliance is a leading independent provider of consulting, integration services and software, serving financial institutions of all sizes. The company has extensive experience in trust and securities systems and in support services for in-house systems projects. Headquartered in Berkeley, Calif., the company has nine regional offices throughout the United States. Software Alliance is an affiliate of Teknekron, a $200-million group of technology companies.

The newly formed Financial Institution Services Department, part of Mellon's Service Products Area, provides a wide range of services -- such as trust accounting, financial data processing, electronic funds transfer processing, merchant card processing and securities transfer -- to banks, S&Ls, credit unions and other financial institutions. Service Products, one of Mellon's three core businesses, earned $151 million in 1989. In addition to Financial Institution Services, this business segment also includes the newly created Technology Products Department and the Trust and Investment Department, one of the largest trust operations in the United States.

#90226p5068 08/14/1990 ~PR Newswire

CHICAGO (AUG. 14) PR NEWSWIRE - First Chicago Corporation (NYSE: FNB) said it has established a new group that will offer advisory services and provide equity investments for the restructuring of financially distressed companies.

The restructuring advisory department will be headed by Lawrence Fox, a 23-year veteran of First Chicago. Other senior advisers to the group are Geoffrey McConnell and Peter Sweet.

The formation of the restructuring advisory department comes at a time when a growing number of the nation's businesses are in need of financial

engineering.

"Business failures increased by nearly 400 percent between 1980 and 1989 and that number will continue to rise during the nineties," said Fox. "Some of these will be companies that underwent leveraged buyouts and are now finding it difficult to service their debt. Other companies are being squeezed by the slowdown in the overall economy."

One distinguishing feature of the group will be its ability to invest equity into those companies that are in the process of being restructured. The group will be looking at transactions that require an investment of at least $10 million.

The restructuring advisory group will also work with the creditors of financially troubled companies, protecting their exposures, securing their positions when customers start encountering financial difficulties, and liquidating portfolios of distressed assets.

First Chicago's restructuring department will help corporate customers negotiate solutions to their financial problems, avoiding bankruptcy filings when possible. While management struggles with day-to-day issues, the restructuring advisory department will gear the company towards long-term survival.

"Without external support it is almost impossible for corporate management to separate managing the crisis from managing the business," Fox said.

Target companies for the debtor side of the advisory business are those with debts exceeding $50 million. Target creditors will be those with more than $50 million in identified problem loans. Particular industries where First Chicago has specific expertise are retailing, communications, finance companies, real estate, energy, transportation, health care, mortgage banking and insurance companies.

First Chicago will not act as an advisor in those situations where it is a lender to the corporation.

First Chicago Corporation, with $50.4 billion in assets, serves large corporations and international customers through its global corporate bank. Its superregional bank provides a national bankcard and community banking, and offers banking services to middle market corporations.

MINNEAPOLIS (AUG. 14) PR NEWSWIRE - Aequitron Medical, Inc. (NASDAQ/NMS:

AQTN) announced today it has achieved record quarterly sales and record first quarter earnings for the three months ended July 31, 1990. The company reported net income of $386,600, or $.08 per share, on sales of $6,883,300 for the first quarter of fiscal 1991. This compares to earnings of $295,700, or $.06 per share, on sales of $6,246,600 for the same period last year.

Aequitron President and CEO Curtis J. Olson stated, "We are pleased that we are beginning fiscal 1991 on such a strong note. Sales for the quarter in each of our three main product groups exceeded last year and we remain committed to emphasizing product diversity as we plan for future growth."

Olson stated that during the first quarter the trend continued toward increased demand of Aequitron's top-of-the-line memory monitors. In addition, increased ventilator sales and higher than expected sales from the company's Crow River Industries subsidiary contributed significantly to the highest quarterly sales in Aequitron's history, according to Olson.

The record first quarter earnings resulted not only from increased sales but also from reduced operating expenses as a percentage of sales and lower interest expenses. "In addition, our Crow River subsidiary experienced substantial earnings improvement for the quarter," said Olson.

The company says it plans to begin shipments during the second quarter of two new products which were recently introduced to the marketplace. "We will begin shipping the Model 9101 Multi-channel Recording and Analysis System and the new Transgater Gravity-down Wheelchair Lift," Olson stated. "Also, we will begin manufacturing and shipping our newly acquired oxygen concentrators under the trade name 'Silent Partner' in the second quarter." The level of customer interest expressed for all of these new products is high, he said.

Aequitron Medical, Inc. designs, manufactures and markets electronic products for home health care and hospital use; and wheelchair lifts and automobile hand controls for the mobility impaired.

AUSTIN, TX (AUG. 14) PR NEWSWIRE - American Physicians Service Group, Inc. ("APS") (NASDAQ: AMPH), today announced results for the second quarter of 1990. For the three months ended June 30, 1990, revenues declined to $3,355,000 from $3,811,000 in the year-ago period. Net earnings amounted to $69,000 or $0.01 per share, vs. $393,000 or $0.08 per

share in 1989.

For the first six months, APS reported revenues of $6,115,000 vs. $7,279,000 in 1989. A net loss of $165,000 or $.03 per share compares to income of $810,000 or $.16 per share in 1989.

Expected losses at the company's 42 percent owned affiliate, Prime Medical Services, Inc. ("Prime"), contributed to the lower earnings as did lower interest income resulting from the purchase for cash of the interest in Prime in the fourth quarter of 1989. Ken Shifrin, APS chairman and chief executive officer, stated, "Prime's development continues on-track. Operational and administrative progress is encouraging and should begin producing improved results as we approach year-end." Prime is a leading provider of non-medical management services for seven diagnostic imaging centers and 47 cardiac rehabilitation clinics.

Bill Hayes, vice president-finance, said, "Lower sales, particularly at our insurance management subsidiary, have been the cause of lower earnings in 1990, but we expect plans implemented earlier to begin to have a positive effect on the sales trend." He cited the improved financial condition of the managed insurance companies, two recently signed contracts at the software company, and expansion of the brokerage business as results of these plans.

APS is a financial services firm, with subsidiaries and affiliates that provide: management of medical malpractice insurance companies; third party medical and dental administration services; brokerage, financial planning and investment services to individuals and institutions; computer systems for large medical clinics and university medical schools; Hispanic yellow page directories; and management of cardiac rehabilitation and diagnostic imaging centers through its Prime Medical affiliate. Its corporate headquarters are located in Austin, with regional offices in San Antonio, Dallas and Little Rock.

DALLAS (AUG. 14) PR NEWSWIRE - BSN Corp. (AMEX: BSN) today announced that its consolidated July revenues, including inter-company activity, set a single monthly record for the company reaching $10.3 million creating estimated operating profits of $705,000 vs. last years $248,000. The company stated that it appears that August revenues will equal or exceed July's results and that it would represent the third consecutive month that revenues reached the $10 million level.

BSN, the nations largest supplier of sports equipment to the institutional markets, said that its primary businesses have historically benefited from economic slowdowns as its customers tend to redirect a larger percentage of their purchases from traditional sources to BSN. BSN stated that due to its expanding revenues, earnings and cash flows that it now anticipates its year end cash positions to be in excess of $10 million as compared to $2.1 million at year end 1989.

#90226p5082 08/14/1990 ~PR Newswire

LUMBERTON, N.C. (AUG. 14) PR NEWSWIRE - In separate meetings Thursday, the shareholders of Western Carolina Savings and Loan of Valdese and Mutual Federal Savings and Loan of Elkin voted to approve the merger of their companies with Southern National Corporation (NASDAQ-NMS: SNAT), a multi-banking holding company.

The two S&Ls will retain their identities and continue to operate under their own boards. The mergers will be consummated Aug. 31.

In a related development, S&L Chief Executive Officers Walter Church, Sr. of Western Carolina and Joe Harris, Sr. of Mutual Federal have been named vice chairmen of Southern National Savings Corporation. They will report to the chief executive officer of Southern National Corporation.

"Both of these companies are among the most profitable and highly capitalized S&Ls in the state," said Chairman Hector MacLean. "They have been consistent, high performers and have not had the kind of problems that are apparent in the industry."

Western Carolina, with offices in Morganton and Hildebran, has approximately $90 million in assets. Mutual Federal joins Southern National with approximately $130 million in assets with branches in Yadkinville and Dobson. Both S&Ls represent new markets for Southern National.

Southern National, with $3.1 billion in assets, is parent company to the state's sixth largest bank, Southern National Bank of North Carolina. Headquartered in Lumberton, Southern National has more than 2,000 employees with 142 banking offices in 72 cities and communities in the Carolinas.

Church brings to Southern National 33 years of banking experience. He started his career as an internal auditor with Tallahassee Bank and Trust Company in Tallahassee, Fla. before moving back to his home in Valdese in 1964. He was named president and chief executive officer of Western

Carolina in 1973.

Harris, in addition to his duties as head of Mutual Federal, is a town commissioner in Elkin. He is past president and director of the Kiwanis and past director of the Surry County Economic Development Commission.

#90226p5085 08/14/1990 ~PR Newswire

NEW YORK (AUG. 14) PR NEWSWIRE - The LVI Group Inc. (NYSE: LVI), today reported that the company continued to improve operating level profits, earning $171,000 for the three month period ended June 30, 1990 before interest and amortization, as compared to a loss of $293,000 for the three month period ended June 30, 1989.

The net loss applicable to common stock of $2,820,000 or $.15 per share on revenues of $85,010,000 for the quarter ended June 30, 1990 compares to a net loss applicable to common stock of $1,049,000 or $.08 per share on revenues of $120,160,000 for the comparable period in 1989. Included in the results for the second quarter of 1989 is a gain on early extinguishment of debt amounting to $2,893,000 or $.14 per share. An extraordinary gain of $60,000 for the second quarter of 1990 had no material effect on per share earnings. For the quarters ended June 30, 1990 and 1989, there were 21,381,000 and 20,133,000 weighted average number of common shares outstanding, respectively.

For the six months ended June 30, 1990, the company's operating level profits were $224,000 before interest and amortization, as compared to a loss of $2,008,000 for the six month period ended June 30, 1989.

The net loss applicable to common stock of $3,804,000 or $.22 per share on revenues of $181,446,000 for the first six months of 1990, compares to a loss of $5,317,000 or $.31 per share on revenues of $234,009,000 for the comparable period in 1989.

THE LVI GROUP AND SUBSIDIARIES
Condensed Consolidated Statement of Operations
(Unaudited)

#90226p5087 08/14/1990 ~PR Newswire

LOS ANGELES (AUG. 14) PR NEWSWIRE - Syncor International Corp. (NASDAQ: SCOR) today announced that increased market penetration and improved operating efficiency enabled the company to achieve record sales and earnings for the fiscal year and fourth quarter which ended May 31, 1990.

Gene McGrevin, Syncor's president and chief executive officer said, "Syncor has established itself as the premier company in nuclear and high technology pharmacy services. This is our fourth consecutive quarter of record sales and earnings. Our market share is expanding, and we are

continuing to improve our profitability."

For fiscal year 1990, sales increased 14 percent to $129.8 million, up from $113.9 million last year. Net income was a record $3.6 million, or 35 cents per share, up from $433,000, or 4 cents per share in the prior year. Income before extraordinary item, the utilization of a net operating loss carryforward, was a record $3.3 million, up from $192,000 last year. For the fourth quarter, sales increased 15.3 percent to $35.8 million, up from $31.0 million in the quarter a year ago. Net income increased to $765,000, or 8 cents per share, up from $107,000, or 1 cent per share in the fourth quarter of fiscal 1989.

Syncor's financial position continues to remain strong with working capital of $17.3 million, a current ratio of 1.8 to 1, and long-term debt to equity of 0.24 to 1.

"The current year's success is the result of our renewed focus on profitable operations and strategic growth," McGrevin noted. "At the end of last year and the beginning of this year, we restructured our management and operating efficiencies while instituting general price increases.

"During the year we made significant investments in a number of key programs including strengthening our marketing and sales organization and upgrading our management information systems. These programs are contributing significantly to our improved results. We plan to continue to invest in critical business areas in order to achieve our goals of providing the highest quality services to our customers, improving profitability and enhancing shareholder value."

Syncor operates a nationwide network of 84 high-tech pharmacy service centers.

EXETER, NH (AUG. 14) PR NEWSWIRE - Tyco Laboratories, Inc. (NYSE: TYC) announced today that its Simplex Wire and Cable Company subsidiary, located in Newington, N.H., has been awarded a contract by AT&T for the production of the newest generation of fiber optic undersea telecommunications cables. Valued at $200 million, the award provides for a $100 million order for the production of undersea fiber optic cables initially, plus options for $100 million of additional cables.

The initial commitment calls for Simplex to manufacture over 14,500 kilometers of undersea fiber optic cables, including cables for the TPC-4 system which will link the U.S. to Japan, and HAW-5 to be installed between Hawaii and the U.S. mainland.

Joint development of undersea fiber optic cables, initiated by AT&T and Simplex in 1976, has resulted in the manufacture of over 31,000 kilometers of cable by Simplex.

This agreement represents the largest contract ever received by Simplex and brings Simplex' backlog to the highest level in its 140 year history.

Tyco is a worldwide manufacturer of fire protection/flow control systems, electrical and electronic components and packaging materials.

#90226p5097 08/14/1990 ~PR Newswire

HOUSTON (AUG. 14) PR NEWSWIRE - ConVest Energy Partners, Ltd. (AMEX: CEP) reported net income of $327,000 or $.05 per unit for the three months ended June 30, 1990, compared to net income of $1,224,000 or $.20 per unit for the second quarter of 1989. Net income for the second quarter of 1989 included $860,000 received by CEP in settlement of two lawsuits. Total revenues for the second quarter of 1990 were $2,484,000 compared to 1989 second quarter revenues of $3,209,000. Net income per unit is based on 5,914,573 units outstanding during both quarterly periods.

CEP reported net income of $1,020,000 or $.17 per unit for the six months ended June 30, 1990 compared to net income of $1,921,000 or $.32 per unit for the same period in 1989. Total revenues for the six months were $5,485,000 compared to 1989 revenues of $5,799,000. The higher net income and total revenues for the six months ended June 30, 1989 is

primarily attributable to the settlement of gas contract disputes and litigation aggregating over $1.5 million.

Oil and gas revenues for the six months ended June 30, 1990 increased 27 percent over the corresponding 1989 period due to increased oil production from drilling and acquisition activities at Altamont- Bluebell Field, Osaka Field and the Culp Draw Waterflood Unit. The other major contribution to higher revenues was improved performance at the Altamont Gas Plant, where 1990 revenues exceeded 1989 revenues by about 20 percent. Gas production decreased slightly in 1990 from 1989 levels as the result of production curtailments experienced at CEP's Appalachian properties during the second quarter of 1990.

Cash flow generated from operations for the three months and the six months ended June 30, 1990 was $1,219,000 and $2,868,000, respectively. This compares to $1,998,000 and $3,393,000 (or $1,136,000 and $1,871,000 excluding nonrecurring settlement income) for the same periods in 1989. Average oil and gas prices were 18 percent and 10 percent lower during the second quarter of 1990, as compared to the previous calendar quarter.

ConVest Energy Partners, Ltd. is a publicly traded master limited partnership whose principal business activities include the development and operation of oil and gas properties and the acquisition of additional producing properties. ConVest Energy Corporation serves as general partner of CEP and currently owns approximately 14 percent of the partnership interests.

HAUPPAUGE, N.Y. (AUG. 14) PR NEWSWIRE - Robotic Vision Systems, Inc. (NASDAQ: ROBV), a leading manufacturer of machine vision-based inspection and measurement products for quality control and process guidance, reported today its third quarter financial results.

ROBOTIC VISION SYSTEMS, INC.

Periods ended	Three Months		Nine Months	
June 30	1990	1989	1990	1989
Revenues	$2,916,000	$ 2,530,000	$10,265,000	$ 7,032,000
Net inc. (loss)	$ (546,000)	$(1,630,000)	$(1,374,000)	$(2,608,000)
Net inc. (loss) per com. share- primary and fully diluted	$(.09)	$(.26)	$(.22)	$(.41)
Weighted aver. no. of shares outstg.	6,340,000	6,330,000	6,336,000	6,318,000

In July 1990 the company announced that it was discontinuing its automotive robotic systems integration business and closing down its Michigan manufacturing facility. The company estimates that its total closedown costs could range from $1.0 to $1.5 million. Such costs may be partially or totally offset from the proceeds of the sale of automotive spare parts inventory. No provision for closedown costs has been recorded in the above third quarter financial results.

The company announced that it has been experiencing problems with its automotive systems business over the last 18 months due to extremely aggressive pricing by a competitor. A result of the company's withdrawal from the automotive systems business is a significant decrease in the company's operating expenses.

The company further announced that it is addressing a new application for its HR-2000 solder joint inspection and process control machine in the semiconductor industry. The company indicated its belief that by entering this market it could accelerate bookings for its HR-2000 product.

The company stated that it was optimistic that it would return to profitability in fiscal year 1991, possibly as early as the first quarter depending upon the speed of its penetration of the semiconductor market with its HR-2000 product.

Robotic Vision Systems, Inc., designs, develops, manufactures and markets advanced three-dimensional vision-based inspection and measurement products for industrial and military purposes.

ROCKVILLE, MD (AUG. 14) PR NEWSWIRE - FileTek announces the opening of its New York regional office at One World Trade Center, Suite 7967, New York, N.Y. (telephone: 212-912-9484).

FileTek manufactures and markets the optical disk-based Storage Machine, a mass storage subsystem that provides on-line storage for hundreds of gigabytes to several terabytes of data. With the Storage Machine, data remains on-line and record accessible in seconds. By contrast, traditional storage methods allow data to age off DASD to computer output microfiche (COM), printed reports or tape. Retrieving data from these off-line sources can take from a few minutes to several days -- resulting in delays and increasing the costs associated with customer service.

The Storage Machine stores computer output microfiche and printed report

data on optical disks as record-oriented data files that remain computer-processible. With FileTek's custom-designed applications, users can access and update Storage Machine data records from the same terminal screens that they use to access data stored on DASD, eliminating the need to retrain customer service personnel or purchase special terminals.

FileTek's field sales efforts will enable additional Fortune-1000 corporations and government agencies to benefit from the Storage Machine's advanced technology. Current customers report that their investment in the Storage Machine has been returned, sometimes in less than a year, by reducing or eliminating the costs associated with producing and retrieving microfiche, printed reports or tape.

#90226p5104 08/14/1990 ~PR Newswire

STERLING, VA (AUG. 14) PR NEWSWIRE - Star Technologies, Inc. (NASDAQ: STRR) today announced revenue of $8.8 million for the first quarter ended June 30, 1990, compared with $10.2 million for the same prior-year period. The company reported net income of $31,000, or a loss of 1 cent per share, compared with net income of $118,000 or 1 cent per share, reported for the first quarter last year.

Richard J. Gallagher, Star's vice president of finance and CFO, attributed the decrease in revenue for the quarter to declining sales in the defense community. Despite lower revenue levels, profitability for the quarter was achieved as a result of significantly lower operating expenses, including decreased research and development expenditures and various expense reduction activities initiated during the past 12 months. The decline in R & D expenditures was anticipated as the company nears the completion of the development cycle for several new products.

One of these new products, the Graphicon 2000 (G2000) began shipping during the first quarter. The G2000 is a powerful addition to Star's Graphicon(tm) family of high-performance image generators. The product is a price/performance leader for visual simulation and training applications, providing the performance of costly large-scale simulators at a fraction of their cost.

In addition, the company began to realize the benefit of a strategic recapitalization completed in May. The recapitalization involved a private placement of $14.75 million of preferred stock with GE Capital Corporation and two other institutional investors. The equity was used to retire $11 million of subordinated debt, and for working capital providing the additional cash needed to bring Star's new products to market. The

preferred stock will yield a 10 percent dividend to the investors, which may be paid in stock for the first two years providing a cash savings of nearly $3 million.

In July, Star announced the STAR 910/VP, a new family of supercomputing network compute servers. The products, which bring Star's expertise in high-performance computing to the network workstation market, are fully compatible with workstations and servers from Sun Microsystems, the industry leader in the technical workstation market. When attached to a network of Sun users, the STAR 910/VP provides distributed supercomputing to users across the network.

"The results of the first quarter continue to reflect the impact of our growth through diversification program," said Robert C. Compton, Star's president and CEO. During the past two years, this strategic program, aimed at broadening Star's product and market base, has involved two acquisitions, which resulted in substantial new product research and development activities.

"As a result of these investments in our future, Star is completing a transition from an array processor company to a supplier of a broader base of high-performance computing products," Compton said. "With these innovative new products and renewed financial strength, Star is well-positioned for the future."

Compton also noted that quarterly earnings throughout FY 1991 may be affected by a number of factors, including sales and marketing costs associated with supporting Star's new products.

Star Technologies, Inc. is a leading manufacturer of high- performance computing products, including network compute servers, array processors, and real-time image generators. Star is the market share and performance leader in array processors, providing the industry's fastest array processors for compute- intensive applications in image and signal processing. Star's Graphicon Products Division, located in Research Triangle Park, N.C., manufactures the Graphicon family of high-performance 3-D image generators for military and commercial simulators and training systems. Star is headquartered at 515 Shaw Road, Sterling, Va., 22170.

JACKSON, MISS. (AUG. 14) PR NEWSWIRE - Mobile Telecommunication Technologies Corp. (NASDAQ-NMS: MTTL) announced today that it has formed a joint venture with Pacific Link, a telecommunications consortium based in Hong Kong, to develop international paging and voice messaging services in Hong Kong and other parts of the Asia Pacific region.

The joint venture was formed following the Hong Kong Telecommunications board's decision to grant preliminary approval of the 931.9375 frequency for paging and voice messaging. This is the same frequency on which Mtel operates in the U.S. and in Singapore.

"The formation of the joint venture in Hong Kong will allow Mtel to develop services on the 931 MHz frequency. This is a step forward in our long-term objective of developing a global messaging system," said Alexander H. Good, president of Mtel International.

In reporting other international developments, Good said that Mtel recently signed a memorandum of understanding with Cantel, the Canadian company that issued the 931.9375 MHz frequency in Canada.

Pending the finalization of certain documents, Mtel and Cantel will work

jointly to develop a nationwide and international paging and voice messaging system in Canada and the U.S. The proposed Canada-U.S. system will include an international roaming capability.

Mtel, headquartered in Jackson, Miss., is engaged in businesses that include nationwide paging and voice messaging services in the U.S.; nationwide paging services and paging system manufacturing in the U.K.; interests in other satellite-based telecommunications systems; air-to-ground and marine telecommunication systems; telephone answering service operations; and a digital microwave system serving southern California.

SCHAUMBURG, ILL. (AUG. 14) PR NEWSWIRE - Intercargo Corporation (NASDAQ-NMS: ICAR) today reported record earnings for the second quarter and first half ended June 30, 1990.

Net income for the 1990 second quarter rose 15.9 percent to $619,000, or 27 cents per share, from $534,000, or 24 cents per share, in the second quarter of 1989. Total revenues were $6,005,000 compared to $5,971,000 a year earlier.

For the 1990 six months, net income from operations was up 24.7 percent to $1,249,000, or 54 cents per share, from $1,002,000, or 44 cents per share, in the 1989 six months. Net income for the 1989 first half received an additional benefit of $91,000, or 4 cents per share, from the adoption of FASB 96. Total revenues for the 1990 first half were $12,322,000, compared with $11,700,000.

James R. Zuhlke, president and chief executive officer, said total premiums written in the 1990 first half rose 15.4 percent over the 1989 period while earned premium grew 6.4 percent.

Zuhlke noted that the company's Canadian affiliate, Kingsway Financial Services, Inc. posted another solid quarter, contributing $126,000 to second quarter income. He said recent changes in insurance laws in Ontario, Canada, are projected to have a very positive effect on this operation for the remainder of 1990.

Zuhlke said that as a specialty underwriter, Intercargo Corporation continues to outperform the general property and casualty industry. Emphasizing that premium growth was not achieved at the expense of underwriting profitability, he said, "Our aggregate combined loss and expense ratio declined to a seasonal low of 88.3 percent for the 1990 first half from 91.4 percent a year earlier." A combined ratio of under 100 percent indicates an underwriting profit.

"Overall performance is in line with expectations," Zuhlke said, "and we believe our favorable historical patterns will continue in 1990."

Headquartered in Schaumburg, (a Chicago suburb) Intercargo Corporation is a leading provider of specialized insurance coverage for companies involved in international trade. Its market is primarily importers and exporters, customs brokers and freight forwarders and other global traders. The primary coverages it underwrites are U.S. Customs Bonds for

which it controls about 33 percent of the market, cargo insurance and professional liability for the broker forwarder industry.

#90226p5120 08/14/1990 ~PR Newswire

DUNDEE, MI (AUG. 13) PR NEWSWIRE - Holnam Inc. (NYSE: HLN) today reported consolidated revenues of $283.1 million and a net loss of $2.3 million for the second quarter ended June 30, 1990, compared with revenues of $290.3 million and a net profit of $10.1 million in the second quarter of 1989.

For the first half of 1990, Holnam recorded a net loss of $24.3 million on revenues of $456.6 million, vs. a net loss of $6.1 million on revenues of $447.8 million in the first half of 1989.

The decrease in revenues for the second quarter of 1990, in comparison with 1989, was primarily the result of an 11 percent decrease in cement shipments and reduced concrete volume at St. Lawrence Cement. According to Marc von Wyss, president and chief executive officer, this was offset to some extent by a 15 percent increase in shipments from the Holnam East and Holnam West Divisions, formerly Dundee Cement and Ideal Basic Industries.

The increase in revenues for the first half of 1990, in comparison with 1989, was primarily due to an 8 percent increase in total cement shipments along with a 3 percent increase in cement prices for the East and West Divisions.

Holnam's second quarter of 1990 gross margin declined from the corresponding quarter of 1989, due principally to inflationary cost increases and declining contribution of St. Lawrence sales, which carry a higher than average gross margin. The year-to-date gross margins for 1990 and for 1989 were similarly affected.

Selling and administrative expenses in the second quarter of 1990 were higher than in the corresponding quarter of 1989, and also for the year-to-date, primarily as a result of merger-related activities, expenses associated with the recently included Northwestern States operations and higher interest expense resulting from increased debt levels.

Holnam Inc. is a leading producer of cement and related construction products in the United States and Canada, and a subsidiary of Holderbank Financiere Glaris, Ltd., of Switzerland, one of the world's largest manufacturers of cement.

CONTACT: Stuart Kirvan of Holnam Inc., 313-529-2411, or Timothy Cobb of Gavin Anderson Doremus, 212-921-1060, for Holnam.

HARTSVILLE, SC (AUG. 14) PR NEWSWIRE - Sonoco Products Company (NASDAQ-NMS: SONO) has today (Aug. 14) signed an agreement with Pierre Lhomme of Cheroy (Yonne), France to purchase the controlling block of shares in Lhomme S.A., the leading French manufacturer of paperboard, tubes, cores and machinery. When the sale is completed later this summer, Lhomme S.A. will become part of the Sonoco Europe organization. The companies did not disclose the purchase price.

"We are excited about the opportunity of joining Sonoco and Lhomme together to serve the European tube and core market," said T.C. Coxe, III, executive vice president of Sonoco. "We think this merger will have positive benefits for our customers and employees," said Pierre Lhomme, chairman of Lhomme.

This acquisition is in line with Sonoco's expansion plans in Europe. "It confirms our company's commitment to Europe and the French market in particular," said Coxe.

Lhomme S.A., located in Pont Sur Yonne, France, has seven plants employing more than 500 persons. It has annual sales of approximately $42 million.

Lhomme is one of Europe's leading tube and core manufacturers with a reputation for technological superiority.

Gaston Simonato will continue in his present position as managing director and will report to John J. Murphy, chief operating officer-Industrial Products in Europe, who reports to A.S. Harris, chief executive officer-Sonoco Europe.

The combined Sonoco/Lhomme tube and paperboard operation throughout Europe will include eight paperboard machines at seven mills and 22 converting plants. This acquisition makes Sonoco the European market leader in coreboard and tube manufacture.

Sonoco, headquartered in Hartsville, S.C., is the world leader in the production of recycled paperboard, tubes and cores. This acquisition enables the company to significantly expand in key European markets. Sonoco is a major manufacturer of industrial and consumer packaging products employing more than 15,000 persons at more than 200 locations around the world. The company had 1989 sales of $1.6 billion.

#90226p5123 08/14/1990 ~PR Newswire

DANBURY, Conn. (AUG. 14) PR NEWSWIRE - First Brands Corporation (NYSE: FBR) today announced results for the fiscal year and the fourth quarter ended June 30, 1990.

Earnings and earnings per share (before extraordinary charges and gains) for fiscal 1990 increased 24 percent and 19 percent, respectively, over last year. Earnings were $50,392,000 or $2.40 per share before extraordinary charges for costs related to repurchasing debt. Comparable earnings for fiscal 1989, excluding the sale of the European Home Products Businesses and tax loss carryforwards, were $40,677,000 or $2.02 per share. Net earnings for fiscal 1990 were $49,606,000 or $2.36 per share and for fiscal 1989 were $60,968,000 or $3.03 per share.

Net earnings for fiscal 1990s fourth quarter were $4,350,000 or $.20 per share versus $863,000 or $.04 per share last year.

Sales for the 1990 fiscal year were $1,086,591,000 which compares to $1,207,090,000 in sales for the prior 1989 fiscal year. Sales increased in plastic wrap and bags, car care products (automotive products other than antifreeze), export and the international business areas, but were offset by lower sales in the antifreeze area and the absence of sales related to the European Home Products Businesses.

Sales for the fiscal 1990 fourth quarter were $247,985,000 which compares to $273,269,000 in sales for the prior year. Sales increased in plastic wrap and bags, car care products (automotive products other than antifreeze), export and the international business areas, but were offset by lower sales in the antifreeze area.

Alfred E. Dudley, chairman, chief executive officer and president, said that "The company's performance was excellent in all business areas, with the drop in antifreeze sales reflecting overall market softness. In fiscal 1990, we invested significantly for the future through new product introductions, line extensions, new ventures and record high advertising and promotion expenditures."

This year's fourth quarter results were also very good and in line with expectations. As with the fiscal year, all business areas performed better than last year except antifreeze.

Dudley continued, "I expect next year's overall results will be up slightly, reflecting continued growth and profitability in plastic wrap and bags, car care products, export and international business areas and lower interest costs offset by the impact of lower selling prices in the antifreeze area. Lower antifreeze prices are expected to cause lower earnings in fiscal 1991s first and second quarters compared to similar periods in fiscal 1990, but this should be more than offset by favorable increases in fiscal 1991s third and fourth quarter results."

In response to the possible impact of recent Mid-East events on First Brands, Dudley said that "Because there are so many variables that affect our business it is hard to predict the short-term effect of increases in oil prices. While some areas of supply are tight, no severe shortages are expected at this time. Our business has performed successfully through previous periods of oil price escalation due to our brands' strengths and our business mix."

Dudley further stated that "The process of soliciting bids to purchase the company is continuing and several parties have expressed an interest. It is, however, too soon to forecast a definitive outcome and further announcements on the subject will be made as appropriate."

First Brands Corporation develops, manufactures, markets and sells leading consumer products sold under the GLAD, GLAD-LOCK, Prestone, STP and Simoniz brands.

LAS CRUCES, NM (AUG. 14) PR NEWSWIRE - Patlex Corp. (NASDAQ: PTLX) announced today operating results for the quarter ended June 30, 1990, and comparisons of results for the quarter ended June 30, 1989.

For the three months ended June 30, 1990, current laser patents royalties increased to $1,720,000 from $1,480,000 in the second quarter of 1989 while royalties received for past infringement settlements decline to $81,000 in 1990 from $791,000 in 1989. Total net laser revenues for the quarter were $1,801,000 as compared to $2,271,000 for the same period in 1989.

Income from continuing operations for the current quarter was $669,000 or $.10 per share as compared to $839,000 or $.13 per share before extraordinary items in 1989. A net operating loss (NOL) carryforward to the second quarter of 1989 added an extraordinary gain of an additional $444,000 or $.06 per share. All NOL carryforward tax benefits were fully utilized in 1989 and are therefore not available for 1990.

The company announced that as of Aug. 7, 1990, it has repurchased a total of 627,400 shares of its common stock, approximately 10 percent of the shares outstanding at the beginning of the year, at an average purchase price of $4.71 per share. All repurchased shares will be retired.

The company also announced that the sale of certain assets of ESRAC Publishing Inc. to an international publishing company has been finalized. The company's investment in ESRAC and any return thereof depends on the success of the new publication in the next four years. If the new publication is successful, the company under its agreement with ESRAC has a potential opportunity to recover more than its original investment in ESRAC.

#90226p5125 08/14/1990 ~PR Newswire

SPRINGFIELD, IL (AUG. 14) PR NEWSWIRE - Horace Mann Educators Corporation (HMEC), an insurance holding company, reported GAAP earnings before interest, taxes and amortization (EBITA) of $18.0 million for the second quarter ended June 30, 1990, an increase of $9.6 million over the second quarter 1989.

EBITA for the quarter ended June 30, 1990, is ahead of the prior year for each of the life, annuity and property/casualty businesses. Year-to-date EBITA of $36.7 million is well ahead of $20.2 million for the prior year. HMEC continues to reduce its indebtedness under its bank credit agreement

significantly ahead of schedule.

Paul J. Kardos, president and chief executive officer, stated: "Overall we are pleased with our progress as well as our results. We remain confident that Horace Mann will continue to show profitable growth."

Property and casualty results improved significantly over the prior year due to more normal weather-related claims in the second quarter of 1990. In addition, a non-recurring charge to property and casualty income in the second quarter of 1989 lowered prior-year earnings.

As a result, the property and casualty combined ratio, excluding the amortization of intangible assets resulting from the acquisition of HMEC in August 1989, improved from 111.1 percent for the quarter ended June 30, 1989, to 101.8 percent for the current period.

Continued growth in life insurance in force of 4 percent over the prior year and retention of annuity business has resulted in a consistent growth in earnings in these businesses.

Pre-tax income for the second quarter 1990 included $13.3 million of interest expense, of which $9.6 million was cash interest expense, and $4.2 million was amortization of intangible assets related to the leveraged buyout. No comparable charges were made in the prior period and such charges are the reasons for the decrease in pre-tax income from $8.4 million for the quarter ended June 30, 1989, to $0.6 million for the current quarter.

HMEC is an insurance holding company primarily engaged through its subsidiaries in providing personal lines of property/casualty and life insurance, annuities and group life and health insurance products. HMEC's business originated in Springfield, Ill., in 1945. HMEC markets its products through its agency force primarily to teachers and other employees of public schools. HMEC was acquired in August 1989 from CIGNA Corporation by HME Holdings, Inc., a corporation formed at the direction of Gibbons, Green, van Amerongen, L.P., an investment banking firm specializing in management-led acquisitions.

HOUSTON (AUG. 14) PR NEWSWIRE - Columbia Gas Development Corp. the Houston-based oil and gas exploration subsidiary of The Columbia Gas System Inc. (NYSE: CG), today announced completion of the purchase of Texaco Inc.'s interest in Main Pass Block 30.

The seven-well oil field is located in federal waters in the Gulf of Mexico southeast of New Orleans. The net reserves purchased exceed 1.6 million barrels of oil (equivalent), according to John P. Bornman, president of Columbia Gas Development.

During the last 12 months, Bornman said, Columbia Development has acquired more than 5.3 million barrels of oil and 60 billion cubic feet of natural gas reserves. Development purchased the reserves at an average cost of $5.18 per barrel of oil (equivalent).

Columbia Development is actively engaged in domestic oil and gas exploration, production and marketing along the Gulf Coast (both onshore and offshore) and in mid-continent and Rocky Mountain regions.

Other Columbia Gas System subsidiaries located in Charleston, W.Va., and Calgary, Alberta, carry out the System's oil and gas exploration and production efforts in Appalachia and Canada. Columbia plans to invest more than $200 million in exploration and production activities in 1990.

The Columbia Gas System Inc. is one of the nation's largest natural gas systems. Subsidiary companies are engaged in the exploration, production, purchase, storage, transmission and distribution of natural gas. Columbia serves, directly or indirectly, more than 8 million customers in 14 states and the District of Columbia.

#90226p5130 08/14/1990 ~PR Newswire

WOODLAND HILLS, CA (AUG. 14) PR NEWSWIRE - Perceptronics Inc. (NASDAQ: PERC) reported higher net income for its first quarter ended June 30, 1990 on lower sales compared to a year ago.

For the current quarter, net income rose to $149,539, or $.04 per share, from $113,596, or $.03 per share, in the corresponding year earlier period. Current quarter net income includes an extraordinary credit of $61,500, or $.02 per share, resulting from utilization of a net operating loss carryforward. Income, before income taxes and extraordinary credit, totaled $152,539 compared with income before taxes of $130,596, in the corresponding period last year.

Total revenues for the three month period were $6,172,509 versus $6,731,472 in last year's first quarter.

"Results for this first quarter are principally attributable to higher interest income, coupled with reduced general and administrative expenses

" said Dr. Gershon Weltman, chairman and chief executive officer. "These more than offset lower gross profit margins, stemming from the anticipated reduction in revenues, and higher research and development expenses.

"As I have indicated previously, the balance of fiscal 1991 will be challenging, especially the quarter we are in now. With the end of the SIMNET contract in the first quarter, we anticipate lower sales and possibly a modest loss in the second quarter."

Weltman added: "Prospects for the second half of fiscal 1991 appear to be more positive although we do not expect to realize the full benefit of several recently announced contracts until fiscal 1992."

At June 30, 1990, firm contract backlog totaled $11.6 million with option backlog at $29.6 million for a total backlog of $41.2 million. Pending awards, expected to be booked in the second quarter, total approximately $15 million. A year earlier, Perceptronics' firm contract backlog was $17 million with options of $48 million for total backlog of $65 million.

Perceptronics is engaged in research and system development -- primarily for the Department of Defense -- and in the manufacture and marketing of low-cost, intelligent computer-based systems for training, simulation and decision support.

#90226p5132 08/14/1990 ~PR Newswire

HOUSTON (AUG. 14) PR NEWSWIRE - Global Natural Resources Inc. (AMEX: GNR) today reported net income of $3.7 million or $0.16 per share, for the second quarter ended June 30, 1990 compared with a net loss of $777,000 or $0.03 per share, for the second quarter of 1989. Total revenues were $13.0 million for the quarter ended June 30, 1990, compared with revenues of $8.6 million or the same quarter in 1989.

For the six months ended June 30, 1990, net income was $4.6 million or $0.21 per share compared with a net loss of $107,000 for the same period in 1989. Revenues for the first six months of 1990 were $25.6 million, an increase of 50 percent over 1989 six month revenues of $17.0 million. Cash from operations increased 66 percent to 13.1 million over the $7.8 million reported in 1989.

The 1990 results include a cash distribution of $4.6 million or $0.20 per share in the second quarter from Investment Properties International Limited, a real estate investment trust currently in liquidation and of

which Global currently owns 47 percent. No such distribution was received in 1989.

James G. Niven, chairman of Global, stated, "We are pleased with the company's progress this year. While the warm winter in the U.S. had an effect on gas sales, our operations currently approach break-even and we remain optimistic about the future."

Niven also announced the formation of USAgas Pipeline, a joint venture being formed by combining certain assets owned by a Houston- based pipeline company and Global. USAgas will consist of natural gas gathering systems, intrastate pipelines and a natural gas liquids plant all located in East Texas and Northern Louisiana.

Niven said, "Anticipated revenue from the joint venture will have a significant effect on future Global revenues."

"Increased demand for oil and natural gas, the new pipeline system we announced today and a number of other exciting new opportunities will all have positive effects on the company," he concluded.

Global Natural Resources Inc. is a Houston-based energy company engaged in the exploration, development, production and transportation of oil and gas in North America and owns an interest in a long-term oil and gas production sharing contract in Indonesia.

LANGHORNE, PA. (AUG. 14) PR NEWSWIRE - Ecogen Inc. (NASDAQ: EECN) today reported financial results for the second quarter and first half ended June 30, 1990.

For the second quarter of 1990, total revenues were $587,000 compared with $1,103,000 for the second quarter of 1989.

Ecogen reported a net loss of $1,460,000 ($0.19 per share) for the 1990 quarter compared with a net loss of $2,255,000 ($0.34 per share) for the previous year's quarter.

Total revenues for the first half of 1990 were $1,056,000 compared with $1,785,000 for the comparable 1989 period.

There was a net loss of $3,341,000 ($0.47 per share) for the first half of 1990 compared with a net loss of $4,087,000 ($0.61 per share) for the

first half of 1989.

Commenting on the results, Ecogen Chairman and CEO John E. Davies noted that the majority of the company's first half sales revenue of $363,000 came from Foil(A) potato bioinsecticide, Ecogen's newest product. Condor(A) forestry bioinsecticide, introduced earlier this year, also recorded its first sales in the second quarter.

Davies said, "We are particularly pleased by the acceptance of Foil and have significantly increased our manufacturing requirements as a result. Cutlass(A) vegetable bioinsecticide, which we launched last fall, also has been well received. However, Cutlass sales will not reach their full potential until the pending California registration is granted."

Noting that the company's cost cutting program has significantly reduced net losses in 1990, Davies stated, "We will continue to hold the line one expenditures except where we can see an immediate benefit in increased revenues."

Commenting on the recent $8.5 million investment in Ecogen by New York City investor David Blech, Davies said, "Definitive agreements were signed on Aug. 2, 1990. The proceeds of the investment have significantly increased the company's working capital and stockholders' equity.

Ecogen Inc. is an agricultural biotechnology company, specializing in biological pest control. Ecogen's products include Cutlass vegetable bioinsecticide, Foil potato bioinsecticide, Condor forestry and soybean bioinsecticide, Dagger(A) G cotton biofungicide and Collego(A) rice bioherbicide. The company is also developing products for cotton, corn, and home and garden use.

#90226p5134 08/14/1990 ~PR Newswire

LONDON (AUG. 14) PR NEWSWIRE - In its third full year of operations Anangel-American Shipholdings Limited (AASL)(NASDAQ: ASIPY) today reported net income after preferred dividends for fiscal year ended June 30, 1990 of $35,871,000 an increase of 27.5 percent over last year's figure. Earnings per share for the year were $2.15 and the directors have recommended a final dividend of $0.40 payable on Oct. 1 to shareholders of record on Aug. 31, 1990. The October payment will bring the total dividend for fiscal 1990 to $1.25.

Management commented that they remained pleased with these results as the operating profitability of the company had remained strong at $35,955,000 ($2.16 per share) as compared with $22,034,000 ($2.49 per share) in 1989. The decline in overall earnings per share was attributed principally to a vastly increased depreciation charge of $7,284,000 as compared to $730,000 in 1989 and the dilutive effects of the time required to fully invest the proceeds of the company's July 1989 offering of ADRs which resulted in an increase of 6,900,000 ordinary shares in the company's share capital.

The company stressed its confidence in the quality of its fleet which at year end numbered eighteen vessels totalling 760,281 deadweight aged 5-1/4 years on average valued at $295,825,000 (A surplus of $39,453,000 over net book value). Management reiterated their commitment to the company's treasury stock repurchase program because of its belief that the current market price of its shares did not fully reflect either the income generating ability or the inherent value of the company's assets.

Although the company's dividend reinvestment plan will operate as normal in respect of the final dividend, the Angelicoussis Shipholding Group Limited (ASGL) the ultimate owner of all the company's B shares has announced that it will not exercise its option to receive shares instead of cash in respect of its holding of B shares, but that it intends to apply the proceeds of the dividend in purchasing the company's A ordinary shares in the market.

As already announced in June, 1990 the company has executed a memorandum of agreement for the sale of one of its older Panamax Dry Cargo vessels which, when concluded, will generate a profit of approximately $7 million for inclusion in the company's 1991 accounts.

HERZLIYA PITUACH, ISRAEL (AUG. 14) PR NEWSWIRE - Rada Electronic Industries Ltd. (NASDAQ: RADIF) today announced its financial results for the three and six month periods ending June 30, 1990. Revenues for the six month period reached a record level of $11,545,000, a 10.5 percent increase over the 1989 period and net after tax profits rose to $708,000, a 4.1 percent increase over 1989. For the three month period ended June 30, 1990, the company achieved revenues of $5,502,000 as compared to $5,050,000 in 1989, and had net after tax profits of $318,000 as compared to $340,000 in the 1989 quarter. The decrease in net income was principally due to a one time provision of $100,000 related to taxes on benefits-in-kind provided to employees and surplus (non-deductible) expenses.

According to Haim Nissenson, president of the company, the growth in sales and profits was mainly attributable to its industrial sector consisting of Rada (Israel) and Tasco Electronic Services Inc., a majority-owned subsidiary, located in Anaheim, Calif.

Rada Electronic Industries Ltd. is an Israeli-based company with subsidiaries in Israel, the United States and the Netherlands. Rada's product lines include advanced automated testing equipment, avionics and airborne computers, military standard computers and peripherals. Rada is also involved in the distribution of sophisticated electronic components, functional circuits and subassemblies in Israel, the United States and Europe.

NEW YORK (AUG. 14) PR NEWSWIRE - TPI Enterprises, Inc. (NASDAQ-NMS: TPIE) today reported that revenues for the second quarter ended June 30, 1990 rose 9 percent to $98,696,000, comprising $62,654,000 from TPI Restaurants Inc. and $36,042,000 from TPI Entertainment, Inc. Revenues for the prior year's second quarter amounted to $90,535,000 with $57,587,000 derived from restaurant operations and $32,948,000 provided by theater operations. Operating income for this second quarter rose approximately 68 percent to $5,828,000 from the $3,472,000 reported for the 1989 second quarter.

The net loss from continuing operations in the 1990 second quarter, after interest and provision for taxes, amounted to $1,064,000, or 5 cents per share, as compared to the 1989 second quarter net loss from continuing operations of $1,940,000, or 8 cents per share. Discontinued operations in the second quarter of 1989 yielded income of $4,128,000, or 18 cents per share, consisting of a $4,157,000 gain on disposal and a $29,000 loss from operations, and resulted in a net income of $2,188,000, or 10 cents per share for that period.

Revenues for the first half of 1990 rose 20 percent above 1989 to $205,028,000, comprising $139,541,000 from restaurant operations and $65,487,000 from theater operations (acquired in February 1989). Revenues for the first half of 1989 amounted to $170,855,000, with $127,198,000 provided by restaurant operations and $43,657,000 from theater operations. Operating income for the first six months of 1990 rose approximately 66 percent to $9,846,000 from the $5,936,000 reported for the same period the year before. For the first half of 1990 the net loss from continuing operations, after interest and provision for taxes, amounted to $4,117,000 or 19 cents per share, compared to the net loss from continuing operations of $4,568,000, or 20 cents per share, for the first half of 1989. Including the aforementioned results of discontinued operations, which stemmed from the sale of TPI Transmission Services, Inc., the 1989 first half net loss amounted to $242,000, or 1 cent per share.

TPI noted that same-store sales in the company's restaurant subsidiary for the six month period were up 6.8 percent and operating income was up 51.3 percent. TPI Restaurants currently operates 167 Shoney's, 64 Captain D's, and 10 other popularly priced specialty restaurants in the southeast.

TPI also reported that its wholly owned subsidiary, Maxcell Telecom Plus, Inc., is awaiting FCC approval of the sale of its cellular construction permit for the Tennessee Lake 1 RSA to a subsidiary of ALLTEL Corporation for $18 million in cash. Maxcell won the FCC lottery for that cellular telephone market on Oct. 18, 1989.

HOUSTON (AUG. 14) PR NEWSWIRE - Howell Corporation (NYSE: HWL) announced today that Byron L. Teufel, Richard N. (Rich) Tyler and Jeffrey C. (Jeff) Lee joined its crude oil marketing unit as, respectively, vice president operations, vice president supply and crude oil representative. During 1990 the crude oil marketing segment has improved its contribution to operating earnings by 15 percent over the same period in 1989. This has been accomplished through significant increases in controlled barrels of crude oil and, consequently, gross revenues. The company expects Teufel, Tyler and Lee to continue to expand upon these positive trends.

Byron Teufel commenced his career as a crude oil representative for Koch Oil in the early 1980s. He has almost a decade of experience, with

increasing levels of responsibility in all aspects of the crude oil purchasing and marketing business. Most recently he was a partner in Producer Management Corporation, which was primarily engaged in consulting with producers and arranging for them opportunities to share in downstream profits. Teufel has a degree from East Central Oklahoma State University. He is married, with one child. After receiving his degree from the University of Southwest Louisiana, Rich Tyler started his crude oil purchasing and marketing career in 1981 in Kansas. He quickly moved to Koch Oil, where he remained for over eight years. Tyler managed Koch's Lafayette, La., office during his last three years with that company, where he was responsible for lease purchases of 48,000 barrels of oil per day. During 1990 he has been an independent crude oil representative for producers, doing business as Tyco Marketing. Tyler is married, with two children.

Jeff Lee received a BBA in Marketing from North Texas State University in 1980. Lee has eight years of experience as a crude oil representative with Tesoro Crude Oil Company. He also has sales and merchandising experience outside the crude oil business. Lee is married, and has one child.

Howell Corporation is an energy industry holding company. Through wholly-owned operating units, it is engaged in oil and gas exploration and production, crude oil marketing, technical fuels refining and marketing, custom chemical processing, product terminalling and common carrier bulk liquids transportation of hydrocarbons and chemicals.

MEMPHIS, TN (AUG. 14) PR NEWSWIRE - Cylix Communications Corporation today announced that France Cables et Radio (FCR), a subsidiary of France Telecom, has acquired a majority ownership interest in the Memphis-based company. Cylix President and CEO Bryan M. Eagle has retained a minority ownership position in the firm, which specializes in data communications networks and services for business.

Terms of the acquisition were not disclosed.

"France Cables et Radio welcomes Cylix into its family of companies," said FCR Chairman M. Alain Profit. "This constitutes our first majority position in a U.S. company, and we are impressed with the company's management and staff, its solid customer base and the desirability of its service offerings."

Profit said no major changes were expected in the operation of Cylix. "We

will operate the company as an independent subsidiary under its current management. Our goal is simply to provide the resources and backing necessary for Cylix to develop further its North American business as well as to explore sales opportunities overseas," Profit said.

Profit said FCR would provide additional information about the venture in September.

Cylix's Eagle said, "With our acquisition by France Cables et Radio, Cylix becomes part of one of the world's premier telecommunications firms."

"Our new parent company provides us with the financial backing we need for expansion and introduction of new services to our customers," Eagle said. "Having access to France Cables et Radio's advanced research and development capability is of particular significance to Cylix."

Through its new affiliation, Cylix will gain experience in new international markets for its communications networking services, particularly its custom-tailored VSAT (very small aperture terminal) equipment. In addition, it will have the capital to increase its communications connections to overseas points, a capability of increasing value to U.S. companies requiring fast, reliable links with customers and locations abroad.

"This is a significant strategic alliance with a strong international partner. We at Cylix are excited by the prospects opened to us by this acquisition," Eagle said.

France Cables et Radio provides a wide range of telecommunications services worldwide through operational divisions, subsidiaries and affiliates. These activities include operation of cable ships in Southeast Asia and in the Pacific and Northeast African and Caribbean regions as well as provision of technical and managerial support of public telecommunications networks for Pacific and African nations.

#90226p5148 08/14/1990 ~PR Newswire

WINDSOR, ONTARIO (AUG. 14) PR NEWSWIRE - Chrysler Chairman Lee A. Iacocca today launched the 1991 minivans, the Dodge Caravan, Plymouth Voyager and Chrysler Town & Country, saying:

"Our '91 minivans are going to be another runaway success. They're destined to be a hit, but this time not just in North America.

"Five years from now," he said, "minivans will be as big a hit in Europe as they are in the U.S. and Canada. The minivan will be a staple in Europe, just as it's the staple to America's baby-boomers."

Iacocca spoke at ceremonies in Chrysler's Windsor (Ontario) Assembly Plant marking the production launch of the 1991 versions of the minivans that created a whole new market segment.

The Chrysler chairman said the minivans are one of the products he is most proud of in his 44 years in the automobile business.

Some will say we didn't do enough, that the '91 minivans are not exotic enough, Iacocca said.

But, he said, "You don't mess with success. You build on success. "You just don't walk away from something that's been so successful. You don't destroy everything you've done because it's time for a change.

"When you have the package right to begin with," Iacocca said, "the last thing you want to do is throw everything out the door and start over.

"The other guys never managed to beat our original, but we just did." Iacocca pointed out that 80 percent of the outside sheetmetal is new for 1991, there's 15 percent more glass area, and the interior is 100 percent new.

He said that other advantages in the '91 minivans include an instrument panel closer to the driver with clusters grouped for better access to controls, a glove box and storage bins, all-new seats plus a quad bucket seat option, rear shoulder belts, cup holders and juice box holders.

Other Chrysler minivan advantages new for 1991, Iacocca said, are anti-lock brakes and all-wheel-drive options, a new front suspension, a high-mounted safety brake light, and an inside sliding door handle.

Iacocca revealed that Chrysler tested the new design in Chicago last year. "We lined up the new minivan. We lined up our '90 minivan and five competitors and let everybody drive everything," he said.

"The overall impression," Iacocca said, (was) "our '91 minivan came in first. Second was our '90 minivan and then the rest of them."

He said Chrysler has invested $600 million in the 1991 minivans. "That's what it costs to replace the technology of the '80s with technology of the '90s," he said.

#90226p5149 08/14/1990 ~PR Newswire

CARMIEL, ISRAEL (AUG. 14) PR NEWSWIRE - S.P.I - Suspension and Parts Industries Ltd. (NASDAQ: SPILF) today announced the results of operations for the second quarter and six months ended June 30, 1990.

Net sales for the three-month period amounted to $3,714,883, compared with $3,812,502 for the second quarter of 1989. Net loss for the quarter amounted to $85,686, or $0.03 per share, compared with a net loss of $1,059,919, or $0.31 per share, for the same period last year.

Net sales for the first six months of the year amounted to $8,607,542, compared with $8,182,401 for the first half of 1989. The loss for the first half of 1990 was $428,960, or $0.13 per share, compared with a net loss of $1,248,648, or $0.37 per share, for the same period last year.

Sales in the second quarter were essentially equal to sales in the similar quarter this year. During the second quarter this year, however, sales to TACOM increased and, in fact, exceeded sales to the Israeli Ministry of Defense.

The company stated that technical production and quality control problems were continuing to negatively impact profitability. Management has taken various steps recently designed to improve efficiency and quality control.

During the quarter, provisions were made relating to expected losses on an order for M-109 road wheels and cancellation of an order from the Italian Army. Total provisions made for the first and second quarter of 1990 equalled $300,000.

In addition, during the quarter the company received $125,000 from TACOM, which was a price adjustment for orders delivered during 1989 and the first quarter of 1990.

Headquartered in Carmiel, Israel, S.P.I. designs, develops, manufactures and markets components for the suspension systems of a wide variety of military armored vehicles, including steel road wheels and support rollers sprocket wheels, track components and road wheel arms. The company believes it is currently one of the leading suppliers of steel road wheels used as spare parts by the United States Armed Forces and supplies substantially all the requirements of the Israel Defense Forces for steel road wheels, sprocket wheels, road wheel arms and certain track components.

SAN DIEGO (AUG. 14) PR NEWSWIRE - Xscribe Corp. (NASDAQ: XSCR) announced today that its quarter ended June 30, 1990 resulted in a net loss of $930,000 or $.14 per share, compared to the net loss of $765,000 or $.12 per share for the same quarter of the previous year. Revenues in the current quarter were $3,736,000, compared to $3,319,000 for the comparable quarter of the prior year.

The company also announced today that, as of July 31, 1990, the outstanding borrowings under its line of credit totalled $3,400,000, the maximum available at that time. Also, as of that date, the company was in violation of certain financial covenants in the agreement. In August 1990, the company received a $300,000 increase to the maximum amount of borrowings available under its line of credit agreement with its bank and also has received a waiver of the financial covenants in the line of credit agreement until Oct. 31, 1990.

In addition, the company announced that its quarterly report on Form 10-Q has been filed with the Securities and Exchange Commission. Among other things, that report includes a more detailed discussion of the company's liquidity, financial condition and results of operations.

Suren G. Dutia, Xscribe's president and chief executive officer, commented on the results, "While our computer aided transcription (CAT) sales are up the continued price erosions have dramatically reduced our gross margins. The combination of this as well as the fact that we are in a historically slow season has negatively affected our operating results.

"We continue to be encouraged with our products, both new and old. We recently introduced our new StenoRam III Plus writing device with a disposable ribbon cartridge which we feel will be an attractive selling point with our customers. Our FirstCAT product allows court reporting students to use their mechanical writers with a CAT system. Our new PC-based captioning system makes closed captioning possible on a personal computer. Our DiscoveryBase litigation support software for attorneys has received good reviews within the legal profession. We are hopeful that these new products will help establish Xscribe's reputation as the technology leader in the legal profession."

Xscribe Corp. designs and markets a wide variety of high-technology software and hardware products for legal professionals, including computer aided transcription (CAT) systems for court reporters, microcomputer-based systems for litigation support, and real-time captioning systems for the hearing impaired.

PHILADELPHIA (AUG. 14) PR NEWSWIRE - National Media Corp. (NASDAQ: NMCO) today announced substantially increased profits before taxes of 40 cents per share for the June 30, 1990, first quarter on revenues of $52,637,300.

This compares to net income before taxes of 5 cents per share on revenues of $17,357,000 for the same period last year. Because it appears that the company will deplete its net operating loss carryforward for federal tax purposes of $4,598,200 by fiscal year end, the company has reserved $1,470,500 for taxes in the first quarter, to reduce net income after taxes to 27 cents per share.

This quarter's profits reflect continued profitable results from the television direct-marketing subsidiary and the introduction of new catalogs.

The company has taken several steps to streamline its operations, including the purchase of a new warehouse facility to be completed this month, and the expansion of its computer capacities, to economically handle the increased volume of transactions.

GOLDEN, CO (AUG. 14) PR NEWSWIRE - Canyon Resources Corp. (NASDAQ: CYNR), a Colorado-based mining company, today announced that NASDAQ has listed 2,923,732 warrants of Canyon for trading on the NASDAQ National Market. The new symbol for the warrants is "CYNRW." The warrants are convertible into Canyon $.01 par value common stock at an exercise price of $3.50 a share on or before Dec. 31, 1994.

On Aug. 13, 1990, the Securities and Exchange Commission declared effective an S-2 Registration Statement which registered 11,694,926 shares of common stock of Canyon Resources and the above-named warrants sold by the company in a $29,237,000 private placement in January 1990. In addition, the Registration Statement also registered 2,150,250 other previously unregistered securities issued earlier in separate transactions. Canyon currently has 20,947,335 shares of common stock issued and outstanding, all of which trade on the NASDAQ National Market under the symbol "CYNR."

"The new listing of the warrants will provide another trading security in Canyon Resources for the investment community. The price of the warrants will be established by the registered market makers trading the warrants based upon market interest and activity," stated Richard H. De Voto, president.

Canyon Resources is currently producing gold and silver from the Kendall Mining District in Montana and is planning to develop three additional mines in Idaho, Montana, and California. The company also produces and sells industrial mineral products from a Nevada plant.

LOS ANGELES (AUG. 14) PR NEWSWIRE - Arcus, Inc. (NASDAQ: ARKS) today announced its results of operations for the second quarter and six months ended June 30, 1990. Total revenues of $4,911,262 and $9,400,730 were up 28 percent and 25 percent respectively, from $3,837,646 and $7,540,324 in the comparable 1989 periods. Net income of $338,285 ($.05 per share) and $659,929 ($.09 per share) was up 12 percent and down 4 percent versus $301,599 ($.04 per share) and $688,182 ($.09 per share) in the 1989 periods.

During the three months ended June 30, 1990, earnings were negatively impacted because the company incurred initial marketing costs associated with a new electronic vaulting service and certain acquisition expenses totaling approximately $204,000. In commenting on the results, Thomas Seefurth, president of Arcus, stated, "We are very pleased with the continued growth of the company. Had it not been for the start-up and acquisition expenses referred to above, earnings would have been up sharply. We believe our investment of time and money in the electronic vaulting segment will begin to pay off in 1991. Our strong revenue growth in the second quarter came from each aspect of our business, especially in our Texas, Arizona and California markets. Because of the rapid growth in certain areas, several of the company's facilities are again at or near capacity. In response, Arcus is in the process of building new facilities and expanding the capacity of certain existing facilities in San Diego, Los Angeles and Phoenix. Additionally, as previously announced, our newest off-site data storage location was opened in July 1990 in Norcross, Ga. in order to serve the greater Atlanta marketplace."

Arcus, Inc. is a leading provider of security, storage and pick-up and delivery services for the off-site storage of magnetic media for companies desiring to protect their computer data against natural and man-made disasters.

FORT WASHINGTON, PA (AUG. 14) PR NEWSWIRE - Rhone-Poulenc Rorer (NYSE: RPR), one of the largest pharmaceutical companies in the world, was created on July 31, 1990, following the final steps of the combination of the human pharmaceuticals businesses of Rhone-Poulenc S.A. and Rorer Group Inc.

Rhone-Poulenc Rorer's second quarter 1990 results include the operations of Rhone-Poulenc's human pharmaceutical business (HPB) since May 5, 1990, the date of change of control when Rhone-Poulenc S.A. completed its tender offer for just over 50 percent of Rorer Group Inc.'s shares. The reported results prior to May, 1990, do not include any results from HPB.

Net sales for the 1990 second quarter were $696.6 million compared with $277.0 million reported in 1989 for Rorer alone (and $581.5 million for the businesses on a pro forma combined basis). For the six month period, net sales were $976.6 million compared with $518.2 million in 1989 for Rorer alone (and $822.7 million for the businesses on a pro forma combined basis).

The net loss for the second quarter of $178.1 million and for the six months of $185.8 million includes restructuring and special charges of $262.4 million and $289.3 million for the respective periods. These charges represent current and future estimated one-time costs.

Rhone-Poulenc Rorer Inc. is a global pharmaceutical company dedicated to the discovery, development, manufacturing and marketing of human pharmaceuticals. Annualized worldwide sales for 1990 will be more than $3 billion and R&D expenditures approximate $400 million. The company operates in all major markets of the world.

NEW YORK (AUG. 14) PR NEWSWIRE - Bio-Technology General Corp. (NASDAQ: BTGC) announced today the commencement of a new clinical trial utilizing the company's formulation of artificial tears for the treatment of dry eye syndrome (keratoconjunctivitissicca). This formulation contains pharmaceutical-grade hyaluronic acid produced by the company's patented bacterial fermentation technique.

Dry eye syndrome is one of the most common underdiagnosed and misdiagnosed ophthalmological problems. It occurs in both sexes, at any age, and in individuals who are otherwise completely healthy.

With the growing use of soft contact lenses, dry eye syndrome is being diagnosed with increasing frequency in younger individuals, resulting in an increasing demand for effective therapy. Preliminary studies suggest that the company's product is efficacious in relieving many of the symptoms of dry eye syndrome such as pain, photophobia, foreign body sensation and itching.

Earlier this year, the company announced two clinical trials testing the viscoelastic properties of its other hyaluronic acid-based product, OphtHA (TM), in ophthalmic surgical procedures. OphtHA has been submitted to the Israeli regulatory authorities and an approval to market is pending.

Last year, the company's licensee for pharmaceutical-grade hyaluronic acid in Japan, JCR Pharmaceuticals Co., Ltd., undertook a comprehensive program in Japan to develop a variety of ophthalmic, orthopedic and other agents incorporating the company's pharmaceutical- grade hyaluronic acid. These applications are estimated to have a current annual market of $250 million.

Bio-Technology General Corp. is principally engaged in the research, development and manufacture of genetically engineered products for human and animal health care.

#90226p5164 08/14/1990 ~PR Newswire

CORTLAND, N.Y. (AUG. 14) PR NEWSWIRE - Marietta Corporation (NASDAQ: MRTA), announced today sales and earnings for the third quarter and nine months of fiscal 1990, ended June 30, 1990.

Net sales for the third quarter of fiscal 1990 were $16,893,378 up 22 percent from last year's third quarter results of $13,896,267. Net income for the third quarter of 1990 was $1,173,849, an increase of 31 percent over third quarter 1989 results of $893,937. Earnings per share were $.31 based on a weighted average number of 3,737,915 shares in 1990 compared to $.36 in 1989, based on a weighted average number of 2,510,604 shares outstanding.

For the first nine months of fiscal 1990 net sales were $45,433,736, compared to $29,514,738 in the first nine months of fiscal 1989, representing an increase of 54 percent. Net income for the nine month period was $3,138,281, a 54 percent increase over $2,042,204 in the first nine months of fiscal 1989. Earnings per share were $.90 in the first nine months of 1990 versus $.92 in the comparable period of 1989. Per share calculations are based on a weighted average of 3,501,248 shares in 1990 and 2,222,185 shares in 1989.

Marietta president John Nadolski commented on the third quarter financial results for the company. "We are pleased with the 22 percent growth in sales and the 31 percent increase in net income for the third quarter of fiscal 1990. Marietta's gross profit margin improved this quarter in relation to last year's third quarter, as well as in relation to the second quarter of fiscal 1990."

"The improvement in the gross profit margin is largely the result of greater production efficiencies generated at the company's soap facilities. Additionally, we have benefited from price increases on selected products as well as increased sales on the company's stock product lines.

"Selling, general and administrative expenses increased as a percentage of sales in the third quarter, primarily due to the addition of new sales and support personnel to facilitate the future growth of the company. Our guest amenities efforts have undergone extensive restructuring in the third quarter including the termination of our relationship with manufacturers representatives who previously sold our products. Our selling expenses for the third quarter included commissions paid to these manufacturers representatives. Although our selling expense has increased as a percentage of sales for the short- term, we feel that the long-term interest of the company will be best served by using a direct sales force."

Nadolski concluded, "We look forward to continued growth and profitability for our company for fiscal 1990 and beyond."

Marietta Corporation specializes in the design, manufacture, packaging, marketing and distribution of guest amenity programs to the travel and lodging industry in the United States and abroad, and provides customized "sample-size" and "unit-of-use" packaging products and services to major consumer products companies in the toiletries, cosmetics and pharmaceutical industries.

#90226p5167 08/14/1990 ~PR Newswire

DALLAS (AUG. 14) PR NEWSWIRE - Elcor Corporation (NYSE: ELK) said today that results for both its fourth quarter and fiscal year ending June 30, 1990, were improved over the prior year periods. A relatively small loss in this year's fourth quarter was in line with the company's June 25, 1990 announcement regarding its outlook for fiscal 1990. For the full year, Elcor was profitable, compared with a substantial loss in fiscal 1989.

FOURTH QUARTER RESULTS For the fourth quarter ending June 30, 1990, a loss before extraordinary item of $567,000, or $.08 per share, together with an extraordinary item tax loss carryforward debit of $417,000, or $.06 per share, resulted in a net loss of $984,000, or $.14 per share, compared to a net loss of $5,973,000, or $.85 per share, in the prior year quarter. Sales were $38,783,000, compared to $39,545,000 last year.

FISCAL YEAR JUNE 30, 1990 RESULTS In the fiscal year ending June 30, 1990, income before extraordinary item of $1,804,000, or $.26 per share, plus an extraordinary item tax loss carryforward benefit of $804,000, or $.11 per share, combined for net income of $2,608,000, or $.37 per share, compared to a net loss of $5,604,000, or $.80 per share, last year. Sales of

$150,835,000 were up from $147,405,000 in the prior year.

Roy E. Campbell, Elcor president, said, "Unusually heavy rains, which plagued portions of the southwestern United States this spring, temporarily reduced normal roofing installation in this important market area, resulting in a lower level of premium laminated fiberglass asphalt shingle shipments than had been expected during the fourth quarter. Even though roofing products shipments in the fourth quarter were lower than last year, operating profits for this segment were substantially higher than the year-ago level as a result of improved prices. However, the improved profitability for this segment was not enough to offset lower-than-expected operating results from our industrial products business.

Elcor manufactures roofing products and industrial products. Each of Elcor's principal operating subsidiaries is the leader or one of the leaders within its particular market.

Elcor's roofing products facilities are located in Dallas and Ennis, Texas; Tuscaloosa, Ala.; Boca Raton, Miami, and Pompano Beach, Fla. Its industrial products facilities are located in Chicago, Ill.; Cleveland, Ohio; Dallas, Lufkin, Midland, and Waco, Texas.

BIRMINGHAM, MI (AUG. 14) PR NEWSWIRE - William H. Oberlin has been appointed chief operating officer of ALC Communications Corporation (NASDAQ: ALCC), announced John M. Zrno, ALC Communications president and chief executive officer.

Oberlin joined the company as executive vice president of sales and marketing in September 1988. ALC Communications is the parent company of Allnet Communication Services, Inc., one of the nation's largest providers of long-distance telephone service.

Oberlin is responsible for the company's sales and marketing areas, including sales, sales force development, customer service, new product development and marketing communications. In addition to the departments previously reporting to him, Oberlin has new responsibility for the company's operations functions, including management information systems, network planning, operations, engineering and billing.

According to Zrno, this appointment gives Oberlin responsibility for all units within the company that develop, sell and deliver service to customers.

Oberlin has more than 23 years' experience in sales and marketing management in the telecommunications industry. He also holds a B.A. in economics from Rutgers University.

ALC Communications Corporation and Allnet Communication Services, Inc. are headquartered in Birmingham. Allnet serves customers nationwide and specializes in providing long-distance services to small- and medium-size businesses. ALC Communications common stock is traded over the counter.

#90226p5172 08/14/1990 ~PR Newswire

RALEIGH, N.C. (AUG. 14) PR NEWSWIRE - McM Corporation (NASDAQ: MCMC) reports a consolidated net loss for the six months ended June 30, 1990 of $1,886,000 or $.40 per share compared to a net loss of $1,288,000 or $.28 per share for the same period in 1989. Consolidated gross revenues for the first half of 1990 were $72,491,000 compared to $83,173,000 for the first half of 1989. Included in revenues are realized investment losses of $213,000 compared to gains of $218,000 for 1989.

The consolidated net loss for the second quarter of 1990 was $1,280,000 or $.27 per share compared to a loss of $1,476,000 or $.32 per share for the second quarter of 1989.

Shareholders' equity at June 30, 1990 totalled $42,047,000 or $8.99 per share compared to $44,648,000 or $9.55 per share at December 31, 1989. Consolidated assets were $494,329,000 at June 30, 1990 compared to $502,172,000 at December 31, 1989.

Sales levels for ordinary life and health products were approximately 5 percent above those of the prior year while direct written premium for property and casualty operations increased by approximately 3 percent. Total insurance revenues were $56,541,000 for the first six months of 1990 compared to $63,826,000 for 1989. The decline in insurance revenues primarily reflects reduced credit insurance related revenues for which

sales were discontinued in the latter part of 1989.

Operating results for the period reflect continued improvement in ongoing property and casualty programs. Although these favorable results were largely offset by losses on discontinued property and casualty programs, we are hopeful that the second half of the year will show profits in the Property and Casualty Division.

Life and Health Division results continue to show higher than expected loss ratios on ordinary accident and health business. The Company is continuing its efforts to improve the overall loss ratio on this business.

CONTACT: Stephen L. Stephano, Executive Vice President, Chief Financial Officer, Treasurer, McM Corporation, 919-834-0751

#90226p5173 08/14/1990 ~PR Newswire

NEW YORK (AUG. 14) PR NEWSWIRE - Sequa Corporation posted higher revenues and net income levels for the second quarter of 1990. Results for the period reflect improvement in the company's aerospace and specialty chemicals groups, principally at businesses serving the jet engine, rocket motor, and overseas detergent chemicals markets.

For the three months ended June 30, 1990, Sequa's sales and revenues rose to $568.4 million from $482.8 million in the second quarter of 1989. After-tax income from continuing operations advance to $19.7 million or $1.94 per primary share from $16.9 million or $1.54 per primary share. In the 1989 quarter, the results of discontinued operations increased net income by $1.3 million or 13 cents per primary share; results for 1990's second quarter were not affected by discontinued businesses. Per share results for 1990 are based on approximately 9.6 million shares outstanding; whereas 1989 results were based on 10.3 million shares outstanding.

For the first six months of 1990, Sequa's sales and revenues advanced to $1.1 billion from $930.5 million in the same period of 1989. After tax income from continuing operations totaled $38.0 million or $3.72 per primary share, compared with $38.5 million or $3.54 per primary share in the first half of 1989.

Net income in the 1989 period was increased $152,000 or one cent per share by the results of discontinued operations. These businesses did not have an effect on net income for the six months of 1990.

The increase in Sequa's sales and revenues for the second quarter reflects advances at five of the company's six operating groups. Two of these -- aerospace and specialty chemicals -- also achieved gains in operating

income for the period.

The aerospace group, Sequa's largest business unit, posted a 23 percent increase in sales and a 9 percent increase in operating income for the second quarter. Sales advanced for all three business units in the group and profits were higher for the Gas Turbine and ARC propulsion units. The Kollsman division operated at a loss in the second quarter of both 1990 and 1989. The growth of Gas Turbine's second quarter profits was moderated by the inclusion of several newly acquired businesses, which, as anticipated, did not contribute to income.

Results of businesses in the machinery and metal coatings group were mixed during the second quarter, with the result that sales for the group increased moderately while operating income decreased. A sharp decline in sales of can forming equipment, combined with higher marketing and research expenses at the press equipment unit, reduced profits for the group.

Within the transportation group, The Valley Line barge unit recorded higher loadings during the second quarter; however a decline in freight rates and rising fuel costs offset the benefits of volume improvement.

The specialty chemicals group posted sharply higher results for the quarter, with both the domestic and overseas units contributing to the gain. Performance was particularly strong at the overseas unit, where demand for detergent chemicals has remained high.

Among the balance of Sequa's businesses, the ARC professional services units, which serve the military contract market, declined in the second quarter, while the smaller engineered services units, which serve the petroleum and process industries, posted improved results. For the group as a whole, second quarter sales and revenues were unchanged from 1989, and operating income was 20 percent lower.

The financial services group, which centers on Sequa Capital, a leasing and asset-based financing unit, generated higher revenues for the second quarter. However, due to an increase in reserves, operating income declined for the period.

NEW YORK (AUG. 14) PR NEWSWIRE - Ampal-American Israel Corp. (AMEX: AIS.A) reported net income of $714,000 equal to $.03 per Class A share for the three months ended June 30.

Net income for the six months ended June 30 was $1,815,000 equal to $.08 per Class A share. Ampal's entire earnings for the full year of 1989 amounted to $1,509,000.

The corporation also announced the signing of agreements between its industrial banking subsidiaries in Israel and Bank Hapoalim B.M., the corporation's parent, with respect to the sale of substantially all the loan portfolios of the subsidiaries to Bank Hapoalim. The transaction, which is based on the book value of the portfolios at Dec. 31, 1989 was previously announced and is subject to receipt of consents from trustees for three debenture issues sold to the public in Israel by one of the subsidiaries.

Ampal-American Israel Corp. and its subsidiaries are engaged in industrial agricultural, real estate, hotel and tourist enterprises in Israel.

CAMBRIDGE, MA (AUG. 14) PR NEWSWIRE - Responding to the needs of its subscribers, Individual, Inc. has increased its coverage of the global high-technology market by adding three new information sources. Comline, Computergram, and Newsbytes News Network give Individual's customized information product, First!, a deeper, more comprehensive capture of high-tech news from around the world.

Each of the three additional sources has a unique, value-added approach to covering the market. Based in the U.K., Computergram employs more than 30 correspondents around the globe to cover computer industry developments on a daily basis. Not only reporting on events, their journalists also add expert, European-flavored analysis to stories from Europe, Japan, and the U.S. Computergram's particular strengths include UNIX, open computing, and telecommunications.

Newsbytes News Network, the oldest weekly on-line computer industry news service, combines technology coverage with its own expert analysis. It has four U.S. and seven international news bureaus, including the first Soviet bureau for a daily computer service. Newsbytes has recently moved from a weekly to a daily format and continues to specialize in significant micro-computer and consumer technology news worldwide. It won the Best Online Publication award from the Computer Press Association in both 1986 and 1990.

The third new resource, Comline, concentrates on events occurring in Japan. Its daily English-language transmissions include both overnight summary translations of Japanese sources and its own reporters' investigative research. Comline offers the most comprehensive coverage of Japanese electronics, computers, telecommunications, and industrial automation news.

Individual, Inc., based in Cambridge, Mass., (617-354-2230) with offices in Burlingame, Calif., was established in 1988 to build and operate an information refiner, filtering and customizing information from a broad spectrum of electronic sources. The company applies advanced technologies to spread the power of knowledge to business professionals worldwide.

MINNEAPOLIS (AUG. 14) PR NEWSWIRE - Land O'Lakes, Inc. reported six month earnings of $26.5 million, up 25 percent over the same period in 1989. The Twin Cities based food and agricultural cooperative had earnings increases in all of its major agricultural supply and dairy/foods businesses.

Net sales for the period were $1.3 billion, up slightly from 1989. Strong volume increases contributed to feed division earnings in excess of $12 million for the period, an increase of nearly $5 million. Farmer acceptance of a new multi-leaf alfalfa contributed to earnings in the seed division far outpacing 1989. Earnings in plant foods and crop protection products were up 43 percent due primarily to volume increases and market share growth.

The cooperatives' Dairy Foods area recorded a substantial increase in earnings resulting from a one-time gain. Lower margins, particularly in cheese and whey were offset by improved margins in spread products due to stronger volumes.

Land O'Lakes reported total assets of $721 million, and a continued strengthening of its balance sheet.

The cooperative is owned by and supplies agricultural inputs to 500,000 farmers and ranchers from Wisconsin to the Pacific Northwest. It also processes and markets more than 600 food products across the nation.

#90226p5179 08/14/1990 ~PR Newswire

GREENSBORO, N.C. (AUG. 14) PR NEWSWIRE - Vanguard Cellular Systems, Inc. (NASDAQ: VCELA) announced today that total revenues increased to $16,231,000 in the second quarter primarily due to a rise in service revenues, which increased to $13,561,000 as compared to $7,677,000 for the same period one year ago, a 77 percent increase. This also represents a 22 percent increase in service revenues over the immediately preceeding quarter which resulted from greater subscriber penetration and usage. Loss from operations before depreciation and amortization decreased from $5,984,000 to $2,067,000 between the second quarters of 1989 and 1990 respectively, and net loss for the 1990 second quarter declined 18 percent to $9,792,000 or $0.47 net loss per share.

Stephen R. Leeolou, Vanguard's Executive Vice President and Chief Operating Officer commented, "We are very encouraged by our mangement and staff's ability in all our locations to control expenditures while continuing to attract and maintain high quality subscribers. It is essential that we continue to provide quality services to present and potential customers in order to maintain our revenue growth."

The total number of customers in markets controlled by the Company increased 13 percent during the second quarter to 50,000 representing an overall penetration rate of .98 percent. The second quarter's addition of

5,600 customers was the second best quarter in the history of the Company. "We are especially pleased in reaching this subscriber milestone during a period when we opted to reduce advertising and promotion while completing the reorganization of our distribution network," commented Leeolou. "The results of that reorganization can already be seen in declining incremental marketing and sales costs and a more efficient direct sales force."

During the quarter, the Company began the conversion to its new internally developed customer billing and records system in two of its regional systems. The new billing system is expected to improve cash flow through more expedient billing and collection cycles. It also provides the Company with instant access to customer information enabling its customer service department to provide higher quality customer care while providing all customers with a more reliable easy-to-read bill. "Flexible billing and Management Information Systems are critical to the success of any telecommunications firm these days," according to Leeolou. "We are therefore considering the feasibility of offering our systems as a package to other companies."

Vanguard Cellular Systems, Inc. headquarterd in Greensboro, North Carolina directly and indirectly owns interest in and operates cellular telephone sytems primarily in the Eastern United States.

FAIRFIELD, N.J. (AUG. 14) PR NEWSWIRE - Clinical Homecare Ltd. today reported revenue of $4,618,161 for the second quarter of 1990, an increase of 63 percent over the same period in the prior year. The acquisition of NMSA accounted for 42 percent of the increase. Net income for the quarter amounted to $175,577, a decrease of 42 percent under the prior year's second quarter. This decrease was attributed to increased expenses in connection with the acquisition and the company's going public.

Revenue for the six months ended June 30, 1990 amounted to $7,503,322, increasing 34 percent over the same period last year. Net income for the six months amounted to $318,397, decreasing 47 percent when compared to the same period last year.

Management said it was pleased with the results and expects the operating efficiencies adopted within the NMSA organization to be in place during

the third quarter.

Clinical Homecare Ltd., based in Fairfield, N.J., is a provider of infusion therapy to patients in the home.

ALLENTOWN, PA (AUG. 14) PR NEWSWIRE - Penn Treaty American Corp. (NASDAQ: PTAC) today reported that net income for the three months ended June 30 increased to $1,346,576, equal to 42 cents per share, compared with $1,008,043, or 40 cents per share, for the same three-month period of the previous year.

Total revenues for the quarter rose to $10,818,902 from $7,378,489 in the same quarter of the previous year. Net income for the six months ended June 30 increased to $2,802,244, equal to 87 cents per share, compared with $2,057,135, or 82 cents per share, for the same six-month period in 1989. Total revenues for the six months rose to $20,816,436 from $13,961,802 for the same period of the previous year.

Penn Treaty American Corp., through its wholly owned direct and indirect subsidiaries, Penn Treaty Life Insurance Co., Network America Life Insurance Co. and Cher-Britt Service Co., is primarily engaged in the underwriting, marketing and sale of individual fixed defined benefit accident and health insurance policies covering principally long-term skilled, intermediate and custodial nursing home care and home health care. The company is currently licensed to conduct business in 43 states and the District of Columbia.

#90226p5186 08/14/1990 ~PR Newswire

SOUTHFIELD, MI (AUG. 14) PR NEWSWIRE - The H.W. Kaufman Financial Group (NASDAQ: HWKF) announced today that its board of directors has declared a 3-for-2 stock split for shareholders of record on Aug. 31, 1990, payable

Sept. 10, 1990. The board also approved listing of the company's shares to be traded on the American Stock Exchange, which is expected to occur on or about Sept. 6, 1990.

"We believe the combined effect of these two actions will be a stronger and more orderly market for our stock," said Herbert W. Kaufman, chairman and chief executive officer. "These moves also highlight the company's growth and progress, and its strong outlook for the future."

The H.W. Kaufman Financial Group currently has 1.87 million shares outstanding with an estimated public float (shares not held by insiders) of 357,000. The 3-for-2 split will increase the total number of shares outstanding to 2.81 million, and the estimated public float to 535,500. The total market value of the company's present shares outstanding is approximately $11.2 million.

In discussing the company's decision to list its shares on the American Stock Exchange, Kaufman said, "We believe the American Stock Exchange will provide greater support and visibility for our company, and will ultimately serve our shareholders well. We may also examine, on an ongoing basis, further opportunities to increase our shares outstanding through stock splits or other means."

The H.W. Kaufman Financial Group, with 1989 revenues of $19.4 million and earnings per share (pre-split) of $.54, is a leading general agent and broker of specialty insurance products and services provided through three wholly owned subsidiaries: Burns & Wilcox Ltd., Service General, and Royal Premium Budget.

Burns & Wilcox Ltd. focuses on the business and commercial specialty insurance market, helping independent agents gain access to non-standard property and casualty, professional liability, marine and automobile underwriting. It operates 22 branch offices serving 46 states.

Service General is a subsidiary of Burns & Wilcox Ltd. acquired in 1983. It specializes in standard and non-standard personal insurance lines, provided to agents through four offices serving 14 states.

Royal Premium Budget, Inc. was established in 1988 and engages in premium financing in Michigan and Missouri for Burns & Wilcox Ltd., and intends to expand into additional states. In 1989, it acquired the insurance premium loan portfolio of Comerica, Inc. (OTC: CMCA). Royal Premium Budget generates interest income revenues of $73,800.

In 1989, the H.W. Kaufman Financial Group achieved record levels of premium volume, and commission and fee revenues. Premium volume is a measure of the company's level of business activity, although it is not reported on the company's financial statements. Commission and fee

revenue is equivalent to total revenues or sales. As of the second quarter ended June 30, 1990, the company was on track to achieve new record levels of premium volume, and commission and fee revenues.

Kaufman has achieved steady growth in premium volume and commission and fee revenues over the last five years despite an industrywide soft-market cycle. In June, Kaufman said the company expects "to achieve a new record level of commission and fee revenue for 1990 in the $21-24 million range on the strength of record premium volume, which is expected to exceed $100 million compared to $93 million in 1989. Based on our first-half results and continued branch office expansion, we believe these levels are achievable.

"Over the last five years for the insurance industry as a whole, and since 1987 for the H.W. Kaufman Financial Group, the average rates per policy have been steadily dropping," Kaufman said. "Fortunately for us, we've been able to overcome this trend and increase total revenues by expanding the number of policies written from 8,700 in 1987 to 17,300 at the end of 1989, an increase of 99 percent. Moreover, this upward trend has continued into 1990. In fact, we're projecting that over 22,000 policies will be written this year."

Kaufman continued by saying, "In the insurance industry, a soft market refers to a cycle in which policies are written at generally lower rates as a way to generate funds for investment purposes. The soft market started about the same time that interest rates were swelling in the mid-1980s, and insurance rates have been falling since that time as insurers have been competing for available investment dollars. In fact, Kaufman's average premium per policy declined 23 percent since 1987 from an average of $6,930 to $5,290 per policy in 1989.

"However, beginning in the fourth quarter of 1989 and continuing through the second quarter of 1990, we've noted that the average premium per policy has stabilized and is no longer declining."

Since 1982, the H.W. Kaufman Financial Group has added 19 new branch offices, including its most recent opening in New Jersey in January and last week's acquisition of an additional operation in St. Louis. Aggressive expansion of branch offices and new products have allowed the company to more than double in size since 1986, despite the soft-market conditions that have been prevalent.

Two weeks ago, the company announced that it was in negotiations and due diligence was in process for the acquisition of an unnamed specialty agent and broker. Kaufman said he is hopeful that the acquisition will be completed by Oct. 1.

The company is based in Southfield, and its common shares are currently

traded on NASDAQ under the symbol HWKF.

NEW YORK (AUG. 14) PR NEWSWIRE - Stage II Apparel Corp. (AMEX: SA), one of the nation's largest distributors of popular priced brand-name men's and boys' casual apparel and activewear, today reported financial results for the second quarter and six months ended June 30, 1990.

Net profit for the six months was $16,000, or 0 cents per share, on net sales of $40,037,000, compared with net income of $1,635,000, or 38 cents per share, on sales of $42,425,000 for the comparable six months last year on fewer shares outstanding. Average number of shares outstanding decreased to 4,252,000 in 1990 from 4,277,000 in 1989 as a result of the company's purchase of treasury stock.

Net loss for the quarter was $757,000, or 18 cents per share, on net sales of $15,367,000, compared with net income of $379,000, or 9 cents per share on sales of $20,171,000 for the comparable quarter last year, on fewer shares outstanding. Average number of shares outstanding decreased to 4,245,000 in 1990 from 4,277,000 in 1989, as a result of the company's purchase of treasury stock.

Jack Clark, chairman of the board, expressed optimism concerning the future. "The company continues to pay dividends, and all losses relative to the bankruptcy of Ames (a major customer of the company) have been reflected in this quarter's figures," he stated. "The future bookings are strong, and the company should benefit from overhead cuts and the strong names and lines that have been developed for the future. The financial results for the rest of this year will be no worse than those of this quarter, and I am confident that the company will return to profitability in the near future."

#90226p5188 08/14/1990 ~PR Newswire

ALLENTOWN, PA (AUG. 14) PR NEWSWIRE - Air Products and Chemicals Inc. (NYSE: APD) has sold a 50-percent equity interest in a $190-million cogeneration project under construction in Cambria County, Pa., to Energy

Investors Fund LP of Boston.

The equity sale, which is valued at $30 million, will produce approximately a $6.0-million after-tax net income impact, or $.11 per share, in Air Products' fourth quarter ending Sept. 30.

When completed next spring, the Cambria facility will burn waste coal to generate approximately 80 megawatts of electricity for sale to Pennsylvania Electric Co. It will also produce steam to heat a nearby nursing home and to dry coal at a local mine. The electricity and steam supply contracts will have an initial term of 20 years. The facility is located approximately 70 miles east of Pittsburgh near the town of Ebensburg.

Air Products' cogeneration business is part of the company's rapidly expanding environmental and energy portfolio which also includes waste-to-energy and flue gas desulfurization systems. These businesses offer substantial growth as the United States addresses intensifying needs for solid waste disposal, cleaner air, and energy production utilizing domestically available alternative fuels, such as coal and waste coals. The company and its partners are presently investing $1.2 billion in six environmental and energy projects which are in operation or construction. One of these projects is a $100-million, 49-megawatt cogeneration plant in Stockton, Calif. This facility is recognized as one of the most reliable circulating fluidized-bed, coal-fired power plants in the United States.

Energy Investors Fund, L.P. is a Boston-based partnership whose general partners are John Hancock Mutual Life Insurance Co., HYDRA-CO Enterprises Inc., KENETECH Corp. and Pacific Generation Co. The fund raised approximately $160 million from 17 investors to invest as equity in independent power/alternate energy projects. Since its establishment in Sept. 1989, the fund has invested in 5 projects, with the Cambria cogeneration project being its largest and only waste-coal project. Each of the Fund's general partners is engaged in energy project investment or development and brings diversified expertise and relevant experience to the fund's investment program.

Air Products and Chemicals Inc. has annual sales approaching $3.0 billion, operations in 22 countries, and 14,000 employees. Corporate headquarters are near Allentown.

NEW YORK (AUG. 14) PR NEWSWIRE - Mizlou Communications Company, Inc.

(NASDAQ: MZLUL, MZLU) today reported operating results for its third quarter and nine-month periods ended June 30, 1990. In the three month period, Mizlou recorded revenues of $283,067, an 18 percent increase over the $238,959 reported in the same period in 1989. Net losses increased to $5,590,177, or $.37 per share, compared to a net loss of $746,886, or $.05 per share, reported in the year-ago quarter. This increase is due primarily to production costs and selling and promotional expenses related to the company's Sports News Network (SNN), the nation's first and only 24-hour, 7-day-a-week sports cable news network which was launched on Feb. 1, 1990.

For the nine months ended June 30, Mizlou reported revenues of $983,771 versus $2,292,267 for the same period in 1989. Net loss was $10,732,440 or $.71 per share, compared to $361,975, or $.02 per share, in the year-ago nine months.

Mark Wenzel, chief operating officer, commented, "The three-month and nine-month results reflect the rapid growth of our SNN operations and its attendant production costs, start-up expenses and selling and promotional expenses and, in the nine-month period, lower revenues from sports events broadcasting. In the past six months, SNN has signed agreements with cable operators serving 17.5 million homes and with over 20 major advertisers."

HOUSTON (AUG. 14) PR NEWSWIRE - Jiffy Lube International Inc. (NASDAQ: JLUB) today announced that a proposal to effect a one-for-ten reverse split of the company's common stock will be included in the matters to be voted on by stockholders at its Sept. 6, 1990, annual stockholders meeting. Since March 31, 1990, Jiffy Lube's common stock has traded within the range of a high of $2-5/8 to a low of $1-3/8. Jiffy Lube's board of directors believes that the proposed reverse split, whereby every 10 shares will be combined to form one full share, should result in a more appropriate trading range for Jiffy Lube's common stock.

Information concerning the proposed reverse split is contained in Jiffy Lube's proxy materials for the 1990 annual meeting, which are being mailed to stockholders beginning today.

BETHEL, CT. (AUG. 14) PR NEWSWIRE - Duracell Holdings Corp., today announced unaudited net earnings of $6 million on sales of $1.3 billion for the fiscal year ended June 30, 1990, the second full year of operation after the company was acquired in a leveraged buyout. In fiscal 1990, sales increased 7 percent and operating income increased 27 percent to $226 million, compared to $178 million in fiscal 1989 (which had been adjusted to exclude the $52 million one time impact of a nonrecurring inventory purchase accounting adjustment).

Operating cash flow, defined as operating earnings plus depreciation and amortization, for 1990 was $306 million compared to $260 million in 1989. In fiscal 1989 the company incurred a loss of $106 million. Duracell Holdings Corp., headquartered in Bethel, is the world's leading producer of consumer alkaline batteries.

#90226p5203 08/14/1990 ~PR Newswire
MINNEAPOLIS (AUG. 14) PR NEWSWIRE - Directors of TENNANT (NASDAQ: TANT) today declared a regular quarterly cash dividend of 30 cents per share payable Sept. 13, 1990, to shareholders of record Aug. 30, 1990. This will be the 187th consecutive quarterly cash dividend to be paid by the company. There are approximately 4,921,000 shares of common stock outstanding.

The directors also approved amendments to the company's share rights plan which lower the threshold percentages at which rights may be exercised. TENNANT CEO, Roger L. Hale, said that changes decrease threshold percentages for exercising the rights from the levels at which they were set when the plan was established in December 1986 to that of numerous other share rights plans and that the changes are not a response to a suspected or known takeover attempt.

Each right issued under the plan entitles a shareholder to buy one-twentieth of a share of junior participating preferred TENNANT stock at a price of $75, subject to adjustment. The rights expire Dec. 23, 1996 unless they are redeemed or exchanged before that date or the expiration date is extended.

As amended, the rights would become exercisable if a person or group acquires 20 percent or more of TENNANT's common stock or announces a

tender offer which, if consummated, would give the offeror ownership of 20 percent or more of the company's common stock. The board may delay exercisability in the case of a tender offer.

TENNANT is entitled to redeem the rights at 5 cents per right at any time before a party acquires 20 percent or more of the company's common stock and, in certain circumstances, during the following 20- day period, subject to possible extensions.

If a person or group acquires 20 percent or more of the company's common stock, each right that has not been exercised, redeemed or exchanged (except rights held by the 20 percent shareholder or its affiliates, associates or certain transferees, which rights shall be suspended) will entitle its holder to purchase TENNANT common stock having a market value of twice the right's exercise price, subject to possible adjustment.

If TENNANT is acquired in a merger or other transaction after a person or group acquires 20 percent or more of its common stock, the holder of each unexercised right may purchase common stock of the acquiring company having a market value of twice the right's exercise price.

The amendments to the plan permit the board, in certain instances, to exchange rights for TENNANT common stock or reduce the 20 percent thresholds to not less than 10 percent. The 20 percent thresholds do not apply to stock ownership by or on behalf of employee benefit plans.

The amendments do not require redemption of the rights or the issuance of new rights.

TENNANT is the world's leading manufacturer of floor maintenance equipment.

MEMPHIS, TN (AUG. 14) PR NEWSWIRE - Stephen F. Bollenbach, senior vice president and chief financial officer, The Promus Companies Incorporated (NYSE: PRI), will join the Trump Organization as chief financial officer after a brief transitional period, it was announced today. Bollenbach, who is also resigning his seat on the Promus Board of Directors, joined the Holiday Corporation in September l986. Promus was spun off from Holiday in February of this year.

"Steve performed outstandingly for us the last four years and we will certainly miss not only his professionalism but also his unremitting good humor and comradery," said Michael D. Rose, chairman, president and chief executive officer of The Promus Companies.

"Steve played a key role in the restructuring of our predecessor company his first two years here and the acquisition of Holiday Inn hotels by Bass PLC early this year. We are no longer in a period of such intense financial engineering and we well understand his desire to move on to another challenging task," Rose said.

Rose said that Promus will identify the strengths and qualities the company will need in a successor and examine its options before selecting a new CFO.

DALLAS (AUG. 14) PR NEWSWIRE - Dallas-based United Medicorp Inc. (NASDAQ: UMCI), a company in the development stage, announced that, for the three months ended June 30, 1990, expenses exceeded revenues by $1,779,601. Net revenue for the period totalled $211,886 (with $102,527 earned in June 1990), as compared to net revenue of $87,322 for the three months ended March 31, 1990, resulting in a 143 percent increase in net revenue as compared to the previous quarter. 15,721 claims were accepted for processing by the company during the three months ended June 30, 1990, as compared to 6,922 claims accepted for processing during the three months ended March 31, 1990.

United Medicorp was formed in March 1989. During the remainder of 1989 the company developed a proprietary software system and built an organization to provide a unique and cost-efficient service to streamline the processing, management and collection of medical insurance claims for its customers -- the nation's hospitals, clinics and physicians. Since the beginning of 1990, the company has been actively selling its services.

#90226p5212 08/14/1990 ~PR Newswire

MURFREESBORO, TN (AUG. 14) PR NEWSWIRE - Pricor Incorporated (NASDAQ:

PRCO) today announced operating results for the first quarter of fiscal 1991.

First quarter revenues were $6,118,983, an increase of 32 percent from revenues of $4,649,987, reported in the first quarter of fiscal 1990. During the first quarter of fiscal 1991, the Company's operating contribution totaled $1,074,858, compared to a contribution of $1,117,765 reported during the same three month period a year earlier.

For the first quarter of fiscal 1991, Pricor reported a net loss of $142,262, or $.02 per share, as compared to net income of $139,833, or $.03 per share, reported in the first quarter of fiscal 1990.

Pricor Chairman Hubert L. McCullough made the announcement saying, "We are pleased with the 32 percent revenue growth for the first quarter of fiscal 1991 over the first quarter of fiscal 1990. However, operating expenses, particularly in CCS, an acquisition which operates seven residential group homes, were higher than had been expected. Expenses on existing contracts in California were negatively impacted by a worker's compensation insurance rate change which, over the course of this fiscal year, will increase operating expenses by about $225,000.

"First quarter revenues from our youth education services were negatively impacted by the timing of Spring Break, leaving the first quarter of fiscal year 1991 with seven percent fewer school days than the comparable quarter of the prior year," McCullough said.

"Certain other factors should be considered when evaluating first quarter results," McCullough said. "Operating expenses for the first quarter of fiscal year 1991 included about $50,000 of non-recurring operating expenses. Additionally, many of the existing California contracts were renegotiated subsequent to the close of Pricor's first quarter and now include rate increases which will help to offset rising costs.

"While operating margin pressures are expected to continue, the Company's operations on the whole are very sound and improvement in results is expected, particularly in the traditionally high margin fourth quarter," McCullough said.

"Finally, our selling, general and administrative expenses were affected by one-time costs of approximately $70,000 associated with a transition in our senior management.

"Starting in the second quarter we will begin to realize revenues from San Diego-based Broad Horizons, which we acquired subsequent to the close of the first quarter," McCullough said. "Broad Horizons will commence a day school program in the third quarter of this year. When fully operational combined annualized revenues from Broad Horizons are expected to exceed

$5 million.

"The first of Pricor's Texas jail contract are expected to begin operations in the third and fourth quarters of this year. Contributions to profits from these contracts are likely to be modest until the fourth quarter of this year or possibly the first quarter of fiscal year 1992."

Pricor Incorporated is the nation's leading for-profit private provider of special educational and treatment services for youth. The Company is also one of the oldest and largest private adult correctional services companies. Pricor has contracts in Alabama, California, Tennessee, Texas and Virginia and business interests in the United Kingdom.

VANCOUVER, BRITISH COLUMBIA (AUG. 14) PR NEWSWIRE - United North American Resources Inc. (UNR) (Toronto: UNR) announces the successful completion of the Valentine Sugars Inc. No. 9 well in Lafourche Parish, La. Analysis of logs indicates 74 feet of gross pay in two potentially productive zones from 6932 feet to 6956 feet at the Upper Acosta level and from 7898 feet to 7948 feet at the South Coast Sand.

The lower zone has particular significance for UNR in that they provide, for the first time, proof of the existence on the company's lease of deep pay zones in the pressured section. This deeper potential formed part of the rationale for the company's original acquisition of the Valentine Lease. The nearest production from similar deep pressured zones is at the

Hollywood Field, Houma, La., 12 miles west of Valentine, at a depth below 14,000 feet. Hollywood is one of the largest gas fields in Louisiana.

The company anticipates that an independent engineer's report prepared in connection with the forthcoming intended listing on the London Stock Exchange later this year will, having taken into account information obtained from the well No.'s 6, 7, 8 and 9, show a significant increase in its proved reserves over the figure quoted in the brochure issued during the recent private placement.

Notwithstanding substantial shows of gas and condensate from the deeper South Coast zone in the No. 9 well, mechanical and pressure problems have prevented the successful completion of this zone. The zone at the Upper Acosta level was completed with a flowing tubing pressure of 1200 p.s.i. on an 8/64 inch choke from perforations in an interval from 6936 feet to 6948 feet at a rate of 102 bopd and 500 mcfpd. The calculated open hole flow rate for this well is 762 bopd of 38.45 API oil.

UNR recently increased its working interest in the Valentine lease from 35 percent to 41.5 percent.

PHILADELPHIA (AUG. 14) PR NEWSWIRE - ICC Technologies, Inc. (OTC: ICGN) today announced that the Securities and Exchange Commission had declared effective the company's registration statement covering 793,584 shares of common stock as of 5:00 p.m. on Aug. 13, 1990. Of the shares registered, 625,572 shares are issuable upon the exercise of certain warrants received by stockholders of record as of June 18, 1990, as an in-kind dividend which was previously declared by the company's board of directors. The exercise price for the warrants is $5.00 per share. The warrants may be exercised for 180 days following Aug. 13, 1990, the effective date of the company's registration statement, and may be redeemed by the company upon 30 days notice for $.001 per warrant. The company's registration statement also covers 168,012 shares of common stock which will be issued to certain creditors of the company in exchange for outstanding debts. The company is continuing to qualify the sale of the common stock under various state Blue Sky laws.

ICC Technologies, Inc., headquartered in Philadelphia, develops and markets innovative, efficient and environmentally sound power generation and space conditioning technologies to address the needs of today's commercial marketplace. The DESI/GEN system is being marketed by the company to industries with a need for effective climate control and energy

management, including supermarkets, hotels, large retail outlets, office buildings and fast food chains.

HOUSTON (AUG. 14) PR NEWSWIRE - Republic Waste Industries Inc. (NASDAQ: RWIN) reported today net income for the second quarter ended June 30, 1990 of $973,000 or 13 cents per share on revenues of $9.4 million. Revenues for the first six months stood at $12.9 million resulting in profits of $1,176,000 or 20 cents per share. Proforma results, for the first six months were also reported and reflected 45 cents per share earnings on proforma revenues of almost $28 million.

Our acquisition program has created significant growth in sales revenues over the comparable 1989 period while generating substantial profitability compared to a $92,000 loss for the same period last year," said James D. Lee, Republic president. "This growth in revenues and earnings demonstrates that our acquisition strategy is working."

Republic changed its name and business direction earlier this year and has acquired seven companies since February 1990. The company has also announced entering into letters of intent to acquire five additional solid waste companies in Texas and California. The reported operating results do not include the five new acquisitions.

Republic Waste Industries Inc. is a Houston-based company specializing in the collection, processing and disposal of solid waste. The company's common stock is traded over the counter under the NASDAQ symbol RWIN.

#90226p5229 08/14/1990 ~PR Newswire

MONTREAL (AUG. 14) PR NEWSWIRE - Quebecor Inc. (AMEX: PQB) announced today that consolidated revenues for the second quarter of 1990 have reached $636 million, compared to $437 million for the corresponding quarter of 1989, an increase of 46 percent.

Consolidated net income for the same period amounted to $10.1 million, or $0.43 per share, in 1990, compared to $8.7 million, or $0.36 per share, in 1989, an increase of over 16 percent.

Consolidated revenues for the six-month period ended June 30, 1990, have reached $1,127 million, compared to $859 million in 1989, an increase of 31 percent.

Consolidated net income for the same period amounted to $56.5 million, or $2.40 per share in 1990, and to $12.8 million, or $0.54 per share in 1989. This year's figure includes a net, exceptional and non-recurrent accounting gain of $42.3 million after deferred income taxes of $20 million. The net income for the six-month period ended June 30, 1990, excluding this exceptional gain, is therefore $14.2 million, or $0.61 per share.

Revenues of Quebecor Printing Inc., the most important commercial printer in Canada and the second largest in North America, have reached $379 million for the second quarter of 1990, compared to $172 million, for the corresponding quarter of 1989. This large increase is due to the sales volume of printing plants acquired from Maxwell Graphics at the end of

February 1990.

Quebecor Group Inc.'s revenues, which comprises publishing, distribution and retail activities, amounted to $107 million, compared to $104 million in 1989; for Mircor Inc., which regroups Donohue Inc. and its subsidiaries they amounted to $150 million, compared to $162 million in 1989.

For the six-month period ended June 30, 1990, the revenues of Quebecor Printing Inc. reached $621 million, compared to $341 million for the corresponding period of 1989; for Quebecor Group Inc., they amounted to $205 million, compared to $196 million in 1989; for Mircor Inc., they amounted to $301 million in 1990, compared to $322 million in 1989.

The Class A shares of Quebecor Inc. are listed on the Montreal Stock Exchange, the Toronto Stock Exchange and the American Stock Exchange. The Class B subordinate voting shares are listed on the Montreal and Toronto stock exchanges.

Quebecor, a leader in the communications industry in Canada, is active in three sectors: publishing, printing and forest products.

#90226p5230 08/14/1990 ~PR Newswire

DENVER (AUG. 14) PR NEWSWIRE - M.D.C. Holdings Inc. (NYSE: MDC), national home builder and mortgage banking company, today reported its first quarterly profit from operations (i.e., income before income taxes, minority interest and extraordinary gains) since the first quarter of 1988.

MDC's operating income totalled $2.8 million and $.9 million, respectively during the three and six months ended June 30, 1990 as compared to losses of $8.8 million and $29.4 million, respectively, during the like periods in 1989.

Net income (i.e., income after income taxes, minority interest and extraordinary gains) for the three and six months ended June 30, 1990 was $2.2 million, or 11 cents per share, including a $.9 million extraordinary after-tax gain from the company's repurchase of $2.4 million principal amount of its senior subordinated and subordinated notes, and $5.7 million or 30 cents per share, including a $6.7 million extraordinary after-tax gain from the company's purchase of $16.4 million of its senior subordinated and subordinated notes, respectively.

During the three and six months ended June 30, 1989, MDC incurred net losses of $5.3 million, or 33 cents per share, and $.3 million, or 2 cents

per share, including a $17.5 million extraordinary after-tax gain from the company's repurchase of $72.7 million principal amount of its senior subordinated and subordinated notes, respectively.

During the three and six months ended June 30, 1990, MDC closed 546 and 1,065 homes, as compared to 933 and 1,687 closings, respectively, during the like periods a year ago. At June 30, 1990, the company's backlog of residential units sold but not closed was 791 units having an approximate sales value of $159.9 million, compared with a backlog of 1,215 units having an approximate sales value of $209.1 million at June 30, 1989.

Browne noted the decline in home closings and backlog in 1990 as compared to 1989 is due primarily to: (i) declines in home closings in southern California, due principally to the sale of a large portion of the company's land inventories during the third quarter of 1989 which reduced the number of sites available for future home construction, and in Virginia, due to weakening market conditions, and (ii) the closing of the company's Dallas home building operations in the second quarter of 1989.

Revenues for the three and six months ended June 30, 1990 were $147.6 million and $279.9 million, respectively, as compared to $192.7 million and $349 million, respectively, for the like periods in 1989.

The company's net income per share for both the three and six months ended June 30, 1990 was based on 19.1 weighted average shares outstanding as compared to 15.9 million weighted average shares outstanding for both the like periods in 1989.

#90226p5233 08/14/1990 ~PR Newswire

JACKSON, MI (AUG. 14) PR NEWSWIRE - Patrick Petroleum Company (NYSE: PPC) today said it is an 8-percent participant in a horizontally drilled Bakken oil well located in Billings County, N.D.

The Nautilus No. 1-11, a wildcat, initially tested at 839 barrels of oil per day and produced at an average of 664 barrels of oil per day during the first 17 days of production.

The well was drilled to a true vertical depth of 10,287 feet, with a horizontal leg of approximately 2,000 feet. Slawson Exploration Company, Inc. is operator of the well.

Company President U.E. (Pat) Patrick stated, "This is an excellent well that at this early date appears to be one of the best among the 60- plus horizontal Bakken tests drilled in this area in the past two years. We have additional leasehold interests in the immediate vicinity of the Nautilus No. 1-11 and throughout Billings County, as well as in neighboring Richland County, Mont. The rapid development of horizontal drilling technologies may also have significant applications to our very substantial leasehold interests of 88,700 net acres in the entire Williston Basin area," Mr. Patrick said.

In addition to Patrick Petroleum and Slawson, other participants in the well are TXO Production Corporation, Columbia Gas Development Corporation, NEXCO Inc., Viersen & Cochran and Leigh C. Crueger and Associates.

Patrick Petroleum Company is an independent exploration and production company listed on the New York Stock Exchange since 1976 (symbol: PPC). The company has interests in producing properties and undeveloped acreage in 13 states, including various interests in approximately 549 oil and gas

wells located primarily in Michigan, North Dakota, Texas, Oklahoma and Louisiana.

PITTSBURGH, (AUG. 14) PR NEWSWIRE - A settlement agreement under which a subsidiary of Equitable Resources Inc. (NYSE: EQT) will be permitted to recover $25.1 million plus certain carrying charges from a subsidiary of the Columbia Gas System (NYSE: CG) was filed today with the Federal Energy Regulatory Commission (FERC), it was announced today.

The settlement, between Kentucky West Virginia Gas Co. and Columbia Gas Transmission Co., calls for the payments to be made to Kentucky West over an 8-year period.

Additionally, Columbia Transmission has agreed to cancel its sales contract with Kentucky West, and to reform and expand its transportation agreement with Equitrans Inc., another Equitable subsidiary, to an open access arrangement for Equitrans and its affiliates.

The settlement, which must still be approved by the FERC, stems from the commission's forced underpricing of Kentucky West's gas production from 1978 to 1983. After three federal court decisions upholding the company's entitlement to the higher prices, the FERC in January 1989 finally approved Kentucky West's proposal to direct bill customers for a portion of the lost revenues.

The agreement settles an estimated claim against Columbia Transmission of $57.5 million, relating to its purchases of Kentucky West gas during the 1978-83 period.

Kentucky West has already filed similar settlements amounting to $3 million for gas sold to two municipal utilities in Kentucky.

COSTA MESA, CALIF. (JULY 23) PR NEWSWIRE - The O.E.M. Division of Procom Technology Inc., a technology-driven manufacturer of board level SCSI host adapters and software drivers for the O.E.M. and industrial distribution markets, today announced the opening of two new facilities and the addition of new sales and administrative staff.

An East Coast regional sales office has opened to accommodate the heightened interest in the new division's O.E.M. product offering and will be headed by Richard Prairie, most recently a sales manager with Future Domain, and formerly with Caliper and Siemens.

In addition to the East Coast facility, a new office, headquartered in Buckinghamshire, England, has been established to address the growing microcomputer market place in Europe. Both the U.S. headquarters in Costa Mesa, and the European headquarters in England will be headed by Procom Technology O.E.M. Vice President Tom Miller, also formerly with Future Domain and Micropolis. According to Miller, "The increased demand for our new O.E.M. products pointed to the obvious need for satellite offices, both domestically and abroad." He added that a Pacific Rim office will be opening in the next 120 days.

Other new staff additions building the O.E.M. division include National Distribution Sales Manager, Patricia Seifert, who will be developing and industrial distribution sales team and Judy DeWinter, an executive assistant who will oversee all administrative, marketing and sales coordination activities.

Miller will be increasing the division's staff even more when Procom Technology reolcates its headquarters to an 80,000 square foot facility located in Irvine, Calif. These plans include the addition of a senior level product manager, several engineers with applications oriented backrounds and two more senior level domestic sales managers.

BUFFALO, N.Y. (AUG. 14) PR NEWSWIRE - Delaware North Companies Inc., and

LSG Lufthansa Service GmbH, part of Lufthansa German Airlines, said in a joint announcement today that LSG Lufthansa Service GmbH will acquire the Dairy Farm Catering Group, the Hong Kong based in-flight foodservice and general catering subsidiaries of Delaware North. No sales price was released.

Officials of both companies said the announcement was made to end speculation that Dairy Farm, which has been hotly pursued by several companies, was still for sale. The sale is scheduled to close on Sept. 20 subject to the approval of Lufthansa's Supervisory Board and Cartel Office of the Federal Republic of Germany.

The Dairy Farm Group generates $75 million annually from airline and general catering operations in Hong Kong, the People's Republic of China, Thailand and Southern Pacific islands.

LSG Lufthansa Service GmbH was founded as a wholly-owned subsidiary of Deutsche Lufthansa AG (Lufthansa German Airlines) on April 26, 1966. Since then, LSG, a caterer with worldwide operations, has developed into Europe's biggest catering company with sales totalling a good DM 800 million in 1990.

Besides in-flight catering, LSG is also active in the following areas of business: Lufthansa Party Service, Airport shops, Catering Consulting, which also has a worldwide sphere of operations, Airport Restaurants and Retailing and Mail Order (supplying embassies, hotels and companies throughout the world with German food).

Delaware North, a Buffalo based $1 billion-plus private international holding company, purchased the Dairy Farm Catering Group in 1985.

NASHVILLE, TN (AUG. 14) PR NEWSWIRE - Allied Clinical Labs (NASDAQ: ACLB) announced today substantially improved results of operations for the second quarter and six months ended June 30, 1990.

Net income for the second quarter of 1990 increased to $870,000, or $.16 per share compared to pro forma net income of $75,000, or $.01 per share for the second quarter of 1989. Net income for the first six months of 1990 was $1,742,000, or $.33 per share compared to a pro forma net loss of $104,000, or $(.02) per share, for the same period last year.

Net revenues for the second quarter of 1990 totaled $19,222,000, a 28 percent increase above the pro forma $15,048,000 reported for the 1989 quarter. Net revenues for the six months ended June 30, 1990 were $38,445,000, up 33 percent from the pro forma $28,954,000 reported for the 1989 first half.

1989 net income and revenues are presented on a pro forma basis, assuming that the Company's acquisition of its operating subsidiary took place at the beginning of the year, consistent with presentations in the Company's Prospectus dated July 31, 1990 and its Form 10-Q to be filed for the second quarter. Per share information is based on 5,322,000 shares outstanding in each period reflecting the Company's recent stock split and conversion of preferred stock and accrued dividends into common stock. The recapitalization has been applied to 1989 results to present comparable, pro forma earnings per share.

Allied Clinical Laboratories owns and operates regionally-based clinical testing laboratories. The company provides testing services to physicians hospitals, clinics and other health care providers through a national network of seven regional laboratories (one of which serves as a reference laboratory) and 50 other service sites. The Company also contracts with 14 hospitals to manage their on-site laboratories. Allied Clinical Laboratories completed its initial public offering of common stock on July

31, 1990 and began trading on NASDAQ at that time.

MINNEAPOLIS (AUG. 14) PR NEWSWIRE - ULTIMAP CORPORATION today announced the largest order in the company's history. The city of Greensboro, N.C., has contracted with ULTIMAP to develop and install an integrated municipal engineering and geographic information system. Under the contract, valued at more than $700,000, ULTIMAP will furnish hardware, software, and professional services to tightly integrate the UltiMap geographic information system with the CEDRA civil engineering software system. In a related order, Guilford County, N.C. (the county in which the city of Greensboro is located), has placed an additional order with ULTIMAP that brings the total value of the new business to almost $800,000.

"We have been evaluating the city's information and engineering needs for some time," said Ed Kitchen, assistant city manager for the city of Greensboro. "We determined that we need better ability to manage information relative to the locations of things. We knew the way to do that was through an automated Geographic Information System (GIS). We also recognized that Computer-Aided Design and Drafting (CADD) would improve the city's engineering operations, which involve lots of information related to the locations of things. The solution became obvious: a fully integrated CADD/GIS system."

UltiMap is a unique software system that fully integrates Automated Mapping and Facilities Management (AM/FM), Geographic Information Systems (GIS), and Computer-Aided Design and Drafting (CADD). The UltiMap System was originally developed and proven by Hennepin County, Minn., and the city of Minneapolis and is now marketed and supported worldwide by ULTIMAP CORPORATION, a Minneapolis-based company specializing in providing geographical information management products and services.

ULTIMAP CORPORATION is a subsidiary of ULTIMAP INTERNATIONAL CORPORATION, whose stock is traded nationally over-the-counter under the NASDAQ symbol "UMAP."

WASHINGTON (AUG. 14) PR NEWSWIRE - MCI Communications Corporation (NASDAQ-NMS: MCIC) and Telecom USA Inc. (NYSE: TTT) today concluded the long distance industry's largest merger, which combines the nation's second and fourth largest long distance telecommunications companies.

Under the agreement, originally announced on April 9, MCI acquired all outstanding shares of Telecom USA's common stock for cash at a price of $42 per share, for a purchase price of approximately $1.25 billion.

"We're delighted the merger is concluded, and look forward to upholding Telecom USA's tradition of providing the highest level of service and the broadest array of products to meet customers' communications needs," Bert C. Roberts Jr., MCI president and chief operating officer, said.

"The merger of two of the industry's most aggressive and creative companies will be beneficial to both customers and shareholders," O. Gene Gabbard, MCI chief financial officer and executive vice president and former chairman of Telecom USA, said. "By combining both organizations' employees, facilities and technology, MCI becomes an even stronger force in the long distance marketplace."

MCI has obtained all necessary state and federal regulatory approvals for the transaction.

The acquisition will be initially funded by bank debt and cash on hand. The company expects that the bank debt will be repaid within three years.

#90226p5253 08/14/1990 ~PR Newswire

MIAMI (AUG. 14) PR NEWSWIRE - Eastern Airlines today reported a net loss of $35.6 million for the quarter ended June 30, 1990, after a gain of $114.8 million on the sale of assets. This compares with a year-earlier net loss of $129.3 million for the same period, after a gain of $261.8 million.

Eastern said 1990 figures are not directly comparable with year-earlier results due to a March, 1989 strike that drastically reduced the airline's level of operations.

Operating revenues for the second quarter, 1990, were $545.2 million, with an operating loss of $94.9 million, vs. $89.6 million and $243.4 million, respectively, for the second quarter, 1989.

Eastern said its second quarter results show improvement and a trend toward reducing losses during the rebuilding period, but also reflect the impact of adverse publicity during March and April which impacted advance bookings for April and May.

The airline said it expects losses for the remainder of 1990 due to its ongoing rebuilding effort and the industry impact of rising fuel costs.

Eastern said its complement of higher-yielding business vs. leisure passengers has improved during the second quarter as a result of its marketing initiatives. The company expects that trend to continue as a result of new programs to be announced later in the third quarter.

For the six months ended June 30, 1990, operating revenues were $1.102 billion and the airline posted a net loss of $172 million. For the same period in 1989, operating revenues were $710.2 million, with a net loss of $384.5 million.

Operating losses for the first half of 1990 were $213.8 million, vs. $453.8 million for the same period in 1989.

The airline flew 4.3 billion revenue passenger miles during the second quarter, with a load factor of 59.84 percent. For the first half of 1990 revenue passenger miles were 9.1 billion, with loads of 61.59 percent.

During the first half of 1989 Eastern flew 5.0 billion revenue passenger miles with a 58.46 percent load factor.

#90226p5255 08/14/1990 ~PR Newswire

EATONTOWN, N.J. (AUG. 14) PR NEWSWIRE - Syntrex Incorporated, (NASDAQ: STRX) which recently changed its fiscal year from a year ending in October to a year ending in April, announced today that revenues for the quarter and six months transition period ended April 29, 1990 were $21.9 million and $30.5 million, respectively, compared to $11.5 million and $21.6 million during the comparable periods of the prior year.

The increase in revenues for each period is due primarily to the company's expanded customer base which resulted from the acquisition of the former Lanier Business Systems unit of Harris Corporation in January 1990. During the three and six month periods ended April 29, 1990, the company incurred a net loss of approximately $6.3 million ($.83 per share) and $8.4 million ($1.11 per share), respectively. Net losses for the three and six month periods ended April 28, 1989 were $1.1 million ($.15 per share) and $4.4 million ($.60 per share), respectively.

The net losses for the three and six month periods ended April 29, 1990 include $1.7 million of non-recurring expenses incurred in connection with the Lanier acquisition. In addition, Dan Sinnott, chairman and CEO of Syntrex, noted that, "Other matters relating to the Lanier acquisition adversely affected the company's operating results for the three and six month periods ended April 29, 1990." Gross margins for the three months ended April 29, 1990 declined primarily as a result of the application of purchase accounting treatment to the acquisition which requires the recording of acquired maintenance contracts at net cost to complete. As a result, there is a one time elimination of gross margin from these acquired contracts for their remaining term. This accounting treatment had the effect of reducing gross margin by $1.3 million for the quarter ended April 29, 1990, and is expected to reduce gross margin in the next three quarters by an additional amount approximating $2 million. Also, the company took additional charges against operating results in the amount of $445,000 for costs related to inventory acquired from Lanier. In summary, of the $6.3 million net loss for the three months ended April 29, 1990, approximately $3.5 million of this loss can be attributed to certain events related to the Lanier acquisition described above.

Since the close of the Lanier Business Systems acquisition in January 1990 the company has consolidated operations in two phases. During the first phase from Jan. 29 to April 29, most of the field location were combined and the active inventories located in Atlanta were transferred to the company's headquarters in Eatontown, N.J. In addition, all of the Finance and Administration functions were consolidated in the company's headquarters. These steps significantly reduced facility expenses. On April 29, 1990, at the start of its new fiscal year, the company initiated phase two by consolidating all of its sales, system engineers, customer service and administrative personnel into a single Field Operations Group. Additional consolidations and cost reductions will be implemented as the company sharpens its focus on its PC-based Network Systems Integration strategy.

The company completed the first quarter of its new 1991 fiscal year on July 27, 1990. Results for that quarter will be released in the next several weeks.

The company also reported that as a result of the losses sustained during the three months ended April 29, 1990, the company is in violation of certain financial covenants contained in the loan agreements governing $9.1 million of indebtedness owed to a New Jersey bank. In addition, the company has not paid Harris $2.0 million of principal and $121,000 of accrued interest due under a $4.0 million promissory note issued to Harris in connection with the Lanier acquisition. Principal payments of $1.0 million each were due on April 27, 1990 and July 27, 1990.

The bank has agreed to defer compliance with the financial covenants and Harris has extended the payment dates of the note until Sept. 15, 1990. In addition, the bank has agreed to modify the covenants and Harris has expressed a willingness to restructure the note payable to Harris. Harris has also stated it's intention to pay Syntrex $1.2 million (less accrued interest on the note payable), for products that Harris purchased from Syntrex and certain other matters arising since the acquisition date. These transactions are subject to the company obtaining $2 million of additional long-term subordinated debt financing and the fulfillment of certain other conditions. The company is negotiating with a third party to obtain $2 million of debt financing required to close the transactions with the bank and Harris; however, no assurance can be given that such financing can be arranged. If these transactions cannot be completed, the company anticipates that additional working capital will be required within the next 30 to 60 days to continue the company's operations.

In view of the disappointing operating results in fiscal 1989, and the six months ended April 29, 1990, and the cash requirements of the company, the company has taken substantial steps to reduce operating expenses and will continue its efforts to control costs and reduce the level of cash

required to support its operations. Additionally, the company plans a further reduction in manpower levels in August 1990.

The company also announced that William Adams has resigned as a director of the company and president of Field Operations. Adams was a former officer of Harris who became an officer and director of Syntrex when the Lanier acquisition was completed in January 1990.

#90226p5259 08/14/1990 ~PR Newswire

MENLO PARK, CA (AUG. 14) PR NEWSWIRE - MEDIAGENIC (NASDAQ: MGNC) today reported net revenues of $14 million for the first quarter of its 1991 fiscal year, ended June 30, and a net loss for the quarter of $608,000 or 14 cents per share. The results are nearly identical to net revenues of $13.6 million, and net loss of $586,000 or 14 cents per share for the like quarter of the 1990 fiscal year.

The company also announced that it had reached an agreement with its bank to extend its line of credit through Dec. 31, 1990. This agreement will provide the company with working capital while it actively seeks other sources of long-term financing.

"Seasonality, cash constraints imposed by the Magnavox judgment, and an increase in marketing expenditures were the prime contributors to the loss " said Bruce L. Davis, chairman and CEO of MEDIAGENIC. He added, "Given the disruption caused by the judgment, the company held up well, coming in with nearly the same financial performance as the first quarter of last year."

Davis also noted that several significant announcements were made during the quarter, including obtaining a Nintendo Entertainment System (NES) license in Europe and being chosen as the first American developer for the upcoming Nintendo 16-bit Super Famicom system. In June, the company also presented an impressive line-up of new video game titles at the Consumer Electronics Show that will be supported by television advertising. Several NES, Game Boy and MS-DOS entertainment titles including "The Adventures of Rad Gravity" for the NES and "Heavyweight Championship Boxing" for the Game Boy, will ship during the upcoming holiday selling season.

MEDIAGENIC is a diversified, international publisher of floppy-disk, cartridge and optical disc-based entertainment software and PC graphics utilities, headquartered in Menlo Park. DENVER (AUG. 14) PR NEWSWIRE - Barrett Resources Corp. (NASDAQ: BARC) reported a profit of $313,000, or 3 cents per share, on revenues of $1,880,000 for the third quarter ended June 30, 1990. This compares with net income of $317,000, or 5 cents per share, on revenues of $1,547,000 for the third quarter of 1989. Revenues improved over last year primarily due to a 12 percent increase in oil and gas production revenue and a 33 percent increase in revenue from operating oil and gas properties. The 1990 quarter included an additional $247,000 of interest income primarily because of interest earned on stock offering proceeds while 1989 included a $227,000 gain from cancellation of a gas sales contract.

For the nine month period ended June 30, 1990 the company earned $936,000, or 13 cents per share, on revenues of $6,093,000, compared to net income of $987,000, or 16 cents per share, on revenues of $5,069,000 in the comparable 1989 period. The 1989 results include a tax benefit from operating loss carryforward of $192,000, or approximately 3 cents per share.

During the third quarter the company sold 3.565 million shares of its common stock in a public offering for $21.2 million, net of offering costs. In additon, the company continued drilling on its coal bed methane development program in the third quarter and initiated drilling on two exploratory prospects.

Barrett Resources is a Denver-based independent oil and gas exploration,

and production company with its stock traded on the NASDAQ National Market System with the symbol BARC.

ST. LOUIS (AUG. 14) PR NEWSWIRE - The May Department Stores Company reported today fully diluted earnings per share from continuing operations of 58 cents for the second quarter of fiscal 1990, the 13 weeks ended Aug. 4, an 18.4 percent increase over 49 cents per share in the similar year-ago quarter. For the first half of 1990, fully diluted earnings per share were $1.16, up 22.1 percent from 95 cents in the similar six-month period last year.

Net earnings from continuing operations for the 1990 second quarter were $78.2 million compared to $71.0 million last year. Net earnings from continuing operations for the first six months were $157.9 million compared to $134.6 million in the year-ago period. For the second quarter net retail sales from continuing operations were $2.20 billion, up 8.8 percent from $2.02 billion last year. In the first half of 1990, net retail sales from continuing operations were $4.38 billion, up 9.8 percent from sales of $3.99 billion in the 1989 first half.

During the second quarter, May opened four new department stores -- three for Lord & Taylor in New Jersey and a new L.S. Ayres store in Indianapolis -- and Volume Shoe opened 44 net new Payless ShoeSource stores. By year-end, May will have opened 21 new department stores, a record number of openings in one year, and approximately 245 net new Payless ShoeSource stores. Additionally, two Venture stores were also opened in the Chicago market during the second quarter.

Pursuant to its previous announcements, May has reported its discount segment as discontinued operations. Caldor has been sold and the company is planning to spin-off Venture to May common shareowners later in 1990, pending certain events.

The May Department Stores Company is one of the largest retailers in the United States, operating 295 department stores, 2,817 specialty shoe stores and 78 Venture stores at the close of the second quarter.

LOS ANGELES (AUG. 14) PR NEWSWIRE - Barry Collier, president and chief executive officer of Prism Entertainment Corporation (AMEX: PRZ), today reported that stockholders, at the annual meeting held today, elected Wirt D. Walker a director of the company. Paul Levenson and Richard Lorber did not stand for re-election to the board, therefore the addition of Walker sets the size of the board at four members.

Since 1982, Walker has been a director and the managing director of Washington, D.C. based KawAm Corporation, a private investment management and merchant banking firm. He is also the chairman of ILC Technology Inc. (NASDAQ: ILCT) a publicly held manufacturer of high performance light source products used for industrial, military, medical and aerospace applications. In addition, Walker is a director of Burns and Roe Securacom, Inc. a privately held international security firm that provides consulting, engineering, design, systems integration, and project management for large-scale projects, and a director of Commander Aircraft Company, a privately held manufacturer of the Commander single- engine aircraft.

Prism Entertainment Corporation is a home video company which markets videocassettes of theatrical and television films, children's programming, concert performances of music and comedy artists and other programming in the United States and Canada.

HOUSTON (AUG. 14) PR NEWSWIRE - American Oil and Gas Corp. (AMEX: AOG) today announced the following results for the three and six months ended June 30, 1990:

(IN THOUSANDS, EXCEPT PER SHARE AMOUNTS)

	Three Months Ended June 30,		Six Months Ended June 30,	
	1990	1989 (Restated)	1990	1989 (Restated)
Revenues	$107,478	$25,552	$240,473	$53,182
Operating income (loss)	5,830	(280)	8,694	674
Equity in loss of WellTech, Inc.	(1,447)	(3,428)	(2,060)	(6,411)
Other income (expenses)	(1,536)	669	(3,216)	515
Net income (loss)	2,847	(3,039)	3,418	(5,222)
Net income (loss) applicable to common stock	1,138	(3,465)	1,156	(6,074)
Net income (loss) per common share	0.07	(0.41)	0.07	(0.72)

For the quarter and six months ended June 30, 1990, American Oil and Gas Corp. reported significant increases in its revenues and operating income as compared to the same periods in 1989. The increase in revenues is primarily a result of AOG's acquisition of the natural gas pipeline business of Cabot Corp., which was effective Nov. 1, 1989. The increase in operating income was substantially due to measures implemented to improve the operations of the acquired business.

Second quarter results reflect the favorable impact of hot and dry weather conditions in the company's primary service area that caused heavy demand

from agricultural and electric utility customers. The favorable operating results were also due to improved coordination and matching of purchase and sales transactions, and improved efficiencies in field operations.

The company's ownership of WellTech Inc. was reduced to 51 percent as a result of the restructuring of WellTech's bank indebtedness effective Sept. 30, 1989. The company's investment in WellTech is presented using the equity method of accounting, and the 1989 operating results have been restated. WellTech's operating results have improved during the first and second quarters of 1990 compared to the same periods for 1989 because of improved rig utilization, higher rates per rig hour and lower operating/administrative expenses.

The improvement in net income for the quarter and six months ended June 30 1990, compared to the same periods in 1989 was primarily attributable to the increase in operating income and the decrease in the company's equity in loss of WellTech. This improvement was partially offset by interest expense related to the debt issued in connection with the purchase of the acquired operations.

#90226p5286 08/14/1990 ~PR Newswire

TULSA, Okla. (AUG. 14) PR NEWSWIRE - T/SF Communications Corp. (AMEX: TCM) today announced operating results for the second quarter and first six months of 1990. The company stated that it earned $85,000, or 1 cent per share of common stock, on revenues of $22,563,000 for the second quarter of 1990. This compares to earnings of $254,000, or 7 cents per share pro forma, on revenues of $18,343,000 for the second quarter of 1989. For the first half of 1990, the company lost $436,000, or 8 cents per share, on revenues of $43,115,000, as compared to earnings of $105,000 or 7 cents per share pro forma, on revenues of $35,639,000, for the first six months of 1989.

The primary reasons for the decline in earnings were the depreciation and amortization associated with Marks-Roiland Communications, which became part of the company in January, 1990, and continued losses from the company's Shopper's Guide unit, particularly its commercial printing division. These losses were partially offset by improvements in the company's information, daily newspaper and trade publishing divisions and reduced interest costs because of debt repayments.

G. Douglas Fox, chairman and chief executive officer of T/SF Communications, stated, "While the problems at Shopper's Guide, which began in the second half of last year, are beginning to ameliorate because of actions taken by the new management recently installed in this unit, the softening northeastern economy is slowing its recovery. Importantly, our operating cash flow (meaning earnings before depreciation, interest and taxes) was strong, at $2,276,000 for the second quarter and $3,622,000 for the first six months."

T/SF Communications is a diversified communications company owning a daily newspaper in Tulsa, several free distribution shopper- newspapers in New Jersey, New York and Pennsylvania, five trade magazines, a specialty trade publishing company and an information services company.

#90226p5291 08/14/1990 ~PR Newswire

CONCORD, N.H. (AUG. 14) PR NEWSWIRE - Healthsource, Inc. (NASDAQ: HLTH)

announced today it has closed the acquisition of a 60 percent interest in Employee Benefit Plan Administration, Inc. (EBPA) and agreed to ultimately acquire 100 percent of EBPA over a four-year period. The price for the initial shares is $4.8 million with a formula price for the remaining shares as purchased.

EBPA, based in Hampton, N.H., is the largest Third Party Administrator (TPA) in New England with anticipated revenues of $9 million for their fiscal year ending Sept. 30, 1990. EBPA provides medical and dental claims administration services to over 200,000 employees and their dependents, principally in New England.

A long-term employment agreement with EBPA's principals, George J. McCullough, chairman, and Robert J. McDermott, president and chief executive officer, is a key term of the transaction. McCullough has over 35 years in the employee benefit and insurance industry. Prior to joining EBPA, he held vice presidencies in the multiple national insurance brokerage firms of Fred S. James, Carroon & Black and Jardine Insurance Brokers.

After eight years with Coopers and Lybrand, McDermott joined Zayre Corporation, a Fortune 50 retailer, where he hald the positions of vice president, finance/staff and financial controller. During the six year tenures of McDermott and McCullough, EBPA has more than tripled in size.

"With EBPA's administrative and financial expertise along with Healthsource's advanced cost management technologies, including its HMOs, PPOs and utilization review services in New England, the combined companies are positioned to provide the sophisticated health care cost containment products that today's environment requires," said Healthsource President and Chief Executive Officer Norman C. Payson, M.D. "We are confident that New England employers will find that the expanded benefits options resulting from the merger will provide them with a variety of competitive benefits solutions for the future."

Healthsource recently concluded an agreement with Coordinated Medical Services of North Carolina, Inc. (CMS) to purchase a 29 percent interest in CMS, with the opportunity to increase that interest to 49 percent; the CMS Agreement is subject to shareholder approval of certain matters and North Carolina regulatory approval. CMS and operates a 37,000-member HMO in the Raleigh-Durham area of North Carolina. Healthsource has also concluded a five-year management agreement with Patients' Choice, a 26,000-member HMO in Syracuse, N.Y., subject to the approval of New York regulatory authority.

Healthsource, Inc. also has interests in and manages three health maintenance organizations (HMOs), in New Hampshire, Maine and South Carolina with approximately 63,000 members and more than 1,900

participating physicians. The company's stock is traded on NASDAQ with the symbol "HLTH".

PHILADELPHIA (AUG. 14) PR NEWSWIRE - Geotek Industries, Inc. (NASDAQ: GOTK) announced today operating results for the second quarter and six months ended June 30, 1990.

For the quarter ended June 30, 1990 net revenues rose 61 percent to $5,744,000 from $3,563,000 in the same quarter of 1989. For the six months ended June 30, 1990, net revenues rose 71 percent to $11,890,000 from $6,973,000 a year ago.

The net loss for the quarter ended June 30, 1990, declined to $423,000, or 16 cents per share, from a net loss of $594,000, or 37 cents per share, in the second quarter of 1989. The net loss for the six months ended June 30 1990, was $917,000, or 34 cents per share, compared to a net loss of $642,000, or 40 cents per share, in the first six months of 1989.

Yaron Eitan, president and CEO of Geotek, stated, "The improvement in operating results will continue during 1990. We are on plan for both sales and earnings, and the acquisition of U.S.I. Venture Corp., completed in June 1990, provides Geotek with the necessary financial resources to continue its growth. The substantial increase in revenues reflects the addition of Jerico Precision Mfg. Corp., the Defense Electronics Group's domestic manufacturing base in New York."

Geotek manufactures a variety of products for the computer and telecommunication industries in Israel and the United States, including high quality transformers and power supplies. The company also manufactures sophisticated electronic fuzes for munitions and other mechanical defense articles.

MESA, ARIZ. (AUG. 14) PR NEWSWIRE - Delivery of the 600th AH-64 Apache multi-role helicopter produced by McDonnell Douglas (NYSE: MD) was observed here today in a special ceremony.

The logbook for the 600th Apache was presented to Col. Lee Thompson, commander of the Defense Plant Representative Office at McDonnell Douglas Helicopter Co., by Erv Hunter, vice president of the company's Apache division.

Hunter said, "Today marks a major milestone in the execution of our contract with the Army. We're proud that the Apache is proving to be everything the Army has asked for...and more."

The 600th Apache aircraft was officially accepted by the Army at the end of July. With a monthly output of six Apaches, production on the Army contract for 807 Apaches is expected to run through fall 1993.

The Apache is the world's most lethal and technically advanced helicopter, delivering unprecedented firepower with deadly accuracy. Combat-proven in

Panama, the aircraft can be equipped with a formidable array of air-to-ground and air-to-air weapons unmatched by any other rotorcraft.

"As the first attack helicopter developed specifically for day, night and adverse weather combat missions, the Apache adds a lethal dimension to the combined arms team," Hunter said. "It is unmatched in performance, cost-effectiveness and advanced technology."

With its weapons flexibility and advanced technologies, the Apache has numerous mission options, including air-to-air and air-to- ground combat, low-intensity conflicts, armed reconnaissance, coastal defense, drug enforcement, anti-armor and air defense suppression. Its presence on the global scene is growing, as McDonnell Douglas increases sales to foreign customers.

Beyond 1993, the Apache will evolve into an even more sophisticated attack helicopter called the Longbow Apache. McDonnell Douglas was awarded a $194.5 million, full-scale development contract in August 1989 to modify four existing Apaches into Longbow Apache prototypes.

Current U.S. Army plans call for the remanufacture of 227 Apaches into the Longbow configuration, with deliveries to begin in 1994.

CHICAGO, (AUG. 14) PR NEWSWIRE - Resort Income Investors Inc. (AMEX: RII) today reported earnings for its second quarter ended June 30, 1990. Net income for the quarter was $1,292,314, or $0.31 per share, based on 4,156,000 shares outstanding, compared with $2,245,068, or $0.54 per share for the second quarter in 1989.

Net income for the six months ended June 30, 1990 was $2,587,248, or $0.62 per share, versus $3,727,276, or $0.90 per share, for the same period in 1989. Included in operating results for the second quarter and first six months of 1989 is the receipt by the company of Bonus Interest of $578,450 from the early retirement of the company's Laguna Niguel loans made to an affiliated borrower.

The second quarter dividend of $0.375 per share was declared by the board of directors on July 9, 1990, and is payable today to shareholders of record July 20, 1990. Annual dividends of $1.50 per share are guaranteed through Oct. 31, 1991.

Christopher B. Hemmeter, chairman of the company, announced that terms of

the company's demand loan to an affiliated borrower, Laguna Niguel Resort Associates, were modified effective Aug. 1, 1990. The modification provides for a new interest rate of 18 percent simple interest per annum, paid 12 percent currently on a quarterly basis and 6 percent accruing until repayment of the demand loan. Mr. Hemmeter noted that the increased interest rate on the demand note will have a favorable impact on company operations. The company operates as a Real Estate Investment Trust (REIT) under the provisions of the Internal Revenue Code. As such, it is required to distribute to shareholders at least 95 percent of its taxable income each year to continue to qualify as a REIT.

Resort Income Investors, Inc. (RII) is a Chicago-based REIT. RII is a lender focusing on the destination resort market and has a portfolio of participating pre-development mortgage loans made to affiliates of Hemmeter Corporation.

The Investment Manager of RII is RC&H Inc. The Investment Manager is responsible for reviewing investment options and making investment recommendations to the RII Board of Directors.

RC&H Inc. is an affiliate of Hemmeter Corporation, a company founded and headed by Mr. Hemmeter, the recognized leader in the development of luxury destination resorts. Previous developments of Hemmeter Corporation include the Hyatt Regency Waikiki at Hemmeter Center in Honolulu, Hyatt Regency Maui, the Westin Kauai at Kauai Lagoons, the Westin Maui, and the Hyatt Regency Waikoloa on the Big island of Hawaii.

CINCINNATI (AUG.14) PR NEWSWIRE - The Procter & Gamble Company (NYSE: PG) today announced the appointment of Tatham - Laird & Kudner, Chicago, as the advertising agency for Old Spice and Santa Fe, effective immediately. Old Spice and Santa Fe had been handled by Scali, McCabe, Sloves, Inc., New York.

Procter & Gamble recently acquired Old Spice and Santa Fe men's toiletries and fragrances from American Cyanamid's Shulton Group. This purchase was completed on July 26, 1990.

"We are reassigning Old Spice and Santa Fe to consolidate these businesses at an agency currently handling P&G brands," said L. Ross Love, vice president - advertising for Procter & Gamble. "We appreciate the contributions which Scali, McCabe, Sloves has made to the Old Spice and Santa Fe businesses."

In addition to Old Spice and Santa Fe, Tatham - Laird & Kudner will continue to handle Biz, Coast, Mr. Clean, Metamucil, Head & Shoulders, Chloraseptic and Vicks Throat Drops.

ST. PETERSBURG, FL. (AUG. 14) PR NEWSWIRE - Home Shopping Network, Inc. (NYSE: HSN) announced that Vice Chancellor Jack B. Jacobs of the Delaware State Court of Chancery, ruled today in a bondholder lawsuit that HSN, with certain exceptions, did not have the legal authority to place a notice legend on share certificates of certain common stock convertible from HSN's 5 1/2 percent Eurodollar Convertible Debentures (the "Convertible Debentures"), which had been underwritten by Drexel Burnham Lambert, Inc. ("Drexel") in April, 1987. The Convertible Debentures are the subject of a fraud lawsuit filed by HSN against Drexel in the United States District Court for the Middle District of Florida. The legend provided notice to all holders that in the event HSN prevailed in its lawsuit against Drexel that the contested shares could be subject to cancellation. In this regard, Vice Chancellor Jacobs excluded Drexel and any other parties named in the Florida fraud suit as having conspired with Drexel from his ruling.

On May 4, 1988, HSN announced its intention to place a notice legend on the contested share certificates to protect its right of possible cancellation and then filed a declaratory judgment action before Judge William J. Castagna, the judge in HSN's federal suit, to confirm its legal right to do so. HSN's request for a declatory judgment to allow legending was vigorously opposed by Bankers Trust, the Trustee under the Convertible Debenture Indenture, which was represented by the New York law firm of White & Case. Bankers Trust opposed legending at the specific request of more than 25 percent of the bondholders, arguing that legending would violate Delaware law. Drexel, which was represented by another nationally recognized law firm, Patterson, Belknap, Webb & Tyler also opposed legending.

On Oct. 11, 1988 Judge Castagna ruled in HSN's favor and confirmed that HSN had the right to place a legend on the contested share certificates. Judge Castagna held that "legending could not be more appropriate here since, without a legend on the Contested Shares, HSN will be effectively deprived of any available remedy should it prevail in this lawsuit." HSN and Bankers Trust considered the ruling to be dispositive of the legending issue. Based on this clear ruling, HSN placed the legend on contested share certificates.

In June, 1989, a class action lawsuit was filed by certain holders of the Convertible Debentures challenging, among other things, HSN's right to place a notice legend on contested share certificates. HSN moved to have the Delaware lawsuit dismissed based on, among other things, the fact that Judge Castagna had already ruled on the legending issue. Vice Chancellor Jacobs, however, ruled that, in his opinion, Bankers Trust, as Trustee acting at the request of more than 25 percent of the bondholders, was not representing the bondholders in HSN's federal declaratory judgment action and thus the bondholders were not bound by Judge Castagna's ruling. Vice Chancellor Jacobs then held, contrary to Judge Castagna's ruling, that HSN did not have the right to place the legend on the contested share certificates. Vice Chancellor Jacobs further ruled that HSN is liable for any damages caused by the legal uncertainty resulting from the legending and ordered further briefing on certain class action issues. It is expected that hearings will be held to determine the amount of damages owed by HSN to the bondholders based on the negative effect of the legending on the value of the Convertible Debentures.

According to Nando DiFilippo, executive vice president and general counsel of HSN, "We are very surprised and disappointed by Vice Chancellor Jacobs' unprecedented decision which is tantamount to a state court judge reversing the decision of a federal court judge. It is also terribly unfair to HSN and its shareholders since the company only placed the legend on the contested shares after we got the green light from Judge Castagna. HSN will appeal Vice Chancellor Jacobs' decision immediately to the Delaware Supreme Court and we are confident of having it reversed."

NEW YORK (AUG. 14) PR NEWSWIRE - American Real Estate Partners, L.P. (NYSE: ACP) today reported the following second quarter and six month financial results:

AMERICAN REAL ESTATE PARTNERS, L.P.
(Consolidated, Unaudited)

Second quarter ended June 30	1990	1989
Revenues	$14,868,269	$14,629,642
Earnings before property transactions	6,206,420	6,071,279
(Loss) gain on property transactions	(2,171,416)	1,308,253
Net earnings	$ 4,035,004	$ 7,379,532
Net earnings per unit of limited partnership interest	$.28	$.50
Six months ended June 30	**1990**	**1989**
Revenues	$29,863,923	$29,079,943

Earnings before property transactions	12,573,465	12,322,176
(Loss) gain on property transactions	(2,171,416)	1,325,981
Net earnings	$10,402,049	$13,648,157
Net earnings per unit of limited partnership interest	$.70	$.91

In announcing the company's financial results, Chairman of the Board Benjamin D. Fein stated that revenues, earnings before property transactions and the amount of cash flow generated from day-to-day operations increased for the quarter and six months ended June 30, 1990, from the comparable periods of 1989. However, Fein noted that net earnings decreased for the quarter and six months ended June 30, 1990, from the comparable periods of 1989 since losses were recorded for financial statement purposes as a result of the sale, during the quarter ended June 30, 1990, of certain real estate tenanted by the Western Union Corporation for less than the book value of such properties for financial reporting purposes. Fein also noted that while losses were recorded on the Western Union sales, these properties and all other properties sold during the 1990 periods were sold for net proceeds in excess of the appraised value of the properties at the time of the exchange in 1987.

American Real Estate Partners is a master limited partnership engaged in acquiring and managing real estate with a primary focus on office, retail and industrial properties.

ST. CATHARINES, ONTARIO (AUG. 14) PR NEWSWIRE - Quebec and Ontario Paper Co. (Q & O) announced today that its Thorold, Ontario, newsprint mill is scheduled to shut down on at 7 p.m. today (Tuesday) as a result of a strike declared by three locals of the Canadian Paperworkers Union.

Labor contracts with eight union locals representing a total of 530 workers at the mill expired on April 30, 1990 and initial meetings with the locals were held in late June and early July. Contract bargaining resumed with the three CPU locals on Thursday, August 9.

Negotiation meetings are continuing with the remaining five locals at the mill.

Q & O's Baie Comeau, Quebec, newsprint mill was shut down on July 28 as a result of a strike by CPU locals representing 1,200 employees. The Baie Comeau mill has a rated annual capacity of 450,000 metric tons.

The Thorold mill has a rated annual capacity of 315,000 metric tons. Q & O is a wholly owned subsidiary of Tribune Company (NYSE: TRB).

WASHINGTON (AUG. 14) PR NEWSWIRE The following was issued by the Association of Flight Attendants:

In a strongly worded opinion, a federal district court in Portland, Ore., ruled yesterday that Horizon Air Industries engaged in illegal bad faith bargaining under the Railway Labor Act during its three years of negotiations with the Association of Flight Attendants over the terms of an initial collective bargaining agreement for the carrier's flight attendants. Finding that Horizon "bargained in a manner designed to frustrate the negotiations," the court ordered the company to "cease and desist" from any conduct designed to forestall the reaching of an agreement. Horizon's chief negotiator was singled out by the court for his lack of authority, as well as his "arrogance, intimidation, and intractability" at the bargaining table. The court also ordered Horizon to pay AFA's attorney's fees and costs incurred during the lawsuit.

The court found that Horizon's opposition to AFA began with the union's organizing campaign, and that the company never intended to reach an agreement with AFA. Citing repeated delays, cancellations, ultimatums, and the company's consistent refusal to make proposals and counterproposals, coupled with offers designed to elicit rejection by the union and worsen the flight attendants' working conditions, the court found that Horizon engaged in "the mere pretense of negotiation with a completely closed mind." This is a virtually unprecedented ruling in favor of a union in the airline industry. Not even Carl Icahn or Frank Lorenzo has been held by a court to have bargained in bad faith.

AFA, on behalf of the Horizon flight attendants, sued the airline in April 1989, alleging that the company was engaged in bad faith bargaining with the union, and had interfered with the flight attendants' right to organize. The case went to trial on June 26, 1990 in front of Judge Malcolm Marsh.

Horizon Air flight attendants first voted for representation by AFA in August 1987. The parties have been in negotiations ever since but have not reached agreement on a contract. Since early 1989, the talks have been conducted under the supervision of mediator Richard Cosgrave, under the authority of the National Mediation Board.

The Association of Flight Attendants, AFL-CIO, represents 30,000 flight attendants on 18 airlines, including flight attendants at both Horizon Air and Alaska Airlines. AFA is the largest flight attendant union in the world.

#90226p5309 08/14/1990 ~PR Newswire

PHILADELPHIA (AUG. 14) PR NEWSWIRE - Comcast Corp. (NASDAQ-NMS: CMCSA, CMCSK) today reported results for the three and six months ended June 30, 1990.

The company announced that revenues and operating cash flow for the period reached record highs.

Revenues for the three months ended June 30, 1990, were $163,655,000, an increase of 21 percent over the revenues of $134,962,000 for the same period in 1989. The company reported operating cash flow (defined as operating income before depreciation and amortization) of $69,348,000 as compared to $54,043,000 for the prior year, representing an increase of 28 percent. Comcast recorded a net loss of $41,796,000 or $.37 per share, as compared to a net loss of $30,589,000 for the prior year, or $.29 per

share.

Revenues for the six months ended June 30, 1990, were $319 million, an increase of 21 percent over the revenues of $263,677,000 for the same period in 1989. The company reported operating cash flow (defined as operating income before depreciation and amortization) of $133,253,000 as compared to $103,970,000 for the prior year, representing an increase of 28 percent. Comcast recorded a net loss of $87,737,000 or $.78 per share, as compared to a net loss of $71,749,000 for the prior year, or $.70 per share.

These previously anticipated losses are due primarily to financing costs and non-cash charges for depreciation and amortization associated with the company's acquisitions. Also included is the company's proportionate share of losses associated with its ownership of 50 percent of Storer Communications Inc.

Brian L. Roberts, president of Comcast, stated, "We are pleased to report that our business results are better than ever, as indicated by our outstanding second quarter. We remain confident about the outlook regarding proposed cable television legislation and are confident that the lawmakers will be supportive of the cable industry's continued efforts to provide the highest quality services to our customers."

Comcast Corp. is principally engaged in the development and operation of cable communications systems. The company's consolidated and affiliated operations served more than 2.4 million subscribers at June 30, 1990. This included 784,000 subscribers representing 50 percent of the total subscribers served by Storer Communications Inc. Neither the results of operations or financial condition of the Storer systems are included in the company's consolidated financial statements. In addition, the company provides cellular telephone communications services, installs commercial sound systems and owns the largest independent network of background music systems operating under the Muzak name.

The Class A and Class A Special common stock are traded in the Over-the-Counter market and are reported in the National Market List under the NASDAQ symbols CMCSA and CMCSK, respectively.

#90226p5311 08/14/1990 ~PR Newswire

PHILADELPHIA (AUG. 14) PR NEWSWIRE - Bell of Pennsylvania today asked the state Supreme Court to permit an appeal from a lower court ruling banning Caller ID in Pennsylvania.

On May 30, the Commonwealth Court overturned a Public Utility Commission order authorizing Caller ID. Caller ID displays a caller's telephone number on a screen at the telephone being called before the call is answered.

In documents filed today, Bell of Pennsylvania argued the Commonwealth Court erred when it ruled Caller ID violated the Pennsylvania Wiretap Act and constitutional privacy.

The company said the Commonwealth Court ruling disregards the privacy rights of persons who receive intrusive calls including obscene and harassing calls.

Furthermore, the company said, the Commonwealth Court decision jeopardizes emergency 911 telephone service, which, like Caller ID, provides the caller's telephone number to police, ambulance and fire dispatch centers.

"By misinterpreting the Wiretap Act to require consent from every caller, including harassing and obscene callers, the Court has not only prohibited a new and useful service to the public but has called into question the legality of emergency 911 service, which likewise reveals the caller's phone number without his consent," the company said.

The company petition continued, the Commonwealth Court "has also completely ignored the privacy rights of persons who receive intrusive calls by radically departing from this court's established constitutional precedents. It has given callers an unprecedented right to make anonymous calls of whatever type, disregarding the basic right of people receiving unwanted calls 'to be let alone,' as Justice Brandeis said a century ago."

The Supreme Court must agree to hear an appeal of the lower court ruling before the appeal can be initiated.

CONTACT: Thomas C. Duddy, 215-466-4549, or Saul Kohler, 717-255-4181, or Shirley Risoldi, 412-633-5574, all of Bell of Pennsylvania

#90226p5313 08/14/1990 ~PR Newswire

NORTHVALE, N.J. (AUG. 14) PR NEWSWIRE - MEM Company, Inc. (AMEX: MEM) today reported second quarter sales of $6.7 million, a drop of 25 percent from the prior year. Net loss for the quarter was $1.3 million or $.51 per share, compared with a similar loss in the prior year of $1.3 million or $.49 per share. For the first half, sales of $12.9 million were 28 percent below the prior year. Net loss for the first six months was $2.7 million or $1.06 per share, versus the prior year loss of $2.2 million or $.83 per share.

MEM announced that it will not pay a dividend with respect to the third quarter of 1990. The company is experiencing a liquidity shortage and is negotiating with its current bank lenders and other lenders to satisfy its

additional seasonal needs for the next six months. MEM has outstanding $16 million in bank borrowings and anticipates the need for an additional $10 million in connection with the 1990 Christmas season. The first layer of borrowing has a maturity at the end of August. In the prior year MEM used $28 million of its available lines of credit. The company has granted security interests in its assets other than real property in favor of the banks.

The year-to-date sales shortfalls reflect retail sluggishness, and an uncertain economy. The increased loss reflects the impact of the sales decline since certain portions of the company's expenses are of a fixed nature as well as start up costs for a new fragrance. The company has instituted economies which have helped flatten losses in the second quarter.

Advance bookings for the Christmas season are on schedule and the company's newest men's cologne, Fathom has been well accepted by the retail trade. Christmas shipments started this month and the company believes prospects for a good holiday season are strong.

#90226p5316 08/14/1990 ~PR Newswire

COLUMBIA, MD. (AUG. 14) PR NEWSWIRE - The Rouse Company (NASDAQ: ROUS) of Columbia, Md., today released its Interim Report to Shareholders for the second quarter of 1990. Earnings before depreciation and deferred taxes from operating properties were $28,906,000 for the six months ended June 30, 1990, a 13 percent increase over the $25,686,000 recorded in 1989's first half.

Total earnings before depreciation and deferred taxes were $19,388,000, down from $24,531,000 in 1989's first half. The decline was primarily the result of timing delays in the sale of land in Columbia. The lower land sales combined with increased depreciation expenses to produce a net loss of $3,965,000 for the six month period. In 1989, the comparable period produced net earnings of $5,341,000, which included $5,126,000 in non-recurring net gains primarily related to the disposition of assets.

The report noted the strong sales growth of tenants in the company's retail centers. The 6.5 percent sales gain from comparable space was the highest first half increase since 1984.

Chairman and chief executive officer Mathias J. DeVito stated, "The year has progressed as anticipated thus far. Operating properties are performing very well and are on track for another excellent year... We

believe the company is well-positioned.... to continue to produce good results for shareholders."

LAKE SUCCESS, N.Y. (AUG. 14) PR NEWSWIRE - The Care Group (NASDAQ: CARE) which provides specialized home health care services primarily to AIDS patients, today reported record level revenues during the second quarter and first half of 1990.

The Care Group's operating revenues, on a consolidated basis, for the three months ending June 30, 1990 were $3,118,451 a 34 percent increase over $2,330,129 for the same period a year ago. Operating revenues for the six months were $6,043,961 a 32 percent increase over $4,592,867 for the same period in 1989. Net income for the second quarter and first six months of 1990 were $163,958 and $309,498 as compared to $226,988 and $440,379 for the same periods in 1989. Per share earnings for the second quarter and six months ended June 30, 1990 were 5 cents and 10 cents per share, respectively, based upon 3,154,727 and 3,148,498 weighted average number of shares. Earnings for the same period in 1989 were 13 cents and 26 cents per share based upon 1,675,000 shares outstanding.

Ann Mittasch, president, indicated that the decline in first half 1990 earnings is due to short-term start-up expenses related to the company's expansion program. The Care Group recently opened new operation offices in Long Island, N.Y. and Fort Lauderdale, Fla. to meet the needs of AIDS

patients in these regions. Additionally, the company established an important new division, The Oncology Team to meet the special home care needs of cancer patients. The company is confident that the second half of 1990 and the full year results will show improved performance reflecting the Care Group's expansion program.

FAIRFIELD, N.J. (AUG. 14) PR NEWSWIRE - Unigene Laboratories, Inc. (NASDAQ: UGNE) today reported a net loss for the second quarter ended June 30, 1990, of $575,000 or $.05 per share, compared to a loss of $584,000 or $.05 per share for the second quarter ended June 30, 1989. The net loss for the six months was $1,145,000 or $.09 per share, compared to a loss of $601,000 or $.05 for the first half of 1989.

As of June 30, 1990, Unigene had cash and short-term investments of $6,100,000 with a working capital ratio of 18:1.

Unigene also announced the termination of its research collaboration with Berlex Laboratories to develop a new class of compounds for the treatment of vascular-related disorders. Unigene has received $633,000 from Berlex since the one year collaboration began, representing 75 percent of the funding originally established for the program, and may receive additional funds in the future. Unigene intends to continue its research in this promising area and may later seek a new partner committed to the development of this program.

Unigene Laboratories, Inc. has developed a proprietary amidation process capable of producing peptide hormones for the treatment of a variety of diseases and disorders including osteoporosis, dwarfism and hypertension.

CHICAGO (AUG. 14) PR NEWSWIRE - Itel Corp. (NYSE: ITL) and The Henley Group, Inc. (NASDAQ: HENG) executed an agreement giving Itel the right to purchase between 50 percent and 100 percent of the 18.7 million shares of Itel common stock held by Henley.

The 9.35 million shares which Itel is committed to purchase will be acquired half in the next 30 days and half at year-end for an average price of $18.75 per share.

Itel was granted an option to purchase the remaining 9.35 million shares between Jan. 1, 1991 and July 31, 1991 at $21 to $22 per share depending on when the option is exercised. To the extent the option is not exercised, Itel guaranteed that Henley will receive net proceeds of at least $22 per share if it sells the shares prior to the end of 1991.

Itel intends to fund the purchases in 1990 totalling approximately $175 million from selective sales of assets and existing financial resources.

Henley received its Itel shares in 1988 as part of a transaction in which Itel acquired assets from Henley.

"The transaction benefits both companies," said Samuel Zell, chairman of Itel. "It represented a unique opportunity for Itel to acquire over one third of our outstanding stock at attractive prices and terms. The completion of this transaction now permits us to focus on a variety of alternatives to further enhance our shareholders' value."

PARIS, Ontario (AUG. 14) PR NEWSWIRE - The financial results of Redlaw Industries Inc. (AMEX: RDL) of Paris, Ontario for the first nine months of fiscal 1990 ended June 30, 1990 were today released by the company. All dollars quoted are Canadian.

Consolidated sales from continuing operations for the first nine months were $55,412,000 compared to $59,095,000 for the same nine months of the previous year.

Loss from continuing operations and net loss for the first nine months was $434,000 or 5 cents per share. This compares to last year's first nine months income from continuing operations of $4,157,000 or 56 cents per share which was reduced by the loss from discontinued operations and provision for estimated loss on disposal of those operations totalling $7,442,000 or $1.01 per share to bring the period's final results to a net loss of $3,285,000 or 45 cents per share.

Third quarter consolidated sales this year were $19,360,000 compared to last year's $20,723,000.

Third quarter results this year were a loss from continuing operations and a net loss of $485,000 or 6 cents per share compared to last year's income from continuing operations of $1,455,000 or 19 cents per share less $6,818,000 or 88 cents per share loss from discontinued operations and provision for estimated loss on disposal of those operations for a net loss of $5,363,000 or 69 cents per share.

#90226p5333 08/14/1990 ~PR Newswire

MONTREAL (AUG. 14) PR NEWSWIRE - Dominion Textile reported today net income of $11.0 million, or $0.19 per share, for the 1990 fiscal year

ended June 30, compared with $9.3 million, or $0.14 per share, in 1989. An extraordinary after-tax charge of $38.1 million resulted in a final net loss of $28.8 million, or $1.29 per share, in fiscal 1989.

Consolidated sales were $1 379.4 million, compared with $1 403.1 million in 1989. The lower level resulted mainly from the sale of the corporation's bed fashion assets in the first quarter of the fiscal year. On a comparable basis, excluding sales of bed fashions, the corporation's sales increased by 8 percent to $1,360.1 million in 1990 from $1,260.2 million last year.

For the fourth quarter, Dominion Textile recorded a net loss of $5.8 million, or $0.25 per share, against net income of $12.4 million, or $0.42 per share, in the corresponding 1989 period. An extraordinary after-tax charge of $38.1 million resulted in a net loss of $25.7 million, or $1.01 per share, in the 1989 fourth quarter.

Consolidated sales in the fourth quarter were $377.1 million, compared with $397.4 million in the 1989 period. On a comparable basis, 1990 sales from continuing operations actually increased by 3.3 percent from $364.9 million in 1989.

Charles H. Hantho, president and chief executive officer of Dominion Textile, said fourth quarter results were adversely affected by a number of market factors.

"Weak demand, combined with continued destocking by the retail and apparel industries, have left primary textile manufacturers with higher than normal inventories and weak mill schedules," said Hantho. "This has led to price discounting at a time when raw material cotton costs are high by historical standards. The resulting sluggish volume and depressed margins are impacting many of the corporation's businesses in North America and Europe."

The situation in Canada was further aggravated by a strong Canadian dollar while in Europe the corporation's Klopman unit continued to be affected by the relative strength of the lira against most European currencies, particularly the British pound. Meanwhile, weak demand in the automotive, home furnishing and construction industries in North America affected the performance of the Industrial Products Group.

The Technical Fabrics Group in Europe and in Asia continued to show a good performance, as did the company's open-end yarn business in the United States.

Hantho said the immediate outlook for the North American economy is not encouraging. "We are witnessing a continuation of soft markets and high cotton costs in the first quarter of fiscal 1991. Faced with this

situation, the corporation is taking appropriate action to reduce costs, conserve cash and position itself for the upturn when it comes."

GASTONIA, NC (AUG. 14) PR NEWSWIRE - Rauch Industries, Inc. (NASDAQ-NMS: RCHI), a NASDAQ traded company, today announced financial results for the second quarter of 1990, ended June 30, 1990. Rauch is America's oldest and best-known manufacturer of Christmas tree ornaments and related products.

Net sales were $1.84 million for the quarter, down 24.3 percent from $2.43 million for the year earlier quarter. The company's net loss for the quarter was $270,000, or $.16 per share, compared to $535,000 or $.33 per share, in the same quarter last year. During the second quarter of 1989, the Company incurred an extraordinary charge of $.20 per share in connection with the settlement of litigation.

Because of the seasonal nature of its business, Rauch traditionally does not report a profit in the first or second quarters.

Inventories at June 30, 1990 were $21.8 million as compared to $19.0 million for the same quarter of last year. This is a result of a planned build-up in order to level out production over the year and to eliminate overtime charges during the second half of the year.

Marshall A. Rauch, chairman, president and chief executive, reported that orders received through the end of June were approximately $29.5 million

against $29.7 million at the comparable time last year. As of this date orders received during the year have risen to $31.6 million, as compared to $34.1 million at the same time last year.

Sales for the first six months of 1990 were $2.70 million, down from $3.40 million for the comparable period in 1989, a decrease of 20.6 percent. Net loss for the period was $700,000 compared to a net loss of $934,000 in the first six months of 1989.

Rauch earned $2.5 million or $1.51 per share in 1989 on sales of $38.3 million. This was an increase of 30 percent over earnings of $1.9 million or $1.16 per share in 1988 and an increase of 17 percent over sales of $32.7 million in the prior year.

On March 20, 1990, the Company announced it has engaged the services of NCNB Investment Banking company to assist in connection with a possible sale of the company. This engagement is ongoing, however, no final decision to sell the Company has yet been made, either by the Board or by the Company's majority shareholders. Information will be released promptly as material developments occur.

#90226p5337 08/14/1990 ~PR Newswire

CONSHOHOCKEN, PA (AUG. 14) PR NEWSWIRE - George R. Graham Jr., chairman of Apparel Business Systems Inc. (ABS), has taken on additional responsibilities as president, upon the resignation of Robert J. Shallow, who had served in the post since January 1990.

Graham, who together with senior management purchased the prominent software producer late in 1989, indicated that Shallow's resignation related to issues of management policy.

Other members of the senior management team are Garry Reinhard, vice president, research and development; Jim Lawson, head of the small systems group; Jean Plush, head of program development, small systems group; Mike Dufoe, head of program development, large systems group; and Dennis Mulcare, director of sales and marketing.

Graham and the ABS management team have directed an aggressive expansion effort which has resulted in a record 20 new systems installations during the past six months.

Earlier this year, ABS expanded its role to include sales, installation, maintenance and support of IBM hardware and general- application software

through the IBM Industry Remarketer program.

In addition, the company has introduced two new software developments of its own, including a breakthrough personal computer package for use on Unix-system IBM PS/2 and RISC/6000 hardware. The Unix development is a first for the apparel, leather goods and related industries.

ABS has also completed development of a new Material Acquisition Module, designed to expedite import and export tracking.

Founded in 1973 in Philadelphia, ABS relocated its headquarters to suburban Conshohocken in May 1990. The foremost producer of computer software information systems applications specifically designed for the apparel, shoe and related industries, ABS' systems are in use by more than 600 firms worldwide.

(AS/400, PS/2 and RISC/6000 are trademarks of IBM.)

LA JOLLA, CA. (AUG. 14) PR NEWSWIRE - LIDAK Pharmaceuticals (NASDAQ: LDAKU) today announced its results of operations for the three and nine month periods ended June 30, 1990. The company reported net losses of $1,380,937 or $.29 per share and $1,923,323 or $.74 per share for the 1990 three and nine month periods, respectively. This compares to net losses of $146,751 or $.09 per share and $247,464 or $.16 per share for the 1989 three and nine month periods, respectively.

The net losses for the 1990 periods reflect a one-time charge to research and development expenses of approximately $818,000, representing the present value of installment fees payable pursuant to an exclusive 20-year technology license agreement with the Medical Biology Institute (MBI).

LIDAK Pharmaceuticals is a biotechnology company organized to develop and commercialize innovative pharmaceutical products, the first of which is a patented, topical therapeutic product that has produced positive results in volunteer human patients suffering from oral and genital herpes infections and certain inflammatory skin diseases.

Additionally, LIDAK is commercializing a technology for drug and vaccine development obtained under its exclusive license agreement with MBI in which mice with a genetic defect known as Severe Combined Immunodeficiency (SCID) have been biologically engineered to have an immune system which functions like that of human beings.

#90226p5342 08/14/1990 ~PR Newswire

OMAHA, NE. (AUG. 14) PR NEWSWIRE - ConAgra Inc. (NYSE: CAG) today concluded the acquisition of Beatrice Co. from Kohlberg Kravis Roberts & Co. partnerships and management investors for a combination of cash and stock valued at $1.34 billion. The acquisition agreement was announced on June 7, 1990. After a two-month review by the Federal Trade Commission, the acquisition was approved as expected.

Charles M. Harper, ConAgra's chairman and chief executive officer, said, "We are enthusiastic about Beatrice's prospects with ConAgra. Together with Beatrice's management teams, we intend to move vigorously to capitalize on Beatrice's and ConAgra's combined operating strengths."

Philip B. Fletcher, ConAgra's president and chief operating officer, said, "We are especially pleased to welcome Beatrice's employees to ConAgra's family. We know they are proud of Beatrice, and they can count on ConAgra's commitment to building Beatrice's businesses."

Harper said, "As we said in our earlier announcement, we expect Beatrice will be non-dilutive to the earnings per share level in our pre-Beatrice plan for fiscal year 1991 which began May 28. As we emphasized earlier, Beatrice represents a major strategic opportunity for our company and stockholders, including KKR and its affiliates."

Henry Kravis, a founding partner of Kohlberg Kravis Roberts & Co., said, "We are pleased that the Beatrice investment resulted in excellent returns for the KKR equity investor group. We believe the ConAgra securities received in this transaction constitute excellent investments, and we look forward to being long-term investors in ConAgra."

Harper continued, "Our most important financial objective is to average better than a 20-percent after-tax return on year-beginning common stockholders' equity. As we said in our June 7 announcement, we expect to exceed a 20-percent return in fiscal 1991, including Beatrice's earnings and a pro rata share of common equity for Beatrice.

"For many years we have met our objective to keep long-term debt as a percent of total capitalization--equity plus long-term debt plus deferred taxes--at or below 35 percent. We have said we would go above this self-imposed constraint for a major strategic acquisition such as Beatrice. Beatrice's cash flows and ConAgra's uncommitted financial capacity will help us restore our long-term debt position to a level

consistent with our internal objective in a reasonable period."

ConAgra acquired Beatrice for $11.50 per share. The purchase transaction consisted of $626 million in cash, net of proceeds for warrants exercised by Beatrice shareholders, $355 million in ConAgra common stock and $355 million in ConAgra convertible preferred stock --a total of $1.34 billion.

ConAgra is issuing 11,076,151 shares of common stock and 141,955 shares of convertible preferred stock. The preferred stock has a dividend rate of 6.75 percent and is convertible on a fully diluted basis to 9,631,433 shares of ConAgra common stock. The number of common and convertible preferred shares issued was based on a value of $32.0407 per share of ConAgra common stock as determined by average trading prices during periods before signing the definitive agreement and closing the transaction. Following the transaction close, ConAgra has about 134.4 million shares of common stock outstanding.

Beatrice is a producer and marketer of a wide range of leading food products for retail, foodservice and industrial markets. Beatrice had sales of $4.3 billion for the fiscal year ended February 28, 1990. ConAgra is a diversified food company based in Omaha. Sales for fiscal year 1990 ended May 27, 1990 were $15.5 billion.

EDMONTON, Alberta (AUG. 14) PR NEWSWIRE - Banister Inc. (AMEX: BAN; Toronto, Montreal, Alberta: BAC) today reported a net loss of $6,254,000 or $1.05 per share on revenues of $161,468,000 for the three months ended June 30, 1990. This compares with net income of $112,000 or 2 cents per share on revenues of $146,581,000 for the same period last year.

For the six months ended June 30, 1990, a net loss of $7,532,000 or $1.27 per share was reported on revenues of $327,327,000 compared with net income of $286,000 or 5 cents per share on revenues of $237,184,000 for the same period in 1989.

The reported loss resulted from further problems on certain civil construction projects undertaken by The Foundation Company of Canada Limited, Banister's largest subsidiary. These projects are now near completion and all anticipated losses have been recognized.

Banister entered the second half of fiscal 1990 with a backlog of work totalling $439,542,000. Prospects continue to be good for the corporation's diversified operations, particularly in the area of pipeline cosntruction.

Banister Inc. is a Canadian construction firm specializing in civil, marine, utility, building, pipeline and industrial construction.

MELVILLE, N.Y. (AUG. 14) PR NEWSWIRE - Aviation Education Systems, Inc. (NASDAQ: AESX) announced today that it has acquired all of the outstanding common stock of BARTON ATC, Inc., a prominent private air traffic control company, in consideration for $1,000,000 in cash and the issuance of 1,500,000 shares of AES common stock. BARTON's assets are estimated at $3.7 million with liabilities of approximately $250,000. BARTON's revenues for the first five months of 1990 were $941,000. The acquisition adds a much needed asset and revenue base to AES and is the first major step in AES's expansion in the highly lucrative private air traffic control industry.

The capabilities, experience and reputation of BARTON ATC, Inc., combined with the resources, commitment and global capability of AES, now places AES in a far stronger position to meet the growing demands for air traffic control and educational services in private sector support of governmental operations, not only in the United States but throughout the world. BARTON ATC, Inc. is currently involved in a wide variety of international projects, including the building of air traffic control simulators, towers and weather stations for service both in the U.S., and internationally.

AES also announced today that is has entered into an agreement to sell 2,687,500 shares of its common stock to Commcept, Ltd., a Swiss corporation, at a price of $.65 per share. As of Aug. 13, 1990, 1,500,000 shares had been sold pursuant to this agreement and the company anticipates that the balance of the shares will be sold by Aug. 23, 1990. The subscription agreement provides Commcept with registration for its shares.

DALLAS, (AUG. 14) PR NEWSWIRE - Central and South West Corp. (NYSE: CSR) said today that Ferd. C. Meyer Jr., vice president and general counsel, has been named interim corporate secretary.

Meyer, 50, replaces Philip I. McConnell, who is taking early retirement at age 55 in September.

In July, Meyer was promoted to senior vice president and general counsel of Central and South West, effective Sept. 1.

He joined Central and South West in 1986 as vice president and assistant general counsel of the corporation's Central and South West Services Inc. (CSWS) subsidiary. In 1987, he was promoted to CSWS general counsel and assistant general counsel of Central and South West. He was named vice president and general counsel of Central and South West in 1988. Before joining Central and South West, he had been a partner in the San Antonio law firm of Matthews and Branscomb.

Meyer is an advocate in the American Board of Trial Advocates, a fellow of the Texas Bar Foundation, a fellow of the American College of Trial Lawyers and a member of the International Association of Defense Counsel. He also is a member of the American Bar Association and the Texas Bar Association.

He holds a law degree and a bachelor's degree in business administration with a major in finance from the University of Texas at Austin.

McConnell joined Central and South West in 1977 and was named corporate secretary of the corporation and its Central and South West Services unit in 1978. Previously, he was a general attorney with Southwestern Bell Telephone.

He is a member of the Texas Bar Association and the Dallas Bar Association and currently serves as chairman of the corporate counsel section of the Dallas Bar. He also is a member of the American Society of Corporate Secretaries.

He has a law degree and a bachelor's degree from the University of Texas at Austin.

Central and South West Corp., a Dallas-based public utility holding company, owns four electric operating subsidiaries that serve customers in Texas, Oklahoma, Louisiana and Arkansas.

NEW YORK (AUG. 14) PR NEWSWIRE - Forstmann & Company, Inc. announced today that it has commenced an exchange offer for up to $60 million aggregate principal amount of the $100 million outstanding of its 14-3/4% Senior Subordinated Notes due April 15, 1999 for an equal principal amount of its new Split Coupon Senior Subordinated Notes due April 15, 1999. Under the terms of the new Split Coupon notes, Forstmann has the option to accrue interest for three years at 15-3/4 percent and thereafter will pay cash interest at 14-3/4 percent.

The exchange offer and withdrawal rights will expire at 12:00 midnight, New York City time, on Tuesday, Sept. 11, 1990, unless extended. Donaldson, Lufkin & Jenrette Securities Corporation is acting as dealer manager for the exchange offer and as financial advisor with respect to the company. The exchange offer is being made only pursuant to the offering materials that are being mailed today to the holders of record of Forstmann notes.

As a condition to the consummation of the exchange offer, the company requires that a majority of the existing 14-3/4 percent senior subordinated notes are exchanged and the company extends or refinances its existing bank loan facility.

Forstmann & Company, Inc. is the largest domestic manufacturer of woolen and woolen-blend fabrics, and the second largest domestic manufacturer of worsted and worsted-blend fabrics.

RALEIGH, N.C. (AUG. 14) PR NEWSWIRE - Durham Corporation (NASDAQ: DUCO) reports consolidated net income for the six months ended June 30, 1990, of $7,601,000 or $0.90 per share compared to $4,354,000 or $0.52 per share in 1989. Income from continuing operations was $7,601,000 compared to $7,031,000 last year, $0.90 per share compared to $0.83 per share. Included in these earnings are realized gains on sale of investments -- these were $1,133,000 or $0.13 per share in 1990 and $3,098,000 or $0.37 per share in 1989.

Total revenues for the first six months are $129 million which is a reduction of 24 percent from revenues of $171 million reported in the first six months of the prior year. This reduction is primarily due to contraction of the Group Division. Improvement in Durham Life's group health operations has continued. The elimination of unsatisfactory accounts and the repricing of retained accounts have produced a profit from the Group Division this six months. Productivity in the Individual lines continues to improve with new sales up over 25 percent from the comparable period in 1989. The Credit Insurance Division is having another good year with revenues and profits comparable with 1989. Revenues from the Broadcasting subsidiary were down 6 percent, $6.5 million versus $6.9 million in 1989, but Broadcasting profits were up slightly over last year.

The Board of Directors of Durham Corporation at its meeting today, August 14, 1990, declared a regular quarterly dividend of $0.23 per share payable on September 11, 1990, to shareholders of record on August 28, 1990.

Durham Corporation is a Raleigh-based holding company which through its subsidiaries has interests in life, accident and health insurance, broadcasting and real estate.

GREENWICH, CT (AUG. 14) PR NEWSWIRE - Howmet Corporation announced today that it has purchased a site in North Haven, Conn., for a new facility for the coating, repair and refurbishment of components for jet aircraft engines.

The purchase price was not announced.

David L. Squier, executive vice president of Howmet, said the acquisition includes an existing building where the company plans to establish a facility for the coating, repair and refurbishment of blades and vanes and other components for advanced jet aircraft engines. The new activity is expected to provide state-of-the-art coating services, including chemical vapor deposition (CVD), and advanced repair and refurbishment services, Squier said.

Howmet entered the repair and refurbishment field in 1984 through the establishment of the Wichita Falls Refurbishment Center in Wichita Falls, Texas, which has since then gained a reputation as a premier facility for the repair of small-turbine engine parts. In early 1989, the company commenced operations at a second refurbishment facility, located near Tulsa, Okla., which specializes in the repair of large- engine components.

Squier said that the company's refurbishment business has expanded severalfold since its establishment in 1984 and is meeting all expectations as a leading candidate for growth. The reason for this rapid growth, he explained, is that Howmet has brought to the repair field for the first time the full technological resources of an integrated producer of investment castings and high-performance materials. The result is a fast-expanding reputation for developing unique, advanced repair technologies to extend the life of increasingly higher-value and complex aircraft engine components, he added.

The North Haven facility will further expand Howmet's role in this rapidly growing industry, said John Parkinson, Howmet's vice president, Refurbishment & Coating Operations, of which the North Haven center will be a part. Parkinson added that another activity of Howmet's Refurbishment & Coating Operations -- the Thermatech Coatings Division, Whitehall, Mich.. -- has established a world leadership position in CVD coating, which rapidly is replacing older coating methods used to protect aircraft engine and other sophisticated components.

Howmet is a world leader in the manufacture of precision investment castings of superalloy, titanium, aluminum and magnesium alloys, primarily for jet aircraft and other gas turbine engines. The company also is an important supplier of superalloy metal, advanced tooling, titanium ingot and ceramic products, and provides component refurbishment, hot isostatic

pressing, machining and coating services. Howmet and its affiliates operate 33 manufacturing facilities in the United States, Canada, France, the United Kingdom, Spain and Japan, which employ over 12,000 people and are responsible for annual sales approaching $1 billion. The company is a member of the worldwide Pechiney Group.

CITY OF INDUSTRY, CA (AUG. 14) PR NEWSWIRE - Morse Technology Inc. has been formed to market a wide variety of PC sub- systems and systems including a powerful portable workstation, announced Founder and President David Chang.

The products, based on 286, 386 and 486 technology, are manufactured in Taiwan by parent company King Phoenix Company Ltd. Service and sales offices as well as parts warehouse, opened in July 1990, are located at Morse Technology's headquarters in City of Industry.

In addition to the new portable workstation to be announced at COMDEX/Fall '90, Morse will also be marketing modular PC products that include mainboards, I/O boards, floppy and hard disk controllers and VGA display systems. All products are available for immediate delivery beginning in September 1990, according to Al Astor, vice president, marketing.

"Our primary marketplace will be systems integrators and value- added resellers who are solving organizations' complex information processing needs," Astor said.

Morse is currently organizing its distribution network by reviewing independent systems integrators and other prospective value-added outlets.

For further information contact Al Astor at Morse Technology Inc., 17531 Railroad St., Unit I, City of Industry, Calif., 91748. Telephone 818-854-8688, or 818-854-8681; Fax 818-854-8682.

PHILADELPHIA (AUG. 14) PR NEWSWIRE - Conston Corp., a specialty retailer of women's clothing and accessories, which focuses primarily on large-sized women's apparel, presently in Chapter 11 federal bankruptcy proceedings, whose shares were temporarily suspended from trading on AMEX,

announced today that trading in its shares would resume on AMEX, commencing Wednesday, Aug. 15, 1990, under the revised symbol QKCS.

Conston, which announced yesterday a change in the control of its management and its business operations during its bankruptcy reorganization proceedings, said it expects to implement a plan of reorganization and to emerge from Chapter 11 as soon as practicable. Subject to Bankruptcy Court approval, Cascade International Inc. (NASDAQ: KOSM), the parent of Conston, has indicated its willingness to assist Conston in implementing that plan, once proposed and approved by creditors and the Bankruptcy Court.

WASHINGTON (AUG. 14) PR NEWSWIRE - MCI Communications Corp. (NASDAQ: MCIC) and Telecom USA Inc. today concluded the long distance industry's largest merger, which combines the nation's second and fourth largest long distance telecommunications companies.

Under the agreement, originally announced on Apr. 9, MCI acquired all outstanding shares of Telecom USA's common stock for cash at a price of $42 per share, for a purchase price of approximately $1.25 billion.

"We're delighted the merger is concluded, and look forward to upholding Telecom USA's tradition of providing the highest level of service and the broadest array of products to meet customers' communications needs," Bert C. Roberts Jr., MCI president and chief operating officer, said.

"The merger of two of the industry's most aggressive and creative companies will be beneficial to both customers and shareholders," O. Gene Gabbard, MCI chief financial officer and executive vice president and former chairman of Telecom USA, said. "By combining both organizations' employees, facilities and technology, MCI becomes an even stronger force in the long distance marketplace."

MCI has obtained all necessary state and federal regulatory approvals for the transaction.

The acquisition will be initially funded by bank debt and cash on hand. The company expects that the bank debt will be repaid within three years.

UNION, N.J. (AUG. 14) PR NEWSWIRE - Robert S. Schiffman, president and chief executive officer of Tenney Engineering, Inc. (AMEX: TNY), announced Tenney's results of operations for the second quarter and six months ended June 30, 1990.

Revenues from continuing operations for the second quarter were $4,342,000 compared to $4,876,000 in 1989. For the second quarter of 1990 the company operated at a net loss of $514,000 compared to a net loss of $206,000 in 1989 which included a pension plan curtailment gain of approximately $228,000.

Revenues from continuing operations for the six months were $8,569,000 compared to $9,954,000 in 1989. The net loss form continuing operations was $784,000, which includes a gain on the sale of a marketable security of approximately $150,000 compared to a net loss of $677,000 in 1989 which included the pension plan curtailment gain of approximately $228,000 and an income tax credit of $80,000.

At June 30, 1990, the company was not in compliance with certain covenants of its loan agreement with its bank. The company and the bank have modified such covenants to bring the company back into compliance. As part of such modification, the credit line was reduced to $3,000,000 (a decrease of $500,000); the interest rate was increased to Prime +2 percent (an increase of 1 percent) effective Aug. 14, 1990 and the maturity date of the obligation was advanced to Nov. 15, 1990.

Tenney Engineering, Inc. engineers, manufactures and markets high technology environmental test equipment, allied vacuum products and insulated enclosures.

NEWARK, N.J. (AUG. 14) PR NEWSWIRE - Continental Airlines today announced that it will cut fares up to 57 percent for new flights between Atlanta and many northeastern cities, including Newark. The $69 (each way) introductory fare applies to tickets purchased by Sept. 4 for travel completed by Oct. 15.

The $69 fare is available for travel between Atlanta and Newark, Boston, Buffalo, Portland (Maine), Providence, Rochester, Syracuse, and many other

cities.

Effective Sept. 5, Continental will offer four daily round trips between Atlanta and its Newark hub.

A round-trip purchase is required and tickets are nonrefundable. The $69 fare saves up to 57 percent in comparison to Continental's regular low fares. For example, the regular discount fare to Portland, Maine, is $161 each way.

BINGHAMTON, N.Y. (AUG. 14) PR NEWSWIRE - Centuri, Inc. (NASDAQ: CENT) today reported record revenues of $127,400,000 for the six months ended June 30, 1990, 23 percent higher than the $103,663,000 reported in the same period a year ago. The net loss was $3,628,000, or $0.27 per share, compared with net income of $302,000, or $0.02 per share, in the comparable period last year.

Revenues for the second quarter, ended June 30, 1990, increased 18.2 percent to $53,092,000 from $44,913,000 reported in the year earlier quarter. The net loss was $2,245,000, or $0.17 per share, compared with net income of $21,000 reported in the second quarter of 1989.

Milton Koffman, chairman and chief executive officer of Centuri, Inc., explained that the record first half revenues reflected significant acquisitions made by Outdoor Sports Headquarters, Inc. (OSHI), Centuri's

major operating subsidiary. Significant costs associated with integrating the acquired companies, high interest expense resulting from increased working capital requirements, and a weak retail environment impacted earnings in the first half of 1990. Poloron Products, Inc. (Poloron) was also effected by the recession level housing market in the Northeast. Koffman added that he anticipates Centuri would operate profitably in the second half of the year.

"We knowingly sacrificed earnings in the first half of 1990, with an eye focused on the long-term growth of OSHI. The costs of integrating OSHI's acquisitions are substantially behind us and we are not only looking forward to a resurgence of earnings in the second half of this year, but significant earnings growth in the years ahead," Koffman said.

Poloron recently implemented plans to reduce its annual operating expenses by $1 million, thereby strengthening its competitive position in the modular home industry. The subsidiary is expected to perform better in the second half of the year even with an extremely weak housing market, concluded Koffman.

Centuri, through its wholly owned OSHI, is the pre-eminent distributor of outdoor sports equipment in the country and the only nationwide distributor. Centuri holds a 85 percent interest in Poloron Products, Inc., which through its wholly owned Poloron Homes of Pennsylvania, Inc. designs, manufactures and distributes modular housing and mobile homes.

HIGHLAND PARK, MI (AUG. 14) PR NEWSWIRE - Following are Chrysler Corporation's (NYSE: C) sales results for the first 10-day selling period of August.

	1990	1989	Pct. Change	Selling Days '90	Selling Days '89
Total Cars					
Aug. 1-10	17,183	27,886	-38.4	9	9
Jan. 1-Aug. 10	518,964	650,152	-20.6	188	187
Domestic Cars					
Aug. 1-10	15,667	25,515	-38.6		
Jan. 1-Aug. 10	479,693	583,567	-18.2		
Total Trucks					
Aug. 1-10	17,566	23,363	-24.8		
Jan. 1-Aug. 10	557,620	626,744	-11.5		
Domestic Trucks					
Aug. 1-10	17,339	22,372	-22.5		
Jan. 1-Aug. 10	548,753	603,055	-9.5		
Total Vehicles					
Aug. 1-10	34,749	51,249	-32.2		
Jan. 1-Aug. 10	1,076,584	1,276,896	-16.1		

All changes are computed on a daily rate basis. Comment: The comparison to the prior year is badly distorted because of the extremely high retail sales of Sundance and Shadow in the 1989 period. The 1989 figures reflect a major promotion involving double rebates for both Sundance and Shadow.

#90226p5385 08/14/1990 ~PR Newswire

BEAVERTON, OR (AUG. 14) PR NEWSWIRE - Epitope Inc. (AMEX: EPT) reported a loss of $1,144,000, or a per-share loss of 17 cents, for the third quarter of 1990, as compared with a loss of $599,000, or a per-share loss of 10 cents, for the same period the year prior. The results included a nonrecurring expense of $341,000 related to the settlement of employment contract obligations to two former officers.

"While the current quarter's product revenues exceeded the levels achieved in the third quarter of 1989, the net loss reflected three factors: additional research and development expenditures; costs associated with changing to revised product specifications for one product; and a decline in parentage testing demand at Epitope's clinical reference lab," commented Adolph J. Ferro, president and chief executive officer. He also stated that manufacturing yields had improved by the close of the quarter, and that in response to the reference laboratory's loss of $36,000 for the

quarter, a cost reduction program had been put into place.

Ferro noted that research and development expense was up $101,000 from the third quarter of the prior year, reflecting concentration of efforts on the company's two nearest-term projects, OraSure(TM) saliva- based AIDS test recently cleared for clinical trials by the Food and Drug Administration and VITROVINE(TM) micropropagated grape plants, as well as stepped-up efforts in development of antiprotozoan compounds which have been funded by SmithKline Beecham.

For the nine months ended June 30, revenues increased to $2,828,000 from $2,177,000 in the same period the year prior. Net loss for the nine-month period ended June 30 was $2,489,000, or a per-share loss of 38 cents, as compared with a net loss of $2,230,000, or a per-share loss of 42 cents, for the nine-month period of fiscal 1989.

"With the management transition completed and with the FDA's approval to place the saliva-based AIDS test in clinical trials, we are positioned to achieve more favorable operating results in future periods," Ferro added.

Epitope Inc. is an Oregon corporation utilizing biotechnology to develop diagnostic tests for AIDS, therapeutic drugs for protozoan diseases and, through its agricultural unit, Agritope Inc., agronomically superior new plant varieties.

MONTVALE, NJ (AUG. 14) PR NEWSWIRE - Mercedes-Benz of North America, Inc. has announced today changes in headquarters and regional management, effective immediately.

At the company's headquarters, the following promotions and appointments have been announced:

Robert Erzen has been named vice president of Human Resource Management, responsible for all personnel functions, including employee training and development, and organization planning.

Hans Kaemmlein has been promoted to general manager of strategic marketing and product management. He will be responsible for the development, planning and execution of national marketing strategies, as well as product planning.

Kurt von Zumwalt joins MBNA as general manager of public relations. He will oversee product and corporate publicity, public relations

publications, and will coordinate regional public relations activities.

Hal Whiteford has been promoted to general manager of franchise and network development. He will be responsible for dealer organization, dealer financial reporting and the company's network investment program.

John Sageder has been named manager of service and parts marketing. He will be responsible for service and parts development and merchandising, service and parts management training, and technical training.

Andrew Schillizzi has been named manager of the company's new network investment program. His responsibilities include identifying and managing MBNA investments in its dealer network.

In the company's realigned field organization, which consists of four newly created business regions: Northeast, North Central, Southern and Western, operations managers have been named. Reporting to the respective regional vice presidents, they will be responsible for daily dealer activities, including the meeting of sales, service and parts goals. The new operations managers are:

Joseph Heim, northeast region, has been with MBNA since 1981. He was most recently Jacksonville zone manager, and also held the position of assistant zone manager in New York. In addition, Heim served in the company's headquarters as field liaison manager.

Ralph Fisher, north central region, joined MBNA in 1978 as a regional sales training manager. He has held sales manager and distribution manager positions in the company's Jacksonville zone, as well as other field assignments.

Joseph Messner, southern region, joined MBNA in August 1985. He most recently served as zone sales manager in Houston, and prior to that held district manager positions in San Francisco and Cincinnati.

David Westervelt, western region, brings with him 11 years of service with MBNA. Westerverlt was most recently the zone sales manager for the Los Angeles Zone. He has held numerous field positions with MBNA and also served as assistant to MBNA's vice president of sales from 1987-88.

#90226p5389 08/14/1990 ~PR Newswire

HANOVER, MD (AUG. 14) PR NEWSWIRE - Crop Genetics International (NASDAQ: CROP) today reported revenues of $126,200 for the first quarter period ended June 30, 1990, compared to $312,100 in the same period last year.

Net loss was $1,644,500 or $.35 per share, compared to a net loss of $1,689,000 or $.36 per share in the first quarter of last year.

On July 24, 1990, the company issued 2,500,000 shares of $.95 Convertible Exchangeable Preferred Stock with an estimated net proceeds to the company of $23,275,000. Proceeds of the offering will be used to finance continued research and development and commercialization of the company's InCide and X-tend crop protection systems. The InCide vaccine systems are designed to provide consistent, season-long protection from targeted insects or fungi, without the need to spray chemical pesticides. The company's X-tend weed control systems are being designed to reduce significantly the use of chemical herbicides, a major cause of environmental hazards including groundwater contamination.

#90226p5390 08/14/1990 ~PR Newswire

CHICAGO (AUG. 14) PR NEWSWIRE - Whitman Corp. (NYSE: WH) has discontinued negotiations for the sale of Hussmann Corp., and will withdraw it from the market.

After several weeks of negotiations, Whitman management has concluded that the net proceeds of the best offer for Hussmann were not sufficient to justify the sale. Accordingly, every effort will now be made to realize Hussmann's improving potential as a Whitman company. After a weak first half of 1990, orders for Hussman equipment have reached their highest level in history. And its major production facility is scheduled to run three shifts through the rest of the year.

James W. Cozad, chairman and chief executive officer of Whitman, said ''We're disappointed that our negotiations failed to produce a fair price for Hussmann. However, the economic value of the company is clearly greater than the price we were offered, so we have withdrawn it from the market.''

Whitman had earlier announced a major program to transform itself into a more focused food and soft-drink company, discarding its holding company structure for a more cost-effective operating company structure. That program will continue to move forward, with cost reductions and reorganization for greater efficiencies. In connection with these programs, the company is planning to take a special charge against earnings in 1990.

PITTSBURGH (AUG. 14) PR NEWSWIRE - Cimflex Teknowledge Corp. (Cimflex) (NASDAQ-NMS: CMTK) announced its financial results for the second quarter and six months ended June 30, 1990.

Revenues were $8.5 million and $15.3 million, respectively, as compared to $10.1 and $16.6 million for the same periods in 1989. For the quarter and year to date, the company had a net loss of $2.3 million ($.10 per share) and $4.4 million ($.19 per share), respectively, vs. a net loss of $227,000 ($.01 per share) and $3.0 million ($.15 per share) in the comparable periods in the previous year.

Cimflex's management cited several reasons for the disappointing results, including additional cost overruns and shipping delays on a key factory automation and integration contract, as well as lower bookings and shipments from its product businesses.

A company spokesman said, "The large automation contract, the reason for a large part of the financial problems during the past year, should be essentially complete during the fourth quarter of 1990. Although the scope of this project was large enough to have an effect on three operating divisions of the company, the technologies developed will be the items that the company will use to leverage itself into the future. The uniqueness and superiority of the technologies developed during the implementation of this project will be the foundation that will help to position the Automated Factories Division (AFD) for long-term viability."

According to the company's spokesman, the completion of this project will result in more management time being devoted to pursuing two of Cimflex's leading corporate objectives. He said, "Our objectives include stabilizing AFD for the long-term and growing the Factory Management and Control Systems businesses which provides systems engineering, application software and systems integration services."

Cimflex Teknowledge headquarters are in Pittsburgh and the company is traded on the NASDAQ National Market System under the name Cimflex Teknowledge and the symbol CMTK.

#90226p5400 08/14/1990 ~PR Newswire

PORT HURON, MI (AUG. 14) PR NEWSWIRE - Robert J. Thomson, chairman, president and chief executive officer of Southeastern Michigan Gas Enterprises, Inc. (NASDAQ: SMGS), stated that the company reported net loss of $983,000 for the second quarter of 1990 ($.13 per share), compared to net income of $110,000 ($.01 per share) for the same period in 1989.

The decrease in second-quarter net income of $1,093,000 is primarily the result of the recording of a $900,000 provision for possible 90/10 refund payments discussed below, and increased operations and maintenance

expenses, depreciation and taxes (other than income taxes) which reflect the higher cost of doing business and maintaining a larger amount of plant.

For the year to date, the company reported net income of $4,773,000 ($.63 per share) compared to $6,688,000 ($.90 per share) for the first half of 1989. In addition to the factors affecting the second-quarter comparison, six-month earnings also decreased because of reduced gas sales by the company's distribution subsidiaries due to 6 percent warmer weather.

In June 1990, the company recorded a provision of $900,000 for the possible refund payments resulting from the 90/10 rule of Southeastern Michigan Gas Company (Southeastern). Although there is no assurance that it can be accomplished, Southeastern is seeking to settle all litigation (discussed below) by refunding $900,000 to its customers. No such provision was made heretofore because of the positive decisions of the Administrative Law Judges (ALJs).

Under the terms of one of its tariffs, Southeastern must refund, prospectively, 90 percent of the gross margin of certain large volume and interruptible sales in excess of certain projected revenues. The Michigan Public Service Commission Staff (the Staff) has claimed that transportation revenues should be included in this calculation. The ALJs in two of Southeastern's Gas Cost Recovery Reconciliation cases concluded that transportation revenues are not subject to this tariff.

However, on May 18, 1990, the Michigan Public Service Commission (MPSC) issued orders in Case Nos. U-8632-R and U-8953-R which did not follow the recommendation of the two ALJs who presided over the cases. The order in Case No. U-8632-R requires Southeastern to refund a principal amount of $859,978 plus interest from Feb. 28, 1988, at 14 percent per annum. This amount was determined by including most natural gas transportation revenue in Southeastern's 90/10 rule. The order in Case No. U-8953-R requires a reopening of the record for the purpose of determining whether a refund under Southeastern's 90/10 rule is required for the period ended Feb. 28, 1989, and the amount thereof. Southeastern has filed data with the MPSC showing that if the Staff's approach is adopted, Southeastern would have a $638,779 principal liability plus interest from Feb. 28, 1989, at 14 percent. Southeastern has filed a motion for reconsideration and rehearing before the MPSC in both cases.

The issue of including transportation revenue in the 90/10 rule has also arisen in the Gas Cost Recovery Reconciliation case for the period ended Feb. 28, 1990. Southeastern has filed affidavits with all parties in that case showing that if the Staff's approach is adopted, Southeastern would have a $542,162 principal liability plus interest from Feb. 28, 1990, at 14 percent.

The recent Michigan Gas Company rate order allowing increased annual

revenue of $3,244,000 had no material effect on the results reported above as it only relates to gas sales after June 29, 1990. The full effect will be felt prospectively.

The following is a summary of the results for the quarter, year to date, and 12 months ended June 30:

SOUTHEASTERN MICHIGAN GAS ENTERPRISES, INC.

Quarter Ended June 30	1990	1989
Operating revenue	$41,731,000	$38,993,000
Net income (loss) for common	(983,000)	110,000
Earnings per share(a)	($.13)	$.01
Dividends per share(a)	$.19	$.18
Average common shares outstanding	7,604,000	7,442,000
Year to Date Ended June 30		
Operating revenue	$126,358,000	$127,782,000
Net income for common	4,773,000	6,688,000
Earnings per share(a)	$.63	$.90
Dividends per share(a)	$.38	$.36
Average common shares outstanding	7,584,000	7,419,000
12 Months Ended June 30		
Operating revenue	$225,329,000	$217,677,000
Net income for common	5,717,000	6,941,000

#90226p5402 08/14/1990 ~PR Newswire

MONROEVILLE, PA. (AUG. 14) PR NEWSWIRE - Community Bancorp Inc. (NASDAQ-NMS: CBPA) announced today that it had net income of approximately $420,000 or $.28 per share for the quarter ended June 30, 1990, compared to approximately $156,000 or $.10 per share for the quarter ended June 30, 1989.

Kenneth J. Tyson, president of Community Bancorp, stated that the increase in net income was due to an increase in net interest income of $266,775 and an increase in other income of $310,107. The increase in other income was primarily due to an increase of $240,460 in equity income from joint ventures and a $67,345 increase in service charges and fee income. These increases were partially offset by a $92,045 increase in loan loss provision and a $214,093 increase in income tax expense. The net effect

was a $263,957 increase in net income for the quarter ended June 30, 1990, compared to the quarter ended June 30, 1989.

Tyson said that the June 30, 1990, quarter showed a $92,045 or 104.7 percent increase in the loan loss provision compared to the June 30, 1989, quarter. The increase was due to a $155,000 addition to the loan loss reserve by management in June of 1990 as part of their ongoing evaluation of the association's loan portfolios. This increase in the reserves offset a $62,955 or 71.6 percent decrease in the consumer loan loss provision. This decrease was due to a decline in the volume of automobile loans originated by the association during the quarter ended June 30, 1990, as compared to the quarter ended June 30, 1989. A general market decline in the sale of automobiles was the reason for this decrease.

Tyson also stated that the association's interest rate spread increased to 2.29 percent for the quarter ended June 30, 1990, from 2.18 percent for the preceding quarter ended March 31, 1990. Lower interest rates on deposit accounts was the primary reason for this improvement.

Income for the nine months ended June 30, 1990, was approximately $1,031,000 or $.69 per share compared to approximately $605,000, or $.40 per share for the nine months ended June 30, 1990.

The association operates through 12 offices in the Greater Pittsburgh metropolitan area and at June 30, 1990, the association's capital exceeded all three capital requirements. Community Bancorp's common stock is quoted on the NASDAQ National Market System under the symbol "CBPA."

#90226p5403 08/14/1990 ~PR Newswire

RALEIGH, NC (AUG. 14) PR NEWSWIRE - Acton Corporation (AMEX: ATN), AMEX $3.75 Cumulative Preferred Stock (ATNPR) -- today announced that operations for the three months ended June 30, 1990 yielded net income of $681,229 or $.11 per primary share ($.08 fully diluted) as compared to a net income of $6,991,424 or $2.50 per primary share ($1.80 fully diluted) for the three months ended June 30, 1989. For the six months ended June 30, 1990 the Company reported net income of $418,248 for a loss per common share of $.16 after consideration of the Company's preferred stock dividend requirements. This compared to income of $21,676,802 or $7.93 per primary share ($5.69 fully diluted) for the first six months of 1989.

The 1989 earnings were primarily attributable to the gain of $11,910,266 from the sale in February of the Company's cable television system located in Beaufort County, South Carolina and the $11,252,223 of gain realized

from the sale of its investment in Land of Lincoln Savings and Loan in conjunction with the acquisition of Land of Lincoln by Household International. There were no major sales of assets in the first half of 1990.

The Company's reported stockholders' equity has declined during the second quarter of 1990 due to a decline of $4,661,381 in the market value of the Company's equity security portfolio. Furthermore, the reported stockholders' equity was reduced by $13,592,679 as required in conjunction with the Hickory White acquisition discussed below. These factors have resulted in the decline of reported stockholders' equity from $65,033,712 at March 31, 1989 to $47,101,546 at June 30, 1990.

As previously announced, on June 21, 1990 Hickory White Company, a new wholly-owned subsidiary of the Company, completed the purchase of Hickory Furniture Company's ("HFC") furniture manufacturing assets. The required accounting applicable to purchases of businesses in transactions between entities under common voting control requires that the assets acquired be recorded at their historical cost basis as previously reflected on the books of the seller. Accordingly, the $13,592,679 excess of the fair market value paid for the assets acquired over HFC's historical cost basis in those assets has been reflected in the Company's financial statements as a reduction to its stockholders' equity.

Acton Corporation is primarily engaged in specialized automobile insurance underwriting, furniture manufacturing, real estate development and the operation of a cable television system.

#90226p5409 08/14/1990 ~PR Newswire

DENVER, (AUG. 14) PR NEWSWIRE - Presidio Oil Company (AMEX: PRS.A) today reported revenues of $23,604,000 for the quarter ended June 30, 1990, as compared to revenues of $18,352,000 in the second quarter of 1989. The company's continued revenue growth, in spite of a sharp drop in oil prices during the quarter, reflects expanded operations following its acquisition of home petroleum in December 1989.

Presidio reported a net loss of $5,807,000 for the quarter, compared to $3,727,000 for the quarter ended June 30, 1989. After preferred stock dividend requirements, the second quarter 1990 loss on a per-share basis was $.20 for the company's Class A common stock and $.23 for its Class B common stock, while in the second quarter of 1989 the loss attributable to common stock was $.38 and $.41 per share, respectively. The company said the higher loss for the 1990 quarter was principally due to lower average

oil prices; increased depletion, depreciation and amortization costs reflecting higher oil and gas production rates; and the current unavailability of deferred taxes.

The company also reported revenues of $54,275,000 for the first six months of 1990, as compared to $37,908,000 for the same period in 1989, and a loss of $9,615,000 in the first half of 1990 vis-a-vis a loss of $6,981,000 during 1989. The per share loss in the first half of 1990 was $.38 per share of Class A common stock and $.43 per share of Class B common stock, vis-a-vis $.73 and $.78 per share, respectively, in 1989.

Presidio's net operating cash flow for the 1990 first half was $18,583,000 representing the company's net loss of $9,615,000 as adjusted for non-cash charges consisting principally of depletion and debt issuance costs. In the first half of 1989, Presidio's comparable net operating cash flow was $8,247,000. During the second quarter of 1990, the company's net operating cash flow was $6,927,000 as compared to $2,904,000 in 1989.

During the quarter ended June 30, 1990, Presidio produced 873,000 barrels of oil and 5.03 billion cubic feet (BCF) of gas, up from 424,000 barrels of oil and 4.18 BCF of gas in the same period of 1989. The average prices received for the second quarter of 1990 were $14.88 per barrel of oil and $1.59 per thousand cubic feet of gas. During the first half of 1990, Presidio produced 1,700,000 barrels of oil and 10.96 BCF of gas.

Presidio also substantially increased its proved reserves of oil and gas during the first half of 1990, despite achieving such increased levels of production. At June 30, 1990, the company's proved reserves were 23.8 million barrels of oil and 242.9 BCF of gas, up from 20.7 million barrels of oil and 241.2 BCF of gas at Dec. 31, 1989. Such growth in reserves was achieved at a finding cost of $2.76 per equivalent barrel.

Presidio Oil Company is an independent oil and gas company engaged in onshore oil and gas exploration, development and production in the continental United States, primarily in Wyoming, North Dakota, Texas, Louisiana and Oklahoma and in the transportation of gas through gas gathering systems in Wyoming.

#90226p5410 08/14/1990 ~PR Newswire

HAMPTON, NH (AUG. 14) PR NEWSWIRE - In the three months ended June 30, 1990, The Henley Group, Inc. (NASDAQ: HENG) achieved net revenues of $488 million compared with net revenues of $360 million in the corresponding period of 1989.

The revenue gain principally reflects the June 1989 acquisition of the 50 percent of Pneumo Abex, a leading manufacturer of aerospace and industrial products, that Henley did not own, as well as higher sales of laboratory products.

Improved operating results were more than offset by higher interest expense and other acquisition-related charges, in addition to a nonrecurring transaction charge. As a result, Henley posted a loss from continuing operations and a net loss of $49 million, or $2.49 per share, in the second quarter of this year.

In the second quarter of 1989, Henley had a loss from continuing operations of $28 million, or $1.40 per share, income from discontinued operations of $10 million, or 50 cents per share, and a net loss of $18 million, or 90 cents per share.

In the first six months of 1990, net revenues were $964 million compared with $629 million in the first half of 1989. The loss from continuing operations and net loss in the first half of this year was $104 million, or $5.28 per share, compared with a loss from continuing operations of $62 million, or $3.11 per share, income from discontinued operations of $12 million, or 60 cents per share, and a net loss of $50 million, or $2.51 per share, in the first six months of 1989.

Henley, with assets of $3.3 billion and net worth of $1.1 billion, actively manages its businesses and other assets to enhance their value to shareholders.

#90226p5420 08/14/1990 ~PR Newswire

TULSA, OK (AUG. 14) PR NEWSWIRE - Tribune/Swab-Fox Companies Inc. (NASDAQ: TSFC) today announced operating results for the second quarter and first six months of 1990. The company stated that it had a loss of $16,000, or less than 1 cent per share of common stock, on revenues of $23,287,000 for the second quarter. This compares to a loss of $261,000 or 1 cent per share, on revenues of $18,606,000, for the second quarter of 1989. For the first six months, the company reported a loss of $539,000, or 2 cents per share on revenues of $44,399,000, compared to a loss of $448,000, or 2 cents per share, on revenues of $36,174,000 for the first half of 1989.

On a comparative basis to 1989, the company's T/SF Communications subsidiary, which is 65 percent owned, had lower earnings for the quarter, primarily due to increased depreciation and amortization associated with

its Marks-Roiland Communications unit, which became a part of T/SF Communications in January, 1990, and continued losses from its Shopper's Guide unit. Offsetting these losses were gains in T/SF Communications' information services, daily newspaper and trade publishing units and reduced interest costs because of debt reductions. For Tribune/Swab-Fox's separate operations, improved results were attributable to increased earnings from higher short term investments and a substantial gain on a sale of real estate, partially offset by significant write-offs on several venture capital investments.

G. Douglas Fox, president and chief executive officer of Tribune/Swab-Fox, stated, "The increased losses at Shopper's Guide represent a continuation of the problems which began in the second half of 1989. Though the new management recently installed in this unit is making progress, the softening of the northeastern economy is slowing recovery. The operations of the other divisions are generally performing satisfactorily and we expect this to continue in the second half of 1990."

EXTON, PA (AUG. 14) PR NEWSWIRE - Intelligent Electronics Inc. (NASDAQ: INEL), North America's largest network for the sale of microcomputers, today reported net income of $7.5 million for its third quarter, ended July 31, 1990, a 169 percent increase over the $2.8 million reported one year ago.

Revenues for the three-month period ended July 31, 1990, were $360.6 million compared to $170.7 million for the same period last year. Earnings per share for the quarter totaled $0.52 on 14.5 million shares, compared to $0.27 on 10.4 million shares for the third quarter last year, after giving effect to the company's July 1990 2-for-1 stock split.

Revenues for the nine-month period ended July 31, 1990, were $1.1 billion compared to $422.9 million for the same period last year. Net income for

the nine-month period ended July 31, 1990, of $20 million, or $1.41 per share, compared to $5.9 million, or $0.61 per share for the prior nine-month period.

"The company continues to successfully control costs and manage assets," said IE Chairman and Chief Executive Officer Richard D. Sanford.

"Our SG&A as a percent of revenue is now at 4.0 percent for the third quarter, compared to 4.5 percent for the second quarter of this year and 5.5 percent for the third quarter last year."

"Strong earnings and aggressive working capital management generated $87.3 million in cash from operations for the nine-month period," Sanford said.

Third quarter financial statements include an accrual of $10.7 million of additional purchase price related to the company's 1989 acquisition of Connecting Point of America. The maximum contingent purchase payment for this acquisition is $18 million, based on the subsidiary's earnings through March 31, 1991.

Intelligent Electronics has now achieved 27 consecutive quarters of increasing profitability. The company provides a highly cost-efficient, value-add channel for the distribution of micro-technology products and services to its network of nearly 1,000 dealers.

SOUTH BEND, IN (AUG. 14) PR NEWSWIRE - Clark Equipment Co. (NYSE: CKL) announced today that its board of directors approved an amendment to its stockholder rights plan. The amendment reduces from 30 percent to 20 percent the ownership threshold that permits rightsholders to purchase Clark common stock with a value equal to twice the exercise price of the rights. The amendment also contains certain technical adjustments which do not substantially alter the nature of the plan. Details of the amendment are contained in a letter and summary of the rights plan being mailed to all Clark stockholders.

Clark Equipment Co.'s business is the design, manufacture and sale of forklift trucks, construction machinery, transmissions for on-highway vehicles, and axles and transmissions for off-highway equipment.

RACINE, WI (AUG. 14) PR NEWSWIRE - A new joint venture in Kiev, Ukraine, U.S.S.R., has been formed between SC Johnson Wax of Racine, Wis., and Ukrbytkhim, a Ukranian Household Production Association. The joint venture

was registered with the U.S.S.R. Minisitry of Finance on Aug. 2.

It is called SC Johnson Kiev Corporation, and SC Johnson Wax holds an 80 percent majority ownership in the operation. The joint venture will be managed by an Executive Committee composed of four Soviets and four Johnson employees.

James M. Shepherd, a Johnson employee, is the general manager of the subsidiary, and said the company has been negotiating the joint venture for more than two years.

Ukrbytkhim currently produces detergents and shampoos, and will continue to do so. In addition, to determine the potential for other lines of SC Johnson Wax products, S.C. Johnson Kiev is conducting market research to learn consumer habits, to define market opportunities and to help establish product priorities.

"We've been importing some of our branded products into the Soviet Union for more than 20 years," Shepherd said.

"Because of this, the Johnson name is well-known and respected, which gives us a solid base to start from.

"We visited 10 sites before we chose Ukrbytkhim in Kiev. We found that it is best suited to our particular needs, and our partners are most compatible with our traditional Johnson philosophy of doing business.

"In fact, one of our first priorities is to train the existing Soviet managers so they can operate the plant in accordance with our philosophies.

"As the joint venture develops, we hope to have Soviet nationals replace our management team -- this is the way we have approached our operations in the 45 other nations in which we have subsidiaries, and we intend to continue that procedure in Kiev."

The Ukraine has the second largest population in the Soviet Union, and is about the size of France. The 15 Soviet republics have the largest territory of any nation in the world, and their combined population is about 280 million.

SC Johnson Wax is among the world's leading manufacturers of chemical specialty products for home, personal care and insect control. It is also a leading supplier of products and services for commercial, industrial and institutional facilities.

GREENSBORO, N.C. (AUG. 14) PR NEWSWIRE - Burlington Industries Capital Inc. reported net sales of $589.4 million for the third fiscal quarter ended June 30, 1990 compared with $651.6 million recorded in the same period of fiscal 1989. Net sales for the first nine months of fiscal 1990 were $1,729.5 million compared to $1,835.6 million in the the comparable period of fiscal 1989. The decrease in sales in the June quarter 1990 from the June quarter 1989 was mainly due to lower activity in several of the company's apparel fabric divisions and to a lesser extent the carpet group.

Earnings from operations--defined as net sales minus cost of sales and selling, administrative and general expenses -- were $45.8 million in the third quarter of fiscal 1990 compared to $74.5 million in the same period of fiscal 1989. Burlington's performance in the June quarter 1990 paralleled the March quarter which had earnings from operations of $46.1 million. Earnings from operations in the first nine months of fiscal 1990 were $131.8 million compared to $193.9 million in the same period of fiscal 1989. The reduction in earnings from operations in the June quarter 1990 from the June quarter 1989 was principally attributable to reduced margion contribution caused by lower apparel sales and abnormal equipment start-up expenses on major capital expenditure projects in the apparel fabrics area. Also, the performance of the carpet group and the knit division was lower due to residual costs of restructuring programs in these two businesses. Earnings were also reduced by several other non-cash expenses.

The company incurred a net loss of $20.7 million for the third quarter of fiscal 1990 compared to net earnings of $2.4 million in the same period of fiscal 1989. The net loss for the first nine months of fiscal 1990 of $64.0 million compares with a net loss of $13.2 million in the same period of fiscal 1989. Included in the results of the third quarter of fiscal 1990 was an extraordinary gain of $4.1 million, and in the first nine months of fiscal 1990, an extraordinary gain of $18.0 million, on repurchase of company debt securities.

The consolidated financial statements of the company have been restated for all periods presented to reflect the inclusion of a subsidiary formerly reported as an investment of the company.

In commenting on the results Frank S. Greenberg, chairman and chief executive officer of Burlington Industries, Inc. said: "Burlington's activity in the June quarter 1990 paralleled the March quarter but continued lower from prior year results. The effects of lingering weakness in several retail market channels and ongoing pressures by retailers and apparel manufacturers to reduce inventory levels were

critical factors impacting the company's performance. However, evidence of improving retail and apparel manufacturer sales is gradually emerging, which is also favorably affecting the inventory pipeline. Continuation of this trend should, in time, have a favorable impact on the company's activities."

PALO ALTO, Calif. (AUG. 15) PR NEWSWIRE - CF Motor Freight informed its customers that it was implementing a small fuel surcharge to offset the sudden and dramatic increases in oil prices since the recent Middle East crisis.

In a letter to the company's customers, President R.H. Lawrence said the fuel charge of 1 percent for less-than-truckload shipments and 3.47 percent for full truckload shipments would change weekly based on the fluctuating cost of fuel.

"If and when prices decline to July levels, the surcharge will be immediately suspended," Lawrence said, noting that it was the second time in less than nine months that the trucking industry has experienced a quick rise in fuel prices.

"In the first quarter, we elected to absorb the added fuel costs to protect our customers. The magnitude of the current increase, however, will not allow us that option," Lawrence said.

The surcharge, filed in accordance with a recent Interstate Commerce Commission ruling in response to the Middle East crisis, will be effective Aug. 17, pending ICC approval. It is strictly a pass-through cost based entirely on the increased price of fuel due to the Middle East crisis.

Through its freight-flow system of 697 terminals and 22,000 employees, CF Motor Freight serves virtually every business address in the United States and Canada, including Alaska, Hawaii and Puerto Rico. The company is based in Palo Alto.

#90226p5441 08/14/1990 ~PR Newswire

WASHINGTON (AUG. 15) PR NEWSWIRE - The Air Line Pilots Association issued the following statement Tuesday in response to actions by the Bankruptcy

Court in New York to give Eastern Airlines relief from major provisions of its pilot labor contract under the guise of Section 1113(e) of the Bankruptcy Code:

Eastern pilots are disappointed but not surprised by the court's action. The judge's decision gave Eastern management everything it asked for, including relief on wages, working conditions and benefits, plus a preliminary injunction that frees Eastern from having to process outstanding grievances and pension disputes. The court's action is without legal precedent or factual basis, and undermines the legal protections mandated by the Railway Labor Act and ERISA.

We do not understand why the court felt compelled to grant Eastern's latest Section 1113 petition. The company claimed in court that it already has the right to impose its own terms now that the 30-day cooling off period has expired and ALPA's "bad faith bargaining" lawsuit against the company has been stayed. Eastern presumably did not want to impose those same terms itself because that would cause a backlash among the strikebreaking pilots it utilized after the machinist strike. By having the court do its own dirty work, the company can shift the blame for an action that is guaranteed to upset the working pilots.

The company argued that relief from the ALPA contract was necessary to ensure the continuation of business and avoid irreparable harm. If that is indeed the case, then Eastern's financial condition and future prospects are a lot dimmer than Mr. Shugrue would have us believe in his television commercials. This would not be the first time the company has spoken out of both sides of its mouth. The question is, to what extent can we believe either story now?

It is particularly ironic that Eastern should go begging to the court for financial relief from the pilot contract. The Eastern pilots have made it known for many months now that appropriate financial concessions are not a problem and are tentatively agreed upon, so long as the company addresses the issue of jobs for the non-working pilots. Ever since his appointment as trustee, Martin Shugrue has followed the Lorenzo script line for line. Had Mr. Shugrue broken away from the Lorenzo approach and negotiated in good faith instead, Eastern already could have been operating for several months with the financial relief it claims it needs so desperately.

The Eastern pilot Master Executive Council met later Tuesday in Miami to assess the impact of the court action and determine what actions it will take.

ORLANDO, FL (AUG. 14) PR NEWSWIRE - Major Realty Corporation (NASDAQ: MAJR) today reported revenues of $987,000 and a net loss of $2,845,000, or ($0.41) per share for the six months ended June 30, 1990.

Revenues for the comparable period of last year were $6,298,000 and net income of $2,680,000, or $0.37 per share.

For the three months ended June 30, 1990, the company reported revenues of $564,000 and a net loss of $1,549,000 or ($0.22) per share as compared to revenues of $3,207,000 and a net loss of $1,904,000 or ($0.26) per share for the comparable period of the prior year.

The company reported gains on real estate sales of $2.5 million and a net gain from real estate sales by The Major-Pru Development Joint Venture of $4.7 million for the six months ended June 30, 1989. No similar real estate transactions were reported for the six months ended June 30, 1990. The losses incurred during the six months ended June 30, 1990, primarily represented anticipated startup costs following the merger of the company on Oct. 12, 1989, and the installation of new management.

James M. Adams III, chairman and chief executive officer, announced that the company has reached an agreement in principle to engage Eastdil Realty Inc. and Wertheim Schroder & Co., Incorporated, two prestigious New York investment banking firms specializing in real estate and international finance, to assist the company in accomplishing certain financial objectives required to maximize value of the company's assets for its shareholders.

LOS ANGELES (AUG. 14) PR NEWSWIRE - First Executive Corp. (NASDAQ: FEXC), a life insurance holding company, today reported net income for the six months ended June 30, 1990, of $75.9 million, or $.42 per share. The results include a net realized loss on investments of $75.0 million. For the six months ended June 30, 1989, the company reported net income of $6.9 million or a per share loss of $.07, including a $150 million loss on sale subsidiary (including tax expense of $38 million) relating to the then proposed sale of Executive Life Insurance Company of New York (Executive Life- NY), and the cumulative positive effect of a change in method of accounting for income taxes of $55.8 million.

For the three months ended June 30, 1990, net income was $30.5 million or $.10 per share. The results include a net realized loss on investments of $74.9 million. For the three months ended June 30, 1989, the company reported net income of $51.0 million or $.45 per share.

The weighted average number of common shares used in the earnings per share calculation does not include Series G Preferred shares in 1990 as they were anti-dulitive. Series H Preference shares are not considered common stock equivalents.

Fred Carr, chairman and chief executive officer, said, "Our earnings confirm the company's fundamental financial strength. Furthermore, since June 30 our liquidity position has strengthened because we have continued to build our cash and government securities position."

Alan Snyder, president and chief operating officer, commented, "In recent meetings, our agents have expressed their commitment to sell our products. We are encouraged that clients continue to purchase substantial amounts of insurance from us this year although less than in 1989." He added, "Surrenders of existing policies declined in the second quarter and these trends continue downward in the third quarter."

At June 30, 1990, First Executive Corp. reported assets of approximately $16.5 billion, shareholders' equity of over $963 million and total capitalization (including redeemable preferred stock and parent corporate debt) of over $1.3 billion. Life insurance in force is approximately $56.1 billion.

#90226p5454 08/14/1990 ~PR Newswire

MIAMI, Fla. (AUG. 14) PR NEWSWIRE - APL Corporation (PSE) today reported results for the nine months and quarter ended June 30, 1990.

Consolidated net sales for the nine months amounted to $96.2 million compared to $94.3 million in the prior year's comparable nine month period. The net loss for the nine months ended June 30, 1990 amounted to $29,199,000, or $7.83 per share, compared to a net loss of $29,453,000, or $7.90 per share, in the comparable period of 1989. Results for both periods reflect the reclassification of Fischbach Corporation and the company's aluminum doors and windows segment as discontinued operations. Discontinued operations in the previous year also included the results of the company's tissue paper products segment which was sold in April, 1989. Net loss in the current period includes a loss from discontinued operations amounting to $16,335,000, or $4.38 per share, including a provision of $10 million for losses on the disposal of the company's aluminum doors and windows segment. The prior year's comparable period's results include a loss from discontinued operations of $20,578,000, or $5.52 per share.

For the quarter ended June 30, 1990, the company's net sales amounted to $32.4 million compared to $33.2 million in the prior year's comparable quarter. Net loss for the quarter ended June 30, 1990 was $11,480,000, or $3.08 per share, compared to a net loss of $12,048,000, or $3.23 per share in the prior year's comparable quarter. The current quarter's results include a loss from discontinued operations of $5,584,000, or $1.50 per share; the prior year's quarter results included a loss from discontinued operations of $10,275,000, or $2.76 per share.

MIAMI (AUG. 14) PR NEWSWIRE - Wilson Brothers (PSE) announced today results of operations for the quarter and six months ended June 30, 1990.

For the quarter ended June 30, 1990, net sales were $3.6 million compared to $1.8 million in the same quarter of the prior year. Results for 1990 include those of Northern Engineering Corporation, which was acquired at the end of 1989. The company reported a net loss of $206,000 or $.06 per share in the current year's quarter vs. net earnings of $9,000 (nil per share) in the prior year's comparable quarter.

For the six months ended June 30, 1990, net sales were $7.0 million compared to $3.1 million in the same period of the prior year. The company had a net loss of $300,000 or $.09 per share in the current six month period compared to a net loss of $274,000 or $.08 per share in the same period of the prior year.

#90226p5459 08/14/1990 ~PR Newswire

OKLAHOMA CITY (AUG. 14) PR NEWSWIRE - Beard Oil Co. (AMEX: BOC) today reported a 36 percent increase in revenues for the second quarter of 1990, to $8.90 million vs. revenues of $6.56 million for the same period of 1989. Revenues for the first six months of 1990 reflect a 29 percent increase to $16.54 million from $12.85 million the prior year.

The current quarter produced a net loss of $3.26 million, or 56 cents per share, compared to net earnings of $523,000, or nine cents per share, for the same period last year. The six months' loss for 1990 totaled $5.15 million vs. net earnings of $1.02 million for the same period in 1989. The loss per share for the six months was 88 cents vs. net earnings of 18 cents last year. Herb Mee Jr., president, stated, "Beard Oil has felt for some time that the company should focus most of its efforts on the development of domestic oil reserves at a time when most U.S. oil companies, and the independent segment in particular, have been concentrating their attention on developing natural gas reserves. Accordingly, we sold $60 million of Shared Appreciation Debentures last October with the objective of putting $45 to $50 million into the acquisition and development of oil reserves, with particular emphasis on waterflood operations. We are already seeing positive results from this continuing effort. The company's oil production in June 1990 averaged 2,833 barrels per day vs. a recent low of 2,127 barrels per day in July

1989. Second quarter 1990 oil production averaged 2,706 barrels per day compared to 2,342 barrels per day in the year-earlier quarter. Unfortunately, we received only $16.12 per barrel average in the 1990 second quarter vs. $18.74 a year ago. The current higher oil prices resulting from the situation in the Middle East will have a significant impact on Beard Oil's future earnings."

Second quarter and year-to-date results were heavily impacted by the negative interest spread resulting from the Shared Appreciation Debenture financing. Mee reiterated that most of the Debenture proceeds are being invested in secondary recovery operations, which typically involve sizable front-end investment followed by a gradual buildup of income. "The return on most of these projects will not be realized until 1991 or later. We anticipate that cash flow will increase and that the profit picture will improve as the projects already underway or targeted for future installation become operational."

Also contributing to the second quarter loss was an increase of $917,000 in general and administrative expenses, almost entirely attributable to the rapid expansion of the company's subsidiary activities in oilfield services and carbon dioxide operations. Both of these activities are expected to begin contributing to corporate profits before the end of 1990.

Beard Oil continues to recognize deferred contingent interest on its Shared Appreciation Debentures based upon the amount of Shared Appreciation which it projects will have occurred on June 30, 1994. As a result, $475,000 of deferred contingent interest expense was recognized in the 1990 second quarter. The company has recorded interest expense since inception of the Debentures at a bond equivalent yield of 14.9 percent. The company will recognize an average of $475,000 per quarter in deferred contingent interest for the remainder of the year.

Beard Oil Co. is a diversified natural resource development company headquartered in Oklahoma City. Its principal business is oil and gas exploration and production, with an emphasis on secondary recovery operations. The company also is involved in carbon dioxide and iodine production. Beard Oil Co.'s common stock is traded on the American Stock Exchange under the symbol BOC.

EL PASO, Texas (AUG. 14) PR NEWSWIRE - Tony Lama Co., Inc. (NASDAQ: TLAM) today announced the results of operations for the three-month and six-month periods ended June 30, 1990.

Net sales for the three-month period ended June 30, 1990, were $16,035,000

compared with $16,080,000 for the comparable period of 1989. Net loss for the second quarter of 1990 was $(901,000), or $(.47) per share, compared to a net loss of $(130,000), or $(.07) per share, for the comparable period of 1989. For the six-month period ended June 30, 1990, net loss was $(1,977,000) or $(1.02) per share, on net sales of $29,211,000 compared to a net loss of $(191,000) or $(.10) per share, on net sales of $34,043,000 for the same period last year.

The loss for the second quarter of 1990 as compared to the same period in 1989 primarily resulted from a decrease in gross margins because of increased product costs due to workers' compensation insurance and material costs and an increase in selling expenses in advertising, salaries and operating eight additional retail stores. Partially offsetting these expense increases was a decrease of 13 percent in general and administrative expenses resulting from substantial payroll cuts.

The loss for the six month period ending June 30, 1990 as compared to the same period in 1989 was primarily due to a 14 percent decrease in sales, a decrease in gross margins because of costs increases of workers' compensation insurance and material costs and an increase in selling expenses in advertising, salaries and operating eight additional retail stores. Partially offsetting these expense increases was a decrease of 7 percent in general and administrative expenses.

IRVINE, Calif. (AUG. 14) PR NEWSWIRE - Gradco Systems Inc. (NASDAQ: GRCO) reported results for the first quarter ended June 30, 1990.

Revenues for the first quarter totaled $20,292,000 compared to $24,591,000 in the same period of the prior year. Net earnings for the quarter were $15,517,000 or $2.02 per share, compared to $223,000 or $.04 per share in the prior year.

Horst Sieben, executive vice president and chief financial officer, stated "Net earnings for the quarter ended June 30, 1990, reflect the previously announced $17.8 million net-after-tax gain from the sale of the shares of the company's Japanese subsidiary and operating losses due to the decline in sales of certain copier products to Xerox Corp. and expenses for development, field test and marketing of the new laser printer paper handling products which are currently being released."

Gradco is the world's leading independent supplier of sorters, sheet feeders and other paper handling devices for the office automation market.

(AUG. 14) UPI - U-S troops are still arriving in Saudi Arabia as the stand-off with Iraq continues. The State Department estimates that there are 140-thousand Iraqi troops in Kuwait... while observers have estimated the United States is deploying 50-thousand troops to Saudi Arabia. One sergeant told reporters in Saudi Arabia that American troops have been told they can expect to be there ''four to six months.''

California is running up quite a tab in fighting wildfires that have charred more than 200-thousand acres. Governor George Deukmejian estimates the state may spend more than 40-Million dollars battling the mostly lightning-sparked blazes that have damaged or destroyed 127 buildings across the states.

A strike turned violent in the Dominican Republic. Witnesses say police arrested hundreds of demonstrators Monday, the first day of a 48-hour work stoppage called to protest government economic measures. Witnesses say one person was fatally shot by soldiers and three other protesters were injured.

Astronomers say the Hubble Space Telescope project is very much alive, despite defects in the instrument's focus. Elated astronomers released pictures Monday of a star cluster taken by the observatory. The costly telescope was designed to be the most powerful instrument of its kind.

(AUG. 14) UPI - Pakistan on Monday accused Indian forces of firing heavy artillery and mortars across the border into a populated area of the Kashmir region. India denied any exchange took place, and it was NOT immediately clear if the shelling caused any casualties. Both sides claim sovereignty over Kashmir.

13-

Czechoslovak President Vaclav Havel arrived in Nicaragua Monday, saying he

hoped to develop ties as- as he put it- ''two countries in liberty.'' Officials from both nations say Havel and Nicaraguan President Violeta Chamorro would focus on trade issues in the discussions.

Authorities in San Diego say a father may face charges in the apparent AIDS-related death of his five-year-old son. Police say the child told them that his father... who tested positive for the H-I-V virus... sodomized him. Prosecutors are waiting for autopsy results before proceeding with the case.

Police in Fremont, California, say a lot of people called to say they'd heard a ''big boom'' following a light but noisy earthquake Monday afternoon. NO damage or injuries were reported in the quake that registered two-point-six on the Richter scale.

#90226u0194 08/14/1990 ~United Press International

BUENOS AIRES, ARGENTINA (AUG. 14) UPI - The U.S. basketball team may have felt Monday night as though they were starring in one of those Friday the 13th sequels.

Like Jason in the movies, Argentina wouldn't be put to rest, and the U.S. was fortunate to escape with a 104-100 victory in the quarterfinals of the World Basketball Championships.

''I've never been in a game like that,'' guard Kenny Anderson said. ''I always heard soccer was the No. 1 sport in Argentina, but not tonight. Those guys are crazy.''

Those guys were the Argentina fans, who turned the game into one constant musical number with continuous singing and drum-playing, and the Argentina players, who staged an emotional last-ditch rally that had the U.S. team gasping for its breath in the final minutes.

Anderson, who led the U.S. with 32 points, clinched the victory with 50 seconds left when he hit a driving layup and added a free throw for a 104-96 lead that made Argentina's two final baskets meaningless.

The U.S. seemed in control for much of the game. It rode a 12-0 run midway through the first half to break a 32-32 tie, emerging with a 58-42 halftime lead. The U.S. pushed its lead to 22 points twice in the second half, and it still was leading by 16 with seven minutes left.

But poor shot selection combined with a barrage of Argentina three-pointers left the U.S. clinging by its nails. A three-point bomb by

Argentina's Marcelo Milanesio with 1:21 left brought Argentina within 101-96 and caused sheer lunacy in venerable Luna Park.

''It was crazy, it was incredible,'' U.S. forward Mark Randall said. ''We weren't as smart as we should have been, and they hit some incredible shots, almost out of bounds. We're just glad to get out with a win.''

However harried, the victory got the U.S. team off to a good start in the three-game quarterfinal round-robin. The United States plays Australia on Tuesday.

Alonzo Mourning scored 17 points, Doug Smith added 16 and Lee Mayberry and Billy Owens each had 10 for the U.S. Hector Campana led Argentina with 33 points.

Smith, who scored 12 first-half points, broke a 32-32 tie with 8:50 left in the first half to ignite the 12-0 run that gave the U.S. team the lead for good. Mayberry and Anderson each hit a three-point shot in the run.

Argentina scored five straight points, but the U.S. team came back with nine in a row to open its biggest first-half lead at 53-37.

#90226u0206 08/14/1990 ~United Press International

(AUG. 14) UPI - Police in New York say singer Curtis Mayfield and a 12-year-old were among the seven people injured when an outdoor stage collapsed at a Brooklyn high school. Police say Mayfield was on stage performing when the stage gave way, apparently due to strong winds. NONE of the injuries are believed to be life-threatening.

Bernard Kliban- the man behind the cartoons that sparked a cat mania among Americans- is dead at 55. Kliban died Sunday... 12 hours after undergoing heart surgery at the University of California at San Francisco Hospital. The one-time advertising artist's drawings were published in a 1975 book titled ''The Cat,'' sparking coffee cups, calendars and T-shirts with his cats on them.

Rock star Don Henley, singers Bonnie Raitt, Arlo Guthrie and John Hall were among those attending a ''Victory Picnic'' in Concord, Massachusetts, Monday. The group announced the purchase of a 25-acre tract of land in the forest that inspired 19th-century naturalist Henry David Thoreau. The group is trying to save the historic Walden Woods from developers.

WASHINGTON (AUG. 14) UPI - Exiled Kuwaiti Foreign Minister Sheikh Sabah al Ahmad al Sabah arrived in the nation's capital Tuesday to thank President Bush for spearheading efforts to challenge Iraqi aggression in

the Middle East.

Al Sabah, who hoped to meet with Bush at the White House later in the day, said he traveled to the United States on behalf of deposed Kuwaiti Emir Sheikh Jaber al Ahmad al Sabah, who is in exile in Saudi Arabia along with other Kuwaiti leaders.

The foreign minister, who also is the deputy prime minister, said the message to Bush expressed ''my country's appreciation and thanks'' for all the ''positive support from the American people and ... the American president to eliminate all the invasion and occupation we have had over our territory by Iraq.''

Al Sabah, who flew from Saudi Arabia to Andrews Air Force Base outside Washington, was scheduled to meet with Secretary of State James Baker and other top Bush administration officials Tuesday.

His tour also takes him to New York Wednesday for a meeting with U.N. Secretary General Javier Perez de Cuellar to the capitals of the five permanent members of the U.N. Security Council, which has supported economic sanctions against Iraq for its invasion of Kuwait Aug. 2.

Including the United States, the other permanent Security Council nations are Britain, the Soviet Union, France and China.

(AUG. 14) UPI - Syria, hampering Baghdad's effort to rally Arab support, announced it was sending a ''symbolic'' contingent of soldiers to help Saudi Arabia thwart a potential attack by Iraqi troops massed on the Saudi the border.

Faced with a U.N.-sanctioned economic embargo and the deployment of a growing multinational military force, Iraq has intensified its verbal attacks on its Arab neighbors, apparently trying to arouse Arab nationalism and shame them into siding with Iraqi President Saddam Hussein against the United States.

Thousands of U.S. troops continued to arrive in Saudi Arabia to guard against a possible attack by Iraqi troops near the border.

The State Department estimated Monday there were 140,000 Iraqi troops in Kuwait, and unofficial reports said the United States had deployed 50,000 troops in Saudi Arabia, but the Pentagon disputed that number and said official totals would be revealed in several days.

The crisis, triggered when Iraq invaded oil-rich Kuwait Aug. 2 and annexed

it a week later, has divided the Moslem world, with Syria and Pakistan demonstrating solidarity with U.S.-led efforts to prevent further Iraqi aggression, while Iraq supporters hold almost daily demonstrations in Jordan, Lebanon, Somalia, Yemen, Algeria and the Israeli-occupied territories.

In Damascus, a government official said Monday that Syria would send ''symbolic military forces to Saudi Arabia within the coming hours.''

The dispatch of Syrian forces, along with Pakistan's announcement it would also send troops, follows deployments by Egypt and Morocco. The Arab League announced at a summit last week it would form a peace-keeping force to Saudi Arabia.

Only Libya and the Palestine Liberation Organization openly sided with Iraq in the crisis, but Jordan and other nations in the 21-member Arab League have refused to condemn the Iraqi invasion of Kuwait, which was prompted by a land and oil dispute.

Several thousand Sudanese marched to the U.S. Embassy in Khartoum in support of Saddam Monday and about 1,000 Palestinian guerrillas were reported headed to Baghdad to fight next to Iraqi troops in case war breaks out.

In Amman, the Jordanian Popular Committee in Support of Iraq claimed at least 80,000 men, including Jordanians, Palestinians, Egyptians and Syrians, had volunteered in the last week to fight for Iraq.

But a group in Beirut identifying itself as the Kuwaiti National Resistance Movement announced it would step up attacks within the occupied country.

A U.S. plan to enforce the U.N.-sanctioned embargo by blocking Iraqi ships similarly divided the Western world, with Britain backing Washington Monday and France distancing itself from the prospect of confronting Iraqi ships. U.N. sources said few member states back the Bush administration's avowed intention of using military ships to block Iraqi exports.

British Foreign Office Minister William Waldegrave said Kuwait asked Britain to ''make sure that the economic weapon is effective'' and said British soldiers would board ships that try to violate the economic embargo.

France, however, vowed its forces would not seize Iraqi cargo ships at sea saying the move would constitute an act of war. France did announce it was increasing its presence in the gulf region to help secure the area if Iraq attacks Saudi Arabia.

Sources in the United Nations indicated many member states disagreed with the U.S. contention that it has the right to enforce the U.N.-imposed sanctions under Article 51 of the organization's charter, which gives countries the right to defend themselves.

Wide compliance with the U.N. sanctions could make it feel the economic pinch soon, officials and analysts in the United States said, but they emphasized Baghdad's capacity to endure should not be underestimated.

Iraqi stocks of wheat and other staples were believed to have fallen to just three or four months' worth before the invasion of Kuwait, as the country ran short of hard currency to pay suppliers demanding cash.

Iraq may try to mobilize domestic farmers to meet the minimum requirements of its 15 million people. But this would require the incentive of higher prices, which could undermine political support from urban masses.

However, Iraqis tempered by eight brutal years of war with Iran and cowed by ubiquitous secret police agents are unlikely to challenge the rule of Saddam until dire conditions emerge.

Voice of America radio broadcasts in the Middle East said Monday that 500 Americans had left Kuwait since the Iraqi invasion, but also cautioned some 2,500 Americans still in the occupied nation ''not to try to cross the Kuwaiti border.''

The State Department said it was in frequent contact with Iraq about getting the Americans out of Kuwait and Iraq, but answers from the Iraqis so far have been ''unacceptable.''

#90226u0271 08/14/1990 ~United Press International

BEIRUT, Lebanon (AUG. 14) UPI - Four Belgian hostages will be released this week following a deal between the kidnappers and the Belgian government, a Lebanese newspaper reported Tuesday.

The conservative Al Liwaa newspaper quoted Western diplomatic sources as saying Emmanuel Houtekins, 44, his wife Godelieve Kets, 50, and their two children Laurent, 19, and Valerie, 18, will be freed Thursday.

Walid Khaled, spokesman of the Fatah Revolutionary Council, the group that claimed responsibility for kidnapping the European nationals, said, ''We have no comment on the report.''

''Things have not been finalized yet.''

The FRC's leader, Abu Nidal, said in 1987 it had snatched the Belgium nationals from a pleasure boat off Israel's coast.

But many reports have suggested the Belgians were kidnapped near Libya where Abu Nidal, responsible for many terrorist attacks worldwide, has bases.

''Contacts between Belgian officials and the Fatah Revolutionary Council have resulted in a final deal,'' Al Liwaa said.

The newspaper said the agreement called for freeing the hostages in exchange for releasing Saeed Nasser, an FRC activist serving a life sentence in a Belgian prison after being convicted of a 1980 grenade

attack on a Jewish synagogue.

Last month, Belgian officials said infighting among FRC ranks complicated the release of the captives, but Khaled accused the Belgian authorities of blocking the freeing of the kidnapped citizens.

Apart from the four Belgians, there are 14 other Western hostages believed held in Lebanon by elements loyal to Iran.

#90226u0277 08/14/1990 ~United Press International
(AUG. 14) UPI - The Toronto Blue Jays kept Bobby Thigpen from taking the American League lead in saves and Alex Fernandez from a better celebration of his 21st birthday.

Junior Felix capped a three-run ninth inning with an RBI single Monday night, rallying the Blue Jays to a 4-3 victory over the Chicago White Sox.

Toronto overcame a 3-1 deficit by rallying against Chicago relief ace Thigpen, 4-5, who entered the game tied for the American League lead in saves with 37.

Fernandez, who limited Toronto to five hits over eight innings, had hoped to celebrate his 21st birthday by notching his second major-league win in three starts.

''You have to understand that when you have a reliever like Bobby Thigpen, probably one of the best in the league right now, you've got to give the ball to him,'' Fernandez said. ''I took them a long way. I took them eight innings. I think that's better than they expect right now.

''It's just a matter it didn't work out our way today. Then again, the next time out, I'll give the ball again in the ninth inning to Bobby Thigpen. He deserves it.''

Fred McGriff led off the ninth with a double, his third hit of the night, and scored on John Olerud's single. Kenny Williams ran for Olerud and moved to third on a Greg Myers single. One out later, Williams scored when Mookie Wilson hit into a forceout. Wilson stole second and scored the go-ahead run on Felix's bouncing single up the middle.

''These games happen, I guess,'' Thigpen said. ''If two strikes was an out I'd be alright. I just couldn't get the third one tonight. I didn't walk anybody. I wasn't really wild. I didn't have as good stuff as I've had in the past.''

Duane Ward, 2-6, pitched two-thirds of an inning in relief of Blue Jays

starter David Wells. Tom Henke pitched the ninth for his 25th save.

The win helped Toronto close within two games of American League East leader Boston, which was shut out Monday night by Oakland.

''It could be a turning point for us,'' Henke said. ''They had us beat. They had their best pitcher on the mound and we came back to win it. With Bobby being one of the best (relievers) - if not the best - in the league, you almost expect a save. But everyone's human.''

Elsewhere Monday night in the American League, Detroit edged Cleveland 6-5 Kansas City dropped Texas 5-3, Oakland blanked Boston 4-0, Baltimore beat Seattle 3-2 and California defeated New York 4-2.

In the National League, it was: Cincinnati 6, San Francisco 5; Atlanta 9, Los Angeles 5; and Houston 7, Chicago 2.

-- AROUND THE AL --

Tigers 6, Indians 5

At Cleveland, Cecil Fielder hit his major league-leading 36th home run and Tony Phillips and Alan Trammell each drove in a pair of runs to lead Detroit. Walt Terrell, 1-1, scattered seven hits over six innings as the Tigers snapped a three-game losing streak. Jerry Don Gleaton pitched the final two innings to earn his seventh save. Cleveland starter Jeff Shaw, 2-3, took the loss.

Royals 5, Rangers 3

At Kansas City, Mo., Gerald Perry drove home two runs and scored twice and Kevin Appier won for the third consecutive start to lead Kansas City. Appier, 8-4, allowed runs in the first and second innings but went five innings without allowing a runner to get past first base. Jeff Montgomery got four outs for his 17th save. Kevin Brown, 12-9, was the loser.

Athletics 4, Red Sox 0

At Oakland, Calif., Scott Sanderson pitched a three-hitter and Doug Jennings hit his first home run of the season to lead Oakland to its fifth straight win. Sanderson, 12-7, walked five and struck out seven in posting his second complete game of the year. The win made him a 12-game winner for the first time since 1982. Boston starter Greg Harris, 9-5, took the loss.

Orioles 3, Mariners 2

At Seattle, Ben McDonald scattered four hits over 8 2-3 innings and Cal

Ripken Jr. scored a run and drove in another for Baltimore. McDonald, 5-0, walked three and struck out three in his fifth major-league start. Gregg Olson got the final out for his 27th save. Seattle starter Brian Holman, 11-8, pitched a six-hitter for his second complete game, walking four and striking out six. The Mariners have lost six of their last seven games.

Angels 4, Yankees 2

At Anaheim, Calif. Dave Winfield doubled home a run and scored another on a foul pop-up in the seventh inning to help California hand the Yankees their fourth straight loss. Kirk McCaskill, 8-8, scattered six hits over the first seven innings for the win. Bryan Harvey earned his 14th save despite yielding a one-out solo home run to Jesse Barfield in the ninth.

#90226u0291 08/14/1990 ~United Press International

LIMA, PERU (AUG. 14) UPI - A car bomb exploded near the presidential house, wounding at least five people, and a similar attack south of the capital killed one person and wounded 19, police said.

President Alberto Fujimori, who has not been seen since Wednesday when he announced a radical economic austerity program, was in the house when the explosion occurred Monday, police said. The five people who were wounded were passersby, police said.

In Cuzco, about 400 miles southeast of Lima, a car bomb exploded Monday near an army office, killing one person and wounding 19, police said.

Arrests were made in the Cuzco attack, police said, but the suspects' identities and other details of the apprehensions were not immediately available.

The explosion severely damaged a wall of the army office and the front of a hotel and movie theater.

There were no immediate claims of responsibility for either attack.

Peru is home to the Maoist Shining Path rebel movement. Since 1980, more than 19,000 people have died in political fighting and assassinations.

Another insurgency, the left-wing Tupac Amaru Revolutionary Movement, is mostly based in urban areas. Its rebels plant bombs and kidnap prominent businessmen to promote revolution.

-30- 1449

#90226u0293 08/14/1990 ~United Press International

(AUG. 14) UPI - On a team with many heroes, the Cincinnati Reds found two more Monday night.

Joe Oliver highlighted a five-run fourth inning with a two-run double and Tim Layana hurled 2 1-3 innings of one-hit relief to lead Cincinnati to a 6-5 victory over the San Francisco Giants.

The victory gave the Reds three out of four games in their weekend series against the Giants and allowed them to open a 6 1/2-game lead over San Francisco in the NL West.

With the Reds trailing 4-3 in the fourth, Oliver doubled home Mariano Duncan and Paul O'Neil to give Cincinnati the lead for good.

Oliver's clutch hit was part of a five-run inning in which the Reds rebounded from a 4-1 deficit to take a 6-4 advantage.

''Joe Oliver got a big hit for us in the fourth and that's something he's been doing all year,'' Reds Manager Lou Piniella said. ''And Tim Layana, Rob Dibble and Randy Myers all did their jobs out of the bullpen. It was a complete team effort, no doubt about it.''

Giants starter Trevor Wilson, 8-4, was roughed up for six runs and six hits in 3 1-3 innings.

Though not a member of the famed ''Nasty Boys,'' Layana, 5-0, proved tough enough to the Giants' most dangerous hitters.

When Layana relieved starter Scott Scudder with a 6-4 lead in the fifth, there were none out and runners on first and second. To make matters worse Will Clark, Kevin Mitchell and Matt Williams - who had already slugged a three-run homer - were the next three batters.

But Layana struck out Clark, hit Mitchell with a pitch and induced Williams to ground into an inning-ending double play.

''I was getting the knuckle curve over and it was my big pitch,'' Layana said.

The other Cincinnati relievers were full of big pitches as well.

Scudder was a last-second replacement for scheduled starter Danny Jackson, who was unable to get loose while warming up because of tightness in his left shoulder, and was pounded for four runs in the first inning.

''I probably should have taken more time to warm up, because I wasn't getting my breaking ball over at first,'' Scudder said. ''Then I got a fastball up to Williams in the first and he hit it over the center-field

fence. After that, I settled down and our bullpen came through, along with our hitters.''

Dibble, who struck out three of the six batters he faced in relief of Layana, and Myers, who garnered his 24th save, held the Giants in check the rest of the way.

''I'm proud of this team,'' Dibble said. ''There's no one guy who carries our team, everyone plays their part. And that's why it's going to be our year.''

Elsewhere Monday night in the National League, Atlanta dumped Los Angeles 9-5 and Houston clobbered Chicago 7-2.

In the American League, it was: Detroit 6, Cleveland 5; Toronto 4, Chicago 3; Kansas City 5, Texas 3; Oakland 4, Boston 0; Baltimore 3, Seattle 2 and California 4, New York 2.

-- AROUND THE NL --

Braves 9, Dodgers 5

At Atlanta, rookie slugger Dave Justice cracked a three-run homer to lead the Braves. John Smoltz, 9-8, surrendered six hits over seven innings for the win. Los Angeles starter Fernando Valenzuela, 9-10, took the loss but still has won 19 of 27 career decisions against Atlanta. Justice, the National League Player of the Week, has collected seven homers and 15 RBI in his last eight games.

Astros 7, Cubs 2

At Chicago, Franklin Stubbs hit two homers and Mark Portugal hit a two-run single and pitched his first complete game to lead the Astros. Portugal, 6-9, scattered nine hits as Houston halted a four-game losing streak, Lance Dickson, 0-2, the Cubs' first-round pick in June's amateur draft, took the loss. Stubbs went 2-for-3 and drove in four runs.

#90226u0300 08/14/1990 ~United Press International

SAN FRANCISCO (AUG. 14) UPI - Bernard Kliban, who created a menagerie of round-eyed, striped cartoon cats that became a multimillion-dollar craze, died Sunday nearly two weeks after undergoing heart surgery. He was 55.

Kliban died at University of California at San Francisco Hospital and the coroner's office said the cause of his death had not been determined. The artist, who signed his work ''B. Kliban,'' lived in Corte Madera, Calif.

Kliban dropped out of art school but his first collection of cat cartoons, published in the book ''Cat'' in 1975, put him at the top of his profession.

The book introduced a gallery of cats wearing oversized tennis shoes, drunken-looking cats in paper hats, ''Momcat'' and a cat wearing roller skates.

In only a few years, the characters found their way onto greeting cards, bed linens and calendars that became to a $50 million industry by the mid-1980s.

Kliban published 10 books, most issued by Workman Publishing, including ''Never Eat Anything Bigger Than Your Head, and Other Drawings'', in 1976, ''Whack Your Porcupine, and Other Drawings'', in 1977, ''Tiny Footprints, and Other Drawings'', in 1978, ''Playboy's Kliban'', in 1979, ''Two Guys Fooling Around With the Moon'', in 1982, and ''Luminous Animals'', published by Penguin Books in 1983.

The artist maintained an ironic objectivity about cats, defining them as ''one hell of a nice animal, frequently mistaken for a meat loaf.'' He said he was allergic to cats ''until I hit late puberty in my 20s when it just went away.''

He said contrary to what most people thought, he said he was not ''gaga over cats. I like them but I'm not silly about them. Cats look like cartoons. There's something funny and vulnerable and innocent about them.''

Bernard Kilban was born Jan. 1, 1935, in Norwalk, Conn. where his father was a manufacturer. He hated his first name and liked to be known as ''Hap'' because he was a New Year's baby and was supposed to be good news.

He dropped out of Pratt Institute and Cooper Union and did a series of menial jobs before moving to California in 1959. He began doing freelance advertising drawings and started specializing in cats at the advice of Michelle Uhry, the cartoon editor at Playboy and his agent Toni Mendez.

Kliban is survived by his wife Judith in Corte Madera in Marin County, two daughters and a brother. A memorial service was planned but no date was set.

#90226u0339 08/14/1990 ~United Press International
(AUG. 14) UPI - Around the world.. around the clock... U-P-I has the latest news.

President Bush is interrupting his vacation in Kennebunkport, Maine, today to return to the White House for two days of talks with budget and military advisers. The president also is expected to hold a news conference on events in the Persian Gulf. The UNofficial military blockade against Iraq is in its second full day.

A Syrian government official in Damascus says Syria will send a ''symbolic military force to Saudi Arabia within the coming hours.'' Faced with a growing economic embargo, Iraq has stepped up a verbal attack on Arab nations that appear to be siding with the United States in its protection of Saudi Arabia.

Defense Secretary Cheney has eliminated two of the one-BILLION-dollar Seawolf attack submarines and nine Arleigh Burke destroyer ships from the defense program. The major cuts are expected to save about seven-BILLION dollars over the next four years.

Washington, D-C, Mayor Marion Barry ended his life-long affiliation with the Democratic Party yesterday. Barry now has until August 29th to file as an independent candidate for the November election. The mayor says he wants to keep his ''options open'' regarding a fourth mayoral term or a seat on the City Council.

Consolidated Edison officials in New York City say it may be several days before power is restored to about 11-hundred residential and business customers. A fire at an electrical substation left most of lower Manhattan's financial district in the dark yesterday afternoon.

-30- 1735

(AUG. 14) UPI - U-S officials say 105 foreigners, including some Americans, left Liberia yesterday under the protection of U-S military forces. Officials say rebels in the West African nation allowed a convoy of cars to pass through their lines without incident. Liberia is embroiled in a bitter civil war.

The 29th anniversary of the Berlin Wall was remembered in West Berlin yesterday with both East and West German officials participating in the ceremonies together for the first time. Since the wall was built on August 13th, 1961, to its fall last November, 77 people were killed while trying to escape to West Berlin.

NASA says the Hubble Space Telescope can take capture clearer, more valuable images than originally thought. Ecstatic astronomers released pictures of a star cluster yesterday, demonstrating the telescope's potential. Project scientist Edward Weiler says Hubble ''remains very, very much alive.''

Officials at Alaska's Tsunami Warning Center report a moderate earthquake shook more than half of the Alaska population yesterday. Seismologists say the jolt measured five-point-six on the Richter scale and was located 110 miles southwest of Anchorage. There were NO reports of any damage.

A tropical storm warning was issued for Trinidad and Tobago, Grenada and other Caribbean islands last night as Tropical Storm Fran approached packing winds of 40 miles an hour. Late last night, Fran was centered about 290 miles east of Trinidad moving west-northwest at about 26 miles an hour.

#90226u0579 08/14/1990 ~United Press International

WASHINGTON (UPI) - About 500 Americans have managed to get out of Kuwait since the Iraqi invasion, but the State Department began broadcasting warnings telling the estimated 2,500 Americans left behind that it would be dangerous to try any large-scale breakouts.

But the broadcasts over the Voice of America Monday told the Americans to prepare for eventual evacuation and that they will be told how and when to get out.

The broadcasts on VOA say, ''We do not, repeat, do not, recommend Americans try to cross the Kuwaiti border.''

Apparently because of rumors in Kuwait that the border to Saudi Arabia was open, 40 to 50 carloads of Americans headed out of Kuwait City Monday, but were stopped at the border, where they sat for hours in the blazing heat.

State Department spokeswoman Margaret Tutwiler said she would not describe the methods used by the various Americans who succeeded in getting out of the country, in order not to compromise the methods.

One British citizen was reported shot and killed Sunday when Iraqi troops fired on a small convoy of cars at the Saudi border. At least one American was in that convoy, according to U.S. sources. He was not injured and is now in Saudi Arabia.

In Iraq, where 500 to 600 civilian Americans are still unable to leave the country, the embassy reported that food supplies are getting short in the city, affecting foreigners like everybody else.

The State Department said the U.S. interdiction will prevent food shipments from reaching Iraq ''for now'' since the situation is not desperate enough to qualify Iraq for humanitarian aid. Humanitarian food supplies and medicines would be specifically excluded from the world-wide embargo if the situation in Iraq became desperate.

Mohamed al-Mashat, Iraqi's ambassador to the United States, said on the NBC ''Today'' program Tuesday that his government has given assurances that the Americans in his country would be allowed to leave.

''We have declared that. We have said we are going to let them go,'' al-Mashat said. ''We ... have already let many people go. It takes time under the current circumstances. In due time they are going to be let free '' al-Mashat said.

Tutwiler said that the State Department would try to get another group of diplomatic personnel and dependents out of the country this week. Ten diplomats and dependents succeeded in getting to Jordan Saturday, along with Penelope Nabokov, a 10-year-old American girl from Albany, Calif.

Iraqis have said that diplomats can leave Iraq and Kuwait, seven days after applying for an exit visa.

There are about 120 diplomats at the U.S. Embassy in Kuwait and another 27 in Baghdad. Tutwiler said that the plan is to reduce the size of both staffs.

The State Department said it is in frequent contact with the Iraqis about getting the Americans out of Kuwait and Iraq, but the answers from the Iraqis so far have been ''unacceptable.''

The Iraqis, in a move that suggests there is a deliberate policy to keep the Americans and Europeans stranded, are letting some Africans, south Asians and Latin Americans out of the country, but other nationalities appear to be in the same boat as the Americans.

-30- 3442
#90226u0590 08/14/1990 ~United Press International
PARIS (AUG. 14) UPI - France has provided the United States with vital classified information about French-made weapons being used by Iraqi forces in the Persian Gulf, the International Herald Tribune reported Tuesday.

According to unnamed French and U.S. sources quoted by the Paris-based newspaper, the secrets could provide a significant advantage to Western forces in neutralizing Iraqi leader Saddam Hussein's military moves.

France had been Iraq's largest Western arms supplier and most important supplier of high-technology weapons, including air-to-air missiles and an airborne early warning system.

Iraq's awareness of the U.S. knowledge could have prevented Saddam from forcing a military showdown, the newspaper said, adding the information severely hampers Iraq's ability to launch a surprise attack.

The newspaper also said the Soviet Union, Baghdad's largest arms supplier, was studying a similar request for information.

U.S. officials in Paris had no immediate comment on the report.

A spokesman for the French Foreign Ministry declined to comment directly, but issued a statement saying France would maintain its ''solidarity'' with other members of the U.N. Security Council in enforcing the embargo.

France has sent the second-largest Western military contingent to the Persian Gulf, but has maintained the force's independence from the U.S.-led multinational force.

It also said that despite the U.S. effort to seize Iraqi cargo ships, French ships would not participate in such a blockade, which officials said would constitute an act of war.

France's statements have sought to place distance between the French and U.S. efforts, but a source quoted by the Herald Tribune said ''you can be assured everything (all key information) has been supplied'' about French weapons.

French military advisors were closely involved in helping Iraqi forces devise weapons systems and battle plans during the Iran-Iraq war, so Paris officials have important insight into Saddam's possible strategies.

Particularly dangerous French-made weapons include the R-530 air-to-air

missiles used effectively by Iraqi pilots to avoid dogfights, and the radar system, the French version of the AWACS.

According to French military sources quoted by the newspaper, Iraq is not equipped to fight at night, and has no accurate means of launching its feared chemical weapons to disable air bases or carriers. Moreover, Iraqi forces are further hampered by the cutoff of intelligence and further weapons from China, the Soviet Union and the West.

#90226u0637 08/14/1990 ~United Press International

(AUG. 14) UPI - President Bush is interrupting his summer vacation in Kennebunkport, Maine, today to return to the White House for two days of meetings with top advisers. The president also is expected to hold a news conference on the Persian Gulf crisis. The United States is continuing its economic embargo against Baghdad with U-S warships poised to use force, if necessary, to prevent vital goods from entering or leaving Iraq.

Kuwait's exiled foreign minister is in Washington today with hopes of meeting with the president to thank him for leading the fight against Iraqi aggression. The sheik is scheduled to meet with Secretary of State Baker and other top Bush adminsistration officials. He also will go to New York City to meet with U-N Secretary General Javier Perez de Cuellar.

Peruvian police say one person was killed and at least five others wounded last night when car bomb exploded near the presidential house in Lima. President Alberto Fujimori was in the house at the time of the explosion. Also yesterday, a second car bomb, about 400 miles southeast of the capital, killed one person and wounded 19 others near an army office.

A Lebanese newspaper is quoting Western diplomats as saying four Belgian hostages will be freed this week. The report says the captives will be released as part of a deal between the kidnappers and the Belgian government. The Fatah Revolutionary Council allegedly abducted the family of four, including two teen-agers, in 1987 from a pleasure boat off Israel's coast.

#90226u0646 08/14/1990 ~United Press International

(AUG. 14) UPI - A federal judge in New York has prevented the U-S government from enforcing regulations aimed at preventing minors from listening to dial-a-porn telephone services. The judge yesterday ruled the so-called Helms amendment, which was passed by Congress last year, would have represented ''a threat'' to First Amendment freedoms. The ruling affects New York state only, but could be adopted nationally.

Actress Esther Rolle, who appeared in last year's ''Driving Miss Daisy'' and the 70's television series ''Good Times,'' is hospitalized after being involved in a car accident. The accident occurred Sunday near the California-Nevada border when the car Rolle was riding in careened off a highway and overturned. 69-year-old Rolle suffered several broken ribs, facial cuts and a bruised heart.

New York City police say singer Curtis Mayfield and seven others were injured last night when sound and lighting equipment crashed down on an outdoor stage as Mayfield was about to begin performing. The collapse occurred at the Brooklyn High School. A police spokeswoman says the singer suffered tingling of the arms, a symptom of spine trauma, and is hospitalized in serious condition.

A group trying to save historic Walden Pond in Massachusetts from developers says it has purchased a 25-acre tract of land in the forest that inspired the 19th century naturalist Henry David Thoreau. Rock star Don Henley, co-chair of the Walden Woods Project, says Thoreau was the nation's first environmentalist whose philosophies need to be remembered. Thoreau immortalized Walden Pond in his work ''Walden.''

-30- 1790

#90226u0652 08/14/1990 ~United Press International

MIAMI (AUG. 14) UPI - Federal prosecutors plan to consolidate additional evidence against Manuel Noriega in a new indictment that will strengthen the cocaine trafficking charges already filed against the ousted Panamanian leader, The Miami Herald said Tuesday.

Quoting unidentified sources, the newspaper said the proposed superseding indictment would add charges based on the testimony of witnesses who have come forward since the U.S. invasion that toppled Noriega in December.

The new indictment also may combine charges made against Noriega in a federal indictment in Tampa with the Miami charges, the newspaper said.

Newsweek magazine also reported in its Aug. 20 issue that Miami ''prosecutors are preparing a stronger and more detailed indictment'' against Noriega.

''It may have been weak at the time but it's sure getting better,'' the Herald quoted an unidentified person familiar with the investigation as saying.

Prosecutors and federal drug investigators refused comment and one of Noriega's lawyers said he had no information about revised charges.

''Obviously, we would be the last to know about those things,'' said

lawyer John May. ''But nothing would surprise me.''

He questioned the need for a new indictment, saying it would accomplish nothing except to delay Noriega's trial, now set for January.

''The government doesn't need a superseding indictment to try to put Gen. Noriega away for the rest of his life,'' May said.

Richard Gregorie, the former prosecutor who directed the original Miami grand jury investigation, said the Miami indictment returned in February 1988 was built primarily on the testimony of a half-dozen witnesses.

''They have at least five or six new witnesses that fill in some pieces here or there,'' Gregorie said.

Since Noreiga's capture in January, prosecutors have interviewed a number of prospective witesses, including at least one convicted smuggler, who have been invlolved in drug cases around the United States.

The recent surrender of other Noriega co-defendants also is expected to help the prosecution. Since the Dec. 20 U.S. invasion, nine of the 16 defendants have been arrested and defense lawyers believe at least one has agreed to testify against Noriega.

Another co-defendant, Medellin drug boss Gustavo Gaviria Rivero, was killed Sunday during a raid by elite security forces in Colombia.

The original Miami indictment charges Noriega with racketeering and 10 other counts for his alleged role in providing a drug trafficking and money laundering sanctuary for members of Colombia's Medellin Cartel, the world's largest cocaine trafficking organization.

A simultaneous indictment in Tampa accuses Noriega of conspiring with a marijuana smuggler to import more than one million pounds of marijuana.

Although published reports have described the physical evidence against Noreiga as weak, Gregorie said the case was never dependent on documents.

''It consists of cocaine transactions that were done largely by word of mouth with Medellin Cartel members and Noriega. These were not the kind of transactions with written contracts,'' Gregorie said.

He said must federal drug caes in Florida rely on the testimony of informants, usually convicted drug dealers, rather than paper trails.

To supercede the original indictment, new evidence must be presented before a Miami grand jury.

A Miami banker who was recently convicted in the Tampa BCCI money laundering case could become a key factor in the Noriega case. Amjad Awan, described as Noriega's personal banker, faces a long prison term if he does not choose to provide evidence for the government's case against Noriega.

#90226u0676 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Retail sales edged up 0.1 percent in July to $149.5 billion on strength in building materials, home furnishings and mobile homes, the Commerce Department said Tuesday.

The small gain follows a revised 1.1 percent increase in June, and provides further evidence that consumers are being cautious with their cash as the economy lumbers along.

In May, retail sales declined a revised 0.1 percent.

July sales of durable goods - expensive items made to last three or more years - were up 0.3 percent while sales of non-durable goods showed no change, according to the report by the department's Census Bureau.

Sales of cars, trucks and vans were weak last month, down 0.6 percent. Not counting autos, retail sales in July were up 0.3 percent, a government spokesman said.

Most of the strength in the report was in two areas.

Sales of building materials, hardware, garden supplies and mobile homes advanced 3.9 percent in July, while sales of furniture and home furnishings gained 2.5 percent, the Commerce Department said.

In the non-durable goods sector, department store sales increased last month by 0.8 percent, food store sales were up 0.4 percent and drug store sales increased 0.6 percent.

But sales fell 0.3 percent at gasoline service stations in July, tumbled 0.9 percent at clothing stores and were off 0.4 percent at restaurants and taverns, the department said.

The $149.5 billion in total retail sales for July is an increase of 2.8 percent over July 1989's total of $149.4 billion.

All the figures in the report were adjusted for seasonal factors, such as holidays.

#90226u0684 08/14/1990 ~United Press International
(AUG. 14) UPI - Stock prices on the Tokyo Stock Exchange rebounded Tuesday, halting - at least momentarily - one of the worst slides in its history.

The blue-chip Nikkei average of 225 selected stocks, the market's leading indicator, climbed 496.10 points or 1.9 percent to 26,672.53, following a precipitous slide of 1,153.12 points Monday.

It was the Nikkei's first rise in a week, and ended a skid that saw the market's main barometer lose 13.5 percent of its book value in less than two weeks.

The broader-based Tokyo Stock Exchange Price Index of all major shares gained 27.29 points to 2,020.33. TOPIX had fallen below the psychologically important 2,000 level Monday with a 63.84-point loss.

Advances outpaced declines 584 to 337, while 130 issues remained unchanged.

Volume was stronger but remained light in view of the vacation season. An estimated 380 million shares changed hands, up from 268 million shares Monday.

Analysts attributed the modest rally to bargain-hunting by instititutional investors and repositioning by futures arbitrageurs, who had sold large volumes of stocks in the cash market Monday.

''Bargain-hunters went for big-capital stocks,'' said Hidetaka Yoshida, equities department chief at Kidder Peabody International.

''But we still can't be sure if we've hit bottom,'' Yoshida added. ''This market is weak even without bad news from Iraq.''

Analysts said the market gained confidence from reports that large Japanese securities houses have appealed to the Ministry of Finance to restrict futures arbitrage.

Arbitrageurs attempt to profit from price gaps between the spot and futures markets by using computer programs to buy and sell in both markets simultaneously.

The practice is mainly conducted by U.S. firms, which have complained that they are being made scapegoats for the stock market's underlying weakness.

On the trading floor, among the stocks that benefited from bargain-hunting were Nippon Steel and Toshiba.

Elsewhere in Asia, stock prices recovered ground in sparse trading on the Hong Kong Stock Exchange as investors awaited fresh news on the crisis in the Persian Gulf. Activity continued to be concentrated in the blue chips.

The key Hang Seng Index, which fell 38.69 points Monday, rebounded 27.25 points to 3,067.53.

Among the narrower indexes, financials inched up 12.93 points, utilities added 39.93, industrials gained 24.88 and properties rose 44.43 points.

Volume remained light as an estimated 818 million shares chnaged hands, compared with a revised 888 million shares Monday.

With the sound of the opening bell, bargain hunters snapped up issues, pushing the market up more than 36 points in early trading.

A mild bout of midday selling almost killed the blue chip-led rally and trimmed some of the early gains, analysts said.

Stocks resumed the climb late in the session in the sluggish trading.

''It was an uneventful day. The buying and selling interest was very sluggish,'' said Herman Lam, a broker with First Pacific Securities. ''Everyone is waiting for further news from the Middle East.

''There is no point in investing too aggressively at the moment. There doesn't seem to be any quick solution to the Middle East.''

''I expect the market to trade around the 3000 level for the next few days. If the market drops to 2,900 there will be some buyers, but I don't see any immediate upswings unless the situation in the Gulf improves,'' Lam added.

In Singapore, bargain hunters and the rally in Tokyo pushed prices higher on the Singapore Stock Exchange while investors watched developments in the Middle East. Trading remained sluggish.

The blue-chip Straits Times Industrial Index, which plunged 54.77 points Monday, rose 5.83 points to 1,294.72. The narrower All Singapore Index rose 3.19 points to 373.56.

An estimated 67.5 million shares chnaged hands, compared with 79.8 million shares Monday.

Analysts said the upward swing following Monday's plunge was not likely to be sustained.

The tense situation in the Gulf, coupled with the ripple effects of a

possible recession in the United States left investors uneasy, a local market watcher said.

On the trading floor, Seaview Corp. paced the advancing issues followed by Spore Land and Spore Press.

Singapore Airlines foreign shares led the declining issues followed by Fraser and Neave ordinary shares and Keppel Corp.

In Bangkok, stock prices on the Stock Exchange of Thailand tumbled in slow trading.

The Stock Exchange of Thailand (SET) Index fell 28.03 points or 3 percent to 893.10. The key index has fallen more than 200 points since Iraq invaded Kuwait August 2.

Declines outpaced advances 133 to 18.

The market was closed Monday for the birthday of the Thai Queen.

Analysts said stocks fell shadowed by worries the situation in the Middle East could worsen.

In Taipei, stock prices rebounded in sluggish trading on the Taiwan Stock Exchange amid some bargin hunting.

The key Weighted Index, which fell 229.74 points Monday, rallied 153.84 points or 3.96 percent to 4,038.73.

Advances hammered declines 209 to one, while only 2 issues remained unchanged.

In Seoul, stock prices on the Korea Stock Exchange closed sharply lower in light trading.

The Korea Composite Stock Price Index fell 13.56 points to 632.30 - its lowest closing level of the year.

Declines outpaced advances 688 to 38, while 110 issues remained unchanged.

Analysts said prices fell from the opening bell in a continued downturn triggered by the Iraqi invasion of Kuwait earlier this month.

In Australia, stock prices closed higher on the Sydney Sharemarket helped by strong demand for gold shares.

The market's the general price indicator, the All Ordinaries Index, which fell 14.0 points Monday, rebounded 8.9 points to 1564.0.

Resource issues led the advance as the All Resources Index climbed 10.7 points, or almost 1 percent, to 968.0, while the All Industrials Index climbed 6.0 points to 2,328.8.

An estimated 97.6 million shares changed hands, compared with 79.4 million shares Monday.

Gold issues dominated trading in the wake of another rise in the bullion price on global markets, analysts said.

The Gold Index extended its 80.0 point gain from Monday, adding another 47.0 points to 1,634.0.

On the trading floor, GMK Gold gained 3 cents to $1.05, Placer Pacific added 8 cents to $3.78, Newmont Mining gained 6 cents to $1.28 and Homestake Mining added 4 cents to $1.60.

Elsewhere, oil stocks ended mixed. BHP Oil gained 15 cents to $11.15, while Santos Oil slipped 1 cent to $4.94.

4.82, NAB lost 0.02 to 6.66, Brambles rose 0.05 to 11.60, while News Corp gained 0.05 to 11.60.

WASHINGTON (AUG. 14) UPI - Retail sales edged up 0.1 percent in July to $149.5 billion on strength in building materials, home furnishings and mobile homes, the Commerce Department said Tuesday.

The small gain follows a revised 1.1 percent increase in June, and provides further evidence that consumers are being cautious with their cash as the economy lumbers along.

In May, retail sales declined a revised 0.1 percent.

July sales of durable goods - expensive items made to last three or more years - were up 0.3 percent while sales of non-durable goods showed no change, according to the report by the department's Census Bureau.

Sales of cars, trucks and vans were weak last month, down 0.6 percent. Not counting autos, retail sales in July were up 0.3 percent, a government spokesman said.

Most of the strength in the report was in two areas.

Sales of building materials, hardware, garden supplies and mobile homes

advanced 3.9 percent in July, while sales of furniture and home furnishings gained 2.5 percent, the Commerce Department said.

In the non-durable goods sector, department store sales increased last month by 0.8 percent, food store sales were up 0.4 percent and drug store sales increased 0.6 percent.

But sales fell 0.3 percent at gasoline service stations in July, tumbled 0.9 percent at clothing stores and were off 0.4 percent at restaurants and taverns, the department said.

The $149.5 billion in total retail sales for July is an increase of 2.8 percent over July 1989's total of $149.4 billion.

All the figures in the report were adjusted for seasonal factors, such as holidays.

NEW YORK (AUG. 14) UPI - Iraq has appropriated $3 billion-$4 billion in gold bullion, cash and military and civilian goods from Kuwaiti financial and commercial institutions since taking over the country, it was reported Tuesday.

The New York Times, quoting Arab bankers in the Persian Gulf and London, said the transfer of the goods to Baghdad appreciably increased Iraq's financial reserves, estimated by Arab and British bankers at $6.5 billion before Iraq invaded Kuwait on Aug. 2.

The Iraqis also confiscated huge amounts of civilian and miltary aiplanes, automobiles, machinery, food and other goods, The Times said.

''We're talking about gold, cash, cars, airplanes, tankers and a lot of military hardware that fell intact into the hands of the Iraqis on the first days of the invasion,'' The Times quoted an unidentified Middle Eastern banker as saying.

The newspaper said officials in Bahrain, Saudi Arabia, London, Abu Dhabi and Dubai reported the invasion has sent shockwaves through the regional economy in the form of capital flight, rising insurance rates, inflation and a cash shortage among people trapped by the takeover.

The Times said many Arab investors and foreigners are trying to transfer their money abroad, particularly to Switzerland and other Western nations. Arab central banks have imposed measures to insure that the flight of hundreds of millions of dollars remains orderly and does not become a panic.

The invasion also trapped about 2 million foreigners in Iraq and Kuwait who cannot leave or move their money.

Shipping insurance rates are soaring, kiting the price of all imported goods and raising the price of Saudi Arabian oil shipped out of the region.

The Times quoted a shipping executive in Jidda, Saudi Arabia, as saying war insurance rates have risen up to 2.5 percent of the value of a cargo, from a pre-invasion rate of zero, in some regions of the Red Sea and the Persian Gulf.

Bankers in the area said the Kuwaiti central bank held about 2.5 million ounces of gold, worth about $1 billion, before the Iraqis seized it Aug. 2. The bank also had about $350 million in Kuwaiti dinars and hundreds of million dollars in hard cash, including American dollars, British pounds sterling and French and Swiss francs, among other currencies, The Times reported.

BONN (AUG. 14) UPI - The Bundespost remained the largest investor in West Germany in 1989, pumping $12.3 billion into the economy, Post and Telecommunications Minister Christian Schwarz-Schilling said Tuesday.

He said the Bundespost, the West German postal and telecommunications authority, recorded a $1.97 billion profit in 1989, up from $1.4 billion the previous year.

The Bundespost's total sales in 1989 were $36 billion, he said.

Schwarz-Schilling indicated the Bundespost investments of $12.3 billion were 6.7 percent more than in 1988.

The results were the last to include all Bundespost divisions, as the postal service, telecommunications and the postal bank have been divided into three separate authorities.

NEW YORK (AUG. 14) UPI - A large portion of lower Manhattan was blacked out Tuesday for the second day, leaving thousands of apartment dwellers without water or lights as a workers toiled to repair an electrical substation damaged by fire.

Beekman Downtown Hospital was under emergency power and hundreds of

businesses were closed or operating on auxilliary electricity.

The fire in a Consolidated Edison substation near the Brooklyn Bridge just after noon Monday cut power to most of lower Manhattan, darkening most of the city's financial district, stranding hundreds of people in elevators, stopping subways business transactions.

Tuesday, subways were running on emergency generators but the power outage continued to affect 1,100 customers - many of them apartment houses and large businesses - in an area about a half mile square along the East River south of the Brooklyn Bridge.

Service was not expected to be restored for several days, Con Edison officials said.

The smoky blaze forced Consolidated Edison to shut off power to almost all of lower Manhattan, with the exception of the New York Stock Exchange, where trading was not affected.

The American Stock Exchange, which had to be closed Monday, opened on time Tuesday morning, a spokesman said.

Extra police were assigned throughout the area during the night and lit the streets with bright emergency lights during the night.

More than 150 firefighters wearing special masks battled the blaze at the substation, controlling the fire shortly after 5 p.m., and some power was restored to a few areas and buildings, including the World Trade Center.

The thick, acrid smoke from the fire overcame 17 firefighters and one civilian, and eight people required hospitalization.

At the height of the blackout, traffic lights were out and traffic jams turned many of the concrete canyons of the lower city into pedestrian walkways.

The blackout stranded thousands of people in elevators and on upper floors in the World Trade Center's twin towers and other skyscrapers.

Thousands of commuters walked home across the Brooklyn Bridge in near 90-degree heat or north to subway stations with working trains.

#90226u0803 08/14/1990 ~United Press International
NEW YORK (AUG. 14) UPI - The United States appears headed for significantly higher unemployment and little or no economic growth in the next year, according to a survey Tuesday by the Wall Street Journal.

The gloomy outlook is a startling swing from a survey just two months ago in which 35 of 40 economists polled predicted the economy would continue expanding for at least another year.

Although there were signs of economic trouble prior to Iraq's invasion of Kuwait Aug. 2, resulting higher oil prices prompted many economists to downgrade their outlooks, the Journal said.

Now, only 19 out of 34 who updated their midyear economic forecasts predicted another year without recession.

Most forecasters who expected an economic slump said it will be mild and short-lived, with the Federal Reserve moving to ease credit and reduce short-term interest rates as soon as clearer signs of recession appear, the Journal said.

But some analysts warned that an economic storm already has begun and that any Fed action would be too little and too late.

#90226u0805 08/14/1990 ~United Press International
JERUSALEM (AUG. 14) UPI - Defense Minister Moshe Arens denied Tuesday that Israel had asked the United States for additional attack helicopters and fighter planes and said Israel is not helping block shipments to Iraq.

''I heard this morning that the Israeli Embassy in Washington has denied that report (of a request for additional aircraft) and I can only add my voice to that denial,'' Arens told Israel Radio. The report was broadcast by American news agencies.

Asked if Israel had asked for early delivery of previously arranged shipments of aircraft, Arens said, ''We have not put in any official requests to the United States for speeding up things or for additional supplies.''

In an interview with Israel Radio, the defense minister also said Israel is not playing a role in preventing shipments of goods from reaching Iraq.

''We are not part of that siege,'' he said.

Arens said Israel has not noticed an increase in shipments through Jordan's port of Aqaba. The Israeli port of Eilat is less than 5 miles from the Jordanian port on the Gulf of Aqaba.

The United States has vowed to prevent the export or import of goods to Iraq as part of the U.N. program of economic sanctions adopted following the Iraqi invasion of Kuwait on Aug. 2 during an oil and border dispute.

During the Persian Gulf War between Iran and Iraq, arms and goods were shipped to Aqaba and then trucked through Jordan to Iraq.

''I don't think there's been any substantial increase,'' Arens said. ''I've no doubt that the United States and the other countries that have joined it in applying economic sanctions to Iraq are fully aware of the possibility of supplies reaching Iraq through Aqaba and I suppose they will take the appropriate steps.''

Shish Dekel, captain of an Israeli yacht in Eilat, told Israel Radio that commercial ship traffic at Aqaba is normal but there appeared to be more activity on shore.

Dekel said about a dozen ships, whose nationality could not be determined, were waiting to unload. In 1982 during the Persian Gulf war as many as 90 ships were anchored outside the port, he said.

In the Israeli-occupied Gaza Strip Tuesday, Palestinians demonstrated in support of Iraqi President Saddam Hussein. About 200 Arabs blocked the main streets of Gaza City and burned tires, carried posters of Saddam and shouted slogans praising him. Border Police dispersed the crowd with tear gas.

Overnight, posters of Saddam appeared on Gaza walls proclaiming him a heroic leader.

#90226u0856 08/14/1990 ~United Press International

(AUG. 14) UPI - Iraq denounced the United States' de facto blockade as illegal Tuesday and a British frigate intercepted a Cypriot oil tanker off Dubai in an apparent sign of British-U.S. resolve to block the transport of goods for Iraq.

British officials, however, denied the incident was part of a blockade.

Comments by U.S. and British officials that their governments would block ships to enforce a U.N.-sanctioned economic boycott of Iraq have split the Western world. U.N. sources said that few member states backed the move and France said its naval forces would not intercept Iraqi cargo ships at sea because such a measure would constitute an act of war.

As foreign military vessels converged on the gulf, warnings were issued to mariners to maintain ''extra vigilance'' in case of mines, used extensively in the strategic waterway during the eight-year Iraq-Iran war, shipping sources said. The warning follows the report of a suspicious vessel in the central gulf, near busy shipping lanes.

Shipping sources in Dubai, monitoring ship-to-ship radio contact, said a Royal Navy frigate intercepted a Cypriot oil tanker off the coast of Dubai Tuesday and asked the crew about the cargo and other particulars. The sources said British personnel did not board the Cypriot vessel.

Nicholas Smith, a British Ministry of Defense spokesman in London, confirmed the frigate made radio contact with the Cypriot vessel, which was allowed to continue on its way. Smith said it was normal practice for Royal Navy warships to hail passing ships on VHF radio and said it was premature to link the incident to British resolve to enforce the U.N.-sanctioned boycott.

During the eight year Iraq-Iran war, it was common practice for Anglo-American naval forces in the Persian Gulf to intercept tankers and other merchant shipping. Such incidents have not been reported since the war was suspended under a 1988 cease-fire.

In Washington, Iraqi Ambassador Mohamed Al-Mashat said Tuesday, ''The blockade is illegal.'' In an interview with NBC's ''Today,'' al-Mashat called on the international community to denounce the action, which he said had not been authorized by the United Nations.

Al-Mashat also said foreigners in Kuwait and Iraq will be allowed to go but that the process ''takes time. In due time they are going to be let free.''

There are about 2,500 Americans in Kuwait. The State Department has said it is in frequent contact with Iraq about getting the Americans out of Kuwait and Iraq, but answers from the Iraqis so far have been ''unacceptable.''

Smith said the duty of a British patrol in the gulf was to ensure freedom of navigation in the gulf's international waters and to reassure British vessels that assistance was at hand if required.

The Iraqi newspaper Al Jumhuriya, quoted by the Iraqi News Agency INA, said Tuesday that Iraq knew how to penetrate a blockade if one was imposed and would ''make (U.S.) troops taste death if they attack.''

A U.S. Embassy official in Riyadh said officials had investigated reports of Iraqi troops deserting to Saudi Arabia but had not been able to confirm the reports.

Warplanes aboard the USS Independence have been conducting nightly fighter missions over the Persian Gulf to protect the U.S. naval force dispatched to the region in the wake of Iraq's Aug. 2 invasion of Kuwait during an oil and border dispute.

While naval forces from several countries were converging on the gulf, it was still not clear who would be in overall charge of a multinational mission or whether the vessels would act individually.

Ground troops in Saudi Arabia also were on the increase as Syria announced Monday it was sending a symbolic military force to the desert kingdom to join Egyptian troops in creating a defensive wall against a possible Iraqi attack.

The State Department estimated Monday there were 140,000 Iraqi troops in Kuwait, and unofficial reports said the United States had deployed 50,000 troops in Saudi Arabia, but the Pentagon disputed that number and said official totals would be revealed in several days.

The dispatch of Syrian forces, along with Pakistan's announcement it would also send troops, follows deployments by Egypt and Morocco. The Arab League announced at a summit last week it would form a peace-keeping force to Saudi Arabia.

Iraqi Foreign Minister Tariq Aziz, however, has sent a letter to U.N. Secretary-General Javier Perez de Cuellar explaining that Iraq did not intend to launch a military operation against Saudi Arabia ''unless it initiates an act against Iraq.''

#90226u0869 08/14/1990 ~United Press International

MONTREAL (AUG. 14) UPI - White protestors attacked riot gear-equipped police for the second straight day while government officials and Mohawk Indians prepared for talks to end two lengthy standoffs triggered by a golf course expansion.

The latest rioting in the town of Chateauguay by 800 young people lasted several hours Monday night after a similar protest involving 5,000 people erupted Sunday.

In the confrontation Monday, the protesters attacked riot police with tire irons, rocks and empty bottles filled with lighted gas-soaked rags, shouting, ''We want the army.'' The provincial and federal governments have refused to send in the Canadian army to deal with the standoffs.

Quebec police used teargas to quell both days of rioting in which 17 officers were injured Sunday and seven others hurt Monday. It was not known how many civilians were injured in the violence.

Police arrested 22 people on charges of carrying firearms and the obstruction of justice.

The rioters were protesting a Mohawk blockade of a major bridge access to Montreal erected in solidarity with a nearby Mohawk blockade of a golf course expansion site they claim is on their land. The golf course blockade was erected four months ago, and touched off an abortive police raid July 11 that left one officer dead.

The white protestors, frustrated with traffic delays at the blocked Montreal bridge, were also demonstrating against alleged police brutality in the Sunday confrontation.

The federal government was to appoint a negotiator to the peace talks Tuesday, but the negotiations are not scheduled to begin until 24 international observers agreed upon in a preliminary agreement arrive at the scene, government spokeswoman Helen Fisher said.

The agreement between the government and the Indians reached Sunday calls for the Mohawks to tear down the barricades and calls for observers from the International Federation of Human Rights or the United Nations as well

as the free movement of food, supplies and Indian advisers across the barricades.

Some of the observers, from Great Britain, Italy, France, Belgium and Germany, arrived Monday and six more are expected to arrive by Tuesday night.

But ''there will not be serious negotiations until the barricades come down,'' Fisher warned.

Many of the Mohawk Warriors guarding the barricade at Kanesatake and the bridge barricade are members of the Warriors Society from the troubled St. Regis Indian reserve that straddles the U.S.-Canada border near Massena, N.Y.

The St. Regis Mohawk Warriors sided with pro-gambling forces and against traditional chiefs when pro and anti-gambling factions clashed in May, leaving two dead. Canadian government officials have accused the Warriors of being criminals who are holding the reserves hostage.

WASHINGTON (AUG. 14) UPI - Bipartisan budget talks will move about Sept. 5 from Capitol Hill to suburban Andrews Air Force Base, and at least one negotiator said Tuesday he plans to sleep there during the talks.

''We are offered a bed if we want it or transportation to or from (Capitol) Hill,'' Rep. Bill Frenzel, R-Minn., a budget negotiator, said in an interview. ''My guess is that eventually a lot of the deals are going to be made after sundown and I think I'm going to apply for a ''made

Frenzel said his office heard about the decision to move the talks to Andrews, about 15 miles east of Washington, from the office of House Democratic leader Richard Gephardt of Missouri, chairman of the negotiations.

''Gephardt's office called and said we're meeting at Andrews Air Force Base,'' Frenzel said.

But Deborah Johns, a spokeswoman for Gephardt, said no final decisions have been made ''at this point'' about where the final round of budget talks would take place.

''We are working on arrangements and we will continue to do so and there'll be a formal statement later as to the final plans,'' Johns ''he final plans,'' Johns

A switch from Capitol Hill to a more isolated location was expected after talks broke down in a partisan stalemate last month. President Bush had even offered negotiators the use of Camp David, the presidential retreat in the Maryland mountains about 50 miles north of Washington.

The new location at Andrews, home base to Air Force One, was expected to free up negotiators from outside distractions, such as meetings with constituents and questions from reporters, who waited outside the Capitol Hill meeting rooms previously used for budget talks.

The isolated location is intended to help negotiators concentrate more fully on reaching a deficit reduction agreement by their unofficial deadline of Sept. 10, three weeks before the Oct. 1 start of fiscal year 1991.

''I think we can make the (Sept.) 10th deadline,'' Frenzel said.

Failure to reach and implement a deficit reduction agreement by Oct. 1 would result in the automatic imposition on that date of about $100 billion in spending cuts, split between defense and domestic programs.

Both sides have said they want to avoid those cuts because they would be devastating to the economy and many non-exempt federal programs.

It was not immediately known how many of the roughly two dozen administration and congressional budget negotiators, plus their staff members, would sleep at the military base.

It also was not known whether there would be briefings for reporters on the talks, or whether negotiators would remain in total isolation from the media until an agreement is reached and announced.

TORONTO (AUG. 14) UPI - Cineplex Odeon Corp. Tuesday reported its second-quarter loss narrowed slightly to $38.4 million from $38.7 million a year ago and also said a $31.8 million deal to sell 38 theaters in the United States was in doubt.

Revenues at the company increased to $150.5 million up from $137.0 million in the second quarter of 1989.

For the first six months, Cineplex losses totaled $50.4 million, increasing substantially from a loss of $28.0 million in the year-earlier period. Revenues, however, increased to $290.2 million from $265.5 million.

Cineplex said its second-quarter loss includes $18.1 million in costs

associated with the sale of non-core business assets as part of the company's restructuring plan and banking agreements.

Box office and concession revenues both increased in the first half, up 15.7 percent and 10.6 percent, respectively, the company said, adding distribution and other revenue increasing marginally.

The movie theater chain is required to accumulate $200 million in net proceeds in 1990 to cut its massive debt. At the end of the second quarter Cineplex's long term debt totaled $479.4 million, down from $578.1 million at the end of 1989.

The sale of 38 theaters in the northwest U.S. for $31.75 million to Plitt Amusement Co. of Los Angeles appears in doubt. ''There is substantial uncertainty as to whether the transaction will close,'' the company said.

Negotiations are ongoing with Plitt Amusement, but Cineplex said it would ''pursue all available legal remedies'' if the deal was not completed. The original July 31 closing had been extended to Aug. 15.

Cineplex operates about 1,530 movie screens in 380 locations in North America. The company has sold about 400 screens in 100 locations since March.

NEW YORK (AUG. 14) UPI - Latest metal market prices as quoted Tuesday by the American Metal Market, authoritative metals publication:

Aluminum, New York Merchants, 99.7 percent pure ingots 78.50-81.50 c-lb.

Antimony, domestic, refined in alloy, $1.25-1.40 lb.

Copper, electrolytic wirebars, delivered U.S. (Warrenton Refining Co.) 140.00-141.40 c-lb.

Lead, common, U.S. primary producers 52.00-58.00 c-lb.; U.S. non-primary (secondary) producers 54.00-58.00 c-lb.

Magnesium, 99.8 percent, ingot 163.00 c-lb.

Manganese, 99.9 percent, boxed regular 91.00-95.00 c-lb.

Mercury, $265.00-$270.00 76-lb. flask.

Nickel, briquettes delivered to customers, merchant, N.Y., $4.50-4.75 per pound.

Palladium, N.Y. Am. Met. Mkt. dealer $114.00-$115.50 per troy ounce.

Platinum, soft, 99.5 fine, producer - $476.25-$481.50; dealer-approx., $488.00-$496.00 per troy ounce.

Steel, No. 1 heavy melt scrap - Pittsburgh $114.00-$122.00 per gross ton (consumer buying price); Am. Met. Mkt. composite scrap price $105.67 per ton.

Tin, N.Y. Am. Met. Mkt. ex-dock - 288.50 c lb.

Titanium, aircraft quality, 8 1/8 inch round rotating billet, f.o.b. shipping point $7.80-9.59 lbs., domestic sponge 99.3 percent, domestic and imported duty-paid $5.00-5.50 lb.

Tungsten powder (H-Red), 99.9 percent minimum pure $10.00 per lb.

Zinc, prime western, U.S. 77.50-87.25 c-lb.

HURLBURT FIELD, Fla. (AUG. 14) UPI - Air Force special operations units that participated in the invasion of Grenada and Panama will join U.S. forces in Saudi Arabia, two congressman said Tuesday.

''I can't give you numbers but I was told that some of those special operations units are or will be involved,'' Sen. Bob Graham, D- la., said Tuesday in the second day of a two-day visit to Pensacola.

''We do understand that some are going to be deployed but of course troop movements are all classified,'' said Brian Keeter, a spokesman for Rep. Earl Hutto, D-Fla. ''It's not really revealed until they're in ''to, D-

Officials at Hurlburt declined to comment on their statements.

''As a matter of standard policy we don't discuss the circumstances under which we may or may not deploy our forces during exercises or contingencies,'' said Sandy Henry, a spokeswoman for Hurlburt Field.

Hurlburt Field, near Fort Walton Beach, is home of the Air Force Special Operations Command and the 1st Special Operations Wing, which traces its history to World War II when it operated behind Japanese lines in Burma.

The wing specializes in missions behind enemy lines and in night maneuvers using specially equipped helicopters and heavily armed transport-like planes.

The unit has played a key role in past conflicts involving U.S. forces.

The 1st SOW participated in ''Urgent Fury,'' the invasion of Grenada, in October-November 1983. The unit's AC-130H Spectre gunships and MC-130 Combat Talons, which carried Army Rangers, helped rescue American medical students from the Carribbean island nation.

Last December its gunships participated in the invasion of Panama. AC-130 Specter aircraft wiped out Panama's military headquarters and one of the unit's transports brought Manuel Noriega back to the United States.

But there have also been failures. The team was involved in Desert One, the ill-fated attempt in 1980 to rescue American hostages from Iran. Eight servicemen were killed when a helicopter and transport collided on the ground.

#90226u0892 08/14/1990 ~United Press International

LONDON (AUG. 14) UPI - The British consul in Kuwait renewed efforts Tuesday to retrieve the body of Douglas Croskery, a British businessman killed by Iraqi soldiers while he was trying to flee Kuwait, the Foreign Office said.

Larry Banks, consul at the British Embassy in Kuwait, Monday tried to recover the body but he was rebuffed by soldiers, compounding British anger at the shooting of 45-year-old Croskery Saturday when he stopped to help some stranded Kuwaiti travelers.

''We learned a few lessons from the bureaucratic muddle on the frontier Monday,'' said a Foreign Office spokesman. ''We hope that it has been sorted out.''

Deputy Undersecretary of State Roger Tomkys discussed the killing and concerns about the safety of Britons in Iraq and Kuwait with the Iraqi ambassador to London when he visited the Foreign Office to talk about Iraqi President Saddam Hussein's weekend statements about the Gulf crisis, officials said.

''It shows yet again that the situation is extremely dangerous, and it shows that the Iraqis are continuing to behave in a ruthless and barbarous way,'' Foreign Office Minister of State William Waldegrave said Monday in an interview with the British Broadcasting Corp.

Two other Britons were with Croskery when the shooting occurred but managed to escape across the border into Saudi Arabia, an official with the British Embassy in Riyadh said. The men, who were debriefed by

consular officials, were chased by Iraqi troops and left Croskery behind, the official said.

Croskery came from northern England and was married.

The Foreign Office said Monday it holds Iraq responsible for the safety of foreign nationals in Kuwait and Iraq, and has advised Britons in the two countries not to try to escape.

#90226u0896 08/14/1990 ~United Press International

(AUG. 14) UPI - Oil prices overall were holding relatively syable in midday trading Tuesday as traders waited for the next shoe to drop in the Middle East crisis.

On the European cash market, the United Arab Emirates' Dubai light - the key OPEC crude from the Middle East shipped mainly to the Far East - was trading at $24 a barrel, 40 cents higher than Monday.

Britain's widely traded North Sea Brent was 42 cents higher at $26.92 a barrel.

''The market is waiting for the next shoe to drop,'' said Peter Beutel, vice president of Merrill Lynch Futures Inc. in New York.

''Prices are holding very firm,'' concurred Peter Gignoux of Shearson Lehman Hutton's London office.

Jordan's King Hussein flew to the United States in an unexpected bid to try to mediate the growing crisis triggered by Iraq's Aug. 2 invasion of Kuwait with Iraq denouncing the de facto U.S. blockade of its oil exports as illegal.

Jordan has continued to supply oil and other goods over the border between the two nations.

A British frigate intercepted a Cypriot oil tanker off Dubai in an apparent sign of its resolve to block the transport of goods to Iraq. British officials, however, denied the incident was part of a blockade.

France said its naval forces would not seize Iraqi cargo ships at sea because such a measure would constitute an act of war.

On the U.S. Gulf Coast cash market, prompt delivery West Texas Intermediate crude was being quoted at $26.80 a barrel, down 20 cents.

On the New York Mercantile Exchange, WTI futures contracts for September

delivery were $26.65 a barrel in early afternoon trading, down from the high on the day of $27.45 a barrel.

The WTI price also was slightly lower than the $26.77 a-barrel price traded Monday before the Merc was shut down by a power station fire around 1:00 p.m. EDT.

Because of the fire, the Merc is considering Monday and Tuesday one trading day with Friday's closing being the last reference price.

Because of the fire, Merc crude trading to began at 11:00 a.m. EDT Tuesday instead of the normal 9:45 a.m.

Unleaded gasoline contracts for September delivery were being quoted at 83.60 cents a gallon on the Merc, down from the high on the day of 85.60 cents, but slightly above the 82.30 cents a gallon traded before Monday's shutdown.

Home heating oil was being quoted at 74.90 cents a gallon, considerably below its high on the day of 76.76 cents a gallon.

#90226u0909 08/14/1990 ~United Press International

MIAMI (AUG. 14) UPI - A man poisoned by a cocaine-laced malt drink began breathing spontaneously Tuesday hours before he was scheduled to be disconnected from life-support systems, hospital officials said.

It was the first time Maximo Rene Menendez, 25, who has been in a coma since drinking a contaminated bottle of Pony Malta de Bavaria July 26, had breathed on his own in the last seven days.

Menendez, who was declared brain dead Monday, was scheduled to be removed from life support Tuesday at the request of his mother, who appealed to Dade Circuit Judge Robert H. Newman to let him die.

''He cannot maintain breathing for a long time on his own, but the fact is he's taken breaths on his own and we can't disconnect someone like that,'' said Dr. Armando Bienes, a neurologist at AMI Kendall Regional Medical Center.

''It's a miracle, if there is some brain activity in this patient now after we have done all of these tests that indicated nothing,'' he said.

Doctors were scheduled to conduct tests late Tuesday to determine if the breathing was voluntary or the result of muscle spasms.

A tearful Margarita Rabaza, Menendez's mother, held out hope for her son's

recovery after learning of her son's apparent improvement, Bienes said.

All signs of brain activity had disappeared over the last few days, until this morning when Menendez's body began jerking and he began breathing, he said.

''If this is voluntary movement and not spastic, then there should be some blood flow to the brain which would indicate there is some brain stem activity,'' said Bienes.

Bienes said he did not know how long it would take to reevaluate Menendez's condition.

''We do have a court order to disconnect him from life support,'' said hospital spokeswoman Sandra Hyatt. ''However, we will not do a thing until the physicians are sure beyond a shadow of a doubt he is brain dead.''

The family, doctors, administrators and lawyers met with Newman Monday after doctor's declared Menedez brain dead. Newman issued an order allowing doctors to disconnect the life-support systems, which included a respirator, kidney dialysis machine, intravenous feeding tube and medication for controlling blood pressure.

Federal officials are still looking for the source of the cocaine. The bottle Menendez drank was purchased at a Miami supermarket. The non-lcoholic malt drink was pulled from the shelves, and the FBI later discovered 20 bottles of Pony Malta de Bavaria were contaminated with lethal doses of cocaine. Some contained 200 times the lethal dose.

Investigators believe Colombian drug traffickers were attempting to smuggle the cocaine into the United States by dissolving it in the malta, and planned to filter it out later but somehow lost track of the shipment.

The FBI, Customs Service, the Drug Enforcment Administration and the Food and Drug Administration have formed a task force to investigate. They are searching for Hugo Alfredo Rios, a Colombian man who imported the beverage through his company, Miami Sweet.

The company's warehouse has been abandoned. The malta's manufacturer, Bavaria S.A. of Bogota, Colombia, said neither Rios nor Miami Sweet was authorized to import the drink.

#90226u0923 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - The mounting tensions enveloping the Middle East, sparked by Iraq's invasion of Kuwait, have done little to disrupt the normal flow of commerce in most of the region, government and trade

officials said Tuesday.

''We don't see evidence that business has been disrupted. I have not sensed any kind of panic,'' said Don DeMarino, the Commerce Department's deputy assistant secretary for Near East Asia.

'' he said at a news conference sponsored by the National U.S.-Arab Chamber of Commerce, which represents the interests of more than 1,000 U.S. companies doing business in the Middle East.

''In the Emirates it's been pretty much business as usual,'' agreed Charles Heath, a spokesman for the Dubai Board of Trade and Tourism.

The officials said last week's invasion of Kuwait by Iraq, and the subsequent U.S.-led military response has not severely hindered business operations in Qatar, Oman, Yemen, the United Arab Emirates and most of Saudi Arabia.

Not even the thought of a multinational flotilla of warships amassing off the coast was enough to deter a group of 600 German tourists, who recently confirmed, with a substantial deposit, plans for a Dubai vacation next month, Heath said.

''We've had some cancellations from individuals but we've had no large group tours cancelled,'' he said, noting that most in-coming flights to Dubai are full and the tiny nation's airports are handling about 25 daily flights normally bound for Kuwait.

Some noticeable results of the U.S. embargo of trade with Iraq and the de facto blocade of Iraq-bound ships have raised concerns among Western business executives with projects in the region.

Shipping insurance rates are soaring, boosting the price of all imported goods and raising the price of Saudi Arabian oil shipped out of the region.

The New York Times quoted a shipping executive in Jidda, Saudi Arabia, as saying war insurance rates have risen up to 2.5 percent of the value of a cargo, from a pre-invasion rate of zero, in some regions of the Red Sea and the Persian Gulf.

Banks in the region also have experienced an increased demand for foreign currency exchanges as investors seek more stable currencies such as the German mark, the British pound and the U.S. dollar.

For the most part, though, Middle East banks have adequate liquidity, and reserves, to meet customers' needs, DeMarino said.

Work has continued at the 224 joint ventures between U.S. and Saudi companies, worth more than $3.3 billion, DeMarino said. Mobil, the giant oil concern, is the largest spender in Saudi Arabia with $1.8 billion invested in 13 joint ventures.

During the past week, paperwork on three U.S.-Saudi joint ventures, all involving production of military-related products, was hurried along, said Joseph Saba, editor the newsletter Middle East Executive Reports.

Office workers, oilfield hands and others doing business in the region appear to be staying at their jobs. ''Whatever exodous has taken place has largely occurred,'' DeMarino said. ''I don't think we'll see ''DeMarino said. ''I

#90226u0944 08/14/1990 ~United Press International

NEW YORK (AUG. 14) UPI - The jury in the Central Park jogger trial, in an

apparent attmempt to piece together a chronology of violence, reheard testimony Tuesday from several victims about the time of night each was attacked by a gang of teens last spring.

A neighbor of the woman jogger who was gang-raped, beaten and left for dead in the park testified she saw the victim head for her evening run about 9 p.m. or 9:15 p.m. on April 19, 1989.

The jury, in its sixth day of deliberations, asked to rehear testimony about the times of the attacks other than the one on the female jogger. Prosecutors approximate the time of the rape between 9:25 p.m. and 9:40 p.m., making the 31-year-old investment banker the fifth of nine victims.

Antron McCray, 16, Yusef Salaam, 16, and Raymond Santanta, 15, are accused of being part of a gang of up to 30 youths who rampaged through the park, robbing and beating people. They are on trial on 13 criminal charges, including rape and attempted murder.

As the jury settled into the jury box at state Supreme Court in Manhattan, a court reporter read from thousands of pages of trial testimony.

Several of the victims - all joggers or bicyclists - were competitive athletes who registered the times of their laps by checking an illuminated clock on the side of the Newsweek building that can be seen from the south end of the park.

The victims used that information to gauge the time of their confrontations with the gang.

The first victim was a bicyclist, Michael Vigna, who said he spotted the group of teens about 9:05 p.m. north of the 102nd Street transverse. One of the teens took a swing at him as he rode by but missed, he testified.

Next was a homeless man who was beaten into unconsciousness nearby. He gave no testimony about the time of the attack.

Jerry Malone and his fiancee, Patricia Dean, were riding their tandem bicycle in the same area when they were charged by the group about 9:12 p.m., bothtestified. Dean said several youths grabbed at her and almost ripped her off the bike.

There is a gap in time until the attack on a male jogger, Robert Garner, who was forced off the northern stretch of the reservoir jogging track and punched sometime after 9:30 p.m.

Prosecutors said it was during those missing minutes that the gang jumped the woman jogger on the 102nd Street transverse, beat her senseless with a metal pipe, dragged her into the woods, raped her and left her for dead.

Prosecutors said the gang emerged from the woods in search of more victims attacking Garner and joggers David Lewis and David Goode on the reservoir jogging track.

Another jogger, John Loughlin, testified he saw the group mugging someone believed to be Garner about 9:45 p.m. Loughlin became a victim himself minutes later when the group beat him unconscious with a hunk of wood.

BUDAPEST, HUNGARY (AUG. 14) UPI - Hungary stands to lose millions of dollars in lost exports and debt repayments because of its decision to support U.N.-mandated trade sanctions against Iraq, a government officials said Tuesday.

Hungary's trade with both Iraq and Kuwait had risen sharply in recent years before being suspended as the result of Iraq's Aug. 2 invasion of its tiny neighbor.

Janos Menyhart, a senior official in the Ministry for International Economic Relations, said Hungarian exports to Iraq had been expected to total nearly $30 million this year, up from $16 million in 1988, before the embargo was announced.

Exports to Kuwait totaled $40 million last year and were already nearing the $20 million mark this year, he said.

Also at stake is the balance of a $145 million loan which Iraq had promised to pay back in annual installments by 1996. Iraq was already running behind on payment of its 1990 installment of $19 million.

Since Hungarian exports to Iraq and Kuwait usually are paid for with oil deliveries, the crisis in the Gulf could also mean Budapest will have to dip into its hard currency reserves to purchase oil from other countries, government officials said.

Hungary was compelled to purchase oil from Libya and Algeria earlier this summer because of an unexpected cutback in oil deliveries from the Soviet Union.

NEW YORK (AUG. 14) UPI - It's not a solid or a liquid but a slimy substance called Guk - the latest introduction from the Canadian company that brought the world Trivial Pursuit.

Betting that kids of all ages will flip for a toy that bounces, squishes, drips, oozes, splatters and solidifies, Chieftain Products Inc. of Downsview, Ontario, unveiled its ''mutant magic'' product Tuesday at a Manhattan news conference.

''Adults wonder why it does what it does and kids just like to play with it,'' said Chieftain's Director of International Operations Peter Vernon, summarizing the results of the company's test marketing.

Vernon said the main ingredient of Guk, which comes packaged as a powder that is transformed into a mysterious hybrid physical property when water is added, is starch - but he refused to reveal any more of Guk's characteristics.

Demonstrations showed that Guk, which comes in three colors, can be rolled into a solid ball, but will turn to an oozing liquid once no pressure is applied to it.

A big enough chunk of Guk can serve as a platform for skipping rope or bouncing a ball, but standing on it results in sinking.

Vernon, 29, who grew up in the toy business and was the yo-yo champion of Ontario at the age of 18, conceded Guk - true to its name - is a somewhat messy product.

But he said Guk is non-toxic and biodegradable, and is easily removed from carpet or clothing when allowed to dry.

''A mother's initial reaction to it might be, 'Oh, yuck,''' said Vernon. ''But we think word-of-mouth will support how easy it is to ''ink word-

While Chieftain first did business in the United States 10 year ago as the original licensing agent for Trivial Pursuit - now owned by Pawtucket, R.I.-based Parker Bros. - Guk marks the company's first major U.S. product introduction.

''We think the free-trade agreement between the United States and Canada will be a big help to us,'' said Vernon, who declined to say how much Guk might add to the company's current annual revenues of $14 million.

Guk, which can be stored in a plastic container or frozen for re- se, will retail for $4 to $5 for a 10-ounce box. Forty-ounce buckets of Guk will go for $15.

''One thing we've found with Guk is that the more you have, the more you want,'' said the optimistic toy maker.

DUBAI, United Arab Emirates (AUG. 14) UPI - A multi-national naval force tightened its noose around Iraq Tuesday, checking an oil tanker to verify that it was not carrying Baghdad cargo. Other suspect vessels appeared wary of venturing into international waters.

The strategy of isolating President Saddam Hussein after his Aug. 2 invasion of Kuwait gained momentum, with West Germany, Italy, Spain and Belgium declaring plans to send vessels to the Mediterranean Sea to possibly assist in patrolling the seas.

Washington has dispatched 49 warships including three aircraft carriers to the region, and says it now has the military and legal authority to board vessels suspected of defying the U.N. Security Council sanction plan against Iraq. British warships are already assisting and Australian and Canadian vessels are en route.

Shipping sources in Dubai said they believed the intense naval activity in the Persian Gulf would compel Baghdad to try and break the pending blockade by having vital imports routed through Jordan's Red Sea port of Aqaba, and then taken overland to Iraq.

Reports from the Red Sea indicated warships belonging to the battle group linked to the aircraft carrier USS Dwight D. Eisenhower had stepped up

surveillance of merchant vessels, apparently to try and seal the back-door entry to Iraq.

''If any sanction-busting is going to go on, it will happen in the Red Sea '' one shipping source said. ''The Iraqis can have shipping manifests saying the goods are specified for Jordan, and then things can ''an, and then things can

The blockade began clicking into place with a British naval vessel by radio challenging a Cypriot oil tanker in waters off the United Arab Emirates to determine whether it was in Baghdad's service.

British officials said the move by the HMS Jupiter was routine patrol work but it followed London's Monday declaration that interceptions may be necessary to ensure a tough sanction package can bring pressure on President Saddam Hussein.

Shipping sources said two freighters moored about 2 miles outside Dubai's Port Rashid were believed to be Iraqi-owned.

The captains had not contacted UAE authorities, and were believed to be taking shelter from the formidable array of naval forces steaming around and outside the gulf, the sources said.

''They are probably taking a breather and feel they don't want to go out and get thumped,'' one source said.

The Bahrain-based Middle East Navigational Aid Services, an organization that provides nautical advice to those plying the gulf, warned vessels to avoid one region where it said a suspicious ship may have laid mines. However, shipping sources were skeptical, saying Iraq during its 8-year war against Iran demonstrated little minelaying potential.

The area that MENAS warned of was south of Qatar near a shoal and not on a major shipping route, and would involve quite a risky expedition for Iraq's forces, the sources said.

''The suspicious vessel was probably discharging its ballasts offshore, or polluting the water, or doing any one of a number of illegal things that men do at sea,'' said one source.

The sanction package has severely disrupted trade throughout the Persian Gulf, with UAE port authorities being asked to accept ships ladden with goods originally destined for Kuwait and Iraq.

#90226u0972 08/14/1990 ~United Press International

MIDDLETOWN, OH (AUG. 14) UPI - A state appellate court has reversed the public indecency conviction of a high school coach who held a meeting with some of his students wearing only a towel that later fell off.

Jack Emsuer, a physical education teacher at Preble-Shawnee High School in Preble County, met with the students in his office next to the boys' locker room and which was accessible only to male students and personnel.

The 12th Ohio District Court of Appeals held that the ordinary observer probably would not be offended by nudity in a men's locker room and concluded that the state improperly applied the public indecency statute to Emsuer's conduct.

Robert Olson, the coach's lawyer, said other physical education teachers and coaches should benefit from the case.

''If you can find a situation of somebody being guilty of nudity in a closed-off locker room where you can expect people to be changing clothes, it could extend to any locker room anywhere,'' he told The Cincinnati Enquirer in a story published Tuesday.

Emsuer was convicted in Preble County Common Pleas Court on two counts of public indecency. He was sentenced to 10 days' in jail and fined $100 on each count, with both penalties suspended if he performed 40 hours of community service.

Students who saw Emsuer naked had complained to school officials, who took the matter to police.

On both occasions when he was seen naked, it was after teaching his physical education class, when he would shower and prepare for his afternoon classes, according to court records. He was in the process of changing clothes when the students saw him naked.

TOLEDO, OH (AUG. 14) UPI - An industrial scanner that will allow designers and enginners to peer inside dense materials without destroying them was unveiled Tuesday by the state-sponsored Edison Industrial Systems Center.

The device is an industrial version of a medical CAT scanner, or Computed Axial Tomography machine, which operates at four times the medical version's power level and allows engineers to examine internally products that otherwise would have to be disassembled or destroyed.

Charles DePew, president and chief executive officer of the Edison Center, called the development a major advance toward the state's goal of establishing a strong technological base to support industry and manufacturing.

The scanner uses X-rays to create a three-dimensional picture of the insides of an object and displays them on a computer monitor within seconds.

Unlike the medical version, which is limited by the amount of X- ays it can produce to protect humans from overexposure, DePew said the $1.3 million industrial scanner can use higher levels and achieve greater accuracy.

''We call it the world's greatest electronic bandsaw,'' said William McCroskey, president of Innovative Imaging Systems of Solon, which built the device for the Edison Center.

The device will be available for use at $250 an hour for Edison Center members and $350 an hour for non-members.

DePew said additional scanners will be built that will allow companies to tailor them to specific products and at less cost.

The system can be used to check for internal flaws in parts and to examine the internal structure of parts and assemblies.

DePew said it can be used to detect variations in tolerances during production and to identify potential safety and product liability problems.

Dr. Thomas Andrews, associate vice president of information systems at the Medical College of Ohio, said the scanner's full potential is uncertain, but open for discovery.

''Exactly how we will eventually apply this technology is unknown,'' he said during a news conference at the Edison Center.

Andrews said new uses are found for the scanner daily, including suggestions made by other members of the Edison Center, located east of the University of Toledo campus.

Founded in 1983, there are nine Edison Centers in Ohio that provide research, and develop and apply new technologies to strengthen Ohio's industrial, business and agricultural base.

The Toledo center was begun in 1987 to focus on the industrial area.

#90226u0980 08/14/1990 ~United Press International

HARTFORD, CT (AUG. 14) UPI - Sen. Joseph I. Lieberman, D-Conn., charging consumers have been ''ripped off'' by recent price hikes, proposed legislation Tuesday to subject companies to stiff penalties for price gouging.

Lieberman said his bill would set criminal penalties for companies that charged excessive prices for oil or other essential products during times of national emergencies.

''Since the Iraqi invasion of Kuwait gasoline consumers have been ripped off to the tune of $200 million,'' Lieberman said at a news conference. ''None of that price increase in my view is justified.''

The bill would allow the president to declare a national economic emergency when an international or domestic crisis threatened to seriously disrupt the U.S. economy.

The president could designate gasoline, oil or other products as essential commodities and charging excessive prices for those goods could bring up

to five years in prison and $500,000 in fines.

The bill also would allow the government to seek restitution for consumers with double monetary penalties for companies found guilty of profiteering, Lieberman said.

Lieberman said he planned to introduce the bill when the Senate reconvenes after Labor Day. Other sponsors now include Sens. Richard Bryan, D-Nev., Paul Simon, D-Ill., and Larry Pressler, R-S.D.

Lieberman said he was hopeful the measure would be enacted quickly, possibly as an amendment to other legislation already before the Senate.

''This bill is not a price-control bill and it is not a tax bill,'' Lieberman said. ''It does not clamp down on the free-market system because that's not what's operating now.''

Meanwhile Tuesday, the Legislature's Energy and Public Utilities Committee continued its investigation into the gasoline and heating oil price hikes that followed the invasion of Kuwait.

Representatives of Mobil, Sun Oil and Texaco appeared before the committee which last week issued subpoenas to about a half-dozen major oil companies demanding they send officials to testify.

David Hayward, vice president for supply and transportation at Mobil, indicated further price increases were possible, saying his company has yet to recover increased costs it already has incurred.

Hayward said the price of crude oil has increased 30 cents a gallon by July 1 and ''we have not even come close to recovering that increase.''

''I can't speculate on future prices or exactly what our pricing policy is '' Hayward said. ''My advice to consumers is to follow their own instincts. To the extent that they can conserve they should conserve, to the extent they can price shop they should price shop.''

Sen. Gary A. Hale, D-Ansonia, the committee's co-chairman, said he was not pleased with the explanations the oil companies have given for the price increases.

''We're still not getting strong answers about the immediacy of the increases and the size,'' Hale said. ''I haven't heard answers yet that really explain this thing in satisfactory terms.''

#90226u0990 08/14/1990 ~United Press International

NEW YORK (AUG. 14) UPI - Soul singer Curtis Mayfield was in critical condition Tuesday after being hit by a lighting scaffold blown down by a wind gusts at an outdoor concert.

A community leader and six concert volunteers also were injured in the collapse Monday night.

Mayfield, whose biggest hits came from the ''Superfly'' soundtrack, was about to begin performing when a gust knocked down the overhead stage lights in a park, said a state senator, Marty Markowitz, who organized the concert.

''As Mayfield was ready to come on stage an overwhelming wind hit us and blew the speakers off the stage and the lighting trusses down,'' he said. ''Some of it hit Mr. Mayfield.

''I was lucky. I was on the stage but nothing happened to me. We all rushed to the people who were hit. Some of them were knocked out. Mr. Mayfield looked pretty bad. We hope he will be fine. This was supposed to have been a comeback concert for him,'' the senator said.

Mayfield, who in 1972 wrote and performed the soundtrack of ''Superfly,'' a hit film about a Harlem cocaine dealer, told police he felt a tingling in his arms - a symptom of spine trauma.

He was in serious but stable condition Tuesday morning at Kings County Hospital, a spokeswoman said.

One other person was hospitalized and six others were treated and released.

#90226u0994 08/14/1990 ~United Press International

MOSCOW (AUG. 14) UPI - While a windfall of hard currency from higher oil prices would be welcome in the cash-strapped Soviet Union, the nation will probably be unable to capitalize on the Persian Gulf crisis.

Soviet and Western analysts said fuel shortages at home and the fact that the Soviet oil industry is already straining at capacity will keep the country from taking advantage of higher prices and increased demand on the world market.

International economic sanctions against Iraq and Moscow's cutoff of armaments will also hurt the Soviet Union, which took most payments from Iraq in petroleum that was then resold to such third countries as India and Bulgaria.

Moscow may be forced to fulfill contracts with the third countries from its own supplies - petroleum that is sorely needed within the Soviet Union for such things as bringing in the record grain harvest now in danger of rotting in the fields.

''They are hard pressed right now to meet domestic demand,'' one Western diplomat in Moscow said. ''They can't even think about increasing exports to take advantage of the prices. They were already exporting as much as they could.''

Officials at the Soviet Oil Ministry refused to be interviewed but Foreign Ministry spokesman Yuri Grimitskikh said it is too early to say if Soviet exports would decrease rather than increase in the near future.

''We have to increase our production of oil but the shortage at this stage is within our own country,'' Grimitskikh said. ''To compensate for the difficulties within the country, we reduced the supply of oil to a number of nations. We have to compensate them.''

Oil and natural gas exports comprise 75 percent to 80 percent of the Soviet Union's hard currency revenues - money that is needed to import grain, buy scarce consumer goods and pay off Western loans.

Of course, even without increased production, Soviet oil revenue will grow along as world prices rise but any benefit may be negated by other factors.

The Soviet business newspaper Commersant estimates that if oil exports were maintained at current level of about 56 million tons a year, a protracted conflict in the Persian Gulf would bring an additional $750 million by the end of 1990.

If the crisis is resolved quickly and global oil prices begin dropping in the next two months, the Soviets would earn an extra $120 million, the newspaper said.

Middle East analyst Alexei Vasilyev said the Persian Gulf crisis could have provided ''a gulp of oxygen for our ailing economy.''

''Alas, the structure of our export position appears worse now than Czarist Russia's used to be,'' Vasilyev said on Soviet television. ''Nevertheless our main income from exports comes from oil and gas and in this situation we stand to benefit by several billion dollars.

''My only hope is that our revenues will not be squandered as were the several dozen billions of dollars that the Soviet Union received after the surge in oil prices in the 1970s.''

Even without squandering, any benefit from higher oil prices will be largely offset by the loss of economic ties with Iraq.

Iraq, as part of its payment for Soviet arms, was to deliver 10 million to 11 million tons of oil to India and Bulgaria this year to fill Soviet contracts. About 7 million tons have been delivered and the Soviet Union will likely have to fill the gap from its own oil.

''Iraq was a beneficial economic partner for us,'' said Izvestia political commentator Stanislav Kondrashov. ''Economic cooperation as well as arms deliveries provided us with quite large profits, it must be admitted.''

#90226u1024 08/14/1990 ~United Press International

MANILA, PHILIPPINES (AUG. 14) UPI - Senator Richard Lugar sought Manila's support for Washington's military actions against Iraq Tuesday, but Filipino officials said U.S.-Philippine interests in that area ''do not coincide.''

''We don't ever expect the Philippines will support us automatically,'' Lugar, R-Ind., said after a call on President Corazon Aquino.

''We hope, obviously, that we will be working together. But (the Philippines) is a sovereign nation and the people in this county make their own judgment and that's the way it ought to be,'' Lugar said.

The senator, who arrived Sunday for a four-day visit, was accompanied by Rep. David Dreier, R-Calif., and U.S. Ambassador Nicholas Platt during the call on Aquino.

During a speech before a local Rotary Club, Lugar warned if Iraq is allowed to continue its aggression in the Middle East it will ''have a tourniquet around the throats of the United States and the Philippines for sure.''

''I think he is here to try to generate support for U.S. policy now in the Middle East, which is a very hard-line policy,'' said Defense Secretary Fidel Ramos.

''But of course the interest of the Philippines and the U.S. do not coincide,'' Ramos said.

''We have to worry first about the safety and the welfare of our hundreds of thousands of Filipino overseas workers in the Middle East,'' Ramos said.

There are about 500,000 Filipino workers, mostly domestic helpers, in the Middle East, including 60,000 in Kuwait and 5,000 in Iraq. Kuwait and Iraq also account for 25 percent of the Philippines' oil supplies.

Sen. Leticia Shahani, Ramos's sister, said Lugar also attempted to explain the U.S. action against Iraq at a breakfast meeting Tuesday with Philippine senators and congressmen at the residence of U.S. Ambassador Nicholas Platt.

Asked what the general feeling was among lawmakers, Shahani said, ''We cannot be as strong in condemning Iraq.''

Lugar declined to answer questions on whether the strategic U.S. military facilities in the Philippines including the sprawling Clark Air Base and Subic Bay naval complex were playing a role in the Persian Gulf conflict.

He said U.S. forces were being shipped to the Gulf from the United States.

Iraq's ambassador to the Philippines, Ali Sumeidi, told a news conference he hoped the Manila government would not allow the United States to use its bases in the southeast Asian nation against Iraq, adding, ''We will defend our territories and our rights against aggression.''

#90226u1043 08/14/1990 ~United Press International

(AUG. 14) UPI - A government report on July retail sales indicates that consumers are beginning to pull the reigns on spending. Retail sales last month inched ahead one-tenth of one percent, to 149 and one-half-BILLION dollars. The gain follows a revised June retail sales advance of one-point-one percent. A government spokesman says an increase in retail sales of building materials, hardware, garden supplies and home furnishings provided the strength behind the July gain.

The State Department says about 500 Americans have managed to get out of Kuwait since the Iraqi invasion. But the Voice of America is broadcasting messages warning some 25-hundred Americans left behind to stay put... at

least for now. The U-S Embassy in Baghdad also reports that the trade embargo is working and food supplies are running out in Iraq. But they say the shortages are affecting some 500 to 600 Americans trapped in the country... just like everybody else.

Iraq reportedly has seized three-BILLION to four-BILLION dollars in gold bullion, cash and other goods from Kuwaiti financial and commercial institutions since taking over the country. A New York report quotes Arab bankers in the Persian Gulf and London as saying the transfer of goods to Baghdad appreciably increased Iraq's reserves, estimated before the Iraqi invasion at six-point-five-BILLION dollars.

The Miami Herald reports that federal prosecutors are preparing a new indictment against ex-Panamanian strongman Manuel Noriega to strengthen drug-trafficking charges already in place. Unidentified sources told the paper that the proposed superseding indictment would add charges based on reports of witnesses who came forward after the U-S invaded Panama last December. Prosecutors refused to comment, and one of Noriega's lawyers said he had NO information on revised charges.

COLOMBO, SRI LANKA (AUG. 14) UPI - Assailants carrying guns, knives and swords attacked an eastern Tamil village about midnight, dragging sleeping residents from their homes and shooting or hacking to death at least 75 people, hospital sources said Tuesday.

The attack was part of a continuing wave of violence against civilians - at least 571 have been killed in the past 12 days - in the teardrop-shaped island at the southern tip of India.

Defense officials officials said rebels of the Liberation Tigers of Tamil Eelam, who have been waging a war of independence from the

Sinhalese-controlled Colombo government, are responsible for the brutal murders. More than 2,500 people have been killed since the rebels began a new offensive June 12.

Most of those shot or hacked to death Monday were were Moslem and Sinhalese Buddhist civilians, defense officials said. The rebels are fighting for a separate country for the Tamil minority, which is mostly Hindu.

Authorities said more than 92 civilians had been slain since Monday night in attacks across the north and east of the country.

Defense officials accused the Tamil Tigers of killing civilians in the east to divert the military's attention from its offensive against rebel strongholds in the north.

The worst incident late Monday took place about midnight when unidentified attackers shot and hacked to death more than 75 Tamil villagers in Chenkaladi, about 16 miles north of Batticaloa.

Details of the attack were sketchy, but hospital sources in Batticaloa said in a telephone interview that a group of men carrying guns, knives and swords entered the village in the middle of the night. They said the attackers dragged the sleeping residents from their homes and shot and hacked to death more than 75 people.

The incident apparently came in retaliation for a Tamil rebel attack before dawn Sunday against three nearby Moslem fishing villages. At least 173 residents were killed in that incident, the worst massacre by the rebels so far.

Some of the wounded in Batticaloa were later taken to hospitals in nearby Eravur and Valachenai, while residents of the predominantly Hindu village sought sanctuary in churches and temples.

''Bodies with cuts and gunshot injuries are lying on the Batticaloa-Eravur main road near the scene of the massacre,'' one hospital source said.

At least 17 other civilians were killed by Tiger rebels in a series of raids Monday and Tuesday against villages in the north and east of the country, military sources said.

The rebels, who have been fighting for an independent Tamil homeland since 1983, say the minority Tamil community needs a separate country because of years of discrimination by the majority Sinhalese.

Authorities say the Tiger rebels apparently are attacking Moslems because they have supported the government's vigorous offensive to crush the

guerrilla movement and restore control over the north and east of the country.

PORTLAND, OR (AUG. 14) UPI - The ''peace dividend'' has vanished because of U.S. military operations in the Middle East, forestalling any deep cuts in the defense budget, Senate Republican leader Robert Dole of Kansas said.

But Dole also said Congress and the public will get increasingly nervous if U.S. troops remain in the Middle East for a lengthy period with no resolution of the Persian Gulf crisis.

Dole spoke Monday night at a $250-a-person fund-raising reception for Sen. Mark Hatfield, R-Ore., who is seeking re-election this fall. Dole also appeared at a breakfast for party VIPs Tuesday.

''The peace dividend is going to go up in smoke, because it's going to cost a lot of money for us to stay over there,'' Dole said.

The Mideast crisis also was on Dole's mind Monday during his brief remarks to about 75 people. He praised President Bush's decision to send troops to Saudi Arabia but said he hopes it doesn't result in a permanent installation of American troops in the region.

''What will it be in 30 days or 60 days or 90 days?'' Dole asked. ''Hopefully, it will be resolved. Our best option is the economic measures. We don't want this to become an occupying force.''

Dole and four other senators visited Iraq in April and met with President Saddam Hussein. Dole said he believes Saddam is not crazy, but ruthless. He has isolated himself and has little perspective on the world outside the Mideast, the senator said.

''It's up to him,'' Dole said. ''He could end it tomorrow or next week, but I don't think he will. It's going to take more economic pressure. It's quite a feat to get the whole world to turn against you, but he's done it.''

#90226u1126 08/14/1990 ~United Press International

PORTLAND, MAINE (AUG. 14) UPI - A marketing group announced Tuesday a number of lobstermen upset about rock-bottom wholesale lobster prices plan to give about 500 pounds of the creatures away free Wednesday to soup kitchens and senior citizen centers.

''Rather than lose money on the lobsters, they thought they would like to spread them around and give them to some people who may not get the chance to enjoy lobster very often,'' said Alan Caron, director of the Maine Lobster Marketing Group.

With an overabundance of supply, lobstermen upset over low prices distributed free in Beverly, Mass., Monday about a ton of lobsters to senior citizens' groups for distribution to the elderly.

''We'd almost rather give them away than sell them for what we're getting '' said Thomas Bartlett, organizer of a boycott during which the lobstermen plan to stay ashore until prices reach at least $2.50 per pound.

Officials said a regional economic slump has resulted in a surplus of lobsters because ''when the economy is poor, people don't eat the luxury foods.''

Prices paid to lobstermen at docks in the Portland area have dropped to around $1.75 to $1.85 per pound, a price so low that more and more lobstermen have been tying up their boats to wait things out. Caron said a similar situation happened at this time last year.

''What they are objecting to is a price so low that they really can't survive,'' Caron said. ''The price is so low that these guys lose money when they climb into their boats in the morning.''

Their problem is created in part by the lobster's shedding process, which happens at around this time each year. When they shed their old shells and develop new ones, lobsters are so weak that they cannot be shipped out of state.

Unable to be shipped, the lobsters pile up and prices plunge, Caron said.

''For about three weeks a year, we have lobsters which shed their shells, and we can't ship them any great distances,'' he said. ''They stay in this market, and Maine people have to consume them.''

Retail prices in the state have dropped to as low as $2.75 per pound, Caron said.

''It's a better bargain than hamburger,'' Caron said. ''People who live out of state simply can't believe the lobster bargains here.''

Last year, lobstermen charged dealers with making unreasonable profits on the lobsters, paying the lobstermen rock-bottom prices for the lobsters while keeping retail prices artificially high.

However, Caron said that lobstermen and dealers this year are in the same

boat.

''We don't have that complaint this year,'' Caron said. ''I think both the dealers and the lobstermen are working right on the edge.''

#90226u1180 08/14/1990 ~United Press International

BEIRUT, LEBANON (AUG. 14) UPI - The Lebanese daily newspaper An-Nahar reported Tuesday that an Arab military force may be deployed around Saudi Arabia's holy shrines to counter Moslem criticism of the presence of Western forces in the kingdom.

Quoting a diplomatic source, An-Nahar said a Syrian-Egyptian-Moroccan military force ''was expected to be deployed around Saudi holy sites to foil attempts by some Islamic quarters inciting religious sensitivities over the foreign military presence in the kingdom.''

Some ranking Moslem figures in Lebanon and Europe have lashed out against the deployment of U.S. and Egyptian troops on Saudi territory, considering the move as an infringement on the holy shrines in the kingdom.

Syria and Morroco have reportedly expressed readiness to dispatch troops to Saudi Arabia to join an international force to face a possible conquest of the kingdom by Iraqi President Saddam Hussein's forces.

A small Egyptian force was reported to have already taken up positions in Saudi Arabia, the world's largest oil producer.

Saddam, whose ruling Baath party advocates a secular socialist ideology, has called upon Moslems worldwide to join in a Jihad, or holy war, against the mainly-Western force in the gulf.

Since Saddam's army invaded Kuwait Aug. 2 and deployed troops along the border with Saudi Arabia, Baghdad radio has broadcast appeals to the Saudi people to topple King Fahd's regime.

#90226u1184 08/14/1990 ~United Press International

BEIJING (AUG. 14) UPI - China ordered the evacuation Tuesday of several thousand Chinese living in Kuwait and demanded that Iraq assure their ''convenient and safe'' repatriation.

The government announcement, broadcast during the state-run national television news, said Beijing's ambassador in Kuwait was making arrangements for citizens' return to China.

''Because of the current situation in Kuwait, these citizens are unable to do their jobs and their lives cannot be guaranteed,'' the announcement said.

The government said it had begun an evacuation of all Chinese in Kuwait, estimating their number at ''several thousand.''

''The Chinese government has demanded that the Iraqi government provide convenient and safe measures to assure that they can depart Kuwait and return home,'' the announcement said.

Most of the Chinese are contract construction workers, but an unknown number of Chinese students also are living in Kuwait.

China's demand that Iraq guarantee a Chinese evacuation from Kuwait suggested that Beijing is standing by the policy of cautious alignment with the West that it has maintained since Iraqi troops overran tiny Kuwait Aug. 2.

Rather than stepping up its already lucrative sales of arms to Baghdad, Beijing announced an immediate suspension of arms shipments and vowed to support the U.N.-led movement to choke off Iraq's oil-driven economy.

Beijing also refrained from its usual strident denunciations of superpower involvement in Third World conflicts, saying instead that Saudi Arabia exercised a sovereign right by allowing Western troops onto its territory to thwart a possible Iraqi invasion.

#90226u1187 08/14/1990 ~United Press International

SIOUX CITY, IA (AUG. 14) UPI - Peace is wonderful but residents of Sioux City are almost ready to go to war over it as the battle continues over the peace pole at City Hall.

The City Council Monday night refused a request from military veterans to remove it.

The 6-foot pole embedded in concrete proclaims ''May Peace Prevail on Earth'' in six languages. It was dedicated Sunday by a peace group called SCANNER to commemorate the 45th anniversary of the dropping of two atomic bombs on Japan at the end of World War II.

Paul Jackson, a spokesman for the veterans, said the pole amounts to an apology for using the atomic bombs on Japan.

He argues the bombs saved the lives of half a million American soldiers and sailors, the same argument used by President Harry Truman when he authorized their use in 1945.

But City Councilman David Paulsrud rebuked the veterans for their behavior during the Sunday pole dedication program, calling them ''an embarrassment'' to the community.

About 30 veterans led by Jackson drowned out speakers, including priests and ministers, and shouted ''Remember Peal Harbor'' to the crowd, which included several Japanese students from Teikyo Westmar University in nearby LeMars.

Jackson said the pole more properly belongs at a church and Mayor Bob Scott conceded that he's not sure City Hall is the proper location for it.

The American Legion may be enlisted to pressure the city to remove the pole, Jackson said.

He says America must be willing to use nuclear weapons again if it means protecting the lives of American soldiers in the Mideast against chemical weapons.

''If we have to use nuclear bombs I am totally in favor of that and I think most veterans are,'' Jackson said.

#90226u1190 08/14/1990 ~United Press International

CANONSBURG, PA (AUG. 14) UPI - A 70-year-old, 10-pound lobster was saved from a supermarket raggle and is safe in the Casco Bay off the Maine Coast thanks to a shopper who took pity on him.

Bonnie Hazen said she saw the 10-pound lobster's ugly face pressed up against the side of a glass tank in a Giant Eagle store and decided to rescue him.

''He looked miserable,'' Hazen said. ''I said, 'this lobster should be in the ocean procreating,' you know, making little lobsters.''

The smaller one- to two-pound lobsters that are normal dinner fare have not yet reached sexual maturity but the shellfish Hazen dubbed ''Larry'' was ''in his prime,'' she said.

Hazen negotiated with store officials to release Larry to her custody after talking with the Jacques Cousteau Society, which promised to have the Marine Animal Coalition take him out to sea if Hazen could get the crustacean to Portland.

Hazen hooked up with Toni Leone, a Canonsburg native who was back in town for a funeral and agreed to escort the lobster back to Maine.

''I made her promise that she would not eat him,'' Hazen said. ''You know, there are a lot of crackpots out there.''

Leone, an animal lover and dog trainer by profession, gave her word for safe passage.

''Somebody like that, you have to respect,'' she said of Larry. ''If he has made it this long in the water - 70 to 100 years - he deserves to go back.''

Giant Eagle put Larry in a plastic foam container packed with ice and

draped lettuce leaves over him for the flight. USAir provided a free first-class seat to Portland.

The 16-inch-long lobster was dropped in the bay Sunday by the Maine Marine Patrol. He is considered safe from future catches because he is above the maximum legal size.

Giant Eagle, which had planned to auction and boil Larry in hot water, will not be using giant lobsters for future promotional sideshows.

''Evidently, there is a sensitivity we did not recognize,'' said Joseph Faccenda, senior vice president for merchandising.

#90226u1192 08/14/1990 ~United Press International

DETROIT (AUG. 14) UPI - Fourteen-year-old Collin Boatright became a national hero five years ago after rescuing an 11-year-old neighbor from a rapist, earning a telephone call from President Ronald Reagan.

Now 19, unemployed and a high school dropout, Boatright says his life has been on a downward spiral ever since, culminating recently when he was shot in the chest.

''Life has been hell since I became a hero,'' Boatright said. ''Other kids treat me differently, like dirt. They want me to fight when I don't want to fight,'' he said Monday.

''It's hell because nothing is going my way,'' he said during an interview with the Detroit News at his aunt's home. ''Every time I try to do something, nothing works out.''

Boatright was to undergo surgery Tuesday to remove a bullet lodged in his chest. He said he was wounded Aug. 4 when he was shot by his girlfriend's ex-boyfriend. He was allowed to recuperate at home pending surgery to remove the bullet, lodged two inches from his spine.

''I was lucky,'' he said. ''About as lucky as I was when I chased that guy five years ago and he didn't swat me.''

As a seventh-grader on Feb. 24, 1985, Boatright's life changed dramatically as he delivered newspapers to his 40 customers. As he passed an abandoned house, he heard a girl crying from an upper floor. He ran across the street and asked a woman to call the police. The woman gave him a large stick about the size of a baseball bat.

The next few moments still haunt the young man.

''Sometimes, when I'm about to fall asleep at night, I'll find myself on the stairway and see that guy coming down,'' he said. ''I watch myself jump off the porch as he comes outside, pulling up his pants, and I hear myself screaming at him and following him and waving that big stick until the cops come.''

Neighbors who witnessed Boatright's daring act praised the 5-foot, 130-pound youth for standing up to the 6-foot-2, 220-pound man. The man was arrested, convicted and sent to prison.

Boatright received the Badge of Courage, a $500 U.S. Savings Bond, a plaque from the Michigan Association of Police, a resolution recognizing his bravery from the Detroit City Council and a proclamation from Wayne County.

But he soon became the target of taunts by schoolmates who sarcastically called him ''my hero,'' he said. Often the result was fistfights and he was expelled from school for excessive fighting. He joined the Job Corps in Illinois, then returned to Detroit and a succession of low-paying jobs.

After his surgery, he said he wants a ''normal life, a normal job, a normal car and my own normal home. If I can ever get a solid job, I'll be straight.''

-30- 2870

#90226u1195 08/14/1990 ~United Press International

(AUG. 15) UPI - In a repeat performance of the summer ''repeat wars,'' NBC's ''Cheers'' and CBS's ''60 Minutes'' once again commanded the top two spots in the ratings, it was reported Tuesday.

NBC had a slight edge with the most shows in the top 10 of the weekly Nielsen ratings - four - followed by CBS with three and ABC with two. Fox had one with the ''The Simpsons'' in 10th place.

NBC's ''Unsolved Mysteries'' was alone at No. 3 this week, compared with its five-way tie for third place in the previous ratings period. The show posted 14 rating and a 28 share, its best showing since the week of June 6 when it posted a 29 share.

Three-way ties surfaced for fourth and seventh places - with shows from three different network in those slots. In fourth place were NBC's ''Empty Nest,'' CBS's ''Murphy Brown'' and ABC's ''Roseanne.''

In seventh place were NBC's ''A Different World,'' CBS's ''Designing Women'' and ABC's ''America's Funniest Home Videos.''

In the weekly network competition, it was NBC in first place with a 9.6

rating and an 18 share, ABC in second with a 9.3 rating and an 18 share and CBS in third with a 9.2 rating and a 17 share.

The night-by-night race showed NBC capturing Tuesday, Wednesday, Thursday and Saturday nights. CBS won Monday and Sunday nights and ABC won Friday.

Fox's ''Married...With Children'' dropped to an 11th-place tie with NBC's ''Golden Girls,'' compared with its five-way tie for third place in the previous ratings period.

Missing again from the top 10 was NBC's ''Cosby Show,'' in 13th place, down from its tie for 11th place a week ago.

''Real Life with Jane Pauley'' and ''Face to Face with Connie Chung'' had their own face-off and an interesting tie for 23rd place, along with an original broadcast of NBC's TV movie ''Hiroshima, Out of the Ashes,'' which was the top-rated television movie for the week.

CBS took the Sunday night movie race, with ''Escape from Sorbibor'' in 26th place. The James Bond movie on ABC, ''For Your Eyes Only,'' tied for 27th place with ABC's Aug. 10 premiere of ''New Attitude.'' Part one of the miniseries ''The Two Mrs. Grenvilles'' on NBC was in 57th place.

The new ABC comedy series ''New Attitude'' tied for 27th place with the ABC Sunday night movie when it premiered Aug. 10 in its regular time period at 9:30 p.m. Ironically, a Aug. 8 special broadcast to introduce the series finished in 52nd place.

ABC's ''World News Tonight'' rolled over the competition in the weekly news standings with a 10.6 rating and a 22 share, outpacing ''The CBS Evening News'' with Dan Rather with a 9.8 rating and a 19 share, and ''NBC Nightly News'' with Tom Brokaw with an 8.9 rating and a 19 share.

The three major networks' combined share in news, however - 60 - was the highest since the week of Jan. 1.

In the 47-week season-to-date competition, NBC has a 13.1 rating and a 23 share, followed by ABC with an 11.8 rating and a 20 share, and CBS with an 11.2 rating and a 19 share.

Each ratings point represents about 921,000 households. A share is the percentage of TV sets in use that are tuned to a particular show or network.

The top programs for the week ending Sunday, Aug. 12, according to the A.C. Nielsen Co., were:

1. Cheers (NBC)

2. 60 Minutes (CBS)
3. Unsolved Mysteries (NBC)
4. (tie) Empty Nest (NBC)
   Murphy Brown (CBS)
   Roseanne (ABC)
7. (tie) Different World (NBC)
   Designing Women (CBS)
   America's Funniest Home Videos (ABC)
10. The Simpsons (Fox)

#90226u1201 08/14/1990 ~United Press International
(AUG. 14) UPI - Iraq's invasion of Kuwait may strike deep into the heart of the U-S economy. A new Wall Street Journal poll says that in light of the Middle East crisis, many economists say the United States probably is headed for significantly higher unemployment and little or NO economic growth. The gloomy outlook is a startling swing from a survey just two months ago in which 35 of 40 economists polled predicted the economy would continue to expand for at least another year.

The Texas Civil Liberties Union wants a state prison board vice chairman and a human services board member to resign for joining an ''inmate hunt'' dog training exercise last year. Board of Justice member Jerry Hodge says he saw nothing wrong in participating in the hunt, but it probably was in bad taste to have jackets made that read, ''The Ultimate Hunt.'' Prison officials say the inmates are all volunteers and have long been used to train tracking dogs.

A group of South Korean dissidents were barred from the truce village of Panmunjom today for private contacts with North Koreans. Police arrested four dissidents when they entered the U-S Military Command with a letter demanding that the village be opened for visits. Dissidents vow to try again tomorrow to reach the village, 35 miles north of Seoul, to join North Koreans marking the 45th anniversary of Korean liberation from Japanese colonial rule.

#90226u1203 08/14/1990 ~United Press International
(AUG. 14) UPI - The Commerce Department reports a strong showing for retail sales in July. It says sales edged up one-tenth of a percent last month, a rise attributed to the strength of building materials, home furnishings and mobile homes. The small gain follows a revised one-point-one increase in June.

The New York Times says Iraq has from three-BILLION to four-BILLION dollars in cash, gold bullion and military and civilian goods taken from

Kuwaiti financial institutions since the invasion of Kuwait. The paper quotes Arab bankers as saying the transfer of goods significantly increases Iraqi financial reserves. The reserves were about six and one-half-BILLION dollars before the invasion two weeks ago.

Tokyo's foreign ministry says President Bush asked Japan to step up economic assistance to Persian Gulf nations hurt by sanctions against Iraq. Foreign ministry officials say Japanese Prime Minister Kaifu promised to study measures to aid those Middle East nations and do whatever he can.

A published report in Paris says the French government gave the United States vital classified data about French-made weapons in the Iraqi arsenal. A report quotes unnamed sources as saying the information may provide a significant advantage to Western forces trying to neutralize Iraqi leader Saddam Hussein's military moves.

Federal prosecutors reportedly are preparing new charges against Manuel Noriega to strengthen their cocaine-trafficking case against the ousted Panamanian leader. A published report quotes unidentified sources as saying the new indictment would add charges based on the testimony of witnesses who have come forward since Noreiga was toppled in December.

#90226u1393 08/14/1990 ~United Press International

(AUG. 14) UPI - Jordan's King Hussein may take center stage to mediate the Middle East crisis. Hussein already is on his way to Washington after setting a special meeting with President Bush. White House spokesman Marlin Fitzwater says Hussein's request came after the Arab leader... who has openly supported Iraq... met with Iraqi President Saddam Hussein in Baghdad yesterday. Jordanian sources say the king might be carrying a new Iraqi proposal aimed at ending the Persian Gulf showdown.

The U-N appears to be on unsteady ground when it comes to supporting the U-S-British decision to use force... if necessary... to stop cargo ships travelling to or from Iraq. U-N sources say few nations approve of the controversial move to enforce the ordered trade embargo. France said today its ships would NOT seize Iraqi vessels because such a move would constitute an act of war.

Robert Dole says Americans wondering where the peace dividend stands should know that it just left... for the Middle East. The Senate

Republican leader from Kansas says any defense money saved from the end of the Cold War is being sunk into America's new Middle East military presence. Dole says Congress will NO doubt get increasingly antsy about paying for the Persian Gulf operation if it drags out much longer.

Two military aircraft collided off the east coast of Britain today. The Civil Aviation Authority in London says one of the planes was a Royal Air Force Tornado fighter jet on a routine training mission from a base in West Germany and the other one also is believed to have been British. Two men rescued at the scene were flown by helicopter to a nearby hospital.

#90226u1407 08/14/1990 ~United Press International

(AUG. 14) UPI - White protesters rioted for a second night in Quebec against an Indian blockade of a bridge near Montreal. The blockade is set up in sympathy with nearby Mohawks fighting a proposed golf course expansion on what they claim is Indian ground. Talks to resolve the dispute won't begin until international observers arrive.

Five-thousand East German farmers demonstrated today in front of West Berlin's Reichstag to protest what they charge are low subsidies for East Germany's agricultural sector. Union leaders said the East German government has brought the economy to near ruin. Farmers face record surpluses.

Some analysts are praising the resilience of the economy after a government report today showing retail sales up for the second straight month. Sales inched up one-tenth of one percent in July. That follows a surprise revision for June to a one-point-one percent increase... despite signs of a recession.

Police near Fort Lauderdale, Florida, say a 17-year-old boy has been charged with murder after accidentally shooting a pregant 12-year- ld whose unborn baby died. Detectives say the suspect yesterday ''playfully'' threatened the girl to give him five cents... and the gun ''n

A lobster marketing group announced today that lobster trappers upset about rock-bottom wholesale lobster prices plan to give about 500 pounds of the creatures away free to soup kitchens and senior citizen centers. The Maine Lobster Marketing Group says the move proves that trappers would rather give their catch away rather than sell them at such lousy prices.

#90226u1506 08/14/1990 ~United Press International
SANTO DOMINGO, Dominican Republic (AUG. 14) UPI - A 48-hour general strike that has paralyzed the Dominican Republic and cost at least four lives may be extended if the government fails to stop violence against protesters, the organizing comittee said Tuesday.

''So far, four deaths have been provoked by bullets of the national army '' said Mariano Negron, a spokesman for the strike's organizing committee. All four killed were students of 18 years old or under.

Police said that at least 10 people have been wounded, including one striker identified only as Ruben. ''There are other wounded, but we don't have their names,'' police said.

Negron said demonstrators have maintained a peaceful strike, but claimed

newly re-elected President Joaquin Balaguer has acted in a repressive manner.

The strike - called to protest the government's so-called Economic Solidarity Pact and price increases for basic goods - has virtually paralyzed commercial activity in the capital and other major cities.

The island has been plagued with looting since Monday when the strike began, as people cleaned-out grocery stores and businesses.

''If this situation continues, this successful strike could become radical and could be extended,'' the strike organizing committee said in a written statement.

Balaguer, who will start his second consecutive four-year term on Thursday had warned the army would be called out to quell any violence during the strike, which organizers said was planned as a peaceful protest.

The strike organizing comittee called on the government to set free all protesters who have been detained by authorities during the strike. Police and the strike organizing committee said over 1,000 people have been arrested, mostly in the capital and other major cities.

Demands of the strikers include a 150 percent wage hike for workers and a monthly salary for professionals of at least 5,000 pesos, equivalent to $475. Professionals now make about $200 a month in Dominican Republic.

Last week, Balaguer increased prices for basic goods. He also raised wages by 30 percent for public employees, who were getting an average of $60 a month.

Juan Jose Arteaga, an advisor to Balaguer, said that the economic measures will be maintained.

''The economic adjustments made by the government will not change despite the strike,'' Arteaga said.

In major cities on Monday, security forces clashed with demonstrators protesting the new economic measures. Youths burned tires in the capital, where the streets were littered with stones and garbage thrown by protesters. Several homemade bombs could also be heard exploding.

Government officials have said the strike was politically motivated and that economic measures - which include increases in the price of gasoline, flour and sugar - are irreversible.

The strike is backed by the Dominican Republic's nine union organizations as well as former President Juan Bosch's Dominican Liberation Party and

the Dominican Revolutionary Party, led by Jose Francisco Pena Gomez.

#90226u1515 08/14/1990 ~United Press International

A BASE IN SAUDI ARABIA (AUG. 14) UPI - A 26-year-old Saudi sergeant had this advice for his new American allies: ''Keep the flaps of your tent open.''

''God willing, they will get used to the heat soon,'' said the stocky sergeant, sweat running down his face into a thick black beard.

He and his men stood outside a cloth tent, white on the outside and a festive yellow inside. They slept on colorful woven rugs and made strong coffee in silver-colored pots.

About 50 yards away on the Persian Gulf, American soldiers from the 82nd Airborne had their own tent. The soldiers from both sides were guarding a Saudi naval base.

In other parts of the country, the soldiers from the two armies were separated but here on the coast they began combined operations Tuesday.

''This is the first day and we are getting to know each other,'' the Saudi sergeant said, speaking through an interpreter.

The American platoon was getting to know both the Saudis and what it was like to live in the desert.

''They could put us up in air-conditioned buldings,'' said the platoon's medic, a 24-year-old from Hollywood, Fla. ''But then if we have to fight people used to this we're not going to last very long.''

The medic said his biggest problem is the gung-ho types in his platoon.

''We've got some pretty hard-charging studs here,' he said. ''They push pretty hard. But that's their job. They're mavericks.''

He said a number of the men sufferd from the heat by not drinking enough water and not eating as they should.

''I'm like their mother,'' he said. ''It's my job to see that they eat and if you see a guy with two full canteens you know he's not drinking.''

Temperatures were well above 100 degrees by mid-afternoon and U.S. troops are being told to drink at least six gallons of water a day.

The medic said he had treated many troops with intravenous injections of a nutrient-ladden fluid. Symptoms of heat exhaustion, he said, are headaches and blurred vision.

The Saudis, accustomed to living in the desert, had the more comfortable looking of the two tents. The Americans simply had their gear strewn on the sand inside.

Between the tents was an area flanked by buried wooden packing crates with two 25-foot pieces of canvas inside. The Saudis asked the Americans not to step there because that is where they face Mecca and pray five times a day.

''Some of us speak a little English. Or we use Arabic, but mostly it's sign language. We talk about whatever comes to mind,'' the Saudi sergeant said.

''The Americans are good soldiers,'' he said. Asked if the Americans are also good people, the Saudi replied. ''So far so good. We are still getting to know them.''

The sergeant, married with three children, said his family is worried about him being so close to the border with Kuwait. ''It is natural for relatives to be afraid, but it is my job,'' he said.

The Saudi government worried about its soldiers having contact with the Americans, fearing exposure to American values and customs would weaken the Saudi's strict Islamic code.

The Americans were briefed by their commanders and told to be extra sensitive not to offend their hosts, whose customs are quite different. Soldiers, for example, were told not to show the soles of their feet because it is regarded as an insult here.

''We worry about drugs and alcohol and there is none here,'' said a Saudi military official. ''We don't care if you eat with your left hand. If you

asked, 'Why do you keep your women locked in the house?'' then we might be offended,'' he said.

An American crewman of a Blackhawk helicopter pointed to his chest and asked another Saudi official, Abndel Al-Jubeir, ''What do the Saudi Arabians think about us being here?''

Al-Jubneir replied, ''They were calling our government and saying ''Why don't you let the Americans in? Who gives a damn about the Arab opinion?''

#90226u1568 08/14/1990 ~United Press International

AMMAN, JORDAN (AUG. 14) UPI - Jordan Tuesday stepped up military preparedness in the capital, dividing Amman into tiny civil defense zones and hastening the training of civilians in use of weapons.

The government also announced Tuesday that it had manufactured gas masks, which will be sold as soon as the masks are fully tested.

As King Hussein set off for the United States Tuesday in an attempt to mediate between Baghdad and Washington, there were reports the government would soon ask the United Nations Security Council to exempt Jordan from U.N. trade sanctions against Iraq or at least to lighten Jordan's responsibility with respect to the sanctions.

A cut in trade with Baghdad would seriously impair the Jordanian economy, which is already in the deepest economic crisis in its history. Fully 90 percent of Jordan's oil imports are from Iraq, and 50 percent of total exports go to Iraq.

''Jordan is not defying the international order,'' Information Minister Ibrahim Ezzidin said Tuesday. ''We respect and adhere to U.N. resolutions, but we are ... looking into means and ways of imposing the sanctions without being hurt,'' he said.

''The international community has not assessed the impact of this step ... on Jordan,'' a Jordanian economist in Amman said Tuesday. ''Jordan has already started to feel the impact of imposing sanctions against Iraq on its own economy.''

Col. Afif al-Ghoul, head of the Jordan's civil defense department, said that citizens have been urged to build bomb shelters that the army has trained 17,000 civilians in the use of ''modern arms and weapons'' and was planning to train many more.

The capital, has been divided into 20 civil defense zones, al-Ghoul said. These zones and each Jordanian village will soon open centers to train

Jordanians in civil defense and first aid, he said.

Al-Ghoul appealed to Jordanians not to hoard food, saying the government had stockpiled sufficient supplies. He also asked them to conserve water.

Well-attended rallies in support of Iraq took place along the length and breadth of the nation Tuesday.

Many ordinary Jordanians said Tuesday they feel that war is coming - if not against Jordan, then affecting Jordan as a result of international military action against Iraq. Throughout the day, Jordan Radio broadcast national and patriotic songs.

Border officials said more than 200 foreigners had entered Jordan across the Iraqi border Tuesday. No Americans were reported among them. The officials said thousands of people are on the Iraqi side waiting to cross.

Over the past two days, 45 Yugoslavs, 350 Jordanians, 490 Egyptians, 293 Yemenis, 41 Sudanese, 140 Lebanese, 4 Syrians, 6 Somalians, 1 Algerian, 14 Pakistanis, 7 Indians, 89 Saudis, 92 Philipines, 56 Thai, 15 Czeckoslovakians, 2 Omanis, 1 Afghani, 1 Tunisian and 10 Turks arrived from Iraq, border officials told UPI.

Food shipments from Jordan to Iraq, where supplies are said to be running short, reportedly have increased significantly in recent days, although government sources will not confirm this.

An eyewitness at the border city of Ruweished said he has watched commercial trucks and oil trucks crossing the border in both directions about every five minutes. Border officials described this as normal commercial traffic.

Deterioration in business and trade as a result of sanctions is already felt in Jordan, especially at the port of Aqaba, an Aqaba businessman told UPI. He said ship operators appear to be afraid to dock, worrying they might be stuck in port or affected by instability in the region.

Unemployment in Jordan is 16 percent, and a Jordanian economist projects that the unemployment rate jump another 12.5 percent if Jordan observes the U.N. sanctions.

More than 300,000 Jordanians work outside the country in gulf nations, and panic in the government was clearly observable when Saudi King Fahd sent a message to Jordan's King Hussein threatening to deport Jordanians.

#90226u1573 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Even when they're out in the broiling heat of the Saudi Arabian desert the Army has square meals for the troops, albeit tinned food that has a three-year shelf life.

Although the Pentagon will not disclose how many troops are being dispatched to the Middle Eastern nation to help protect against any Iraqi move, in a typical military exercise individual units send out one mobile field kitchen for every 300 soldiers.

A spokeswoman for the Army Logistics Center at Fort Lee, Va., said in an interview that troops also are equipped with reverse osmosis water purification bladders that can turn out up to 3,000 gallons per hour of fresh water from stocks of salt water or brackish water. The gear will supplement supplies drawn from the Saudis.

In the arid Saudi interior the Army is recommending that soldiers drink six gallons of water a day to avoid dehydration, replacing what they sweat away and what is lost by hot dry air sapping water from the body through the lungs.

And officials estimate that overall they must produce 20 gallons a day per soldier, with the rest used in cooking, personal hygiene, washing clothes and simply being poured over the head to cool off.

Commanders try to keep the mobile kitchens as close as possible to the troops, and if troops cannot hike in for meals, the food is packed into insulated containers and taken out by pickup truck to the troops.

And when even that is impossible, said center spokeswoman Joy Whitmore, the soldiers can reach into their packs and pull out the newest in field rations, the ''meal, ready-to-eat.'' The MRE is a vacuum packed meal with an entre, dessert, assorted condiments and the like. They are high in calories - 3,600 per package - to provide culinary fuel for a soldier in battle, and can be warmed in hot water to make them tastier. But a steady diet of the MREs can tax the taste buds.

The food packs also have brand name candy snacks, peanut butter and crackers and cheese spread and crackers, drink mixes, instant coffee and matches.

Soldiers are sent into the field with three days of MRE meals tucked in their packs, with the heavier hot food service following behind in early supply shipments.

''The basic scenario is the soldier is given MREs until the rest of the T-rations and everything else catches up,'' said Whitmore.

The tins of cooked food, which are reheated in water in the field kitchens

have a variety of meals such as chicken cacciatori and beef tips with gravy and barbecue. Other tins provide potatoes, rice or macaroni, and still more offer various vegetables. Those meals, known as T-rations, can be kept on the shelf up to three years and a heated but unopened tin can be reheated safely once.

When fresh food can be shipped in or bought from the local economy, the Army bills the meals as A-rations. And the kitchens also can serve up what are known as B-rations, canned items and dehydrated food that can be reconstituted and dished out.

Typically, the military stockpiles equipment, including food, on ships and in depots near potential hot spots. Much of the initial foodstuffs for the troops is expected to come from stores on the Indian Ocean island of Diego Garcia and supply ships permanently stationed in the region.

The field kitchens are in fact trailers that fold up and can be towed behind a 2 1/2-ton or 5-ton truck.

When unfolded and set up, four cooks and a supervisor warm and serve the food, with soldiers walking around the exterior on a horseshoe-shaped catwalk picking up disposable utensils, a plate of food and grabbing a cup of chocolate or white milk that does not need refrigeration, or coffee or tea.

CAIRO, EGYPT (AUG. 14) UPI - U.S. officials in Arab countries are trying to calm the fears of American workers worried about possible Iraqi chemical attacks should the Persian Gulf crisis take a turn for the worse, diplomats in the region said Tuesday.

U.S. missions in Saudi Arabia, Bahrain, the United Arab Emirates and Qatar have set up hotlines and given pep talks to ease the tension.

American consular officers have also activated ''word networks'' to let U.S. nationals have reliable news in case of evacuation.

''Our concern is more with preventing panic because of a lack of information,'' one Gulf-based U.S. envoy told United Press International in a telephone interview.

He said local English-language media had for the most part failed to mention Iraq's Aug. 2 invasion of Kuwait until four days after it had taken place, prompting Americans to flood U.S. missions with calls seeking reliable information.

''One of the things many people were concerned about were reports that Iraq was preparing to use chemical weapons,'' the envoy said.

Americans in Saudi Arabia, where some 28,000 U.S. civilians work, said U.S. consular officials informed them the danger from Iraqi chemical weapons was not as great as it was being made out to be.

Kleiner said he heard rumors that Iraq planned to use a jelly-like chemical weapon to cover Saudi oil fields, including Aramco's Dahram oil-town compound, which is home to some 5,000 Americans in a vulnerable eastern Saudi province.

''They told us Iraq's ability to deliver chemical weapons was crude ... and that it was unlikely that Riyadh would get gassed tomorrow,'' said banker Jim Kleiner, 29, from New York.

But Kleiner said he felt reassured when U.S. Embassy staff told him such a possibility was too remote to worry about.

''I called the 24-hour hotline and they told me this was very unlikely, so I felt relieved,'' he said. ''They also said for Iraq to use chemicals against Saudi Arabia didn't make sense because it was mostly desert and Riyadh for example was built on a plateau and had good air circulation.''

Other Americans said they were told Iraqis had in the past delivered chemical weapons either in artillery shells or by plane.

U.S. sources said Iraqi artillery gunners would have to comes to the gates of Riyadh to fire such shells, and any airborne attempt would be stopped by Saudi and U.S. jets.

U.S. diplomats in Jeddah said American citizens had requested gas masks, but were told these would not be effective. Only body suits could fully protect humans, the officials said, because the type of chemical weapons Iraq would probably use, and had used in the Iran-Iraq war, could infiltrate the skin.

''Lack of knowledge fueled panic and prompted many people to want to leave

'' said one U.S. consular official in the region. ''We have calmed people down and local press reports are starting to print things factually, allowing folks to make rational decisions.''

The U.S. State Department has advised people to defer travel to Saudi Arabia's oil-rich Eastern province, home to 12,000 U.S. oil workers, as well as Bahrain, Qatar and the United Arab Emirates until further notice.

U.S. officials in the region said they had made a number of contingency plans in case evacuation of Americans was necessary, ''but the evacuation plans are being kept in the safe until they are needed.''

American workers in the United Arab Emirates also said they received pep talks from U.S. consular officials.

''We gathered at the Intercontinental Hotel and a guy from the (U.S.) consulate warned us that the Iraqis might resort to chemical weapons,'' said Mary Kopieski, 38, a U.S. lecturer from Boston at one of the United Arab Emirates' universities.

''He said it was unlikely any Iraqi missiles, however, would reach the UAE because they have a range of about 300 miles and we're 700 miles away from the northern Gulf,'' Kopieski said.

She said the evacuation scenario in place involved voluntary evacuation. But if the situation deteriorated it would require the removal of all dependents, then the evacuation of all personnel by civilian aircraft and a military evacuation as a last resort.

''We don't have much faith in an American evacuation though,'' she said. ''If things got bad, I'd head straight for (neighboring) Oman in my car.''

NEW YORK (AUG. 14) UPI - Stephen F. Bollenbach will join the Trump Organization as chief financial officer and give up his posts as senior vice president and chief financial officer of Promus Cos., developer and casino owner Donald Trump said Tuesday.

Bollenbach has worked for Promus and its predecessor, Holiday Corp., since 1986, during which the hospitality company went through two leveraged recapitalizations and sold the Holiday Inns hotel business to Bass PLC, according to Trump.

Bollenbach's previous experience also includes four years dealing with finance matters at another hospitality company, Marriott Corp.

Trump, contending both the United States and in particular the Northeast are in an economic recession, said: ''In this time of financial chaos in the world markets, it is great to have a man of the caliber of Steve Bollenbach on board.''

NEW YORK - Two senior executives will take over management of Goldman, Sachs & Co. from John L. Weinberg with Weinberg's retirement Nov. 30, the investment bank and brokerage firm announced Tuesday.

Weinberg, who will give up the post of senior partner and chairman of the firm's management committee that he held since 1976, will continue as senior chairman, responsible for various client relationships and other activities. He joined the firm in 1950 and became partner in 1956.

Robert E. Rubin and Stephen Friedman, who have served as co-vice chairmen of the management committee for three years, will move up to senior partners and co-chairman of the management committee.

Rubin became a Goldman Sachs partner in 1971 and has held a seat on the management committee since 1980. Friedman was made a partner in 1973 and gained membership on the committee in 1982.

Both men are 24-year veterans of Goldman Sachs. Before becoming co-vice chairmen of the management committee, they worked together from 1985 to 1988 running the firm's fixed-income division.

BIRMINGHAM, MI - William H. Oberlin has been appointed ALC Communications Corp.'s chief operating officer, the company said Tuesday.

Oberlin moves up from the post of executive vice president of sales and marketing for ALC Communications, parent of Allnet Communication Services Inc., a provider of long-distance telephone service.

In Oberlin's new post, he will continue to oversee the company's sales and marketing and become responsible for operations functions like management

information systems, network planning, engineering and billing.

Oberlin has worked for more than 23 years in telecommunications sales and marketing.

LOS ANGELES - J.P. Morgan & Co. said Tuesday that Owen H. Harper has been named managing direcir of Morgan Guaranty Trust Co. of New York, the firm's principal banking subsidiary.

Harper, 52, will be responsible for developing client relationships for J.P. Morgan's California private banking group, splitting his time between offices in Los Angeles and San Francisco.

He brings 30 years of financial services experience to his new job, including holding down executive vice president and other positions at Crocker National Bank in California.

#90226u1673 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Banks will have to pay an additional $1 billion a year to bolster the fund the government uses to guarantee deposits of failed banks under a proposal introduced Tuesday.

The Federal Deposit Insurance Corp. - the government agency that pays depositors when banks fail - approved a 30-day comment period on a proposed rule that would boost to 19.5 cents per $100 the amount banks pay for deposit insurance next year.

Banks currently pay 12 cents for every $100 worth of deposits and were scheduled by law to pay 15 cents per $100 next year.

The 4.5-cent increase is the largest ever proposed by the FDIC, said L. William Seidman, the agency's chairman. The new rates represent a 65 percent increase from the current rate.

Seidman said the increase is needed to bolster the sagging Bank Insurance Fund, which has lost $5 billion during the past two consecutive years and is headed for another loss, estimated at about $2 billion, this year.

''We're increasing the cost of deposit insurance to banks to meet a problem we're having, namely the declining level of the fund,'' Seidman said after a meeting of the FDIC's board.

''Clearly, what we're trying to do is assure our fund moves back to its required level of $1.25 per $100,'' Seidman said.

With the anticipated loss of $2 billion this year, the insurance fund will

have only $11 billion, or enough to cover 60 cents of every $100 in federally insured banks.

The FDIC, which guarantees accounts of up to $100,000, said the proposed increase should have a ''minimal impact'' on current banking industry capital levels.

An FDIC analysis of the increase said that rates paid on deposits would fall by 4.5 cents per $100 - or $4.50 on a one-year deposit of $10,000 - if banks pass along to depositors the full amount of the premium increase.

''The impact on industry income for 1991 and beyond is harder to evaluate '' the analysis said.

Bankers had mixed reactions to the proposed increase.

''If (Seidman) were a judge I'd say he gave us the maximum sentence,'' one observer said after the meeting.

Virginia Dean, a spokeswoman for the American Bankers Association, agreed the proposed increase will be tough on banks, but added that the banking industry ''has the capacity and the willingness'' to pay the higher rate.

Dean also said the proposed increase underscores the need for deposit insurance reform, which is now under review by a number of federal agencies.

''You can't just endlessly increase insurance premiums without change,'' she said.

#90226u1679 08/14/1990 ~United Press International

LOS ANGELES (AUG. 14) UPI - Jurors heard opening statements Tuesday in television actor Todd Bridges's second trial on charges that he shot a drug dealer inside a cocaine rock house.

Deputy District Attorney William Hodgman told the Superior Court panel that evidence will prove that Bridges shot Texas drug dealer Kenneth ''Tex'' Clay eight times in February 1989.

But defense attorney Johnnie Cochran argued that after the jurors consider all the evidence, they will acquit Bridges, 24, of a single count of assault with a deadly weapon in the attack inside a house used to sell rock cocaine.

Jurors at Bridges' first trial last November deadlocked 8-4 in favor of acquittal, forcing a mistrial.

The same jury acquitted Bridges, the star of such cancelled television sitcoms as ''Diff'rent Strokes'' and ''Fish,'' of more serious charges of attempted murder and attempted voluntary manslaughter.

The retrial on the deadlocked assault charge is expected to last several weeks. If convicted, Bridges could be sentenced to up to four years in state prison.

The actor testified at the earlier trial he was so intoxicated after a four-day cocaine binge he did not remember shooting Clay, who survived the attack.

Bridges said that after ''Diff'rent Strokes'' went off the air in 1986, his life took a downward turn. He said he was unable to find work, lost $1.5 million to embezzlers, became suicidal and eventually started smoking or ''freebasing'' cocaine every day.

Harvey Duckett, who was with Bridges at the scene of the shooting, pleaded no contest to being an accomplice and testified against Bridges at the first trial.

Bridges claimed after his first trial that he was off drugs and wanted to become an anti-drug crusader, but last May he and another man, Stephen Mallen, were stopped by police who said they found 48 grams of cocaine in the actor's car.

The District Attorney's Office, however, declined to file cocaine charges against Bridges, saying there was insufficient evidence to prove he was in possession of the drugs. Mallen was charged with possessing the cocaine.

Bridges is free on $25,000 bail in the assault case.

#90226u1696 08/14/1990 ~United Press International

HOLLYWOOD (AUG. 14) UPI - Moviegoers have shelled out more than $3 billion so far this year at the domestic box office, just 2 percent behind the record-setting pace set last year, when the final tally topped $5 billion.

With the surprise hits ''Ghost'' and ''Die Hard 2'' leading the way this summer, the year-to-date box office total hit $3.08 billion over the weekend, compared to $3.14 billion for the same period last year. In 1988, the total at this point in the year had reached $2.78 billion.

The top 10 movies of the weekend, led by the life-after-death drama ''Flatliners,'' amassed an impressive $58 million, off 5 percent from the previous weekend's $61.1 million, but just 1 percent off the $58.9 million scored by the top 10 a year ago.

For the week, the total domestic box office reached $139 million, up from $127.2 million for the year-ago week. In 1988, the same week produced ticket sales of $108.9 million.

During the weekend, ''Die Hard 2'' became the sixth 1990 release to top the $100 million mark. The Fox release has now drawn $101.2 million in six weeks.

Paramount's ''Ghost'' will undoubtedly cross the $100 million level before the end of the month, having taken in $85.4 million in just 31 days.

Disney's ''Pretty Woman'' led all films this year with a gross of $165.8 million in 21 weeks of release, followed by New Line's ''Teenage Mutant Ninja Turtles,'' at $132.2 million in 20 weeks.

Paramount's ''Hunt for Red October'' has taken in $120.2 million in 24 weeks; Carolco's ''Total Recall'' is the top summer release with $114.1 million in 11 weeks, and Disney's ''Dick Tracy'' has pulled in $102.4 million in nine weeks.

#90226u1783 08/14/1990 ~United Press International
(AUG. 14) UPI - With flames tapering off, attention was focused Tuesday on assessing the devastation wrought by wildfires across the West, including Yosemite National Park in California, where squirrels deprived of picnickers' leftovers have grown ornery.

The wildfires, a majority of which were sparked by lightning strikes last week, have ravaged more than 400,000 acres in seven states.

But a break in the weather that brought cooler temperatures and higher humidity levels earlier this week provided firefighters with the edge they needed to overcome the spreading fires.

In Yosemite, three fires were still burning across more than 22,000 acres Tuesday.

However, officials were already beginning to focus on reopening the park to tourists. The closure of the park was the first ever in Yosemite's 100-year history. But there also concerns about a possible toxic threat posed by damaged electrical transformers, as well as packs of testy squirrels, racoons and other wildlife.

Of the three major fires, the 4,000-acre so-called Steamboat fire was 60 percent contained by Tuesday morning, while the largest blaze, the A Rock fire, had grown to 17,000 acres, mainly because of backfires set by

firefighters. It was 45 percent contained.

The third fire, the much smaller TG-4 blaze at 625 acres, was 30 percent contained and no longer posed a threat to Yosemite West, a community in the park, allowing residents evacuated to begin returning Tuesday.

Officials planned to hold a ''re-evaluation'' meeting Wednesday evening about plans to re-open the park, where more than 10,000 campers and tourists were evacuated in the face of the fires last Thursday.

National Park Service spokesman Don Card said the park's roads will be reopened gradually as officials determine which areas are safe.

Card also said an Environmental Protection Agency team was en route to check for any possible hazards created by the electrical transformers damaged in Foresta, a small community outside the park where more than 60 structures were destroyed late last week.

''At this time we don't know if (the transformers) were the older variety that contained PCBs, (a cancer-causing compound),'' Card said.

Smoke in the park's famed valley was not considered hazardous, though it had all but obscured the region's often-photographed towering vistas, made famous by Ansel Adams.

''It's sort of like looking at skyscrapers in an L.A. haze,'' Card said.

With the valley all but empty, animals, especially squirrels, have been left without a main source of food - tourists who commonly break the rules to hand out tidbits of leftovers.

Card said a couple visting the park reported being ''pestered'' by a pack of about 30 anxious squirrels who surrounded them Sunday at Glacier Point.

''They were being, I guess, actively cute, doing their thing, because they're so used to campers and picnickers who feed them,'' Card said. ''The problem is they're being forced to revert to what's natural.

''It's like you would be if Safeway closed,'' he said.

Elsewhere in California, the so-called Campbell complex fire in Tehama County had covered 115,000 acres by sunrise Tuesday, but was 80 percent contained. The nearby Finley fire was 50 percent surounded at 17,536 acres. More than 1,028 firefighters were on the lines, to be augmented by Army troops from Colorado.

Gov. George Deukmejian estimated Monday that the state could spend more than $40 million suppressing the fires, which damaged or destroyed 127

buildings.

By Tuesday morning, a total of 25 major fires were still burning across 342,000 acres in four Western states, 13 of them on 220,000 acres in California.

Victory was declared in Oregon with the containment Monday evening of a nearly 74,000 acre fire in the Ochoco National Forest, one of the nation's largest this year, as 1,200 Army troops arrived from Fort Lewis, Wash., to help in rehabilitation and mop-up work.

Containment came almost exactly a week after the fire was triggered by a lightning storm, threatening the community of Burns and two other towns.

The tally for fighting the week of lightning-sparked Oregon wildfires has hit $12.1 million, with more than 7,300 firefighters on the lines of blazes that have blackened more than 123,000 acres.

#90226u1786 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - The vanguard of a force of 45,000 heavily armed Marines began arriving in Saudi Arabia Tuesday in a dramatic increase in the number of U.S. troops confronting Iraq in Operation Desert Shield.

''This is the first significant combat force being sent into the country '' a defense official said, explaining that U.S. forces first sent to Saudi Arabia were lightly armored infantry while the Marines have tanks, attack helicopters and heavy artillery.

''When the Marines come in, there is going to be a dramatic increase in numbers of U.S. troops there as well as sustained combat capability,'' said the official who asked not to be identified.

Another defense official said there were about 26,000 U.S. troops in Saudi Arabia Tuesday and that Operation Desert Shield will ultimately involve ''in excess of 100,000'' U.S. ground troops.

The Pentagon officially has refused to detail the number of U.S. troops in Saudi Arabia or the number of those being sent there. President Bush ordered the force into the oil kingdom to deter a possible Iraqi attack after Iraq occupied nieghboring Kuwait Aug. 2.

In a brief announcement Tuesday, the Pentagon said, ''Advance elements of the 1st Marine Expeditionary Force and the 7th Marine Expeditionary Brigade have arrived in Saudi Arabia.''

It said the force inclues units from the 1st Marine Division and the 1st

Force Service Support Group from Camp Pendleton, Calif., the 3rd Marine Aircraft Wing from El Toro, Calif., and the 7th Marine Expeditionary Brigade from Twentynine Palms, Calif.

Also on the move, it said, were members of the 4th Marine Expeditionary Brigade in Norfolk, Va., which includes units from the 2nd Marine Division and the 2nd Force Service Support Group from Camp LeJeune, N.C., and the 2nd Marine Aircraft Wing from Cherry Point and New River, N.C.

The defense official said about 16,000 Marines - a full brigade - would be in Saudi Arabia within days and that a total of 45,000 combat Marines - a full Marine Expeditionary Force - were going to Saudi Arabia.

The 4th Marines will be departing by ship for Saudi Arabia, while the others were flying to the Persian Gulf and will link up with equipment and supplies already there or just arriving.

''The concept is unique - to quickly fly to a place where prepositioned ships are meeting you,'' the official said, adding the Marines will be ''capable of sustaining 30 days of combat'' with the supplies already available.

''From beans to bullets,'' he said of the cargo aboard the ships meeting the Marines.

In addition, the Marines will have more than 100 aircraft - 60 AV-8B Harrier jump jets, 48 F/A-18 fighters and 20 A-6 ground attack planes - along with nearly 25 attack helicopters, 70 tanks and more than 90 155mm howitzers.

The United States has already sent soldiers from the Army's 82nd Airborne Division, Fort Bragg, N.C.; the 101st Airborne Division, Fort Campbell, Ky.; the 24th Infantry (Mechanized) Division, Fort Stewart, Ga., and the 11th Air Defense Artillery Brigade, Fort Bliss, Texas.

The Air Force has also sent more than 100 F-15 and F-16 jet fighters and five AWACS early warning radar planes.

A U.S. naval armada, numbering about 50 ships and including three aircraft carrier battle groups, is converging of the region, with some ships already taking up stations in the gulf, the north Indian Ocean and the Red Sea.

The Pentagon announced Tuesday that a fourth battle group led by the aircraft carrier USS John F. Kennedy and accompanied by five warships and two auxiliary ships will leave Norfolk, Va., Wednesday for the region.

''The Kennedy battle group will be available for potential relief of the

Eisenhower battle group or additional tasking to be determined by rapidly changing events in the area,'' the Pentagon said.

#90226u1830 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Mayor Marion Barry announced Tuesday that he will be a candidate for a seat on the City Council, a position he held for four years before serving three terms as the city's mayor.

Barry, convicted Friday in U.S. District Court of cocaine possession and still facing a possible retrial on 12 other drug and perjury charges, said he considered seeking a fourth term as mayor but determined it would be too divisive after his 10-week trial.

Barry, a lifelong Democrat, switched political affiliations Monday to independent to faciliate a bid for some elected office in the Nov. 6 general election, but said at the time he was keeping his ''options open'' and had not positively decided which office to seek.

''After prayerful consideration and discussions with my family and a few friends, I have decidied to run for an at-large seat on the City Council '' Barry said Tuesday in a statement, released by his campaign manager, Anita Bonds. ''I believe that in this position I can achieve my goal of continuing to make a contribution to the political life of this city.''

Barry, a former civil rights leader and one of the nation's most prominent black politicians, said he ruled out another bid for mayor because of the scars from his trial.

''Even though polls have shown that I could win (a fourth term as mayor) by running as an independent and fracturing the vote between the major parties, I have rejected this idea,'' Barry said. ''Such a move would further polarize attitudes and further alienate certain segments of the population from each other. I want us all to heal.''

Bonds picked up nominating petitions from the D.C. Board of Elections and Ethics Tuesday. She said Barry would begin actively campaigning after the Sept. 11 primaries.

Barry has until Aug. 29 to gather 3,000 signatures from registered voters needed to apear on the Nov. 6 ballot.

He faces a maximum sentence of one year in prison and a $100,000 fine under his single misdemeanor conviction. Under city law, he would be precluded from holding office only if jailed after a felony conviction.

Barry, who was convicted of one cocaine possession charge and acquitted of a second, still could face retrial on 12 counts, including three felony perjury charges, on which the jury was deadlocked.

U.S. Attorney Jay Stephens said a decision on pursuing the charges would be announced at a Sept. 17 court hearing.

''If I am elected to the council I will serve on that body; I will not be a de facto mayor, a mayor in exile or a mayor on hold,'' Barry said. ''I believe in a strong executive form of government, and am quite willing to let a new mayor be mayor.''

Barry, whose term expires Jan. 2, said he planned a vacation of about 10 days beginning Wednesday.

The mayor said two months ago as his trial began that he would not be a candidate for mayor, calling it a ''time for healing, for me personally and for you politically.''

''Some of those who want me to leave politics say it is out of concern for my health and continued recovery,'' said Barry, an acknowledged alcoholic who spent seven weeks at in-patient substance abuse treatment facilities after his Jan. 18 arrest in an FBI sting.

In announcing his council bid Tuesday, the mayor said, ''I would like to remind these people that most men and women in other walks of life, including the media, are not expected to quit their professions after treatment. Instead, many people we know have continued in their jobs, often with clearer vision and making even greater contributions.''

Barry reportedly was interested in the council seat as a way to fulfill a 20-year requirement to retire with full government pension. Barry denied any motivation except the desire to continue ''community service.''

He becomes the sixth candidate for two at-large council seats, including incumbent Hilda Mason.

Barry served on the council from 1974 until his election as mayor in 1978.

''I think it's a bad move,'' W. Cardell Shelton, a Republican at-large candidate, said Monday after Barry's filing as an independent. ''I think what he's looking for is a welfare check ... for his retirement.''

Democrat Johnny Barnes, another at-large candidate for council, predicted that Barry would lose a council bid.

''He has the right to run like any other citizen,'' council member Gordon Lightfoot said Tuesday. ''It's something the voters will have to decide.

... Whether he has the moral credibility to carry on waging the war on drugs, I don't know. We'll have to wait and see.''

#90226u1845 08/14/1990 ~United Press International

DALLAS (AUG. 14) UPI - A Dallas County jury Tuesday sentenced Daniel Joe Hittle to death by injection for the slaying of a Garland policeman during a 1989 shooting spree that left five people dead.

State District Judge Richard Mays pronounced the sentence recommended by the jury. Hittle, 40, was convicted of capital murder Thursday for the Nov. 15 killing of officer Gerald Walker. He could have received life in prison.

Prosecutors said Hittle shot Walker, 48, who had stopped him for a traffic violation. Hittle then sped to East Dallas, where he killed four other people. He was charged with four counts in murder in those deaths but prosecutors are not expected to press those cases now.

At the time of the shootings, Hittle was on parole for the 1973 shooting deaths of his adoptive parents at their farmhouse near Staples, Minn.

Two of his former wives testified Monday during the punishment phase of the trial that Hittle was a violent man who beat women and children and killed pets.

Della Miller, 42, said she divorced Hittle in 1973 after a brief, stormy marriage during which he abused her physically and emotionally.

Miller testified that when she was pregnant with their daughter, now 20, Hittle kicked her in the stomach, and that when their daughter was 3 months old, he slapped the child across the face to stop her crying.

Hittle's first wife, Diane Mount, testified she met Hittle in March 1970 through a roommate while Hittle was a Marine stationed in California.

Mount recalled Hittle told her the family dog had to be put to sleep because he believed the dog had been killing farm animals. She said Hittle tied the dog to a tree and shot it, then left it hanging from the tree.

WASHINGTON (AUG. 14) UPI - Top diplomats of all five permanent members of the U.N. Security Council met Tuesday to discuss a Soviet suggestion that the United Nations take a military role in implementing the economic embargo against Iraq.

The undersecretary of state for political affairs, Robert Kimmitt, met with the ambassadors or charges of Britain, France, the Soviet Union and China for 55 minutes about a possible role for the U.N. Military Staff Committee in the Persian Gulf conflict.

Chinese Ambassador Zhu Qizhen said no decisions were made and that another meeting of the five countries' U.N. ambassadors will be held in New York. No date was given.

Although the committee meets secretly every two weeks, it never has been used because Security Council members have not been able to agree about its functions. It was conceived as a general staff responsible to the Security Council for overall strategic planning and technical advice on military issues.

U.S. acceptance of a Soviet suggestion to consider including a U.N. committee in the gulf crisis appeared to coincide with Washington's own efforts to ensure that moves to punish Iraq for its Aug. 2 invasion are international, not unilateral.

Soviet warships do not appear to be actively engaged in the U.S.-led naval blockade of Iraq.

President Bush told reporters he is open-minded about the possibility of a U.N. role and said he does not ''have any problems talking to the Soviets about that.''

But, he said, ''I don't think it's essential to have a U.N. flag for countries to carry out their responsibilities.''

The diplomatic session chaired by Kimmitt came a day after several U.N. members criticized the United States, sources said, for exceeding U.N. calls for an economic embargo of Iraq with a naval blockade of that Arab country.

The Bush administration has shied from the term ''blockade,'' instead calling the attempt to prohibit commerce to and from Iraq an

''interdiction.''

''The actions we are taking are clearly legal under international law,'' State Department spokeswoman Margaret Tutwiler said.

The United States, at the request of the exiled government of Iraqi-occupied Kuwait, has coordinated the multinational blockade of goods going to and from Iraq. Tutwiler said discussions about the U.N. committee will not replace the blockade, which she said ''still holds.''

''This is a suggestion, another idea,'' she said of the Soviet proposal for a possible U.N. committee role. ''It's a Soviet Union suggestion. It is one that the United States is interested in exploring.''

Secretary of State James Baker and his Soviet counterpart, Foreign Minister Eduard Shevardnadze, have discussed a possible role in the gulf crisis for the U.N. committee during the past several days, Tutwiler said.

The meeting was held, she said, ''to follow up on the Soviet Union's suggestion to engage the U.N. Military Staff Committee in discussion of the situation in the gulf.''

The session will review what role the committee might play in connection with implementing U.N. Resolution 661, Tutwiler said.

The resolution says all U.N. members shall prevent any ships ''from taking part in the sale or supply of any commodities or products, including weapons or any other military equipment,'' to Iraq and occupied Kuwait.

WASHINGTON (AUG. 14) UPI - President Bush, in a move that could exacerbate tensions with a longtime friend in the Middle East, said Tuesday that it may be necessary to intercept ships bound for Jordan to sever Iraq's economic lifeline.

With Jordan's King Hussein en route to Washington for urgent talks on the Persian Gulf crisis, Bush acknowledged concern that Jordan may provide the means for Iraq to escape the full weight of a U.N.-ordered trade embargo.

At a White House news conference, Bush declined to pass judgment on reports of continued shipments of goods to Iraq from the Red Sea port of Aqaba, but said any country that permitted such activity ''would be in violation of the sanctions.''

As the United States worked through diplomatic channels to broaden support for its actions in the gulf, Bush said ''it might well be'' necessary to stop ships bound for Aqaba to shut off the remaining flow of imports to Iraq.

''If it's a hole through which commerce flows in an otherwise tight net, I would certainly think that Aqaba should be closed to Iraqi commerce,'' he said.

Bush defended the de facto U.S. naval quarantine of Iraq as necessary and proper as top diplomats from the five permanent members of the U.N. Security Council discussed a possible U.N. role in coordinating enforcement of sanctions being used to punish Iraq for its Aug. 2 invasion of Kuwait.

The meeting, held at the State Department, followed Bush's announcement Sunday that the United States would do ''whatever is necessary'' to effect Iraq's economic isolation. It ended with no decisions on a U.N. military role.

After coming under criticism at the United Nations on Monday for his assertion that the U.S. blockade is justified by the U.N. Charter, Bush said, ''We have good opinions that we are acting properly and I have no intention to change at all.''

While willing to consider a Soviet suggestion that the enforcement effort be placed under U.N. legitimacy, he said that would not be ''essential'' and urged other countries to commit their forces ''to see that commerce does not continue.''

#90226u2067 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Summit Technology Inc., a small Watertown,

Mass., company striving to claim a multibillion dollar surgical laser market, disclosed Tuesday that it has concluded a draft licensing agreement for the technology with International Business Machines Inc. of Armonk, N.Y.

David Muller, Summit's president, declined to release the terms of the draft agreement, but confirmed the deal was an important step in Summit's efforts to bring its technology to market.

In a Tuesday filing with the Securities and Exchange Commission, Summit said that IBM had a broad patent for Summit's primary product, excimer lasers, which can be used to operate on eyes without damaging delicate tissue.

A scientist at IBM's major research facility in Yorktown Heights, N.Y., received the excimer patent in 1989, while Summit did not receive its excimer patent until last July.

The SEC filing said that if IBM did not license the technology to Summit, the latter's ''ability to sell its laser system in the United States could be substantially impaired.''

That would be a big market to lose, according to the consulting firm Arthur D. Little, which has estimated a multibillion dollar market for the laser, based on estimates of two million corneal sculpting operations a year.

In corneal sculpting operations, the laser is used to reshape the cornea, a procedure that is thought to correct nearsightedness, farsightedness, and astigmatisms, as well as several eye diseases.

The U.S. Department of Health and Human Services estimates that some 140 million Americans have these types of refractive disorders, many of whom currently wear glasses or contact lenses, but could be treated with Summit's laser.

Summit has yet to tap the vast U.S. market - the Food and Drug Administration must still approve the use of excimer lasers to treat eye problems - but is selling units overseas, and expects revenues of $10 to $12 million in its fiscal year 1990.

A number of investors are betting the technology will catch on here once approved by the FDA.

Summit held an initial public offering of stock in 1987, and, after a slow start, the stock rose from $3 a share in 1989 to $18 a share last July.

(AUG. 14) UPI - Defense Secretary Dick Cheney today said he ''canNOT conceive'' the use of U-S chemical weapons even if Iraq drops poison gas on American troops in Saudi Arabia. On a visit to troops at Fort Stewart, Georgia, Cheney said only that the United States has ''a wide range'' of responses.

American forces are taking up positions side-by-side with local forces at military bases in Saudi Arabia. A naval commander says U-S troops are under strict instructions NOT to fire ''unless it is more than clear'' that they are under attack.

Senate Democrat Bob Graham of Florida says Air Force special operations units that participated in the invasion of Grenada reportedly will join U-S forces in Saudi Arabia. The wing specializes in missions behind enemy lines.

Consolidated Edison officials say the bright lights of the Big Apple may be out for a few more days. A fire yesterday triggered a lower Manhattan black-out that has left thousands of residents without lights or water.

Oil prices were holding steady in mid-day trading today as traders apparently waited for the next shoe to drop in the Mideast. On the European cash market, key OPEC crude oil sold 40 cents higher than yesterday, at 24 dollars a barrel.

New York Governor Mario Cuomo today accused the federal government and U-S Supreme Court of abandoning their duty to protect national rights. He says the new federalism has pitted states against each other.

The Soviet Union's justice minister met with the top state judges in the United States for tips on how to establish an independent court system. In Bolton Landing, New York, the minister said the Soviets are trying have judges be elected rather than appointed.

An expedition is expected to return to Greenland's glaciers today to dig eight World War Two aircraft from 250 feet of ice. The Greenland Expedition Society had to quit its work last month because warm weather was flooding the area with melted ice.

#90226u2127 08/14/1990 ~United Press International
WASHINGTON (AUG. 14) UPI - King Hussein of Jordan, caught in a financial and political squeeze in the gulf crisis, headed to the United States Tuesday for meetings with President Bush and Secretary of State James Baker.

Officials in Jordan said Hussein was carrying a joint Iraqi-Jordanian peace plan he drafted with Iraqi President Saddam Hussein to resolve the Persian Gulf conflict sparked by Iraq's occupation of Kuwait.

The White House announced Bush would meet Hussein Thursday at the president's summer home in Kennebunkport, Maine, at the request of the Arab leader, who was to arrive in Washington early Wednesday morning, then fly to Maine.

At a White House news conference Tuesday, Bush acknowledged there were some clear differences between the United States and Jordan on how to handle Saddam and said, ''I'd like to see if we can eliminate those differences.''

The meeting will take place against the background of recurring reports that Jordan is permitting its ocean port in Aqaba to allow in shipments of food and other material, which is then sent to Iraq by truck convoy.

Bush, wryly predicting he and the king will have ''an interesting conversation,'' avoided criticizing Jordan for not being more forceful in supporting United Nations sanctions against Iraq and seemed to hold out an incentive for cooperation.

''We've always been a friend of Jordan. We've helped them in the past,'' Bush said, adding, ''We'll help them in the future, if they fulfill their obligations here.''

Asked if he would provide economic aid to ease pressure on Hussein, Bush said, ''I think we would, provided Jordan joined these other countries in fulfilling these obligations under the sanctions.''

However, Bush said that if Aqaba is ''a hole'' in the sanctions, ''I would certainly think that Aqaba should be closed to Iraqi commerce.''

The U.N. sanctions against Iraq, approved by the Security Council Aug. 6, ban virtually all trade, but news accounts in Olso said a Norwegian ship's captain told reporters he was forced by Jordanian police to break the embargo on trade with Iraq and unload Iraq-bound grain from his vessel in Aqaba.

Norwegian government spokesmen said the incident, which took place last week and broke Norway's embargo against any form of trade with Iraq, was to be fully investigated and ''appropriate action'' will be taken.

The report said the 86,000-ton, Liberia-registered but Norwegian-owned Tanga was forced to unload its cargo of Iraq-bound grain after its captain was arrested by Jordanian police.

A State Department spokeswoman said the United States is also aware of statements made by Israeli officials, saying that any Iraqi military presence in Jordan would be regarded as cause for war. The United States, according to diplomatic officials, has asked Israel to keep a low, non-threatening profile in the crisis.

State Department spokeswoman Margaret Tutwiler said the United States is considering ways of helping nations, like Jordan, who might be suffering economically by the mandatory ban on any commerce with Iraq until Iraq withdraws its forces from Kuwait.

One possibility mentioned by diplomatic officials would be direct financial aid from the exiled Kuwaiti government, and another would be the supply of cheap or free supplies of petroleum from oil-exporters such as Saudi Arabia.

The president has criticized Hussein for at first embracing Saddam as a ''patriot.'' Philip Geyelin, now at work on a book about the Jordanian king, said, ''The word 'patriot' has a very special meaning in that part of the world, in the context of the Arab-Israeli conflict.''

Geyelin, who last interviewed Hussein in late June, said Hussein's main driving force has been fear of an Israeli attack, which he tries to deter by making alliances in the Arab world and by maintaining excellent relations with the United States.

Geyelin said, ''It's my guess that he is doing what he always has, going back to 1956, which is going with the flow and trying to figure out how to survive.''

Fitzwater said Hussein would arrive in Washington shortly after midnight Wednesday morning. Bush said Hussein would rest in Washington before flying to Maine Thursday morning, returning to Jordan following his meeting with the president.

#90226u2156 08/14/1990 ~United Press International

CAPE CANAVERAL, FL (AUG. 14) UPI - Astronomers are finally ready to begin critical tests this week to find out exactly how much useful science the $1.5 billion Hubble Space Telescope can accomplish, despite its flawed optical system, officials said Tuesday.

Buoyed by better-than-expected pictures from the telescope's main camera, project scientist Edward Weiler said Hubble's cameras and light-splitting spectrographs will be trained on a variety of deep space objects starting Thursday in the first of two such ''science characterization'' sessions.

''We are entering in about two days a period of one to two weeks where we'll be doing the science characterization program, that is, actually doing science programs with all the instruments trying to really pin down what science we can and can't do,'' Weiler said during a teleconference with reporters.

''The targets include things like galaxies, peculiar galaxies, galaxies with active nuclei, some double stars, some star clusters, crowded field objects, basically, the universe. There's a whole list of objects.''

The first phase of the testing is expected to last about 10 days. A second series of science observations is scheduled to begin around Sept. 1 and if all goes well, NASA's astronomy team should be ready to generate a schedule of targets for the start of routine observations.

In the meantime, Weiler said, engineers are proceeding with critical tests to precisely measure the curvature of Hubble's flawed primary mirror.

The 94.5-inch mirror was ground into the wrong shape during construction 10 years ago. The resulting ''spherical aberration'' prevents the telescope from bringing starlight to a sharp focus, a crippling disability for Hubble's two visible-light cameras.

But once the exact curvature of the mirror is understood, a replacement for the telescope's main wide-field camera can be equipped with corrective mirrors to compensate for the aberration.

Weiler said the ''prescription'' for the corrective mirrors should be finished by the end of October. The new camera is scheduled for installation during a shuttle mission now planned for 1993.

''We hope to get the rough prescription by Labor Day and the final prescription for the corrective mirrors ... by mid-October or late October '' he said.

In the meantime, astronomers need to evaluate how well Hubble's instruments can perform ''as is'' in order to come up with a list of targets that will best take advantage of the observatory's current abilities.

Preliminary results indicate the space telescope can capture clearer, more valuable images than scientists had thought and that computers can be used to sharpen the pictures even more.

On Monday, elated astronomers released pictures of a star cluster showing many more young, massive stars than were visible from ground-based photographs. While the results indicate the observatory can produce useful pictures, more data is needed to determine what the camera can and cannot accomplish.

''It's one thing to ... get a pretty picture and another thing to go in there and be able to study each one of those stars and know to 1, to 5, to 10 percent accuracy and know how much light they're putting off,'' Weiler said.

''We're very hopeful we'll be able to get that kind of accuracy, but the proof is in the pudding. The purpose of the next couple of weeks is to do that kind of program, that is, what kind of quantitative accuracy can we get?''

The Hubble Space Telescope was designed to be the most powerful instrument of its kind, able to answer fundamental questions about the universe by studying and photographing celestial bodies deep in the cosmos from its perch 380 miles above Earth.

But about a month after the 12-ton telescope was ferried into space by the space shuttle Atlantis in April, engineers announced that Hubble suffers from spherical aberration, setting off a storm of controversy and criticism.

#90226u2158 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - AT&T no longer dominates key long-distance

telephone markets, reducing the need for regulators to protect competitors such as MCI Communications Corp. and U.S. Sprint Communications Co., an AT&T sponsored study said Tuesday.

The report, ''Interexchange Competition in the Price Cap Era,'' was written by an independent consultant, Multinational Business Services Inc. It was paid for by American Telephone and Telegraph Co. - the only long-distance carrier subject to comprehensive government regulation.

The study examines competition in long-distance services under the framework of a price-cap regulation system imposed on AT&T on July 1, 1989. Previously, the regulation was keyed to the company's rate of return.

The study concludes that the Federal Communication Commission should ease its regulatory constraints on AT&T because real competitiveness has been achieved over five years in the $55 billion telephone market.

''From a consumer perspective, customers now have a choice of different vendors for supplying long-distance service,'' said Bruce Levinson, co-author of the report.

AT&T, the study said, has lost market share rapidly to MCI, U.S. Sprint and other companies in some of the most important and lucrative areas of the phone business. The report said AT&T's market share has declined from nearly 80 percent in 1985 to 68 percent this year for residential and business telephone service. By the end of 1990, MCI and Sprint together will hold a quarter of residential and business market share.

ATT's share of ''800'' calling service has plunged from 100 percent to just over 60 percent over four years, the study said, while MCI's share has jumped from 3 percent to 18 percent and Sprint's has more than doubled from 4 percent to 9 percent.

The telecommunications giant also has been losing business to competitors in other, specialized business, including outbound WATS and private line services.

''AT&T is taking its greatest losses in the most attractive large business markets,'' Levinson saod.

''I'm not surprised that AT&T would have a report that would reach those conclusions,'' said Jim Lewis, MCI's vice president for regulatory affairs.

MCI favors a continuation of the regulatory constraints on AT&T because, he said, it still enjoys competitive advantages in the long-distance market. These advantages are in the area of some WATS services. And ''when you go to a pay phone or use a credit card, AT&T retains significant market power,'' Lewis said.

Not enough time has passed since the price-cap rules went into effect for the FCC to consider making any ''dramatic'' changes, Lewis added. ''The price cap is still very new so let's take a look at how that's working before we change it.''

The FCC is now in the process of considering whether to streamline its regulatory policies on AT&T.

#90226u2165 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - President Bush said Tuesday he called South African President F.W. de Klerk and South African black leader Nelson Mandela to congratulate them on the ''apparent breakthrough'' to peacefully end apartheid.

Bush said spoke by telephone with Mandela on Tuesday, and with de Klerk on Monday.

On Aug. 6, Mandela's African National Congress suspended a 30-year-old guerrilla campaign to halt apartheid, and de Klerk's white government, in turn, announced it would negotiate a new consitution.

Bush disclosed his calls Mandela and de Klerk at the opening of a White House news conference. He said he had just got off the telphone with the black leader, and had spoke the day earlier with the South African president.

''I talked with him (Mandela) about the apparent breakthrough over there between ANC, Mandela and de Klerk and the government in terms of the peaceful resolution to the problem of how you elminate apartheid,'' Bush said.

''I talked to him a little bit about the joy we felt in the progress that has been made in releasing prisoners,'' Bush said, adding he congratulated both men. ''It is very exciting.''

#90226u2169 08/14/1990 ~United Press International

GREELEY, CO. (AUG. 14) UPI - Denver Broncos head coach Dan Reeves was back on the practice field Tuesday, less than a week after admitting himself to a hospital for treatment of chest pains.

Reeves admitted himself to North Colorado Medical Center in Greeley Aug. 8 after suffering chest pains while exercising. The next morning, a charter plane took him to Sequoia Hospital in Redwood City, Calif., where doctors

performed a high-tech procedure called an atherectomy to scrape plaque from two blocked coronary arteries.

Reeves, 46, was released from the hospital Saturday and spent the weekend recuperating in northern California. On Monday, after an examination showed he is recovering nicely, he flew to Denver and was driven to Greeley to rejoin training camp at the University of Northern California.

''I feel better than I did before I left,'' Reeves told reporters after the team's Tuesday morning workout. ''I'm very fortunate, very lucky. The good Lord was good to me, He gave me a warning. Hopefully, I'll get my diet corrected and get my cholesterol down and won't have any problems.''

Doctors initially predicted Reeves would be sidelined for two to six weeks. Defensive coordinator Wade Phillips was put in charge of the team, and coached the Broncos to a 16-7 preseason victory over Indianapolis Saturday.

The atherectomy shortened Reeves's recovery time considerably, and he was expected to be back on the sideline Monday night when Denver plays San Francisco.

#90226u2191 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - Sun Microsystems Inc., the leading U.S. supplier of computer workstations, disclosed Tuesday that it has received a letter from Texas Instruments Inc. alleging that a ''substantial'' number of Sun's products infringe on TI patents.

Sun also disclosed Tuesday that a tentative agreement reached with International Business Machines Corp. to resolve an earlier patent dispute calls for the two companies to enter into a five-year cross-licensing agreement.

Both disclosures were made in a registration statement filed with the Securities and Exchange Commission.

Sun Microsystems general counsel Michael Morris declined further comment on either issue.

In regard to the TI letter, however, which was sent last March, the SEC filing said that the two companies have begun preliminary discussions on the alleged patent violations.

Based on those talks, Sun stated in the filing that it ''believes that it will be able to negotiate a license agreement with TI and that the outcome of this matter will not have a material adverse effect on Sun's financial

position.''

Terri West, a Texas Instruments spokeswoman, could not confirm the contents of the letter.

She said, however, that the discussions have most likely centered on eight patents for Texas Instrument's microcomputer systems - a set of patents that West said TI had also discussed with other companies in March.

These patents relate to the way microprocessor-based systems interact with the input-output functions of personal computers.

For example, one of the patents covers automatic diagnostic routines that computers perform when turned on.

Separately, Sun reported in its SEC filing that it had nearly completed patent discussions with IBM, which claimed several years ago that certain Sun technologies were subject to IBM patents and thus needed to be licensed.

The two companies at the end of fiscal 1990 reached an agreement that is currently being reviewed by Sun's board of directors, according to the SEC filing.

Under the proposed agreement, each company would be granted a non-exclusive worldwide license to the other party's patent portfolio for the lives of the underlying patents.

The agreement would cover all patents issued or applied for prior to July 1985, and would require Sun to make annual payments through July 1995.

These payments, Sun said, would not have a significant effect on the company's financial position.

Sun Microsystems is based in Mountain View, Calif; Texas Instruments is located in Dallas, and IBM is headquartered in Armonk, N.Y.

VERNON, VT (AUG. 14) UPI - An unsigned letter from plant workers outlining alleged problems at the Vermont Yankee nuclear reactor has triggered a federal investigation, Gov. Madeleine Kunin said Tuesday.

Kunin released copies of the letter, which claimed to be from a group of Yankee employees, along with a scathing statement accusing the operators of the state's only nuclear reactor of ''shocking ... neglect.''

The letter, mailed to state officials last month, claims plant operators have cut corners in ways that may affect the reactor's safety.

''We are a group of Vermont Yankee employees,'' the letter began. ''We know the company is heading for trouble. Bad fuel, longer time between outages, poor maintenance, budget cuts, aging plant are converging and increasing stresses in our working environment.

''An accident could happen which, in earlier times, we could have handled easily, but now we're not so sure. There is (an) increasing sense of projecting an image and then doing quite the opposite,'' the letter continued.

Specifically, the letter said the plant operated for six months with a broken pump in its fuel pool system despite federal rules that require the plant to shut down within 30 days under such circumstances.

The letter also said Yankee has leaking fuel bundles, creating the potential for a radiation hazard.

The letter also claimed the plant was undermanned to the extent that workers could not perform a safe emergency shutdown under some conditions.

Kunin said the U.S. Nuclear Regulatory Commission has launched an investigation based on the letter.

Kunin also expressed outrage over the matter.

''It's shocking that it apparently took a letter from whistleblowers to bring these problems to light,'' Kunin said. ''There's no excuse for that kind of neglect.

''The NRC appears to be taking these allegations seriously, and so they should,'' Kunin said. ''The fact that it took an anonymous letter to get some action raises some very serious questions about the quality assurance program down at Vermont Yankee.''

Yankee spokeswoman Mary Schneider said the plant was notified of the probe on Tuesday. Schneider said the plant was operating safely.

''We're taking these allegations very seriously,'' said Yankee President J. Gary Weigand. ''Vermont Yankee welcomes constructive criticism and is always looking for ways to enhance the quality of its performance. We will work expeditiously to provide the NRC with any information they need to examine these concerns in detail.''

#90226u2240 08/14/1990 ~United Press International
WASHINGTON (AUG. 14) UPI - Manor Care Inc. Tuesday said it has reached an agreement with New Image Realty Inc. to acquire the assets of Econo Lodges of America Inc. for $60 million.

The Econo Lodges system includes 615 hotels in the Unites States and Canada. Also included in the transaction are 85 Friendship Inn franchises.

With the acquisition, Manor Care's lodging subsidiary, Choice Hotels International Inc., formerly Quality Inns International Inc., franchises 2,301 hotels and 223,974 guest rooms in 19 countries, the company said.

Manor Care said that last month it acquired the worldwide franchise rights to Rodeway Inns, making Choice the largest franchise hotel company in the world.

Choice Hotels International also franchises Quality Inns, Comfort Inns, Sleep Inns and Clarion Hotels and Resorts worldwide.

In addition to its lodging subsidiary, Manor Care operates 161 health care facilities with 21,600 beds in 28 states.

#90226u2276 08/14/1990 ~United Press International
SANTA MONICA, CA (AUG. 14) UPI - A judge accepted an offer Tuesday by actor Marlon Brando to put up his $4 million mountaintop estate to secure the release of his son, Christian, charged with the murder of his half-sister's boyfriend.

Christian Brando, 32, was expected to be released Wednesday morning. He has been in custody for nearly three months, arrested after the May 16 fatal shooting of his half-sister's Tahitian boyfriend, Dag Drollet, at the actor's 12-room home.

Christian was initially denied bail. Last month, however, after a preliminary hearing, his bail was set at $10 million, the highest ever set in Los Angeles County. Last week, Santa Monica Superior Court Judge David Perez, calling the $10 million bail excessive, slashed it to $2 million.

On Tuesday, Perez approved an arrangement under which Brando's estate, valued at $4 million, was offered as collateral to meet the bail.

Under California law, when property is posted to meet bail, the property must be worth twice as much as the bail amount.

Prosecutors allege that Christian Brando, 32, premeditated the slaying of Drollet, 26. They claim Christian Brando accused Drollet, the son of an

influential political figure in Tahiti, of beating his half-sister.

Deputy District Attorney Steve Barshop said Drollet was shot in the head at point-blank range while watching television and that his body was found with a television remote control in one hand and a cigarette lighter in the other.

Christian Brando told police that he accidentally shot Drollet while he and the victim were wrestling for the weapon, a .45-caliber handgun.

''I shot him, man, but not on purpose,'' Los Angeles police quoted Brando as telling them after the incident. ''Please believe me. I wouldn't do it my father's house.''

However, prosecutors say that Cheyenne Brando in mid-June gave a statement to police in which she indicated that Christian had premeditated the slaying. Shortly after giving that statement, Cheyenne returned to Tahati, where she is a citizen, in an apparent move to avoid testifying against her half-brother.

She has since given birth to Drollet's child.

Marlon Brando was home at the time of the shooting, but was in a different room. He telephoned police after hearing the gunshot.

#90226u2309 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - The five permanent members of the U.N. Security Council agreed Tuesday to discuss a Soviet suggestion to create a U.N. military command in the Persian Gulf for joint operations against Iraq, the State Department said.

The undersecretary of state for political affairs, Robert Kimmitt, recommended to the ambassadors or charges of Britain, France, the Soviet Union and China that the meeting be convened at U.N. headquarters in New York ''no later than the end of this week,'' the State Department said.

The diplomats met for 45 minutes to discuss a possible role for the U.N. Military Staff Committee in the Persian Gulf conflict to enforce the U.N.-sanctioned trade embargo against Iraq, the State Department said.

Although the Military Staff Committee meets secretly every two weeks, it never has been used because Security Council members have not been able to agree about its functions. It was conceived as a general staff responsible to the Security Council for overall strategic planning and technical advice on military issues.

The U.N. military committee is comprised of representatives of the military chiefs of staff of the five permanent security council members. Representatives of other U.N members can be invited as appropriate.

It was not clear what role the Military Staff Committee would take in the crisis or whether it would replace or work with the U.S.-led multinational force that is carrying out the blockade against trade to and from Iraqi.

U.S. acceptance of a Soviet suggestion to consider including a U.N. committee in the gulf crisis appeared to coincide with Washington's own efforts to ensure that moves to punish Iraq for its Aug. 2 invasion are international, not unilateral.

Soviet warships do not appear to be actively engaged in the U.S.-led naval blockade of Iraq.

President Bush told reporters he is open-minded about the possibility of a U.N. role and said he does not ''have any problems talking to the Soviets about that.''

But, he said, ''I don't think it's essential to have a U.N. flag for countries to carry out their responsibilities.''

At the diplomatic meeting, the State Department said, ''there was unanimous agreement that the five would continue to work actively toward full implementation of economic sanctions under U.N. Security Council Resolution 661'' that imposes economic sanctions against Iraq.

''It was agreed that this subject should be discussed further among the permanent five members in New York.''

The session chaired by Kimmitt came a day after several U.N. members criticized the United States, sources said, for exceeding U.N. calls for an economic embargo of Iraq with a naval blockade of that Arab country.

The Bush administration has shied from the term ''blockade,'' instead calling the attempt to prohibit commerce to and from Iraq an ''interdiction.''

''The actions we are taking are clearly legal under international law,'' State Department spokeswoman Margaret Tutwiler said.

The United States, at the request of the exiled government of Iraqi-occupied Kuwait, has coordinated the multinational blockade of goods going to and from Iraq. Tutwiler said discussions about the U.N. committee will not replace the blockade, which she said ''still holds.''

''This is a suggestion, another idea,'' she said of the Soviet proposal

for a possible U.N. committee role. ''It's a Soviet Union suggestion. It is one that the United States is interested in exploring.''

Secretary of State James Baker and his Soviet counterpart, Foreign Minister Eduard Shevardnadze, have discussed a possible role in the gulf crisis for the U.N. committee during the past several days, Tutwiler said.

The meeting was held, she said, ''to follow up on the Soviet Union's suggestion to engage the U.N. Military Staff Committee in discussion of the situation in the gulf.''

The session will review what role the committee might play in connection with implementing U.N. Resolution 661, Tutwiler said.

The resolution says all U.N. members shall prevent any ships ''from taking part in the sale or supply of any commodities or products, including weapons or any other military equipment,'' to Iraq and occupied Kuwait.

#90226u2321 08/14/1990 ~United Press International

(AUG. 14) UPI - The U-N Security Council met today to discuss a Soviet suggestion to give the United Nations a military role in implementing an economic embargo against Iraq. U-S, British, French, Soviet and Chinese representatives met in Washington to explore a role for the U-N Military Staff Committee. The committee has NEVER been put to use because Security Council members have NEVER been able to agree on its functions.

The vanguard of a force of some 45-thousand heavily armed Marines began arriving in Saudi Arabia today... dramatically increasing the number of U-S troops confronting Iraq in Operation Desert Shield. A defense official says the Marines are the first significant combat force being sent in to defend Saudi Arabia. Another defense official says he expects the Middle East operation ultimately will involve at least 100-thousand U-S troops.

Oil prices could have a very serious... and possibly devastating... impact on the U-S airline industry. Transportation Secretary Skinner says he has been told by officials at one airline that every one-cent increase in the price of jet fuel adds 20-Million dollars a month in operating expenses. Skinner says he expects the industry to pass the buck to customers.

U-S officials in the Middle East are telling Americans there is little chance Iraq will use chemical weapons against them soon. One Gulf-based U-S envoy told U-P-I that the diplomats want to prevent panic with accurate information. Americans in Saudi Arabia say U-S officials tell them that Iraqi artillery would have to be very close to shoot chemical weapons... and air attacks would be swatted down by U-S defenses.

The jury in the Central Park jogger trial re-heard testimony today from several victims about the time of night each person was attacked by a gang of teens last spring. In their sixth day of deliberations... the jurors are apparently trying to piece together a chronology of the attacks that led to a gang-rape.

#90226u2339 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - President Bush, blaming the budget stalemate on Congress, angrily challenged Democrats on Capitol Hill Tuesday to put up or shut up in talks to cut the federal deficit and avoid catastrophic spending cuts.

''It is the Congress that must move now to bring this deficit under control,'' Bush told reporters at the White House.

''One hundred days after I called on Democrats and Republicans in Congress to work on a bipartisan solution ... the Democrats have yet to offer one full proposal at the budget summit,'' said Bush, who flew back from his Maine vacation home for 24 hours of meetings in Washington on the budget and the Persian Gulf crisis.

''I've been reluctant to go public in this matter,'' Bush said. ''We've dealt in good faith with the leaders, we have played by the rules and now it is up to the Democrats who control Congress.''

With a flash of emotion, Bush said Democrats have been ''laughing all the way to what they think is the electoral bank, saying every time we throw up a proposal, they gun it down and rush off and tell the special interests of one kind or another, 'We're going to protect you.' Ha, ha. Now it's time for them to come forward.''

Senate Democratic leader George Mitchell of Maine responded with a statement saying Bush's barrage ''was not accurate and not helpful.''

''If there has been an 'abdication of responsibilities' on the budget, it has been on the part of the president,'' Mitchell said. ''The president's anger at the leak of the Republican plan to the press by a Republican negotiator should not serve as a justication for unfair and innaccurate criticism of Democrats.''

The GOP plan - detailed after Bush revoked his ''no new taxes'' campaign pledge - included higher taxes on beer and wine and limits on the amount of state and local taxes that could be deducted from federal taxes. The plan was roundly condemned and drew especially harsh attacks from Republicans in the House.

House Democratic leader Richard Gephardt of Missouri, chairman of the budget talks that began May 15, issued a statement saying he was ''saddened to see the president resort to partisan complaining on the budget.''

Budget negotiators have been trying for months ''to address a deficit that is the direct result of 10 years of Reagan-Bush economic and fiscal policies,'' Gephardt said.

''Surely, the president realizes that the nation is better served by our working together, with good faith on all sides, than by ill-timed and inaccurate partisan statements,'' House Budget Committee Chairman Leon Panetta, D-Calif., said in a statement.

At his news conference, Bush played down the fact that Sen. Bob Packwood, R-Ore., leaked to reporters the GOP proposal, which never was formally presented to Democrats.

As for GOP hostitilty to the plan, Bush said, ''I can't find anybody elated over any facet of taxes.''

Bush urged Democrats to produce their own proposal ''and set aside politics because it's getting tough now. It's getting right down to the crunch.''

The crunch comes Oct. 1, the start of fiscal year 1991. Failure to reach and implement a deficit reduction agreement by then would mean automatic spending cuts of about $100 billion in spending cuts, split between military and domestic programs.

Budget negotiators hope to develop a deficit reduction package of about $50 billion in fiscal 1991 and $500 billion over five years. Bush said Tuesday he wants to keep those targets despite the cost of sending tens of thousands of U.S. troops to the Middle East.

Also Tuesday, Rep. Bill Frenzel, R-Minn., a budget negotiator, said he was told that when talks resume on or about Sept. 5, they will be held at Andrews Air Force Base, about 15 miles east of Washington, instead of on Capitol Hill. He said he plans to sleep at Andrews.

''Gephardt's office called and said we're meeting at Andrews Air Force Base,'' Frenzel said in an interview.

Gephardt spokeswoman Deborah Johns said, however, that arrangements for the next round of talks are ''still in the planning stages.''

The location at Andrews, home base to Air Force One, could cut down on outside distractions for the negotiators and help them meet an unofficial

deadline of Sept. 10.

#90226u2431 08/14/1990 ~United Press International
(AUG. 14) UPI - President Bush interrupted his Maine vacation to spend the day in Washington, where he spoke about the crisis in the Middle East. The President has been hearing complaints from other nations arguing that Bush acted too quickly in unilaterally imposing a naval blockade of Iraq. But the president says he believes the United States acted ''legally'' in imposing the blockade. Bush says he sees NO hope for a quick diplomatic solution to the crisis.

Jordan's King Hussein left for the United States today for a meeting with President Bush. Officials say Hussein is carrying a joint Iraqi-Jordanian peace plan. The Jordanian monarch reportedly drafted the proposal with Iraqi President Saddam Hussein with hopes of resolving the Persian Gulf crisis. King Hussein requested the session with Bush after meeting yesterday with Saddam.

Washington Mayor Marion Barry declared today his intention to run for the capital's City Council. Barry said it would be too divisive if he were to seek a fourth term as mayor... after Friday's conviction on one of 14 drug and perjury charges. Barry left the Democratic Party yesterday to become an independent to facilitate a bid for office in the November general election.

Researchers report today that a drug used to prevent the recurrence of breast cancer may also help fight heart disease. The findings result from a two-year study of 140 post-menopausal women who had undergone surgery for breast cancer. University of Wisconsin researchers found that the drug tamoxifen NOT only reduced the chance that the cancer would return... but also significantly lowered cholesterol levels.

#90226u2440 08/14/1990 ~United Press International
ST. PAUL, Minn. (AUG. 14) UPI - Northwest Airlines announced Tuesday it is lowering domestic fares for travel after Labor Day in a move matching price reductions announced Monday by Trans World Airlines and Eastern Airlines.

In Dallas, American Airlines said it follow the lead of Eastern and TWA but make its fare cuts effectively immediately on all domestic flights.

The new Northwest fares, which will be available in most markets, range from $79 to $139 each way for off-peak travel, depending on the length of the trip. Fares apply to travel noon Monday through noon Thursday and

Saturday and are $40 higher for the remainder of the week.

Northwest said tickets at the low fares can be purchased through Aug. 29 and apply to travel Sept. 5 through Dec. 16, with some blackout dates, especially around Thanksgiving. The nonrefundable tickets require a roundtrip purchase, a Saturday night stayover and must be purchased within 24 hours after reservations are made.

Northwest said it would offer greater discounts to passengers purchasing tickets for late-night, trans-continental flights. The fares will be $119 off-peak and $139 peak for westbound flights departing between 6:45 p.m. and 9 p.m. and for eastward flights departing between 10:30 p.m. and 2:45 a.m.

#90226u2461 08/14/1990 ~United Press International

(AUG. 14) UPI - A retired K-G-B officer is taking advantage of a new Soviet law allowing citizens to appeal to a court if they believe that the government has violated their rights. In fact, he is suing President Gorbachev and other top officials. The former high-ranking K-G-B member says he was illegally deprived of his honors, rank and pension because he criticized the spy agency. He claims the secret police have NOT abandoned their dirty tricks and still spy on innocent people.

A Dallas jury today sentenced Daniel Joe Hittle to death by injection for the 1989 slaying of a Texas policeman. Prosecutors say Hittle shot the officer after being stopped for a traffic violation last November. He then sped to East Dallas, where he killed four other people. At the time of the shootings, Hittle was on parole for the 1973 shooting deaths of his adoptive parents.

Television actor Todd Bridges today began his second trial in Los Angeles on charges that he shot a cocaine dealer eight times. Bridges... the star of previous T-V sitcoms such as ''Diff'rent Strokes'' and ''Fish...'' is charged with assault with a deadly weapon for the 1989 shooting. Jurors at Bridges' first trial deadlocked... forcing a mistrial. Bridges testified he was so intoxicated from cocaine he did NOT remember shooting the man... who survived.

Movie lovers have shelled out three-BILLION-dollars so far this year at U-S box offices. That's just two percent behind the record-setting pace set last year... when the final tally topped five-BILLION-dollars. ''Die Hard Two'' and the surprising ''Ghost'' are leading the way this summer... while ''Flatliners'' took top honors this weekend. ''Pretty Woman'' is the top-earning movie this year.

-30- 1897
#90226u2498 08/14/1990 ~United Press International
WASHINGTON (AUG. 14) UPI - The International Monetary Fund Tuesday announced a $353 million three-year credit package for the government of Bangladesh.

The lending will be provided from the IMF's Enhanced Structural Adjustment Facility, which supports economic-reform programs in low-income nations with concessionary-term loans. The loans are repayable over 10 years with a grace period lasting five and a half years.

The IMF said that $118 million will be available under the first annual lending arrangement.

According to the IMF, Bangladesh's 1990/91-1992/93 economic program aims at achieving an annual economic growth rate of 4.7 percent, a reduction in inflation and further progress on external payments and at alleviating poverty.

The budget deficit is to be reduced by extensive revenue mobilization and restraint on current spending and will continue to be financed primarily by external concessional aid.

Bangladesh's outstanding financial obligations to the IMF total $634 million.

-30- 1208
#90226u2515 08/14/1990 ~United Press International
WASHINGTON (AUG. 14) UPI - The World Bank Tuesday announced a $64 million loan to help China develop fruit orchards near the Yangtze River.

The loan will be provided by the International Development Association, the bank's concessional-lending associate.

The project calls for planting or improving about 40,000 acres of orchards mostly in impoverished mountainous areas surrounding the 3,000-mile river that flows from southwestern China to the East China Sea.

The incomes of about 130,000 poor farm families in central China will nearly triple if the project runs according to plan, the bank said.

-30- 800
#90226u2544 08/14/1990 ~United Press International
PITTSBURGH (AUG. 14) UPI - Wheeling-Pittsburgh Steel Corp. and the United Steelworkers reached a tentative contract agreement Tuesday that union officials said restored employees to ''first-class status.''

The tentative agreement was announced approximately 30 hours before a strike deadline that had been set for 12:01 a.m. Thursday.

Workers will receive a $3,000 signing bonus, plus an immediate $1.50 average hourly wage increase. The four-year contract also calls for annual increases of 50 cents in each of the next three years.

''We are going to make steel and make money for Wheeling-Pittsburgh Steel '' said Andrew ''Lefty'' Palm, director of USW's District 15 and chairman of the negotiating committee.

''Four years from now, we'll come back and get a better contract.'' Neale Trangucci, a partner of Wheeling-Pittsburgh co-owner Ron LaBow, said. ''It's a good contract for the union and the company. It took a lot of work.''

The contract is subject to vote by the union membership, which will be conducted by mail within two weeks, Palm said.

It calls for employees to be offered a new profit-sharing plan, restores one week of vacation, vacation bonuses, five holidays and overtime pay.

Wheeling-Pittsburgh is emerging from bankruptcy and the terms of the four-year contract will become effective once a reorganization plan is approved by a federal bankruptcy court in September.

The contract will extend through March 1, 1994.

Palm said that as part of the contract, workers will receive approximately 55 percent of claims for money owed them during the bankruptcy, or $13,000 each in stock and cash.

The contract affects approximately 5,500 Wheeling-Pittsburgh workers in Pennsylvania, West Virginia and Ohio.

Wheeling-Pittsburgh is the country's eighth-largest steelmaker.

#90226u2565 08/14/1990 ~United Press International

WASHINGTON (AUG. 15) UPI - Farmers enrolled 168.8 million acres of wheat, feed grains, cotton and rice land in the farm program this year - 78 percent of the land that was eligible, the Agriculture Department said Tuesday.

The highest enrollment rate was for rice, with 95 percent of the eligible land signed into the program. The lowest rate was 10 percent for oats.

Farmers have complained in recent years that support prices for oats were too low.

As a result of the enrollment, 26 million acres of crop land were taken out of production this year.

In order to qualify for governent benefits such as loans and subsidy payments farmers were required to idle 5 percent of their wheat, oat and American-Pima cotton land, 10 percent of their corn, sorghum and barley land, 12.5 percent of their Upland cotton land and 20 percent of their rice land.

The enrollment rates were 78.3 percent for corn, 77.7 percent for sorghum, 69.2 percent for barley, 10 percent for oats, 82.9 percent for wheat, 86.9 percent for Upland cotton, 23.3 percent for American-Pima cotton and 95.1 percent for rice.

The overall enrollment figure was similar to the 77.8 percent reported in 1989 when 171 million acres were in the program. In 1988, the enrollment rate was 84 percent.

#90226u2575 08/14/1990 ~United Press International

WASHINGTON (AUG. 14) UPI - The Iraq government said Tuesday that an estimated 3,000 Americans stranded in Iraq and occupied Kuwait were not being allowed to leave and no timetable has been set for their departure.

ABC News, quoting sources in Iraq's foreign ministry in Baghdad, said Tuesday that Iraq has now labeled Americans in Iraq and Kuwait as ''restrictees'' who will not be allowed to leave until the crisis in the Persian Gulf is resolved.

There were an estimated 2,500 Americans in Kuwait and another 500 to 600 U.S. citizens in Iraq who have been stranded since Iraq invaded Kuwait on Aug. 2.

White House spokesman Marlin Fitzwater said he was not familiar with the report and thus could not comment on it.

Haitham al Najjar, first secretary of the Iraq Embassy in Washington, confirmed that Americans were not being allowed to leave Iraq and Kuwait and gave no timetable for their release.

''This is true, but it is not a new development. We have been saying since the beginning of the crisis that they can't leave because we are responsible for their safety and only diplomats are now able to go,'' Haitham said in an interview with United Press International.

''They are not prisoners and not hostages,'' he said, but added, ''They are not being allowed to leave at the present time due to the exceptional circumstances. The government might issue some instructions for these foreigners to leave, but that depends on the situation. They will be able to leave when it is possible to do so.

''We can assure you they are living happily, comfortably and in peace and are being visited by the U.S. charge d' affaires in Baghdad,'' Haitham said.

The Iraqi diplomat also said the fate of the Americans was not necessarily tied to Thursday's scheduled meeting between President Bush and Jordan's King Hussein at the president's vacation home in Maine.

Hussein, who is assuming the role of mediator in the conflict, is said to be carrying a peace initiative from Iraqi President Saddam Hussein.

''There is no connection between a possible government decision to allow foreigners to leave and King Hussein's visit,'' Haitham said. ''Iraq can make a decision at any time.''

ABC News correspondent Ted Koppel, reporting from Baghdad, said he asked a Foreign Ministry official in the Iraqi capital whether the Americans were being held hostage.

''It is not a word that the Iraqis like to use, but the official conceded to me that even though all of the Americans he said were being well treated and well-housed and that they are in no immediate danger, nevertheless they were not free to leave,'' Koppel said.

''He called them restrictees and made the point that their exit from Iraq was going to be restricted until this crsis is over.''

-30- 3002

#90226u2588 08/14/1990 ~United Press International

(AUG. 14) UPI - Jordan's King Hussein flys to Washington to meet with President Bush, carrying a joint Iraqi-Jordanian peace plan he drafted with Iraqi President Saddam Hussein to resolve the Persian Gulf crisis. British and U.S. ships patrolling the tense waters of the gulf, meanwhile, are under orders to interdict Iraqi shipping, and a British frigate challenged a Cypriot oil tanker thought to be carrying Iraqi oil.

The five permanent members of the U.N. Security Council agree to discuss a Soviet suggestion to create a U.N. military command in the Persian Gulf

for joint operations against Iraq. A meeting ''no later than the end of this week'' at U.N. headquarters in New York is to include ambassadors from Britain, France, the Soviet Union and China.

Senior Kuwaiti officials say the Iraqi invasion of Kuwiat can only be reversed through military action by the United States, Saudi Arabia and other nations. The officials are pessimistic about the success of economic sanctions against Iraq.

Iraq says an estimated 3,000 Americans stranded in Iraq and occupied Kuwait are not being allowed to leave and no timetable has been set for their departure. Sources in Iraq's foreign ministry in Baghdad are labeling the Americans in Iraq and Kuwait as ''restrictees.''

Iraq hurriedly seeks to reinforce its tiny navy and merchant marine and to circumvent U.N. sanctions. Gulf and European shipping sources say Iraq is looking both for warships and merchant vessels, but the nation will have severe problems with its search.

Wide compliance with U.N. sanctions against Iraq could make it feel the economic pinch soon, officials and analysts said, but they emphasized that Baghdad's capacity to endure shouldn't be underestimated.

Kuwait's government in exile has organized small bands of resistance fighters who have been conducting nightly raids across Saudi Arabia into the occupied emirate, reportedly killing several Iraqi soldiers. There were no immediate indications of the effectiveness of the opposition.

-30- 2219

#90226u2598 08/14/1990 ~United Press International

(AUG. 14) UPI - President Bush gave a warning today to Jordan's King Hussein , who is soon to be a guest at his house. Bush says ''it might well be'' necessary to close down the Jordanian port of Aqaba.

Jordan's foreign minister says Jordan respects the U-N resolutions, but is looking for a way to impose the sanctions ''without being hurt.'' In the Persian Gulf, a British frigate today challenged a Cypriot oil tanker

thought to be carrying Iraqi oil. The tanker went on its way after indicating it had NO cargo. Two Iraqi tankers also were turned away from the United Arab Emirates.

One of the two rebel factions in Liberia's civil war says it killed rival guerrilla leader Prince Johnson. The defense minister for rebel chief Charles Taylor says Johnson was ambushed last night on an island near the Liberian capital of Monrovia. But a spokesman for the U-S State Department says a reliable source claims Johnson was seen alive after the alleged attack. Taylor and Johnson have been vying to be the first to overthrow Liberian President Samuel Doe.

The Hubble Space Telescope- first advertised as a prodigy, then condemned as a failure- is about to prove just how good or bad it is. Astronomers will begin a series of tests Thursday to determine how accurate the instrument is. For two weeks, NASA will focus Hubble on galaxies, double stars and star clusters. The telescope has blurry vision because its mirror was ground INcorrectly.

#90226u2602 08/14/1990 ~United Press International

TALLAHASSEE, FL (AUG. 15) UPI - FundAmerica Inc. was ordered Tuesday to immediately stop its sales program in Florida and pay $8 million in fines for alleged fraud and sales of unregistered securities.

State Comptroller Gerald Lewis said the California company, which charges members up to $3,200 for price breaks on credit card fees, airline tickets or other services, is really an illegal pyramid scheme, with 98 percent of its income derived from the sale of new memberships.

Lewis, who regulates the Florida securities industry, imposed the penalties after FundAmerica failed to respond to a complaint filed July 19 by the state.

''By imposing the largest fine ever levied in a Florida investor protection case, we are sending a message to con artists contemplating operations in this state that fraud will not be tolerated,'' Lewis said.

Criminal charges have also been filed against FundAmerica and its president, Robert Edwards, said Statewide Prosecutor Peter Antonacci.

Additionally, Attorney General Bob Butterworth has gone to court under Florida's consumer protection laws, seeking a cease-and-desist order on grounds FundAmerica committed unfair and deceptive trade practices.

(AUG. 14) UPI - A former Northwest Airlines pilot testified today that he ''absolutely did NOT'' fly under the influence of alcohol during a March flight from Fargo, North Dakota, to Minneapolis. Robert Kirchner also said he did NOT violate a federal rule prohibiting pilots from consuming alcohol within eight hours of a flight. But in a trial with two other crew members, Kirchner admitted he broke Northwest's ban on drinking within 12 hours of a flight.

A man poisoned by a cocaine-laced malt drink is breathing on his own today. Hospital officials in Miami say the victim's condition improved one day after he was declared brain-dead... and just hours before he was to be taken off life-support systems. Investigators believe Colombian drug traffickers were attempting to smuggle cocaine into the United States by dissolving it in the malt... and later filtering it out... but somehow lost track of the shipment.

The woman whose romantic affairs with members of the clergy caused an upheaval in Atlanta's Roman Catholic community has been hospitalized. 27-year-old Vicki Long is said to be suffering from mysterious abdominal pain. Long reportedly had a two-year affair with Archbishop Eugene Marino... the highest-ranking black in the church, who stepped down before admitting the involvement. Long also says she had affairs with two other Georgia priests.

Chicago-based Operation PUSH today urged its supporters to put electrical tape over the logos on their Nike shoes as part of a boycott against the company. PUSH also targeted 10 cities for UNspecified ''direct action'' against the maker of the athletic shoes. Nike questions the motivation behind the PUSH action and defended its commitment to the black community.

#90226u2832 08/14/1990 ~United Press International
(AUG. 14) UPI - A firefighter battling wildfires in northern California died of massive head injuries today- a day that saw other fires taper off in the West. Despite the ebb, three fires are still burning across 22-thousand acres of Yosemite National Park.

The second Red Cross hostage freed by Palestinian extremists in a week flew home to Switzerland today after 10 months captivity. Elio Erriquez was handed over to Syrian authorities in West Beirut last night and driven from Lebanon to Damascus.

Police in Peru say a series of terrorist attacks last night and early today left three people dead and 19 wounded. The attacks included a car bombing near the presidential residence that injured at least five passers-by.

Organizers of a 48-hour general strike that began yesterday in the Dominican Republic say the work stoppage may be extended if the government fails to stop violence against protesters. So far, at least four people have been killed in the strike that has paralyzed the Caribbean island nation.

Czechoslovak President Vaclav Havel arrived in Mexico today for a two-day visit aimed at beefing-up bilateral relations between the two countries. Earlier, in Managua, he signed a trade expansion accord with Nicaragua.

A judge in Santa Monica, California, today accepted the four-Million-dollar estate of actor Marlon Brando as bail for his son, Christian. The younger Brando... who's charged with the murder of his half-sister's boyfriend... has been in jail nearly three months. He's expected to be freed tomorrow.

(AUG. 14) UPI - The estimated three-thousand Americans in Iraq and occupied Kuwait reportedly will NOT be allowed to leave until the Persian Gulf crisis is resolved. Sources in Iraq's foreign ministry in Baghdad are labeling the Americans as ''restrictees.'' An official of the Iraq Embassy in Washington confirms that the Americans are NOT being allowed to leave and gave NO timetable for their release. But he insists the U-S citizens are ''NOT hostages.''

King Hussein of Jordan headed to the United States today for meetings with President Bush and Secretary of State Baker. Officials say the monarch is carrying a joint Iraqi-Jordanian peace plan he drafted with Iraqi President Saddam Hussein to resolve the Persian Gulf crisis. The conflict was sparked by Iraq's occupation of Kuwait and left King Hussein in a financial and political squeeze.

President Bush returned to Washington from his vacation home in Maine to deal with the budget and the Middle East crisis. In fiscal matters, the president blamed Congress for the problems... saying lawmakers must move now to bring the deficit under control. And since the Democrats control Congress, the president clearly placed the burden in their laps... saying it's time for Democrats on Capitol Hill ''to put up or shut up.''

The Soviet justice minister is asking U-S judges for help in creating an independent judicial system in the Soviet Union. The official met with U-S Attorney General Thornburgh and the nation's top state judges today in Bolton Landing, New York. The minister asked the judges how best to insulate the judiciary from the Soviet political system and how to build a jury system. He said his nation longs for ''genuine independent courts.''

#90226u2911 08/14/1990 ~United Press International
(AUG. 14) UPI - A firefighter died today of injuries suffered combating a blaze in northern California. Kenneth Enslow was struck by a falling branch yesterday and died of massive head injuries. The majority of wildfires were sparked by lightning strikes last week and ravaged more than 400-thousand acres in seven states. Today, officials report many of the fires were either extinguished or largely contained.

The jury in the Central Park ''wilding'' trial again today reviewed videotaped statements made by two of three teen-agers on trial for rape and attempted murder. The jury also heard a reading of testimony about when victims were attacked on the night of the April 1989 attack in New York. The jury seems to be trying to establish the time and sequence of events leading up to the nearly fatal attack on an investment banker who had been out jogging.

A federal judge in Norfolk, Virginia, ruled today that those who salvaged gold from a sunken ship are entitled to keep it. The judge awarded ownership of a 19th century shipwreck to the Columbus-America salvaging group. The group has brought up a ton of gold from the ship off the South Carolina coast since last summer. Insurance companies object that they paid for the lost gold. Others claim their research led Columbus-America to the booty.

An elderly lobster has been saved from a supermarket raffle and returned to the briny deep. The 16-inch-long lobster is an estimated 70 years old and is over the legal size for catching. Shopper Bonnie Hazen rescued the crustacean from a tank in Canonsburg, Pennsylvania... and sent him back to Maine. Most lobsters that are eaten have NOT yet reached sexual maturity. But Hazen says this shellfish was ''in his prime'' and ''should be in the ocean procreating.''

#90227b0005 08/15/1990 ~Business Wire
NEWPORT BEACH, Calif. (AUG. 15) BUSINESS WIRE - Pacesetter Business Properties (PSE:PBP) reported a net loss of $812,000, or 53 cents per share, on revenues of $2,178,000 for the quarter ended June 30, 1990, compared with a net loss of $1,312,000, or 85 cents per share, on revenues of $2,172,000 for the same period in 1989, Steven R. Strauss, president, announced Wednesday.

The 1989 results included a reserve for estimated assessments resulting from an examination by the Internal Revenue Service for the 1983 and 1984 tax years. This reserve increased the company's after-tax loss in 1989 by

$899,000. No such reserve has been recorded in 1990.

The major reason for other changes in activity from 1989 to 1990 is the addition of interest and property tax expenses in 1990 related to the Corona improved industrial land now held for development and/or sale.

As described in the company's annual report on Form 10-K for the fiscal year ended Dec. 31, 1989, the company is considering alternative corporate strategies and sources of cash. As of Aug. 13, 1990, the outstanding amount of indebtedness under the company's line of credit, which has a stated maturity of Aug. 1, 1990, was approximately $750,000.

The company is currently negotiating the sale of certain notes receivable secured by real estate in order to generate cash to repay this indebtedness.

Although a definitive agreement has not yet been executed, the company presently expects to consummate a transaction by the end of August 1990 that will yield net proceeds of approximately $1 million, of which approximately $750,000 will be utilized to repay the company's line of credit indebtedness described above. No assurance can be given, however, that such a sale will be consummated.

The pre-tax losses for Pacesetter Business Properties, which primarily develops commercial and industrial properties for long-term investment, include depreciation expense of $632,000 and $513,000 for the quarters ended June 30, 1990 and 1989, respectively, on rental properties held by the company for investment.

As previously reported, Pacesetter Business Preperties was spun-off to its shareholders in a tax-free stock distribution by its former parent company American Pacesetter, on June 30, 1988. On that date, Pacesetter Business Properties commenced operations as a separate publicly-held company.

#90227b0006 08/15/1990 ~Business Wire

WAUKESHA, WI (AUG. 15) - Criticare Systems Inc. (NASDAQ:CXIM) a manufacturer and marketer of medical monitoring equipment, today reported record revenue of $18,206,372 for fiscal year 1990, a 32 percent increase from revenue of $13,809,074 reported in fiscal 1989.

Revenue for the fourth quarter of fiscal 1990 increased for the fourth consecutive quarter to $5,527,390, a 53 percent increase from revenue of $3,610,587 in the fourth quarter of fiscal 1989.

Net income for fiscal year 1990 rose 233 percent to $338,963, or 5 cents per share, from a loss of $(254,006) or (4 cents) per share, for the prior year. Net income for the fourth quarter of fiscal 1990 rose 154 percent to $243,123, or 3 cents per share, from a loss of $(446,183) or (7 cents) per share, reported for the fourth quarter of fiscal 1989.

Gerhard Von der Ruhr, president commented that the increase in revenue was a result of the combination of the continued effectiveness of the direct sales force, Alternate Care and International Divisions as well as an expanded product line.

Von der Ruhr further elaborated that improved profit results were directly related to the increased sales volume and maintaining engineering and administrative expenses at fiscal year 1989 levels for the fourth quarter and fiscal year ended June 30, 1990.

The company's net results were affected by a non-cash loss for the 12-month period of $517,000 due to its investment in the rehabilitation of an historic structure in Milwaukee. The company expects these losses to decline as the building leases up.

Criticare Systems Inc. is involved in the development, manufacturing and marketing of diagnostic and therapeutic products which address two major concerns in health care: the need to improve patient management, and the pressure to contain costs in all aspects of medical practice. The company's products include pulse oximeters and carbon dioxide and anesthetic agent monitors in addition to other vital sign monitoring equipment.

DENVER (AUG. 15) BUSINESS WIRE - Forest Oil Corp. announced Wednesday that it has entered into an exploration agreement with Walter Oil & Gas Corp. of Houston to drill an initial exploratory well on Vermillion Block 275 offshore Louisiana.

The well was spudded on Aug. 13, 1990 and will be drilled to a vertical depth of 14,000 feet in approximately 170 feet of water.

Forest currently owns a 100 percent working interest in the 5,000 acre tract purchased at the 1989 federal offshore lease sale. Under the agreement Walter will earn a 50 percent working interest in the block. Walter will act as operator for the exploratory and any subsequent

development phases of the operation.

Forest Oil Corp. is engaged in the exploration for and acquisition, development and production of oil and natural gas. The company's principal reserves and producing properties are located offshore Louisiana and in Texas, Wyoming, Oklahoma and Alberta, Canada. The company is traded on the NASDAQ/NMS system, under the FOIL symbol.

PHOENIX (AUG. 15) BUSINESS WIRE - Frontier Adjusters of America Inc. (NASDAQ:FRON), one of the fastest growing independent insurance adjusting companies in the United States, Wednesday announced record revenue and net income for its year ended June 30, 1990.

The company reported net income of $709,413, or 17 cents per share, on revenue of $3,788,345 for the year compared to net income of $474,257, or 11 cents per share, on revenue of $3,020,301 in the previous year.

That represents a 50 percent increase in net income and a 25 percent increase in revenue over fiscal 1989. Gross billings, which are customer billings by all Frontier offices, grew 21 percent to $29 million from $24 million in fiscal 1988.

William J. Rocke, president of Frontier, attributed the improved results to three factors: One, growth among existing Frontier offices, combined with revenue from new Frontier offices, resulted in a 20 percent increase in continuing license and franchise fees over last year; two, a 40 percent increase in fees from company owned adjusting operations; and, three, a slight increase in fees from the company's risk management operation.

Frontier had a net increase of 34 new offices during the fiscal year, bringing the total number of Frontier offices to 402 in 47 states plus Canada.

Frontier increased its quarterly dividend to 1 cent during the year and in August announced a special 1 cent dividend. Total assets at year ended had increased 44 percent, to $3.4 million from $2.4 million. Stockholders' equity increased nearly 33 percent during the like period.

One of only three publicly held insurance adjusting networks in the United States, Frontier will hold its annual meeting of shareholders in Phoenix in October.

#90227b0025 08/15/1990 ~Business Wire

SUNNYVALE, CA (AUG. 15) BUSINESS WIRE - Xerox Wednesday announced the immediate availability of Xerox Chemical Illustrator scientific application software that is targeted at the pharmaceutical, chemical and related industries.

The new software marks another entry into the company's collaborative systems and publishing solutions.

Designed in direct collaboration with pharmaceutical and chemical industry users, the software addresses the recurring productivity problem chemists and pharmacologists have had documenting and communicating their ideas.

Chemical Illustrator allows professionals in the pharmaceutical, medical and petrochemical industries to easily create complex representations of chemical formulas and structures -- incorporating vector graphics and text -- instead of drawing them by hand.

Chemical Illustrator provides direct creation and editing of chemical structures such as rings, bonds and symbols plus basic drawing tools such as arrows, brackets, arcs and curves. It can be customized to an individual's drawing style or to meet departmental style guidelines.

A key capability allows users to edit chemical structures within the document, whereas in many cases today, users must edit inside a separate on-screen window and then cut-and-paste the document together.

Built upon the Xerox-pioneered ViewPoint graphical user interface and currently running on Xerox 6085 workstations, Chemical Illustrator can be

used by a novice, scientific support person or research chemist.

Because users' requirements vary, Xerox packaged Chemical Illustrator in two parts -- Xerox Illustrator Basics and Xerox Chemical Illustrator. This allows customers to purchase only what is needed.

Xerox Illustrator Basics provides viewing and printing capabilities for support staff, management personnel and others who need to work with, but not draw or edit, documents that contain chemical drawings. Chemists and other staff members who create, edit and print chemical drawings will need both Illustrator Basics and Chemical Illustrator.

The Xerox Chemical Illustrator is available immediately and can be ordered directly from the Xerox Integrated Systems Operations. The United States single unit list price is $795 for Xerox Chemical Illustrator software and $195 for Xerox Illustrator Basics. Volume discounts are available.

#90227b0034 08/15/1990 ~Business Wire

SIGNAL HILL, CA (AUG. 15) BUSINESS WIRE - Signal Hill could reap a development dividend of up to $268 million in addition to an annual general fund surplus, according to a study released in Signal Hill Wednesday by Southwest Diversified (SWD).

In publishing the study, SWD Senior Vice President Michael R. Engle said "Combined with a commercial/retail Town Center, our residential development wouldn't cost Signal Hill a penny - the revenue would far exceed every dollar spent for services." SWD, Signal Hill's largest property owner, is currently negotiating to develop Signal Hill's Hilltop and surrounding areas.

The study is titled, "The Fiscal and Financial Impact of Various Residential Development Densities." It analyzes two Town Center configurations and three residential scenarios: (a) SWD's originally proposed 1,279 dwellings; (b) a reduction to 1,000 dwellings; and (c) 425 dwellings, the minimum in SWD's proposed agreement with the city.

Engle said that copies of the study, dated July 15 and prepared by Irvine-based David Taussig and Associates Inc., are available to any interested parties from SWD's Signal Hill office.

The financial impact consists of new property tax revenues to the Signal Hill Redevelopment Agency (RDA). These would be generated by the proposed development and would translate to more money in RDA coffers available to

the city for improved services, enhanced infrastructure and a better quality of life in Signal Hill for all its citizens and businesses.

With 1,279 dwellings, the annual property tax increment accruing to the city at project build-out would be approximately $5 million, or a cumulative total of $268 million when the RDA matures in 2024. At a minimum, with 425 homes, an annual property tax increment of approximately $2.7 million would accumulate to a total of about $149 million by the year 2024.

Sales and other use taxes from the new residential and commercial/retail development would also exceed annual city costs at project build-out. At 1,000 dwellings, for example, residential and commercial/retail development could generate $1,003,000 in recurring revenues versus $790,000 in recurring costs.

Paid for by sales and use taxes would be increased police protection; street, signal and drainage maintenance; street lighting; park and median landscape maintenance; community services and general government administration. Over and above these increased services, Signal Hill would accumulate an additional annual surplus for the city's general fund of up to $213,000, or as much as $7.2 million over a 30 year period.

#90227b0043 08/15/1990 ~Business Wire

REDMOND, WA (AUG. 15) BUSINESS WIRE - Microsoft Corp. and Pioneer Software Wednesday announced the availability of Q+E version 2.5, an easy-to-use database query and edit tool that links Microsoft Excel for Windows and other Windows applications to external databases.

Q+E version 2.5 supports Microsoft SQL Server, the highest- performing PC database management system in the industry, plus dBASER-compatible databases and ASCII text files.

This new version of Q+E is compatible with Microsoft Windows environment version 3.0, delivering all of the benefits of the graphical environment. To browse through databases or select, sort and join database files, users simply use the mouse to click to on-screen icons. Q+E users can easily extract information from numerous sources and download the data into Microsoft Excel for analysis.

Q+E version 2.5 features a new modular architecture as opposed to its previous structure, where capabilities were contained in a single executable file. Q+E is now composed of two parts: a user interface layer

and a driver layer. This design will enable Q+E to access a wider variety of databases as new drivers are developed, and it allows users to conserve memory by loading only the drivers they need.

Additional new features in version 2.5 include interface improvements, such as forms and movable columns, for an even closer resemblance to Microsoft Excel; and the ability to define databases from within Q+E.

Obtaining information from external databases is easy with Microsoft Excel for Windows and Q+E. Version 2.5 is seamlessly integrated into Microsoft Excel. When users install Q+E, the needed commands are added to the Microsoft Excel Data menu. Q+E transparently extends the Microsoft Excel built-in database by automatically generating industry-standard Structured Query Language (SQL) commands to extract information from external databases. Once the desired file is located, Q+E automatically generates the SQL query to access the database.

Q+E version 2.5 allows users to browse and sort through databases before importing the data to create a spreadsheet. Several database tables or files can be viewed on the screen at the same time, which makes it easier to create a ''join'' of several tables or to browse through related but separate databases.

Microsoft Corp. (NASDAQ: MSFT) develops, markets and supports a wide range of software for business and professional use, including operating systems network products, languages and application programs, as well as books, hardware and CD ROM products for the microcomputer marketplace.

#90227b0044 08/15/1990 ~Business Wire

REDONDO BEACH, CA (AUG. 15) BUSINESS WIRE - The Manufacturing division of TRW's Electronic Systems Group has won a $2 million contract to upgrade techniques for manufacturing advanced composite components for spacecraft, Dr. Robert M Fielding, the division's vice president and general manager, said Wednesday.

The 12-month contract, sponsored by the Air Force's Space Systems division, is part of the government's Industrial Modernization Incentive Program (IMIP), a joint industry/government effort to develop and implement advanced manufacturing techniques in critical national defense areas. TRW

is a preeminent builder of advanced spacecraft for defense, civil, and scientific use.

"Composite materials offer a means to build lighter and stronger spacecraft structures," reports Dr. Fielding. "Every pound saved represents a reduction in launch costs or an opportunity to add more capability to the spacecraft."

Among the steps being taken is the development of an electronic (or "paperless") manufacturing environment for composite materials in which the drawings and specifications of engineers and designers are transferred directly from their computers to the computer which drives the machines which perform the actual manufacturing processes.

"IMIP is a three-stage program," reports Gerald A. Herr, manager of strategic manufacturing technologies and systems. "Phase 1 identifies manufacturing areas or processes that are candidates for improvement; in Phase 2, an IMIP contractor will design, build, and test improvements for one or more of the candidates selected; in Phase 3, capital is committed, the necessary hardware/software obtained, and the improvements implemented."

IMIP is a joint effort, with the government funding Phases 1 and 2 and the contractor funding Phase 3. "All results are public domain and are available to other manufacturers," Herr adds.

The Manufacturing division is the manufacturing "center of excellence" of TRW's Space & Defense Sector. Operations include the fabrication, assembly, and test of high-reliability space hardware; spacecraft bus and payload electronics, structures, antennas, solar arrays, and associated support equipment.

#90227b0048 08/15/1990 ~Business Wire

PROVIDENCE, RI (AUG. 15) BUSINESS WIRE - Old Stone Corp., a $3.7 billion asset diversified financial services company, Wednesday announced that it has discontinued efforts to sell its North Carolina bank subsidiary since management has determined that the economic and regulatory climate which has developed over the course of the year is not favorable to the divestiture of this operation on acceptable terms.

The company had originally announced the sale as part of a restructuring plan in late 1989.

Said President and Chief Executive Officer Theodore W. Barnes, ''Frankly,

a general downturn in the economy and continuing regulatory examinations throughout the country have removed many potential bidders from the market for this type of acquisition for the time being. Old Stone Bank of North Carolina is a highly capitalized and profitable company and it would not be prudent to pursue its sale in this climate.''

Instead, the corporation announced it will explore the sale of other assets including the potential sale of all or a portion of Old Stone Credit Corp. Old Stone Credit Corp., headquartered in Jacksonville, Fla., originates first and second residential mortgages for sale into the secondary market.

''We believe that other corporate assets, such as Old Stone Credit Corporation, will be attractive to a different investor market which is not subject to the same factors as those seeking to acquire regulated thrift entities,'' continued Barnes.

Since it first announced its restructuring plan, Old Stone Corp. has sold its California-based residential real estate construction lending unit, its tuition-budgeting company and its Seattle-based retail branch network.

These sales were a major factor in the corporation's principal subsidiary, Old Stone Bank, a Federal Savings Bank, headquartered in Providence, R.I., meeting its current minimum risk-based capital requirements earlier than planned. The company anticipates that the proposed sale of Old Stone Credit Corp. will allow Old Stone Bank to meet new increased minimum standards which become effective in January 1991.

Old Stone Corp. operates 179 offices in 25 states. It engages in retail and mortgage banking and commercial lending as well as money management and trust services. Its stock is traded on the NASDAQ National Market System (Symbol: OSTN).

DENVER, CO (AUG. 15) BUSINESS WIRE - Schield Management Co. (NASDAQ:SMCC) Wednesday announced it has signed a three year employment agreement with Howard Hebert, formerly of Newhard, Cook Advisory Services Inc.

Under the agreement, new advisory contracts with clients will be with the newly formed Schield/Hebert Asset Management Inc. It is anticipated that approximately $20 million or more in assets will be managed initially.

This will increase the total assets under management of Schield Management Co. by about 10 percent.

Hebert has provided institutional investment research for the past 22 years and has managed money for the past 12 years. His equity management

philosophy has been geared toward owning the strongest stocks within the strongest groups.

President Marshall L. Schield stated: ''This is a more traditional money management service which broadens our product base and compliments our existing market timing service and Schield Portfolios Series of mutual funds.

''This diversification will strengthen our competitive presence in the investment management marketplace. This is one more step toward our goal of becoming a larger, diversified company by providing a vehicle for small and mid-sized asset management and financial services firms to consolidate or affiliate with.''

Schield Management Co. has provided investment management services since 1972 and has over $200 million in assets under management. They are one of the larger providers of market timing services in the country.

The Schield Portfolios Series, formed in 1985, consists of five mutual funds, including the recently launched Progressive Environmental Fund.

#90227b0063 08/15/1990 ~Business Wire
SALT LAKE CITY (AUG. 15) BUSINESS WIRE - Wasatch Education Systems Corp. (NASDAQ:WESC) announced Wednesday unaudited results for the second quarter and six months ended June 30, 1990.

Revenue for the quarter increased 40 percent from the second quarter of 1989 to $3.1 million. For the six months, revenue was up 66 percent at $5.4 million. This second quarter report signifies the largest quarterly revenue in the company's history.

Net loss for the second quarter of $366,000, is compared to a small net income for the second quarter of 1989. This was primarily the result of the company's planned commitment to increase its sales and marketing efforts in order to achieve market share gains and an overall increase in revenue. For the first six months of 1990 compared to 1989, net loss has been reduced by 42 percent, or $419,000, from $991,000 to $572,000.

William G. Anthony, president and chief executive officer commented, ''We are very pleased with our sales performance through the first half of 1990. With record-breaking revenue for the second quarter now behind us, we anticipate continued gains throughout 1990 as the historically strongest quarters in our industry remain ahead of us.'' Anthony

continued, ''...during the second half of 1990 we anticipate reaping the reward of our preparedness in the field and we will be focusing on earnings.''

Wasatch Education Systems Corp., of Salt Lake City, develops and markets fully integrated computer-aided learning systems for the elementary and secondary markets and for adult students enrolled in basic education programs. Wasatch Education Systems Corp.'s stock is traded over-the-counter under the NASDAQ symbol WESC.

MOUNTAIN VIEW, CA (AUG. 15) BUSINESS WIRE - Sun Microsystems Inc. Wednesday announced that it has signed a patent cross-license agreement with International Business Machines Corp. (IBM) pursuant to which each company granted the other a worldwide, non-exclusive license covering patents having an effective filing date before July 1, 1995.

Because of the size of the IBM patent portfolio relative to that of Sun, a net royalty payment of a fixed dollar amount will be paid by Sun to IBM. The payment will be made in five annual installments. These payments will not have a materially adverse effect on Sun's financial position or results of operations.

Sun and IBM began negotiations over this agreement in July 1988.

Specific terms of the agreement were not disclosed.

Sun Microsystems Inc., headquartered in Mountain View, Calif., is a leading worldwide supplier of network-based distributed computing systems, including professional workstations, servers and UNIX operating system and productivity software.

TORONTO, ONTARIO (AUG. 15) BUSINESS WIRE - Delrina Technology Inc., (TSE:DC) the developer of the industry leading forms processing software, PerFORM, Wednesday announced a form-trace product to automate creation of PerFORM forms under Windows 3.0.

The yet-to-be-named program was developed under exclusive license by Andromeda Software of Thousand Oaks, Calif. Andromeda wrote the popular autotrace program Streamline, published by Adobe Systems.

Form-trace is a brand new technology using pattern recognition techniques which automatically and interactively recognizes form objects, such as boxes, lines and combs, etc. The software converts scanned forms into PerFORM format output files. Future versions of the product will also include optical character recognition capability.

The form-trace product will be marketed as a stand-alone version for IBM PC-AT, PS/2 and compatibles running Windows 3.0. For optimum performance 2 or more megabytes of RAM memory should be installed on a 386-class computer. Pricing and delivery date has not been determined.

This advisory marks the third product Delrina has introduced for Microsoft's new Windows graphical environment. The company recently announced a range of PC fax board drivers and applications. Its PerFORM PRO, a high-end forms processing solution for demanding users, is expected to ship within several weeks.

The company markets its software products through a worldwide dealership network of more than 2,000 outlets. Delrina Technology Inc. is a wholly owned subsidiary of Delrina Corp.

SEATTLE (AUG. 15) BUSINESS WIRE - Washington Natural Gas Co. has reached

an out-of-court settlement with former holders of its Series D and Series E preferred stock, announced James A. Thorpe, chairman and chief executive officer of Washington Energy Co., the parent company of Washington Natural Gas.

The settlement is subject to a ''definitive settlement agreement,'' according to Thorpe. Washington Energy Co. anticipates a charge against its earnings in the fourth quarter ending Sept. 30, 1990, of approximately 17 cents a share for the fiscal year ending Sept. 30, 1990.

The former preferred owners were Ford Motor Credit Co., MDFC Equipment Leasing Co. and Westinghouse Credit Corp.

ENGLEWOOD, COLO. (AUG. 15) BUSINESS WIRE - Medical Dynamics Inc. (NASDAQ:MEDY), a provider of micro-invasive surgical and diagnostic camera systems, Wednesday announced results for its third quarter and nine-month period ended June 30, 1990.

The company reported a net loss of $226,100, or 5.5 cents per share, on revenue of $749,300 for the third quarter vs. net income of $163,500, or 6.7 cents per share, on revenue of $986,600 for the same quarter a year ago. For the nine-month period the company reported a net loss of $513,400, or 13.1 cents per share, on revenue of $2,359,600 compared to a net loss of $157,000, or 6.9 cents per share, on revenue of $2,584,000.

Van A. Horsley, president and chief executive officer of Medical Dynamics, attributed the net loss through nine months to three factors: One, slower-than-expected sales of the company's new Model 5990 Optical Catheter System; two, decreasing orders from OEM customer R. Wolf for Model 5940 systems; and three, a nearly $200,000 write-off of obsolete inventory during the second quarter.

He said start-up costs associated with the new Model 5960 system and an increase in sales and marketing expense also contributed to the net loss.

Medical Dynamics sold three Model 5990 Optical Catheter Systems during the quarter, bringing to 12 the total number sold since the product was introduced last year. The company received an order from another OEM customer for 60 Model 5960 systems. Delivery on this order began in June and will continue through October 1990.

Horsley said the Model 5960 system, successor to the Model 5940 system, is

ideally suited to the emerging laparoscopic surgery market and added that the popularity of the 5960 is expected to increase both as new applications for the product are developed and as more physicians are trained in its use.

The company's cash positon was strong through nine months at approximately $1.6 million. During the third quarter the company received $644,000 through the exercise by shareholders of common stock purchase warrants, raising to $906,000 the amount of money raised through warrant exercise to date.

#90227b0085 08/15/1990 ~Business Wire

LOS ANGELES (AUG. 15) BUSINESS WIRE - Bishop Inc. (NASDAQ:BISH) a leading supplier of engineering design products and systems, Wednesday reported revenues of $2,370,000 for the third quarter of fiscal 1990 ended June 30, which represents a 3 percent decline from $2,444,000 recorded a year ago.

Revenues also declined 3 percent for the nine months ended June 30, to $7,317,000 from $7,526,000 for the same period last year.

In line with expectations, the company incurred a net loss of $511,000, or 22 cents per share, in the third quarter compared with a net loss of $330,000, or 14 cents per share, a year ago. For the respective nine-month periods, Bishop reported a deficit of $872,000, or 37 cents per share, vs. a loss of $393,000, or 17 cents per share.

Regarding results, John J. Theiss, president and chief executive officer, said, ''A pattern of deepening losses during the year had been anticipated as we incurred costs to reposition our operations to compete more effectively in the engineering design market. With major aspects of our long-range program now in place, we expect to reverse this trend, beginning in the fourth quarter.''

Key to future results is the company's increasing emphasis on computer aided design systems offered through their InterCad subsidiary. InterCad sales, which now account for more than 40 percent of total revenues, doubled in the third quarter from a year ago, nearly offsetting the continued decline in demand for traditional printed circuit design products.

Expanding their product line from specific computer aided designs to general engineering workstation applications, InterCad's growth continues to outpace the industry. Further gains are expected as InterCad provides the higher margin, sophisticated consulting and training services needed by its customers.

During the third quarter, Bishop consolidated the Northern California operations. The company combined its traditional engineering design products with InterCad's advanced computer aided design systems into a single facility located in Santa Clara, thereby providing economies of scale, reciprocol support for these product lines, and an integrated distribution channel unparalleled in the industry.

Further planned consolidations, an improved product mix, and continued financial strength point to improved longer term prospects for this well established factor in the engineering design market.

Bishop Inc., founded in 1965 and with headquarters near Los Angeles in Agoura Hills, Calif., supplies a complete line of design products and services through its manufacturing, marketing, and distribution operations. The company serves the engineering, architectural, and drafting markets in the United States, and in 72 countries throughout the world.

#90227b0099 08/15/1990 ~Business Wire

LOS ANGELES (AUG. 15) BUSINESS WIRE - MagneTek Inc. (NYSE:MAG) Wednesday announced its operating results for the fourth quarter and fiscal year ended June 30, 1990.

The company's annual sales topped $1 billion for the first time, and earnings per share were $1.40, up 69 percent from 83 cents a year ago.

Revenues for the fourth quarter were $281,264,000, compared with $257,412,000 in the fourth quarter of fiscal 1989. Net income was $11,030,000, or 47 cents per share, up 124 percent from $4,789,000, or 21 cents per share (Note A), in the same period in 1989.

Revenues for fiscal 1990 totaled $1,055,420,000 against $961,649,000 last year. Net income for the year amounted to $33,228,000, or $1.40 per share vs. $18,275,000, or 83 cents per share (Note A), in fiscal 1989.

As a result of MagneTek's initial public offering in June of 1989, fiscal 1990 per-share earnings are calculated on 5 million more average shares

outstanding than 1989 per-share earnings.

Shareholders' equity grew 34 percent to $133 million during fiscal 1990, reducing MagneTek's debt-to-equity ratio to 2.9-to-1 from 3.8-to-1. This trend is expected to continue in fiscal 1991.

MagneTek President Frank Perna attributed the company's strong performance to internal cost reduction and growing demand for energy-related products and services.

MagneTek makes high-efficiency electrical equipment and renovates electric power plants, enabling utilities to generate more power with less fuel. MagneTek is also America's largest builder of medium-power transformers used to upgrade the nation's electric power transmission grid.

Perna noted that higher oil prices could create even stronger demand for such Energy Engineered products and services. He said that MagneTek's profitable growth is expected to continue into the new fiscal year, citing a 20 percent increase in the company's new order bookings in the fourth quarter compared with a year ago.

According to Perna, cash flow from operations should allow MagneTek to strengthen its balance sheet while making the investments necessary to claim a greater share of world markets. The company recently announced a joint venture in Hungary and formed a subsidiary in Germany to consolidate and expand its European interests.

MagneTek provides a wide range of Energy Engineered electrical equipment and services to utilities and industrial customers. The company operates 50 manufacturing and service facilities throughout North America and overseas, and employs approximately 15,000 associates worldwide.

SANTA CLARA, CALIF (AUG. 15) BUSINESS WIRE - Voicemail International Inc. (VOICEMAIL), Wednesday announced the release of software version 4.2 which incorporates new and expanded capabilities for VOICEMAIL systems.

User interface enhancements include expanded urgent message capabilities to allow user-selectable priority settings for all types of messages and improved silence compression to eliminate lengthy gaps in recorded messages, thereby reducing the length of a message and saving valuable disk space.

The system's new Forum Box allows outside callers to listen to and/or record messages on a public information board. This information could include anything from items for sale and special event notices to public opinion polls.

Enhancements to the company's automated attendant option include the addition of dynamic line allocation which eliminates the need to assign telephone lines to specific answering modes. For example, a company that currently dedicates lines to individual departments for special custom greetings can now provide these greetings on a single group of lines used for both telephone answering and user access.

In the area of telecommunication interfaces, VOICEMAIL has upgraded its Centrex integration software to support up to 999 message desks, implemented an R2 signaling interface for inbound DID calls for international installations, and expanded its Ericsson MD110 integration to support MD110 software version 4.

VOICEMAIL is a publicly held company that markets voice processing services and systems worldwide. The company's proprietary, patented VOICEMAIL systems allow callers to record and retrieve natural voice messages and information from any telephone.

SANTA FE SPRINGS, CA (AUG. 15) BUSINESS WIRE - McFarland Energy Inc. (NASDAQ:MCFE) announced unaudited financial results for the quarter ended June 30, 1990, and the six-month period ended the same date.

Revenues for the three months ended June 30, 1990, were $3,934,000, compared with $4,082,000 in the same period in 1989. Revenues for the six-month period in 1990 were $8,911,000 vs. $7,799,000, for the six-month period in 1989. Net income for the second quarter in 1990 was $45,000, equal to 1 cent per share, vs. $466,000, equal to 9 cents per share, in 1989.

Net income for the six months ended June 30, 1990, was $776,000, equal to 15 cents per share, compared with $850,000, equal to 16 cents per share, in 1989.

STAMFORD, CT (AUG. 15) BUSINESS WIRE - Warrantech Corp. (NASDAQ:WTEC), announced Wednesday results for the company's first quarter ended June 30, 1990.

The company again posted record results as gross revenues increased by 297 percent to $12,308,269, up from $4,140,828 recorded in the year earlier first quarter, due in part, to the acquisition of the assets of Dealer Based Services Inc. Net income more than doubled to $322,913, up from last year's first-quarter results of $154,125.

Deferred revenues to be recognized in future periods increased to $7,647,735, up from last year's first-quarter total of $642,558.

Joel San Antonio, chairman of Warrantech, stated that, ''We are satisfied with the results of the first quarter, as traditionally this is one of our slower times of the year. The expanded customer base utilizing the company's specialized services and continuing efforts to streamline the operations of the company all contributed to the first- quarter results.''

Warrantech administers service contracts for consumer electronic products, appliances and home office equipment. Through their wholly owned subsidiary, Warrantech Dealer Based Services, the company administers service contracts for automobiles, leisure craft marine and recreational vehicles.

DALLAS (AUG. 15) BUSINESS WIRE - Continental Mortgage and Equity Trust (NASDAQ:CMETS) Wednesday announced operating results for the second quarter ended June 30, 1990.

For the three months ended June 30, 1990, the trust recorded a net loss of $396,000, or 11 cents per share, on revenues of $3.9 million, compared with net income of $744,000, or 19 cents per share, on revenues of $3.9 million in the second quarter of the prior year. For the six months ended June 30, 1990, the trust recorded a net loss of $703,000, or 19 cents per share, on revenues of $7.6 million, compared with net income of $19,000 on revenues of $7.9 million in the first half of 1989.

Net rental income increased $300,000, to $1.7 million, in the first half of 1990, compared with $1.4 million recorded in 1989's first six months.

Sale of four foreclosed properties (which had previously reduced net rental income), increased occupancy rates and lower management and administrative expenses were the primary factors in the increase. General and administrative expenses increased in part because of professional fees related to a class action settlement.

The trusts' equity in results of operations of partnerships for the quarter of 1990 was a loss of $400,000, compared with income of $600,000 for the same period in 1989 due to a $.7 million gain recognized during the second quarter of 1989 on the sale of partnership properties.

Continental Mortgage and Equity Trust is a combination mortgage and equity real estate investment trust which operates nationwide.

JUNEAU, AK (AUG. 15) BUSINESS WIRE - Sealaska Corp. has signed an agreement with the American Copper & Nickel Co. Inc. (ACNC) to explore mineral prospects on Sealaska lands on Prince of Wales Island in Southeast Alaska.

The five year lease agreement allows ACNC to conduct geologic work and drilling on 14,000 acres in the Cholmondeley Sound area. Sealaska's preliminary geologic surveys indicate the area has significant potential for gold as well as silver and copper.

''Our agreement with American Copper & Nickel Co. is part of our long term strategic plan for minerals development,'' Byron I. Mallott, president and chief executive officer of Sealaska said. The agreement provides ACNC with the option to lease for minerals development and provides Sealaska the option to become a partner in the development. ''ACNC is an ideal company to work with. ACNC has agreed to a 20 percent Sealaska shareholder or Alaska Native hire and the company is recognized for their record for environmental protection,'' stated Mallott.

ACNC is a wholly owned subsidiary of Inco Ltd. Inco Ltd. is a major multi-national minerals company based in Toronto. Inco is the world's largest producer of nickel metal. Although ACNC does not operate any mines, the subsidiary serves as the U.S. exploration company for Inco. ACNC is also exploring for minerals in the interior region of Alaska.

Of the 14,000 acres leased by ACNC under the agreement, 10,000 acres of surface lands are owned by Kootznoowoo Inc., the Native village corporation for Angoon. The remaining 4,000 acres were acquired by Sealaska Corp. from the federal government as mining claims under federal mineral location laws. Under the Alaska Native Claims Settlement Act (ANCSA) of 1971, village corporations received title to 23,000 acres of land. Native regional corporations received subsurface ownership of all village corporation lands.

Sealaska Corp., headquartered in Juneau, is one of the 13 Regional Corporations formed under the Alaska Native Claims Settlement Act of 1971. Sealaska's primary investments are in forest products, minerals development and portfolio management.

OVERLAND PARK, KA (AUG. 15) BUSINESS WIRE - As anticipated, Western Financial Corp. has taken additional charge-offs and strengthened its general reserve for loan and real estate losses in the second quarter of 1990.

These actions totalling in the aggregate $8,910,000 caused Western Financial to show a net loss of $7,437,000 ($3.48 per share) for the quarter ended June 30, 1990, as compared to a net income of $543,000 (25 cents per share) for the same period last year.

This resulted in a net loss for the first six months of 1990 of $7,286,000 ($3.41 per share) as compared to net income of $1,018,000 (47 cents per share) for the first six months of 1989. Excluding the charge-offs and the increase in the general reserve, Western's net interest earnings for the quarter increased to $3,545,000 from $3,320,000 for the same period in 1989.

Net interest margin increased 48 basis points for the second quarter of 1990 from the second quarter of 1989. As of June 30, 1990, Western Financial's net worth is $18,917,000.

Since Western Financial's wholly owned subsidiary, Columbia Savings Association, F.A., does not meet the new capital requirements established by FIRREA, it was required to submit a capital plan to the Office of Thrift Supervision (OTS).

This capital plan was approved on March 19, 1990. As a result of the charge-offs and increases in the general reserve for loan and real estate losses during the second quarter of 1990, Columbia Savings will be required to file a new capital plan.

Western Financial Corp. is the parent company of Columbia Savings Association, a banking services company, with 28 deposit offices in Kansas and mortgage banking offices in Kansas, Missouri, and southern California.

SAN FRANCISCO (AUG. 15) BUSINESS WIRE - Williams-Sonoma Inc. Wednesday announced the results of the company's operations for the second quarter ended July 29, 1990.

Net sales for this 13 week period were $57,319,000, an increase of 30.6 percent from the $43,892,000 reported for the 13 weeks ended July 30, 1989.

W. Howard Lester, the company's chairman and chief executive officer, stated, ''Sales were strong in both our Retail and Mail Order business. Comparable store sales increased 12.7 percent. Mail order sales were up 32.3 percent against the 13 weeks ended July 30, 1989.'' Total net sales for the 26 week period were $114,004,000, an increase of 29.2 percent from the $88,259,000 reported for the 26 weeks ended July 30, 1989.

The company announced net earnings for the 13 weeks ended July 29, 1990, of $526,000, or 5 cents per share, compared to the net earnings of $129,000, or 1 cent per share, at July 30, 1989. The net earnings reported for the 26 weeks ended July 29, 1990, was $974,000, or 10 cents per share, compared to net earnings of $493,000, or 5 cents per share, for the same period in 1989.

Williams-Sonoma Inc. is a nationwide specialty retailer of high quality kitchenware and other products for home and garden. These products are marketed through 126 retail stores and five mail order catalogs representing six distinct merchandise strategies: Williams-Sonoma, Pottery Barn, Hold Everything, Chambers, Gardener's Eden and California Closet Co.

TEMPE, Ariz. (AUG. 15) BUSINESS WIRE - Action Products Inc. of Tempe, announced second quarter net income of $174,511, an increase of 23 percent over the second quarter of 1989.

Net income for six months was $197,277 or 8 cents per share as compared to a loss of $262,785 for the first half of 1989. Action's second quarter sales increased to $3,404,651 from $3,293,445. Sales were boosted by completion of a die cast car program for Exxon in the second quarter.

The company sales for the year are up 22 percent to $6,136,363 from $4,775,770 the previous year. Ed Fochtman, chairman of the board, said the company's strong performance in the first half of the year, traditionally the company's slowest period, should allow it to surpass its last year's sales of $10 million.

The company also announced that the letter of intent between Twin Star Productions Inc. of Scottsdale, Ariz. (symbol TWIN) and the company has been mutually terminated.

Action Products is a manufacturer of Gas Powered Mini Cars, Electric Ride On Cars, Parts Washers, and Bio-Clean.

LOS ANGELES (AUG. 15) BUSINESS WIRE - Falcon Cable Systems Co., a California limited partnership (ASE:FAL), Wednesday reported sharply higher revenues and cash flow for the three and six months ended June 30, 1990.

For the three months ended June 30, 1990, revenues increased 30 percent and operating income before depreciation and amortization grew by 43 percent over the same period in the prior year.

For the six months ended June 30, 1990, Falcon's revenues grew by 29 percent, while operating income before depreciation and amortization rose by 41 percent as compared with the same period in the prior year.

''The increases in revenue and cash flow that were achieved during the

first two quarters of 1990 attest to the fact that Falcon's operations remain fundamentally sound,'' said Marc B. Nathanson, chairman and chief executive officer. ''Management continues to focus on the cash flow performance of existing properties, while integrating new acquisitions,'' added Nathanson.

The partnership recorded revenues of $9,486,700, for the three months ended June 30, 1990, compared with $7,273,800, for the second quarter of 1989. Operating income before depreciation and amortization for the second quarter increased to $4,808,600, from $3,350,400, for the same period last year.

Falcon achieved revenues of $18,095,500, for the six months ended June 30, 1990, compared with $14,053,400, for the same period in 1989. Operating income before depreciation and amortization for the six months ended June 30, 1990, rose to $9,179,400, from the prior year total of $6,521,400. On June 30, 1990, Falcon's subscribers totaled 163,482, a 19 percent increase from the total of 137,530, on June 30, 1989.

While revenues and cash flow benefited from these subscriber acquisitions, Falcon also experienced increases in revenue per subscriber and improved cash flow margins compared with prior year results.

However, this improved cash performance is not readily apparent from a net income standpoint where Falcon continues to post net losses due to increases in non-cash depreciation and amortization expenses and increased interest charges related to acquisitions and capital expenditures.

Falcon experienced a net loss of $2,833,900, or 44 cents per equivalent limited partnership unit and $5,334,000, or 83 cents per equivalent limited partnership unit, for the three and six months ended June 30, 1990 compared with a net loss of $955,100, or 15 cents per equivalent limited partnership unit, and $1,741,900, or 27 cents per equivalent limited partnership unit, for the same periods in 1989.

As previously announced on Aug. 7, 1990, Falcon Cable Systems purchased cable systems, which serve approximately 7,000 subscribers in the communities of Cottage Grove and Florence, Ore., from Cooke Media Group Inc. and its affiliates. These acquisitions will give Falcon Cable Systems almost 50,000 homes subscribing to basic cable service in Oregon and will be clustered with existing Falcon operations in Oregon to achieve greater operating efficiencies.

Falcon owns, operates and develops ''classic'' cable television systems in more than 115 communities in California and western Oregon that do not receive a wide variety of clear broadcast reception. Falcon Cable Systems is one of seven separate partnerships operated by Falcon Holding Group Inc., which together (including pending acquisitions) serve more than

800,000 subscribers in over 500 communities in 28 states.

SUNNYVALE, CALIF. (AUG. 15) BUSINESS WIRE - Telebit Corp. (NASDAQ:TBIT) Wednesday disclosed the signing of a joint development contract with Texas Instruments Inc. and Texas Instruments Japan for a new high-speed modem employing Telebit's proprietary multicarrier architecture.

Under the terms of the contract, Texas Instruments Japan will develop application specific chip sets embodying Telebit's technology and will provide such to selected manufacturers.

The program is believed to represent a significant advance in data transmission over the General Switched Telephone Network.

Telebit Corp. designs, manufactures and markets advanced high-speed products for dial-up networking and wide-area communications. The company's patented Packetized Ensemble Protocol (PEP) and proprietary digital signal processing technologies provide extremely reliable error-free communications across the worldwide switched telephone network.

Telebit markets its products worldwide through distributors, original equipment manufacturers and value-added resellers.

Located in Sunnyvale, Telebit became a publicly held corporation on April 27, 1990 and is traded on the National Association of Security Dealers Automated Quotations (NASDAQ) OTC market under the symbol TBIT.

#90227b0619 08/15/1990 ~Business Wire

MILPITAS, CA (AUG. 15) BUSINESS WIRE - Xicor Inc. Wednesday announced production availability of a new CMOS 2K Serial E2PROM, expanding the company's serial E2PROM product family.

Xicor's new X24C02 features a hardwire Write Control Function, extended endurance of over 100,000 cycles, inherent data retention of greater than 100 years, and industry leading performance that tracks well in cost-sensitive areas such as consumer products, telephones, card keys and personal computers.

According to Gary Craig, Serial E2PROM product marketing manager, the X24C02 allows Xicor to continue the expansion of the serial E2PROM market. Ranging from 256 bits to 16K bits, Xicor now offers the largest density range available in the serial E2PROM market today.

Serial E2PROMs are ideally suited for applications based on single-chip microcontrollers. The Xicor bi-directional serial bus minimizes the number of I/O lines that the microcontroller needs to communicate with the E2PROM; by comparison, a normal byte-wide E2PROM may require up to 10 I/O lines.

Internally organized 256 x 8, the CMOS X24C02 offers low active current of less than lmA at 100KHz and a standby current of less than 50uA. It also features a typical self-timed write cycle of 5ms and a Write Control Function which allows the user to enable or disable the ability to write to the device.

The X24C02 is manufactured with the same proven Textured Poly Floating Gate technology as are all of Xicor's E2PROM products.

The X24C02 (commercial temperature range) and the X24C02I (industrial temperature range) are available today in a 8-pin plastic DIP, Type P; small outline gull wing package, Type S.

The X24C02P is priced at $1.45 each in quantities of 100. The X24C02PI is priced at $1.89 each in quantities of 100. The X24C02S is priced at $1.70 each in quantities of 100. The X24C02SI is priced at $2.21 each in quantities of 100. Production quantities for all versions are available now.

Xicor is the leading supplier of advanced proprietary semiconductor devices based on full-featured E2PROM technology. The company provides

high quality, reliable products for the manufacturers of computers and peripherals, consumer products, telecommunications, industrial controls, the military and transportation.

The company's manufacturing plant is in Milpitas.

PHIILADELPHIA (AUG. 15) BUSINESS WIRE - American Integrity Corp. (NASDAQ:AIIC) reported Wednesday that it is actively engaged in discussions, which may lead to its acquisition.

No agreement has as yet been reached. If concluded, any agreement would be subject to approval of the board of directors and shareholders of American Integrity, and regulatory authority. In order to conduct negotiations effectively, the company does not intend to make further announcements on this matter until after a definitive agreement has been executed, or all such discussions have been terminated.

American Integrity Corp. also reported increased revenues for the quarter totaling $23,479,000, a 47-percent advance over $16,004,000 for the same period last year. The company continued to experience increases in new business.

Total new annualized premium written in the second quarter of 1990 rose 22 percent to $17,016,000 from $13,937,000 in the second quarter of 1989. Investment income for the quarter rose 10 percent, to $1,176,000, compared to $1,066,000 in the same quarter of 1989.

Despite the gains in the company's business, net income for the second quarter declined to a loss of $687,000, or 10 cents per share, as compared to a net gain of $1,353,000, or 20 cents per share, in the second quarter of 1989. Contributing to the loss are factors arising from the repeal of the Medicare Catastrophic Insurance Act of 1988.

Increased policyholder benefits were required by Congress, but rate increases to cover the benefits were delayed in state insurance departments, and claim reserves were increased to cover the additional benefits. Approved increases in premium rates also impacted on the persistency of the Medicare business and resulted in higher amortization of deferred acquisition costs.

For the first six months of 1990, revenues totaled $45,586,000, a 50-percent gain over $30,473,000 reported in the first half of 1989. Total new annualized premium written in the first half of 1990 rose 48 percent to $36,945,000 from $24,939,000 in the first six months of 1989.

SAN JOSE, CA (AUG. 15) BUSINESS WIRE - Silicon Valley Group Inc. (NASDAQ:SVGI) announced Wednesday that it has filed with the Securities and Exchange Commission a registration statement for a proposed public offering of 3 million shares of common stock to be issued by the company.

Of the 3 million shares, 2,400,000 will be offered in the United States and 600,000 will be offered internationally. The U.S. offering will be managed by Prudential-Bache Capital Funding, Montgomery Securities and Cowen & Company, and the international offering will be managed by Prudential-Bache Securities (U.K.) Inc., Montgomery Securities and Cowen & Company.

The offering is expected to take place in September 1990. The company indicated that approximately one-half of the expected proceeds of the offering would be used to retire debt incurred in its May 1990 acquisition of the Optical Lithography Operations of The Perkin-Elmer Corp. and the balance would be used for working capital.

Silicon Valley Group Inc. designs, manufactures, markets and services semiconductor processing equipment used in the fabrication of integrated circuits.

A registration statement relating to these securities has been filed with the Securities and Exchange Commission but has not yet become effective.

In referring to Silicon Valley Group Inc. in an abbreviated form, please use ''SVG.''

RIDGEWOOD, NY (AUG. 15) BUSINESS WIRE - Quarex Industries Inc. (NASDAQ:QRXI) announced Wednesday increased sales and earnings for the quarter ended June 29, 1990.

In addition, Quarex announced combined sales and earnings for the quarter ended June 29, 1990 prepared on a pro-forma combined basis with the sales and earnings reported by PSL Foods Inc. and affiliates (''PSL'') with respect to its retail food business.

Quarex has previously announced that it has agreed in principle to combine with the retail food business of PSL.

Quarex' reported net sales of $50,622,044 for the 13 weeks ended June 29, 1990 as compared to $50,502,527 for the 13 weeks ended June 30, 1989.

Quarex' net income of $604,992 for the 13 weeks showed an increase of 11 percent over the net income of $544,767 realized during the same 13 week period in 1989.

Quarex' per share earnings increased to 17 cents in 1990 from the 15 cents reported for the same 13 week period of 1989.

For the 26 weeks ended June 29, 1990, Quarex' net sales increased to $98,502,553 from $94,491,615 reported for the same period in 1989, an increase of four percent. Quarex' net income for the first 26 weeks of 1990 rose to $949,120, an increase of 36 percent over the $697,245 reported for the same period in 1989.

As a result, Quarex' per share earnings for the first half of 1990 rose to 27 cents, an increase of seven cents per share over the earnings of 20 cents per share reported for the same period in 1989.

For the quarter ended June 29, 1990, On a pro forma combined basis, net income of Quarex and PSL totaled $1,088,025 on sales of $65,211,420.

The per share earnings for the quarter ended June 29, 1990 is calculated at 22 cents.

On a pro forma combined basis net income of Quarex and PSL for the first 26 weeks of 1990 totaled $1,720,814 on sales of $124,421,103. The per share earnings for the first 26 weeks of 1990 is calculated at 35 cents.

Jules Verner, Quarex' treasurer, stated that Quarex anticipated additional growth during 1990 as a result of a planned expansion of its retail operations.

#90227b0639 08/15/1990 ~Business Wire

ALBANY, NY (AUG. 15) BUSINESS WIRE - The board of directors of National Savings Bank of Albany (NASDAQ:NSBA) has reposnded to a proposal from TrustCo Bank Corp NY, a bank holding company located in Schenectady, N.Y., for a possible business combination with National in a stock-for-stock transaction in which National's shareholders would receive between 1.25 to 1.35 shares of TrustCo common stock for each share of National common stock, depending on the market price of TrustCo at the time of closing.

The proposal also includes a provision that allows TrustCo to terminate the agreement if the average price of its shares exceeds $35 per share and allows National to terminate if the average price of TrustCo stock is less than $25 per share.

The board noted that the terms of the proposal were more complete than previous proposals of TrustCo; however, the board believes that the most recent proposal contains substantive conditions, including the performance of due diligence, that as currently structured do not adequately assure that National's shareholders will ultimately receive the full negotiated value for their shares.

The overall low trading volume in TrustCo's shares, and recent downward price variability on increases in volume, also point to the potential reduction in shareholder value and illiquidity of shares that may result from a business combination as proposed. National has advised TrustCo of the terms of a possible mechanism for protecting shareholder value.

In its response to TrustCo's offer, the board of National informed TrustCo that, when presented with a fair proposal, it would insist that the parties enter into a confidentiality agreement prior to the performance of any due diligence. If the proposal were confirmed by subsequent due diligence reviews, National would be willing to negotiate a definitive agreement.

LOS ANGELES (AUG. 15) BUSINESS WIRE - Hotel Investors Trust, a real estate investment trust which invests exclusively in the lodging industry, and Hotel Investors Corp., a hotel management company, whose shares are paired and trade together (NYSE:HOT), Wednesday announced a second-quarter net loss for 1990 of $1,096,000, or 9 cents per share, as compared with net income of $144,000, or 1 cent per share, for the same period last year.

Gains on asset sales were $156,000, or 1 cent per share, in the second

quarter of 1989; there were no gains on asset sales during 1990. Cash flow from operations (defined as income before gains on asset sales, plus depreciation and amortization) for the three-month period ended June 30, 1990, was $2,505,000, or 21 cents per share, as compared with cash flow from operations of $3,255,000, or 27 cents per share, for the same period in 1989.

Hotel Investors Trust and Hotel Investors Corp. also announced a combined six-month net loss for 1990 of $2,208,000, or 18 cents per share, as compared with a six-month 1989 net loss of $244,000, or 2 cents per share. Nineteen-eighty-nine results included gains on asset sales of $156,000, or 1 cent per share. Cash flow from operations generated during the six-month period ended June 30, 1990, was $4,969,000, or 41 cents per share, as compared with $6.12 million, or 50 cents per share, for the same period in 1989.

Hotel Investors Trust and Hotel Investors Corp. also announced Wednesday that the Trust's and the Corporations's 1990 annual shareholders' and stockholders' meetings have been rescheduled to Sept. 24, 1990. In connection with such rescheduling, and as required by applicable law, the record date for the annual meetings will be Aug. 24, 1990. -0- T

#90227b0644 08/15/1990 ~Business Wire

DENVER (AUG. 15) BUSINESS WIRE - Crown Resources Corp. Wednesday announced a second quarter 1990 net loss of $0.8 million, or seven cents per share, to bring the net income for the first half of 1990 to $2.2 million, or 18 cents per share.

This compares with net losses from 1989 of $0.3 million for the quarter (four cents per share) and $0.6 million for the six months (seven cents per share).

Sales of gold totalled 4,972 ounces in the second quarter for revenue of $1.8 million. Gold production in the quarter totalled 7,718 ounces from Crown's 30 percent share of production from the Kettle River mine where commercial production commenced in February 1990. Production from Kettle River in the last half of 1990 is forecast to exceed these levels and Crown projects gold sales for the full year of 30,000 ounces.

Production costs at Kettle River have been falling as Echo Bay, Crown's partner and the operator, has fine-tuned the mine and mill. Cash costs of production per ounce averaged $226 for the first half of 1990, but were $207 for the quarter and $169 in the month of June.

Cash costs are forecast to average $185 per ounce for all of 1990. Full production costs, which include depreciation, depletion and amortization, for total production in the six months averaged $314 per ounce.

Battle Mountain Gold Co. is pursuing an ambitious exploration program on the company's Crown Jewel Project where recent drill results have been encouraging. There are six rigs working on the property and a new 150-hole drill program has just commenced. Crown granted Battle Mountain an option on this project in March, in return for $5 million, and Battle Mountain is funding all project costs.

Crown is also conducting extensive exploration programs in Utah, in the joint venture with Centurion Mines Corp., and on the company's properties in the Carlin Trend in Nevada, northeastern Washington and southern British Columbia.

Crown is listed on the NASDAQ National Market System under the trading symbol CRRS and on the Vancouver Stock Exchange under the symbol CRO.

#90227b0646 08/15/1990 ~Business Wire

LOS ANGELES (AUG. 15) BUSINESS WIRE - Carolco Pictures Inc. (NYSE:CRC) Wednesday announced results for the three- and six-month periods ended June 30, 1990.

Total revenues for the second quarter of 1990 were $80,950,000, compared with $34,178,000, for the same period last year -- an increase of 137 percent. Net income for the second quarter of 1990 rose 235 percent, to $8,759,000, compared with $2,612,000, for the second quarter of 1989.

Earnings per share were 28 cents, for the second quarter of 1990 compared with 9 cents, for the second quarter of 1989 based on a weighted average of 31,117,289 shares outstanding in 1990 and 30,211,232, in 1989.

Carolco's revenues increased 91 percent, for the six months ended June 30, 1990, to $100,192,000, compared with $52,546,000, for the six months ended June 30, 1989. Net income was $6,027,000, compared with $812,000, and earnings per share rose to 20 cents, compared with 3 cents, for the same period in 1989, based on a weighted average of 30,666,295 shares outstanding in 1990 and 30,084,593, in 1989.

Carolco Pictures is a diversified entertainment company formed for the

purpose of financing, producing and leasing motion pictures for exhibition in domestic (United States and Canada) and foreign theatrical markets and for later worldwide release in all media including home video and pay and free television.

In a continuing plan to broaden its distribution systems and product base, Carolco acquired Orbis Communications, a leader in the television distribution and advertising sales industry and the IndieProd company, an independent motion picture production company headed by Dan Melnick.

Carolco Licensing arranges licenses for characters and similar rights for motion pictures controlled by Carolco, as well as in other quality products. Carolco Music handles the development and exploitation of music publishing rights.

Carolco owns a 47 percent voting interest in LIVE Entertainment Inc. LIVE is a diversified entertainment software supplier, distributor and retailer with headquarters in Los Angeles and is the parent of Los Angeles-based home video supplier Live Home Video, Minneapolis-based rackjobber Lieberman Enterprises Inc., Massachusetts-based LIVE Specialty Retail Group, which includes Strawberries Records, Tapes & CDs and the Waxie Maxie music chain and an indirect subsidiary VCL/Carolco Communications GmbH, a home video supplier based in Munich, Germany. Carolco also owns a 33 percent interest in the Vista Organization Ltd.

#90227b0651 08/15/1990 ~Business Wire

CHERRY HILL, NJ (AUG. 15) BUSINESS WIRE - Marvin Samson, president and chief executive officer of Marsam Pharmaceuticals Inc. (NASDAQ:MSAM), announced Wednesday that earnings for the quarter ended June 30 were $482,900 (10 cents per share) on revenues of $3,025,900.

For the six months ended June 30, earnings were $910,100 (18 cents per share) on revenues of $5,589,400.

Net sales and income for the quarter ended June 30 include $509,500 allocated to that period from a $1.5 million lump sum payment made by E.R. Squibb to the company in connection with the termination of the previous agreement between the company and Squibb.

The lump sum payment recognizes sales and income which would have been realized by the company had the agreement with Squibb not been terminated. The balance of the $1.5 million has been recorded as deferred revenue.

Marsam Pharmaceuticals Inc. is an emerging leader in the development and manufacture of injectable drug products for the hospital and institutional marketplace which are sold through an agreement with Geneva Generics Inc., a leading developer, manufacturer and distributor of quality generic pharmaceutical products. Geneva Generics is a subsidiary of CIBA-GEIGY Corp.

Samson stated that while the company cannot predict the effects on its revenues and earnings during the period of transition from distribution of its products by Squibb to distribution under its new agreement with Geneva Generics, the company may not achieve earnings from operations until meaningful sales of Geneva/Marsam-labeled products occur.

Geneva Generics is currently bidding on behalf of Geneva/Marsam on hospital and institutional contracts, the majority of which become effective during the first quarter of 1991.

#90227b0652 08/15/1990 ~Business Wire

NEW YORK (AUG. 15) BUSINESS WIRE - B+H Ocean Carriers Ltd. (ASE:BHO) Tuesday reported operating results for the 1990 second quarter and first half-year and announced the company's board of directors had declared a dividend of 80 cents per share payable Sept. 7, 1990 to shareholders of record on August 24, 1990.

For the second quarter, B+H Ocean Carrier's net income was $1,014,000, or 25 cents per share, on revenues of $8,681,000 as compared to net income of $2,204,000, or 54 cents per share, on revenues of $8,588,000 in the like period a year ago.

For the six months net income was $4,140,000, or $1.01 per share, on revenues of $17,542,000 vs. net income of $4,636,000, or $1.14 per share, on revenues of $17,147,000 in the like period a year ago.

In this year's second quarter, the company, as previously reported, had a total of 68 days of off-hire for its 13 vessels of which 63 days related to scheduled drydockings of two product tankers.

The reduction in net income in the second 1990 quarter over the second 1989 quarter is primarily attributable to a substantial increase in drydocking costs, the loss of revenues from increased off-hire days and a reduction in COTCO pool charter rates of approximately 8.5 percent, partially offset by an approximate 19.5 percent increase in PROTRANS pool charter rates.

Over the balance of 1990, the company expects to drydock three vessels, two of which will be taken out of service in the third quarter and one in the fourth quarter.

Michael S. Hudner, president, said in making today's announcement, ''We view upgrading of the vessels as an important investment as we expect it will prolong the life and value of our ships, improve our competitive position and shareholder returns.

The company operates seven handy-size dry bulkcarriers and six product tankers.

SAN FRANCISCO (AUG. 15) BUSINESS WIRE - AIFS Inc. (ASE,PSE:AIF), an international educational services company, Wednesday reported results for its third fiscal quarter ended June 30.

Net income for the quarter was $1,582,000, or 45 cents per share, compared to $446,000, or 13 cents per share, for the third quarter of fiscal 1989. Revenues for the three-month period were $36,730,000, as compared to $28,513,000 in the third quarter last year.

For the first nine months of fiscal 1990, AIFS had a net loss of $1,227,000, or 36 cents per share, which includes a non-recurring after-tax charge of $488,000, or 14 cents per share, from the previously announced write down of an investment. This compares with a net loss of $255,000, or 8 cents per share, for the like period of fiscal 1988 which included a non-recurring after tax gain of $810,000, or 24 cents per share from the settlement of a lawsuit. Revenues for the nine months were $69,764,000, compared to $62,782,000 in the year-earlier period.

In commenting on the third quarter results, Roger O. Walther, president and chief executive officer, said: ''Our higher revenues reflect the effect that the timing of the Easter holidays has on our outbound programs that take high school students abroad. In 1990, the Easter programs were entirely in the third quarter while in 1989 they were, for the most part, in the second quarter.

The increased profitability for the quarter reflects the results of the High School programs discussed earlier and increased profitability in the Au Pair and Homestay programs.

As previously announced, a special meeting of stockholders of AIFS will be held on Tuesday, Aug. 28, at which stockholders will be asked to consider and vote upon the proposed merger of Marina Holdings Corp., a corporation recently organized by certain senior members of AIFS management, with and into AIFS. If the proposed merger is consummated, each public stockholder will be entitled to receive $6.50 in cash in exchange for each share of common stock.

SALT LAKE CITY (AUG. 15) BUSINESS WIRE - A letter of intent has been signed between Salt Lake City-based Alta Gold Co. (NASDAQ:ALTA) and Magma Copper Co. (AMEX:MCU) headquartered in San Manuel, Ariz., which could result in the purchase of Kennecott's 12,000-acre Robinson Mining District near Ely, Nev.

Magma Copper, with three copper operations in Arizona, is one of the industry's premier copper companies, dating back to 1910. Alta Gold Co. was formed on Nov. 24, 1989, following the merger of Silver King Mines Inc. and Pacific Silver Corp., two companies with histories dating to the early 1960s.

If the purchase is made of the historic Robinson District, both companies would substantially increase their positions in both the gold and copper mining industries in the United States.

Magma has agreed to spend up to $1.5 million on a feasibility study to be completed by Nov. 15, 1990 to further define the preliminary study performed for Alta Gold by various independent consulting firms indicating the presence of an estimated 248 million tons of ore from which 2.5 billion pounds of copper and 2 million ounces of gold could be produced.

Upon the purchase of the property, Magma would hold a 51 percent interest in the copper operations, with Alta Gold maintaining a 49 percent interest. The total pruchase price from Kennecott is $20 million plus assumption of certain environmental obligations.

Magma would pay $10.2 million to acquire its 51 percent of Kennecott's interest, with Alta Gold paying the balance of the net purchase price for its 49 percent interest, estimated at $2.8 million. Alta receives a credit from Kennecott for prior payments made on the $20 million purchase price.

Closing of the purchase must be made with Kennecott by Dec. 14, 1990,

while Magma must make its irrevocable commitment to proceed to close with Alta Gold by Nov. 15, 1990.

Preliminary terms of the contract, which is to be signed by Sept. 26, 1990 also call for Magma to purchase an undivided 15 percent interest in existing gold operations at the Robinson District from Alta Gold for $4 million. Magma would have an option to purchase from Alta Gold an additional 15 percent interest in the gold operations by Dec. 31, 1991, for $6 million. Magma would also purchase $1.5 million in Alta Gold common stock by Aug. 31, 1990.

Alta Gold is also continuing base metals production from its underground Ward Mine and Taylor Mill which produce zinc, copper, silver and lead, and is a joint venture partner with Mining Services International in the newly completed Cyanco sodium cyanide manufacturing facility near Winnemucca, Nev.

SAN DIEGO (AUG. 15) BUSINESS WIRE - Sym-Tek Systems Inc. (NASDAQ:SYMK) Wednesday announced it has received an order worth $3.5 million from Hyundai Electronics of Korea for its MP-3050 Multiple Testsite Handlers.

This represents a follow-up order to Sym-Tek by Hyundai.

With this latest order, the number of Sym-Tek Multiple Testsite Handlers installed worldwide totals more than 300 units, according to Ray Twigg, Sym-Tek president.

The Sym-Tek MP-3050 Series Handlers are capable of testing up to 16 DRAM devices in parallel and can be configured, with an easy-to-use change kit, to test different packages.

''Long considered the leading U.S. environmental handler manufacturer, Sym-Tek Systems obtained this order over strong Japanese competition,'' said Twigg.

Sym-Tek recently reported its fifth profitable quarter in a row, the company's longest continued level of profitability since the third quarter of 1987. Since April 1, 1990, the company has seen a significant increase in orders resulting in a backlog increase to $9.5 million.

Sym-Tek Systems Inc. manufactures and sells electromechanical handlers

used to heat or cool integrated circuits to precise temperatures, place them into position for testing and sort ICs based on test results. The market for the company's products is driven by worldwide capacity increases for semiconductors as well as the continually changing packages that house integrated circuits.

VANCOUVER, B.C. (AUG. 15) BUSINESS WIRE - Peter J. Guest, president of Galactic Resources Ltd., is pleased to announce record first half 1990 net income of US $6.9 million (US 16 cents per share).

This was an increase of US $6.4 million over 1989 first half net income of US $0.5 million (US 1 cent per share), despite the low gold prices experienced in the second quarter. Cash flow from operations at producing mines was US $7.56 million for the first half of 1990 as compared to US $8.40 million for the like period in 1989.

An important contributor to 1990 first half results was the gain of US $7.41 million, after tax, from the sale of 75 percent of the company's interest in the Far South East project in the Philippines.

This, however, and the good performance of the Ridgeway Gold Mine were offset by the reduced results from the Summitville operation due to its customary second quarter loss resulting from seasonal start-up expenses and delayed gold recovery.

The Ridgeway Gold Mine, a joint venture between Galactic (48 percent) and the RTZ Corp. PLC (52 percent) continued to perform well with production matching planned performance. Ridgeway, which contributed US $6.94 million to Galactic's first half operating income, shipped 88,554 ounces of gold vs. 78,184 ounces in 1989.

Reduced gold bullion prices were offset by Ridgeway's gold deliveries at US $453/oz. under its gold loan and benefits from forward sales at US $460/oz. Ridgeway realized an average gold price of US $419/oz for the 1990 first half compared to US $ 382/oz. in the 1989 first half. Cash production cost averaged US $170/oz. in the 1990 first half.

Galactic produces gold at the Ridgeway Gold Mine in South Carolina with joint venture partner The RTZ Corp. PLC, and at its wholly-owned

Summitville Mine in Colorado. Galactic also has precious metal development projects in California, Nevada, Canada, China, and the Philippines.

Galactic Resources Ltd. trades on the American, Toronto, Montreal, and Vancouver Stock Exchanges (symbol: GLC). American Stock Exchange quotes in US $ are listed daily in THE WALL STREET JOURNAL under AMERICAN STOCK EXCHANGE COMPOSITE TRANSACTIONS.

NEW YORK (AUG. 15) BUSINESS WIRE - Diversified Investors Corp. (DVIN:OTC Bulletin Board) has signed an agreement in principle to acquire 50 percent of the common shares of TWM Corp., a privately held company.

According to Philip S. Budin, chairman of Diversified Investors, TWM owns the rights to a patent-pending process to substantially increase the emulsion speeds of photographic materials. The TWM process is especially applicable to developing X-rays, he said.

Budin added that Battelle Institute of Columbus, Ohio, a nationally known scientific testing organization, had recently conducted tests of the TWM process which demonstrated a significant increase in X-ray film detail with 84 percent less radiation exposure than conventional methods.

Diversified Investors is a public holding company with interests in a number of public and private companies.

#90227b0682 08/15/1990 ~Business Wire
NEEDHAM, MA (AUG. 15) BUSINESS WIRE - When Lotus 1-2-3 Release 3.1 hits the shelves, Intex Solutions Inc. will be ready with a broad range of enhancement products designed to be fully compatible with Lotus' new release.

The following Intex products will be available for 1-2-3 Release 3.1: Forecast!, Inventory Analyst, Rescue Plus, Trans for 1-2-3, Financial

Toolkit, Intex Bond Calculations, Intex Mortgage-Backed Calculations, and Intex Option Price Calculations. These products also run with 1-2-3 Release 2.0, 2.01, 2.2, and 1-2-3 Release 3.0.

Also slated to join the ranks of 1-2-3 Release 3-compatible products are FunctionsIII and Guardian. FunctionsIII, a collection of diverse analytic functions, is a re-release and considerably expanded version of Functions 1. Guardian, Intex's automatic backup program, are under development and are expected to ship by year end.

Intex, which has emerged as a leader of the Lotus aftermarket, has the largest number of Lotus 1-2-3 Release 3 enhancement products ready to ship with several others waiting in the wings.

Lotus Development Corp. previously announced that 1-2-3 Release 3.1 will ship in the third quarter of 1990. Enhancements: A Need That Doesn't Go Away

Lotus users still need and ask for a variety of spreadsheet enhancements to customize and extend the functionality of their spreadsheets. Both Lotus and Intex believe enhancement products will continue to thrive amidst future releases of 1-2-3.

''Users must recognize that no matter how many features are built into the core spreadsheet, size and speed constraints dictate that many enhancements are best addressed by third-party aftermarket products,'' said Jim Wilner, vice president of the PC Products Division at Intex Solutions.

He added,''Whatever the version, files sometimes get lost or damaged, which has made our Rescue Plus, a Lotus file recovery utility, a best seller. People still need to bring data into 1-2-3, so they turn to Trans, an Intex product that integrates ASCII files into Lotus. And users perform a great variety of sophisticated spreadsheet applications like forecasting, financial analysis, and inventory management, all of which call for enhancement programs.''

Financial Applications: Benefits of Add-Ins are Clear

Intex's trio of fixed-income calculation programs illustrate perfectly how add-ins have carved out an enduring niche for themselves.

Many Lotus users work with bonds or mortgage-backed securities like Ginnie Maes. On a daily basis, they make buy/sell decisions which just be based on solid information: yield, duration, remaining balance, and other calculations, none of which are among 1-2-3's financial functions.

Intex Bond Calculations, Intex Mortgage-Backed Calculations, and Intex

Option Price Calculations are programs which make it possible to perform these calculations in a Lotus spreadsheet, and to do so conveniently and securely.

Like the other two programs, Intex Bond Calculations is a collection of financial analytic functions. Once the program is added in, new functions which compute all calculations essential to bond analysis become part of the Lotus menu. The software supports nearly all fixed-income instruments.

Clients who work with international bonds or whose work involves horizon return, PIK, ''dirty'' price, and other more sophisticated calculations have the option of purchasing versions of Intex Bond Calculations with those features.

''While users could program their own calculations, each calculation would require days of programming,'' explained Jim Wilner. ''But those calculations would be formula-based and nowhere as fast as our compiled functions. Moreover, a single calculation could consume an entire spreadsheet, whereas ours fit into a single spreadsheet cell.''

Close Working Relationship with Lotus Development Aids Enhancement Process

Intex has long benefitted from a strategic relationship with Lotus. The company, a member of the Lotus Strategic Partner Program (LSPP), typically works closely with Lotus developers througout the product development cycle, from alpha release to final shipment. When Lotus invites third-party developers to a workshop demonstrating the add-in tools, Intex is always there.

''Over the years, the close relationship between Lotus and Intex has yielded excellent products of great benefit to 1-2-3 users. We're excited at the prospect of the availability of Intex's broad line of enhancement products for 1-2-3 Release 3.1, and look forward to a continuing strong relationship,'' stated Paul McNaulty, director of 1-2-3 Release 3 Marketing at Lotus Development Corp.

For the 1-2-3 Release 3 upgrades, Wilner reports, ''We had early access to beta versions of the developers' toolkit (LEAF) as well as new tools which make it possible to ''hook'' C programs directly into 1-2-3 Release 3.1 Users benefit because our C programs run considerably faster than programs written in the LEAF language. Intex's Two-Tiered Marketing Formula

While adding 1-2-3 Release 3 compatability across the product line is a high priority at Intex, the company also recognizes that 1-2-3 Release 2 users remain a key segment of the 1-2-3 marketplace and continues to be fully committed to developing enhancement products for 1-2-3 Release 2. Pricing

Intex's 1-2-3 Release 3.1 enchancements are priced as follows: Forcast! ($145), Inventory Analyst ($199.95), Rescue Plus ($149.95), Trans for 1-2-3 ($95), Financial Toolkit (199.95), Intex Bond Calculations ($495 and up), and Intex Option Price Calculations ($495). They are available directly from Intex Solutions. For more information, please contact Jim Wilner or George Jigarjian.

#90227b0683 08/15/1990 ~Business Wire

CAMBRIDGE, MASS. (AUG. 15) BUSINESS WIRE - Larry Moore has been named vice president of Lotus Development Corp.'s communications products division, the company announced Wednesday.

The communications products division is primarily responsible for Lotus Notes, a group communications software program that has achieved critical acclaim since its introduction in December 1989. Moore, who had been general manager of the Lotus Notes product group, will maintain responsibility for development and marketing of the product, and for creating new business relationships.

''Larry's promotion is an organizational response to the overwhelming demand for and level of interest in Lotus Notes from our customers and prospective users since the product began shipping late last year,'' said June Rokoff, Lotus' vice president of Communications
'ident of Communications

''Larry has done an excellent job of establishing Lotus' vision for work-group communication in the marketplace as well as within the company. We plan to expand our commitment to workgroup computing and our investment in local-area network products, and this promotion reflects the increased emphasis Lotus is placing on this component of our business.''

Moore joined Lotus in February 1986 when ISYS Corp., of which he was president and founder, was acquired by the Cambridge, Mass.-based software developer. Moore, who formed ISYS with the goal of providing integrated microcomputer-based investment analysis systems, helped expand Lotus' position in the financial marketplace by spearheading Lotus' One Source product line from 1986 to 1987. Lotus One Source is a family of compact disc (CD-ROM) business and financial information products that allow business professionals to gather and analyze data more effectively. He began work with Lotus Notes in 1986.

Prior to ISYS, Moore was a vice president at Data Resources Inc., a Lexington, Mass.-based economic consulting and forecasting firm, where he

was responsible for the company's financial services business. Before DRI, Moore was an economist with the U.S. Treasury Department from 1973 to 1975.

Moore earned both a bachelor's degree in business administration and a master's degree in economics from Georgetown University.

Lotus Development Corp. (NASDAQ:LOTS) is the leading provider of applications software for personal computers and information services delivered on CD-ROM, and a worldwide supplier of applications software for workstation, minicomputer and mainframe computing environments.

WOODBURY, NY (AUG. 15) BUSINESS WIRE - Comverse Technology Inc. (NASDAQ:CMVT) announced revenues of $3,610,000 and $7,475,000 for the three-month and six-month periods ended June 30, representing increases of $208,000 (6 percent) and $1,617,000 (28 percent), respectively, over the corresponding periods of 1989.

Net income for the quarter and half year amounted to $151,000 and $211,000 representing increases of $15,000 (11 percent) and $61,000 (41 percent), respectively, over the corresponding prior year periods. Net income for each reporting period was less than one cent per share.

Kobi Alexander, president and chairman of the board, stated that, ''The results for the quarter and half year ended June 30, 1990 reflect the continued growth of the Company's operations.''

''We achieved profitability,'' Alexander continued, ''despite substantial increases in our marketing, sales and R&D budgets and related activities directed at building the overall strength of our operations and expanding our domestic and international business.'' Alexander added that, ''The increase in revenues reflects continuing growth in our domestic and international distribution activities, including an increase in large system orders received from service provider organizations.''

Comverse Technology Inc., located in Woodbury, develops, manufactures and markets high performance computer systems for commercial and defense communications applications, including integrated multi-media message management systems marketed under the name of TRILOGUE.

#90227b0689 08/15/1990 ~Business Wire

TUPELO, MS (AUG. 15) BUSINESS WIRE - Hancock Fabrics Inc. (NYSE:HKF) Wednesday announced unaudited results for its second fiscal quarter of 1990.

Sales for the quarter ended July 29, 1990 increased 11.7 percent to $87.2 million from $78.0 million in the like quarter last year. Net earnings for the quarter were $5.8 million, or 51 cents per share, compared with $5.2 million, or 41 cents per share in 1989's second quarter.

For the 26 weeks to date, sales rose 11.6 percent to $181.6 million from $162.7 million in the like period last year. Net earnings were $12.3 million, or $1.07 per share, compared with $11.0 million, or 86 cents per share in the first 26 weeks of 1989.

In commenting on the results, Morris O. Jarvis, chairman and chief executive officer, stated: ''Comparable sales gains of almost 7 percent helped to produce the company's best second quarter ever. Gross margins remained steady and operating expense ratios were lower despite the higher minimum wage and the initial drain of 49 new store openings since a year ago.''

During the quarter, Hancock opened nine new stores and closed four, finishing the 26 weeks with 18 openings and five closings. At July 29, 1990, the company operated 415 retail stores in 31 states under the names ''Hancock Fabrics,'' ''Minnesota Fabrics,'' ''Fabric Warehouse,'' and ''Fabric Market'' and supplied about 200 independent wholesale customers. Hancock Fabrics Inc. is a retail and wholesale merchant of fabrics, crafts and related home sewing and home decorating accessories.

SAN FRANCISCO (AUG. 15) BUSINESS WIRE - Phoenix Laser Systems Inc. (NASDAQ: PXLS) Wednesday announced that the company has filed its sixth patent application with the U.S. Office of Patents and Trademarks in connection with its development of the Phoenix Ophthalmic Surgical Workstation.

The announcement was made by H. Alfred Sklar, director of research for the San Francisco-based research and development company, who said, ''This application describes a method for a more efficient system for delivery of the laser beam to the target area.''

The company has previously filed five patent applications for the Surgical Workstation and earlier this week announced the start of human clinical testing of the workstation at the Barraquer Institute, in Bogata, Colombia.

The Phoenix Ophthalmic Surgical Workstation is a self contained proprietary workstation that combines on-line diagnostic measurement, advanced laser beam positioning, high-speed tissue tracking and therapeutic devices for the precise control of laser surgery. The company's technology permits surgery at cellular levels without creating significant thermal damage to surrounding cells.

NEW YORK/LONDON (AUG. 15) BUSINESS WIRE - Marsh & McLennan Companies Inc. will integrate its worldwide reinsurance broking operations to form one global reinsurance business under Guy Carpenter & Co. Inc., it was announced Wednesday by Frank J. Tasco, chairman of the board.

Richard H. Blum will become chairman of Guy Carpenter & Co. Inc. and G.H.C. Wakefield will be deputy chairman. A New York Operating Committee will be responsible for reinsurance business in the United States and Canada and a London Operating Committee will be responsible for reinsurance business elsewhere in the world.

Tasco stated, ''The 1990s are bringing new challenges and unprecedented opportunities to the business of reinsurance. We must be able to respond to changes occuring in the insurance industry and the reinsurance marketplace, as well as the dynamic political, economic and technological developments around the world.

Marsh & McLennan Companies Inc. is a professional services firm with insurance and reinsurance broking, consulting and investment management businesses. Over 24,000 employees in 80 countries provide analysis, advice and transactional capabilities to clients worldwide. Marsh & McLennan Companies' stock is listed on the New York, Midwest, Pacific and London stock exchanges. Its NYSE ticker symbol is MMC.

STOCKHOLM, Sweden (AUG. 15) BUSINESS WIRE - Ericsson announced Wednesday that it will form a new company for production of mechanical parts for radar and other electronic systems.

The new company, not yet named, will be owned 30 percent by Ericsson and 70 percent by Datormekan-gruppen, a company specializing in mechanical manufacturing. Both companies have worked together for many years and have their plants in Sweden.

About 150 of Ericsson's personnel will be transferred to, and employed by, the new company. Production will continue for the time being in the present plants.

Ericsson is an international leader in telecommunications recognized for

its advanced systems and products for wired and mobile communications in public and private networks.

WESTBOROUGH, MA (AUG. 15) BUSINESS WIRE - Epoch Systems Wednesday announced a joint marketing agreement with Cayman Systems of Cambridge, MA.

Cayman's Gatorbox and Gatorshare products enable users on Apple Macintosh networks to access the Epoch-1 InfiniteStorage Server. The Epoch-1 provides the industry's lowest cost on-line storage and the most advanced network storage management software available.

The Epoch-1 is a family of NFS and TCP/IP-compatible network storage servers that transparently integrates high capacity, low cost optical disks with high speed magnetic disks. The Epoch-1 includes systems that can be configured as one or more file systems supporting 1 GB to 1000GB of on-line storage. They provide central data storage, automated file management and automated backup for networks requiring very fast online access to high-capacity disk storage over an Ethernet network. The Epoch-1 is based on a hierarchical storage architecture that seamlessly integrates optical disk technology into a high-speed winchester storage system.

''We're very excited about our relationship with Epoch Systems,'' said Ted Stabler, Cayman's president. ''More and more, Macintosh users need to have access to advanced storage and backup capabilities such as those provided by the Epoch-1 Server. The GatorBox running GatorShare provides that access and, because it preserves the standard Macintosh network user interface, requires no additional training on the part of the Macintosh user.''

The GatorBox is an AppleTalk-to-Ethernet gateway that connects a Macintosh network to the Epoch-1. GatorShare networking software runs on a GatorBox

and translates the Network File System (NFS) protocol used by the Epoch-1 into the Apple Filing Protocol used by AppleShare. This gives Macintosh users the same advantages that the Epoch-1 provides to other NFS-based networks:

-- On-line access to 1GB-1000GB of data, freeing up local disk space, enabling all systems on the network to perform more efficiently.

-- Automatic on-line archiving, eliminating manual bookkeeping.

-- Fully automated system backup, enabling on-line, unattended backups with no disruption to the user and protection against accidental data loss.

-- Integrated magnetic and optical disks for magnetic disk performance at optical disk prices.

-- A specialized server architecture for high performance file access.

Epoch Systems is a leading supplier of network storage management systems for users of high-performance workstations in business, industry, education and government. The company is headquartered in Westborough, MA with sales and support offices located throughout the United States, Europe, Canada and Asia.

RANDOLPH, NJ (AUG. 15) BUSINESS WIRE - Boonton Electronics Corp. (NASDAQ:BOON) announced Wednesday the third fiscal quarter and nine months results for the period ended June 30, 1990.

For the three months ended June 30, 1990 sales were $2,942,956 compared to $2,547,696 for the similar quarter a year ago. Net income of $43,500 or 3 cents per share compared with a third quarter loss of $25,572 or 2 cents per share last year.

For the nine months ended June 30, 1990, sales of $9,037,367 compared to $8,178,883 for the year earlier period.

Net income of $207,063 or 16 cents per share were reported for this year's nine months versus breakeven operations in fiscal 1989's corresponding period.

Joseph G. Gillespie, president, commented, ''These results confirm our belief that the September fiscal 1990 year will conclude on a strong note. The fourth quarter could be our strongest quarter ever. Business continues to strengthen. Backlog has expanded to $3.4 million as of June 30, 1990 as a result of record bookings of $4.5 million in the third quarter.''

Boonton Electronics Corp. designs, manufactures, and sells electronic test and measurement instruments for RF and Microwave markets. Boonton is a leader in the Power Meter segment of that market.

NEW YORK (AUG. 15) BUSINESS WIRE - Tigera Group Inc., (NASDAQ:TYGR), Wednesday reported a loss of $705,000, or 3 cents per share, for the second quarter ended June 30.

For the 1989 second quarter, the company reported a loss of $366,000, or less than 2 cents per share.

For the six months ended June 30, 1990, the company reported a loss fo $1,419,000, or 7 cents per share. Comparable 1989 results reflected a loss of $54,000, or less than 1 cent per share.

The company noted that the 1990 second quarter and first half losses reflect the company's 35 percent share of losses at Cinexus Capital Corp. of approximately $450,000 and $992,000, repsectively, attributable to reduced filming activity affecting the Canadian film production industry,

amortization of a license agreement and goodwill related to Cinexus' acquisition of Panavision (Canada) Ltd. and related financing costs.

STAMFORD, VT (AUG. 15) BUSINESS WIRE - Patten Corp. (NYSE:PAT) Wednesday reported operating results for the three months ending July 1, 1990.

First quarter sales of real estate were $19.5 million compared to $25.1 million for the three months ending July 2, 1989. Net loss for the quarter was $2.3 million, or $(.13) per share.

The softer real estate market in the Northeast led to a decrease in sales volume and lower gross margins. The downturn in the market of real estate and the economy in general, has had an adverse effect on the company's ability to sell inventory at historical rates of sales and margins.

The effects of economic and real estate market fluctuations in the Northeast continue to be somewhat mitigated by the company's operations in such areas as the Southeast, Mid-Atlantic and the West.

LOS ANGELES (AUG. 15) BUSINESS WIRE - Dr. Armand Hammer, chairman and chief executive officer of Occidental Petroleum Corp., announced Wednesday that Occidental's subsidiary, MidCon Corp. (formerly named United Energy Resources Inc.), will redeem, on Sept. 17, 1990, all of its outstanding Debentures 13 percent Series due Sept. 15, 1993 and, on Oct. 15, 1990, all of its outstanding Debentures 13-3/8 percent Series due Oct. 15, 1994, in each case at a redemption price of 100 percent of the principal amount thereof.

The Debentures 13 percent Series and the Debentures 13-3/8 percent Series are outstanding in the aggregate principal amounts of $100 million and $75 million, respectively, and have been guaranteed by Occidental.

Dr. Hammer stated that the redemptions will result in lower interest expense to Occidental and are part of the company's continuing program to lengthen its maturities of long-term debt.

The interest installment payable on the Debentures 13 percent Series on Sept. 15, will be paid by MidCon in the usual manner to the holders of record at the close of business on Sept. 1.

Interest accrued on the Debentures 13 percent Series from Sept. 15, to

Sept. 17, the redemption date for such Debentures (2 days), will be paid by MidCon upon surrender of such Debentures for redemption.

The interest installment payable on the Debentures 13-3/8 percent Series on Oct. 15 will be paid by MidCon in the usual manner to the holders of record at the close of business on Oct 1.

Payment of the redemption price on the Debentures 13 percent Series will be made on or after Sept. 17, and payment of the redemption price on the Debentures 13-3/8 percent Series will be made on or after Oct. 15, upon delivery of the respective Debentures to Bank One, Texas, National Association, as trustee, Houston, Texas, or to IBJ Schroder Bank & Trust Co., New York, New York.

Notice of the redemptions and instructions for delivery of the Debentures are being mailed to registered holders.

IRVINE, CA and UTICA, NY (AUG. 15) BUSINESS WIRE - LASER PRECISION CORPORATION (NASDAQ:LASR) chairman, president and chief executive officer David M. Goodman announced today that Eugene R. White, Jr. has been named president of the Company's Radiometric and Fiber Optic Division based in Utica, New York.

''Under Gene White's able guidance since joining Laser Precision as senior vice president and general manager of our Utica division in 1986, annual revenue has grown from $6.5 million to nearly $20 million last year as the division emerged as the U.S. leader in fiber optic test equipment with a 40 percent market share,'' Goodman said.

''Gene's appointment to president of the division reflects his outstanding performance and Laser Precision's expectation that the business will continue to grow rapidly and profitably under his strong leadership,'' Goodman added.

White, 38, was operations manager and division general manager of Granger Associates between 1982 and 1986 with responsibility for the marketing, engineering and manufacturing of echo canceller products for the telecommunications industry. He also had been involved in manufacturing, procurement and test engineering during the start-up of digital T-1 products at Granger, which became a subsidiary of Digital Switch Corporation in 1985.

From 1980 to 1982, White was operations manager in the telecommunications products group at Eaton Corporation. White attended UCLA and San Jose State University, earning a BS degree in business management in 1975. He lives with his wife Tamara and their three children in Utica, New York.

Laser Precision Corporation is a manufacturer of test and measurement instruments combining advanced optical designs with microprocessor technology. The Company's products are used in fiber optic telecommunications, data communications, laser research, process control, environmental monitoring, and chemical analysis.

WASHINGTON (AUG. 15) BUSINESS WIRE - AT&T has signed an agreement with Kay Jewelers, Inc. to provide AT&T Enhanced FAX service for the company's 500 retail stores in the United States.

The agreement with Kay Jewelers is one of the largest sales for AT&T Enhanced FAX since the service was introduced in September, 1989.

AT&T Enhanced FAX is a package of fully automated global store and forward capabilities, which is part of AT&T's global messaging product line. Global messaging is an evolving ability to exchange information between a multitude of sources -- such as a computer terminal, telephone or facsimile machine -- in a multitude of forms -- such as text, data, voice or image -- anywhere in the world.

Kay Jewelers is using the automated broadcast feature of AT&T Enhanced FAX to expedite the distribution of information from its corporate headquarters in Alexandria, Va., to its stores throughout the country.

Using the advanced technology of the AT&T network, AT&T Enhanced FAX lets the company deliver sales information, reports and product updates with a single fax command for more efficient and timely delivery of fax messages to multiple recipients.

Kay Jewelers is using AT&T Enhanced FAX in tandem with its AT&T Software Defined Network (SDN) to provide a highly cost effective and technically advanced communications system. SDN is a virtual private network service offered by AT&T that allows customers to use AT&T's public network as if it were a private network, avoiding costly capital investments.

Kay Jewelers, Inc. is the second largest retail jewelry company in the United States.

#90227b0731 08/15/1990 ~Business Wire

AUSTIN, TX (AUG. 15) BUSINESS WIRE - Prime Medical Services, Inc. (''Prime'') (NASDAQ: PMSI) today announced results for the second quarter of 1990. For the three months ended June 30, 1990, revenues increased to $3,511,000 from $3,253,000 for the same period in 1989. The Net Loss amounted to $448,000, or $0.05 per share, vs. $965,000 or $0.11 per share in 1989.

For the first six months, Prime reported revenues of $7 million vs. $6,916,000 in 1989. A net loss of $651,000 or $0.08 per share compares to a loss of $1,553,000 or $0.18 per share in 1989.

The loss for the second quarter 1990 includes a nonrecurring expense of $72,000 for prior years' property taxes at one of the Imaging centers and approximately $100,000 for costs associated with three regional meetings held by Prime for the nursing and administrative staff from all of the cardiac centers.

Jackie Majors, president of Prime, stated, ''Although we expect continued losses from operations through year-end, we are on track with our efforts to improve results in 1991. We expect to have a positive third quarter, due to the sale of our Employee Pharmaceuticals, Inc. (''EPIC'') stock during July. This sale, offset by other nonrecurring events, will result in a nonrecurring gain of approximately $900,000.''

Prime Medical Services, Inc. is engaged in providing non-medical management services to 47 cardiac rehabilitation clinics and seven imaging centers in 13 states.

#90227b0735 08/15/1990 ~Business Wire

NEW YORK (AUG. 15) BUSINESS WIRE - Frank P. DiPrima, president and chief operating officer of Western Publishing Group Inc. (NASDAQ: WPGI),

Wednesday announced the retirement of Larry Wright as president and chief executive officer of Penn Corp.'s Ad Specialty Division.

In addition, DiPrima announced the appointment of Dennis G. Multack as president and chief executive officer of Penn Corp.'s Ad Specialty Division to replace Wright.

Citing personal and family considerations, Wright felt that after 35 years with the company, it was time to pass the baton to a new generation. Wright will remain active with the company as a consultant.

DiPrima said, "I can fully understand Larry's desire to spend more time with his wife, children and grandchildren after so many years of dedication to this business. I am particularly delighted that Larry will remain involved with Penn Corporation."

Multack joins Penn Corp. with an extensive background in manufacturing and sales. Most recently he was president of Gilmed Manufacturing in Chicago. Prior to that, he spent 6-1/2 years with General Medical Corp. in various executive capacities, most recently as president and chief executive officer of its subsidiary, General Medical Manufacturing Co.

Multack also spent nine years with Abbott Laboratories in Chicago, becoming division controller of manufacturing for its Hospital Products Division and later division controller for all corporate distribution.

"We are very pleased that someone of the general management experience, skill and energy of Dennis Multack will be leading Western's Advertising Specialty Division into its next phase of growth," DiPrima said.

Through its Western Publishing Co. subsidiary, Western Publishing Group Inc. is the nation's largest creator, publisher, printer, and marketer of story books and other activity books and products for children.

These products are sold prinicpally under the Golden and Golden Book names. The company is a major producer and marketer of puzzles, games, children's video and special interest books for adults.

Western Publishing Co. also ranks among the largest commercial printers in the United States, offering a wide range of printing, graphic and creative services to customers in industry and government.

Western Publishing Group Inc. through the two operating divisions of its Penn Corp. subsidiary, Beach/Contempo Products and Ritepoint/Vitronic Ad Specialty Products, is engaged in the manufacture and sale of disposable paper tableware and party goods, stationery and advertising specialties and promotional business products.

#90227b0736 08/15/1990 ~Business Wire

DALLAS (AUG. 15) BUSINESS WIRE - Pratt Hotel Corp. (AMEX:PHC) reported a net loss of $7,592,000, or 15 cents per share for the quarter ended June 30, compared to a net loss of $3,264,000, or 6 cents per share for the same period in 1989.

Net revenues for the 1990 second quarter amounted to a record $70,491,000 compared to net revenues for the 1989 second quarter of $62,896,000.

PHC's flagship property, the Sands on the Park in Atlantic City, N.J. reported a 10 percent increase in net revenues to $65.9 million on a 16.1 percent improvement in gross wagering to $471.7 million.

The growth in business volume resulted from continued favorable customer response to a recently completed extensive capital improvement program and new marketing and promotional activities, including a slot marketing system instituted in the 1989 fourth quarter.

An increase in the provision for doubtful accounts of approximately $1 million, and the losses associated with the company's contribution of obligatory investments to the Casino Reinvestment Development Authority (''CRDA'') of approximately $2.8 million, combined with higher operating costs to offset the favorable increase in revenues.

The losses on obligatory investments relate to the company's estimate of the realizable value of its previously made CRDA investments. The Sands on the Park anticipates receiving a waiver of certain investment obligations and estimates that its 1992 and 1993 deposit requirements would be reduced by approximately $2.5 million.

PHC continues its aggressive pursuit of its litigation against Boardwalk Properties Inc., Penthouse International Ltd., Robert C. Guccione, Trump Plaza Casino/Hotel and Donald J. Trump, individually. Second quarter results also reflect an increase in litigation costs associated with this suit which began in March 1989.

For the first half of 1990, Pratt posted a net loss of $14,212,000 or 28 cents per share, compared with a net loss of $5,141,000 or 10 cents per share for 1990's first six months. Net revenues increased to $131.9 million compared with 1989's $120.2 million. The first half results, again, were impacted primarily by provisions for doubtful accounts, the losses on obligatory investments and increased operating expenses, which have reduced operating margins compared to the 1989 period.

#90227b0737 08/15/1990 ~Business Wire

SOUTH NORWALK, CT (AUG. 15) BUSINESS WIRE - The Union Corp. (NYSE:UCO) Wednesday reported its revenues and earnings for the fiscal year ended June 30 and the fourth quarter.

Revenues from continuing operations for the year were $71,595,000 compared with $58,479,000 for the prior year, an increase of 22 percent. Income from continuing operations and net income was $7,987,000, or $1.05 per share, compared with income from continuing operations of $3,639,000 or 50 cents per share a year ago.

In fiscal 1989, net income, after gain of $5,211,000 on sale of Gichner Systems Group and net extraordinary items of $2,240,000, was $12,325,000 or $1.70 per share. The average number of common and common equivalent shares outstanding for primary earnings per share were 7,605,613 and 7,187,668 for the 12 months ended June 30, 1990 and 1989, respectively.

Revenues from continuing operations for the fourth quarter were $20,416,000 or 27 percent ahead of $16,071,000 a year ago. Income from continuing operations and net income was $2,104,000, or 27 cents per share as compared with income from continuing operations of $1,706,000 or 23 cents per share last year.

Net income after gain of $5,029,000 on sale of Gichner Systems Group and net extraordinary items of $165,000 was $6,900,000, or 94 cents per share for the quarter last year. The average number of common and common equivalent shares outstanding for primary earnings per share were 7,716,603 and 7,314,453 for the 3 months ended June 30, 1990 and 1989, respectively.

Capital Credit reported a 38 percent increase in the volume of accounts

receivable placed by major clients, and Transworld Systems opened a total of 21 new sales offices in fiscal 1990. These factors contributed to revenue growth and the profit improvement of each company.

The outlook for the industry is promising as consumer debt remains at high levels, the issuance of credit cards has increased and installment debt continues to rise. Based on these factors, Mr. Cooper added, the prospect for Transworld Systems and Capital Credit is encouraging for fiscal 1991.

The company's financial condition continues to be extremely strong and liquid, which will enable Union to fund internal growth as well as to pursue acquisition opportunities as they develop.

The company provides accounts receivable management and debt collection services on a fixed rate and contingency fee basis to a wide range of institutional, commercial and government customers through its Transworld Systems Inc. and Capital Credit Corp. subsidiaries.

#90227b0743 08/15/1990 ~Business Wire

BRUSSELS, BELGIUM (AUG. 15) BUSINESS WIRE - The VME Group reports sales of MUSD 644.4 for the first six months of 1990, an increase of 18 percent compared to the same period in 1989.

The higher sales were the result of strong retail sales of both machines and spare parts, and the impact of sales in other than U.S. dollars when translated to U.S. dollars.

Net profits were also at a record MUSD 22.7 for the first six months of 1990, up 7 percent over the same period in 1989. Net profits increased mainly because of higher sales, but were moderated by a loss in the Brazilian operations during the first half of 1990 due to the impact on the market of the economic austerity enforced by the new Brazilian government.

The world market for earthmoving and construction equipment softened somewhat in the first half of 1990 compared to the same period a year earlier with a few exceptions such as Germany and Japan. There was a noticeable slowdown in some major markets such as the United Kingdom, France and Spain. Also the North American market was showing some signs of weakness.

These developments, together with the present economic and political uncertainties as a result of the crisis in the Gulf, constitute a strong indication that the second half of 1990 may not be nearly as buoyant as 1989 when order intake was at a high level.

VME Group is a major international manufacturer of earthmoving and construction equipment with production facilities in Europe and North and South America. VME products are sold through a worldwide distribution network under the well known Volvo BM, Michigan and Euclid trademarks. The product line includes wheel loaders, rigid and articulated haulers, rubber-tired dozers and excavator loaders.

#90227b0747 08/15/1990 ~Business Wire

GREENWOOD, SC (AUG. 15) BUSINESS WIRE - United Financial Corp. of South Carolina Inc. (NASDAQ:UNSA) today announced financial results for its first quarter ended June 30, 1990.

For the three months ended June 30, 1990, net income increased 15 percent to $660,000, or 34 cents per share, compared with $575,000, or 30 cents per share, for the three months ended June 30, 1989.

Earnings do not include the results of operations of Home Federal Savings Bank of S.C., Rock Hill, S.C. The acquisition of Home Federal was substantially completed as of June 30, 1990, and has been accounted for using the purchase method of accounting.

The application of the purchase method of accounting resulted in the adjustment of the assets and liabilities of Home Federal based upon fair values at the date of acquisition. Reported consolidated income of United Financial for periods subsequent to June 30, 1990, will include the results of operations of Home Federal after acquisition.

At June 30, 1990, total assets had increased to $499,183,000 compared with $275,922,000 at March 31, 1990, reflecting the recent acquisition of Home Federal with assets totaling approximately $220,000,000 at June 30, 1990.

Stockholders' equity was $41,225,000, or approximately 8.3 percent of total assets. Net loans totaled $414,557,000 at June 30, 1990, and deposits were $414,194,000, compared with $222,938,000 and $233,288,000,

respectively, at March 31, 1990.

United Financial Corp. of South Carolina, Inc. is a multiple savings and loan holding company with two subsidiaries, United Savings Bank, Inc. of Greenwood, and Home Federal Savings Bank of S.C. in Rock Hill.

United Savings Bank Inc. serves Greenville, Greenwood and the surrounding area through five full-service and two limited-service offices. Home Federal Savings Bank of South Carolina operates eight full-service offices in the Rock Hill area.

#90227b0751 08/15/1990 ~Business Wire

RIVERSIDE, CA (AUG. 15) BUSINESS WIRE - Rastra Building Systems Inc. (NASDAQ:RAST) Wednesday announced the signing of the first phase of a five-year multi-phase project with Ari-Sonora Development Corp. of Phoenix Ariz.

This first phase calls for the construction of 14 custom homes in the resort area of Rocky Point Mex. Discussions are presently underway with Ari-Sonora Development for further use of the Rastra material in several areas of the United States, including a 420-unit apartment complex in Las Vegas, Nev.

Rastra manufactures a unique building material utilizing recycled polystyrene, such as that found in fast-food containers and packing material and ordinary portland cement. The patented process was developed in Austria in 1968 and is currently being manufactured in eight countries including West Germany, Austria and Korea and is being shipped to numerous countries around the world.

The material has superior insulating and sound-diffusing qualities, is fire-resistent and is lighter and easier to handle than conventional materials. The first U.S. facility recently went on- line in Riverside.

The Ari-Sonora contract calls for construction to commence on or about Sept. 15th and will be the first multi-home project in North America to be built using the Rastra Building System.

Also scheduled in mid-September is the construction of a single-family home in Templeton, Calif., which has been designed by California Polytechnical Institutes's School of Architecture in San Luis Obispo.

Being promoted as the ''home of the future'' by Cal Poly Architecture Professor Donald Grant, the Rastra material was chosen as the primary building material due to its superior physical characteristics, its use of recycled polystyrene as an integral part of its manufacture and the fact that the Rastra material is also recyclable itself.

The Cal Poly home was the idea of Architecture Professors Don Grant and George Hasslein. Their aim was to devise a method of construction which would ''emphasize recycled materials and ecologically responsible and sustainable materials and processes'' while also being affordable to middle-income families.

The Rastra System is also currently being used in the design and construction of a shopping center in Minden, La., and several custom homes in Arizona with negotiations for further contracts continuing in both areas.

SCOTTSDALE, AZ (AUG. 15) BUSINESS WIRE - Prime Financial Partners, L.P. (AMEX:PFP) Wednesday announced results for the second quarter and six months ended June 30.

The company's rise in revenues for the quarter and first half is due to the increase in national insurance carriers marketing the Trust and a continued increase in market acceptance. During the past 12 months the number of national insurance carriers marketing the Trust has gone from two to 14, according to the company.

For the second quarter ended June 30, the company had revenues of $539,260 compared with $461,244 for the same period last year. Prime had a net loss of $446,056, or 8 cents per Class A Unit, for the three month period against a loss of $482,680, or 15 cents per Class A Unit, in the same period last year.

For the first six months of 1990, Prime had revenues of $1,234,737 compared to $806,009 for the first half of 1989. The company had a net loss of $592,814, or 13 cents per Class A Unit, for the first half against a net loss of $851,603, or 27 cents per Class A Unit, for the same period last year.

Prime stated that the increase in revenues between the periods is primarily due to increases in commission income earned on contributions to

the Prime Financial Benefit Trust of 165 percent and 169 percent for the three months and six months ended June 30 over the comparable periods of 1989. The partnership also reported an increase in administrative fee income associated with the annual administration of the Trust.

Expenses, primarily associated with the marketing effort, increased in the first half and contributed to the rise in Trust activity. During the first six months of 1990, according to the company, the partnership conducted more than 150 sales seminars in over 70 cities nationwide directed toward educating insurance agents and financial planners on the Trust product.

Last month Prime reported plans to complete the restructuring of the partnership which began with the write-down of its real estate assets in 1989 and was followed by the sale of $2.5 million of unregistered Class A units.

ALBANY, NY (AUG. 15) BUSINESS WIRE - John J. Brunner, chairman, president and chief executive officer of Home & City Savings Bank (NASDAQ: HCSB), announced Wednesday that the board of directors approved an increase in the regular quarterly cash dividend from 24 cents per share to 33 cents per share at the August board meeting. The board declared the increased dividend payable on Sept. 28 to shareholders of record at the close of business on Sept. 14.

"This substantial increase translates into an annualized dividend improvement from 96 cents per share to $1.32 per share or a 37.5 percent increase. The higher dividend reflects the confidence the board of directors and I have in the direction and strength of Home & City," Brunner said.

Commenting further he said, "During a period in which a number of banking institutions in the Northeast are experiencing financial difficulties, Home & City has maintained an equity-to-asset ratio in excess of 11 percent making it among the strongest of all financial institutions in this region.

"In the past quarter, the bank has seen an improvement in its non-performing assets and has further increased its loan loss reserve as part of a program to continually strengthen its balance sheet. These

factors along with stable core earnings lead the Directors to increase the dividend."

Brunner added, "With the level of equity this institution has, we are able to pay a higher dividend at this time and improve the yield on our shareholders' investment."

The bank's total assets were $862.4 million as of June 30 and FDIC-insured deposits were $741.7 million. Stockholders' equity equaled $95.6 million or $33.23 per share, and the bank's equity-to-asset ratio was a strong 11.1 percent at June 30.

Home & City Savings Bank is the largest, New York State chartered savings bank headquartered in Albany. It became a publicly owned savings bank in 1986. The company operates 15 branches and loan centers in the capital region and surrounding communities. Home & City is a full service bank active in commercial, consumer and residential lending, in addition to brokerage and trust services.

CONCORD, MA (AUG. 15) BUSINESS WIRE - GenRad Inc. Wednesday announced shipment of its new telecommunications line card test solution, the GR2286 Line Card Test Option.

The GR2286 Line Card Test Option features the proven in-circuit test and diagnostic capability of the GR2286 Production Test System integrated with the Wandel and Golterman PCM-4 channel measuring system and the Lorrain T50PR Ring Generator controlled by the GR Line Card Interpretive Programming Language.

Custom-designed by GenRad's telecommunications test specialists to meet the customer-specific test requirements of a major U.S. telecommunications manufacturer, the GR2286 Line Card Option adds to the growing family of GenRad telecommunications test solutions. In 1989, GenRad introduced the GR2276 ISDN Test Solution based on the Tekelec TE931 ISDN Protocol Simulator/Analyzer.

Thomas J. Coughlin, GenRad director of Tactical Marketing said, "The GR2276 and GR2286 Production Test Systems have won widespread acceptance throughout the telecommunications industry around the world.

With the release of the GR2286 Line Card Test Option, GenRad continues its commitment to the telecommunications industry with both standard products and custom solutions aimed at solving printed circuit board test probems

on a global scale."

GenRad Inc. is a leading worldwide supplier of integrated software systems and automatic test equipment, to manufacturers and users of electronic and mechanical equipment, for design verification, product testing, and process quality management. The company's stock is traded on the New York Stock Exchange; its trading symbol is GEN.

WALLINGFORD, CT (AUG. 15) BUSINESS WIRE - NOVAMETRIX MEDICAL SYSTEMS INC. (NASDAQ/NMS Symbol: NMTX) Wednesday announced that its Annual Report on Form 10-K for the fiscal year ended April 29, 1990 will not be filed with the Securities and Exchange Commission when due.

Until the Annual Report on Form 10-K is filed, the company's common stock

will trade on the NASDAQ National Market System under the symbol NMTXE.

The company stated that the preparation of the company's financial statements has been delayed because of complex accounting issues associated with losses incurred in Fiscal 1990, the closing of its U.K. subsidiaries, the recently completed restructuring of the company's indebtedness and other extraordinary transactions which also occurred in Fiscal 1990.

The resolution of these financial presentation issues will have no impact on the current fiscal year which ends April 28, 1991. The company is working with its independent accountants to complete the financial statements and anticipates filing the Annual Report on Form 10-K within 30 days.

NOVAMETRIX MEDICAL SYSTEMS INC. is a leading designer, developer, manufacturer and marketer of medical electronic instruments which non-invasively and continuously assess a critically ill patient's oxygen and carbon dioxide status. The company's products are primarily used in operating rooms, intensive care units and respiratory therapy departments.

#90227b0773 08/15/1990 ~Business Wire
LEXINGTON, MA (AUG. 15) BUSINESS WIRE - Interneuron Pharmaceuticals Inc. (NASDAQ:IPIC) Wednesday announced its results of operations for the three and nine month periods ended June 30, 1990.

The company reported net losses of 4 cents per share for the 1990 three month period and 12 cents per share for the 1990 nine month period.

This compares to net losses of 2 cents per share for the comparable 1989 three month period and 3 cents per share for the period from inception (Oct. 7, 1988) to June 30, 1989.

The company had interest income of $193,681 and $260,789 for the 1990 three and nine months, respectively, and contract revenues of $50,000 and $100,000, respectively, for such periods. The weighted average numbers of shares outstanding for the three and nine months ended June 30, 1990 were 16,089,466 and 12,809,797, respectively.

For the three months ended June 30, 1989 and the period from inception through June 30, 1989, the weighted average number of shares outstanding were 9,453,236 and 9,384,870, repsectively.

Founded in October 1988, Interneuron Pharmaceuticals specializes in the development and commercialization of innovative pharmaceutical products to treat central nervous system conditions and disorders.

The company is focusing primarily on investigating new compounds to treat disturbances of sleep, appetite, memory or mood, or neurologic or psychiatric disorders such as depression, muscle spasticity and Alzheimer's disease.

#90227b0775 08/15/1990 ~Business Wire
TEMPE, AZ (AUG. 15) BUSINESS WIRE - FCS Laboratories Inc. (NASDAQ:FCSIC) Today announced a net loss of $378,504 or 8 cents per share for the nine months ended June 30, 1990.

In the comparable year earlier period, FCS incurred a loss of $384,524 or 9 cents per share. For the three month period, the company lost $146,815 or 3 cents per share compared to $70,232 or 2 cents per share in the prior year.

Sales for the three months declined 6 percent compared to a 17 percent decrease in the year earlier period, and compared to a 10 percent decline and 3 percent decline in the first and second quarters, respectively, of the fiscal year.

''The decrease in sales for the quarter comprised a 13 percent decline in sales of human products, offset in part by a 31 percent increase in sales of animal health products,'' stated Nicholas A. Gallo, chairman and president of FCS.

He added that, ''The impact of our continued overseas involvements, specifically in France, caused much of the overall loss.'' Gallo reiterated that at this stage FCS's overseas costs consist predominantly of involuntary expenses such as interest, depreciation/amortization and legal and audit expense. Additonally, foreign currency translation adjustments also had to be made as a result of the further weakening dollar.

''Our core domestic operations in Arizona had income before tax of $66,023 or 6 percent of sales. Also, despite the overall loss, net cash was again provided by operating activities. This was consumed by further paydowns on bank loans and other long term obligations,'' added Gallo. ''Our turnaround program is still the same and progress is being made despite the impression given by the results,'' he noted.

The company's equity account is below the $375,000 required for inclusion on the NASDAQ system. The company's recent request for a temporary exception provided in the NASD By-laws was granted until Sept. 15, 1990.

FCS Laboratories Inc. is a healthcare company engaged in serving the general practice physician and veterinarian with diagnostic and therapeutic products for various diseases, including allergy.

ACTON, MA (AUG. 15) BUSINESS WIRE - The Co-operative Bank of Concord (NASDAQ:COBK) announced consolidated net earnings of $206,000, or 6 cents per share, for the first quarter ended July 31, 1990, compared with earnings of $854,000, or 25 cents per share, for the same period last year.

''We continue to be negatively impacted by the slowdown in the region's economy and the troubled real estate market,'' stated David E. Bradbury, chairman. ''The reduction in interest income from non-performing assets was approximately $718,000 for the quarter. There are also significant other operating costs associated with the maintenance and management of non-performing assets. Together these items had a material impact on earnings.

''Our efforts to aggresively manage non-performing assets continue to produce favorable results; however, the most important component of the process, the pace of home sales, is beyond our control. We have continued our program of acquiring properties through actual foreclosures or voluntary conveyance then completing construction where necessary and initiating active marketing programs for the properties.

''In certain cases we are starting construction of single family homes in order to move the land inventory.''

During the quarter non-performing assets increased from $26,658,000 to $27,264,000, representing 4.96 percent of total loans receivable and other real estate owned and 4.15 percent of total assets. These amounts do not include certain assets of the former Randolph Co-operative Bank on which the Co-operative Central Bank Share Insurance Fund provides yield maintenance and protection against losses for the next two years.

Provisions for loan losses of $392,000 and market value declines of $153,000 were made during the quarter. The general reserve for loan losses totalled $4,490,000 at July 31, 1990.

The annual meeting of stockholders will be held Friday, Sept. 21, 1990 at 11 a.m. at The First National Bank of Boston, 100 Federal St., Boston, Mass.

The Co-operative Bank of Concord , with assets in excess of $650 million, is a state chartered, FDIC insured co-operative bank with headquarters in

Acton, Mass. and 14 retail banking offices in Middlesex, Norfolk, and Plymouth counties.

#90227b0789 08/15/1990 ~Business Wire

CONCORD, MA (AUG. 15) BUSINESS WIRE - GenRad, Inc. today announced a significant step toward increasing its trade in Eastern Europe with a go-ahead for selling previously barred Automatic Test Equipment (ATE) systems.

The approval of licenses from the Coordinating Committee for Multilateral Export Control (COCOM) allows GenRad to sell semiconductor test equipment in Eastern Europe. The Cocom approval of GenRad test systems designated for use in the Soviet Union, Rumania,and Bulgaria is the first approval granted for such Automatic Test Equipment systems since 1980, when technology export controls were tightened.

The approximate value of the test systems licenses approved exceeds $2 million.

The systems, classified as ''1355A technology sensitive semiconductor test equipment'', earlier this spring were reviewed and approved by the United States Departments of Commerce, State and Defense, before obtaining

clearance from NATO's COCOM unit in Paris. Commenting on the license approval, Robert E.Anderson, GenRad's President and Chief Executive Officer said, ''The approval of these licenses is significant for GenRad and the electronics industry. For GenRad, it represents a green light to go after a potentially important market for ATE systems that has been virtually closed to American technology companies for the past decade. It is a logical recognition that in order for American technology companies to be competitive in world markets, they must be free to compete equally with non-strategic products.

''GenRad sees good major market opportunities for our entire design and test product line in Eastern Europe, particularly in such countries as East Germany, Yugoslavia, Hungary, Poland, and the Soviet Union, where we first sold test and measurement products in the Thirties, when our largest export market was the U.S.S.R.'', Mr. Anderson observed. We see the potential for significant incremental sales growth from the region, this year and next, especially as we put in place a new sales and marketing distribution network for Eastern Europe.''

COCOM is comprised of representatives of the NATO countries and Japan and Australia. For the past forty years it has been the clearinghouse that determines the strategic nature of products and technology to be marketed in Eastern Europe and other nations aligned with the Soviet Union. As countries such as East Germany, Poland, Czechoslovakia, Hungary, Rumania, and Bulgaria transition to political freedom, commercial trade barriers will come down in relation to non-strategic goods. The United States State Department has based its reformulated COCOM policy on four goals: support for political reform in Eastern Europe; strengthened protection for truly strategic technologies; rapid modernization of current control lists; and decontrol of off-the- shelf technology products.

GenRad, Inc. is a leading worldwide supplier of integrated software systems and automatic test equipment, to manufacturers and users of electronic and mechanical equipment, for design verification, product testing, and process quality management. The Company's stock is traded on the New York Stock Exchange; its trading symbol is GEN.

#90227b0791 08/15/1990 ~Business Wire

FORT WORTH, TX (AUG. 15) BUSINESS WIRE - Dallas Oil & Minerals Inc. (the ''company'') today announced its June 30, 1990 results.

Revenues for the six months decreased 5 percent to $779,000 as lower oil and gas prices more than offset higher production volumes. Net income for

the 1990 period amounted to $151 vs. $171,677 for the prior year. The drop in net income was due to lower revenues, a loss on sale of the company's non-oil and gas assets and higher general and administrative expenses and depletion and depreciation expense. The proceeds from sale of the non-oil and gas assets and operating cash flow increased working capital 20 percent $1.4 million. Total assets and stockholders' equity remained unchanged at $4 million and $3.9 million, respectively.

In May 1990, a change of control occurred in regards to the company. Lomak Petroleum Inc. (''Lomak''), a public independent oil company based in Fort Worth, acquired 39 percent of the company's common stock. The company, including its board of directors, is now staffed with Lomak personnel.

The company is engaged in the exploration, production, development and acquisition of oil and gas properties located primarily in southwestern United States. The company's common stock is listed on NASDAQ under the symbol ''DOIL.''

WEST CHESTER, PA (AUG. 15) BUISNESS WIRE - Commodore Business Machines Inc. has launched a limited-time offer to provide purchasers of a new Commodore Amiga 2000HD (R) or Amiga 2500/30 (R) with a free 1084S color monitor (List Price: $399).

The special offer applies only to purchases made at participating dealers between Aug. 1 and Sept. 29. This offer is not available in conjunction with any other Commodore promotion.

The program is part of a larger effort by Commodore to position the Amiga in the small business market. According to Commodore Director of Business Markets, David Archambault, the Amiga's built-in graphics, multitasking capability and video compatibility and the availability of a variety of business productivity software titles provide small business users an ideal system solution.

In addition, the availability of a variety of business productivity software titles provide these business users an ideal system solution for their accounting, database, word processing or desktop publishing needs.

''As interest in the Amiga product line grows, we will continue to offer incentives to influence purchasing decisions,'' said Archambault. ''While the Amiga 3000, our newest and most powerful model, is ideal for advanced applications, the popular and cost effective 2000 series models are well suited for the small business/work-at-home audience as well as the first time buyer.'' Archambault said these models support a variety of peripherals and third-party products for custom applications.

Commodore Business Machines Inc., based in West Chester, manufactures and markets a complete line of computers and peripherals for the business, education, government and consumer markets.

The multitasking Amiga (R) line includes the Commodore Amiga 500 (R), the Commodore Amiga 2000 (R), two enhanced products -- the Commodore Amiga 2000HD (R) and the Commodore Amiga 2500/30 (R), and the Commodore Amiga 3000 (R).

PORTLAND, MAINE (AUG. 15) BUSINESS WIRE - North East Insurance Company (NASDAQ Symbol:NEIC) Wednesday reported results for the second quarter and six months ended June 30, 1990.

Of the results, Robert G. Schatz, North East president, commented, ''Considering our decision to stop writing all new and renewal policies in the New York City area, we are pleased that we maintained profitability during both periods of 1990. We have launched efforts to compensate the premium reductions through new products introduced in Maine. The first product, Standard and Preferred Private Passenger Auto insurance, was

introduced in the latest second quarter and will be available to most of our agents in Maine by September 1990. We also expect to introduce two new additional lines insurance, also in Maine, before the end of the year.

''Our investment portfolio continued to contribute increased income during the latest six months. We believe our approach to gradually introduce new main street products to the marketplace will produce positive results and establish a foundation for further growth,'' Schatz concluded.

KANSAS CITY, MO (AUG. 15) BUSINESS WIRE - Kemper Service Co., a Kansas City based division of Kemper Financial Services Inc., will hold a graduation ceremony on August 21st for its Business Skills Workshop, a five-week pilot training program currently offered to high school students graduates and GED holders from Kansas City's Hispanic community.

Kemper will present Certificates of Graduation to 11 students who have completed a series of 10, two-hour sessions which were held at Kemper Service Co. on Tuesday and Thursday evenings from 5 -7 p.m. The pilot program was organized in conjunction with local Hispanic agencies such as: Kansas City Hispanic Chamber of Commerce, Guadalupe Center, LuLac and Kansas-based El Centro.

At the program's inception in June, each student was paired with a Kemper employee who volunteered to act as a mentor, providing one-on-one guidance counseling throughout the workshop. Kemper training instructors taught the course which included a typing tutorial, computer training, a teamwork seminar, professional image building and interviewing skills.

''As this is a pilot program,'' says William Fronk, executive vice president of Kemper Service Company, ''we will work with the Hispanic agencies to assess its success. We look forward to continuing the workshop and encourage the participation of other companies and professionals, both locally and nationally, in implementing similar skill-based programs.''

One Kansas City businessman, Art Arreguin, a placement consultant, has volunteered his efforts in arranging job placement interviews for the students. ''When companies begin to hear about our program,'' says Arreguin, ''they will actively participate. With many well planned projects, one good idea breeds another good idea.''

Kemper Financial Services Inc. is a major investment management and financial products company and part of the Kemper Group. KFS currently has over $60 billion in assets under management.

#90227b0809 08/15/1990 ~Business Wire

BROOKLYN, NY (AUG. 15) BUSINESS WIRE - Creative Technologies Corp. (NASDAQ:CRTV) Wednesday reported results for the three and six month periods ended June 30.

The company, which develops and markets products for the small appliance industry, reported sales of $969,000 for the six month period ended June 30, 1990 as compared to sales of $1,137,000 for the same period last year. The decline in sales is attributable to management's decision not to actively market Frozen Express, an instant ice cream machine. However, sales of Pasta Express, the company's pasta machine, continue to be strong.

While sales were below the level of the prior year, gross profit margins improved and operating expenses dropped dramatically. A net loss of $307,000, or 7 cents per share was reported for the first six months on 1990. This is a substantial improvement over the loss of $1,189,000 or 29 cents per share reported in the first six months of 1989.

Speaking at the Annual Meeting of Shareholders held in New York, Richard Helfman, president of Creative, said, '' The company's goal remains to operate profitably by year-end.'' The improvement in the gross profit margin on the Pasta Express is the result of manufacturing efficiencies. The gross profit margin increased to 33 percent for the first quarter and 41 percent for the first six months of 1990. This compares with a gross profit margin of 23 percent and 30 percent for the three and six month periods ended June 30, 1989.

During the second quarter and six months of 1990, Selling, General and Administrative (SGA) expenses decreased 68 percent or $537,000 and 64 percent or $941,000 respectively as compared to the three and six months last year.

At June 30, 1990 the company had a working capital deficit of $153,000 or a decrease of $677,000 from the working capital deficiency of $830,000 at Dec. 31, 1989. Working capital during the six month period in 1990 was used primarily to finance the selling, general and administrative expenses of the pasta machines and develop the Eggspress egg cooker.

''We are in a highly seasonal business with the second half being very important to our overall performance for the year,'' Helfman continued. ''Much depends on the retail environment for the remainder of the year.''

#90227b0813 08/15/1990 ~Business Wire

CAMBRIDGE, MASS. (AUG. 15) BUSINESS WIRE - Lotus Development Corp. Wednesday announced that Lotus Notes, its group communications software product, is now compatible with the Windows 3.0 personal computer operating environment.

The Lotus Notes 1.1 upgrade also includes support for additional network operating systems and modem types. This upgrade is free to all users currently under maintenance.

Running under Windows 3.0, Lotus Notes 1.1 takes advantage of Windows 3.0's enhanced memory management system, and enables Lotus Notes to run concurrently with other software applications.

''Lotus Notes ties together users throughout an organization, allowing them to share information over the network,'' said Larry Moore, vice president of Lotus' communications products division. ''This requires support for all the operating environments running on today's desktops, including the new Windows 3.0. With Version 1.1, Lotus Notes now supports the most popular PC graphical user interfaces, including Windows 3.0 and Presentation Manager.''

The three additional network operating systems certified and supported by Lotus Notes 1.1 include OS/2 1.2 Extended Edition, Novell Netware Requester for OS/2 1.2 and Novell Netware/386. Lotus Notes 1.1 also includes support for the V32 Multitech modem and the US Robotics HST Dual Standard (V32) modem.

Lotus Notes now supports the following network operating systems and modems: Certified Networks Certified Modems OS/2 1.2 Extended Edition all Hayes 100% compatible up

to 2400 baud
Novell Netware Requester for OS/2 1.2 Hayes Smartmodem 9600-(a)
Novell Netware/386 Hayes V-Series 9600-(a)

IBM PCNET versions 1.2 and 1.3 Hayes V-Series Ultra-(a)
IBM LAN Server version 1.0 Multitech MultiModem-(a)
3Com 3+ Share version 1.3.1 US Robotics HST Dual
Standard-(a)
3Com 3Plus Open version 1.0 and 1.1 US Robotics Courier V.32-(a)
Novell version 2.15 -(a) all speeds up to 19.2k
supported
Novell OS/2 Requester version 1.1

Available since December 1989, Lotus Notes is a group communications software product that allows people to create and access shared information using personal computers, and local- and wide-area networks. Voted ''Best New Business Software Product'' by the Software Publisher's Association in February, 1990, Lotus Notes is typically used for electronic mail, information distribution, sales management, customer service and product development. It is currently being sold via a direct sales force throughout North America and Western Europe, and is available at a minimum of 200 licenses for $62,500. Five days of support services are included in this price.

Lotus Notes is based on the client/server computing model, which connects PCs to shared database servers via networks. The Lotus Notes ''client'' features an intuitive, graphical user interface that runs under OS/2 and the Presentation Manager, and DOS with Windows. The Lotus Notes ''server'' runs under OS/2 with Novell, 3Com or IBM network operating systems.

Lotus Notes 1.1 will be shipped free of charge to all current users under maintenance. To inquire about this new update or Lotus Notes, customers may call 800/327-6148.

Lotus Development Corp. is the leading provider of applications software for personal computers and information services delivered on CD-ROM, and is a worldwide supplier of applications software for workstations, minicomputers and mainframes.

#90227b0815 08/15/1990 ~Business Wire
BILLERICA, MA (AUG. 15) BUSINESS WIRE - Unitrode Corp. (NYSE:UTR), a manufacturer of electronic components and subsystems, Wednesday announced that net sales for the second quarter ended July 28, 1990, were $32.6 million, an increase from $30.9 million in the first quarter.

Net income for the quarter was $152,501, or $.01 per share, compared with

a loss of $3.3 million or $.24 per share in the first quarter.

Sales for the year-ago quarter, ended July 29, 1989, were $40.1 million, which included $5.1 million in sales from a business sold in October, 1989. Net income in last year's second quarter was $172,580, or $.01 per share.

For the six-month period ended July 28, 1990, the company showed a loss of $3.1 million, or $.23 per share, on sales of $63.4 million. These results compare with net income of $457,511, or $.03 per share, on sales of $79.9 million for the same period last year, which included $10.8 million in sales from the business which was sold.

New orders in the second quarter were about $29 million. The backlog at the end of the second quarter stood at $54 million, compared to $57 million at the end of the first quarter.

Commenting on the announcement, Robert L. Gable, Chairman of the Board and Chief Executive Officer of Unitrode, said, ''These results represent substantial progress, but they are by no means satisfactory. We have filled all key management positions in the Company and have initiated several important programs aimed at restoring Unitrode to financial stability. The generally slow economic conditions, plus the cutbacks in military spending, make our task more difficult.''

Gable added, ''This quarter, again, the Integrated Circuits Division posted record sales and orders. Powercube continued to contribute and has successfully adjusted its size to the lower level of incoming business from the military. The Semiconductor Products Division (SPD) operated at a loss, but a sales increase of nearly 20%, plus the effects of cost reductions, resulted in significant operating improvement compared to the prior quarter. We continue to control all costs carefully and to focus on increasing our shipments from SPD.''

Unitrode is a manufacturer of superior quality electronic components and subsystems, including discrete semiconductors, power management integrated circuits, switching power supplies, and data conversion products. Its products are sold throughout the world for a variety of defense/aerospace, industrial, computer/telecommunications, data processing, and consumer applications.

KENNER, LA (AUG. 15) BUSINESS WIRE - Sizeler Property Investors Inc. (NYSE:SIZ) announced Wednesday results for the three months ended June 30, 1990.

Net income for the quarter ended June 30, 1990, was $696,000, or 20 cents per share based on 3,454,000 weighted average shares outstanding. For the quarter ended June 30, 1989, the company reported net income of $806,000, or 22 cents per share based on 3,715,600 weighted average shares outstanding.

Funds from operations, defined as income before gains on sales of properties, adjusted for non-cash items (principally real estate depreciation and amortization expense), were $1,219,000 (35 cents per share) compared to $1,301,000 (35 cents per share) for the quarters ended June 30, 1990 and 1989, respectively.

Operating results for the first six months of 1990 included a non-recurring 15 cents per share charge against earnings for unreimbursed costs related to a tender offer which was terminated by the company earlier this year.

The company has previously announced the payment of a dividend of 39 cents per share on Aug. 30, 1990, to shareholders of record as of Aug. 15, 1990.

Sizeler Property Investors Inc. is an equity real estate investment trust engaged in acquiring and holding real estate interests, principally shopping centers, for investment. The company is based in Kenner, a suburb of New Orleans.

MINNEAPOLIS (AUG. 15) BUSINESS WIRE - MOCON (Modern Controls Inc.) (NASDAQ:MOCO) announced Wednesday that on Aug. 14, its board of directors approved a 3 for 2 stock split in the form of a 50 percent stock dividend payable on Sept. 28, to shareholders of record on Sept. 7.

MOCON also announced that its board of directors declared a cash dividend of 4 cents per share, payable on Nov. 16, to shareholders of record on Nov. 2. The total amount of the cash dividend would have been 6 cents per share on the number of shares outstanding before the September 1990 3 for 2 stock split.

The company has provided stockholders with quarterly dividends for the 10th consecutive quarter. Prior to the present policy of quarterly dividends, the company had been paying dividends on a semi-annual basis since 1984.

MOCON is a leading developer, manufacturer and marketer of high technology instrumentation designed to test packages and packaging materials for permeation of gases and water vapor. The company also has a new line of thickness gauging systems used to measure plastics and coatings on and off the production line.

MOCON testing instrumentation is used in quality control and research laboratories in the food and pharmaceutical industries, to test plastic packaging materials for cost effective protection against loss of color, flavor, fragrance, texture, potency and freshness.

The comapny also manufactures weighing and sorting instrumentation that helps the pharmaceutical industry maintain the rigid weight tolerances needed in producing drugs in capsule and tablet form.

MOCON's shares are traded over-the-counter and are listed in the NASDAQ National Market System. The company's electronic NASDAQ trading symbol is MOCO.

ATLANTA (AUG. 15) BUSINESS WIRE - Georgia Power Company announced Wednesday that it will redeem on November 1, 1990 up to 300,000 shares of the $2.75 Class A preferred stock in connection with the annual sinking fund provisions for this issue.

The shares will be redeemed at the sinking fund redemption price of $25 per share plus accrued dividends to the date of redemption.

The $2.75 Class A preferred stock has a cumulative sinking fund provision requiring the redemption of 150,000 shares annually at the stated value of $25 per share, with an option to double to 300,000 shares of this issue.

Also, the company has the option to purchase and cancel the required number of shares annually.

There are currently outstanding 1,350,000 shares of the $2.75 Class A preferred stock.

Trust Company Bank, as transfer agent, registrar and dividend disbursing agent, will be responsible for selecting on a random basis the shares to be redeemed and notifying each registered holder. The date of record for the purpose of selecting shares for redemption will be the close of business on Sept. 14, 1990, and the books will be closed to transfer through the close of business on September 21, 1990.

On or before Sept. 28, 1990, holders of the $2.75 Class A preferred stock selected for redemption will be notified by first class mail.

WORCESTER, MA (AUG. 15) BUSINESS WIRE - Following its regularly scheduled board of directors meeting Wednesday, Wyman-Gordon Co. announced the termination of negotiations with United Engineering Steels Ltd. (UES) of Rotherham, England over the sale of Wyman-Gordon's Midwest Division.

The parties had entered into a Letter of Intent in June of this year regarding the acquisition by UES of Wyman-Gordon Co.'s crankshaft forging and machining facilities located in Illinois and Michigan. However, according to Donald M. Tucker, vice president - Law and Administration of Wyman-Gordon, ''Since it became clear that final agreement could not be reached, further negotiations were terminated by mutual agreement.''

Wyman-Gordon Co. is a leading manufacturer of high quality, technically

advanced forgings, investment castings and composite structures for the commercial transportation equipment and defense equipment industries.

#90227b0848 08/15/1990 ~Business Wire

DALLAS (AUG. 15) BUSINESS WIRE - Income Opportunity Realty Trust (ASE: IOT) Wednesday announced operating results for the second quarter ended June 30.

For the three months ended June 30 the trust recorded net loss of $669,000 or 18 cents per share, on revenues of $2.1 million, compared with net loss of $1.8 million, or 49 cents per share, on revenues of $3.7 million in the second quarter of the prior year.

For the six months ended June 30 the trust recorded a net loss of $1.1 million, or 31 cents per share, on revenues of $4.1 million, compared with a net loss of $2.0 million, or 53 cents per share, on revenues of $7.4 million in the first half of 1989.

The reduction in net loss in the first half of 1990, compared with the first half of 1989, was primarily attributable to significant expenses related to a tender offer and higher interest and operating expenses in 1989 than in 1990 because of more properties in the portfolio.

Net rental income for the six months ended June 30 was $868,000, compared with $1.8 million in the corresponding period in 1989. This decline also reflects the five properties the trust disposed of during late 1989.

Income Opportunity Realty Trust is a combination mortgage and equity real estate investment trust which operates nationwide.

#90227b0851 08/15/1990 ~Business Wire

ROUYN-NORANDA, QUEBEC (AUG. 15) BUSINESS WIRE - Audrey Resources Inc. (ME TSE:AUY) reports, for the second quarter ended June 30, 1990, revenue of $5,738,000, compared to revenue of $4,128,000 for the first quarter of 1990, representing an increase of close to 40 percent.

For the six-month period, revenue amounted to $9,866,000, compared to $77,000 for the corresponding period in 1989. The Mobrun mine was not in production during this period in 1989. Net income for the second quarter was $307,000, or 2 cents per share, compared with a net loss of $1,445,000 9 cents per share for the first quarter.

For the six-month period, net loss was $1,138,000, or 7 cents per share, compared to a net loss of $141,000, or 1 cent per share in 1989. Net income per share for the second quarter was affected by the write off of the costs related to the unrealized acquisition project of an American gold producer, totalling $256,000.

Weak precious metal prices, combined with a strong Canadian currency, have also particularly affected second quarter revenue. However, operating costs improved significantly, from $40.84 per metric tonne for the first quarter, to $35.99 per metric tonne for the second quarter.

In other respects, Audrey should be able to release, during the week of Aug. 20, the results of the exploration drill holes which intersected the important new C lens.

Following the completion of the underground definition drilling program on the 1100 lens, a new reserves evaluation is presently under way and should be available by the end of September 1990.

DALLAS (AUG. 15) BUSINESS WIRE - National Income Realty Trust (NASDAQ: NIRTS) Wednesday announced operating results for the second quarter ended June 30, 1990.

For the three months ended June 30, 1990, the trust recorded a net income of $2.8 million, or 75 cents per share, on revenues of $7.5 million and a gain on the sale of real estate of $5.9 million, compared with a net loss of $1.3 million, or 36 cents per share, on revenues of $7.4 million in the second quarter of the prior year.

For the six months ended June 30, 1990, the trust recorded a net income of $2.0 million, or 55 cents per share, on revenues of $14.9 million and a gain on the sale of real estate and an extraordinary gain totaling $6.6 million, compared with a net loss of $2.2 million,or 59 cents per share, on revenues of $14.3 million in the first half of 1989.

During the six months ended June 30, 1990, the trust recognized a gain of $5.9 million on the sale of Hawaii Business Park located in Honolulu, Hawaii. The trust also recorded an extraordinary gain of $.7 million on the early extinguishment of debt.

The trust's equity in results of operations of partnerships for the first half of 1990 totaled losses of $.2 million, compared with income of $.6 million for the same period in 1989. The fluctuations are partially attributable to a gain of $.5 million recorded in 1989 on the disposition of properties.

National Income Realty Trust is a combination mortgage and equity real estate investment trust which operates nationwide.

NEPTUNE BEACH, FL (AUG. 15) BUSINESS WIRE - Family Steak Houses of Florida Inc. (NASDAQ:RYFL), Wednesday announced that the board of directors elected James W. Osborn as a director, effective Tuesday, July 31.

Osborn will continue to serve as president and chief executive officer of the company.

Osborn, age 48, has previously served as senior vice president of operations of USACAFES, L.P., the Bonanza Steakhouse franchisor, until its recent sale; as vice president of operations of Cuco's Mexican Restaurants; as senior vice president and chief operating officer for National Pizza Co., the largest franchisee of Pizza Hut; and in various management positions at Ponderosa Inc. and in the food service division of Marriott Corp.

Osborn earned a Bachelor's Degree in Industrial Management from West Virginia University in 1964.

Eddie L. Ervin, Jr., chairman of the board of directors of the company, said, ''Jim's appointment should help position the Company to implement its plans for increased profitability and sustained growth. We believe that Jim, in his brief tenure as President, has already helped to point the Company in a positive direction.''

Osborn said, ''I am very enthusiastic about this show of support from the Board of Directors. I look forward to working with the Board in taking an aggressive approach to moving the Company ahead as a growth-oriented, profitable operation, providing the best service and quality food.''

The company owns and operates 26 Ryan's Family Steak House restaurants in Florida, as the exclusive Florida franchisee of Ryan's Family Steak Houses Inc. of Greer, S.C.

ROCHESTER, N.Y. (AUG. 15) BUSINESS WIRE - Vari-Care, Inc. (NASDAQ:VCRE) Wednesday announced unaudited financial results for the third quarter and nine months ended June 30, 1990.

Revenues for the third quarter ended June 30, 1990 of $11,967,000 reflected a slight improvement from last year's $11,897,000. The Company reported net income of $217,000 or $.04 per share versus $360,000 or $.06 per share in the third quarter of last year.

For the nine months ended June 30, 1990, revenues were $36,247,000 compared to $34,729,000 in the same period last year, an increase of 4 pct. Net income for the first nine months of fiscal 1990 was $801,000 or $.15 per share versus last year's $1,131,000 or $.21 per share

Commenting, Robert H. Hurlbut, President of Vari-Care, stated, ''During the quarter, a slight decline in overall patient census and a shift in the patient mix to a greater number of subsidy patients offset a modest increase in revenues generated by certain increases in room rates and ancillary services. A decline in Florida census during the current third quarter was caused by the construction underway at Boulevard Manor. This construction is scheduled for completion in spring 1991. Operating expenses rose in part due to wage and salary increases caused in part by the April 1, 1990 increase in the minimum wage, and its ripple effect.''

Hurlbut concluded, ''We believe the fourth quarter will benefit from improving census in Texas, increased Medicaid reimbursement rates in Alabama and Florida, and recent increases in certain private pay rates.''

Vari-Care, Inc. now has two projects under construction, a new 120-bed facility, ''The Renaissance'' in Naples, Florida which is scheduled to be operational in the spring of 1991 and a 44-bed addition to The Boulevard Manor Nursing Center in Boynton Beach, Florida, which will be coming on line in early 1991.

Founded over 20 years ago, Vari-Care provides a full range of recuperative and healthcare services including skilled nursing, intermediate and personal care, retirement apartments, home health care, adult day care, meals-on-wheels and pharmacy services. The Company operates 24 long-term healthcare facilities in Alabama, Arizona, Florida and Texas with a capacity of 2,585 residents. The Company also has a 68-unit retirement apartment complex in Texas.

DALLAS (AUG. 15) BUSINESS WIRE - American Healthcare Management Inc. (ASE:AHI) Tuesday announced results for the six months and second quarter ended June 30, 1990.

For the six months ended June 30, 1990, revenues were $248.1 million, compared with $247.9 million in the same period a year ago. Net income was $941,000, or 6 cents per share, compared with $8.4 million, or 70 cents per share a year ago.

For the second quarter ended June 30, 1990, revenues were $120.6 million compared with $122.4 million in the same quarter a year ago. Net income was $95,000, or 1 cent per share, compared with $1.4 million, or 11 cents per share a year ago.

Revenues for the six months ended June 30, 1989, include the operations of San Clemente General Hospital which was disposed of on July 3, 1989.

Excluding San Clemente, revenues increased 8 percent from the same period in 1989. This increase was primarily the result of increases in rates and outpatient volumes.

The decline in net income for the six months ended June 30, 1990, was primarily the result of interest expense on indebtedness issued in connection with the company's reorganization, which became effective Dec. 29, 1989. Additionally, the company recorded higher revenue deductions for the period, which resulted from increased volume and certain changes to the method used to compute these deductions.

During the second quarter ended June 30, 1990, the company also accrued $725,000 of expenses related to the relocation of its executive offices. Exclusive of these relocation costs, pre-tax income for the six months and three months ended June 30, 1990, would have been $1.7 million and $828,000, respectively.

Commenting on the results, Steven L. Volla, president and chief executive officer of AHM, said: ''AHM continues to make progress in developing its strategies to increase revenues. To this end, the company is focusing on ways to utilize new, emerging technology to improve further the delivery of health services at AHM hospitals.

American Healthcare Management Inc., headquartered in Dallas, owns or leases seventeen hospitals in ten states with approximately 2,203 licensed beds.

PEABODY, MA (AUG. 15) BUSINESS WIRE - Warren Bancorp Inc., (NASDAQ: WRNB) today announced the resignation of Stephen F. O'Sullivan, chairman of the board, president and chief executive officer of the corporation and the corporation's subsidiary, Warren Five Cents Savings Bank, effective Aug. 15.

O'Sullivan resigned to pursue other business interests.

Pending election of O'Sullivan's successor, Paul M. Peduto, treasurer of the corporation and executive vice president and chief financial officer of the bank, has been named acting president and chief executive officer of the corporation and the bank. In addition, Bancorp Director Stephen J. Connolly IV will serve as acting chairman of the corporation, and the chairman of the bank's loan committee, Stephen G. Kasnet, will serve as acting chairman of the bank.

A search committee of the board has been formed to select O'Sullivan's successor to both the bancorp and bank positions. In connection with O'Sullivan's resignation, the corporation and the bank have entered into a severance agreement with him.

''Stephen O'Sullivan has served the Bank well since 1980, and we appreciate his many contributions to our organization. We wish him well in his future endeavors,'' said Kasnet.

Kasnet added, ''The Board of Directors and I look forward to working with Mr. Connolly, Mr. Peduto and the Bank's management team to position the corporation and the Bank for future profitability and success.''

O'Sullivan commented, ''The past ten years have been exciting and challenging ones for me. I am proud of what we have accomplished in building Warren Bancorp, Inc. and Warren Five Cents Savings Bank, to provide service to our customers, communities and staff. I am now looking forward to meeting new challenges ahead.''

FRAMINGHAM, MA (AUG. 15) BUSINESS WIRE - IG Laboratories Inc. (NASDAQ:IGLI) Wednesday announced that David Cicciarella has been appointed as vice president of sales.

In this position Cicciarella will bring an increased focus to IG's direct sales effort in both the Northeast and into new geographic areas.

Commenting on Cicciarella's appointment, Peter Lanciano, IG Laboratories' president stated, ''Dave Cicciarella joined Integrated Genetics, Inc., in 1986 as Manager of Sales and Marketing and has been instrumental in building our revenue base and in developing IG's image and identity within the genetics community. His prior experience in sales and marketing gained at both Dianon Systems and before that at SmithKline Bioscience Laboratories will add significantly to the breadth of the Company's management team.''

IG Laboratories, headquartered in Framingham, Mass., provides genetic testing services to hospitals, clinical laboratories, genetic centers, physicians, and health maintenance organizations located throughout the United States. The company is focused on prenatal genetic testing which enables physicians to screen for and detect major genetic abnormalities.

TAMPA, FLA (AUG. 15) BUSINESS WIRE - The annual meeting of shareholders of Larry's Ice Cream Inc. (the ''Company'') was held Wednesday at the Eastlake Woodlands Country Club in Palm Harbor, Fla.

The shareholders present elected Roger Kumar, Dan Moscone, Clifford Myers, Roger Kumar, Jr. and John McNutt to serve as directors of the company until the next annual meeting.

The shareholders also ratified the appointment of Harper, Van Scoik & Co. as the independent certified public accountants of the company for 1990.

During his remarks to shareholders, Kumar announced that the company has been granted the exclusive license to manufacture and distribute the frozen yogurt blender developed by Innovative Food Equipment Inc. of Illinois.

Kumar further stated that 200 of these machines were in production and would be test marketed over the next 60 days.

The frozen yogurt blender is currently in use in approximately 48 Larry's Ice Cream and Yogurt parlors. The text marketing will be performed outside of the Larry's chain. It is the company's plan to sell or lease the blending machine through it's wholly owned subsidiary Kirian & Smith Inc.

The target market will be large retail chains which would also be required to purchase the frozen yogurt product from the company.

Kumar advised those shareholders present to be patient and allow him to bring the company back to profitability.

#90227b0881 08/15/1990 ~Business Wire

WESTBURY, NY (AUG. 15) BUSINESS WIRE - E-Z-EM Inc. reported net sales for

fiscal year ended June 2 of $79,371,000, a 2% increase over fiscal 1989 sales of $77,694,000.

E-Z-EM reported a net loss for fiscal 1990 of $3,475,000 (43 net loss per common share) as compared to the net earnings in fiscal 1989 of $7,963,000 or $1.00 per share.

For the quarter ended June 2, sales were $21,299,000, a decrease of 7% from fiscal quarter 1989 of $22,796,000. Net loss for the quarter was $7,573,000 (94 cents net loss per common share) as compared to the net earnings in fiscal fourth quarter of 1989 of $2,396,000 or 30 cents per share.

The fourth quarter and the year include a provision, established by the board of directors, of $8 million after taxes or 99 cents per share relating to the anticipated loss of value associated with Lafayette Pharmacal Inc. This provision represents an estimate of the loss associated with the agreement signed June 12, with the Federal Trade Commission requiring divestiture of the Lafayette business.

Howard S. Stern, chairman of the board stated, it is not presently possible to predict with certainty the ultimate realization of sale proceeds, however the provision represents the best estimate at this time with regard to the future sale. The reserve is intended to cover the diminution in value of the goodwill associated with the acquisition. Net sales of Lafayette products were $6,630,000 for fiscal 1990.

The company's reserve for the sale of Lafayette of $8 million coupled with $1,600,000 of reduced contribution from Surgical Dynamics Inc. (a 51% owned subsidiary) accounted for the major portion of the reported net loss. Additionally, non-recurring costs related to obtaining reimbursement for the Nucleotome procedure and the relocation expense incurred in connection with the move of the company's principal manufacturing plant in Westbury also affected results for the quarter and year.

Sales of the Nucleotome back surgery device manufactured and sold by Surgical Dynamics Inc., declined in the year and the quarter. The sales decline resulted from a decision by the National Blue Cross/Blue Shield Association recommending denial of reimbursement for the Nucleotome procedure. This decision was reversed in February of 1990. The reversal came too late in fiscal 1990 to avoid the adverse impact on Surgical Dynamics sales and earnings for fiscal 1990. Surgical Dynamics contributed about $1.8 million to E-Z-EM's net earnings in fiscal 1989, as compared to $0.2 million in fiscal 1990.

In fiscal 1990, research and development expenses continued at an increasing rate, reaching approximately $5 million as compared to about

$3,300,000 in the previous fiscal year, or an increase of 54%. Interventional radiology products show promising results. Clinical tests have been started on two significant research and development projects, the use of carbon dioxide as a contrast agent for peripheral vascular use and the use of an accelerated fibrinolysis device for the quick dissolution of peripheral blood clots. Research on the patented antigen of H. pylori used in the diagnosis of gastritis, peptic and duodenal ulcers, resulted in the signing of an agreement with Baylor College of Medicine for the exclusive worldwide rights to this product. E-Z-EM's research and development efforts also resulted in several other products which have come on to the market, none of which are significant by themselves but all of which add up to a healthier sales picture for E-Z-EM Inc.

E-Z-EM is a leading manufacturer and distributor of diagnostic imaging and other healthcare products.

NEPTUNE BEACH, FLA. (AUG. 15) BUSINESS WIRE - Family Steak Houses of Florida Inc. (NASDAQ:RYFL), Wednesday reported earnings and revenues for the second quarter of 1990.

Second quarter sales rose 7.5 percent to $12,316,100 from $11,459,500 for the like period in 1989. Earnings from operations, which exclude the effects of interests, land sales and the Rustic Inn joint venture, were $1,006,100 for the second quarter, compared to $972,700 for the second period of 1989, an increase of 3.4 percent.

Net earnings for the quarter were $176,000, compared to $220,400 in 1989, a decrease of 20.1 percent. Earnings per share for the quarter were 2 cents on 10,734,000 shares, compared to 2 cents on 10,811,000 shares for the like period in 1989.

For the six months ended July 4, 1990, sales climbed 9.1 percent, to $25,240,400 from $23,142,300 for the comparable period in 1989. Earnings from operations for the six month period were $2,261,800, compared to $2,287,600 for the first six months of 1989, a decrease of 1.1 percent.

Net earnings for the six months were $571,100 as compared to $716,800 for the like period a year earlier, a 20.3 percent decrease. Earnings per share decreased 28.6 percent to 5 cents on 10,786,000 shares, from 7 cents on 10.8 million shares for the comparable period in 1989.

James W. Osborn, president of the company, said, ''The negative effects of the losses in the Rustic Inn joint venture, along with industry sales softness contributed to the reduced earnings. If the effect of the Rustic Inn is eliminated from our results, our company would show a slight increase in profits for the second quarter.''

The company's share of the losses of the Rustic Inn joint venture was a loss of $75,000 for the second quarter of 1990, compared to net income of $1,800 for the like quarter of 1989. The Rustic Inn joint venture owns two seafood restaurants in Orlando and Margate, Fla. The company is a 50 percent partner in the joint venture.

Osborn added, ''Additionally, costs for the quarter were increased by the effect of strengthening management, implementing control systems, and instituting new marketing efforts. While impacting profits in the short term, these measures will have long-run, positive results for the company.

''These are actions similar to those taken by Ryan's Family Steak Houses Inc. approximately one year ago to reverse its negative unit sales trends.''

The company now owns 26 Ryan's Family Steak House restaurants in Florida. The company owns and operates Ryan's Family Steak House restaurants under a franchise agreement with Ryan's Family Steak Houses Inc. of Greer, S.C.

The agreement grants the company the right to construct and operate Ryan's Family Steak House restaurants as the exclusive franchisee throughout the state of Florida.

CHICAGO (AUG. 15) BUSINESS WIRE - Medical Management of America Inc. (AMEX:MMA) announced Wednesday that it had initiated steps to move the listing of its common stock, par value $0.01 per share, from the American Stock Exchange (''AMEX'') to the National Association of Securities Dealers Inc. Automated Quotation System (''NASDAQ'') National Market System (''NMS'').

MMA is taking this action because it believes that the NASDAQ/NMS listing has several advantages over the AMEX listing. MMA believes that the NASDAQ/NMS System of competing marketmakers will result in greater visibility and sponsorship for the common stock than is presently the case with the single specialist assigned to the common stock by the AMEX.

MMA believes that the NASDAQ/NMS System will offer MMA stockholders more liquidity than is offered at present on the AMEX and less volatility in quoted prices per share when trading volume is slight. On NASDAQ/NMS, MMA will have the opportunity to secure its own group of marketmakers and, in doing so, expand the capital base available for trading in its common stock.

Finally, firms making a market in in the common stock will also be inclined to issue research reports concerning MMA, thereby increasing the number of firms providing institutional research and advisory reports.

MMA anticipates that its common stock will be suspended from trading on the AMEX at the close of business on Friday, August 17, 1990 and that the common stock will be listed for trading (Symbol:MMOA) on NASDAQ/NMS at the commencement of business on Monday, August 20, 1990.

#90227b0908 08/15/1990 ~Business Wire

NEW YORK (AUG. 15) BUSINESS WIRE - SCOR U.S. Corp. (NYSE:SUR) reported its earnings Wednesday for the second quarter and six months period ended June 30, 1990.

The mid-year merger of Rockleigh Management Corp. with and into SCOR U.S. has been accounted for in a manner similar to a pooling of interests. Accordingly, all historical financial statements have been restated to reflect the combined results of the two companies.

Excluding expenses incurred in connection with the merger of Rockleigh into SCOR U.S., income from continuing operations increased 41.6 percent to $7,425,000, or 42 cents per share, for the 1990 second quarter, which compares with $5,245,000, or 30 cents per share, for the 1989 second quarter.

Also, excluding merger expenses, income from continuing operations for the 1990 six month period was $11,726,000, or 66 cents per share, an increase of 15.1 percent in income from continuing operations from $10,184,000, or 58 cents per share, for the corresponding 1989 period.

As a result of expenses incurred in connection with the merger of Rockleigh into SCOR U.S., income from continuing operations for both the 1990 second quarter and six month period was reduced by $1,648,000, or 9 cents per share.

Income from continuing operations for the 1990 second quarter includes net realized investment gains, net of tax, of $297,000, or 2 cents per share, compared with $483,000, or 3 cents per share, for the corresponding 1989 quarter.

Income from continuing operations for the 1990 six month period includes net realized investment gains, net of tax, of $630,000, or 4 cents per share, vs. $811,000, or 5 cents per share, for the 1989 six month period.

''Fresh Start'' benefits were less than 1 cent per share for the 1990 second quarter, and 1 cent per share for the 1990 six month period.

Net income for the 1990 second quarter was $5,777,000, or 33 cents per share, vs. $4,615,000, or 26 cents per share, for the 1989 second quarter. Net income for the 1990 six month period was $10,078,000, or 57 cents per share, compared with 1989 six month net income of $9,412,000, or 53 cents per share.

The 1989 figures reflect a second quarter loss, net of tax, of $630,000, or 4 cents per share, and a six month loss, net of tax, of $772,000, or 4 cents per share, which resulted from operations of a Rockleigh subsidiary that was being held for sale during 1989, and was sold during the first quarter 1990.

SCOR S.A., the ultimate majority shareholder of SCOR U.S., provides aggregate stop-loss reinsurance protection to The Unity Group companies--i.e., Unity Fire and General Insurance Co., and General Security Assurance Corporation of New York--which became subsidiaries as a result of Rockleigh's merger into SCOR U.S. in June 1990.

The stop-loss reinsurance protects The Unity Group from adverse loss development on its 1989 year end loss reserves. Net income from continuing operations for both the 1990 second quarter and the six month period includes estimated recoveries under the aggregate stop-loss protection, net of tax, of $2,016,000, or 11 cents per share.

The 1990 second quarter and six month statutory combined ratios of SCOR U.S.' reinsurance subsidiaries -- i.e., Scor Reinsurance Co. and The Unity Group-- were 99.4 percent and 103.4 percent, respectively, as compared with 99.5 percent and 100.5 percent, respectively, for the 1989 second quarter and six month period.

The stop--loss protection provided by SCOR S.A. to The Unity Group affected favorably the 1990 second quarter and six month combined ratios of SCOR U.S.' reinsurance subsidiaries by 7.7 percent and 3.7 percent, respectively.

Net premiums written were $44,033,000 for the 1990 second quarter, and $86,916,000 for the 1990 six month period, a decrease of 5.7 percent and 4 percent, respectively, from $46,707,000 for the 1989 second quarter and $90,510,000 for the 1989 six month period.

#90227b0914 08/15/1990 ~Business Wire

LITTLE ROCK, AK (AUG. 15) BUSINESS WIRE - Dillard Department Stores Inc. (NYSE:DDS) announced Wednesday an offering of 4 million shares of its Class A common stock at $84 per share.

Of the 4 million shares offered, 1 million are being sold by the company, the proceeds of which will be used for general corporate purposes, primarily to reduce outstanding commercial paper.

The remaining 3 million shares are being sold by a subsidiary of Vendex International N.V. that will retain over 8 million shares, or approximately 25 percent, of the outstanding shares of Dillard Class A common stock.

Dillard has 144,500,000 shares authorized Class A common stock, with 35,510,554 outstanding including this offering.

Of the 4 million shares being offered, 3.2 million shares are being offered in the United States and Canada by the U.S. underwriters and 800,000 shares are being offered outside the United States and Canada by the International underwriters. The company and the selling shareholder have granted the U.S. underwriters an over-allotment option of 400,000 shares.

Morgan Stanley & Co. Inc. is the lead manager of the offering in the United States and Canada and Morgan Stanley International is the lead manager internationally. Dillard Class A common stock is listed on the New York Stock Exchange under the symbol ''DDS.''

William Dillard, chairman and chief executive officer stated: ''We are extremely pleased with the very favorable response we received from investors. The offering not only provides us with additional capital to build our business, but equally important, the increase in shares outstanding and the public float should provide greater liquidity to our stock.''

Dillard Department Stores Inc. is a regional group of traditional department stores operating 186 stores in 18 states.

RESOLUTION TRUST CORP OWNS 643,500 SHARES (34.20%) OF DIVERSIFIED HUMAN RESOURCES INC (TICKER: HIRE) OF DALLAS, TX.

ANNOUNCEMENT:

At a special meeting of shareholders of DHRG held on Aug. 3, 1990, RTC, as receiver for Hallmark, voted the pledged shares which were security for a loan now in default solely as a defensive measure to prevent the recognition of an invalid proxy with respect to the same shares purportedly granted by William M. Brothers to DH Partners, LP on or about May 30, 1990. Pursuant to a standstill agreement among the parties, RTC as receiver for Hallmark has agreed that, until Aug. 15, 1990, it will not pursue foreclosure of the pledged shares or negotiate with any person other than the plaintiffs with respect to the sale or other disposition of the pledged shares.

GROUP LED BY MONTGOMERY MEDICAL VENTURES II LP OWNS 2,516,049 SHARES (21.20%) OF ADVANCED MEDICAL TECHNOLOGIES INC (TICKER: AMA) OF SAN FRANCISCO, CA.

ANNOUNCEMENT:

On April 2, 1990 the debentures were converted into 454,545 conversion shares of AMT common stock upon conversion of $2,500,000 aggregate principal amount of Advanced Medical Technologies Inc.'s 7 percent convertible subordinated debentures due 1995 previously purchased by MMVII and purchase by MMV II on July 20, 1990 of 90,804 shares of the AMT common stock in exchange for 131,510 shares of 10 percent cumulative preferred stock of Advanced Medical Technologies Inc. As provided in the letter agreement dated May 26, 1989 by and among Advanced Medical Technologies Inc., MMV II and Picower relating to additional registration rights, the

debentures and conversion shares have certain registration rights. The conversion of the debentures was a condition to the obligations of Aeneas Venture Corp. under the senior note and warrant purchase agreement dated April 2, 1990, between Advanced Medical Technologies Inc. and Aeneas, pursuant to which Aeneas made a loan to Advanced Medical Technologies Inc. for $35,000,000. Under a letter agreement dated March 30 1990 between Advanced Medical Technologies Inc., Picower, MMV II, MMV I and the persons listed on schedule A, MMV II agreed with Advanced Medical Technologies Inc. to amend the "piggyback" registration rights. The stock swap was effected pursuant to a stock purchase agreement dated July 20, 1990 between MMV II and Advanced Medical Technologies Inc. Under a letter agreement dated March 28, 1990, Advanced Medical Technologies Inc. agreed to reduce the conversion price in effect under the debentures from $6 to 4.50 per share and confirmed that all registrations rights granted remain in full force.

LATEST TRANSACTION:

On July 20, 1990, Montgomery Medical Ventures II LP purchased 90,804 swap common shares in the stock swap in exchange for the swap preferred shares at an exchange rate based on closing prices on the American stock Exchange on June 12, 1990 of the AMT shares.

Allen of 75,500 shares for $2 per share. The purchase agreements and related documents were delivered in full into escrow by F.S. Allen on or about Aug. 9, 1990. The purchase agreements also provide that F.S. Allen will enter into a shareholders agreement, mutually acceptable to all parties, pursuant to which F.S. Allen will agree to vote all of the shares they hold in favor of a proposed amendment to the Earn-Out Share agreement. If F.S. Allen does not comply with the shareholder agreement to vote in favor of the proposed amendment prior to Dec. 31, 1991, then the management sellers are entitled to repaying the purchase price. F.S. Allen has been advised that his business associates who acquired shares and warrants to acquire shares the 1989 and the 1990 private placement also have committed to acquire an aggregate of 224,000

shares at $2 per share from the management, and that the DeBartolo Investors have committed to purchase an aggregate of 375,000 shares for $2 per share.

#90227c0107 08/15/1990 ~Comtex

STAMFORD, CT (AUG. 15) COMTEX - Alliance Bancorp., a Cleveland, Ohio, -based parent of Alliance Bank, which was taken over by the Federal Deposit Insurance Corp., has income tax refunds of $2.23 million due from the state of Alaska and the U.S. Internal Revenue Service.

Both the state and the IRS have notified Alliance that audits of Alliance Bancorp's 1987 and 1988 tax returns show net operating losses exceeded the adjustments previously proposed by Alliance Bancorp so no tax is due, according to a Securities and Exchange Commission filing.

This resolves earlier issues of income tax liabilities being investigated by both government bodies.

Alliance Bancorp.'s seven-member board of directors has four representatives of the FDIC.

The board has yet to decide how to distribute the refunds.

Alliance Bancorp. is in the process of being liquidated.

This 8-k Filing was submitted to the Securities and Exchange Commission on AUG. 14, 1990

GROUP LED BY CENITH PARTNERS L P OF BOSTON, MA OWNS 319,500 SHARES (5.16%) OF INSTRON CORP (TICKER: ISN) OF CANTON, MA.

ANNOUNCEMENT:

On Aug. 13, 1990, Cenith notified Instron Corp and The First National Bank of Boston that Cenith believes that Instron Corp.'s poison pill had been triggered on July 31, 1990 by the announcement of the formation of a group (within the meaning of rule 13d-5(b) of the Exchange Act) led by Instron Corp.'s chairman and vice chairman and members of their families who allegedly control 39 percent of Instron Corp.'s common stock. In a press release dated July 13, 1990, in response to a schedule 13d recently filed with the S.E.C., the founders of Instron Corp., Harold Hindman and George S. Burr, who with the members of their families own 39 percent of the outstanding common stock of Instron Corp., said they oppose any change in

control of Instron Corp. In a press release dated Aug. 13, 1990, Cenith demanded, on behalf of all shareholders other than the group, that certificates evidencing rights to acquire an Instron preferred stock at an exercise price adjusted to reflect a triggering event under the Instron right agreement dated Nov. 2, 1988 be issued immediately to shareholders and that all further actions be taken to permit the exercise of rights by shareholders other than said group.

LATEST TRANSACTION:

On Aug. 3, 1990, Cenith Partners LP purchased 9,300 shares at a price of $9.38 per share.

PURPOSE:

Triggering of Poison Pill.

SCHEDULE 14D9

SEC - AMENDMENT NUMBER: 1

ANNOUNCEMENT:

In a press release on Aug. 15, 1990, KG&E (TICKER: KGE) recommended that its shareholders not tender shares until the Aug. 20 deadline due to the fact that the offer is still subject to several conditions and the offer itself may be extended further.

SYDNEY (AUG. 15) - Uncompromising stands by the world's major powers are undermining the Uruguay Round of the General Agreement on Tariffs and Trade

(GATT), Australia's Trade Negotiations Minister Neal Blewett said here Wednesday.

Mr. Blewett told a meeting of foreign correspondents that the final GATT talks scheduled for December were headed for failure because there was no accord on agriculture or market access.

"Unless you have an exercise of political will by the majors in the next few months, you will not get a successful outcome," he predicted.

The Gulf crisis would make it harder for the GATT talks to be successful, Mr. Blewett said.

"The whole Middle East situation ... (is) going to provide a major distraction to world leaders at the very time we need their minds concentrated on getting the Uruguay Round to a successful conclusion," he said.

Failure of the Uruguay Round would result in creeping protectionism, increased trade wars and regional trading blocks, Mr. Blewett said.

The minister said he saw a new hindrance for the GATT progress in what he termed "Euro-arrogance" -- Western Europe's belief that it can afford to snub other continents after the opening up of Eastern Europe.

"On agriculture, my discussions with particularly the French and the European Community commissioners in Brussels were pretty unsatisfactory," Mr. Blewett said. "The Europeans are still seeking to avoid specific disciplines and commitments on export subsidies and market access.

"Japan ... still has a total prohibition in relation to the rice market. It's extremely difficult for us to push for some reform in Europe unless something has been done about that significant and symbolic issue," he said.

Mr. Blewett said a further crisis in agricultural negotiations was likely towards the end of October.

The best hope for more liberal trade was for heightened consumer awareness of the cost of protection, he said.

"We welcome the growing recognition in Japan by consumers of some of the costs of their agricultural protection," the minister said. "We wish ... there was more evidence in Europe of the recognition by European consumers of the cost of the Common Agricultral Policy."

JAKARTA (AUG. 15) - Indonesian troops have arrested 11 people suspected of involvement with a separatist group in the country's easternmost province of Irian Jaya, the daily Angkatan Bersenjata (Armed Forces) reported Wednesday.

The newspaper quoted a spokesman for the regional military command as saying that the 11 were believed to be members of a separatist group led by Melkianus (Melky) Salossa, who was extradited from Papua New Guinea last month.

Mr. Salossa's Papua Free Movement has been waging a guerilla war against Jakarta from the jungles along the border between Indonesia's Irian Jaya province and Papua New Guinea.

The 11 arrested were believed to have been involved in the killings in a resettlement area in Arso district in 1988, in the proclamation in December 1988 of a state of West Melanesia, and the murder of plantation workers in Arso in December 1989, the daily said.

The military has enough evidence to bring them to court, it added.

Mr. Salossa, 45, was extradited to Indonesia last month after serving a seven-month jail term in Papua New Guinea for illegal possession of arms.

He was wanted in Indonesia for a series of crimes, including the 1988 Arso massacre, the military here said.

BEIJING (AUG. 15) - China has put one billion dollars into agriculture this year in an effort to reverse sagging farm production, but it does not expect to see immediate returns, the China Daily reported Wednesday.

The investment, more than twice last year's, went into projects to improve irrigation, check soil erosion through tree-planting and boost output, especially of grain, cotton and food oils, the official English-language newspaper said.

The billion-dollar program affected only a small part of China's total farmland and was not expected to have a significant effect on overall farm output, according to Li Xuyou, deputy director of the cabinet's Comprehensive Agricultural Development Office.

Mr. Li was quoted as saying food production leveled off beginning in 1984 because the government had directed money and materials to industry at the expense of agriculture.

China imported a record high 16.58 million tons of grain last year after producing 407.05 million tons, about the same as in 1984 despite a population increase of about 15 million people per year.

SINGAPORE (AUG. 15) - Singapore traders with strong business links to the Middle East are worried about piling-up goods and pending payments worth millions of dollars.

"Our business was just picking up after the Iraq-Iran war, (then) the new conflict began," said a spokesman for the Bombay Trading Co. Pte Ltd., which exports food stuffs, building equipment, timber products and spices.

He estimated that canned food worth about half-a-million Singapore dollars (223,000 U.S.) and earmarked for Kuwait was lying in company wharehouses.

"We don't know whether we will ever be able to ship them," said the spokesman who declined to be identified.

About 30 per cent of Bombay Trading's exports worth several million dollars went to Kuwait and Iraq.

The company spokesman said Iraq owed payments for goods already shipped, a total of more than three million U.S. dollars.

Another company said it might lose about a million dollars from undelivered shipments of teak and computer products to the Gulf region.

A worried partner of Zee Chin and Co., Shabbir H. Hassanbhai, said Arab countries were the "traditional business centres" for his firm, and that he was now desperately looking for alternative sources for trade.

Alkemal Singapore Pte Ltd. reported a "complete standstill" in business with the Gulf region.

"Before the conflict some 70 to 80 per cent of our business deals were with these two countries (Iraq and Kuwait) but it has now vanished," said Director Daljit Singh.

Meanwhile, the Arab Business Centre, which facilitates business deals between Singapore and Middle East firms, assured local businessmen that trade with Arab countries, with the exception of Iraq and Kuwait, would not be affected by the present crisis.

Statistics show Singapore's trade with Iraq and Kuwait totaled 1.3 billion

Singapore dollars (726 million U.S.), or less than one per cent of the city-state's total trade last year.

DUESSELDORF (AUG. 15) - The West German heavy industrial concern Mannesmann said here Wednesday it posted a first-half surplus of 183 million marks (117 million dollars), slightly better than the 179 marks surplus in the first half of 1989.

Mannesmann said its first-half turnover increased ten per cent to 11.3 billion marks, while new orders slipped by three per cent to some 13 billion marks.

SEOUL (AUG. 15) - The United States may soon drop North Korea from its list of countries which sponsor terrorism and will open a "hot line" with Pyongyang, press reports said here Wednesday quoting a U.S. official.

The reports quoted Spencer Richardson, the head of the Korea desk at the U.S. State Department, as saying that the measures were being studied by the U.S. government as a way of easing tensions on the peninsula.

The state-run Korea Broadcasting System quoted Mr. Richardson as saying in an interview the "hot line" could be established soon, but the reports did not specify how it would be used.

Washington placed Pyongyang on the list of countries which sponsor terrorism after an agent confessed to blowing up a jetliner on behalf of North Korea.

Pyongyang and Washington have had 11 diplomatic contacts in Beijing since last year, its only form of official contacts. Former senior State Department official Gaston Sigur traveled to Pyongyang last year on a private basis, but met with top officials.

#90227d0940 08/15/1990 ~French/German News Agency

BEIJING (AUG. 15) - Chinese crude oil production fell 0.6 per cent to 11.56 million tons (81.2 million barrels) in July, the first year-on-year decline this year, the China Daily reported Wednesday.

Officials blamed heavy rainfall in all major oilfields for the modest drop, the official English-language newspaper said.

Oil production in the first seven months was still on target for the 1990 goal of 137 million tons (958.7 million barrels), standing at 71.71 million tons (501.8 million barrels).

The country produced 137 million tons of oil last year.

The newspaper also reported an increase in coal output of 5.4 per cent to 85.85 million tons in the first seven months of the year and a rise in electricity generation of 6.4 per cent to 349.8 billion kilowatt hours.

BELGRADE (AUG. 15) - Yugoslavia has signed a contract to build a section of motorway 46 kilometres (30 miles) long and costing 69 million dollars, the Yugoslav Tanjug news agency reported on Wednesday.

The contract was signed between the Yugoslav company Ingra and the transport ministry in the Chinese province of Shandung.

The company will build a section of a motorway extending in total for 312 kilometres (195 miles) between the towns of Jinan and Jingdan, and financed by the World Bank, the report said.

LONDON (AUG. 15) - Iraq tried to buy an antidote for nerve gas a few days before its invasion of Kuwait but found no British firm willing to supply, the specialised military publication Jane's Defence Weekly reported Wednesday.

The Iraqis contacted at least one British firm and "probably several" in their search for the antidote. After encountering no success in Britain, the Iraqis moved on to West Germany, Jane's said.

The weekly said the Iraqis were looking for Nerve Agent Preparation Sets which are handed out to soldiers as part of their protection gear against chemical weapons.

The sets include pills which if taken before exposure to the gas, will neutralise its effects.

Jane's said Iraq had also tried in Sweden to obtain another kind of antidote which could be injected after exposure to nerve gas.

The move was "another indicator that the invasion and annexation of Kuwait

was a pre-planned operation," Jane's said.

PRAGUE (AUG. 15) - The Czechoslovak embassy in occupied Kuwait is to be closed down as a ''temporary measure'', a spokesman for the foreign ministry announced here Wednesday. The closure will come into effect August 23.

Embassy officials and other Czechoslovak citizens are to be evacuated from Kuwait, said a spokesman. An initial group left Baghdad for Amman Tuesday and another was scheduled to follow Wednesday, he added.

The spokesman said it had not yet been decided how long the 350 or so Czechoslovak experts on long-term secondments to Iraq would remain inside the country.

The state-run Ctk news agency reported that Prague was seeking the repayment by Baghdad of payments totalling 300 million dollars. Exports from Czechoslovakia to Iraq had largely consisted of tailor-made industrial plant such as oil refineries.

Meanwhile, in Vienna, the Austrian Foreign Ministry announced that it would not close its embassy in Kuwait since it ''regarded the annexation by Iraq as null and void''. It was, however, considering a withdrawal of embassy personnel.

#90227d1310 08/15/1990 ~French/German News Agency
LONDON (AUG. 15) - British group Imperial Chemical Industries (ICI) said Wednesday it had sold its 24.9 per cent stake in Enterprise Oil for 679.6 million pounds (1.29 billion dollars).

The shares were bought in the names of brokers Warburg and Cazenove at a price of 607 pence each, but the name of the principal buyer or buyers was not given.

ICI said that the proceeds of the sale would be used to reduce borrowings and to develop the company.

Enterprise Oil has for long been the subject of rumours about a possible takeover bid.

In May several newspapers suggested that the French state-controlled but stock market-listed oil company Elf Aquitaine, which held 25 per cent of the firm, might make a bid, but Elf denied this.

The British government privatised Enterprise Oil in 1984. In 1989 the company reported an increase in net profits of 57 per cent compared with 1989 to 115.6 million pounds (219 million dollars).

After the announcement on Wednesday ICI shares rose eight pence to 953 pence and shares in Enterprise Oil fell by 52 pence to 621 pence.

#90227d1370 08/15/1990 ~French/German News Agency

MOSCOW (AUG. 15) - Armenian President Levon Ter-Petrossian has denied press reports of plans for direct talks on ethnic rivalry in the region with leaders of the neighbouring Soviet republics Azerbaijan and Georgia.

Before the Armenian parliament Tuesday, Mr. Ter-Petrossian said the Soviet news agency TASS reports Monday were based on "wrong information".

According to TASS and the communist party newspaper Pravda Monday, the leaders were planning to meet in Tbilisi, the Georgian capital, on the initiative of Georgian President Givi Gumbaridze for the first direct talks since the beginning of ethnic clashes over two years ago.

They had agreed to discuss "vital issues of inter-republican ties", Pravda said, describing the move as "a major step towards direct political economic and cultural ties".

No date for the meeting was given.

Ethnic unrest in the area is concentrated in the Azerbaijani autonomous region Nagorny Karabakh, populated largely by Armenians who want the region to join with Armenia.

#90227d1410 08/15/1990 ~French/German News Agency

LONDON (AUG. 15) - Western world stocks of aluminium in all forms

(including scrap) were 68,000 tonnes lower at the end of June than at the end of March, the International Primary Aluminium Institute (IPAI) said Wednesday.

Stocks totalled 3.122 million tonnes at the end of June against a revised figure of 3.19 million tonnes at the end of March.

They were also 70,000 tonnes lower than at the end of June 1989, when they totalled 3.192 million tonnes.

Western unwrought aluminium stocks were 1.485 million tonnes at the end of June, down 67,000 tonnes from the end of March (revised at 1.552 million tonnes) and down 25,000 tonnes from June 1989 (1.510 million tonnes).

Average daily production of aluminium in June was 38,700 tonnes, up 100 tonnes from March (38,600 tonnes) and unchanged from June last year.

Total production in June was 1.16 million tonnes, down 38,000 tonnes from March (1.198 million tonnes) and 1,000 tonnes from June 1989 (1.161 million tonnes).

GENEVA (AUG. 15) - The International Committee of the Red Cross (Icrc) said it noted ''with pleasure'' Wednesday a proposal by Iraq for an immediate exchange of prisoners-of-war with its former Gulf war foe Iran.

A spokesman said the Icrc had not been contacted directly about the measure, announced by Iraqi President Saddam Hussein a few hours earlier as part of a major initiative offering reconciliation to Teheran.

According to Icrc estimates, around 70,000 Iraqis and 30,000 Iranians are still interned in Pow camps two years after a ceasefire halted the eight-year Gulf war in August 1988.

Since the cessation of hostilities, the two sides have exchanged a total of only 2,312 Pows under Red Cross auspices.

-30- 910
#90227d1430 08/15/1990 ~French/German News Agency
HONG KONG (AUG. 15) - The Hong Kong government Wednesday awarded the first works contract for its proposed new airport to a Chinese state-owned company, at a time when Beijing has not yet given its blessing to the mammoth project.

The 20-month, 26 million U.S. dollar contract for marine dredging work was given to China Harbours Engineering Co.

"The choice of China Harbours is a pure commercial decision," a government engineering official said. "It is not meant to please Beijing."

The official said the firm had offered the cheapest price in its tender, and its branch here had become "well established" since the early 1980's.

China, which is to take over this British colony in 1997, has voiced suspicion over the 16.3 billion U.S. dollar airport-cum-port development

off an outlying island here, as the scheme's financing would stretch way beyond 1997.

The project's backers feared lack of Chinese support could put off international bankers.

#90227d1450 08/15/1990 ~French/German News Agency

ROME (AUG. 15) - Israeli Foreign Minister David Levy arrived here Wednesday from Bonn on a one-day visit for talks on developments in the Gulf, officials said.

Mr. Levy was to meet his Italian counterpart Gianni De Michelis.

The Gulf situation in the wake of Iraq's invasion of Kuwait and Israel's relations with the European Community will dominate the foreign ministers' discussions, officials said.

-30- 582

#90227d1490 08/15/1990 ~French/German News Agency

PARIS (AUG. 15) - Iraq should take the initiative by producing a plan to lighten the atmosphere in the Gulf and save face for all concerned, King Hassan of Morocco suggested Wednesday in an interview with the French paper Le Monde.

"Let us defuse this bomb" the king urged, proposing that President Saddam Hussein mandate some Arab countries for the task.

"Any initiative must now come from him", and a "wise decision" would help Iraq's friends who were willing to translate any peace moves into reality.

King Hassan said he envisaged a "particular status" between Iraq and Kuwait, guaranteed by Arab countries and the U.N. Security Council Any solution to Iraq's occupation of Kuwait would have to be legitimised by a return to the status quo ante, the king stressed.

He said Morocco's "symbolic" contingent of 1, 200 troops sent to Saudi Arabia signalled its "refusal to accept the fait accompli and illegality".

-30- 1120

#90227d1620 08/15/1990 ~French/German News Agency

MANILA (AUG. 15) - Foreign creditor banks have taken a dim view of a novel Philippine government proposal to ease its debt burden in the wake of a devastating earthquake, Central Bank Governor Jose Cuisia said Wednesday.

He told reporters that he and Finance Secretary Jesus Estanislao met with Manila's creditor banks in the United States and Japan earlier this month and sounded them out on an "interim conservation measure" to help the country recover from the July 16 temblor.

The proposal involves putting foreign debt payments in a Central Bank account to be lent back to the Philippines after a certain period, he said.

The country's foreign debt stood at 26.15 dollars by end-April.

Asked about the reaction from the banks, Mr. Cuisia said they warned the Philippines about the "disastrous effects" the proposal would have on Manila's request for additional financing.

"We have to consider that the banks are not dealing only with the Philippines. They are also dealing with other countries which are also heavily indebted. If we do that, of course the other countries can also ask for the same thing," he added.

"It's very difficult for them to say yes to us and no to other countries," he added.

The government announced earlier this week that the country's commercial creditors had extended a three billion-dollar trade facility.

No details were immediately available from official sources, but press reports said the commercial banks extended the revolving trade facility by one more year to mid-1992 and agreed to hasten the release of a new money package totalling 116 million dollars.

#90227d1640 08/15/1990 ~French/German News Agency

SOFIA (AUG. 15) - Food rationing has been introduced in several Bulgarian cities, and the capital Sofia is to join the list from September 1, the BTA news agency said Wednesday.

It quoted Trade and Services Minister Ekaterina Marinova as saying sugar would be rationed in Sofia from the beginning of next month, and said the city authorities could add other items to the list if necessary.

Sugar, cooking oil and detergent have been rationed in most of the country's major cities in recent weeks, BTA said, but in many cases the ration cards are useless as the products are totally unavailable.

The ruling socialist party newspaper, Douma, has said that if food is not imported, there will be no supplies of basic necessities available in the

autumn.

In a bid to draw the authorities' attention to the seriousness of the problem, the independent trades union Podkrepa on Monday organised the first soup kitchen in Sofia since the end of World War II.

JERUSALEM (AUG. 15) - A general strike has been called in the occupied territories on Wednesday to protest against the U.S. presence in Saudi Arabia, Palestinian sources said.

The call was made by the Hammas Islamic resistance movement.

Several demonstrations in support of Iraqi President Saddam Hussein have been held in the West Bank and the Gaza Strip during the last few days.

-30- 579

#90227d1720 08/15/1990 ~French/German News Agency

KARACHI (AUG. 15) - Deposed premier Benazir Bhutto and her family are free to leave Pakistan, the man who replaced her said.

Announcing this, caretaker premier Ghulam Mustafa Jatoi said here Wednesday, ''I am told her children are being sent abroad.''

Bhutto has refused to go into political exile, but many observers thought concern for her two small children might force her to change her mind.

Her mother, Nusrat, reached London Sunday and her husband, Asif Zardari, is planning to leave shortly. Bhutto adversaries are calling for the prosecution of Asif on corruption charges.

Jatoi rejected Bhutto's charge that immigration authorities had been instructed to prevent members of her Pakistan People's Party (Ppp) from leaving the country.

However he said only a few ''politically unknown persons'' have been stopped from leaving the country, pending investigations against them. Several were believed to be Asif Zardari's business associates.

-30- 1157

#90227d1730 08/15/1990 ~French/German News Agency

BANGKOK (AUG. 15) - Prime Minister Chatichai Choonhavan Wednesday fired a controversial member of his six-party coalition government after the deputy minister refused to resign over bribery allegations.

Deputy Interior Minister Santi Chaivirattana is accused of taking a one million-baht (40,000-dollar) bribe from two businessmen in exchange for easing safety regulations in the building of new liquefied petroleum gas stations.

Mr. Santi, a member of the Social Action Party (SAP), denies the charges.

He is the first minister to be sacked from Mr. Chatichai's government, which is halfway through its four-year term.

Only hours before his dismissal, he had been threatening to expose other cabinet colleagues he claimed were corrupt.

He has also said that SAP leaders had ordered its ministers in the cabinet to find 500 million baht (20 million dollars) for party coffers, inferring that such a demand was tantamount to ordering them to accept bribes to find the money.

The sacking came amid widespread reports of corruption in the government.

#90227d1760 08/15/1990 ~French/German News Agency

KATHMANDU (AUG. 15) - Motorists in the Nepalese capital began a run on petrol and kerosene Wednesday, fearing a shortage of petroleum products as a result of the Gulf crisis.

Long queues of cars began forming at the city's approximately dozen petrol stations early in the morning. By noon, the queues were several miles long.

One petrol pump attendant said he had sold about 10,000 litres of petrol by noon, at least four times his normal sales volume.

The rush was equally great for kerosene, the main cooking fuel in Kathmandu valley.

The petroleum products scare has been fuelled by events in the Gulf area and by reports that there is acute shortage of these products in India

According to the Nepal Oil Corporation, there is no connection between the scarcity of supplies in India and the availability of these products in Nepal.

The corporation noted that Nepal's total demand for petroleum products is only about 200,000 tonnes and these are imported from third countries and delivered to the Indian Oil Corporation.

The Indian Oil Corporation in turn delivers the same amount of petroleum products from their depots along the Nepal-India border.

#90227d1770 08/15/1990 ~French/German News Agency

MANILA (AUG. 15) - Foreign Affairs Secretary Raul Manglapus said Wednesday the United States should not use Clark and Subic bases for combat operations in the Middle East.

But Manglapus stressed that there was no indication the U.S. intended to use the bases for this purpose ''because they (the Americans) have not gone to us for consultation''.

The Philippine-U.S. military bases agreement, which expires in September 1991, provides consultations be made between the two countries before the U.S. can use the bases, Manglapus explained.

Manglapus said the bases currently serve as refueling stations for American aircraft and warships.

''Refueling is not combat,'' he said. ''They are refueling there every day. That's part of the reason why they are there in the first place.''

Manglapus also said that the Philippines is seeking United Nations help in repatriating thousands of Filipino workers from the crisis area. The Philippines has nearly 200,000 workers in Kuwait, Iraq and Saudi Arabia.

KUALA LUMPUR (AUG. 15) - Malaysia's crude palm oil output rose 9.8 percent to 499,010 tons in July from 454,334 tons in June, early figures from the Palm Oil Registration and Licensing Authority showed Wednesday.

The authority said total palm oil stocks, comprising 437,234 tons of crude palm oil and 346,650 tons of processed oil, rose 3.5 percent to 852,224 tons from 823,120 tons.

Malaysia exported 486,605 tons of palm oil in July, up 8.8 percent from 447,093 tons in June.

TOKYO (AUG. 15) - Japan's direct investment in the European Economic Community (EEC) soared 68 percent from a year earlier to 14 billion dollars in the 12 months to March, the Export-Import Bank of Japan said.

The surge outpaced a 33 percent jump to 8.33 billion dollars the previous year and focussed on Britain and the Netherlands, historically the biggest recipents and accounting for more than two thirds of the total.

Japanese investment in Britain jumped from 3.96 billion dollars to 5.24 billion dollars while investment in the Netherlands climbed from 2.36 billion dollars to 4.55 billion dollars, the bank said in a monthly report Tuesday.

Investment in France rose from 463 million dollars to 1.14 billion dollars and West Germany's share rose from 409 million dollars to 1.08 billion dollars.

Britain and the Netherlands were also the biggest recipents of Japanese manufacturing investment, accounting for 1.17 billion dollars and 572 million dollars.

West Germany ranked third with 530 million dollars, ahead of France which accounted for 305 million dollars, the report said.

TOKYO (AUG. 15) - Toyota Motor Co. was the largest income earner among Japanese companies which closed annual accounts last year, a private credit research institute said Wednesday.

Toyota, the top automaker, earned a taxable income of 573.3 billion yen (3.82 billion dollars) in the year ended June 1989, Teikoku Databank Ltd. said.

Nomura Securities Co., the largest stockbroking firm, was second in the income list, reporting 500.8 billion yen (3.34 billion dollars) for the year ended March 1989, it said.

Telecommunications giant, Nippon Telegraph and Telephone Corp. (NTT), was the third largest income earner, with 497.4 billion yen (3.32 billion dollars) also for the year ended March, the institute said.

KUALA LUMPUR (AUG. 15) - Southeast Asian airlines are worried that the formation of a single European market in 1993 will lead to restrictions on non-European carriers, a senior Malaysian Airlines (MAS) official said Wednesday.

The airlines want an assurance from the European Economic Community that this will not happen, MAS managing director Abdul Aziz Rahman said.

He said chief executives from the carriers within the Association of Southeast Asian Nations (ASEAN) plan to meet with senior officials from the EEC's Competition and Transport Directorates in the near future.

They will exchange views, seek clarification of present developments and an assurance that they will not be hurt by the formation of a single market, he said in a statement.

ASEAN groups Brunei, Indonesia, Malaysia, Philippines, Singapore and Thailand.

Mr. Abdul Aziz said a meeting of the airline chief executive officers here Tuesday agreed there were uncertainties surrounding the direction of the EEC's external aviation policy after the creation of a single European market.

He said an ASEAN Airlines Working Group had been set up with representatives from MAS, Garuda of Indonesia, Thai International, Royal Brunei, Philippine Airlines and Singapore Airlines to monitor developments in the EEC.

Mr. Abdul Aziz said the officers hoped the formation of the single European market would in fact help to stimulate and strengthen the growth of air traffic between ASEAN and Europe.

MOSCOW (AUG. 15) - Moscow is currently evacuating Soviet women and children from Iraq, but men have not been given permission to leave, a Foreign Ministry spokesman said here Wednesday.

"From Iraq, under conditions set by Iraqi authorities, only women and children can be evacuated at this time," Yuri Gremytskikh told a news briefing.

"I wouldn't use the word hostage at this stage of development," the spokesman told reporters when asked whether Soviet men were being held in Iraq against their will.

"You can compare our situation with that of citizens from western countries who are not being allowed to leave Iraq," Mr. Gremytskikh added.

CAIRO (AUG. 15) - The departure for Saudi Arabia of a second contingent of Egyptian troops, expected to have taken place late Tuesday, has been delayed, reliable sources said here Wednesday.

No immediate reasons for the delay were given.

The troops were to join an estimated 3,000 Egyptian soldiers already in Saudi Arabia as part of an Arab force to protect the kingdom against attack from the Iraqi army, which invaded Kuwait on August 2.

-30- 636

#90227d2120 08/15/1990 ~French/German News Agency
BANDA ACEH, INDONESIA (AUG. 15) - Indonesia has doubled its military presence in the westernmost province of Aceh over the past month in a bid to quash an armed rebellion against the central government, military sources here said.

The uprising on the northern tip of the island of Sumatra, about 2,000 kilometers (1,250 miles) northwest of here, is also directed against Javanese interests, the sources said.

They said 6,000 troops were stationed this week in the strongly Moslem province, compared to 3,000 in mid-July.

An airborne battallion of 600 men was parachuted Sunday into the districts of Northern and Eastern Aceh and Pidie, the center of the three-month old rebellion that has claimed more than 100 lives, they said.

A few days earlier, 300 marines and about 100 men from a mobile brigade based in Surabaya, Eastern Java, were sent to Sigli, the capital of Pidie where, officials say, the uprising is the work of "about 30 criminals at the most."

The airborne batallion headquartered in Bogor, 60 kolometres (38 miles) south of here, is commanded by Colonel Prabowo, who gained prominence fighting against the East Timor Liberation Front, FRETILIN, at the other end of the Indonesian archipelago.

Col. Prabowo is also President Suharto's son-in-law.

The troop buildup and the latest military operations came days before Indonesia's 45th Independence Day celebrations, which the rebels have asked the local population to boycott.

Tracts signed by the Aceh Sumatra National Liberation Front (ASNLF) over the past few weeks urge all inhabitants of the province, including

schoolchildren and teachers, to stay away from Friday's celebrations.

They were the latest in a series of flyers distributed by the ASNFL, which last month claimed responsibility for a number of anti-government operations, including the assassinations of military men and Javanese living in Aceh.

Military sources said that early last week, the GPK -- the local acronym for "security-disturbing movements," as secessionists throughout Indonesia are officially called -- shot two people dead in a camp for Javanese emigrants.

The army arrested 39 locals the next day, and their fate remained unknown one week later.

On August 8, two civilians were shot dead in their home in a village in Pidie as they watched television, and the army shot and killed a suspected militant Saturday in the center of Banda Aceh, the sources said.

Diplomats in Jakarta say many embassies have asked their nationals to evacuate Aceh, in particular the region of Lhokseumawe, one of Indonesia's two major oil and natural gas producing regions.

The diplomats explained that ASNFL militants had extended their threats against government-employed Indonesians to "foreigners working for the Indonesian government and for well-known Javanese firms."

ANKARA (AUG. 15) - A week after closing Iraq's oil pipeline to the Mediterranean, Turkey has reinforced its defense of the Ataturk Dam, which Iraq has strongly criticized as depriving it of water, sources said Wednesday.

The sources said Rapier ground-to-air missiles had been added to existing anti-aircraft batteries at the dam on the Euphrates River, 400 kilometers (300 miles) from the Iraqi border.

Turkish officials refused to confirm this, saying only that the region -- southeast Anatolia -- was not on a state of alert.

The dam, the largest component of a regional irrigation plan that will total 22 dams and 19 hydroelectric plants, has been the focus of a dispute between Iraq and Turkey.

A top Iraqi official, on a visit to Ankara four days after Iraq's August 2 invasion of Kuwait to warn Turkey against enforcing trade sanctions,

suggested that if Turkey cooperated, the water dispute could be settled amicably.

Turkey nonetheless closed down the twin pipeline to the Mediterranean through which more than half of Iraq's oil was exported.

LONDON (AUG. 15) - British hotel chain Queens Moat on Wednesday announced a 64 percent interim profit hike and said it had acquired a 49 percent stake in French company HI Management for 30 million pounds (56 million dollars).

Queens Moat said it had taken an option on the remaining 41 percent of HI Management for 48 million pounds (90 million dollars), payable in April 1993.

HI Management has eight hotels in France, seven of them operating under the Holiday Inn name, and two Ramada hotels in Belgium, with a total 1,742 rooms.

Queens Moat, which has 175 hotels in six European countries with more than 20,000 rooms, said the move gave it a foothold in France and boosted its presence in Belgium.

The British company also announced Wednesday that its taxable profit rose 64 percent in the first half of this year over the same period of 1989 to 39.5 million pounds (74 million dollars) from 24.03 million (45.3 million dollars).

Turnover was up 40 percent to 207.6 million pounds (391 million dollars) from 148.2 million (279 million dollars), and interim dividend was up to 1.22 pence from 1.06.

The results included figures from Norfolk Capital Hotels since its acquisition by Queens Moat four months ago.

The good performance failed to impress the stock market, however, and Queens Moat shares were down one penny at 95 pence after the news.

#90227d2340 08/15/1990 ~French/German News Agency

AQABA, JORDAN (AUG. 15) - Journalists were forced to watch from afar Wednesday as a ship unloaded its cargo at this Red Sea port before swiftly moving out to make way for one of three more ships waiting offshore.

Correspondents who have descended on Aqaba since reports that Jordan was keeping the port open for supplies reaching Iraq were barred from entering the port complex which under normal circumstances is accessible with no problem.

The ship which unloaded was too far away to be identified.

Port officials and workers refused to answer questions about ship or cargo movements and many local people openly suspicious of Westerners made it their business to report journalists' movements to the police.

The lay-out of the port area which comprises the ancient harbour, a container port and passenger terminal, makes it impossible for journalists outside to get in close enough to identify any ships.

But on the Humayma al-Jadida road linking Aqaba to Baghdad dozens of trucks with Iraqi licence plates could be seen, probably bound for the Iraqi-Jordanian border 1,000 kilometers (600 miles) to the north.

Visitors who were there on Tuesday said hundreds of other vehicles, of between 30 and 60 tonnes, were seen carrying machine tools, pipes, bags of grain and closed metal and wooden containers.

Iraq, which is largely dependent on foreign food purchases, has turned to Aqaba for its imports in the hope of beating international economic sanctions imposed to punish Iraq for its August 2 invasion of Kuwait.

U.S. President George Bush, who spearheaded efforts which resulted in the August 6 U.N. Security Council trade and arms embargo resolution on Iraq, is now seeking to enforce these sanctions which cover food shipments though exclude medicines.

Mr. Bush was expected to discuss the Aqaba port situation during talks at his vacation home in the state of Maine Thursday with King Hussein of Jordan.

On Tuesday, the American president told a White House press conference that, if Aqaba was a "hole through which commerce flows" to and from Iraq, "I would certainly think that Aqaba should be closed to Iraqi commerce."

He refused however to comment on reports that Iraqi-bound shipments continued to arrive at Aqaba.

Mr. Bush said he would question the Jordanian monarch on "what is happening".

According to reports in Amman the Jordanian monarch is taking a message to President Bush from his Iraqi counterpart Saddam Hussein, with whom the

king had talks on Monday.

Jordan's Crown Prince Hassan has said that Amman was committed to the Security Council sanctions but he said that under the terms of the U.N. charter each country had 30 days to formulate its position.

He said the charter stipulated "compensation for countries" harmed financially through their endorsement of sanctions adding that prospects for Jordan -- which relies heavily on the Iraqi market to sell its goods and obtains 95 percent of its oil needs from Baghdad -- were not good.

Aqaba Port director Awad Tell Wednesday told reporters that only food supplies, including milk, were being unloaded here for Iraq and that no export of Iraqi oil through the port was expected.

He added that he had not received to date any instruction from the Jordanian government to implement the U.N. sanctions.

Mr. Tell said however that traffic at the port was "slightly inferior to what it was over the same period last year."

Twelve boats were currently at the port to load or unload while 10 to 15 others were expected. Some were late in arriving, but he could not say if this was linked to the sanctions or to the presence of U.S. warships in the Gulf region.

Mr. Tell also denied reports that Jordanian police had intervened to allow a Norwegian boat to unload cereals destined for Iraq.

#90227d2380 08/15/1990 ~French/German News Agency

MOSCOW (AUG. 15) - Soviet President Mikhail Gorbachev restored Soviet citizenship Wednesday to all dissidents deprived of it between 1966 and 1988, including Nobel literature prize-winner Alexander Solzhenitsyn who wrote "The Gulag Archipelago" exposing the prison system.

The decision was seen as an attempt by the Soviet leadership to close one of the dark chapters of the past. On Monday, Mr. Gorbachev published a decree rehabilitating victims of repression by Stalin between 1920 and 1950.

During the so-called period of stagnation, the administration headed by Leonid Brezhnev deprived many dissidents of citizenship on the pretext that they had carried out anti-Soviet activities.

In recent months, the Soviet authorities had acted several times on citizenship, but in particular cases, notably in favour of cellist Mstislav

Rostropovich and his wife Galina Vishnevskaya.

On June 30 restitution was made of Soviet nationality to writers Alexander Zinoviev and Vladimir Maximov, and to biologist Jaures Medvedev.

Mr. Gorbachev, who has the constitutional right to restore nationality, on Wednesday published a decree cancelling all decisions by the presidium of the Supreme Soviet depriving people opposed to the government between 1966 and 1988 of their citizenship.

During the period concerned, the Supreme Soviet represented the collective state leadership

"In a further move to do away with injustices committed against Soviet nationals who lost their citizenship between 1966 and 1988, the Soviet president annuls the decrees taken by the presidium of the Supreme Soviet concerning Soviet citizens deprived of their citizenship and currently living abroad," the Soviet Tass news agency reported.

"The Soviet Foreign Ministry is responsible for communicating the Soviet president's decision to the persons concerned," Tass said.

The decree does not apparently apply to thousands of Soviet Jews who, under current Soviet law, automatically lost their citizenship when they emigrated in recent years, observers said.

A spokesman of the Supreme Soviet, or parliament, questioned on the choice of dates of application, replied that they corresponded to the period during which the law enabling the leadership to remove citizenship was applied.

#90227d2430 08/15/1990 ~French/German News Agency
ISLAMABAD (AUG. 15) - Pakistan is to introduce a new murder law based on the Islamic principles of revenge and compensation, overturning its century-old legal system inherited from the country's former British colonial rulers.

Under a decree issued Tuesday by President Ghulam Ishaq Khan, a murderer can now be freed if the victim's relatives agree to receive "blood money" in compensation for the death.

The new decree also bars the country's head of state or a provincial chief from granting clemency to murderers without the consent of the victim's family.

The new legislation would replace the provisions on murder and attempted

murder in the 1898 criminal penal code Pakistan inherited from the subcontinent's former colonial masters.

Under the decree, murder would be a compoundable offence, which means rival parties can reach an out-of-court settlement at the trial stage.

The amended law, which would have to be endorsed by a future legislature due to be elected in October, has been enforced with immediate effect.

It comes one week after Mr. Ishaq Khan sacked Pakistan's first woman prime minister, Benazir Bhutto, and her government and dissolved the national and provincial assemblies on charges of corruption and inefficiency.

In his order dissolving the government, he said new elections would be held on October 24.

The new murder law was introduced following a recent Supreme Court ruling, which called for the Koranic principles of Qisas (revenge) and Diyat (blood money) to be incorporated into the country's legal system.

Under Qisas, a victim or his heirs have the right to inflict the same injury on the offender, while Diyat allows a murderer to be freed if the victim's heirs agree to take blood money.

The decree withdraws the right of a president or provincial governor to grant mercy to a convicted murderer sentenced to death.

In line, with Islamic law, the president's decree rules that "remission or commutation of sentences cannot be carried out without the consent of the victim or as the case may be his heirs."

If the victim's relatives will not accept money as compensation, they can invoke the Islamic law of revenge, legal sources said.

The sources said they did not expect criticism of the law from rival Moslem sects, as it offers poor family members compensation for the death of a bread-winner as well as allowing rich murderers to escape the death penalty.

The decree follows a Federal Shariah Court decision calling on the government to implement Islamic punishment for murder cases, press reports said.

The court, set up by late military ruler Mohammed Zia ul-Haq in 1980 to implement an Islamic judicial system, made the ruling on a petition filed by a convict who agreed compensation with the family of a murder victim.

In 1982, the country's High Court rejected the deal, ruling that murder was

not a compoundable offence.

However, the Shariah court allowed him relief under the religious laws.

Ms. Bhutto's government petitioned the Supreme Court to overturn the ruling, newspapers said. However, the court resented what it saw as delaying tactics.

"We want to know the reason of the prolonged delay in making the legislation," chief justice Afzal Zullah said last week.

He said this was a "very important and serious issue," adding that the public wanted to know whether Islamic laws would be implemented or not.

Justice Zullah asked the government to take immediate steps to promulgate the Islamic law to show his commitment to the move, The Muslim daily said.

The decree was issued shortly after newly appointed Attorney General Aziz Munshi told the court that the government wanted Shariah (Islamic law) to be enforced as soon as possible.

#90227d2480 08/15/1990 ~French/German News Agency

WARSAW (AUG. 15) - The number of jobless in Poland has more than doubled in two and a half months, from 317,000 mid-May to 700,000 or 3.8 percent of the working population at the end of July, according to figures released here Wednesday.

The number of jobless is rising faster than forecast by the government as the effects of a transition to a market economy begin to be felt.

Warsaw had been expecting unemployment to reach only 400,000 by the end of the year, although the International Monetary Fund (IMF) is putting forward a figure of 1.5 million.

The central statistical office is expecting a steep increase in the number of jobless from September as loss-making state enterprises close down and hundreds of thousands of school and college leavers come onto the labor market.

The central statistical office also said Wednesday that industrial production in July was down 18.4 percent over the same month last year, but that this was an improvement on the June showing when it fell 30 percent.

Inflation stood at 3.6 percent in July over the June level, below expectations.

#90227d2560 08/15/1990 ~French/German News Agency
MADRID (AUG. 15) - Policemen combed railway lines across Spain Wednesday following a bomb blast which marked the start of a fresh terror campaign by the Basque separatist organisation ETA, the interior ministry said.

Several hundred police checked some 1,855 kilometres (1,150 miles) of track on three principal lines between the capital Madrid and Seville, Barcelona and Gijon.

The move followed the explosion Tuesday of a three kilogramme (6.6 pound) bomb which slightly damaged the track between Leon and Gijon, after the ETA said Monday it would carry out a railway offensive between August 14 and 27.

Some 34 daily services which normally run on the targetted lines were cancelled from midday Tuesday, while passengers were transported by bus.

It is the fifth time ETA has launched a campaign of terror on Spain's railway lines, however none has claimed victims.

Previous attacks occurred in August 1988, April, May and November 1989.

Meanwhile, San Sebastian, in the heart of the Basque region of north-eastern Spain, was the scene of a number of suspected nationalist-inspired incidents Wednesday.

Basque nationalist demonstrators clashed with authorities following an Assumption Day procession, while a French-registered Renault 5, and three lorries used in the construction of an ETA-opposed motorway between the Basque province of Guipuzcoa and Navarra, were damaged in an arson attack.

A two-kilogramme (4.4 pound) device attached to a police car failed to explode, falling from underneath the car as it pulled away.

#90227d2640 08/15/1990 ~French/German News Agency
NICOSIA (AUG. 15) - Libyan leader Colonel Moamer Kadhafi Wednesday called for a meeting of the United Nations Security Council in Geneva to avoid "catastrophe" in the Gulf.

Col. Kadhafi, in a dispatch received here from the JANA news agency, also argued that no single member of the United Nations had the right to apply sanctions on its own, an allusion to a decision by Britain and the United States to interdict vessels carrying goods to and from Iraq.

The Libyan leader said he sought a Security Council meeting in Geneva "to allow certain Arab leaders and others to express themselves."

The Council agreed to meet in Geneva last May to hear Palestine Liberation Organization Chairman Yasser Arafat, who had been refused a visa by the United States to address the body at U.N. headquarters in New York.

"As a member of the United Nations we accept all that is approved by the organization and we reject all efforts by individual member states to impose their hegemony," Col. Kadhafi said, in reference to the deployment of U.S. air, ground and naval forces in the Gulf.

"No state has the right to apply sanctions and to act in the name of the United Nations," he insisted. "Any appeal for a (military) presence or any other action in the Gulf can only come from the Security Council."

Any force now operating in the region outside the framework of the United Nations must be considered "a colonialist invasion force and must be resisted."

An eight-nation Western armada to enforce a United Nations-backed trade embargo on Iraq and Kuwait is expected to exceed 60 ships within two weeks.

"It's for this reason that I have called for such a meeting (of the Security Council) to clarify the situation and spare the world a useless catastrophe," Col. Kadhafi said.

Libya voted against an Arab League summit resolution last Friday that condemned the August 2 Iraqi invasion of Kuwait and called for the deployment of Arab forces in Saudi Arabia to protect the kingdom against possible attack by Iraq.

#90227d2650 08/15/1990 ~French/German News Agency

ISLAMABAD (AUG. 15) - Pakistan's army chief, General Mirza Aslam Beg, was quoted Wednesday as saying that Pakistani troops going to Saudi Arabia were not meant to break Iraq's military might.

''We do not want Iraq's military might to be destroyed or weakened because that would weaken the Ummah (Islamic nation)'', the general was quoted by Pakistan Press International (Ppi) as saying.

He added that Pakistan wanted to see the Gulf crisis resolved ''through a dialogue in accordance with the demands of justice.''

In an apparent reply to domestic criticism that sending 5,000 Pakistani troops to Saudi Arabia would weaken the defences of the half million-strong

Pakistan Army against rival India, he said,''We can call up the reservists and raise an army of another 700,000 within a week.''

#90227d2680 08/15/1990 ~French/German News Agency

LISBON (AUG. 15) - Namibia has provided facilities on its territory for Angolan troops, and a major government offensive in southern Angola "is imminent," the rebel movement UNITA said here Wednesday.

It said the defence ministers of the two countries signed the facilities agreement, which covers logistics support, late in May.

Since the end of June, the Angolans had established a forward command post for the southern front at Ondjiva, the capital of Cunene province close to the border with Namibia, and combat vehicles were heading to nearby Xangongo, a communique issued by rebel chief of staff Arlindo Pena said.

It warned the Luanda authorities that UNITA (National Union for the Total Independence of Angola) would be "in no way responsible for the unforeseeable consequences of this new military escalation."

Both sides have been urging each other to commit themselves to a resumption of peace talks in the near future, following two rounds of direct negotiations in Portugal in April and June.

The talks to end the 15-year civil war have stalled over UNlTA's insistence on being recognised as an opposition party, and on disagreement on conditions for a ceasefire.

#90227d2740 08/15/1990 ~French/German News Agency

BONN (AUG. 15) - The West German Foreign Ministry Wednesday lashed out at Baghdad for preventing Westerners and other foreigners from leaving Iraq and Iraqi-annexed Kuwait.

Spokesman Juergen Chrobog described this policy as ''a breach of international law'', but he stopped short of calling foreigners in both Gulf states hostages.

He accused Iraq of acts of terror and violence, and said Baghdad was responsible for the well-being of all Germans living in Iraq and Kuwait.

Chrobog said the Iraqi charge d'affaires in Bonn had so faar failed to give an explanation for the policy of his government, and Iraq did not react to protests voiced by West Germany and the other eleven European Community (E.C.) member states.

The spokesman said about 600 West Germans lived in Iraq and 350 in Kuwait. The West German embassies in both countries were in regular contact with them and had advised them to leave their homes only if necessary.

He said eight West Germans were taken from Kuwait to a Baghdad hotel. All West Germans were free to move around in Baghdad and Kuwait City, where food supplies were becoming increasingly scarce.

Chrobog pointed out that the E.C. states rejected last Tuesday an Iraqi demand to close all embassies in Kuwait by August 24. But the embassies could not resist any military move to oust them from Kuwait, he added.

NICE, France (AUG. 14) - The French astrologer Nostradamus predicted 400 years ago that the last international conflict of the 20th century would come from the Middle East, according to an analyst of his work.

Nostradamus is however "not talking about the end of the world, but about the end of a civilisation," Jean Charles de Fontbrune said.

Mr. de Fontbrune wrote a best-selling book on Nostradamus in 1980, "Nostradamus, historian and prophet", translating his prophecies into modern French with the help of a computer.

He commented in the wake of the August 2 Iraqi invasion of Kuwait, and as a U.S.-led multinational force assembled in Saudi Arabia to protect the kingdom from Iraqi aggression.

One prophecy notably affirms: "The great band and anti-Christian sect of the Moslems shall rise up in Iraq and Syria, near the Euphrates, with an army and shall consider Christian law as its enemy".

"The Iraqis shall march against the allies of Spain, while people are enjoying themselves, laughing, having banquets, with everybody napping," it goes on.

"The Arab leader shall declare war and subversion against the monarchic sovereignty and the power of the Church shall fall through a maritime invasion. More than one million soldiers will be in Iran, and Satan will invade Turkey and Egypt."

Nostradamus predicts final victory for the West, after 27 years of conflicts in various theatres, including France for three years and seven months.

"The conflict will be tough for both camps," wrote Nostradamus in 1555, "and Iraq will lose its forces in France".

Concerning the date of the conflict predicted by Nostradamus, the astrologer mentions that in July 1999 "a great leader" will come, while the war will reign "before and afterwards".

According to Mr. de Fontbrune, who stresses that Nostradamus is not predicting the end of the world, 1,000 years of peace will then follow, coinciding with the age of Aquarius.

ACCRABONN (AUG. 15) - West Germany Wednesday announced the closure of its embassy in war-torn Liberia, saying Ambassador Juergen Gehl and 11 German embassy staff members had left the embattled capital Monrovia for the Ivory Coast.

Reports from Accra said Liberian rebel leader Charles Taylor had agreed to hold talks with Gambian President Dawda Jawara in Banjul Thursday on a truce to end the eight-month-old Liberian civil war. The meeting was announced by Economic Community of West African States (Ecowas) Executive Secretary Abass Bundu.

Npfl rebels are fighting to oust Liberian President Samuel Doe. Doe's troops have also been battling rebels loyal to rival rebel leader Prince Johnson.

The Bonn ministry said the ambassador's convoy left Wednesday morning. Also among the party were 11 Liberian mission employees. Their departure did not mean a break-off in diplomatic ties. A spokesman said 10 West German mission members had refused to leave despite the worsening situation.

Ghana radio, in a report from the Sierra Leone capital Freetown monitored in Accra, quoted Bundu as saying the killings were assuming ''alarming proportions''. He urged the immediate deployment of a five-nation African peacekeeping force to end the bloodbath.

The radio said Taylor's views were made known at a meeting which Bundu held with Patriotic Front officials in Abidjan. Taylor has in the past rejected an intervention by the peace force.

Meanwhile evidence surfaced indicating that claims by Taylor's Nplf that it had killed Prince Johnson were false. The British Broadcasting Corporation (Bbc) said it had received a telephone call by a man who ''with some probability'' was Johnson. The U.S. State Department said earlier Johnson was well and alive.

WASHINGTON (AUG. 15) - President George Bush Wednesday vowed to continue his tough stand against Iraq and dismissed arguments President Saddam Hussein has put forward to justify Baghdad's invasion and annexation of Kuwait.

"The American people are with us. Congress is with us. Our allies are with us. And the vast majority of the Arab people are with us," Mr. Bush said in a speech to military personnel at the Defense Department.

Mr. Bush interrupted his vacation in Maine Tuesday to return to Washington for talks on the U.S. budget deficit and to be briefed by top military aides on the Gulf crisis Wednesday.

He is to meet Thursday at his vacation home in Kennebunkport with Jordan's King Hussein, who is reportedly carrying a message from the Iraqi president.

The monarch and the Iraqi leader conferred Monday in Baghdad.

In his address, Mr. Bush reiterated U.S. goals in the international showdown with Iraq:

-- the immediate, complete and unconditional withdrawal of Iraqi forces from Kuwait;

-- return of Kuwait's legitimate government to power;

-- the security and stability of Saudi Arabia and the Gulf region in general;

-- protecting American lives abroad.

"We will achieve these honorable goals," he declared, adding that "there is no substitute for American leadership."

The massive U.S. military deployment in Saudi Arabia and the Gulf is aimed at serving "the cause of justice and freedom, a cause the world supports."

Praising international cooperation against Iraq, Mr. Bush said worldwide economic sanctions ordered against Iraq to compel it to withdraw from Kuwait were working.

"Together we must ensure that that no goods get in and that not one drop of oil gets out," he said.

Mr. Bush said that what is at stake in the Gulf crisis is "truly vital" for the United States and the rest of the world, and that the U.S. military action "is not about religion, greed or cultural differences as Iraq's leader would have us believe."

DHAKA (AUG. 15) - Bangladesh has agreed to send troops to Saudi Arabia in response to a request from the Saudi Government, a foreign office spokesman said Wednesday.

The request was made by the visiting Saudi deputy foreign minister, Sheikh Abdul Aziz al-Thunaiyan, who handed a message from King Fahd to President Hussain Muhammad Ershad.

The spokesman said the military contingent would leave soon for Saudi Arabia and is expected to boost Saudi defence against Iraq.

The Saudi envoy is to visit Malaysia to make a similar request.

BERLIN (AUG. 15) - East Germany's agriculture minister was punched and pelted with tomatoes and eggs here as some 250,000 farmers protested across the country Wednesday against the government's farm policies.

Minister Peter Pollack was hit by one enraged farmer shortly before fleeing East Berlin's 40,000 demonstrators in his car, having twice failed to address the crowd.

Demonstrators smashed his vehicle's rear window as it left Alexanderplatz, in the heart of the city.

A total of some 250,000 farmers turned out in several cities across the country to protest against the government's agricultural policies, which farmers say mean "imminent disaster" for them.

The demonstrations were the largest since last year's popular protests brought down East Germany's commmunist regime.

The value of East German produce has fallen up to 70 per cent since economic union with West Germany at the beginning of July when prices were brought into line with European Economic Community levels.

Farmers criticised subsidies of 5.3 billion Deutsche marks (3.1 billion dollars) as insufficient to save the sector, calling for an additional payment of 3.5 billion marks (two billion dollars) to go to some 660,000 workers with guaranteed sales and higher prices for their produce.

In East Berlin, tractors and lorries rolled through the streets as the farmers held banners aloft and chanted "Without farmers there is no bread," and "We want to live too."

They denounced the "liquidation of East German farming," since the abolition of borders with the West, jeering the government of Christian Democrat Prime Minister Lothar de Maiziere.

The protestors accused the government of incompetence, saying it had failed to respond to the problem.

Similar mass protests took place in several East German towns, particularly in the regions of Saxony and Thuringia, the ADN agency reported.

AMMAN (AUG. 15) - Dozens of trucks loaded with food supplies Wednesday left the Jordanian port of Aqaba for the Iraqi capital of Baghdad, opening a gap in the international embargo of Iraq.

Aqaba Port Authority officials said Jordan had not joined the embargo, but noted that many ships had stopped outside the Jordanian territorial waters and many returned because of the sanctions.

The officials said ships were taking their own decision whether to load or unload at Aqaba, depending on their attitude of their owners towards the embargo.

''We are not stopping any shipment to Iraq,'' a port official said. ''If ships stop short of the port, that is their own business.''

Jordan's King Hussein is due to meet U.S. President George Bush in the United States on Thursday to discuss Jordan's vulnerable position in regards to complying with the embargo.

Official sources told the West German news agency dpa that Finance Minister Basel Jardaneh left for Washington Wednesday to tell U.S. officials of how much it would cost Jordan to join the embargo.

The sources said the government estimated the damage at 1.2 billion dollars. Port officials said 28 per cent of the total goods handled by the Aqaba were destined for Iraq.

One official said many of the port's staff of 5,000 employees has been made redundant because the international embargo had reduced the volume of ships docking at the terminals.

#90227d3410 08/15/1990 ~French/German News Agency
WASHINGTON (AUG. 15) - U.S. President George Bush criticised Iraqi leader Saddam Hussein Wednesday, accusing him of using propaganda to turn the events in the Gulf around to suit his own interests.

Bush, in a Pentagon speech, said Saddam had tried to portray the situation as a struggle between Americans and Arabs, or between haves and have-nots, or between Arabs and infidels.

''That is clearly false,'' the U.S. president said.

''It is Saddam Hussein who lied to his Arab neighbours. It is Saddam who invaded an Arab state. And it is he who now threatens the Arab nation. And we, by contrast, seek to assist our Arab friends in their hour of need.''

Bush said Iraqi troops in Kuwait were committing ''atrocities'' that constituted a ''sordid tale of brutality''. He dismissed the notion that Iraq might champion the rights of the have-nots, since Iraq is ''one of the haves''.

''For, you see, next to Saudi Arabia, Iraq has the largest oil reserves in the world. But thanks to his ruinous policies of war against other Moslims, he, Saddam Hussein, has transferred wealth into poverty,'' Bush said.

''And sadly, it is the Iraqi people who suffer today, because of the raw territorial ambition of Saddam Hussein.''

Bush said U.S. forces were in the Gulf to ''preserve the sovereignty of nations'' and to stand by ''old friends,'' not merely to protect ''resources and real estate.''

#90227d3560 08/15/1990 ~French/German News Agency

KARACHI (AUG. 15) - Several hundred Moslems, mostly Shiites, demonstrated here Wednesday against the U.S. military presence in Saudi Arabia.

Police did not interfere with the demonstrators, who held up placards, and shouted slogans, calling the presence a ''disgrace to Islam'', particularly if the U.S. troops include Jews.

It was the first public demonstration in Pakistan against U.S. military intervention in the Gulf crisis.

The protesters ignored Pakistan's commitment to contribute troops to the U.S.-led multinational force being assembled in Saudi Arabia to guaard against an attack by Iraq.

#90227d3800 08/15/1990 ~French/German News Agency

LISBON (AUG. 15) - Famine has already killed more than 10,000 people in just one Angolan province this year, the Angolan news agency ANGOP reported on Wednesday, and up to one million could starve nationwide in the next six weeks.

Authorities in the central-western province of Bengeula told a delegation of European and Indian ambassadors that 10,083 people had starved to death there this year as a result of a four-year drought in southern and central Angola, NGOP said in a report monitored here.

Various sources here said up to one million could die of starvation in Angola by October.

#90227d3890 08/15/1990 ~French/German News Agency

PARIS (AUG. 15) - About 30 Albanian refugees gathered outside the U.S. Embassy here Wednesday, in an attempt to obtain a visa to emigrate to the United States.

The embassy was closed for the Assumption Day holiday, but the Albanians, from a centre at Emance near Paris, ignored police requests to move on.

Sixty Albanians are at Emance, and all want to emigrate to the United States, as do most of the 550 Albanians who have arrived here after fleeing their country one month ago.

The French Solidarity Ministry, responsible for the refugees' welfare, said Wednesday that it was meeting with "incomprehension" from the Albanians who failed to understand the complex and lengthy emigration process.

BERLIN (AUG. 15) - Prime Minister Lothar de Maziere said Wednesday he had sacked Finance Minister Walter Romberg and Economy Minister Gerhard Pohl and accepted the resignations of two other cabinet members.

Mr. Romberg, 63, was dismissed because the ruling coalition had been torn by "insurmountable dissension" over economic policy for the past four months, Mr. de Maziere said.

The four would not be replaced and secretaries of state would carry out their duties, he told an impromptu news conference.

#90227d4500 08/15/1990 ~French/German News Agency
WASHINGTON (AUG. 15) - The State Department Wednesday said Syria and Bangladesh had pledged to send forces to Saudi Arabia.

"Our understanding is that Syria has announced that it will participate in the joint Arab League military deployments to Saudi Arabia," department spokeswoman Margaret Tutwiler said.

As the spokeswoman was making the announcement, reports out of Riyadh said some 1,100 Syrian troops had arrived in Saudi Arabia to bolster Saudi defenses against Iraq.

The State Department announcement followed a trip to Damascus by the Assistant Secretary of State for Near Eastern and South Asian affairs, John Kelly.

"It is also our understanding since yesterday that Pakistan and Bangladesh have announced that they will send forces to Saudi Arabia in response to the request from Saudi Arabia for participation in the multinational effort to bolster the Saudi defense efforts," she added.

Ms. Tutwiler said she could not provide details of what Syria and Bangladesh planned to send to Saudi Arabia.

Pakistan had already announced its troop deployment to Saudi Arabia Monday.

The U.S.-led military buildup in the desert kingdom was prompted by the Iraqi invasion of Kuwait and reported Iraqi troop concentration along the Saudi border.

-30- 1477

#90227d4550 08/15/1990 ~French/German News Agency
WASHINGTON (AUG. 15) - Iraq's ambassador to the United States said Jordan's King Hussein is bringing a ''very practical, very progressive'' peace initiative to President George Bush, and urged the U.S. government to give it serious consideration.

Mohammad al-Mashat refused to give details about the initiative that Hussein is said to be carrying with him to Kennebunkport, Maine, for talks with Bush Thursday.

According to CBS television, however, Iraqi President Saddam Hussein has proposed that an international conference oversee the withdrawal of Iraqi troops from Kuwait if Washington also agrees to stop sending troops to Saudi Arabia.

But Mashat, asked if an international parley was involved, said it was

''only rumours''.

The Iraqi envoy charged there was a conspiracy against Iraq and asked rhetorically why the United States was sending an ''armada'' when Iraq had made no moves threatening U.S. interests.

Iraq had no intention of invading Saudi Arabia, he said, and sent its forces into Kuwait because the sheikhdom ''posed a threat to our strategic interests''.

''But still, everybody's beating the drum of war. Let us work to save lives - of the Americans, of the Iraqis, of the Arabs. We are planning to get out,'' he said in an interview on Cnn television. ''We should look into this opening.''

Asked if Baghdad considered U.S. troops in Saudi Arabia as a strategic threat, Mashat replied: ''Do you think we can face the United States? No, we can't. We're a small country. We have been victimised.

''We have fought eight years of war. We should be rewarded, because had it not been for Iraq, the (Iranian) Khomeini forces would have moved all over the Gulf. And then you would have been forced to send the American boys to defend your interests.

''We haven't threatened your interests. We haven't done anything to touch your interests, strategic or otherwise,'' he said.

The ambassador said his country's recent peace initiative to Iran was only the ''culmination'' of a long series of efforts to finalise an agreement, and that Baghdad planned to withdraw its troops from a disputed area near the Shatt al-Arab waterway by Friday.

Mashat acknowledged that Iraq was already beginning to take ''belt-tightening'' actions domestically because of global sanctions, and said the U.S.-led ''blockade'' of his country was ''illegal''since it had not been authorized by the U.N. Security Council.

#90227d5040 08/15/1990 ~French/German News Agency

JOHANNESBURG (AUG. 15) - South Africa has no outstanding contracts for arms supplies to Iraq and would do everything to support the spirit of the United Nations embargo imposed on the Middle East country, Foreign Affairs Minister Pik Botha said Wednesday night.

Asked during a state-run television debate whether South Africa's contracts with Iraq to supply the G5 heavy artillery cannon had included conditions about the supply of ammunition, Mr. Botha said he could not answer that

because it was not within his field of interest.

In any event, the government had a policy of not publicly revealing this type of information, he said.

Although the crisis in the Gulf region was not relevant to South Africa, nothing would be done that would be in conflict with the United Nations decision against Iraq, Mr. Botha added.

#90227d5230 08/15/1990 ~French/German News Agency

CAIRO (AUG. 16) - Egypt's Oil Office decided Wednesday to raise the price of Egyptian oil by more than a dollar a barrel, the fourth increase since August 1, the official Middle East News Agency reported.

The latest rise means the price will have gone up by about 10 dollars in two weeks.

The new prices are as follows:

Gulf Crude 24.55 dollars

Suez Crude 24.25 dollars

Balaim 23.40 dollars

Ras Badran 22.25 dollars

Ras Ghareb 21.90 dollars

Egypt, which is not a member of the Organization of Petroleum Exporting Countries, sells its oil on the spot market and sets its prices in line with fluctuations on the market, while staying in line with OPEC directives.

#90227d5390 08/15/1990 ~French/German News Agency

TEHERAN, (AUG 15) - Iran was awaiting the return later this week of a first group of 2,000 prisoners of war from Iraq, an Iranian Foreign Ministry spokesman confirmed on Wednesday.

Spokesman Morteza Sarmadi said Iran had been notified by the International Committee of the Red Cross (ICRC) in Geneva that the release would take place Friday.

"Iran will certainly respond to this Iraqi gesture with a positive action

that will please the families of Iraqi prisoners of war," Mr. Sarmadi said.

Red Cross officials in Geneva said their organization had been asked by Iraqi authorities to supervise the return of the prisoners of war.

Iraq has also requested the help of the United Nations Iran-Iraq Military Observer Group (UNIIMOG), according to an Iraqi News Agency report monitored in Nicosia.

The 350-strong UNIIMOG force was set up in August 1988 to monitor a ceasefire along the Iran-Iraq border.

Iraqi President Saddam Hussein announced Wednesday that Baghdad was prepared to accept Iran's terms in the bitter territorial dispute which led to an eight-year war between them.

The Iraqi president also pledged to withdraw Iraqi troops from Iran and to exchange prisoners of war.

A total of 50,203 Iraqi prisoners are detained in Iran and 18,902 Iranians are held by Baghdad, according to ICRC official figures based on formal registration of prisoners. But officials said there could be as many as 70,000 Iraqis and 30,000 Iranians held.

In addition, Iran says it is holding 12,000 Egyptians who fought with Iraq.

Only 2,312 prisoners have been exchanged under the auspices of the ICRC.

The Iranian Foreign Ministry has asked the families of the prisoners of war soon to be released to refrain from flocking to the border towns of Khaniqin and Qasr Shirin proposed by Iraq as points for the exchange of prisoners.

#90227d5440 08/15/1990 ~French/German News Agency

WASHINGTON, (AUG 15) - Indian External Relations Minister Inder Kumar Gujral and U.S. Secretary of State James Baker discussed the Gulf crisis here Wednesday, with the focus on the plight of the large Indian communities in both Iraq and Kuwait.

Mr. Gujral told journalists that in his talks with Mr Baker, he underscored the plight of "the sizeable number of Indians both in Iraq (110,000) and in Kuwait (175,000)" and said the resulting economic problems faced by India should be looked into.

Mr. Baker expressed understanding, he added.

The Indian minister, who arrived here from Moscow Wednesday, said his country supported the trade embargo against Iraq imposed by the U.N. Security Council in retaliation for the August 2 invasion and subsequent annexation of Kuwait by Iraq.

He added that India had not been asked to contribute troops to the U.S.-dominated multinational force sent to bolster Saudi Arabia and deter any Iraqi attack against the oil-rich desert kingdom.

Mr. Gujral said he had initially planned to visit Baghdad after his visit here, but added that the visit was now in doubt because of the Gulf crisis.

-30- 1335

#90227d5550 08/15/1990 ~French/German News Agency

BERLIN (AUG. 16) - Four East German Army officers suspected of involvement in recent shipments of military equipment to Iraq have been temporarily relieved of their duties, the East German disarmament and defense minister said Wednesday.

Rainer Eppelmann confirmed earlier reports that East Germany had recently sent Iraq 24 armoured vehicles and seven pontoon bridges. He said the equipment was manufactured in Czechoslovakia, assembled in East Germany and shipped from Poland.

A group of experts monitoring East German arms exports recently discovered the existence of two shipments of equipment, in April and June of this year, to Iraq.

Mr. Eppelmann said another shipment consisting of 17 pontoon bridges had left the Polish port of Gdynia on July 31 and was still en route towards Iraq.

The contract for delivery had been signed September 25, 1989, before East Germany's hardline communist leaders were forced from power.

Mr. Eppelmann called the contract "another leftover" from the communist regime.

#90227d6050 08/15/1990 ~French/German News Agency

TOKYO (AUG. 16) - Japan is planning to extend financial aid to Middle Eastern nations troubled by mounting tensions in the Gulf after the Iraqi invasion of Kuwait, government sources said Thursday.

They said Japan's plans would be conveyed unofficially to the potential recipients by Foreign Minister Taro Nakayama, who leaves Friday for Egypt,

Turkey, Jordan, Oman and Saudi Arabia.

Mr. Nakayama is making the trip instead of Prime Minister Toshiki Kaifu, who cancelled his five-nation tour that was due to begin Wednesday in order to remain in Tokyo and coordinate Japanese reactions to the Gulf crisis.

U.S. President George Bush, in a telephone conversation with Mr. Kaifu Tuesday, asked Japan to provide strong economic support to the region, the sources said.

Under the proposed plan, Japan will provide grant assistance to Egypt and Jordan and extend massive financial support to Turkey in a non-military package, while it expands technological cooperation with oil-rich Saudi Arabia and Oman, they said.

-30- 1206

#90227d6070 08/15/1990 ~French/German News Agency

JAKARTA (AUG. 16) - Indonesia overcame the threat of heavy foreign debt burden and weak oil prices last year to register a robust 7.4 percent economic growth, President Suharto said Thursday.

"The prime mover of such a growth was the increasingly non-oil and gas exports," Mr. Suharto said, adding that the 7.4 percent increase was the highest registered in eight years. The economy grew by 5.1 percent in 1988.

He attributed the success in the non-oil sector to policies introduced since 1983 aimed at reducing Indonesia's dependence on the oil sector.

The oil sector now accounts for about 40 percent of exports and 35 percent of state revenues compared to 80 percent and 60 percent respectively in the early 1980s.

"This is a clear indication that the policies of deregulation and de-bureaucratisation ... have borne fruit," he said in his state of the nation address to mark Indonesia's 45th anniversary of independence on Friday.

Weak oil prices, heavy debt burden and protectionism in some major export markets continued to haunt Indonesia at the start of 1989, and the government set a cautious five percent growth target, he said.

Officials and foreign analysts put Indonesia's foreign debt at around 50 billion dollars but Jakarta has continually met all its debt obligations.

#90227e0021 08/15/1990 ~Latin America New Agency
MADRID (AUG 15) EFE - Spanish police Wednesday continued their search for bombs the armed Basque separatist group ETA said it had planted on three main railway lines, as the state railway company RENFE rerouted passengers to bypass the threatened tracks.

A RENFE spokesman said service was "relatively normal" after the company switched routes and hired buses to take travelers to their destinations during Spain's peak holiday season.

Police Wednesday blamed ETA for a bomb which exploded Tuesday on the Madrid-Oviedo line between the northwestern cities of Gijon and Leon, at a stretch of track some 330 km some northwest of the capital.

The explosion left a 30 centimeter hole and caused damage to about 12 meters of track, police said.

No injuries were reported.

The blast was the first since ETA announced Monday that bombs planted on the main railway lines connecting the capital to the northern city of Oviedo, the northeastern city of Barcelona and Seville in the south, would begin exploding between Tuesday and Sunday.

Meanwhile police continued to scour the some 1,855 km of threatened track for more bombs, but have failed to find any, an Interior Ministry spokesman said.

Last summer ETA set off four bombs on railway lines in northern Spain during a campaign to disrupt rail travel. There were no injuries during the attacks.

RENFE Wednesday repeated its offer to return money to any travelers holding tickets on the treatened lines who request it.

ETA has killed more than 600 people since taking up arms in 1968 to fight for the Basque region's right to independence.

-30- 1795
#90227e0056 08/15/1990 ~Latin America New Agency
WASHINGTON (AUG. 16) EFE - A Spaniard and West German arrested in Orlando Florida Monday for allegedly trying to illegally export U.S.-made arms to Libya also attempted to smuggle weapons to Iraq, U.S. customs officials said Wednesday.

Spaniard Juan Martin Peche-Koesters, 43, and West German Claus Fuhler, 32, who lived in Spain, had tried to set up an illegal arms network to smuggle

to Iraq 10,000 anti-tank missiles and a similar amount of rockets capable of carrying chemical weapons, officials said.

Authorities were first alerted to their activites in July, 1989 when a U.S. arms dealer told police that Peche-Koesters had asked to be supplied with a large amount of weapons.

Undercover customs officers posed as arms dealers and got in contact with Peche-Koesters who said he was interested in buying 10,000 "TOW" anti-tank missiles, worth dlrs 160 million, 10,000 rockets capable of carrying toxic gas, and other missiles.

He said that the missiles would be destined for Iraq, customs officials said.

In May this year, Peche-Koesters and Fuhler began negotiations with the undercover officers for the sale of 200 TOW missiles, worth dlrs 3.7 million, which were to be smuggled to Libya through Spain.

In January this year they also tried to buy several Toyota all-terrain vehicles armed with 106-millimeter machineguns as well as rifles, mines and pistols for a third Middle East country which customs oficials said was probably Iran.

The alleged traffickers called off the Toyota deal, saying that their customer had already received the weapons from other sources.

The two could face 10 years in jail and dlrs one million fines if convicted.

Customs officers said they expected to make more arrests in the case.

Iraq is believed to have thousands of tons of mustard and and nerve gases and U.S. troops currently deployed in Saudi Arabia have been kitted out with protective suits in case Iraq should use chemical weapons in any clash with them.

Several Iraqis were arrested in Britain earlier this year for allegedly trying to export U.S.-made high-technology weapons, including detonators for nuclear bombs, to Baghdad.

#90227f1405 08/15/1990 ~United Press International

LONDON (AUG. 15) UPI - Share prices closed slightly firmer Wednesday on the London International Stock Exchange as investors awaited with cautious optimism the outcome of peace initiatives in the Middle East.

The Financial Times Stock Exchange 100-share index was up 5.3 points to 2239.3 points at the close of trading, while the narrower Financial Times 30 index stood at 1748.2 points, up 5.6 points.

Market sentiment was brightened by reports that Iraq was seeking to improve relations with Iran and on anticipation of talks between King Hussein of Jordan and President Bush concerning Iraq's annexation of Kuwait, dealers said.

Trading was also enlivened by news that Imperial Chemical Industries was placing its 25 percent stake in Enterprise Oil shares, they said.

ICI shares climbed $1.14 a share in early trading, but the advance was later nipped by profit-taking, leaving shares only fractionally ahead at $180 a share. Enterprise moved up 89 cents a share to $11.89 a share.

Gold and other mining issues were depressed by a slipping gold price after its strong advances earlier this week. Vaal Reefs shares fell $9.75 to $87.25.

Gilt-edged securities gained three-eighths of a point as the pound sterling strengthened against the U.S. dollar.

CHICAGO (AUG. 15) UPI - Grain and soybean futures were mostly higher at

the close Wednesday on the Chicago Board of Trade. Trading was choppy with commercials and professionals on both sides of the market.

Steady buying in wheat was based on indications that recent losses were overdone. However, gains were limited by the lack of export sales.

Corn was higher on news that Mexico and Taiwan bought 225,000 tons of corn overnight and on hopes of additional near-term business. Strong basis levels and light farmer selling provided underlying support.

Soybeans rallied during the closing minutes and were at or near session highs at the final bell. Gains in soybeans were tempered by profit-taking and the weakness in soybean oil futures. Country movement was light.

At the close, corn was up 2 to off 1/2, soybeans up 3 to down 2 1/4, wheat up 4 1/2 to 5 1/4 and oats up 3/4 to 1 1/2.

#90227h0005 08/15/1990 ~Chinese News Agency

OTTAWA (AUG. 15) XINHUA - ARCHBISHOP DESMOND TUTU, AFTER TWO DAYS AMID THE POVERTY OF A REMOTE INDIAN RESERVE IN CANADA, PROMISES TO WRITE TO CANADA'S TOP LEADERS TO PRESS FOR BETTERING THE LIVING CONDITIONS OF CANADIAN NATIVES.

THE SOUTH AFRICAN ANTI-APARTHEID CAMPAIGNER SPENT TWO DAYS VISITING THE IMPOVERISHED INDIAN RESERVE IN OSNABURGH, WESTERN ONTARIO, ONLY TO SEE THAT THE 700 PEOPLE ON THE RESERVE LIVE IN BATTERED WOODEN SHACKS AND HAVE NO RUNNING WATER.

ENDING THE VISIT OF THE RESERVE, TUTU, HEAD OF THE ANGLICAN CHURCH IN SOUTH AFRICA, TOLD REPORTERS HE WILL WRITE TO CANADIAN PRIME MINISTER BRIAN MULRONEY, FOREIGN MINISTER JOE CLARK AND ONTARIO PROVINCIAL PREMIER DAVID PETERSON ABOUT THE PLIGHT OF THE NATIVES AT OSNABURGH.

HIS DECISION TO WRITE THE LETTERS WAS PROMPTED BY THE URGENCY OF THE ABORIGINAL PROBLEMS IN CANADA, SAID TUTU, WHO ARRIVED IN CANADA ON AUGUST 11 FOR A 10-DAY VISIT.

"I AM NOT GOING TO BE PRETENDING THAT I AM AN INSTANT EXPERT BUT I AM HOPING THAT I WILL WRITE TO THE PRIME MINISTER, WHOM I REGARD AS A FRIEND OF OUR OWN STRUGGLE," SAID THE 1984 NOBEL PEACE PRIZE WINNER.

AS HE SPOKE, TUTU POINTED TO A SCHOOL BUILDING THAT HE SAID SHOULD BE CONDEMNED AS A HEALTH HAZARD, AND NOTED THE LACK OF RUNNING WATER IN THE OVER-CROWDED SHACKS OF THE IMPOVERISHED RESERVE.

ASKED WHETHER THE CONDITIONS RESEMBLE THE STRUGGLE BY BLACKS IN SOUTH

AFRICA, TUTU SAID THERE ARE A LOT OF SIMILARITIES.

DURING MONDAY'S VISIT AT THE RESERVE, TUTU WAS TOLD ABOUT A 90-PERCENT UNEMPLOYMENT RATE, HIGH INCIDENCE OF VIOLENT DEATHS, SUICIDE AND ALCOHOL ABUSE.

HE TOLD REPORTERS HE WAS "DEEPLY DISTRESSED" BY THE CONDITIONS HE SAW ON THE RESERVE.

OSNABURGH CHIEF ROY KAMINAWAISH SAID HE HOPES THE ARCHBISHOP'S VISIT WILL BRING "MODEST IMPROVEMENTS" FOR THE PEOPLE OF OSNABURGH.

APPARENTLY FOR FEAR THAT A LARGE GROUP OF FOREIGN REPORTERS WOULD BE FOLLOWING TUTU TO THE IMPOVERISHED RESERVE, THE CANADIAN FEDERAL GOVERNMENT'S INDIAN AFFAIRS DEPARTMENT DISTRIBUTED AN "INFORMATION PACKAGE" IN SEVERAL LANGUAGES TO PAINT A POSITIVE PORTRAIT OF THE LIVING CONDITIONS ON NATIVE RESERVES IN CANADA.

THE GOVERNMENT ARGUES THAT THERE HAS BEEN "SUBSTANTIAL PROGRESS" IN THE PAST 25 YEARS. IT ALSO INSISTS THERE ARE "MANY AFFLUENT RESERVES" ACROSS THE COUNTRY.

THERE ARE ABOUT 50,000 NATIVE INDIANS IN CANADA.

HONG KONG (AUG. 15) XINHUA - 21 MAINLANDERS WERE MISSING AND 29 WERE RESCUED AFTER A FISHING BOAT CARRYING 50 MAINLANDERS BEING REPATRIATED WAS SHEARED IN HALF ON AUGUST 13 BY AN ESCORTING TAIWAN WARSHIP, ACCORDING TO REPORTS YESTERDAY BY TAIWAN AND HONG KONG NEWSPAPERS.

THERE IS LITTLE HOPE FOR THE 21 MISSING PEOPLE AS RESCUE EFFORTS HAVE STOPPED, ACCORDING TO SURVIVORS INTERVIEWED AT A PRESS CONFERENCE HELD BY TAIWAN MILITARY AUTHORITIES.

SURVIVORS AT THE CONFERENCE, WHO APPEARED "QUITE ANGRY," ACCUSED TAIWAN'S MILITARY OF "ACTING TOO LATE TO RESCUE THEM," REPORTS SAY.

"IT WAS NOT UNTIL ABOUT 2400 HOURS, TWO HOURS AFTER THE BOAT SANK THAT RESUCE OPERATIONS BEGAN."

THE TRAGEDY TOOK PLACE AT 2200 HOURS ON AUGUST 13 ABOUT 13 NAUTICAL MILES NORTH OF TAIWAN'S KEELUNG PORT WHERE THE FISHING BOAT -- ALSO FROM THE MAINLAND -- WAS FORCED TO LEAVE FOR EAST CHINA'S FUJIAN PROVINCE.

THIS IS THE SECOND TRAGEDY IN THE TAIWAN AUTHORITIES' REPATRIATION OPERATIONS. TWENT-FIVE MAINLANDERS WERE FOUND SUFFOCATED ON JULY 22 IN

SEALED CABINS ON A FISHING BOAT.

A REPORT BY TAIWAN'S "CENTRAL NEWS AGENCY" QUOTED A SURVIVOR AS SAYING THAT MORE REPATRIATED MAINLANDERS WOULD HAVE DIED IF THE MAINLANDERS HAD NOT BROKEN BOARDS IN A SEALED CABIN AND ESCAPED BEFORE THE COLLISION.

NEW DELHI (AUG. 15) XINHUA - THE INDIAN GOVERNMENT IS ATTEMPTING TO CONTROL THE ECONOMY IN SUCH A MANNER TO CONTRACT THE DEFICIT, MOP UP LIQUIDITY AND DIMINISH THE PRESSURE OF BLACK MONEY, FINANCE MINISTER MADHU DANDAVATE SAID TODAY.

IN AN INDEPENDENCE DAY (AUGUST 15) FEATURE, THE MINISTER SAID THAT NON-PRODUCTIVE GOVERNMENT EXPENDITURE WILL BE CONTROLLED SO THAT THE INFLATIONARY IMPACT ON THE ECONOMY WILL DIMINISH.

WHILE ADMITTING THAT IT WAS A DIFFICULT TASK, HE SAID THE GOVERNMENT HAD ADRRESSED ITSELF TO IT, EVER SINCE IT FACED A DISASTER SCENARIO ON TAKING OVER THE GOVERNMENT.

NOTING THAT THE CUSTOMS ACT AND THE ENFORCEMENT MACHINERY WERE BEING STRENGTHENED TO ATTACK SMUGGLING AND SEIZE AS MUCH AS POSSIBLE, DANDAVATE SAID THERE WERE SERIOUS PROBLEMS ON THE PRICES FRONT AND THE GOVERNMENT WAS DOING ITS BEST TO BEAT THEM.

SINGAPORE (AUG. 15) XINHUA - THE FIRST INTERNATIONAL MUSLIM FOOD AND TECHNOLOGY EXHIBITION OPENED HERE TODAY.

MORE THAN 100 COMPANIES FROM 18 COUNTRIES, INCLUDING SAUDI ARABIA, TURKEY AND CHINA, ARE DISPLAYING A WIDE RANGE OF FOOD ITEMS AND PROCESSING AND PACKAGING EQUIPMENT AT THE FOUR-DAY EXHIBITION.

THE EXHIBITION, ORGANIZED BY THE SINGAPORE MALAY CHAMBER OF COMMERCE TO PROMOTE SINGAPORE AS A TRADE AND DISTRIBUTION CENTER FOR MUSLIM FOOD, IS EXPECTED TO ATTRACT ABOUT 5,000 VISITORS.

IN CONJUNCTION WITH THE EXHIBITION, A CONFERENCE IS ALSO BEING HELD TO MAKE PEOPLE MORE AWARE OF HOW MUSLIM FOOD IS PREPARED AND CAN BE IDENTIFIED.

IT ALSO FOCUSES ON BUSINESS OPPORTUNITIES IN THE MUSLIM FOOD MARKET, WHICH IS MADE UP OF 1.8 BILLION MUSLIMS WORLDWIDE.

MORE THAN 120 MANUFACTURERS, ACADEMICS AND SOME AMBASSADORS OF MUSLIM COUNTRIES WILL LISTEN TO TALKS DELIVERED BY SEVEN MUSLIM LECTURERS.

OPENING THE EXHIBITION, MINISTER OF STATE FOR TRADE AND INDUSTRY MAH BOW TAN URGED LOCAL BUSINESSMEN TO EXPAND AGGRESSIVELY INTO THE WORLD MARKET FOR MUSLIM FOOD.

THE GOVERNMENT WILL SUPPORT THEIR EFFORTS IN THE AREAS OF RAW MATERIAL SUPPLY, TECHNOLOGY ADVANCES AND MARKETING, HE SAID.

#90227h0015 08/15/1990 ~Chinese News Agency

MANILA (AUG. 15) XINHUA - THE PHILIPPINE CENTRAL BANK TODAY STARTED TO EXCHANGE THE CURRENCIES OF IRAQ, KUWAIT, SAUDI ARABIA AND BAHRAIN FOR RETURNING FILIPINO CONTRACT WORKERS, UP TO 5,000 PESOS (ABOUT 208.3 U.S. DOLLARS), PRESIDENT AQUINO ANNOUNCED TODAY.

THE CURRENCIES WERE EXCHANGED AT MANILA INTERNATIONAL AIRPORT AND THE CENTRAL BANK MAIN OFFICE.

THE PRESIDENTIAL PALACE SAID THAT PRESIDENT AQUINO ALSO DIRECTED THE DEPARTMENT OF LABOR TO PROVIDE MAXIMUM SUPPORT TO FILIPINO OVERSEAS WORKERS DISPLACED BY THE IRAQ-KUWAIT CONFLICT.

THE PRESIDENT SAID THE LABOR DEPARTMENT, THROUGH THE OVERSEAS WORKERS WELFARE ADMINISTRATION, WILL GO ON PROVIDING EMERGENCY LOANS TO THE RETURNING WORKERS IN ADDITION TO THE PRESENT PROGRAMS OF FAMILY ASSISTANCE AND LIVELIHOOD LOANS.

SHE ALSO DIRECTED EXECUTIVE SECRETARY CATALINO MACARAIG TO NEGOTIATE FOR SEA VESSELS TO EVACUATE WORKERS WHERE FEASIBLE.

MEANWHILE, LABOR SECRETARY RUBEN TORRES, NOW IN THE KINGDOM OF SAUDI ARABIA, REPORTED TO THE PRESIDENT THAT THE SAUDI LABOR MINISTER HAS GIVEN HIS GOVERNMENT'S ASSURANCES THAT FILIPINO WORKERS "WILL BE PROTECTED LIKE ANY OTHER SAUDI NATIONAL AND NO DANGER EXISTS FOR THEM."

SAUDI ARABIA IS HOST TO SOME 350,000 FILIPINO CONTRACT WORKERS. TORRES ALSO REPORTED TO MRS. AQUINO THAT EMPLOYERS IN SAUDI ARABIA ARE WILLING TO HIRE DISPLACED WORKERS FROM KUWAIT, SOME EVEN STATING WHAT SKILLS THEY NEED.

-30- 1608

#90227h0019 08/15/1990 ~Chinese News Agency

NEW YORK (AUG. 15) XINHUA - U.S. TOP TECHNOLOGY FIRMS ARE MAKING A REVOLUTION IN THE ESOTERIC ART OF CHIPMAKING THAT PROMISES TO TRANSFORM

SEMICONDUCTORS BY THE END OF THE CENTURY.

AT HIGH-TECH COMPANIES AND RESEARCH INSTITUTIONS, SCIENTISTS ARE DEVELOPING NEW WAYS OF ETCHING, ONTO SILICON, CIRCUITS MANY TIMES SMALLER THAN TODAY'S SMALLEST TRANSISTORS.

THEIR TOOLS INCLUDE ULTRAVIOLET LIGHT, X-RAYS, ELECTRON BEAMS AND ION BEAMS.

SUCH TINY CIRCUITS WILL REQUIRE EXTRAORDINARILY STERILE FABRICATION FACILITIES, SINCE EVEN THE SMALLEST DUST MOTE COULD DESTROY A CHIP.

THE COMPANIES WORKING TO DEVELOP SUCH FABRICATION PLANTS INCLUDE INTERNATIONAL BUSINESS MACHINES CORP. (IBM), MOTOROLA INC. AND AMERICAN TELEPHONE AND TELEGRAPH CO. (AT"T).

BUT A GROUP OF JAPANESE FIRMS ARE RACING CLOSELY. A GROUP OF 13 MAJOR JAPANESE SEMICONDUCTOR AND ELECTRONICS COMPANIES AND THE JAPANESE GOVERNMENT ARE EXPLORING X-RAY TECHNOLOGY THROUGH A PROJECT CALLED SORTEC.

HITACHI LTD. EVEN CLAIMS TO HAVE MADE IMPORTANT PROGRESS IN ELECTRON BEAM TECHNOLOGY.

IN THE UNITED STATES, IBM HAS EMBARKED ON THE MOST AMBITIOUS RESEARCH EFFORT, INVESTING HUNDREDS OF MILLIONS OF DOLLARS IN A PILOT FACILITY THAT WILL EXPLORE THE FEASIBILITY OF MAKING MEMORY CHIPS USING X-RAYS.

THE FIRST TEST WILL BEGIN AT THE COMPANY'S FACILITY IN EAST FISHKILL, NEW YORK, BY YEAR-END.

THE MOST SOPHISTICATED MICROPROCESSORS NOW MADE ALREADY PACK MORE THAN ONE MILLION TRANSISTORS. THE LINES LTHAT DEFINE THEM MEASURE AS LITTLE AS 0.8 MICRON IN WIDTH, OR LESS THAN ONE-HUNDREDTH THE WIDTH OF A HUMAN HAIR.

BY THE YEAR 2000, SCIENTISTS HOPE TO ETCH UP TO 100 MILLION TRANSISTORS ON A CHIP. SUCH CHIPS WOULD REQUIRE TRANSISTORS OF 0.35 MICRON OR LESS.

SEMATECH, THE U.S. SEMICONDUCTOR INDUSTRYU CONSORTIUM, IS EXPERIMENTING WITH OPTICAL TECHNOLOGY DESIGNED TO BRING TRANSISTOR SIZE DOWN TO ABOUT 0.35 MICRON BY 1993.

X-RAYS, BECAUSE OF THEIR ULTRASMALL WAVELENGTH, CAN ETCH FAR FINER LINES IN SILICON THAN VISIBLE OR ULTRAVIOLET LIGHT.

IBM HAS ALREADY CREATED 0.25-MICRON CHIPS USING THE TECHNOLOGY AT ITS BROOKHAVEN, NEW YORK, FACILITY.

THE DRAWBACK IS THAT THE X-RAY TECHNOLOGY IS STILL TOO EXPENSIVE FOR

PRACTICAL APPLICATION.

FURTHER DOWN THE LINE, SOME INDUSTRY OFFICIALS SEE A USE FOR ION BEAMS IN LITHOGRAPHY.

IONS, ELECTRICALLY CHARGED ATOMS, SCATTER LESS THAN ELECTRONS OR LIGHT, PROVIDING A SHARP IMAGE AT LESS THAN 0.2 MICRON.

BUT THE CREATION OF A COMMERCIAL MACHINE HAS BEEN PREVENTED SO FAR BY DIFFICULTIES IN CONSTRUCTING MASKS AND PROJECTING LARGE ENOUGH IMAGES.

-30- 2779

#90227h0040 08/15/1990 ~Chinese News Agency

LAGOS (AUG. 15) XINHUA - NIGERIA HAS AIRLIFTED 756 OFFICERS AND SOLDIERS TO SIERRA LEONE TO JOIN THE PEACE- KEEPING FORCE OF THE ECONOMIC COMMUNITY OF WEST AFRICAN STATES (ECOWAS).

ARMY SPOKESMAN FRED CHIJUKA TOLD JOURNALISTS HERE TUESDAY THAT THE NIGERIAN CONTINGENT WAS MADE UP OF 36 OFFICERS AND 720 SOLDIERS FROM VARIOUS UNITS OF THE ARMY.

THE CONTINGENT IS HEADED BY BRIGADIER CYRIL IWESE, COMMANDER OF THE 13 AMPHIBIOUS BRIGADE WHO IS NOW ALSO THE CHIEF OF STAFF OF THE ECOWAS PEACE-KEEPING FORCE.

ANOTHER NIGERIAN OFFICER, COLONEL MUFU RUFAI, GARRISON COMMANDER OF THE 82 DIVISION, HAS BEEN APPOINTED CHIEF OF LOGISTICS OF THE FORCE, SAID THE SPOKESMAN.

CHIJUKA REITERATED THAT THE ECOWAS TROOPS WILL TRY TO HOLD "A ROUND TABLE TALK" WITH THE WARRING FACTIONS IN LIBERIA TO FIND SOLUTIONS TO THE EIGHT-MONTH-OLD CIVIL WAR IN THE COUNTRY.

HE SAID THE ECOWAS FORCE WILL MOVE OUT OF LIBERIA AS SOON AS PEACE AND ORDER RESTORED THERE.

#90227h0042 08/15/1990 ~Chinese News Agency

AMMAN (AUG. 15) XINHUA - CHINA WILL GIVE JORDAN A NON-INTEREST LOAN TOTALING 50 MILLION YUAN (ABOUT 10.6 MILLION U.S. DOLLARS), WHICH WOULD BE USED IN FINANCING JORDANIAN PROJECTS.

ACCORDING TO THE TECHNICAL AND ECONOMIC COOPERATION AGREEMENT SIGNED HERE TODAY BETWEEN THE TWO COUNTRIES, THE LOAN COVERS A PERIOD OF FIVE YEARS STARTING FROM SEPTEMBER 1990 TILL AUGUST 1995.

THE LOAN IS TO BE PAID THROUGH JORDANIAN COMMODITIES EXPORTED TO CHINA OR THROUGH CONVERTIBLE CURRENCY.

THE AGREEMENT WAS SIGNED BY LI LANQING, CHINESE VICE MINISTER OF FOREIGN ECONOMIC RELATIONS AND TRADE, AND SAFWAN TOKAN, JANDAN'S UNDERSECRETARY OF MINISTRY OF PLANNING.

#90227h0082 08/15/1990 ~Chinese News Agency

BUENOS AIRES (AUG. 16) XINHUA - ARGENTINE GOVERNMENT EXECUTIVE BRANCH ANNOUNCED TUESDAY TO WITHDRAW A DEATH PENALTY BILL FROM CONGRESS BECAUSE OF "OPPOSING VIEWPOINT" OF THE MAJORITY OF LEGISLATORS AND OTHER GROUPS.

THE MEASURE IS THOUGHT TO BE "ADEQUATE FOR THE GRAVE SITUATION THE COUNTRY IS EXPERIENCING," THE EXECUTIVE BRANCH SAID IN A MESSAGE SIGNED BY ARGENTINE PRESIDENT CARLOS MENEM AND INTERIOR MINISTER JULIO MERA FIGUEROA.

THE DEATH PENALTY BILL WAS SUBMITTED TO CONGRESS ON AUGUST 1, DRAWING NOTABLE RESISTANCE FROM LEGISLATORS. ARGENTINA NOW HAS NO DEATH PENALTY.

THE BILL CALLS FOR THE DEATH PENALTY ONLY FOR CERTAIN HEINOUS CRIMES. IT WAS SUBMITTED TO CONGRESS SOON AFTER THE KIDNAPPING AND KILLING OF AN ARGENTINE BUSINESSMAN, WHICH AROUSED BOTH THE GOVERNMENT AND GENERAL PUBLIC'S CONCERN REGARDING CRIME AND THE LEGAL SYSTEM.

-30- 1029

#90227k0055 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - JAPAN ON WEDNESDAY PLEDGED TO EXTEND UP TO 3.2 BILLION YEN IN NEW GRANTS-IN-AID TO INDONESIA, JAPANESE FOREIGN MINISTRY OFFICIALS SAID.

OFFICIALS SAID REPRESENTATIVES OF JAPAN AND INDONESIA MET IN JAKARTA EARLIER IN THE DAY AND EXCHANGED DIPLOMATIC NOTES CONCERNING THE PLEDGE OF UP TO 3,183 MILLION YEN FOR THREE PROJECTS.

JAPAN, INDONESIA'S LARGEST AID BENEFACTOR, WILL PROVIDE UP TO 1,664 MILLION YEN TO HELP INDONESIA CORRECT ITS OVERRELIANCE ON IMPORTS OF MEASLES AND POLIO VACCINES FOR INFANTS AND SMALL CHILDREN, THE OFFICIALS SAID.

THEY SAID THE MONEY WILL BE PUT TO USE IN THE CONSTRUCTION OF FACILITIES AND THE PROCUREMENT OF EQUIPMENT FOR DOMESTIC PRODUCTION OF THE VACCINES TO ENSURE A STABLE SUPPLY IN TIMES OF NEED.

UP TO 803 MILLION YEN WILL BE EXPENDED FOR A PROJECT TO CONSTRUCT AND EQUIP A FOREST TREE DEVELOPMENT CENTER, OFFICIALS SAID.

BY FACILITATING INCREASED INDONESIAN FORESTRY PRODUCT EXPORTS, THE OFFICIALS SAID JAPAN HOPES TO CONTRIBUTE TO THE COUNTRY'S GOAL OF REDUCING ITS DEPENDENCE ON OIL AND GAS EXPORTS.

JAPAN IS THE LARGEST IMPORTER OF TROPICAL TIMBER FROM INDONESIA. OFFICIALS SAID THAT IN ADDITION TO PROVIDING A STABLE SUPPLY OF HIGH-GRADE SEEDS FOR AFFORESTATION PURPOSES AND ENHANCING FOREST-RAISING EXPERTISE, THE CENTER WOULD ALSO HAVE AN ENVIRONMENTAL FUNCTION OF SERVING TO PROTECT TROPICAL FORESTS.

OFFICIALS SAID THE REMAINING PORTION OF THE GRANTS, OR UP TO 716 MILLION YEN, WOULD GO TOWARD PROVIDING A NEW BUILDING AND EQUIPMENT FOR THE INSTITUTE OF HUMAN SETTLEMENTS.

THE INSTITUTE PROVIDES THE PLANNING AND TECHNICAL EXPERTISE FOR THE INDONESIAN GOVERNMENT'S PROGRAM TO BUILD NEW HOUSING AND IMPROVE THE LIVING CONDITIONS FOR ITS CITIZENS, THEY SAID.

-30- 1927

#90227k0057 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY (MITI) PLANS TO ESTABLISH A COMPUTER NETWORK TO AUGUMENT CHECKS ON EXPORTS TO PREVENT COCOM-RESTRICTED PRODUCTS FROM FINDING THEIR WAY INTO COMMUNIST COUNTRIES, MITI SOURCES SAID.

MITI INVESTIGATES REQUESTS FOR EXPORT PERMITS TO CHECK FOR COMPANIES THAT HAVE VIOLATED THE REGULATIONS OF THE COORDINATING COMMITTEE FOR MULTILATERAL EXPORT CONTROLS (COCOM) OR THOSE ON AN INTERNATIONAL BLACKLIST FOR PAST EXPORTS OF PRODUCTS RESTRICTED BY COCOM.

SINCE THERE ARE ONLY ABOUT 20 MITI OFFICIALS CURRENTLY TO HANDLE SOME 280,000 ANNUAL REQUESTS FOR EXPORT PERMITS, IT IS VIRTUALLY IMPOSSIBLE TO PROBE ALL THE CASES.

MITI WILL BUILD UP A DATABASE TO STORE INFORMATION ON COCOM RESTRICTIONS AND VIOLATIONS SENT IN FROM AROUND THE WORLD.

THE NEW COMPUTER NETWORK WILL MAKE THE INSPECTION FAR MORE EFFECTIVE AND RELIABLE, ACCORDING TO THE SOURCES.

MITI WILL EARMARK 200 MILLION YEN IN THE FISCAL 1991 BUDGET TO ENABLE IT TO PUT THE NEW SYSTEM INTO PARTIAL USE FROM FISCAL 1992, THE SOURCES SAID.

-30- 1252

#90227k0063 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - THIS YEAR'S STARTING SALARIES FOR NEW WORKERS INCREASED MORE THAN 5 PERCENT FROM A YEAR EARLIER, THE LARGEST GROWTH IN NINE YEARS, ACCORDING TO A SURVEY PUBLISHED BY A MAJOR BUSINESS GROUP.

THE SURVEY, CONDUCTED BY THE JAPAN FEDERATION OF EMPLOYERS' ASSOCIATION (NIKKEIREN), ALSO SAID THE GROWTH ATE WAS SLIGHTLY HIGHER FOR ENGINEERS THAN FOR CLERICAL EMPLOYEES.

THE SURVEY BASED ON A QUESTIONNAIRE CIRCULATED TO NIKKEIREN'S MEMER COMPANIES AND TO WHICH 6 FIRMS REPLIED.

-30- 671

#90227k0065 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - THE MINISTRY OF INTERNATIONAL TRADE AND INDUSTRY IS STUDYING ON WHETHER TO ALLOW OIL REFINERS TO EXPAND OIL PRODUCTS TO MAKE UP FOR DECREASED IMPORTS IN THE WAKE OF SANCTIONS AGAINST IRAQ AND KUWAIT, MINISTRY OFFICIALS SAID WEDNESDAY.

JAPAN IMPORTS 49.39 MILLION KILOLITERS OF OIL PRODUCTS, ACCOUNTING FOR 23 PERCENT OF DOMESTIC CONSUMPTION.

KUWAIT IS THE SECOND LARGEST OIL PRODUCT SUPPLIER FOLLOWING SAUDI ARABIA, SUPPLYING 14.0 PERCENT OF JAPAN'S NEEDS.

JAPAN DEPENDS ON KUWAIT FOR 20 PERCENT OF ITS NAPHTHA AND LIGHT OIL SUPPLIES AND MORE THAN 12 PERCENT OF ITS KEROSENE OIL.

THE OFFICIALS SAID IT WOULD BE HARD FOR OIL REFINERS TO FIND ALTERNATE SUPPLIERS BECAUSE THE SUPPLY VOLUME IS LIMITED AND STANDARDS OF OIL PRODUCTS VARY IN PRODUCING COUNTRIES.

THEY SAID PRICE INCREASES OF OIL PRODUCTS ON THE INTERNATIONAL OIL MARKET ARE LARGER THAN THOSE OF CRUDE OIL.

JAPANESE OIL REFINERS HAVE ASKED THE GOVERNMENT TO EXPAND QUOTAS FOR OIL REFINING TO COPE WITH POTENTIAL SUPPLY SHORTAGES.

THE MINISTRY IS CONSIDERING EITHER ADVANCING QUOTAS FOR THE LATTER HALF OF THIS YEAR TO THE FIRST HALF OR TEMPORARILY SHELVING QUOTAS FOR A CERTAIN PERIOD.

IMPORTS OF OIL PRODUCTS FROM KUWAIT WILL COME TO A HALT IN SEPTEMBER.

-30- 1463

#90227k0066 08/15/1990 ~Japanese News Agency

OSAKA (AUG. 15) KYODO - ETHNIC KOREAN STUDENTS LIVING IN JAPAN, LONG SHUT OUT FROM MAJOR JAPANESE COMPANIES, ARE FINDING MORE JOB OPPORTUNITIES NOW, THOUGH THEY STILL FACE AN UPHILL STRUGGLE AGAINST NATIVE JAPANESE.

''WE'VE ALREADY EMPLOYED A NUMBER OF FOREIGNERS WHO NEED WORKING VISAS. WE DON'T LIVE IN TIMES WHEN WE HAVE TO DISCRIMINATE AGAINST KOREANS LIVING IN JAPAN,'' SAYS AN OFFICIAL AT NEC CORP.'S PERSONNEL DIVISION.

MOREOVER, SOME EMPLOYERS SAY KOREANS ARE BETTER WORKERS THAN JAPANESE. ''BECAUSE THEY GREW UP IN JAPAN AS FOREIGNERS, THEY CAN SEE JAPAN IN AN OBJECTIVE MANNER. THEREFORE, THEY ARE BETTER POSITIONED TO WORK FOR COMPANIES DOING BUSINESS INTERNATIONALLY,'' SAYS A FORMER HEAD OF THE PERSONAL DIVISION AT A MAJOR CORPORATION.

''ALTHOUGH THIS IS SECOND GUESSING, THEY HAVE A HIGH SENSE OF HUMAN RIGHTS WHICH IS A MUST FOR A SALES CLERK WHO MEET A VARIETY OF CUSTOMERS,'' SAYS AN OFFICIAL AT SEIYU LTD., A MAJOR CHAINSTORE OPERATOR.

WITH CORPORATE ATTITUDES TOWARD KOREAN JOB SEEKERS CHANGING IN TANDEM WITH INCREASING LABOR SHORTAGES AT HOME AND GLOBALIZATION OF THEIR BUSINESSES, THE NUMBER OF JOB OFFERS TO KOREAN UNIVERSITY GRADUATES HAS GROWN STEADILY RECENTLY, BUT NOT AT A HIGH TEMPO.

ACCORDING TO A QUARTERLY MAGAZINE SPECIALIZING IN INFORMATION ABOUT JOB HUNTING FOR KOREAN STUDENTS LIVING IN JAPAN, THE NUMBER OF MAJOR COMPANIES WITH KOREAN EMPLOYEES INCREASED TO 369 IN JULY FROM 259 IN SEPTEMBER 1986 WHEN THE MAGAZINE WAS LAUNCHED.

BUT KANG SONG GAE, PUBLISHER OF THE MAGAZINE, COMPLAINS THAT THE PHENOMENON IS CHIEFLY BECAUSE OF DIFFICULTIES JAPANESE FIRMS FACE IN FINDING APPROPRIATE JAPANESE WORKERS.

''THEY ARE FORCED TO HIRE THE KOREANS BECAUSE THEY COULDN'T FIND TALENTED

JAPANESE PEOPLE,'' KANG SAYS, APPARENTLY REFERRING TO FASTER GROWTH IN KOREAN WORKERS AT FINANCIAL INSTITUTIONS.

THE NUMBER OF BANKS, BROKERAGE HOUSES AND INSURANCE COMPANIES PUTTING KOREAN RESIDENTS ON THEIR PAYROLLS JUMPED TO 35 IN JULY FROM 17 IN SEPTEMBER 1986, MIRRORING HIGH COMPETITION TO GET THE PERSONNEL NEEDED TO SURVIVE DURING THE ONGOING LIBERALIZATION OF FINANCIAL MARKETS.

BIG COMPANIES ARE ALSO OPENING THE DOOR WIDER TO KOREAN STUDENTS MAJORING IN SCIENCE, TECHNOLOGY AND ENGINEERING, REFLECTING DIFFICULTIES FINDING WELL-EDUCATED ENGINEERS NEEDED TO DEVELOP NEW PRODUCTS.

''THEY STRONGLY WANT TALENTED STUDENTS REGARDLESS OF NATIONALITY,'' SAYS HIDEAKI AKAMATSU, PROFESSOR OF ENGINEERING AT KYOTO UNIVERSITY.

''EVEN STUDENTS FROM EASTERN EUROPE STUDYING HERE ARE ASKED BY SOME COMPANIES NOT TO RETURN HOME. IT GOES WITHOUT SAYING THAT THEY WELCOME KOREAN STUDENTS LIVING IN JAPAN,'' AKAMATSU SAYS.

BUT TOUGH TIMES REMAIN FOR MANY KOREAN STUDENTS LIVING IN JAPAN, PARTICULARLY THOSE STUDYING LIBERAL ARTS, BECAUSE MANY JAPANESE COMPANIES REMAIN CAUTIOUS ABOUT TAKING KOREANS AS SALES STAFF.

''THERE ARE STILL MANY COMPANIES WHICH DO NOT WANT KOREANS LIVING IN JAPAN. I CAN'T FIND OPPORTUNITIES FOR GOING THROUGH MERIT-ORIENTED INTERVIEWS WITHOUT VISITING MANY, MANY COMPANIES,'' SAYS ONE KOREAN STUDENT WHO VISITED MORE THAN 20 COMPANIES IN SEARCH OF A JOB.

A SENIOR OFFICIAL AT ONE MAJOR MANUFACTURING COMPANY PROVIDES THE MAJOR REASON FOR SUCH CAUTION. ''PERSONNEL STAFF VAGUELY ARE AFRAID THAT NON-JAPANESE EMPLOYEES MIGHT DISTURB THE 'HARMONY' AMONG EMPLOYEES WORKING AS MEMBERS OF AN ORGANIZATION,'' HE SAYS.

THE ISSUE IS DEEP ROOTED IN WIDESPREAD DISCRIMINATION AGAINST KOREANS HERE MANY OF WHOM WERE FIRST BROUGHT TO JAPAN AS FORCED LABORERS DURING WORLD WAR II, DESPITE LEGAL GUARANTEES AND FULL FLUENCY IN THE JAPANESE LANGUAGE.

A 22-YEAR-OLD KOREAN STUDENT AT ONE PRIVATE UNIVERSITY IN KYOTO TELLS OF JUST THE TIP OF SUCH DISCRIMINATION STILL EXISTING IN THE JAPANESE COMMUNITY, CITING ADVICE FROM A JAPANESE GRADUATE FROM HIS UNIVERSITY NOW WORKING FOR A MAJOR COMMERCIAL BANK.

''OUR BANK DOESN'T HAVE RACIAL DISCRIMINATION BASED ON NATIONALITY. BUT IF YOU GO OUTSIDE, YOU WILL HAVE TO DO BUSINESS WITH JAPANESE WITH FEELINGS OF DISCRIMINATION (AGAINST KOREANS). EVEN IF YOU FAIL TO GET ALONG WELL WITH SUCH CUSTOMERS, THERE WOULD BE NO EXCUSE FOR YOU TO EXPLAIN YOUR FAILURE,'' THE KOREAN STUDENT QUOTES THE GRADUATE AS SAYING.

''OLDER KOREANS THAN YOU ARE MAKING TWICE AS MANY EFFORTS,'' THE GRADUATE WAS QUOTED AS TELLING THE KOREAN STUDENT.

THOUGH DIFFICULT CONDITIONS SURROUND KOREAN RESIDENTS WORKING AT JAPANESE FIRMS, SOME KOREANS SAY SUCH DIFFICULTIES WILL EASE WITH TIME.

''OLDER-GENERATION JAPANESE WITH DISCRIMINATIVE FEELINGS AGAINST KOREANS WILL LEAVE COMPANIES IN THE FUTURE. AND IF THE NUMBER OF KOREANS WORK FOR MY COMPANY, THE OFFICE ATMOSPHERE WILL BE BETTER FOR US,'' ONE 25-YEAR-OLD KOREAN WORKING FOR A MAJOR PREFABRICATED HOUSE MAKER SAYS.

AT PRESENT, THERE ARE SOME 677,000 KOREANS LIVING IN JAPAN, MAKING UP ABOUT 70 PERCENT OF THE FOREIGN POPULATION AND THUS THE NATION'S LARGEST MINORITY GROUP.

#90227k0072 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - A RECORD 590 BILLION YEN IN TAX WAS EVADED ON 9,300 LAND DEALS IN THE METROPOLITAN AREA IN THE YEAR TO JUNE, TAX AUTHORITIES REPORTED WEDNESDAY.

THE TAX EVASIONS WERE FOUND OUT THROUGH TAX AUDIT ON 11,200 TAX RETURNS INVOLVING LAND TRANSACTIONS IN THE TOKYO, KANAGAWA, CHIBA AND YAMANASHI PREFECTURES, THE TOKYO REGIONAL TAX ADMINISTRATION OFFICE SAID.

AS ONE OF THE WORST TAX EVADERS, THE OFFICE CITED A TOKYO COMPANY OPERATOR WHO ALLEGEDLY CONCEALED A 900 MILLION YEN KICKBACK FROM A REAL ESTATE FIRM WHILE DECLARING 500 MILLION YEN IN INCOME FROM THE SALE OF A PIECE OF WOODED LAND.

THE MAN WAS LEVIED A TOTAL OF 330 MILLION YEN IN ADDITIONAL AND PUNITIVE TAXES, THE AUTHORITIES SAID.

#90227k0086 08/15/1990 ~Japanese News Agency

TOKYO (AUG. 15) KYODO - THREE PROJECTILES BELIEVED TO HAVE BEEN FIRED BY RADICAL LEFTISTS WERE FOUND ON THE ROOFTOP OF THE HEADQUARTERS OF JAPAN BROADCASTING CORP. (NHK) IN TOKYO AND A NEARBY PARKING LOT, POLICE SAID WEDNESDAY.

POLICE ALSO FOUND WHAT APPEARED TO BE A HOMEMADE MORTAR LAUNCHER ON A NEARBY CONSTRUCTION SITE WHERE THE YOYOGI PARK GYMNASIUM IS BEING RENOVATED.

THERE WERE NO REPORTS OF CASUALTIES AND NO DAMAGE WAS CAUSED TO THE BUILDING.

PUBLIC SECURITY OFFICIALS SUSPECT THE PROJECTILES WERE TARGETED AGAINST THE PUBLIC TELEVISION NETWORK IN SHIBUYA IN PROTEST AGAINST WHAT THE LEFTISTS REGARD AS ITS BIASED REPORTS IN SUPPORT OF THE IMPERIAL FAMILY.

THE PROJECTILES RESEMBLED THOSE FIRED TOWARD THE TOKYO RESIDENCE OF PRINCE HITACHI, YOUNGER BROTHER OF EMPEROR AKIHITO, ON JANUARY 8. CHUKAKU-HA, A RADICAL LEFTIST GROUP, LATER CLAIMED RESPONSIBILITY FOR THAT ATTACK.

#90227m0001 08/15/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (AUG. 15) MCS - A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

IN THE NEWS:

The dollar continues to slide, reaching a postwar low against the mark. ... The Nikkei takes off, rising 1439.59 or 5% for its third largest gain. ... In London, U.S. stocks are trading higher and gold drops back to the $401 level. ... TEXACO says it has signed a preliminary agreement with the SOVIET UNION that could lead to the company's development and production of Soviet oil reserves. ... CHRYSLER Chairman LEE IACOCCA confirmed the automaker has talked with RENAULT, VOLVO and FIAT, but says he does not expect a full merger.

WHAT'S AHEAD:

The FEDERAL RESERVE releases industrial production and capacity utilization for July at 9:15 a.m. EDT. ... The COMMERCE DEPARTMENT is scheduled to release June business inventories at 10:00 a.m. EDT. ... The SEC considers various proposals, including to extend a rule exemption to foreign banks, foreign insurance companies and their subsidiaries issuing equity securities. ... KING HUSSEIN of Jordan arrived in Washington early this morning for talks tomorrow with PRESIDENT BUSH on the Mideast crisis.

FROM THE BULLS:

PASADENA GROWTH FUND's ROGER ENGEMANN is fully invested and says that this market is providing "a heck of an opportunity" for the investor. "Pretty soon people will get bored with the blockade, because it's like watching grass grow. They'll start concentrating on other things, and one of the things they'll look at are growth stocks." (WSJ, 8/15)

FROM THE BEARS:

"Market smashes are more frequently a bull market phenomenon than a bear

market event," writes STEPHEN TODD in the "Todd Market Timer." Says Todd, "Bear markets ... come like a thief in the night." Still, Todd is looking for some further price declines and does not yet see evidence of a bottom. "The market is so very oversold, it is doubtful any initial rally will be a lasting one." (CNBC "World Business", 8/15)

STOCK MARKET:

Despite the market holding its own yesterday, LARRY GREEENWALD, a block trader at SANFORD C. BERNSTEIN & CO., says, "It's a little bit early to get excited." The market's sluggish pace "indicates that people are waiting to see what the next move is going to be." (WSJ, 8/15)

"It's going to take some kind of news from the Middle East to make the market rally decisively or drop the 'other shoe,'" says DAN MURPHY of C.J. LAWRENCE. ("The Washington Post", 8/15)

"There's just a lot of waiting and seeing going on here," says ROBERT S. ROBBINS, a market strategist and technical analyst at ROBINSON- HUMPHREY CO. in Atlanta. Mr. Robbins says the market is going through "a smoke clearing" following Iraq's occupation of Kuwait. "We've got more inflation and we've got the threat of a mild recession." He adds, "We could get a bounce all the way up to 2850 on the Dow." (WSJ, 8/15)

"The success in changing near-term direction [in the stock market] will depend on near-term movement in bonds and any positive development coming from the Middle East," says PETER GRENNAN, a senior vice president at SHEARSON LEHMAN BROTHERS. "Presently the market is interested in the immediate future, not the immediate past." As a result Mr. Grennan says, "Economic statistics have less of an influence, but if today's figures are way off street expectations, it could bring the market's attention back to the economy and away from the Middle East." (NYT, 8/15)

"When you have a shock like Iraq's invasion of Kuwait and a big jump in oil prices, people tend to do nothing and go into a foxhole," says JOHN KNAPP, chairman of SECURITIES COUNSELORS OF IOWA in Cedar Rapids. "I think the market's recent sell-off was overdone, and I look for the market to rally, especially if the Mideast tensions abate." That, however, does not mean that Mr. Knapp is bullish since he is holding an above-average cash level in his accounts. "We haven't been optimistic because we felt the blue chips were overextended, while the broad market has been bleak all year. Also, we think it will be difficult for the Federal Reserve to ease because of weakness in the dollar and a rise in foreign interest rates." ("Investor's Daily", 8/15)

"I think the financial markets are going to remain somewhat paralyzed with no clear direction until we see some resolution to what is going on in the Middle East and that doesn't seem likely any time soon," say RICHARD

BERNER, economist at SALOMON BROTHERS. "I think there is an enormous about of risk premium built into the market right now." (FNN "Marketwrap", 8/14)

STOCK TIPS:

SCHERING-PLOUGH is the favorite drug stock of ANDREW ADDISON, publisher of the "Addison Report." This should be the fifth straight year of earnings growth for the drug maker, and the stock has been under strong volume accumulation despite the weak market. Addison says the stock has an upside potential of 25% compared to a downside risk of 10%. UNUM, an insurance holding company, has had explosive earnings growth. The Oppenheimer and Templeton funds own a combined 16% stake in the company, and there has been heavy insider buying. Addison projects the stock into the low 70s. (FNN "World Business Update", 8/15)

STEPHENS INC. recommends stock in HANCOCK FABRICS INC. of Tupelo, Miss. The retailer and wholesaler of fabrics and sewing products has 415 stores in 30 states. The brokerage says earnings should grow 16% to $30 million in the year ending January 1991. Stephens notes that the company has a record of thriving during recessions. ("USA Today", 8/15)

The Mideast crisis demonstrates that the Soviet Union is not the only threat facing the United States, says LOU EHRENKRANTZ of REICH & CO., who looks for defense stocks to be attractive investments this fall whether there is a "shooting war or not." His favorite defense sector is electronic warfare: "Even in the worst days for the defense industry, nobody ever suggested we scrap our radar program -- it really is the cheapest form of protection." Ehrenkrantz likes RAYTHEON which is selling at a three year low and also has a strong consumer electronics business. He would avoid big ticket defense contractors like McDONNELL DOUGLAS CORP. (FNN "Business Tonight", 8/14)

RAYTHEON is recommended by RICHARD EVANS of "Dow Theory Forecasts," who believes the stock will benefit from turmoil in the Mideast. KODAK remains a worthwhile turnaround selection, says Evans who also likes DISNEY at current prices. On the overall market, Evans says: "The primary trend of the market, under the Dow theory, remains bullish ... The loss of (DJIA) points falls within the parameters of a normal correction." (CNBC "World Business", 8/15)

Even before their latest run-up, JOHN CHARLES POTVIN, senior precious metals analyst at BURNS FRY LTD., liked gold stocks. At today's prices, Mr. Potvin still recommends ECHO BAY MINES LTD., AMERICAN BARRICK RESOURCES CORP. and PLACER DOME INC. long-term, but he classes HOMESTAKE MINING CO. and LAC MINERALS LTD. as "expensive." (WSJ, 8/15)

JOHN KNAPP, chairman of SECURITIES COUNSELORS OF IOWA, likes natural-resource stocks such as PHELPS DODGE CORP., ALUMINUM CO. OF AMERICA, CYPRUS MINERALS INC., HOMESTAKE MINING CO. and BATTLE MOUNTAIN GOLD CO. ("Investor's Daily", 8/15)

At 13, CHRYSLER is selling at a six year low. DAVID HEALY, auto analyst for BARCLAYS de ZOETE WEDD would buy the stock. "The stock is speculative they have problems. But it's not the kind of problem they had several years ago." While Healy looks for sales and earning to recover next year, he adds, "The stock will not be a comfortable one to own." Rumors of a merger with an overseas car maker are not likely to be realized, according to Healy. (CNN "Business Morning", 8/15)

ARNOLD KAUFMAN, editor of STANDARD & POOR's "Outlook" newsletter, says S&P analysts are recommending stocks with strong overseas revenues including BOEING, KIMBERLY-CLARK, MERCK, PHILIP MORRIS, TERADYNE and TRW. ("USA Today", 8/15)

Interest-sensitive life insurance stocks have taken a beating recently, but TRANSAMERICA CORP. is one stock that was "hit more than is should have been," says DAVID SEIFER, an insurance analyst at DONALDSON, LUFKIN & JENRETTE SECURITIES CORP. CAPITAL HOLDING CORP. and TORCHMARK CORP. also look like good buys now, in his view. (WSJ, 8/15)

"Our long-standing theme has been that the weak [airline] carriers would be getting weaker and the strong stronger in the 1990s," says analyst MICHAEL DERCHIN of COUNTRY NATWEST. He is among the analysts who see AMR and DELTA as good investments for buyers willing to hold stock for a year or two. Other analysts like ALASKA, AMERICA WEST and SOUTHWEST. But MARK DAUGHERTY of DEAN WITTER REYNOLDS thinks it is "a pretty difficult environment for everybody to deal with -- from the strongest to the weakest" and does not recommend buying any airline stocks now. ("USA Today", 8/15)

RICHARD GORDON, senior director of PETROLEUM FINANCE CO., a Washington-based oil and gas consultants firm, would be a long-term player in oils at this point through smaller independent oil companies such as ADOBE RESOURCES CORP. and NOBLE AFFILIATES INC., which have been "overlooked so far in the rush to big-name companies.." He also suggests taking profits now in the "so-called quality integrated companies" that have been among the market's favorites. (WSJ, 8/15)

#90227m0002 08/15/1990 ~Market Consensus Surveys

FALLS CHURCH, VA (AUG. 15) MCS -- A SAMPLING OF TODAY'S COMMENTARY COMPILED BY MARKET CONSENSUS SURVEYS, INC. IN TWO SECTIONS (1) STOCKS (2) MONEY & ECONOMY.

MONEY & CREDIT:

Explaining the dollar's slump yesterday, JERRY EGAN, chief currency dealer for the BANK OF BOSTON, says "There was a blunt realization that there is almost no reason to buy the dollar." ("Investor's Daily", 8/15)

"There are a lot of factors adding up to a weak dollar," says WALTER SIMON of JULIUS BAER & CO. "The only thing supporting the dollar is strong stocks. ... The flight to quality effect [for the dollar] is no longer there." Simon continues, "If the [CPI] numbers are weaker than expected, the dollar will probably move lower. If they are stronger, they will not have much effect." (Reuters, 8/14)

"The dollar has so many problems now that there is so much concern about the U.S. economy with the deficits, the S&L crisis and the general state of the economy," says BILL O'NEILL of MERRILL LYNCH. "The dollar is not that attractive to foreigners." (FNN "Marketwrap", 8/14)

"The dollar traditionally used to be the safe haven; now it's not a safe haven because the world is getting wary that Congress cannot and will not address the budget problem," says IAN McDONALD, manager of precious metals for CREDIT SUISSE. "I would say the dollar is going to remain under pressure, particularly with the low interest rates here compared with the rest of the world." (CNBC "Market Wrap-Up", 8/14)

"On balance, we still think the dollar is likely to drift lower, falling 3% to 5% by year's end and another 5% in the first half of 1991," says ARNOLD KAUFMAN, editor of STANDARD & POOR's "Outlook" newsletter. ("USA Today", 8/15)

"The currency market is reasserting the direction that was in place" before the Iraqi invasion of Kuwait, says JEFFREY MONDSCHEIN, a managing director at CONTINENTAL BANK. This means a return to the downward trend in the dollar. (WSJ, 8/15)

"As the FOMC [meeting] nears, people will start talking again about a Fed easing," says MICHAEL STRAUSS, money market economist at UBS SECURITIES INC. (Reuters, 8/14)

"Relaxation of tension in the Middle East would see bonds improve," says MICHAEL MOORE, a manager at CONTINENTAL BANK. "A good deal of investor money is parked on the sidelines." ROBERT DICLEMENTE, director of bond market research at SALOMON BROTHERS, agrees, "As long as this [Middle East] crisis hangs in the balance, we're basically held up on the

sidelines. I don't think there's a direction" to the bond market. (Reuters, 8/14)

PRESIDENT BUSH's remarks about the federal budget "were somewhat positive for the [bond] market," says LAWRENCE LEUZZI, a managing director at S.G. WARBURG & COMPANY. "Given everything that has happened in the Middle East and its likely impact on the economy, he could have used this opportunity to backslide on what was needed and to reset the budget negotiations in a framework where smaller cuts would be sought." (NYT, 8/15)

THE ECONOMY:

"I do think the budget process is a problem," says ROBERT GAY, senior economist at MORGAN STANLEY. "I think we need a [federal deficit reduction] package this year." Mr. Gay does not believe that the economy is in a recession. "I think we are looking at a picture where the consumer is still spending, but is very, very cautious." (FNN "Marketwrap" 8/14)

"There is, of course and we all feel it, a certain nervousness in the economy; a certain nervousness related to the political situation in the Mideast," says BRUCE JOHNSON of COOPERS & LYBRAND. "And anytime that there are nervous feelings we've noticed over the years that people cut back on there spending." (FNN "Evening News", 8/14)

"The recent rise in oil prices threatens to keep retail sales growth down in coming months," says RICHARD RAHN, chief economist at the U.S. CHAMBER OF COMMERCE. "Consumers will spend more on petroleum products, leaving them with less money to spend on other products." Mr. Rahn adds, "When adjusted for inflation, consumer spending will continue to fall for the rest of the 1990." (WSJ, 8/15)

"I'm relatively pessimistic," says AUBREY ZAFFUTO, an economist at IBJ SCHROEDER BANK & TRUST CO. in New York. The latest retail sales report, she says, "is consistent with a consumer probably overburdened with debt, hoping interest rates were going to go down" but haven't, and who "now will be pinched further by rising oil prices." (WSJ, 8/15)

Early August auto sales were down with FORD announcing a 21% decline from last years pace, GENERAL MOTORS posting a 22% decline and CHRYSLER off 38.6%. "People are going to attribute this slowness in the auto market to the Middle East situation," says MARRYANN KELLER of FURMAN SELZ. "The reality is that this economy was going in the tank before" the crisis began. (FNN "Marketwrap", 8/14)

Early August car and truck sales for U.S. companies plunged 21.5% from the same month last year. That translates to 6.5 million units in annual sales. "If the month of August as a whole stays at a 6.5 million rate,

you can really conclude the Middle East thing has messed up car sales," says DAVID HEALY of BARCLAYS de ZOETE WEDD. ("USA Today", 8/15)

"I don't think people are going to stop buying cars because of high fuel prices," says CHRYSLER CORP. chairman LEE IACOCCA. "I think they are going to worry about their jobs and the uncertainty [over] a recession that this Iraq situation may bring upon us." (WSJ, 8/15)

"The farm economy has been its most robust in close to a decade," says NEIL HARL, an agricultural economist at IOWA STATE UNIVERSITY. "Since Iraq we can look ahead to it being less robust." (WSJ, 8/15)

"The [oil] prices are rolling back because there's a rumor on the street that JORDAN's KING HUSSEIN is carrying a special letter [from IRAQI PRESIDENT SADDAM HUSSEIN] to GEORGE BUSH," says JOSEPH ANCONA of DANIELS & BELL. SMITH BARNEY analyst GEORGE SPEICHER says, "The situation is so unpredictable. As long as you have some tension, [oil] isn't going to go below $25" a barrel. ("USA Today", 8/15)

IN WASHINGTON:

"We're not going to have a [budget] sequester of $100 billion," says BILL WOLMAN, chief economist of "BusinessWeek" and "CNBC." "I would bet anything we are not going to get a sequester that lasts for a meaningful amount of time, particularly not in these gigantic

numbers. My instinct is they are going to call off Gramm-Rudman." (CNBC "Market Wrap-Up", 8/14)

#90227p5491 08/15/1990 ~PR Newswire

LOS ANGELES (AUG. 15) PR NEWSWIRE - IDB Communications Group Inc. (NASDAQ: IDBX) today announced second quarter results for the period ended June 30, 1990.

Revenue for the three months ended June 30, 1990 increased 48 percent to $21,791,000 from the $14,696,000 in 1989, while revenue for the six months ended June 30 increased 46 percent to $40,572,000 from $27,826,000 in 1989. The net loss for the second quarter was $640,000, or 10 cents per share, versus net income of $480,000, or 10 cents per share, for the same period in 1989. For the first half of 1990, the net loss was $591,000 or 10 cents per share, versus net income of $845,000, or 17 cents per share, in 1989. Operating cash flow for the first half of 1990, (earnings from operations before depreciation and amortization), increased 15 percent to $9,541,000. Average shares outstanding for the period increased to 6,292,000 as compared to 4,972,000 in 1989.

IDB Communications is actively providing communications services supporting events in the Middle East. The company anticipates a continuing sales shortfall as these revenues commenced well into the third quarter. The sales shortfall, combined with increased amortization and depreciation levels, should result in a net loss for the year.

The strategy of increasing amortization and depreciation increases IDB's cash flow, reduces the income tax level to 39 percent versus 47 percent in 1989, and strengthens the company's balance sheet -- although it reduced net income by approximately $236,000 or 4 cents per share, during the second quarter, and $504,000, or 9 cents per share, for the first half of 1990.

"The company is actively working to bolster its broadcast services sales initiatives, including increasing the size of the sales force. Our continued strong cash flows and the recession resistant nature of our business should allow us the time necessary to increase revenues and control expenses while continuing to build for the future," Cheramy concluded.

IDB Communications Group Inc. is a leading supplier of transmission and distribution services for domestic and international radio, television and data/voice communications via satellite and fiber optics.

#90227p5501 08/15/1990 ~PR Newswire

BOSTON (AUG. 15) PR NEWSWIRE - Software Products International (SPI) today announced front-end support for Microsoft's SQL Server database server. SPI's Access SQL is a Windows-based relational database management system (RDBMS) front-end designed to support leading database servers. The product already supports Gupta Technologies' SQL Base.

The announcement, made jointly with Microsoft at the first annual Windows Conference being held this week at the World Trade Center in Boston, confirmed SPI's plan to provide front-end support to Microsoft's SQL Server in the first quarter of 1991.

Access SQL is the first RDBMS for PCs that provides full Structured Query Language (SQL) capabilities for both novice and technical users.

In making announcement, SPI President and Chief Executive Officer John

Bowne said, "Our decision to support SQL Server demonstrates SPI's commitment to users, providing them a flexible interface that supports all the leading database servers. The combination of Access SQL's ability to run multitasking functions through Windows, and SQL Server's powerful database engine means users now have the leverage to take advantage of today's leading edge client-server technology."

Software Products International, based in San Diego, was founded in 1979 to develop, publish and market business software products for personal computers. The company's flagship product, Open Access, is the best-selling multi-function package in Europe. The company is privately held, with product revenues exceeding $18 million for fiscal 1989. The company maintains subsidiaries or master distributors in West Germany, Spain, the United Kingdom, France, Sweden, Brazil, Italy, Argentina, Canada, Australia and the USSR. Internationally, SPI's products are sold through dealers, distributors and national accounts. In the United States, products are sold through a national network of computer resellers and distributors.

#90227p5502 08/15/1990 ~PR Newswire

SAN BRUNO, CALIF. (AUG. 15) PR NEWSWIRE - North Lily Mining Co. (NASDAQ: NLMC) today announced the intent of the company's three Canadian subsidiaries to consolidate. The surviving entity from the consolidation will be International Mahogany Corp.

One common share of each Goldsil Resources Ltd. and Magellan Resources Corp. are to be exchanged for 0.22 class B shares of International Mahogany Corp. Upon completion of the consolidation North Lily will retain control of International Mahogany Corp.

Management views this reorganization as a natural progression which will be beneficial to the future development of the group. The proposed consolidation will greatly simplify the otherwise complex share ownership structure of the company. In addition, it will enable management to focus its attention on only one Canadian subsidiary which will lead to a decrease in administrative costs while streamlining operating activities.

The merger is subject to final approval by independent committees of each of the boards of directors, receipt of the final fairness opinion from Goepel, Shields & Partners Inc. and appropriate regulatory approval. It is anticipated that the merger proposal will be submitted to shareholders for their approval in October.

North Lily Mining Co. is a gold mining company with offices in the United States, Canada and Chile. Established in 1916, North Lily controls a vast property portfolio including two properties which jointly produce 75,000 ounces of gold per annum at an average combined operating cost of $170 per ounce. The company has $66 million in assets, over $9 million in working capital and no long term debt.

ATLANTA (AUG. 15) PR NEWSWIRE - Cannell Communications L.P. today finalized the acquisition of television station WUAB, Lorain/Cleveland from Gaylord Broadcasting Company of Ohio, it was announced by William A. Schwartz, president and chief executive officer of Cannell Communications. The station is the leading independent in the Cleveland market, which ranks 11th in the nation in terms of television households.

"The opportunity to become reassociated with WUAB over the past several months has made me even more enthusiastic about the station and the market " said Schwartz, who was an integral part of the station's management team from its inception in September, 1968 through 1973, serving as WUAB's general manager during most of that period.

"I am looking forward to working with Bill Scaffide (WUAB's current general manager) and his excellent management team that has been developed over many years of successful operation," Schwartz added.

Headquartered in Atlanta, Cannell Communications was formed in March 1990 as the broadcasting affiliate of The Cannell Studios in partnership with Schwartz and Saratoga Partners II L.P., an investment fund managed by Dillon, Read & Co. Inc. Dillon, Read & Co. Inc. also acted as a financial advisor to the company in the transaction. The purchase of WUAB represents the company's first of several planned acquisitions. Most recently, the company also announced plans to acquire WHNS, a Fox affiliate which serves the tri-city market of Greenville, S.C., Spartanburg, S.C. and Asheville, N.C.

The Cannell Studios was founded in 1986 by Stephen J. Cannell, who serves as chairman of the board and chief executive officer. It was formed as the parent company for all Cannell owned/operated entities including Stephen J. Cannell Productions Inc., a leading independent producer of primetime television programming; Cannell Films of Canada Ltd., a Vancouver, British Columbia-based production company; North Shore Studios, the largest film and television studio in Canada; Image Point Productions, which principally produces commercials for the national advertising market

and Cannell Distribution, a television programming distribution company.

#90227p5505 08/15/1990 ~PR Newswire

STATE COLLEGE, PA (AUG. 15) PR NEWSWIRE - C-COR Electronics Inc. (NASDAQ-NMS: CCBL) announced its financial results for the year ended June 30, 1990, and for the fourth quarter of 1990.

Both year-end revenues and year-end and quarterly income and earnings were at record levels. For the year, C-COR reported net income of $5,520,000 on sales of $60,279,000. This compares to income from continuing operations for fiscal 1989 of $5,195,000 on sales of $53,755,000. Earnings per share for fiscal 1990 were $1.27. This compares to earnings per share for fiscal 1989 of $1.21.

During the fourth quarter, C-COR recorded net income of $1,939,000 on sales of $15,675,000. This compares to income of $1,621,000 on sales of $14,384,000 for the fourth quarter of fiscal 1989. Earnings per share for the fourth quarter of fiscal 1990 were $.45. This compares to earnings per share for the fourth quarter of fiscal 1989 of $.37. Net income and earnings per share for the fourth quarter of 1990 were at an all-time high.

C-COR Chairman, President, and CEO Richard E. Perry stated, "In spite of the threat of reregulation, C-COR finished FY 1990 with a record third quarter, which was surpassed by our best-ever earnings for the fourth quarter. For FY 1991, we are projecting revenues comparable to those of FY 1990. Once the reregulation issue is settled, we are expecting strong growth in the industry, both domestically and internationally. As was stated in the latest Paul Kagan report, 'The sluggishness in cable TV system development may soon give way to a new growth spurt that could dwarf the mini-boom of the past three years.' Kagan attributes this expected growth to the recent technical advances made in AM fiber and in extended bandwidth products, both very strong products for C-COR.

"We have reason to have a positive outlook for C-COR's FY 1991. Analysts and industry insiders are predicting that Congress will settle on a bill that will represent a good compromise for the cable industry and, according to an article in the Aug. 1 issue of Cable TV Business, there is a forecast of healthy growth and easing of credit to cable system operators. C-COR has been working extremely hard to institute efficiencies and cost-cutting measures during this period of uncertainty. These measures have prepared us well for fiscal 1991 and beyond.

"Over the past several years, C-COR has worked hard to strengthen its fundamentals, positioning itself for solid growth. Evidence of this fact is reflected in the Aug. 7 issue of Financial World in which the publication ranked C-COR number 12 on their list of 500 top growth companies, recognizing the company for its low debt and very strong balance sheet."

C-COR, founded over 35 years ago, designs and manufactures high quality electronic equipment used in cable television and data communication systems. C-COR's headquarters is in State College, Pa., with production facilities in Altoona and State College, Pa. C-COR Electronics Canada, Inc., a subsidiary of C-COR Electronics, Inc. is located in Ontario, Canada, and C-COR Europe B.V., C-COR's European marketing arm, is located in The Netherlands. C-COR's Common Stock is listed in the NASDAQ National Market System under the symbol CCBL.

#90227p5510 08/15/1990 ~PR Newswire

CLARKSBURG, W.VA. (AUG. 15) PR NEWSWIRE - Alamco Inc. (AMEX: AXO) today announced net income for the second quarter 1990 of $1,372,000, or $.53 per share, after taking into account an extraordinary gain of $1,332,000 or $.51 per share resulting from a $1,395,000 gain due to extinguishment of debt.

This compares to second quarter 1989 net income of $436,000, or $.17 per share. For the first six months of 1990, net income was $2,340,000, or $.91 per share as compared to net income of $1,064,000, or $.41 per share for the first half of 1989.

Income before extraordinary items for the second quarter of 1990 was $40,000, or $.02 per share compared to $242,000 or $.09 per share in 1989.

A loss of $102,000 from operations in the second quarter of 1990 was more than offset by nonoperating income due to an increase in interest income because of higher 1990 cash balances.

In the second quarter of 1990 revenues were $2,105,000, down 22 percent or $583,000 from second quarter 1989 revenues. The revenue decline was primarily attributable to the lower gas prices received by the company under its November 1989 contract reformation agreement with its principal utility customer. Also, gas production volumes were down primarily because the company's principal utility customer unilaterally shut in gas from approximately 400 company operated wells. This shut-in began on or around June 20, 1990, and ended on Aug. 1, 1990, and resulted in a revenue decrease estimated to be $80,000 for the second quarter.

Expenses for the second quarter totaled $2,207,000 and were $133,000 or 6 percent lower than second quarter 1989 expenses of $2,340,000 primarily because of management's success in collecting certain accounts receivable which were written off in prior periods.

Six months 1990 revenues of $4,491,000 were down 17 percent or $924,000 from six months 1989 revenues of $5,415,000. Revenues were down principally for the same reasons as the revenue decline in the second quarter.

Alamco, headquartered in Clarksburg, W.Va., is an independent producer of gas and oil in the Appalachian Basin with a major operating concentration in West Virginia gas fields.

DAYTON, OHIO (AUG. 15) PR NEWSWIRE - Jack C. Goldfrank, the president of Mead Imaging, announced today that the division is reducing its workforce by 151 employees. This action is in response to the previously reported slow development of the overall market for color copiers, and comes as a result of a thorough study of the Mead Imaging business.

Goldfrank said that both the size and the structure of Mead Imaging are being adjusted to reflect the updated assessment of market growth rates. "We still believe the Cycolor technology has great potential, but it's important that we adjust the level of our investment to reflect the rate at which the color copier market is developing. It's now clear that the market is growing at a slower rate than we and others in our industry had originally anticipated," Goldfrank commented.

Goldfrank indicated that the reductions will be effective immediately, and that the company has initiated a comprehensive program to minimize the impact on affected employees. "We are genuinely concerned for our employees and their families. We are providing financial assistance including full pay and benefits for 60 days, followed by a severance package and vesting in Mead's retirement plan. We will also provide outplacement assistance to help our employees find new positions as soon as possible," Goldfrank said.

And, Goldfrank added, "Mead Imaging employees are highly-trained and skilled workers with deep technical knowledge and an understanding of the latest quality techniques. I consider them very employable. We'll do everything possible to help them find suitable career opportunities."

Today's action reduces the workforce of Mead Imaging by 43 percent. The division has consolidated three separate organizations within the division into a single management structure.

Steven C. Mason, president and chief operating officer of the Mead Corporation (NYSE: MEA), said these changes at Mead Imaging do not alter the company's confidence in Cycolor and its commitment to its hardware partners. "We plan to continue the aggressive development of our products and the market for color imaging," Mason said.

Mead Imaging, a division of the Mead Corporation, develops and manufactures Cycolor imaging products, which are presently sold with color copiers offered by Brother Industries, Gestetner Corporation and the Seiko Mead Company, as well as 35mm slide printers sold by Noritsu America Corporation and Seiko Mead.

ROCHESTER, N.Y. (AUG. 15) PR NEWSWIRE - J.A.M. Inc. (NASDAQ: JAMY), a Rochester based training and information services company, has announced its unaudited operating results for the second quarter of 1990. Net earnings for the second quarter were $2,378 as compared to a net loss of $107,511 for the corresponding quarter in 1989. Sales for the second quarter of 1990 totaled $640,599, an increase of $77,087, or 14 percent, over sales of $563,512 for the corresponding quarter a year ago. Net earnings for the first six months of 1990 amounted to $3,214 as compared to a net loss of $326,449 for the same six-month period of 1989. Sales for the first six months of 1990 totaled $1,133,850, an increase of $218,200, or 24 percent, over sales of $915,650 for the same 1989 period.

Company performance continued to improve in the second quarter of 1990 due to the 14 percent increase in revenues and lower operating expenses. The company began to reduce operating and marketing expenses in the fourth quarter of 1989 to realign expenses with anticipated 1990 revenues.

JAM designs and produces a diverse range of training and information services for business, government and educational clients. These services include instructional design and training program development, software design and programming for computer based training (CBT) and interactive simulations, and video production and post production. The company also integrates and markets hardware systems for turnkey interactive CBT and videodisc instructional delivery.

Corporate offices and video studios are located at 300 Main St., East Rochester, NY.

NEW YORK (AUG. 15) PR NEWSWIRE - Accor S.A. today announced that as of midnight, New York City Time, on Tuesday, Aug. 14, 1990, it had preliminarily determined that approximately 53,221,369 depositary units of Motel 6, L.P. (NYSE: SIX) had been validly tendered (and not withdrawn) pursuant to the tender offer made by IBL Acquisition, L.P., a limited partnership consisting of wholly owned subsidiaries of Accor S.A. The tender offer, which was for all outstanding common limited partnership interests of Motel 6, L.P., expired at that time.

IBL Acquisition has accepted and paid for all of the depositary units validly tendered prior to the expiration of the tender offer. These units constitute in excess of 99 percent of the 53,454,733 outstanding common limited partnership interests of Motel 6, L.P. on a fully diluted basis.

The tender offer was made pursuant to an acquisition agreement dated as of July 12, 1990, among Accor S.A., IBL Acquisition, L.P. and Motel 6, L.P. The acquisition agreement provides, among other things, that after the completion of the tender offer, and subject to the terms and conditions of the acquisition agreement, an depositary units not acquired in the tender offer will be redeemed or acquired in a subsequent merger for $22.50 per unit in cash.

HOUSTON (AUG. 15) PR NEWSWIRE - Bill Murto co-founder and former vice president of sales, marketing and service for Compaq Computer Corporation (NYSE: CPQ), was named to the board of directors of NeuroGenesis Incorporated. The announcement was made today by Al Beiser, NeuroGenesis' president and chairman.

At Compaq, Murto was instrumental in putting the marketing and sales teams together that enabled Compaq Computer Corporation to become the first corporation in business history to achieve Fortune 500 status within four years of operations and to achieve over $1 billion sales within the first five years.

"Mr. Murto's addition to the board along with the recent completion of a private placement offering from which over $500,000 was raised will provide NeuroGenesis with the resources and directorship needed to dramatically expand the marketing and sales of our consumer health product line," said Beiser. "I welcome Mr. Murto to the board and look forward to working closely with him."

NeuroGenesis, through its wholly owned subsidiary Matrix Technologies Inc. markets amino acid food supplements for the specific needs of people suffering from addictive and compulsive behaviors, including alcoholism and cocaine addiction. The products are based on the work of Dr. Kenneth Blum, professor of pharmacology at the University of Texas, whose most recent work indicated a potential specific gene link to alcoholism.

Since leaving Compaq, Murto co-founded and is president of C&M Film Productions Inc., a film production company dedicated to the empowerment of the human spirit. He serves as one of the executive producers of a feature film based on the New York Times bestseller "Joshua and the Children."

Prior to his years at Compaq, Murto served in several marketing and managerial capacities at Texas Instruments. He holds an MBA degree from the University of Texas and is owner and chairman or the board of TravelPro, a Texas travel agency.

ALBUQUERQUE, N.M. (AUG. 15) PR NEWSWIRE - Summa Medical Corp. (AMEX: SU) today announced that it has purchased I.C.M.X. of McLean, Va. for restricted stock in a transaction which could total $4.5 million. The agreement calls for the payment of $700,000 in stock at closing. In the event that revenues of I.C.M.X. increase over a three year period from the closing, the purchase price will increase by an agreed upon formula, but in no event will it exceed $4.5 million. John Royall, president of I.C.M.X. estimated that revenues over the next five years could total $100,000,000 with a potential of $15,000,000 over the next immediate calendar year.

I.C.M.X. which will become a wholly owned subsidiary of Summa Medical is engaged in marketing and wholesale distributing of over 200 major brands of computers and computer related products and telecommunications products to commercial and government customers in the U.S. and abroad.

I.C.M.X. products are currently being used by the U.S. Department of Defense and numerous civilian government agencies such as the Departments of Justice, Treasury, and private corporations, such as Computer Dynamics Inc., Datalink Software, Solutions Inc., Lightwave Systems Inc., and Wright and Co.

The acquisition of I.C.M.X. will not affect the agreement between the two companies on HDCD announced on June 22, 1990.

I.C.M.X. will be an effective marketing arm for Summa's subsidiaries in addition to their own product lines in the distribution of display and voice compression products being developed by Summa.

#90227p5523 08/15/1990 ~PR Newswire

REDWOOD CITY, Calif. (AUG. 15) PR NEWSWIRE - Genelabs and Abbott Laboratories (NYSE: ABT) announced today that an agreement has been reached to grant Abbott rights to the production and marketing of Hepatitis E Virus (HEV) immuno diagnostics, based on Genelabs' generation of HEV antigens using their proprietary gene cloning technology.

Under the agreement, Abbott will receive exclusive commercial production and marketing rights worldwide. Genelabs will retain co- marketing rights in certain countries in Asia. The companies will cooperate in the joint development of diagnostic products.

Terms of the Abbott-Genelabs agreement have not been announced but will include cash payments by Abbott during the development phases and subsequent royalties to Genelabs.

"This agreement is an ideal partnership, combining Genelabs' research expertise in virology with Abbott's leadership in diagnostics," said Frank Kung, president and chief executive officer of Genelabs. "It will enable us to get a reliable diagnostic into the marketplace as quickly as possible."

HEV is believed to be responsible for many of the recent major hepatitis epidemics that have occurred worldwide. Before its recent molecular characterization, this form of epidemic hepatitis was called enterically transmitted non-A, non-B hepatitis, due to its transmission primarily

through contaminated drinking water. Outbreaks have been reported mostly in urbanized areas of developing countries but have also occurred in rural areas of developed countries.

Fatality rates associated with HEV infection range from 0-2 percent in most cases, but the virus is particularly serious for pregnant women, who have a case fatality rate of up to 20 percent following HEV infection. An HEV diagnostic test will allow a determination of the true extent of this disease and may help refine the diagnosis of acute viral hepatitis in all settings.

The cloning of HEV was facilitated by collaborative research conducted at the Hepatitis Branch, Centers for Disease Control, Atlanta.

Genelabs Inc. is a privately held company applying biotechnology to the development of new pharmaceutical products, focusing in the areas of virology and inflammation. Founded in 1984, Genelabs has 120 employees and is located in Redwood City.

Abbott Laboratories is a worldwide manufacturer of health care products employing 42,000 people. In 1989, the company had revenues of $5.4 billion and net earnings of $860 million, respectively, with earnings per share of $1.93.

#90227p5525 08/15/1990 ~PR Newswire

DAYTON, OHIO (AUG. 15) PR NEWSWIRE - KRUG International (NASDAQ: KRUG) today announced fiscal 1991 first quarter revenues and net earnings. Revenues for the first quarter ended June 30, 1990 were $25.6 million, up $4.6 million or 22 percent, from $21.0 million recorded in the first quarter last year. Net earnings were $757,000 or $.18 per share for the quarter this year compared to $361,000 or $.09 per share for the same period last year.

The revenue growth for the first quarter reflects increases in all of the corporation's U.S. Aerospace and U.K. Leisure Marine and Housewares businesses. Net earnings increased in the first quarter of fiscal 1991 by approximately $400,000 compared to last year's first quarter. This was due to the increase in revenues, improved gross profit margins in the Aerospace businesses and the favorable effect of currency translation rate differences.

Discussions with the corporation's U.S. banks continue in an effort to finalize a banking agreement which would provide adequate working capital

to meet financing needs of the corporation. Under the provisions of the proposed agreement, the corporation's existing credit lines of $13.6 million would be converted into a two-year, secured, revolving credit facility with greater borrowing capacity than previously available. The company maintains bank credit lines in the U.K. that are adequate to fund the capital needs of the U.K. operations.

KRUG International is composed of Aerospace operations in the United States and Commercial/Consumer operations in the United Kingdom. The U.S. Aerospace operations are engaged in biotechnological research; design, fabricate and maintain automated test equipment, simulation and training systems and design and install local area networks with emphasis on fiber optics. The U.K. Commercial/Consumer Group manufactures housewares and garden products and distributes leisure marine equipment.

KRUG International common shares are traded on the NASDAQ National Market System, symbol KRUG; Wall Street Journal OTC National Market issue, symbol KRUG.

RICHMOND, VA (AUG. 15) PR NEWSWIRE - Richfood Holdings, Inc. (NASDAQ: RCHFA) today announced net earnings for the twelve week period ended July 21, 1990, of $1.87 million, or $.18 per share, compared to net earnings from continuing operations of $128,000, or $.01 per share, in the comparable period ended July 22, 1989. After accounting for discontinued operations in the comparable prior year period the company experienced a $366,000 net loss, ($.04 per share).

Sales for the first quarter were $237.7 million, compared to $246.4 million from continuing operations for the comparable period last fiscal year. The prior year period includes $12.0 million of sales from the previously terminated supply relationship with A&P/Super Fresh.

The company will hold its annual meeting of shareholders on August 30, 1990 at 11:00 A.M. at Crestar Bank, 919 East Main Street, Richmond, Virginia.

Richfood is the largest wholesale food distributor serving its Mid-Atlantic operating region. It supplies approximately 600 supermarkets with a complete line of grocery products, frozen foods, dairy, fresh produce and meat.

#90227p5528 08/15/1990 ~PR Newswire

PRINCETON, NJ (AUG. 15) PR NEWSWIRE - Dataram Corp. (AMEX: DTM) a developer, manufacturer, and marketer of innovative computer memory and peripheral products, achieved considerably improved first quarter fiscal 1991 results in revenues and earnings per share, although net earnings slightly trailed those reported in the year-earlier period.

Revenues for the first quarter ended July 31, 1990, were $6.8 million compared to the $3.8 million reported in the year-earlier period. Net earnings were $377,000 or $.30 per share, vs. $415,000 or $.21 per share, in the prior year first quarter.

Earnings from operations increased to $505,000 vs. $377,000, while other income (principally earnings from cash on hand) decreased to $63,000 from $206,000 for the same period the year before.

Robert V. Tarantino, president and chief executive officer, attributed the substantial sales increase and sustained strong results to Dataram's entry last year into the rapidly expanding computer workstation market. He added that product mix and reduced investment income adversely affected net earnings.

"Although our margins for memory-enhancing products sold to workstation and minicomputer users are satisfactory, they're lower than such specialized products as our Wide Word system," he said. "Wide Word is experiencing softness in a primary market - government defense contracts, and there's no way of telling how long this slackened demand will continue."

Tarantino said the company on Feb. 1, 1990, utilized $7.4 million of its cash on hand to purchase and retire 739,353 shares of common stock. This transaction reduced cash which previously generated considerable investment income. Dataram has $3 million cash on hand and an untapped $10 million line of credit, he emphasized.

"Last year we invested substantially in strengthening our product development, sales and marketing capabilities to successfully enter a promising new market," the chief executive officer stated. "We are now a major presence in the dynamic workstation memory market as significant suppliers to users of workstations produced by Digital Equipment Corp., Hewlett-Packard and Sun Microsystems.

"Because of the considerable expenditures incurred in fiscal 1990, we believe we can continue obtaining a larger share of this burgeoning market utilizing our existing capabilities, without resorting to increased levels of spending."

#90227p5532 08/15/1990 ~PR Newswire

CLEVELAND (AUG. 15) PR NEWSWIRE - Momentum, Inc. (NASDAQ: MMNT) had sales of $22,500,000 and net earnings of $124,800, or one cent a share, for the first half ended June 30, 1990, it was reported today by Edwin M. Roth, chairman and chief executive officer. In the year-ago first half, the company had a loss of $251,800, or two cents a share, on sales of $22,600,000.

"We operated at a profit in this year's first half on sales nearly equal to those of the year-ago first half largely due to improved margins reflecting operating efficiencies and a better product mix," Roth said.

"Sales and earnings for the second quarter were adversely affected by a temporary slowdown in the receipt of imported raw materials which impeded the company's ability to ship product. This situation now has been corrected and order backlog is strong."

Sales of the company's barrier packaged aerosol products, which eliminate the emission of aerosol propellent, are increasing as they gain wider customer acceptance and use, Roth said.

"We are continuing to meet interest and debt amortization obligations incurred in the acquisition of Aerosol Systems, Inc. from cash generated through operations," he added.

Momentum, through its subsidiary Aerosol Systems, Inc., is principally a custom formulator and aerosol packager of lubricants, cleaners, degreasers, and other products for the automotive aftermarket and the industrial maintenance market. The company also owns and operates five Chuck E. Cheese family oriented restaurants in Ohio.

#90227p5536 08/15/1990 ~PR Newswire

FORT WORTH, TX (AUG. 15) PR NEWSWIRE - Snyder Oil Corporation (NYSE: SNY) today announced its results for the quarter ended June 30, 1990. The second quarter was the first period which reflects the benefits of SOCO's March 31, 1990 acquisition of Snyder Oil Partners.

Revenues for the period rose sharply to $21.4 million vs. $6.2 million in the prior year. Operating income in the quarter jumped 180 percent from 1989 levels to $9.4 million. After-tax operating cash flow more than doubled to $6.2 million. Net income and net income per share decreased to $1.1 million ($.05 per share) primarily due to increased depletion, higher interest expense and administrative costs. The per share results also reflected the increased number of shares outstanding following the acquisition.

While the company's results reflect sharp improvements from the 1989 periods, they lag the prior year's pro forma numbers due to lower energy prices and production declines associated with the lack of significant acquisitions in the first half of 1990.

The impact of the recent climb in oil prices, resumption of acquisition activity in the second half, and efficiencies to be realized from the consolidation are expected to contribute significantly beginning in the fourth quarter.

The company also announced further progress in its exploration program. A preliminary agreement has been reached with a major oil company to buy into SOCO's Pawnee project, completing the participant group. The project is designed to exploit a portion of SOCO's extensive acreage position in the Niobrara Chalk of the Denver-Julesberg Basin.

Definitive agreements are expected to be signed within two weeks. Including the Pawnee project, the company plans to participate in up to ten exploratory wells, most of which are horizontal tests, on its acreage in Texas, Colorado and Montana within the next 6-12 months.

SOCO is an independent oil corporation engaged in the acquisition, production, development and exploration of domestic oil and gas properties and in natural gas processing and transportation.

CONTACT: Patti J. Irwin, vice president of Snyder Oil Corporation, (817) 338-4043.

#90227p5538 08/15/1990 ~PR Newswire
BEAVERTON, OR (AUG. 15) PR NEWSWIRE - Epitope Inc. (AMEX: EPT) announced today the appointment of John H. Fitchen, M.D., as Vice President-Research and Clinical Activities.

Fitchen will be responsible for overseeing all Epitope research activities. He will also be responsible for operating the clinical reference laboratory activities of Immunologic Associates (an Epitope division) and will coordinate the upcoming clinical trials of the company's saliva-based AIDS test.

Prior to joining Epitope, Fitchen was Associate Chief of Staff for Research at the Portland Veterans Administration Medical Center and Professor of Medicine at Oregon Health Sciences University.

As co-inventor of Epitope's antimicrobial compounds, he also served as a consultant to the company on its research and development project with SmithKline Beecham and other related activities.

"Dr. Fitchen's knowledge of our emerging technologies, coupled with his experience as a physician and medical researcher are particularly important as we move forward with clinical trials on our saliva-based AIDS test and development of new antimalarial compounds with SmithKline Beecham.

"Furthermore, with Dr. Fitchen in place, I can now devote my full efforts to my new role of CEO," said Dr. Adolph J. Ferro, president and chief executive officer.

Epitope Inc. is an Oregon corporation utilizing biotechnology to develop diagnostic tests for AIDS, therapeutic drugs for protozoan diseases and, through its agricultural unit, Agritope Inc., agronomically superior new plant varieties.

PORTLAND, OR (AUG. 15) PR NEWSWIRE - Bioject Medical Systems Ltd. (NASDAQ: BJCTF) today announced that it has secured commitments from nine unaffiliated institutional investors, based in the United Kingdom, to purchase 1,025,000 shares of common stock at $4 per share.

Each share purchased is accompanied by one-half of a warrant; each warrant

grants the holder the right to purchase an additional share at $5.25 per share for two years. The closing will occur following the effective date of a registration statement to be filed in August by Bioject with the SEC.

Bioject's additional financing coincides with the product launch of its needleless injection system which promises to help eliminate needle-stick injuries and cross-contamination problems associated with the standard needle-syringe.

Bioject Inc. is a Portland-based company specializing in new drug delivery systems. The company develops, manufactures and markets needleless syringes for widespread use in the healthcare industry.

NEW HAVEN, MICH. (AUG. 15) PR NEWSWIRE - Margate Ventures, Inc. (NASDAQ: CGUL) reported financial results for its second quarter ended June 30, 1990.

Net income for the three months was $298,189, or 1.3 cents per share, on sales of about $8 million, compared with net income of $408,749, or 2.0 cents per share, on sales of about $9.9 million for the same period in 1989.

Year-to-date net income was $423,615, or 1.9 cents per share, on sales of about $15.3 million, compared with net income of $117,297, or 0.6 cents per share, on sales of about $18.3 million for the same period last year.

Although 1990 year-to-date sales were lower than the same period for 1989, net income rose because of cost-reduction measures and the closing of West Haven Castings Co.

On July 19, 1990, the company finalized its agreement with Wesley Industry Inc. for the sale of 55 percent of the common stock of New Haven Foundry. In accordance with the agreement, Margate has received $1.5 million cash and an $89,000 six-year Promissory Note. In addition to the proceeds from the sale, Margate is expected to continue improving its cash flow with commissions of at least $150,000 per year from Wesley Industry and by performing cleaning, grinding and testing services for New Haven Foundry under an exclusive, 10-year contract.

Margate Ventures, Inc. is a holding company whose active subsidiaries include Michigan Casting Corporation and Brown City Casting Corp., both finishers of ferrous castings, primarily for the automotive industry. Margate also owns a 45-percent interest in New Haven Foundry. Margate

Ventures' common stock is traded publicly by NASDAQ under the symbol CGUL.

WHEELING, WV (AUG. 15) PR NEWSWIRE - Wheeling-Pittsburgh Steel Corp. (NYSE: QWHX) said today that the tentative labor settlement reached with the United Steelworkers of America (USW) will result in a reduction of distributions under the plan of reorganization with respect to certain classes of claims.

The specific effect on distributions will be reflected in an amended plan which will be filed with the bankruptcy court in the near future.

The spokesman for the company also said that the new common stock and warrants to be issued under the previously filed plan will be increased by an additional 1,500,000 shares of common stock to be issued after confirmation to participants in the company's existing Employee Investment Plan.

The additional shares will result in dilution of new common equity holders' interests beyond that contemplated in the plan now on file in the bankruptcy court.

SOMERS, NY (AUG. 15) PR NEWSWIRE - Pepsi-Cola Company announced today the appointment of David Novak, formerly senior vice president of marketing at Pizza Hut, a division of PepsiCo, Inc. (NYSE: PEP), as executive vice

president of marketing. Michael D. Simpson, formerly executive vice president of marketing and national sales for Pepsi's domestic soft drink operation, has assumed a new executive vice president position that will focus on worldwide customer services. Simpson will now report directly to PepsiCo Worldwide Beverages President and Chief Executive Officer Roger Enrico.

Novak's new responsibilities will include leading the full range of Pepsi's national marketing and promotional efforts as well as directing Pepsi's research and technical services and new product development.

In making the announcement, Pepsi-Cola Company President and CEO Craig E. Weatherup said, "This is exciting news about very talented people. These moves reflect our commitment to develop the best trained leaders in the industry while accelerating Pepsi's profitable growth."

Simpson came to Pepsi in 1989 following nine years with Kellogg Company. Novak joined Pizza Hut in 1986 as senior vice president of marketing, having most recently worked for Tracy-Locke/BBDO as executive vice president and director of account services, where he handled the account for PepsiCo's Frito-Lay division.

"We're pleased to have the opportunity to broaden the contributions of these proven experienced executives," said Weatherup. "We're confident that Dave Novak will be able to build on the many accomplishments made during Mike Simpson's tenure."

WORCESTER, MASS. (AUG. 15) PR NEWSWIRE - Transgenic Sciences, Inc. (NASDAQ: TSIN) reported financial results for the three and 12-month periods ended July 1, 1990, including a profitable fourth quarter.

For the fourth quarter, the company had total revenues of $3.1 million with expenses of $3,060,000, and a resulting profit of $40,000. In the comparable quarter last year, TSI reported a loss of $567,000, or 13 cents per share, on revenues of $45,000, and expenses of $612,000.

For the full year, TSI revenues totaled $6,858,000 and expenses were $7,944,000 with a resulting net loss of $1,086,000, or 17 cents per share. In fiscal 1989, the company reported revenues of $105,000, expenses of $1,326,000 and a resulting net loss of $1,221,000.

"Fiscal 1990 was an eventful and extremely successful year," said James Sherblom, chairman and CEO of TSI. "Aided by the acquisition of Mason

Research Institute in December and the recent purchase of Laboratory Animal Services, we made the critical transition from a development-stage company to a profitable operating business. Beginning in the second half of the fiscal year, TSI was profitable even after covering research expenses. In addition, through two agreements we took important first steps toward addressing the Japanese biomedical testing market. This market represents one-third of the world's preclinical testing.

"Over the next several years, we expect to grow both through additional acquisitions that will be enhanced by our proprietary technology, and through internal growth. We believe that this strategy will prove the fastest way to reap maximum value from our underlying technology.

"Complementing our progress in generating near-term growth in pharmaceutical testing, were research advances to help position the company to be a leader in manufacturing pharmaceutical proteins and in specialty food production in the mid-to-late 1990s. These advances were highlighted by the development, in collaboration with researchers in the Department of Veterinary and Animal Sciences at the University of Massachusetts at Amherst, of a commercial prototype system for producing human pharmaceutical proteins in animal milk," Sherblom concluded.

TSI is a life sciences company developing advanced toxicology tests and disease models based on genetic engineering and transgenic techniques to improve the efficiency of the pharmaceutical/chemical development process. TSI is also developing animal strains capable of producing commercially valuable pharmaceutical proteins, as well as strains with desirable growth and genetic characteristics.

LANDOVER, MD. (AUG. 15) PR NEWSWIRE - Hechinger Company (NASDAQ-NMS: HECHA, HECHB) today announced the Aug. 19 opening of their first two Home Quarters Warehouse stores in the Boston metropolitan area.

These two stores, located in the communities of Danvers and Norwood, will be the first of 12 to 15 stores planned for the Boston area.

Each warehouse store will contain over 100,000 square feet of selling space and offer more than 30,000 different building material and home improvement products for both the do-it-yourself and professional home repair and remodeling customer. Merchandise displays are attractive, convenient and allow HQ to maintain a strong in-stock position.

Each store will employ over 175 trained associates, ready to assist with friendly and knowledgeable service. In addition, expert advice is available on specific home repair and improvement projects at the conveniently located HQ Answer Desk.

John W. Hechinger Jr., president and chief executive officer of parent Hechinger Company, explained, "we are excited to be introducing to the Boston area a new definition in value through HQ's unique offering of selection, service and low pricing. The Boston region is the third largest metropolitan market on the east coast and we are looking forward to servicing the needs of this major market."

Hechinger Company operates 87 Hechinger stores, 17 Home Quarters Warehouse stores and six Triangle Building Centers stores in 13 states and the District of Columbia.

#90227p5552 08/15/1990 ~PR Newswire

BAGSVAERD, DENMARK (AUG. 15) PR NEWSWIRE - The board of directors of Novo Nordisk A/S (ADS - NYSE: NVO) in today's meeting paid tribute to Henry Brennum, who passed away on July 30, 1990. Brennum shared the managing director and chief executive position of Novo Nordisk with Mads Oevlisen.

The board appointed Oevlisen, who was chief executive of Novo Industri A/S from 1981, to be the company's sole president and chief executive.

Summary Statement

Consolidated sales and income before tax for the first half of 1990 were Dkr. 3,980 million and Dkr. 603 million, increases of 6 percent and 2 percent, respectively, compared with figures for the first half of 1989.

Net income was Dkr. 404 million in the first half of 1980, 3 percent lower than in the first half of 1989 due to an increase in the effective tax rate.

Sales and earnings in the first half of 1990 were better than expected. Compared with the first half of 1989 an increase in sales volume of most of the company's products was achieved. However, some of the sales realized in the first half of 1990 were budgeted for the second half. Measured in Danish kroner, sales increased 6 percent in spite of an unfavorable development in currency exchange rates. Compared with the first half of 1989, the average value of the Novo Nordisk currency basket decreased approximately 8 percent in the first half of 1990. Measured in local currencies, sales in most markets were better than anticipated.

Income before tax increased less than sales in the first half of 1990 as a result of increased raw materials and capacity costs. The increase in raw materials costs is due to larger sales volumes and the impact from increases in prices for important raw materials. The increase in capacity costs is mainly due to the continued expansion implemented within the sales, marketing and production areas.

Net financial income, encompassing interest income and costs, gains and losses on bonds and currency, etc., was Dkr. 90 million in the first half of 1990, an increase of approximately Dkr. 150 million compared with the corresponding period in 1989. This figure includes gains on loans in foreign currency, used as part of the company's hedging strategy, and reflects the present strength of the Danish krone. A significant drop in the value of the Danish krone would have a two-fold effect on Novo Nordisk affecting sales and earnings positively, but resulting in losses on Novo Nordisk's loans in foreign currency.

PARAMUS, NJ (AUG. 15) PR NEWSWIRE - Toys "R" Us, Inc. (NYSE: TOY), today announced its second quarter and first half earnings.

For the quarter ended July 29, 1990, the company reported that its sales increased 24.3 percent to $964.0 million compared to $775.5 million for the second quarter last year. Net earnings in the second quarter were $26.5 million or 9 cents per share, compared to $23.5 million or 8 cents per share for the second quarter last year.

For the first six months of fiscal 1990, sales were $1.909 billion compared to $1.543 billion for the same period last year. Net earnings in the first half were $59.7 million or 20 cents per share, compared to net earnings in last year's first half of $50.6 million or 17 cents per share.

All per share figures have been adjusted to reflect the three-for- two stock split effected on June 29, 1990.

Charles Lazarus, chairman and chief executive officer, said, "The company's gains reflect our continuing success in increasing the sales productivity in our stores. U.S. comparable toy store volume was up 11.1 percent in the second quarter and 10.4 percent for the first half. Our International toy stores and our Kids 'R' Us children's clothing stores had strong sales increases during the second quarter. Our sales performance reflects good sales in video game products as well as non-electronic toys."

Lazarus further stated, "Our store expansion program is on schedule. Seven new Toys 'R' Us stores have opened in the United States this year and 64 additional toy stores, including 24 internationally, will be opened in the next four months. Also, 27 Kids 'R' Us children's clothing stores have been opened this year."

Toys "R" Us is the world's largest toy specialty retailing chain, operating 411 toy stores in the United States, 74 international toy stores and 164 Kids "R" Us children's clothing stores.

STAMFORD, CT (AUG. 15) PR NEWSWIRE - Xerox Credit Corporation announced today it has elected to redeem on Sept. 17, 1990 two issues of notes issued in 1988. The notes will be redeemed at a price equal to 100 percent of their principal amounts totaling $300 million, plus accrued interest. Interest on the notes will cease to accrue on and after September 17.

One issue, with a $200 million principal amount, is the 8-5/8 percent notes due Jan. 15, 1991. To receive payment, certificates for the notes must be surrendered to the trustee, The Bank of New York, Bond Redemption Unit. Questions concerning the redemption should be directed to Bond Redemption Unit, The Bank of New York at 212-815-6294.

The other issue, with a $100 million principal amount, is the 8-3/4 percent notes due June 15, 1991. To receive payment, certificates for the notes must be surrendered to the trustee, The First National Bank of Chicago, Registered Bond Processing Unit. Questions concerning the redemption should be directed to Corporate Trust Investor Relations, The First National Bank of Chicago at 312-407-4660.

#90227p5559 08/15/1990 ~PR Newswire

PROVO, UT (AUG. 15) PR NEWSWIRE - Sage Analytics International Inc. (NASDAQ: SAII) announced today that revenue and a net loss for the three month period ended June 30, 1990, were $777,704 and ($35,757) respectively compared to revenue and a net loss of $745,103 and ($104,349), for the three month period ended June 30, 1989. For the six months ended June 30, 1990 and 1989 revenues were $1,329,205 and $1,849,576 respectively with a net loss of ($533,748) for the like period in 1990 and a $477 gain in 1989.

Jon D. Stephens, chairman of the board and president of the company, said

that the primary cause for the loss was delays, beyond the control of the company, in executing a number of fast pack contracts with certain local government entities and industrial clients. To minimize losses, the company has made significant reductions in salaries and personnel which will not affect the company's posture for future growth. The positive impact of the cuts is manifested in SG&A expenses decreasing from $768,289 in the first quarter of 1990 to $566,769 for the second quarter of 1990, a decrease of $201,520 or 26 percent.

Sage Analytics International is engaged in the commercial application of a form of decision support technology which incorporates proprietary methodology and software and is marketed to private industry and federal, state and local government agencies.

#90227p5560 08/15/1990 ~PR Newswire

MINNEAPOLIS (AUG. 15) PR NEWSWIRE - MGI PHARMA, INC. (NASDAQ: MOGN) announced today the signing of two new agreements by which they have granted a license for their human Lyme Disease Vaccine to American Home Products Corporation (NYSE: AHP) and have received rights from Zila, Inc. (NASDAQ: ZILA), to market an oral analgesic. MGI PHARMA GRANTS LICENSE FOR HUMAN LYME DISEASE VACCINE

MGI PHARMA announced the signing of an agreement with American Home Products Corporation for the development of a human Lyme Disease vaccine under MGI's exclusive patent rights obtained from the University of Minnesota in 1988. Dr. Ken Tempero, chairman and chief executive officer of MGI PHARMA, said, "We are very happy that the Wyeth-Ayerst Laboratories division of America Home Products Corporation will be developing the vaccine. Wyeth-Ayerst is a leader in this field and we have every confidence that their efforts will lead to the commercialization of the first human Lyme Disease vaccine. The scientists at Wyeth-Ayerst will be able to expedite development of the vaccine by building upon the expertise in their sister company, Fort Dodge Laboratories, which already markets a Lyme Disease vaccine for dogs under a license from us. The human Lyme Disease vaccine could take several years to develop and approve, but once marketed, should be a major addition to the Wyeth-Ayerst current array of vaccines and yield an attractive royalty stream for our company." MGI PHARMA TO MARKET ORAL ANALGESIC

MGI PHARMA also announced that it entered into a license with Zila, Inc.

under which it will market a new oral product based upon Zila's patented film forming technology for the treatment of painful mouth sores commonly experienced by patients following chemotherapy treatment. Dr. Tempero said "We are pleased with the license because it allows our sales force to introduce and promote a unique oral analgesic product. As stated in our annual report, the market for this product (MGI 209) is relatively small, however, it fits nicely into our plans of building a line of effective products that serve the oncology niche and enhance the quality of life for cancer patients." MGI PHARMA anticipates bringing this product to market by early 1991.

"The agreements we've announced today represent two more bricks in the foundation of our young company. They demonstrate that the criteria and test we use to select our compounds are sound and will serve us well as we continue to build a profitable and significant pharmaceutical company," said Dr. Tempero.

MGI PHARMA, INC., is in the business of acquiring, developing, and marketing pharmaceuticals prescribed by oncologists and other specialist physicians. The company has acquired a portfolio of compounds, several of which have significant therapeutic and commercial potential. The company has three compounds in human clinical trials and currently sells DIDRONEL(R) I.V. Infusion for the treatment for hypercalcemia in cancer patients. Company management has an established track record of identifying and developing commercially successful pharmaceuticals.

ARUBA, DUTCH CARIBBEAN (AUG. 15) PR NEWSWIRE - Divi Hotels N.V. (AMEX: DVH) announced today that its exchange offer on its two outstanding issues of debt securities will be extended until midnight, Eastern Daylight Time, on Sept. 10, 1990.

The exchange offer was initiated on April 27, 1990, and is being made to security holders qualified to participate in a private placement regarding Divi's $60,000,000 of 14-1/2 percent senior debentures due 1998 and $50,000,000 of 12-3/4 percent subordinated notes due 1996. It was originally scheduled to expire at midnight, Eastern Daylight Time, on May 24, 1990, and was previously extended until midnight, Eastern Daylight Time, on June 15, 1990, until midnight, Eastern Daylight Time, on June 29, 1990, and until midnight, Eastern Daylight Time, on Aug. 14, 1990.

The terms and conditions of the exchange offer otherwise remain unchanged.

Through Aug. 14, 1990, only a nominal amount of the outstanding debt

securities covered by the exchange offer had been validly tendered.

#90227p5565 08/15/1990 ~PR Newswire

ARUBA, DUTCH CARIBBEAN (AUG. 15) PR NEWSWIRE - Divi Hotels N.V. (AMEX: DVH) announced that its agreement to engage in exclusive negotiations with Accor S.A.'s tourism division for the potential acquisition of all of Divi's assets and properties related to Divi's resort hotel business in the Caribbean, including Divi's marketing division, trademarks, and trade names will be extended until midnight, EDT, on Sept. 13, 1990.

On July 13, 1990, Divi agreed to engage in exclusive negotiations with Accor relating to the potential acquisition by Accor of certain of Divi's assets, which agreement was scheduled to expire on Aug. 14, 1990. Accor and Divi have been negotiating since July 13, 1990, but have not yet reached a definitive agreement relating to such potential acquisition.

The proposed transaction would not involve the purchase of assets in properties relating to the timeshare and casino businesses, and Divi would continue as a public company engaged in the business of owning and operating timeshare and casino properties.

As previously announced, Divi believes that if the transactions described above are consummated, they will remedy Divi's deteriorating financial situation, although such consummation will result in a substantial loss for financial reporting purposes.

#90227p5568 08/15/1990 ~PR Newswire

SOMERVILLE, N.J. (AUG. 15) PR NEWSWIRE - Unimed, Inc. (NASDAQ: UMED), today reported total consolidated revenues for the third fiscal quarter ended June 30, 1990, of $1,208,000 compared with $1,249,000 for the same quarter of fiscal 1989. Consolidated net loss for the 1990 period totaled $343,000, or $.11 per share, a 31 percent improvement over the net loss of $494,000, or $.15 per share, for the 1989 period.

Pharmaceutical segment revenues for the 1990 period decreased 25 percent to $436,000. Marinol(R) (dronabinol) sales increased 10 percent and Serc(R) (betahistine HCl) sales in Canada increased 16 percent. These increases were offset by a $19,000 decrease in shipments of Serc to

foreign licensees and a decrease of $169,000 in research contract revenues primarily resulting from timing of orders and the receipt during the 1989 period of the final payment under Unimed's alliance with AB Astra.

Chemical segment revenues in the 1990 period increased 20 percent to $703,000. This increase reflects both a strengthened management team and an expanded customer base generated by increased sales and marketing efforts.

Research and development expenses decreased 25 percent in the 1990 period to $545,000. Decreases resulted primarily from higher start-up costs in the 1989 period for the Vitamin D program, the company's decisions to discontinue the thiolated polynucleotides and G-Mitomycin programs, and timing of certain other development and patent expenses.

For the nine months ended June 30, 1990, consolidated revenues totaled $3,330,000, a 4 percent increase over the comparable period of fiscal 1989. Consolidated net loss for the nine-month period of 1990 was $1,293,000 or $.40 per share, compared with a net loss of $1,458,000, or $.45 per share, in the 1989 period.

Pharmaceutical segment revenues decreased 10 percent to $1,302,000. Marinol sales increased 14 percent to $799,000 and Serc sales in Canada increased 11 percent to $435,000. These increases were offset by a decrease of $69,000 in shipments of Serc to foreign licensees and a decrease of $219,000 in research contract revenues. Chemical segment revenues increased 24 percent to $1,818,000.

Unimed is a pharmaceutical company specializing in the early acquisition, development and marketing of new cancer therapeutic compounds.

WEST ORANGE, N.J. (AUG. 15) PR NEWSWIRE - Micro Healthsystems, Inc. (NASDAQ: MCHS), a manufacturer of Bedside Nursing Patient Care Systems and Healthcare Financial Management Systems, "once again achieved record operating results," S. M. Caravetta, chairman, said today. "Our various administrative software services for hospitals also continues to grow in size and profit contribution, and indications are that these trends will continue," he said.

Revenues for the first fiscal quarter ended June 30, 1990, increased 66 percent to $2,705,000 from $1,627,000 in the like period the year before. Earnings amounted to $452,000 or $.22 per share on 2,099,000 weighted shares outstanding, an increase of 106 percent above the $219,000 or $.12 per share earned on 1,833,000 weighted shares outstanding in the same quarter a year earlier.

The company's Healthcare Financial Management products include an Inpatient Management System; an Integrated Hospital Financial System; Home Care Management System; a Physician's Billing and Management System for hospital-based and private physician group practices; and a Facilities Management program for out-patient billing and accounts receivable to hospitals, utilizing Micro Healthsystems' own staff.

HIALEAH, FLA. (AUG. 15) PR NEWSWIRE - Equipment Company of America (NASDAQ: ECOA), today reported results of operations for the company's fiscal second quarter and first half ended June 29, 1990.

The company reported fiscal second quarter sales of $5,011,000, down 2.4

percent from 1989 second quarter sales of $5,136,000. For the first half of 1990, sales declined 3.7 percent to $10,353,000 vs. $10,746,000 in the 1989 first half. The company recorded a loss of $321,000, or $.07 per share, in the 1990 quarter compared to a loss of $65,000, or $.02 per share in the 1989 second quarter. The loss for the first half of 1990 was $343,000, or $.08 per share vs. a profit of $11,000 for the first half of 1989.

A company spokesman stated, "Our results in the second quarter did not meet our goals. Some softness in inbound orders for certain product lines early in the quarter had an adverse impact on our shipments during the quarter. Our order intake improved in the latter part of the quarter, however, which is expected to favorably affect the third quarter.

"We continue to implement the programs identified in the first quarter, which should have a positive long-term impact on the company. These programs are an ongoing process throughout the fiscal year and have included the introduction of new systems, manufacturing equipment, personnel changes and the addition of senior executives in marketing, finance and production. Combined with the company's historic commitment to customer service, these programs should result in a company better prepared to perform in a competitive marketplace and mixed economic climate."

Equipment Company of America is a manufacturer and worldwide distributor of materials handling equipment and other industrial products for the safe efficient movement and storage of factory products. The ECOA materials handling line encompasses 15 broad-based product categories, featuring both powered and non-powered items. These products are specially designed to save users time and money as well as to assist them in meeting all applicable personnel safety requirements. Under its AllTape (R) brand, ECOA also is a mill distributor and major converter of packaging and industrial, pressure-sensitive, adhesive tapes.

#90227p5578 08/15/1990 ~PR Newswire

MURFREESBORO, TN (AUG. 15) PR NEWSWIRE - Pricor Incorporated (NASDAQ: PRCO) today announced operating results for the first quarter of fiscal 1991.

First quarter revenues were $6,118,983, an increase of 32 percent from revenues of $4,649,987, reported in the first quarter of fiscal 1990. During the first quarter of fiscal 1991, the Company's operating contribution totaled $1,074,858, compared to a contribution of $1,117,765 reported during the same three month period a year earlier.

For the first quarter of fiscal 1991, Pricor reported a net loss of $142,262, or $.02 per share, as compared to net income of $139,833, or $.03 per share, reported in the first quarter of fiscal 1990.

Pricor Chairman Hubert L. McCullough made the announcement saying, "We are pleased with the 32 percent revenue growth for the first quarter of fiscal 1991 over the first quarter of fiscal 1990. However, operating expenses, particularly in CCS, an acquisition which operates seven residential group homes, were higher than had been expected. Expenses on existing contracts in California were negatively impacted by a worker's compensation insurance rate change which, over the course of this fiscal year, will

increase operating expenses by about $225,000.

"First quarter revenues from our youth education services were negatively impacted by the timing of Spring Break, leaving the first quarter of fiscal year 1991 with seven percent fewer school days than the comparable quarter of the prior year," McCullough said.

"Certain other factors should be considered when evaluating first quarter results," McCullough said. "Operating expenses for the first quarter of fiscal year 1991 included about $50,000 of non-recurring operating expenses. Additionally, many of the existing California contracts were renegotiated subsequent to the close of Pricor's first quarter and now include rate increases which will help to offset rising costs.

"While operating margin pressures are expected to continue, the Company's operations on the whole are very sound and improvement in results is expected, particularly in the traditionally high margin fourth quarter," McCullough said.

"Finally, our selling, general and administrative expenses were affected by one-time costs of approximately $70,000 associated with a transition in our senior management.

"Starting in the second quarter we will begin to realize revenues from San Diego-based Broad Horizons, which we acquired subsequent to the close of the first quarter," McCullough said. "Broad Horizons will commence a day school program in the third quarter of this year. When fully operational, combined annualized revenues from Broad Horizons are expected to exceed $5 million.

"The first of Pricor's Texas jail contract are expected to begin operations in the third and fourth quarters of this year. Contributions to profits from these contracts are likely to be modest until the fourth quarter of this year or possibly the first quarter of fiscal year 1992."

Pricor Incorporated is the nation's leading for-profit private provider of special educational and treatment services for youth. The Company is also one of the oldest and largest private adult correctional services companies. Pricor has contracts in Alabama, California, Tennessee, Texas and Virginia and business interests in the United Kingdom.

TORONTO (AUG. 15) PR NEWSWIRE - The Thomson Corporation today reported earnings before extraordinary item for the six months ended June 30, 1990,

were U.S. $112 million, compared with U.S. $150 million for the same period last year. Earnings per common share before extraordinary item were U.S. 21 cents, compared with U.S. 28 cents in 1989.

Operating profit was 27 percent higher than in the corresponding period last year, and benefited from contributions from acquisitions made in the last 12 months and from profits arising on the sale of aircraft.

The principal reasons for the reduction in earnings were that non-operating profit this year was U.S. $53 million lower than in the corresponding period of 1989 (which included the gain on the sale of an investment in Reuters PLC) and interest costs were U.S. $57 million higher as a result of the high level of spending on acquisitions.

While operating profit and earnings for the first six months were broadly in line with our expectations, it is now becoming increasingly evident that the economic downturn affecting our businesses is more severe than had been predicted. We have taken steps to ensure that we are highly efficient in all our businesses and we are expensing considerable short-term costs to this end.

THE THOMPSON CORPORATION
(Consolidated, unaudited)
(In millions of U.S. dollars, except per share amounts)

Six months ended June 30:	1990	1989

HAUPPAUGE, N.Y. (AUG. 15) PR NEWSWIRE - United-Guardian, Inc. (AMEX: UG) has just been granted a U.S. Patent covering its active virucide which has the ability to kill the AIDS Virus in less than five seconds and the Hepatitis-B Virus in less than 15 minutes both under in vitro conditions, the company announced today.

UG-39, which is covered by this patent, has been the subject of an article by Drs. Elena Klein and M. Lange of the Columbia University College of Physicians and Surgeons in the January 1990 edition of the Antiviral Agents Bulletin. This article reported the results of using UG-39 on the seminal fluid taken from patients infected with the AIDS Virus. When a dilute solution of UG-39 was used as a douche in vaginal irrigation under simulated natural conditions, it destroyed not only the AIDS Virus, but the sperm cells as well.

According to Dr. Alfred R. Globus, chairman and CEO of United- Guardian, "The low order of toxicity as demonstrated in laboratory studies makes UG-39 promising for the purification of blood infected with viruses. At present, we are studying the chemistry of blood to which small quantities of the virucide has been added."

United-Guardian is a manufacturer of pharmaceuticals, healthcare products, and medical devices.

WILMINGTON, DE (AUG. 15) PR NEWSWIRE - Airgas Inc. (NYSE: ARG), a distributor of industrial gases and related products, today announced an 8 percent increase in the retail price of industrial gas and a $.30 per month increase in cylinder rental charges.

The increases, to be effective Sept. 1, 1990, will affect all gases except acetylene distributed through any of Airgas' retail stores nationwide. Delivery charges will also increase to $10.

Thomas Mason, executive vice president of Airgas, said that the reason for the gas price increase is due to recent increased operating costs and higher liability insurance premiums. Mason went on to say that the rental increase is necessary to cover higher cylinder costs and delivery charge increases are needed to offset the rise in fuel expenses. The last such general increase by the company occurred in October 1989.

Currently the Airgas distributor network includes more than 225 locations in 29 states and Canada. Airgas Inc. is the largest independent distributor of industrial, medical and specialty gases in the United States.

GREENSBORO, N.C. (AUG. 15) PR NEWSWIRE - Vanguard Cellular Systems, Inc. (NASDAQ: VCELA) announced today that it has entered into a definitive agreement to acquire, construct and operate the nonwireline cellular system for the Myrtle Beach, SC Rural Service Area. This transaction, which will add 232,500 1990 pops to Vanguard's existing 5.3 million pop base, is expected to be consummated in early 1991. It is subject to customary FCC and South Carolina Public Service Commission approvals.

According to Haynes G. Griffin, Vanguard's President and Chief Executive Officer, "The Myrtle Beach, SC market provides Vanguard with another coastal Carolinas cellular market which is contiguous with our Wilmington/Jacksonville joint venture network. Accordingly, the technical, operational and marketing efficiencies we expect to realize make us very pleased with the prospects of this acquisition."

S. Tony Gore III, Vanguard's Vice President for Acquisitions said, "The Company beleives this market to be of significant importance to its regional clustering strategy."

The Myrtle Beach area is known for its attractiveness as a tourist destination and second home resort. With 60 18-hole golf courses in the area, and numerous other recreational and convention facilities, it attracts in excess of one million visitors a year. "The extended tourist season, due to the temperate climate, makes this acquisition especially attractive but the area's year-round economy is also experiencing significant growth making it what we believe to be one of the most

desirable RSA's in the country," said Mr. Griffin.

Vanguard Cellular Systems, Inc. headquarted in Greensboro, North Carolina, directly and indirectly owns interest in and operates cellular telephone systems primarily in the Eastern United States.

RICHARDSON, TEXAS (AUG. 15) PR NEWSWIRE - Rubicon Corporation (NASDAQ: RBCN) reported net earnings after extraordinary items of $1,018,000 or 20 cents per share for the year for the year ended June 30, 1990, compared with a loss of $2,630,000 or 99 cents per share for 1989. Revenue for fiscal 1990 was $4,492,000 compared with revenue of $9,576,000 for the year ended June 30, 1989.

The announcement was made by Gary K. Freedman, chairman of the board and chief executive officer of Rubicon, a Richardson, Texas-based developer of computerized laboratory information management systems.

For the fourth quarter of fiscal 1990, net income after extraordinary items was $382,000 on revenue of $1,467,000 compared with a loss of $2,927,000 on revenue of $1,065,000 reported for the fourth quarter of 1989. Earnings per share for the fourth quarter of fiscal 1990 were 7 cents compared with a loss of $1.10 for the same period in 1989.

Rubicon ended fiscal 1990 with a current asset to current liability ratio of 1.97 compared to 0.66 in fiscal 1989. The debt to equity ratio improved from 21.8 in 1989 to 1.45 for fiscal year 1990.

"This has been a dramatic year for the company," Freedman said. "Our refocused approach this year led to profitability in every quarter and established a solid base for the company to grow from in the future. By exceeding the goals we set for this transformation year, we proved that our efforts were successful.

"Our operating income margin for the fourth quarter improved to 28 percent of revenue and the overall results of the year increased shareholders' equity by 863 percent," Freedman noted. "There was a great deal of effort and dedication from Rubicon's employees, customers and investors necessary to achieve these results."

Freedman said that the extraordinary items reported in 1990 included utilization of net operating loss carryforwards and gains resulting from the conversion of debt to equity during the first and fourth quarters of

fiscal 1990.

The 15-year-old Rubicon Corporation develops, installs and supports integrated computer based laboratory information management systems for hospitals, reference laboratories and health maintenance organizations.

AUSTIN, TEXAS (AUG. 15) PR NEWSWIRE - Prime Medical Services, Inc. ("Prime") (NASDAQ-NMS: PMSI) today announced results for the second quarter of 1990. For the three months ended June 30, 1990, revenues increased to $3,511,000 from $3,253,000 for the same period in 1989. The net loss amounted to $448,000, or $0.05 per share, versus $965,000 or $0.11 per share in 1989.

For the first six months, Prime reported revenues of $7 million versus $6,916,000 in 1989. A net loss of $651,000 or $0.08 per share compares to a loss of $1,553,000 or $0.18 per share in 1989.

The loss for the second quarter 1990 includes a nonrecurring expense of $72,000 for prior years' property taxes at one of the Imaging centers and approximately $100,000 for costs associated with three regional meetings held by Prime for the nursing and administrative staff from all of the cardiac centers.

Jackie Majors, president of Prime, stated, "Although we expect continued losses from operations through year-end, we are on track with our efforts to improve results in 1991. We expect to have a positive third quarter, due to the sale of our Employee Pharmaceuticals, Inc. ("EPIC") stock during July. This sale, offset by other nonrecurring events, will result in a nonrecurring gain of approximately $900,000."

Prime Medical Services, Inc. is engaged in providing non-medical management services to 47 cardiac rehabilitation clinics and seven imaging centers in 13 states.

PHILADELPHIA (AUG. 15) PR NEWSWIRE - O'Brien Energy Systems (AMEX: OBS), a leading energy project developer, announced today it has completed construction and commenced operations at its 1.2 MW Orange County, Calif., and 1 MW Lafayette, N.J., biogas projects.

The Orange County project uses methane gas extracted from the county's sewage treatment plant to produce power for the treatment plant. The Lafayette project uses methane from the Hamms Landfill to generate power for sale to Jersey Central Power & Light Co.

"These projects represent our continued commitment to projects that eliminate fuel cost risks," said Bruce Levy, O'Brien Energy, vice president. "With these two new plants on-line, we are now operating a total of nine alternative fuel projects," he noted.

WOBURN, MA (AUG. 15) PR NEWSWIRE - Thermo Cardiosystems Inc. (AMEX: TCA) announced today that the company's HeartMate(R) ventricular- assist device (VAD) has been successfully implanted in a 50-year-old patient at St. Paul Medical Center in Dallas. The medical center was recently approved by the U.S. Food and Drug Administration as the eighth clinical site for the company's pneumatically driven device.

Chris Moncrief, M.D., and W. Steves Ring, M.D., of the University of Texas Southwestern Medical Center/St. Paul Medical Center Cardiac Transplant Team implanted the HeartMate device into Billy R. Sullivan, a patient suffering from idiopathic cardiomyopathy. The device will support Sullivan's failing heart until a donor heart is found. Sullivan has become the 31st patient in the United States to be supported by the HeartMate VAD.

"We are very pleased that yet another clinical site has achieved such positive results with our device," said Victor L. Poirier, president of Thermo Cardiosystems. "This demonstrates that the HeartMate can be used successfully, not only at our primary investigational site, but also at new clinical sites where surgeons are using the device for the first time."

The company has recently filed an application with the U.S Food and Drug Administration to begin clinical trials of a second-generation, battery-powered HeartMate device.

Thermo Cardiosystems Inc. is a leader in research and development of implantable ventricular-assist devices. These devices are designed to perform substantially all or part of the pumping function of the left ventricle of the natural heart for patients suffering from cardiovascular disease. Thermo Cardiosystems is a public subsidiary of Thermedics Inc. (AMEX: TMD) and Thermo Electron Corporation (NYSE: TMO).

LOS ANGELES (AUG. 15) PR NEWSWIRE - The board of directors of Mattel Inc. (NYSE: MAT) has declared a quarterly dividend of 3 cents per share on its common stock. The dividend is payable Oct. 2, 1990 to shareholders of record on Sept. 14, 1990.

A quarterly dividend paid on July 2, 1990 was the company's first since 1983.

Mattel earlier reported record net income of $20.3 million for the 1990 second quarter, up 22 percent from $16.6 million in 1989. Net sales for the quarter also reached record levels, up 17 percent to $318 million. For the 1990 first half, net income was $28.7 million, up 37 percent from $20.9 million in the 1989 first half, while net sales were up 18 percent to $552 million.

Mattel Inc. is a worldwide leader in the design, manufacture and marketing of children's toys. With headquarters in Hawthorne, Calif., Mattel has offices and facilities in 20 foreign countries and sells its products in more than 100 nations throughout the world.

#90227p5604 08/15/1990 ~PR Newswire
ROANOKE, VA. (AUG. 15) PR NEWSWIRE - Roanoke Electric Steel Corporation (NASDAQ-NMS: RESC) today announced net earnings for the third quarter ended July 31, 1990, of $2,018,201, or 38 cents per share, of common stock down 20 percent from the $2,510,872, or 48 cents per share reported for the third quarter last year. Sales for the third quarter of 1990 were $37,526,156, down 2 percent from the $38,322,182 reported for the 1989 third quarter.

Net earnings for the nine months ended July 31, 1990, were $5,579,243, or $1.05 per share of common stock, representing a 39 percent decrease from the $9,199,116, or $1.73 per share, reported for the same period last year. Sales for the first nine months of 1990 were $112,630,901, down 6 percent from the $119,609,062 reported for the same period last year.

Donald G. Smith, Chairman and Chief Executive Officer, stated: "Sales and Earnings for the 1990 third quarter and fiscal year continue to lag behind last year's record pace, primarily due to lower selling prices and reduced profit margins for the periods compared. However, we are encouraged by the steady quarter-to-quarter improvement in earnings this year, and, with demand for bar products remaining strong and prices on the upswing, we are hopeful fourth quarter results will continue this trend."

BOCA RATON, FLA. (AUG. 15) PR NEWSWIRE - InnoVet Inc. (NASDAQ: IVET) today announced that it has acquired exclusive worldwide rights to a unique immunostimulant which has shown in preliminary studies to be effective in offering broad spectrum disease protection in various animal species with potential human application. Immunostimulants are substances that trigger the immune system to aggressively respond to substances foreign to the animal's own body.

The immunostimulant compound, named IVET 629, acquired by InnoVet was developed by BioQuest Inc. of Lenexa, Kansas. It increases the T-4 helper cell population, a key factor in immune stimulation. It has shown efficacy in the treatment of parvovirus infections and lymphoma in dogs and foot rot in sheep. InnoVet plans additional studies designed to explore the feasibility of full development of a product to be used for the treatment of several animal diseases which currently have no cure or vaccine. InnoVet anticipates that the immunostimulant could be commercially available as early as mid-1991.

"The economic impact of the successful development of this drug is very significant," said Dr. Jesse Houdeshell, president of InnoVet. "Studies are currently under way or are in planning to evaluate the product for the treatment of influenza and strangles in horses, chronic respiratory disease or shipping fever in beef cattle and mastitis in dairy cattle. Mastitis alone costs the U.S. dairy industry an estimated $5.4 billion a year and an estimated $35 billion worldwide. Shipping fever costs the cattle industry estimated losses of $500 million in the U.S. and $3 billion worldwide annually."

Dr. Houdeshell further stated: "Studies will also be conducted in cats to determine the potential for treating leukemia and feline immunodeficiency disease. If successful, these results would lead us to believe efficacy is likely in the treatment of retrovirus diseases and other diseases which suppress the immune system. The natural extension of this research would be a pilot study to evaluate potential treatment of AIDS in humans. Feline studies will be conducted this fall at North Carolina State University."

Based in Boca Raton, InnoVet is a development stage company dedicated to innovative animal healthcare products. The company's patents and products hold promise in revolutionizing the way in which pets, livestock and eventually humans will be treated for disease.

WICHITA, KS (AUG. 15) PR NEWSWIRE - Kansas Gas and Electric Company (NYSE: KGE) today told holders of its common shares that "there is no reason to tender your shares prior to the Aug. 20 expiration date" of Kansas City Power & Light Company's (NYSE: KLT) tender offer.

In a letter sent today, KG&E stressed that holders would not receive any additional benefit or compensation by tendering now, and pointed out that KCP&L's offer is subject to many conditions which may take months, "possibly more than a year," to be met. In addition, KG&E said, the offer presents "serious legal questions and numerous uncertainties under federal and state statutes."

KCP&L itself has said it expects to extend its offer beyond Aug. 20 and "from time to time" after that, KG&E said.

The company also told its shareholders that no special meeting of shareholders has been called, "nor is one contemplated." KG&E's letter says, "The board believes that KCP&L has not met the requirements of

Kansas law to call such a meeting," and noted that the matter is currently under litigation.

KCP&L launched its tender offer on July 23. KG&E's board rejected the offer on Aug. 2, citing, among other things, that it believes the price offered for the common shares is inadequate. The board recommended that holders of common shares not tender to the KCP&L offer.

HOUSTON (AUG. 15) PR NEWSWIRE - EDS has signed a 10-year contract with The Permian Corporation/Permian Partners, L.P., one of the largest independent gatherers of oil in the United States, for information technology services and development.

The agreement calls for EDS to manage Permian's information technology (IT) in support of the energy company's oil and gas distribution operations. Based in Houston, Permian serves approximately 31,000 leases with 500 trucks and 4,500 miles of pipelines. It has operations in 16 states. The company's 1989 revenues were $2.5 billion.

This is the sixth major energy sector contract by EDS since it entered this market less than two years ago.

Gaylon Simmons, president and chief executive officer of Permian, said EDS' flexibility in delivering IT services will allow Permian to focus on its growing business and have the technology in place to meet expanding needs.

"EDS will keep us current in our technology and competitive in our marketplace," Simmons said. "Their presence in Houston, their track record and reputation, and their resources will help drive us to the forefront of the competition."

Ken Scott, president of EDS' Energy/Petrochemical Division, said, "EDS has a firm commitment to the energy industry. Our agreement with Permian further positions us as the premier provider of information technology services to that industry."

In addition to Permian, several of EDS' major customer accounts are located in Houston, including First City and Enron. With nearly 1,600 employees in the area, EDS' Houston presence has almost tripled since 1988.

EDS has operations in 27 countries and is the leader in providing information technology services to customers around the world. Stock

reflecting EDS' performance is traded on the New York Stock Exchange under the symbol GME. EDS reported revenues of $5.5 billion in 1989.

BROOKFIELD, WIS. (AUG. 15) PR NEWSWIRE - American Medical Buildings, Inc. (AMEX: A) announced today that it is filing for relief pursuant to Chapter 11 of the United States Bankruptcy Code. The company also reported a $496,000 loss from operations for the second quarter of 1990.

Due to the second quarter loss, unless it can arrange for the infusion of additional capital, the company projects that it will exhaust its working capital resources during the third quarter of 1990. The company has conducted negotiations with prospective investors, but to date such negotiations have been unsuccessful. "The Chapter 11 filing will give us the breathing room to identify possible financing alternatives and to provide interested parties with a more attractive structure for making their investment," said Jack A. Amormino, executive vice president of the company.

The company, which maintains its headquarters in Brookfield, Wis., is a healthcare facilities consulting firm which provides planning, architectural, engineering and construction services to hospitals and physician group practices throughout the United States.

At June 30, 1990, the company's backlog of architecture and construction agreements was approximately $31,000,000. This represented the uncompleted and unbilled portion of 13 architecture and construction agreements, including 10 under construction, as of such date.

MORRIS PLAINS, N.J. (AUG. 15) PR NEWSWIRE - Warner-Lambert Company (NYSE: WLA) has launched Cristal, a nonstick sugarless chewing gum, in test market in southern Texas and Louisiana. The new gum is being marketed in spearmint and peppermint flavors.

Cristal is aimed at consumers 35 and older who wear dentures or have crowns, caps, bridges or braces and have difficulty chewing gum that sticks to their dental work. Approximately 30 million Americans wear dentures. Two-thirds of the 35-and-over population -- about 80 million Americans -- have had dental work.

"Sugarless gum has proven to be increasingly popular with the Baby Boom generation in particular," said Michael Schwartzman, product manager, American Chicle Group. "Now that these consumers have had dental work, they'll be even more appreciative of the benefits of nonstick chewing gum."

Sugarless gums represent $900 million in annual retail sales in the $1.8 billion U.S. gum market.

Cristal began shipping August 1 and will be widely available to consumers by mid-September.

Cristal will be supported with television and radio advertising as well as a full promotional campaign. Store displays will include a 12-box floor stand and a four-box counter unit.

The product will be marketed in five-stick single packs, including "Try Me" packs that will sell at an introductory price of 25 cents, as well as an 18-stick Val-U-Pak and an 8-Pak (eight five-stick packages).

Major cities in the test market in Texas include Austin, Beaumont, Corpus Christi, Houston and San Antonio and, in Louisiana, Baton Rouge, Lake Charles and New Orleans.

Warner-Lambert's other leading confectionery products include Trident sugarless gum, Dentyne gum, Clorets gum and mints, Bubblicious bubble gum, Chiclets candy-covered gum, Certs mints, Halls cough tablets and chocolate/caramel brands including Junior Mints, Sugar Daddy, Sugar Babies and Charleston Chew!.

Warner-Lambert is a worldwide company devoted to developing, manufacturing and marketing high quality health care and consumer products. It employs approximately 33,000 people.

TAMPA, FLA. (AUG. 15) PR NEWSWIRE - Check Express Inc. (NASDAQ: CHXS), owner, operator and franchisor of retail check cashing centers, today announced unaudited results for the quarter and six months ended June 30.

Total revenues increased 13 percent in the second quarter of 1990 to $963,950 vs. $855,242 in 1989. Net earnings in the second quarter increased 122 percent to $40,518 ($.008 per share) from $18,230 ($.003 per share) in 1989.

For the six month period ended June 30, revenues increased 14 percent to $1,940,830 from $1,699,413 in 1989. Net income for the six month period increased 110 percent to $87,318 ($.016 per share) from $41,585 ($.008 per share) in 1989.

"Franchise revenue increased $75,000 and company owned check cashing fees increased $48,000 in the second quarter, fueling our profit gains," stated Peter F. Borer, president of Check Express Inc.

Check Express operates 39 retail money centers (company owned and franchise) in eight states providing check cashing, money orders, money transfers and related services.

ST. PAUL, MINN. (AUG. 15) PR NEWSWIRE - Merrill Corporation (NASDAQ: MRLL) today announced that it has formed a service relationship with a Canadian financial printer -- Atwell Fleming. Atwell Fleming will act as Merrill's financial printing service provider for Merrill clients in the Canadian market, and Merrill will provide the same services for Atwell Fleming clients in the U.S. market.

In commenting on the partnership, John Castro, president and chief executive officer of Merrill Corporation said, "We have been looking for the right fit in Canada for some time, and Atwell Fleming is it. They have the same high service standards as Merrill, and we are glad we were able to hook up as the demands of U.S. clients for Canadian services are increasing."

Atwell Fleming is part of a larger Canadian printing company -- Jannock Limited. Atwell Fleming has been a respected name in Canadian financial printing since 1904. They have service facilities in both Toronto and Montreal to provide both English and French versions of financial documents.

This Canadian affiliate complements Merrill's global service capabilities which include affiliates in London, Tokyo and Melbourne. These sites are joined together through Merrill's sophisticated telecommunications links to create Merrill's financial printing network.

Merrill Corporation is a leading provider of on-demand, 24-hour- per-day typesetting, printing, document reproduction and distribution services to financial, legal, and corporate markets nationwide. The company's shares

are traded on the NASDAQ National Market System under MRLL.

CINCINNATI (AUG. 15) PR NEWSWIRE - The E.W. Scripps Company (NASDAQ: EWSCA) today announced plans for a complete replacement and enhancement of the production facilities at the Rocky Mountain News in Denver.

The improvements at Colorado's largest daily newspaper will include all new printing presses and distribution equipment at an estimated cost of $100 million.

The equipment will be installed at the News' satellite production center on North Washington Street, which will be expanded from 165,000 square feet to about 400,000 square feet to accommodate the new equipment. The new production center should be in full operation in early 1993.

"With this new equipment we will provide newspaper advertisers with the best-quality color reproduction available in the Denver market," said Larry Strutton, president, publisher and chief executive officer of the Rocky Mountain News. "For our readers, the new presses will mean a more vibrant and attractive newspaper, and will advance our commitment to on-time delivery."

The Rocky Mountain News' existing presses will be replaced with seven eight-unit Goss Colorliner offset presses. The new presses will allow the News to print up to 48 pages of process color plus 32 pages of spot color each day without limiting the total number of pages. The first of the new presses will be installed in about 12 months.

"This project is another major step in our long-term commitment to the Denver community," said Lawrence A. Leser, president and chief executive officer of The E.W. Scripps Company. "Our investment demonstrates our desire to provide total quality for the advertisers and readers of Denver's number-one newspaper."

The expanded production center on North Washington Street will consolidate the newspaper's printing under one roof. Printing and packaging production will cease at the downtown Colfax Avenue headquarters and the space will be used to allow other departments to expand.

The E.W. Scripps Company is a diversified media company which operates 19 daily newspapers, nine television stations, five radio stations and cable television systems with 580,000 basic subscribers. The company also is a

worldwide syndicator and licensor of news features and comics, including "Peanuts" and "Garfield."

BRENTWOOD, NY (AUG. 15) PR NEWSWIRE - Allou Health & Beauty Care, Inc. (AMEX: ALU), the premier distributor of nationally advertised health and beauty aids, prestige fragrances and cosmetics in the Northeast, today reported record results for the first quarter of fiscal 1991 with earnings up 14 percent on an 11 percent increase in revenues.

"Our first quarter results continue a four-year trend of rising sales and earnings and reflect Allou's expanding geographical coverage in the East as well as its national penetration through the steady growth of our mail order catalog business. We expect this trend to continue and anticipate another record year," David Shamilzadeh, chief financial officer, said.

Sales for the first quarter ended June 30, 1990, increased 11 percent to $19,988,855 from $17,947,256 in the same period last year. Earnings for the quarter were $268,738, or $.10 per share on 2,580,000 shares outstanding, an increase of 14 percent above the $235,437, or $.09 per share earned on 2,580,000 shares restated for the effect of the public offering for the same quarter a year earlier.

The company is broadening its operations through the addition of new products. "We recently added packaged food to our product line which we anticipate will generate significant revenues in the coming years. We plan to further extend our product lines so that we can meet our retail customers' needs in every aisle of their stores," Shamilzadeh added.

The company has virtually no long term debt and its credit line was recently expanded to $23 million from $18 million, according to Shamilzadeh.

DALLAS (AUG. 15) PR NEWSWIRE - A new joint venture company, called TELOS, has been formed by E-Systems and three German companies with operations to begin later next year. The other partners are Elekluft, (a Telefunken company), Burkhart Grob Luft-und Raumfahrt GmbH and Company KG, and Messerschmitt-Boelkow-Blohm.

TELOS, Technisch-Logistische Service GmbH, will provide in-country logistics and maintenance support for programs associated with the EGRETT aircraft. The EGRETT, under development by E-Systems, Grob, and the Garrett Turbine Engine Company, is proceeding as scheduled through test and evaluation.

E-Systems nominated and the partners have confirmed K.H. Meyer as managing director of the new venture which will be located at the Rhein-Flugzeugbau facility located at the Moenchengladbach Airport in the Nordrhein-Westfalen State of the Federal Republic of Germany.

Other personnel required for the operations of TELOS will be added as required beginning next year. The TELOS company will be fully activated to support customer requirements by third quarter 1991.

"The joint venture company is a necessary step for the timely and effective support of our activities in the Federal Republic of Germany," said Gene Keiffer, chairman and chief executive officer of E-Systems. "Also, we have allied ourselves with leading aerospace and electronics companies in Germany in order to pursue future business opportunities in Europe," he said.

The EGRETT, which was introduced in June 1987, is an all-composite, turboprop aircraft designed for a variety of high altitude, long endurance applications. Over 200 flights have been successfully flown and a series of world records have been established.

E-Systems, Inc. (NYSE: ESY), is a major worldwide developer and producer of electronic systems and products in the areas of intelligence, reconnaissance and surveillance systems, command and control, electronic warfare, specialized aircraft maintenance and modification, guidance, navigation and control, communications and data systems.

#90227p5636 08/15/1990 ~PR Newswire

JACKSONVILLE, FLA. (AUG. 15) PR NEWSWIRE - Blue Cross and Blue Shield of Florida reported today a net gain of $19.4 million for the second quarter of 1990, increasing net income for the first six months of the year to $45.2 million. This represents a $24.5 million improvement over the first six months of 1989.

Total revenues increased to $742.9 million for the first six months of 1990 compared to $642.1 million for the same period last year. Corporate assets rose to $631.5 million as of June 30, 1990 compared to $491.1 million at the same point in time last year.

Blue Cross and Blue Shield of Florida policyholders' equity increased to $178.9 million as of June 30, 1990 compared to $117.7 million at the mid-point of 1989. The equity level is a measure of the company's ability to meet obligations during times of economic instability or when claims expenses are higher than anticipated.

Contributing to the company's positive second quarter performance was a $2.7 million net gain by its health maintenance organization (HMO) operations that include Health Options, Inc., and Capital Health Plan. For the first six months, HMO operations recorded a gain of $5.9 million, compared with a loss of $67,000 during the same period a year ago.

"The company is well positioned, financially and strategically, to remain the leader in the Florida health insurance industry. We realize our work must continue. We need to build on our success at controlling medical care costs and make sure we continue to operate as efficiently and effectively as possible," said Richard Thomas, senior vice president of finance."

#90227p5638 08/15/1990 ~PR Newswire

MILWAUKEE (AUG. 15) PR NEWSWIRE - Allis-Chalmers Corporation today reported a net loss of $44,000 in the second quarter of 1990 compared with net income of $29,000 in the same period of 1989.

Sales and gross margin increased in the 1990 period. However, the profits from operations and interest income on marketable securities were exceeded by administrative expenses and interest expense, resulting in the 1990 net

loss.

The company's operations are B.R.B. Industries (BRB), a Hoboken, N.J. manufacturer of molded fabric products, and Houston Dynamic Service, Inc. (HDS), a machine repair subsidiary in Houston. BRB, which serves the apparel and lingerie markets and the home sewing and notions industries, was acquired on Dec. 20, 1989, and its results are included in 1990 only.

Second quarter sales were $3.2 million in 1990, up from $987,000 in 1989, primarily because of the acquisition of BRB.

Second quarter gross margin as a percentage of sales increased to 28.2 percent in 1990 from 24.2 percent in 1989 as a consequence of the generally higher margins in the molded fabric products business. Compared with the first quarter of 1990, gross margin declined due to general market conditions and slightly reduced sales volume at BRB, which was affected by continued softness in the apparel market.

For the first six months of 1990, Allis-Chalmers reported a net loss of $35,000 compared with breakeven in 1989. Sales were $6.4 million in 1990 and $1.9 million in 1989. The results for the 1990 period reflect the factors which affected the second quarter results.

Allis-Chalmers continues pursuing in a prudent manner its program to identify and evaluate candidates for acquisition, with the objective of increasing its operating base and generating positive cash flow.

ENGLEWOOD CLIFFS, N.J. (AUG. 15) PR NEWSWIRE - Continental Health Affiliates, Inc. (NASDAQ-NMS: CTHL) today reported results for the second quarter ended June 30, 1990.

Revenues for the second quarter ended June 30, 1990 were $12,626,000 compared to $13,058,000 in the prior year. Net income was $2,007,000, or $.40 per share, compared to income of $137,000, or $.03 per share for

the prior year. The 1990 figure includes an extraordinary gain on the repurchase of debt of $4,149,000.

For the six months ended June 30, 1990 revenues were $24,961,000 compared to $25,808,000 in the prior year. Net loss for the 1990 six month period was $988,000, or $.20 per share, compared to net income in the first six months of 1989 of $240,000, or $.05 per share. The 1990 figure includes an extraordinary gain on the repurchase of debt of $4,411,000.

Commenting on the results, Jack Rosen, chairman of the board of Continental Health, said "By completing the sale of the home health care division and repurchasing a significant part of our debt, we have accomplished two major objectives. The division sale has allowed us to streamline our operations and focus on our infusion therapy and nursing home businesses. The reduction of debt lowers our operating costs and facilitates increased cash flow to expand and improve these businesses."

"Operating results continue to be negatively impacted by start-up expenses of the recently opened Norwood nursing home. Occupancy levels are anticipated to be at break-even levels in the third quarter," he added.

"With the combination of management's efforts on existing businesses, the projected profitability of the Norwood facility later this year, and the recent repurchasing of debt, we are anticipating healthy growth for the company in the months to come," Rosen said.

Continental Health Affiliates, Inc. is a leading provider of alternative health care through its congregate, residential and skilled- care facilities for the elderly and its network of out-patient services, including home health care by providing technologically advanced therapies that are administered in the home. The company's services are marketed nationally by a professional sales organization.

#90227p5645 08/15/1990 ~PR Newswire

LANSING, MICH. (AUG. 15) PR NEWSWIRE - Granger Renewable Resources of Lansing has signed two power sale contracts with Consumers Power Company which allow Granger to sell the utility 1.5 megawatts of capacity from its Dewitt Township landfill in Clinton County and 1 megawatt of capacity from a proposed plant in Venice Township in Shiawassee County.

Both projects are waste-to-energy operations which will convert methane gas, produced naturally in landfills, into usable energy.

Commercial operation of the Dewitt Township project is expected to begin in 1993, and the Venice Township plant is scheduled for 1992.

In June, Granger and Consumers announced a landfill gas project which will produce energy for more than 1,500 Lansing area homes.

"We are very pleased to continue our cooperative relationship with Consumers Power," said Kurt Guter, president of Granger Renewable Resources. "These kinds of projects help to meet the state's energy needs while putting to use the gas which is produced naturally in our landfills and reducing our need for imported oil."

Granger also provides gas to Motor Wheel where it is burned in an industrial boiler to make steam used to run the factory.

Granger owns and operates two Lansing area landfills, a recycling center and a waste collection company.

BUFFALO, N.Y. (AUG. 15) PR NEWSWIRE - Cellular Products, Inc. (NASDAQ: CELP), a company engaged in the development and marketing of biotechnology products, today reported financial results of the current fiscal year's first quarter, ended June 30, 1990. On total revenues of $438,559, the company lost $47,006 from operations with a total loss for the period of $117,317. The total loss for the quarter includes a charge against earnings of $77,000 for the issuance of stock to Janney Montgomery Scott Inc. On total revenues of $438,559 the total loss was $0.01 per share. This compares with a loss of $81,962 or $0.01 per share on revenues of $830,668 for the corresponding quarter during the prior fiscal year. Average common shares outstanding increased to 8,237,213 from 7,981,718 over the period.

During the period ended June 30, 1990, the company experienced an overall decrease in revenues as a result of the discontinuance of the marketing agreement with E.I. Dupont. However, revenues adjusted for the loss of Dupont were up 49 percent in the period. Adjusted revenues rose from $293,542 to $438,559 as the company refocused activities on it's own internal operations. Additionally, when the loss is adjusted for non-cash expenses of depreciation of $66,183, amortization of $11,637 and professional fees of $70,312 the company experienced a cash positive gain of $30,184 from operations, The professional fees represented the cash value of securities provided to the company's investment banker, Janney Montgomery Scott, Inc. as payment for its continued efforts in seeking a

suitable merger and/or marketing partner.

According to Dr. Richard Montagna, Cellular Products president, "Although not readily apparent from a cursory review of our statements, the company has successfully achieved its goal to stem its losses and begin to move the organization into a realm of potential profitability. Our cash gain from operations represents the first such gain in the company's history." Montagna added, "We also continue our discussions with several potential merger partners and remain optimistic that we will be able to achieve our overall goals."

#90227p5647 08/15/1990 ~PR Newswire

NEW YORK, AUG. (15) PR NEWSWIRE - TPI Enterprises, Inc. (NASDAQ: TPIE), and AMC Entertainment, Inc. (AMEX, PSE: AEN), announced today that their wholly owned subsidiaries have agreed to amend the asset purchase agreement between them to terminate the agreement with respect to all but five of the remaining theatres not yet purchased by TPI from AMC. TPI will continue to have an option to purchase the five theatres.

In February 1989 and May 1990, TPI completed the purchase of interests in 56 theatres from AMC for approximately $125 million pursuant to an asset purchase agreement signed in August 1988. The agreement initially applied to 90 theatres. The most recent amendment terminates the agreement on the remaining 35 theatres, except to the extent it gives TPI the option to purchase interests in up to five of those theatres. The five theatres are located in metropolitan areas in which TPI previously purchased theatres from AMC. The option will expire on Nov. 21, 1990. There can be no assurance that the option will be exercised or if exercised, the purchases consummated.

AMC Entertainment, Inc., headquartered in Kansas City, Mo., owns/manages the second largest motion picture theatre circuit in the United States. At July 31, 1990, the company operated 1,616 screens in 27 states and the District of Columbia.

TPI Enterprises, Inc., through it two wholly-owned subsidiaries -- TPI Restaurants, Inc. and TPI Entertainment, Inc. -- currently owns and operates 166 Shoney's, 64 Captain D's and 10 other popularly-priced, full service family restaurants and 56 movie theatres containing 383 screens.

#90227p5649 08/15/1990 ~PR Newswire

MINNEAPOLIS (AUG. 15) PR NEWSWIRE - Techne Corporation (NASDAQ: TECH) announced for the three months ended June 30, 1990, consolidated revenues were $4,295,155, net income after provision for income taxes was $555,720 and earnings per share was 6.6 cents. Compared to the fourth quarter of FY89 revenues increased by $855,477 (25 percent) and earnings after tax increased by $387,631.

For fiscal year 1990, Techne had after tax income of $1,181,466 on revenues of $15,681,533 and earnings per share of 14 cents. Compared to FY89 revenues increased $3,214,432 (26 percent) and earnings after tax increased $801,476.

The primary difference between the results of FY89 and FY90 was the performance of Techne's Hycel S.A. subsidiary. Compared to FY89, Hycel's revenues increased by $623,795 (11 percent) and net loss decreased from $243,171 to income of $372,736 as a result of the increased sales and decreases in selling, general and research expenses. Techne's R&D Systems subsidiary's sales increased $2,590,637 (37 percent) from FY89 while marketing and research costs increased proportionately, resulting in a $184,070 increase in earnings after tax.

#90227p5650 08/15/1990 ~PR Newswire

DALLAS (AUG. 15) PR NEWSWIRE - Edisto Resources Corporation (AMEX: EDS) today reported net income of $ 3.3 million, or $0.16 per common share after preferred dividends, on revenues of $15.2 million for the second quarter of 1990, compared with a net loss of $7.3 million, or $0.74 per common share after preferred dividends, on revenues of $12.6 million for the same quarter a year ago.

Net income for the current three month period reflects a gain of $11.9 million resulting from a redetermination of Edisto's interest in Hall-Houston Offshore. Net cash provided by operations was $15.5 million for the second quarter, compared with $7.2 million for the same quarter in 1989.

Net income for the six months ended June 30, 1990 was $503,000, or a loss of $0.14 per common share after preferred dividends, compared with a net loss of $36.7 million, or $3.32 per common share after preferred dividends for the first six months of 1989. Net loss for the prior year six month period includes a $22.0 million noncash charge to earnings resulting from property sales. Net cash provided by operations for the six months ended June 30, 1990 was $19.6 million, compared with $7.9 million for the same six month period of the previous year.

Revenues for the current three and six month periods increased when compared with the same periods of 1989 primarily because of an increase in natural gas production from offshore properties. Certain operating costs, including lease operating expenses, abandonment and exploration costs and depreciation and depletion were higher than those of the previous year, reflecting increased drilling and production activity. Interest expense for the second quarter and six month periods of 1990 declined by 30 percent and 32 percent, respectively, when compared with prior year periods because of a lower effective interest rate resulting from a 1989 debt refinancing.

A mid-year reserve update at July 1, 1990 showed pro forma proved oil and gas reserves (to include reserves attributable to ESCO Energy, Inc. which was acquired in July 1990) of 8.8 million barrels of oil and 162.8 billion cubic feet, compared with 1989 year-end proved reserves of 9.7 million barrels of oil and 136.6 billion cubic feet of gas, indicating the company replaced approximately 110 percent of its production during the first six months of 1990.

Edisto Resources Corporation's consolidated activities include the production of oil and gas, the exploration for, and the development of, oil and gas reserves and the acquisition of oil and gas properties.

CONTACT: Rhonda L. Wright, manager-investor relations, 214-880-9330, or Margaret C. Bell, senior vice president, 214-880-9341, both of Edisto.

#90227p5654 08/15/1990 ~PR Newswire

LONDON (AUG. 15) PR NEWSWIRE - Guinness PLC and Greene, King and Sons, plc have announced today that Guinness PLC has acquired the 25 percent shareholding and loan stock interest in The Harp Lager Company owned by Greene King for 6 million pounds sterling. The Harp Lager Company will now be a wholly owned subsidiary of Guinness.

Greene King has held a substantial shareholding in The Harp Lager Company since 1979, as part of a long-term agreement for the supply and distribution of Harp's portfolio of lager brands, including Kronenbourg 1664. This shareholding provided Greene King with a stake in the Harp lager brewery on the Park Royal site of Guinness Brewing.

Over the last five years Greene King has enjoyed continued growth in its sales of Harp brands, well ahead of market trends. This increase in Harp Lager volume has allowed Greene King to exercise its option, contained in the long-term distribution agreement with Harp, to brew Harp under license. Consequently, Greene King made a major investment in its own lager brewery at Biggleswade, where it began production of Harp earlier

this year. The successful transition to licensed brewing has thus removed the rationale for Greene King to maintain a share in the Harp lager brewery at Park Royal, and hence its shareholding in Harp.

"We have been delighted with the success of the Harp and Kronenbourg brands throughout our tied estate and free trade business," said Simon Redman, chairman of Greene King. "The sale of our shareholding in The Harp Lager Company is a logical step now that we are brewing Harp lager under license. Our continuing brewing and distribution agreements will maintain our commitment to the Harp brands; our lager strategy is now in place for the 1990's."

"Greene King has made a significant contribution to the development of The Harp Lager Company," said Peter Lipscomb, managing director of Guinness Brewing and Chairman of The Harp Lager Company. "The new arrangements will ensure the continued success of Harp into the future."

CONTACT: Bill Spears of Guinness PLC, 011-4471-486-0288, or Simon Redman, chairman of Greene, King & Sons, plc, 011-44-284-763222, or Karyn Plickert of Dewe Rogerson Inc., 212-688-6840, for Guinness

#90227p5655 08/15/1990 ~PR Newswire

HARTFORD (AUG. 15) PR NEWSWIRE - Connecticut Natural Gas Corporation (NYSE: CTG) today reported a consolidated net loss from continuing operations of $613,000 for the quarter ended June 30, 1990, up from the $82,000 net loss recorded for the same quarter of 1989. The consolidated net loss per share was 8 cents compared to a net loss of 1 cent recorded for 1989.

Consolidated net income from continuing operations for the six months ended June 30, 1990, was $9,063,000 ($1.08 per share) compared to $7,876,000 ($1.01 per share) reported for the six months ended June 30, 1989.

For the 12 months ended June 30, 1990, consolidated net income from continuing operations totaled $14,185,000 ($1.72 per share) compared with net income of $9,511,000 ($1.23 per share) reported for the 12 months ended last year. Consolidated revenues for the 12 months ended June 30, 1990, were $230,319,000, compared with revenues of $199,320,000 reported for the comparable period a year ago. Discontinued operations per share earnings for the 12 months ended June 30, 1990, were a 6 cent per share loss versus income of 1 cent per share reported in the comparable period ended June 30, 1989. After including the effect of discontinued operations, consolidated earnings are $1.66 for 1990, compared to $1.24 for 1989.

Frauenhofer, president and chief executive officer, indicated that increased revenues between all comparable periods are principally attributable to the new higher gas rates which first became effective in September 1989. A greater second quarter loss was recorded in 1990, as compared to 1989, because the increases in revenues during the period were inadequate to overcome greater increases in operating costs.

The greater year to date and 12 months earnings increases have been supported by cumulative higher profit margins on sales to interruptible customers, which offset reduced sales to our firm customers, during the warmer weather experienced in the first six months of 1990.

STAMFORD, CT (AUG. 15) PR NEWSWIRE - Michael Brown, president of The Thomson Corporation (Toronto Stock Exchange: TOC), today announced a major executive change, effective Jan. 1, 1991.

Robert C. Hall, currently chief executive officer of Thomson Financial Services (TFS), will be appointed chief executive officer of the Information/Publishing Group, and will become a director of The Thomson

Corporation effective Jan. 1.

"To assist in this transition, Bob Hall will assume the new role of chief operating officer of IPG, effective Sept. 1, 1990. Bob Hall joined TFS as president/chief operating officer in 1985, becoming chief executive officer on Jan. 1, 1989. TFS has experienced a rapid rate of growth and strong profitability since its inception in 1985. Prior to joining Thomson, Bob Hall held a number of senior executive positions, including chief executive officer of SBS (a joint venture of IBM, AETNA and COMSAT), executive vice president of the New York Stock Exchange, chief executive officer of the Securities Industry Automation Corporation and group vice president of Control Data Corporation. Bob Hall's successor in TFS will be announced shortly," Brown said.

Kenneth Thomson, chairman of The Thomson Corporation, said: "Bob Jachino is a long-standing and close colleague with whom we have all enjoyed a warm relationship. Under his leadership, Thomson Information/Publishing Group has become one of the leading businesses of its kind in the world. Not least of Bob's achievements is the extremely strong and experienced management team he will leave in place. Bob Hall and his colleagues will take IPG on to still greater success."

The Thomson Information/Publishing Group has operations in the United Kingdom, North America, Australia and Scandinavia, which generate revenues of over U.S. $2 billion and employ over 21,000 staff. The parent company, The Thomson Corporation, also has strong and leading interests in newspapers and leisure travel, and generates total worldwide revenues of over U.S. $5 billion.

WAUKESHA, WI (AUG. 15) PR NEWSWIRE - Hein-Werner Corp. (AMEX: HNW) today announced that its Winona Van Norman division has signed an exclusive sales and marketing agreement with Ingenious Devices Limited (IDL) of Ontario, Canada to sell the entire IDL equipment line worldwide. Winona Van Norman is the recognized leader of engine rebuilding equipment in the United States.

A new sales company will be formed, Winona IDL, and the former IDL sales representatives in Canada and the United States will join the new company. Winona IDL will include all of IDL's present product line plus selected Winona Van Norman cylinder head rebuilding equipment.

Hein-Werner also has acquired the worldwide rights to a new robotic CNC

cylinder head rebuilding machine which will be offered exclusively through its Winona Van Norman division. This equipment is state-of-the- art and will provide Winona Van Norman distinct competitive advantages in the marketplace.

Joseph L. Dindorf, president and chief executive officer, said, "This is an outstanding opportunity for our company. Winona IDL will now offer one of the most complete and extensive product lines to small specialized engine rebuilding and cylinder head reclamation shops. This partnership will further solidify Winona Van Norman's leadership position in engine rebuilding equipment."

Hein-Werner Corp. is a leading worldwide manufacturer and marketer of collision repair, automotive service and fluid power equipment. The company has manufacturing operations in the United States, Canada, Mexico and Europe.

KANSAS CITY, MO. (AUG. 15) PR NEWSWIRE - Torotel, Inc. (AMEX: TTL), the manufacturer of magnetic electronic components, today announced it was awarded a $2.3 million contract from Rockwell International, of Duluth, Ga. Shipments will begin during the second quarter, ending Oct. 31, 1990 and will run through June 1991.

The contract is for the Hellfire missile, one of the U.S. Army's most effective anti-armor weapon systems, and is the primary system on the AH-64 Apache helicopter. Torotel will provide the magnetic components used in the switched-mode supplies as well as in the headcoil assembly, which operates the gyro optics and controls the missiles's detonation.

"The $2.3 million award is the first production contract of a four-year procurement program," said Alfred F. Marsh, Torotel president. "Its size is particularly significant for Torotel, representing about 25 percent of our total revenues for fiscal 1990, which ended in April. In addition, another contact is imminent for 500 Hellfire systems for the government of Israel. These are two examples of why we expect to post high sales and earnings for fiscal 1991."

Torotel's year-end results for fiscal 1990 included net sales of $9.2 million and net earnings of $337,000, or 13 cents per share.

Torotel, Inc. specializes in the design and high-volume manufacture of a broad line of precision magnetic components used in military and

industrial electronic systems. These components, which include transformers, chokes and toroidal coils, are sold to original equipment manufacturers for use in such products as avionic equipment, marine communication and navigation, telecommunications and weapons fire control systems. The company has a customer base of more than 400 companies and over 85 percent of its sales are for defense applications.

CONTACT: Al Marsh, president of Torotel, 816-761-6314; Lynne Franklin or Holly Goldin, 312-266-7800, Regina Ryan, 212-661-8030, both Financial Relations Board for Torotel

DETROIT (AUG. 15) PR NEWSWIRE - Michigan Bell customers in many Detroit exchanges soon can have the first of a new generation of "smart" calling services, allowing them to receive only the calls they want, return missed calls easily -- even redial busy numbers while they're away from the phone.

Michigan Bell President Kenneth E. Millard said, "What's really 'smart' about these services is the increased control and convenience they give our customers."

Authorized by the Michigan Public Service Commission (MPSC) Aug. 9 and available effective Sept. 4, the four new offerings -- advanced additions to the Custom Calling line -- are:

-- Call Screening, which allows customers to divert unwanted calls -- even from unknown numbers -- to a telephone company recording. Call Screening helps customers prevent interruptions and restrict unwanted calls;

-- Distinctive Ringing, which gives a special ring to a group of up to 10 phone numbers -- e.g., parents, children, bosses -- selected by the customer. The feature allows customers to determine which calls are especially important before they pick up the phone;

-- Automatic Callback, which lets customers return a missed call, even if they don't know the phone number -- for example, when they're outside mowing the lawn or just coming in the door with an armful of groceries; and,

-- Repeat Dialing, which dials a busy number for up to 30 minutes, freeing the caller to wash the car, do the laundry -- even talk on the phone to someone else until the other number is available.

The new services will be available initially in 68 Detroit exchanges serving more than 350,000 residence customers. Michigan Bell will introduce the services in stages as it installs the needed equipment and

software in its call-processing centers.

Call Screening is priced at $4.50 a month, the others at $4 a month. During a 30-day introductory period, Michigan Bell will waive a one-time setup charge of $7.50 for existing customers.

NEW ORLEANS (AUG. 15) PR NEWSWIRE - McDermott International, Inc. (NYSE: MDR), announced that its Babcock and Wilcox (B and W) operating unit received an interim contract from Aeroject of Sacramento, Calif., to manufacture the reuseable steel casings for the Space Shuttle Advanced Solid Rocket Motors (ASRM). B and W also received a companion interim contract from Lockheed Missiles and Space Company of Sunnyvale, Calif., for related equipment acquisition and installation.

These interim contracts are expected to be converted into long-term contracts valued at more than $ 210 million over five years later this summer. A contract option could be worth an additional $240 million with work beginning in the mid-1990s and continuing through the balance of the decade.

B and W plans to produce the ASRM casings at Mt. Vernon, Ind., in an existing facility that will be renovated over the next two years. The production process takes extensive advantage of new materials, manufacturing techniques, automation and process control technology. B and W will perform a comprehensive development program on these processes in parallel with facility renovation. Initial production will begin in 1992 with the first ASRM powered space shuttle launch scheduled in late 1995.

Once completed, the ASRM casings will be barged along the inland waterway system from Mt. Vernon to Yellow Creek, Miss., where Aerojet will complete the manufacturing process.

The finished motors will then be barged to the shuttle launchport at Kennedy Space Center in Florida.

Lockheed Missiles and Space Company is the prime contractor and systems integrator on the ASRM project. Lockheed was awarded a long- term contract by NASA's Marshall Space Flight Center for the ASRM Project in May 1990. Aerojet will be Lockheed's principal subcontractor and will design, develop and manufacture the ASRMs at Yellow Creek.

McDermott International, Inc., is a leading worldwide energy services company. The company and its subsidiaries manufacture steam- generating

equipment, defense products, and tubular products. They also provide engineering and construction services for industrial and utility facilities onshore, and to the oil and gas industry offshore.

WASHINGTON (AUG. 15) PR NEWSWIRE - The following was issued by the Communications Workers of America:

At approximately 3:30 a.m. today, the Communications Workers of America (CWA) and Western Union reached tentative agreement on a new two-year contract covering some 2,500 workers.

The union beat back a series of retrogressive company proposals. The tentative agreement ends a four-day lock-out imposed by Western Union management.

"We are extremely pleased with this agreement," said CWA President Morton Bahr. "It is clearly one in which our members can be proud and one that will serve the shareholders and customers of Western Union well."

The union was successful in:

-- Beating back company efforts to further shift rising health care costs to active employees and their dependents.
-- Negotiating a wage increase of 3.5 percent each year (7 percent over the life of the contract) plus increases for part-time employees.
-- Saving the Wage Investment Plan (WIP), a profit-sharing plan the company was attempting to eliminate.
-- Maintaining pensions at their current levels.
-- Winning four days back-pay for all employees locked-out by the company.

"All we have asked is that we be treated fairly, and we believe that this settlement reflects the company's recognition of that," Bahr said. "We're sure that Western Union customers will be happy to have our dedicated and skilled members back providing excellent service."

The union contract expired at midnight on Aug. 6. CWA and Western Union continued to bargain past the contract expiration. On Aug. 11, the company locked out the union members, but negotiations continued. "This new agreement is retroactive to Aug. 7, 1990," Bahr said, "thus protecting the wages and benefits of our members throughout this negotiating period."

CWA members began returning to work today. The contract is tentative

pending ratification by the members. The ratification will be done by mail ballot and final results should be tallied by early September.

In view of the announced purchase by AT&T of Western Union's Business Services Group, plans will soon be underway for negotiations between AT&T and CWA for the 400-500 workers who will be transferred to AT&T as a result of the sales agreement.

LOS ANGELES (AUG. 15) PR NEWSWIRE - Scotti Brothers Entertainment Industries, Inc. and All American Television, Inc. (NASDAQ: ALLT) today jointly announced the extension to Sept. 14, 1990 of the time period during which Scotti Brothers can exercise its right to acquire all of the shares of certain principal shareholders of All American.

The exercise period was extended pursuant to the terms of the option agreement entered into on May 18, 1990 by Scotti Brothers and such shareholders who, together, own approximately 42.5 percent of the outstanding shares of All American.

The option agreement contemplates a merger, business combination or similar transaction between All American and Scotti Brothers. Scotti Brothers is currently negotiating with a group of investors for the financing of such transaction. No binding commitment has been entered into with investors.

Scotti Brothers is a privately held entertainment corporation based in Los Angeles. Its divisions include a record company, a motion picture production and distribution company, a television production company, and an international sales and distribution organization for motion pictures and video.

All American is a New York-based publicly traded company engaged in the distribution of television programming to domestic and international television stations, cable television networks and home video markets, and the sale of commercial time to advertisers.

CONTACT: Tom Bradshaw, senior executive vice president of Scotti Brothers Entertainment Industries, (213) 450-3193, or Joseph E. Kovacs, chief operating officer of All American Television, (212) 818-1200.

LOS ANGELES (AUG. 15) PR NEWSWIRE - Andersen Consulting has been awarded a $10.2 million contract to implement integrated management and administrative systems for JPL's Management and Administrative Support Systems (MASS) program. The Andersen contract will involve the development of integrated software for much of JPL's operations.

Prior to this award, in 1989, JPL also awarded Andersen a contract to implement a purchasing and a human resource management system.

The scope of the program encompasses accounts payable, general ledger, and product and service procurement. The project addresses every aspect of system integration activities, including management and administration, quality assurance, operations and maintenance, systems engineering, and education and training.

The upgrades to be implemented by Andersen Consulting will enable JPL to operate with increased long-term efficiency and productivity. The improvements will also allow JPL to accommodate its increasingly demanding business and information needs far into the future.

JPL, which is both a federally funded installation of NASA and an operating division of the California Institute of Technology (CalTech), is based in Pasadena and has been involved in virtually all U.S. unmanned space missions, including current exploration by the probes Voyager, Magellan and Galileo.

Andersen Consulting, the world's largest systems integration consulting firm, is made up of more than 19,000 professionals worldwide, including over 350 in Southern California. Andersen Consulting is very active in planning, design, implementation, operation, and ongoing support of information systems for the world's major industries, governments and service organizations.

MINNEAPOLIS (AUG. 15) PR NEWSWIRE - The Valspar Corporation (AMEX: VAL), a major coatings company, reported third quarter earnings of $10,064,000 compared to $8,460,000 a year ago and earnings per share of 92 cents, a 21 percent increase versus 76 cents per share last year. Sales for the quarter were $160,993,000, up ten percent from $146,072,000 the previous year.

For the first nine months earnings increased 13 percent to $19,872,000 versus $17,638,000 last year, earnings per share were $1.82, up 16 percent from $1.57 last year and sales were $423,455,000, up 11 percent from $381,009,000 a year ago.

C. Angus Wurtele, Valspar's chairman, commented that "Valspar's Consumer and Special Products Groups showed strong results for the quarter, while the performance of the Industrial Coatings Group continued to reflect the weakening condition in the industrial economy."

Wurtele said that "while recent events in the Middle East add more uncertainty to the economic outlook, we believe that Valspar should finish the year with a good fourth quarter and another year of record results."

The board of directors at its meeting on Aug. 15 declared a regular quarterly dividend of 13 cents per share payable Oct. 12, 1990, to shareholders of record on Sept. 28, 1990.

MONTREAL (AUG. 15) PR NEWSWIRE - The board of directors of Techbyte International Inc. today announced an agreement between Techbyte International (USA) Inc., a wholly owned subsidiary, and William K. Bradford Publishing Company of Acton, Mass., whereby a non-exclusive, worldwide license is granted to Bradford Publishing Company to publish a version of Techbyte's ClassMaster(R) software for the Apple(R) Macintosh(R) computer. Bradford will publish the software under its private label.

ClassMaster is an educational productivity system designed for use by educators at elementary, secondary, and college levels for managing student achievement.

"The market for software productivity tools for teachers is growing rapidly," stated William D. Gattis, president of Techbyte International Inc., "and the recent initiative by the National Education Association to encourage each teacher to obtain and use a personal computer will certainly encourage continued growth."

A unique and attractive feature of the ClassMaster software is its ability to import and export information from other different computer systems and educational software applications, which greatly expands its usefulness.

Scott Bowers, vice president for sales and marketing of Techbyte International (USA) Inc., described the agreement with William K. Bradford as the first of several such agreements, which will place the ClassMaster concept into several distribution channels. Bowers stated that "every publisher that has seen this software has wanted it." In addition,

Bowers said that Techbyte would sell a version of the product directly to major school systems in the United States and Canada under the ClassMaster label beginning in the fall. He added that ClassMaster for the Apple Macintosh is scheduled for publication in late summer 1990 by Techbyte, and a second MS-DOS(R) version for IBM(R) compatibles is scheduled for publication in November, 1990.

William K. Bradford is an educational publishing company specializing in educational software for the K-12 market. Bradford publishes and distributes the D.C. Heath line of educational software through an arrangement with D.C. Heath Publishing Company, of Lexington, Mass., a well-known major textbook publisher in the United States, as well as publishing additional titles under the Bradford label.

HOUSTON (AUG. 15) PR NEWSWIRE - KCS Group, Inc. (NASDAQ-NMS: KCSG) announced today that its Enercorp subsidiary has acquired an additional 33 percent working interest in the San Salvador field in Hidalgo County, Texas, from Esenjay Petroleum Corp., bringing its working interest in the field to 51 percent.

The San Salvador field, which covers approximately 900 acres, currently has four producing wells and offers additional development potential. The purchase significantly increases KCS's gas reserves according to a company spokesman.

The San Salvador purchase follows a recently announced contract to acquire for $21.5 million a 150-mile intrastate natural gas pipeline in Texas running from north of Houston to a point 20 miles northeast of Madisonville, Texas, in which Enercorp will have a 90 percent interest.

KCS Group has major subsidiaries in oil and gas services, exploration, production and transportation, as well as energy marketing and energy consulting.

PRAGUE, CZECHOSLOVAKIA (AUG. 15) PR NEWSWIRE - Young & Rubicam announced today that it was strengthening its leadership position in Eastern Europe by becoming the first Western company to establish an advertising agency in Prague. The new firm, at present known as AB Line Studios, will be called Young & Rubicam Czechoslovakia and opens on Sept. 1.

"The pace of political and economic change in the past year alone in Czechoslovakia has been breathtaking," said Joseph De Deo, president and CEO of Young & Rubicam Advertising. "The new Czech government is committed to significantly raising the standard of living of its citizens and we have every reason to believe they will succeed over time.

"Young & Rubicam enters the country at a wonderful crossroad to the future. Advertising by Western companies is now permitted in most media -- including television and radio. It is an exciting time filled with real possibilities for growth of Western business. Beyond this, I believe we can help Czechoslovakia as it strives toward building business in the West," he continued.

"The key to opening this agency was finding the right partner -- a strong creative leader who shares our goals and standards," said De Deo. "We were very lucky. After a careful search we found that partner, Jiri Kratena."

Young & Rubicam Czechoslovakia will be headed by Kratena, who has been active in the communications business in Czechoslovakia for the past two years. His company AB Line Studios is privately held and was one of the first to develop local commercial advertising campaigns. It is also regarded as one of the most creative in the country.

Kratena, a former student of the Prague Film Institute, has also directed several major television documentaries for Czechoslovakia.

The agency's client list includes several Czech companies including Radio Vox (the country's first private radio station) and Motokov, one of the largest Czech trading companies manufacturing a wide variety of consumer durables and industrial products. He has also worked on projects for various Western companies.

"We are delighted to join with Young & Rubicam," said Kratena. "Their creative spirit is matched by their vast expertise. We look forward to employing the agency's enormous worldwide communications skills and resources and using them in our country," he said.

In July 1989 Young & Rubicam established an office in Budapest, Hungary, which is the largest international agency in that country with billings of $5 million and a staff of 80. In 1988, Young & Rubicam became the first Western marketing communications agency to open in the Soviet Union. Y&R/Sovero remains the largest operations of its type in that country.

#90227p5695 08/15/1990 ~PR Newswire

FORT WORTH, TX (AUG. 15) PR NEWSWIRE - Sunbelt Nursery Group Inc. (AMEX: SBN) today announced substantial gains in earnings for the second quarter and first half of fiscal 1991, over the like periods of the previous year. Sunbelt's 1991 fiscal year runs from Feb. 1, 1990 to Jan. 31, 1991.

For the second quarter, ended July 31, 1990, Sunbelt reported net income of $4,891,000, or $1.24 per share, on sales of $39,438,000, compared with a net loss of $11,641,000, or $3.13 per share, on sales of $38,271,000 for the same period a year ago.

For the first half of fiscal 1991, net income was $11,881,000, or $3.03 per share on sales of $87,942,000, compared with a net loss of $6,548,000, or $1.81 per share, on sales of $90,721,000 in the same period a year ago.

The fiscal 1991 first half and second quarter earnings included extraordinary credits for tax loss carryforwards of $1.07 and 44 cents per share, respectively. The fiscal 1990 losses reflect the $16 million provision the company made in May 1989 to cover the costs associated with closing 53 retail locations.

Donald W. Davis, Sunbelt's president and chief executive officer, credited the improved operating results to a variety of factors.

"We benefitted from excellent weather during the second quarter, which is normally one of our stronger periods," Davis said. "And, we experienced greater demand than usual from nursery products because of the freeze last winter that killed and damaged lawns and plants in the Southwest.

"Our people did a good job of anticipating and meeting that demand," Davis said. "Consequently, sales increased dramatically and we enjoyed stronger profit margins from the rapid turnover in inventory."

The chief executive noted that although sales appeared flat from one year to the next, the prior year's results included the totals from 53 stores that were later closed. Actually, he noted, comparable store sales for the second quarter were up 12 percent over those of the same period last year.

Sunbelt Nursery Group Inc. is the dominant nursery enterprise in six of the 11 largest lawn and garden markets in the United States, with 96 stores that feature nursery stock and lawn and garden supplies. The company's common stock is traded on the American Stock Exchange under the symbol SBN.

ATLANTA (AUG. 15) PR NEWSWIRE - KnowledgeWare Inc. (NASDAQ-NMS: KNOW), a leading developer of Computer-Aided Software Engineering (CASE) products, today announced its financial results for the quarter ended June 30.

The company reported net income for the quarter of $3,600,000, or $.29 per share. Revenues for the quarter were $22,323,000, up 44 percent from revenues of $15,473,000 for the corresponding period of 1989.

For the fiscal year ended June 30, net income totaled $9,764,000, or $.83 per share, compared to $6,322,000, or $.74 per share for fiscal 1989. Revenues for fiscal 1990 were $66,229,000, compared to revenues of $32,958,000 for fiscal 1989.

"We are extremely proud of our financial performance during the fourth quarter and for the entire fiscal year," said Fran Tarkenton, KnowledgeWare's chairman and chief executive officer. "Not only did we meet our earnings per share goals for the quarter and year, but we accomplished this with the challenges of a significantly higher tax rate compared to fiscal 1989, and an increased number of shares as a result of the initial public offering in October 1989. In addition, we hired 275 new employees during the fiscal year, an increase of 143 percent from the starting headcount in July 1989. This staffing level positions us well to meet our financial goals for fiscal 1991, as well as to provide both the product development and marketing capacity to capitalize on the increased CASE market potential created by the release of AD/Cycle, IBM's CASE strategy for application development.

"Comparisons of our fourth-quarter earnings and revenue are complex," Tarkenton continued. "During the fourth quarter of fiscal 1989, the company realized $2,600,000 in revenue from a technology licensing agreement with IBM, which accounted for $.23 of the quarter's $.41 earnings per share. Although we completed a licensing agreement in the fourth quarter of fiscal 1990 with a Japanese affiliate of Ernst & Young, the contribution to both revenue and earnings per share from that agreement was considerably less than the licensing agreement in fiscal 1989 with IBM."

During the June 30 quarter, KnowledgeWare introduced two additional workstation-based products for the OS/2 operating system, thus providing a complete set of "full lifecycle" CASE products, the Application Development Workbench(TM), for OS/2. "We are pleased with the tremendous

initial acceptance of our OS/2 products," said Terry McGowan, president. "With the first two OS/2 products initially available for shipment in March 1990 and the remaining two during June 1990, we were able to ship approximately 6,000 OS/2 products domestically by the end of the June quarter. The volume of shipments was especially gratifying, since shipment to international customers does not commence until the first quarter of fiscal 1991," McGowan continued.

KnowledgeWare develops, markets and supports Computer-Aided Software Engineering (CASE) tools for use by information systems development professionals. The company has offices throughout the United States, and distributors in 31 countries. KnowledgeWare has been marketing its products since 1985 and is an IBM business partner for AD/Cycle, IBM's application development strategy.

IBM, AD/Cycle, and OS/2 are trademarks of International Business Machines Corporation.

#90227p5705 08/15/1990 ~PR Newswire

SAN FRANCISCO (AUG. 15) PR NEWSWIRE - Hyatt Hotels Corp. has announced that Peter Goldman, one of the most well-known and respected hoteliers in the industry whose career spans more than 50 years, has agreed to serve as an exclusive consultant for Hyatt following his retirement from the hotel industry.

Darryl Hartley-Leonard, president of Hyatt Hotels Corp., made the announcement at the ASAE board of directors dinner he hosted July 27.

Goldman, who is known in the industry as the "patriarch of San Francisco's hotel community," was most recently vice president-Hyatt Hotels of San Francisco. He now will concentrate on special long-range projects for the entire Hyatt chain. He will also continue to service existing accounts and generate new business with key corporate and group customers nationwide and particularly throughout California, where Goldman has worked for 40 years.

"Peter has contributed a great deal to the success of our hotels, not only in San Francisco, but throughout the country," Hartley-Leonard said. "We feel extremely fortunate that he has agreed to serve as consultant to our company. And, we're very excited about the benefit that his years of experience and key business relationships will continue to bring to the entire chain."

Goldman, a native of Breslau, Germany, began his hotel career in Shanghai,

China, with Sassoon Hotel Corp./Far East in 1939. He came to the United States in 1948 to work at New York City's Waldorf Astoria Hotel, and moved to San Francisco the next year to join the Fairmont hotel chain. In 1979, he was appointed regional vice president and managing director at Hyatt Regency San Francisco, where he remained until 1988 when he was named to his most recent position as vice president-Hyatt Hotels of San Francisco. As consultant to Hyatt, Goldman will continue to work out of San Francisco.

Goldman has served as director and president of the Hotels Employers Association of San Francisco, chairman of the board of the California Tourism Council, president of the San Francisco Convention and Visitors Bureau, president of the board of the California Hotel and Motel Association, and vice president of the board of the San Francisco Chamber of Commerce.

#90227p5706 08/15/1990 ~PR Newswire

MIAMI LAKES, FL (AUG. 15) PR NEWSWIRE - Preferred Homecare of America (NASDAQ: PFRD), a home infusion therapy provider, today reported revenues of $1,471,844 compared with $729,181 for the second quarter ended March 31 1990. The net loss applicable to common stock was $306,005, or 3 cents per share, compared with a net loss of $69,810, or 1 cent per share reported in the year earlier period.

Revenues for the six month period ended June 30, 1990, increased 125 percent to $3,066,079, from the $1,360,435 reported in the first six months of 1989. The net loss applicable to common stock was $206,920, or 2 cents per share, compared with a net loss of $79,397, or 2 cents per share reported a year ago. Weighted average shares outstanding increased 118 percent to 9.8 million as a result of the company's initial public offering of 4.6 million shares.

Carlos M. Herrera, president and chief executive officer of Preferred Homecare, stated, "The strong growth in net patient revenues reported in the first six months of the year reflected the benefits of our acquisitions, increased services, and penetration of new geographic markets. However, we are disappointed that earnings did not keep pace with revenue growth during this period. Approximately 85 percent of the $207,000 loss sustained during the first half of the year was attributable to our Nursing Home Pharmaceutical subsidiary, which we expect to either sell or discontinue by Sept. 30, 1990. Additionally, we have taken steps to bring our costs under control over the balance of the year by implementing certain personnel and administrative cost reductions.

"We have grown initially from an acquisition oriented company in the $2

billion home infusion market, to the point where our sales force will play an ever increasing role in expanding revenues. We feel confident that the company's contracts with case management companies, HMOs, and hospitals will continue to contribute to future revenue and earnings growth," concluded Herrera.

Preferred Homecare of America, Inc. is a high-tech home infusion therapy company and provider of pharmaceuticals to sub-acute care facilities. The company has offices servicing patients in the metropolitan areas of Miami/Ft. Lauderdale, West Palm Beach, Tampa Bay/Pasco County, and Ft. Myers, Fla.; Baltimore/Washington, D.C.; and the New York/New Jersey metropolitan area.

MIAMI (AUG. 15) PR NEWSWIRE - Royal Palm Beach Colony, Limited Partnership (AMEX: RPB) announced today the results of its liquidating operations for its third quarter ended June 30, 1990.

Revenues for the third quarter of the current fiscal year were $1,205,000 compared with $789,000 in the three month period ended June 30, 1989. In the current quarter, the Partnership reported net income of $873,000 or 19

cents per unit, compared with net income of $114,000 or 3 cents per unit for the three months ended June 30, 1989.

Revenues for the nine months ended June 30, 1990 were $4,009,000 compared with $6,950,000 for the nine months ended June 30, 1989. For the nine months ended June 30, 1990 the Partnership reported net income of $2,027,000 or 45 cents per unit compared with net income for the nine months ended June 30, 1989 of $4,335,000 or 97 cents per unit.

The Partnership reported that it was continuing to liquidate its remaining properties, but that the pace of asset sales has declined since most of its assets have been sold. Reported earnings now consist primarily of interest earned on purchase money mortgages and recognition of previously deferred profits on prior installment sales of assets.

PASADENA, CALIF. (AUG. 15) PR NEWSWIRE - Hershey Oil Corp. (AMEX: HSO) today reported operating results for the second quarter and first half of 1990.

For the three months ended June 30, 1990, revenues were $1,364,000 compared to $1,804,000 in the like period a year ago and net loss of $193,000 or $.03 per share was reported as against net income of $42,000 or $.01 per share in last year's second quarter.

For the first half, revenues were $2,720,000 compared to $3,439,000 in the corresponding period last year. A loss of $233,000 or four cents per share, was sustained, compared to net income of $84,000 or one cent per share, in 1989's first six months.

Ralph O. Kehle, chairman and chief executive officer explained: "The volumes of oil, gas and sulphur sold by the company declined in both the quarter and the half. Water disposal problems at two important U.S. properties led to the lower oil production during the half. Purchases of natural gas from both Coleman and Benjamin Creek were limited to contract volumes this year, whereas all producible volumes were sold last year. In addition, our working interest in the Benjamin Creek field was significantly higher in 1989's first half prior to the payout of surface facilities in August 1989.

On May 9, 1990, Hershey Oil Corp. and American Exploration Co. signed a definitive merger agreement which calls for American to pay $7 per share in cash for up to 17.257 percent of Hershey's common stock and to exchange 1.611 shares of American's stock for each remaining Hershey share.

Hershey Oil Corp. is an independent oil and gas company with operations in Canada and the United States. Its stock is traded on the American, Pacific and Toronto Stock Exchanges under the symbol HSO.

ATLANTA (AUG. 15) PR NEWSWIRE - Donald R. Cooper has been named chairman and chief executive officer of Massachusetts Indemnity and Life Insurance Company (MILICO), it was announced today by Primerica Corporation (NYSE: PA), parent company of MILICO and its marketing affiliate, A.L. Williams Corporation.

Cooper succeeds J. Treacy Beyer in this position. Beyer continues as chairman and chief executive officer of A.L. Williams Corporation.

Sanford I. Weill, Primerica's chairman and chief executive officer, said, "We have brought Don Cooper on board at MILICO to allow Treacy Beyer to focus his energies on the marketing and sales efforts of A.L. Williams. Given the company's dramatic growth over the past ten years, and the opportunities we expect for continued expansion in the future, these reassignments provide a more effective allocation of our management talent. Treacy will focus on capitalizing on business opportunities, in terms of market penetration and new products, while Don Cooper's insurance management expertise will continue to advance the leadership position achieved by MILICO under Treacy's stewardship."

Beyer said, "I am delighted to turn over MILICO's reins to my highly talented and experienced colleague, and I look forward to working closely

with Don in developing new opportunities at A.L. Williams and MILICO."

Cooper, president and co-founder of Primerica's subsidiary, Resource Deployment Inc. (RDI), has more than 25 years of experience in the insurance industry. Beginning his career as an actuary with Connecticut General Life Insurance, he later became executive vice president of Transport Life Insurance Company, which was acquired in 1982 by a predecessor of Primerica. At Transport, and later at the Primerica insurance services subsidiary which acquired it, Cooper's responsibilities included the company's administrative, actuarial, planning and financial management activities.

MILICO is the underwriter of term life and accident and health coverages marketed exclusively through the A.L. Williams Corporation and its affiliated sales force. A.L. Williams also markets mutual funds and financial products in concert with several other Primerica subsidiaries.

Primerica Corporation is a diversified financial services company principally engaged in life, credit, accident & health, and property & casualty insurance, investment banking and securities brokerage, mortgage banking, mutual funds, asset management, consumer lending, credit cards and direct marketing. As of June 30, 1990, Primerica had assets of approximately $20 billion.

#90227p5720 08/15/1990 ~PR Newswire

NEW YORK (AUG. 15) PR NEWSWIRE - Winston Resources, Inc. (AMEX: WRS) today reported revenues and earnings for the second quarter and six months ended June 30, 1990.

Revenues for the quarter of $5,470,000 was approximately the same as the second quarter of 1989. The current quarter reflects a decrease in permanent placements prevalent in the sluggish Northeast market offset by the increase in temporary help revenues as compared to the second quarter of 1989.

Net loss for the quarter ended June 30, 1990, was $259,687 or $.09 per common share as compared to a net loss of $90,195 or $.03 per common share for the comparable quarter in 1989.

"The loss for the current three month period was primarily due to an increase in operating expenses in the current period as compared to the comparable period in 1989 of approximately $343,000 or 6 percent. Substantially all of this increase was related to the amortization of

intangibles, additions to staff in specialty areas, Division 10 Temps payroll, compensation related costs and the company's new Fisher Todd and Winston of N.J. operations. Our new activities and our expanded temporary help services are expected to generate increased revenues and income in the future," according to Sy Kaye, Winston's president and chief executive officer.

The company continued to maintain a liquid cash position at June 30, 1990, with approximately 16 percent of its assets in cash and cash equivalents. The company's current ratio, which stood at 3.5 to 1 at Mar. 31, 1990 was 3.4 to 1 at June 30, 1990.

Winston Resources, Inc., founded in 1967, provides a wide range of personnel recruiting, placement and temporary help services through company-owned offices and franchises to business, institutions and government agencies.

#90227p5722 08/15/1990 ~PR Newswire

GLASTONBURY, CT (AUG. 15) PR NEWSWIRE - DataImage, Inc. (NASDAQ: DATA) of Glastonbury announced today revenues and a net loss for the three-month and six-month periods ended June 30, 1990.

For the three-month period ended June 30, 1990, DataImage had total revenues of $602,649 compared to $806,809 for the same period a year ago, a decrease of 25 percent. The net loss for the three-month period ended June 30, 1990 was $165,279 (or a net loss of 9 cents per share) which compares to net income of $52,671 (or net income per share of 4 cents) for the similar period in 1989.

For the six-month period ended June 30, 1990, DataImage had total revenues of $1,333,964 compared to $1,742,570 for the same period a year ago, a decrease of 23 percent. The net loss for the six-month period ended June 30, 1990, was $288,081 (or a net loss of 16 cents per share) which

compares to net income of $119,857 (or net income per share of 9 cents) for the similar period in 1989.

Backlog as of June 30, 1990 was approximately $860,000. The decrease in total revenues for the first half of 1990 compared to the first half of 1989 was due to a 31 percent decrease in system sales, which was offset partially by the 76 percent increase in service revenues. The increase in service revenues is reflective of the increase in the installed system base since June 30, 1989. The gross profit for the second quarter 1990 was $246,024, a decrease of 17 percent from the gross profit for the second quarter of 1989. However, the gross profit margin for the second quarter was 40.8 percent which compares favorably with a gross profit margin of 36.5 percent for the comparable period in 1989 and the gross profit margin of 21.4 percent for the first quarter of 1990. The gross profit margin for the first half of 1990 was 30.2 percent down from the gross profit margin of 33.2 percent for the first half of 1989.

Much of the operating loss for the first half of 1990 is attributable to the 119 percent increase in selling, general and administrative (SG&A) expenses in the first half 1990 over the comparable period in 1989. As a result of the increase in SG&A expenses and a decrease in revenues, SG&A expenses as a percentage of total revenues were 51 percent for the first half of 1990 compared to 18 percent for the same period a year ago. The increase in SG&A expenses resulted from increased salary and expenses relative to market development, including continued expenses related to the New York City sales office, which was opened in August 1989. There were 25 employees as of June 30, 1990, compared to 15 employees as of June 30, 1989.

#90227p5723 08/15/1990 ~PR Newswire

NEW YORK (AUG. 15) PR NEWSWIRE - The Strober Organization, Inc. (NASDAQ-NMS: STRB), a leading supplier of building materials to professional contractors from 11 centers in New York, New Jersey and Connecticut, today reported results for the second quarter and six months ended June 30, 1990.

For the second quarter, the company reported a net loss of $507,000 or 8 cents per share on net sales of $28,769,000 compared to net income of $237,000 or 4 cents per share on net sales of $34,017,000 for the same period last year.

Net loss for the six months was $1,574,000 or 26 cents per share on net sales of $54,514,000 compared to net income of $353,000 or 6 cents per share on sales of $63,548,000 for the first six months of 1989.

Th e sales decrease of 15 percent in the second quarter and 14 percent in the first six months of 1990 was primarily due to a continuing decline in construction activity in the company's marketing area and also reduced sales volume due to the closing of the West Haven, Conn., center.

Reduced expenses resulting from the closing of the West Haven center and reductions in employee costs resulted in a decrease of selling, general and administrative expenses of $593,000 in the second quarter and $868,000 in the six months ended June 30, 1990, as compared to the same periods in 1989.

Litigation expenses relating to insurance claims totaled $97,000 in the second quarter and $405,000 for the first six months of 1990 as compared to $108,000 and $142,000 in the same periods of 1989.

Interest expense decreased $81,000 and $139,000, respectively, for the second quarter and six month period ended June 30, 1990, as compared to the same periods in 1989. The decrease in primarily attributable to lower bank loan balances during the 1990 periods.

#90227p5724 08/15/1990 ~PR Newswire

DALLAS (AUG. 15) PR NEWSWIRE - MCorp today reported a net loss of $188,000 in the second quarter of 1990. Net income of $1.4 million was reported in the second quarter of 1989. MCorp's second quarter loss was attributable to a loss from discontinued operations of $3.6 million partially offset by income from continuing operations of $3.4 million. The loss from discontinued operations was due to relatively high provisions for possible loan losses at certain subsidiary banks. Income from continuing operations, which reflects the operations of the combined parent companies, was principally due to interest income of $6.9 million and other income of $2 million partially offset by non-interest expenses of $4.9 million.

The discontinued operations include the results of operations of the five remaining bank subsidiaries and MVestment through the date of sale in February 1990. Management has concluded that the sale of these subsidiaries is in the best interest of the creditors and stockholders of the company and will maximize the value of the subsidiaries to the estates of the company. MCorp is currently the subject of a voluntary reorganization case under Chapter 11 of the U.S. Bankruptcy Code.

Net interest income, the amount by which interest earned exceeds interest paid, was favorably affected in the second quarter of 1990 by the non-accrual of interest on approximately $470 million of the company's unsecured debt for borrowed money in the bankruptcy cases. Net interest income amounted to $6.8 million in the second quarter. Other income of $2 million was due primarily to a recovery from a non-bank subsidiary. Non-interest expenses of $4.9 million included professional fees of $2.2 million, which relate to the Chapter 11 bankruptcy proceedings and the disposition of assets, and personnel expenses of $2.2 million.

The income reported in the second quarter of 1989 principally reflected income from discontinued operations of $4.5 million partially offset by a loss of $3.1 million from continuing operations. The loss from continuing operations primarily was attributable to a net loss of $5.5 million on the sale or writedown of investment securities.

During the first quarter of 1990, MCorp completed the sale of MVestment, a trust and investment subsidiary whose subsidiary MTrust, N.A. had statutory banking powers. MCorp realized a gain of $96.3 million on the transaction. Recognition of the gain on the sale of MVestment is being deferred pending completion of the sale of the remaining banks. The gain will be added to or netted against the gain or loss on the sale of the remaining banks.

DENVER (AUG. 15) PR NEWSWIRE - In a move reflecting its commitment to international expansion, U S WEST Marketing Resources Group named Alain Treille its new vice president of international operations.

Based in Brussels, Belgium, Treille will be responsible for expanding U S WEST Marketing Resources Group's directory publishing, software and direct marketing tools businesses in Europe. He will also identify and develop other business opportunities that help sellers sell and buyers buy, such as electronic directories. Treille will work with U S WEST International in expanding into the world market.

Treille comes to U S WEST Marketing Resources Group from ITT World Directories, where his last position was vice president and director of development and operations in Brussels until August 1989. He was managing director of ITT World Directories in the Netherlands, responsible for traditional and electronic directory publishing, as well as of ITT Publitec, the systems development and support arm for the World Directories business group worldwide. He joined ITT in Europe in 1972 and has extensive worldwide experience in directory and electronic publishing.

Treille is fluent in English and French, with a world command of Dutch, German and Spanish. He is a native of France and a naturalized U.S. citizen.

After earning his Bachelor of Sciences degree in Operations Research from Cornell University in 1966, he worked two years at Corning Glass in product development and process engineering.

Treille started his Masters of Business Administration at Cornell in 1968 and in 1969 gained a fellowship to study economics at the University of Louvain in Belgium. He completed his MBA in Finance and International Economics in 1970. Treille worked with McKinsey in New York for two years prior to accepting the position of product line manager, consumer services-Europe at ITT Europe.

"Alain will bring to U S WEST Marketing Resources Group extensive contacts in the directory business worldwide, plus an immense knowledge of business in the newly expanding European market," said Wally Griffin, president of U S WEST Marketing Resources Group.

U S WEST Marketing Resources Group, a wholly owned subsidiary of U S WEST Inc., is focused on providing the marketing information, tools and services to help bring buyers and sellers together. Through it subsidiaries, U S WEST Marketing Resources Group publishes nearly 50 million copies of 400 Yellow Pages directories in the United States, business information directories for an additional 500 communities, and ratings analysis, financial and office management software for use by advertisers, advertising agencies, broadcasters, networks, syndicators and media companies.

U S WEST Inc. is a $25 billion diversified communications company. Its major subsidiary, U S WEST Communications, serves the communications needs of nearly 10 million customers in 14 states of the Western United States.

BEDFORD, MASS. (AUG. 15) PR NEWSWIRE - Raytheon Company's Missile Systems Division today announced that four of its AEGIS-configured Standard Missile-2 (SM-2) Block II missiles were flown successfully on July 27 and 31 at the Roosevelt Roads (Puerto Rico) Missile Range.

These flights were part of an at-sea firing program to qualify Raytheon as a producer of all three SM-2 configurations -- AEGIS, TARTAR and TERRIER. The four intercepts, representing a 100 percent success rate to date for Raytheon on the sea firing exercise, complete the company's qualification on the AEGIS-configuration.

The four SM-2 missiles were fired from the U.S.S. Monterey (CG-61) in conjunction with a Combat System Ship Qualification Trial. During flight tests, they engaged four different types of aerial targets. The flight scenarios tested the missile's capability over a wide range of environments, including long-range and close-in targets. Missile intercept occurred within prediction for two of the missiles, which had inert warheads in order to conserve targets. The other two firings were warhead destructs as planned.

Raytheon's TERRIER and TARTAR-configured SM-2 missiles are awaiting firing availability, which is anticipated by November 1990.

Raytheon's SM-2 missiles are built at the company's Missile Systems Division manufacturing facility in Bristol, Tenn. The missiles tested were among those built under the FY'86 SM-2 contract for qualification and low-rate production.

Raytheon Company (NYSE: RTN), headquartered in Lexington, Mass., is a diversified, international, technology-based company active in electronics aviation, appliances, industry and environmental services, and publishing.

WICHITA, Kan. (AUG. 15) PR NEWSWIRE - COMCOA Inc. (NASDAQ: CCOA) today reported that revenues for its second quarter, a 12 week period ended July 15, 1990, increased 18 percent to $12,520,722 and resulted in net earnings of $907,500 or 18 cents per share. For the corresponding period in the prior year, revenues and net earnings were $10,591,352 and $599,864, respectively. The per share computations resulted in net earnings of 12 cents per share in the prior year.

Revenues for the first 24 weeks of the current fiscal year were $24,852,089 versus $20,527,997 for the like period in the preceding year. The current year-to-date net earnings were $2,157,993, or 43 cents per share. The net earnings in the prior year were $1,053,953, which is 21 cents per share.

COMCOA is a franchisee of Rent-A-Center of America Inc. and currently owns and operates 70 Rent-A-Center stores in Florida, Georgia, Alabama and Mississippi. The company plans to have a minimum of 75 stores in operation at the end of the fiscal year.

HIGHLAND PARK, MICH. (AUG. 15) PR NEWSWIRE - Chrysler Corporation (NYSE: C) today announced it is extending and enhancing incentives through Sept. 30 on new 1989-90 model vehicles covered in existing programs and those which expired Aug. 14.

The cash incentives, ranging from $500 to $2,500, depending on the model, are unchanged and cover all models except minivans and convertibles. However, on some models Chrysler is lowering the low interest rate financing it offers customers as an alternative to cash.

The enhanced low APR financing from Chrysler Credit of zero percent for 1-24 months, 4.8 percent for 25-48 months and 7.9 percent for 49-60 months applies to: Chrysler LeBaron coupe, New Yorker, Salon, Landau, Fifth Avenue and Imperial; Dodge Daytona and Dynasty, Jeep Cherokee and Wagoneer Ltd.

Rates of zero for 1-24 months or 2.9 for 1-24 months (depending on model), 7.9 for 25-48 months and 10.9 for 49-60 months are available on all other models.

Cash incentives by model are: $2,500--1989 Dodge Raider. $2,000--1989 Chrysler Conquest, 1989 LeBaron coupe, '89-90 Eagle Premier LTD, '89-90 Dodge Ramcharger, '89 Dakota (except S-model) and '89-90 Ram D/W series pickups (except diesel and club cab).

$1,500--'89-90 Eagle Premier ES and '89 Summit, '90 Dodge Monaco ES, '89 Dodge and Plymouth Colt and Vista, '89 Jeep Comanche (except 2WD short bed), 1990 Dakota (except S-model and Club Cab), '90 Dodge D/W series club

cab and Ram Van conversion units.

$1,000--Chrysler 1990 LeBaron coupe; '90 Imperial; '89 New Yorker, '90 Salon, '89-90 Landau and '90 Fifth Avenue; '89-90 Dodge Dynasty, '90 Monaco LE, '89-90 Daytona ES Turbo and Shelby, '89-90 Ram D/W series diesel pickup, '89-90 Dakota S-model and '90 Club Cab, '89-90 Ram Van and Wagon, '89 Ram 50 4WD; '90 Dodge and Plymouth Colt (except base 3-door and station wagon); '89-90 Eagle Premier LX, '90 Summit; all Jeep '90 Comanche models and '89 Comanche 2WD short bed, '89-90 Cherokee, Wagoneer and Grand Wagoneer.

$750--'90 Chrysler LeBaron sedan; '89-90 Plymouth Acclaim, Sundance, Horizon and '90 Laser; '89-90 Dodge Spirit, Shadow, Omni, Daytona base and ES model; '90 Plymouth and Dodge Colt base 3-door and station wagon and '90 Vista; '89 Dodge Ram 50 2WD; '90 Eagle Talon.

$500--'89-90 Jeep Wrangler.

PITTSBURGH (AUG. 15) PR NEWSWIRE - Carlow President Dr. Grace Ann Geibel, RSM, today announced that she has appointed James V. Enrietti to the newly created position of vice president of enrollment management.

His appointment, effective Sept. 1, is the culmination of an 18-month search by Carlow that will consolidate the admission, student recruitment and financial aid functions of the college. It is part of a comprehensive restructuring by Geibel that has resulted since 1989 in major changes in Carlow's academic divisions, student life areas, scholarship and financial aid offerings, and continuing education programming.

Before coming to Carlow, Enrietti was executive director of enrollment services at Thiel College in Greenville, Pa., where he was responsible for all aspects of the admission process. Prior to joining Thiel in 1983, he was program director for adult recruitment at Suomi College, and director of special education and a teacher for Barago area schools in Barago, Mich.

In his new post, Enrietti will be responsible for the overall planning, organization and direction of enrollment services at Carlow, including direct supervision of all aspects of admissions, financial aid and the recruitment of traditional-aged, adult, transfer , international and graduate students to the college. He also will oversee the admission and recruitment of students to Carlow's Continuing Education Division -- Weekend College, Hill College and the Carlow Accelerated Program. As vice president, Enrietti also will serve as one of seven members of Carlow's newly formed Administrative Team, the senior management of the college, and will report directly to the president.

In making the announcement, Geibel said that this new appointment enables Carlow to position itself for the 1990s and for continued growth in all areas of enrollment. "This consolidation also allows Carlow to optimize its admission and financial aid services to the benefit of our students."

A native of Michigan, Enrietti holds master's and bachelor's degrees in education from Northern Michigan University. He is a member of both the National and Pennsylvania associations of College Admission Counselors, and the National Association for Foreign Student Affairs.

ST. LOUIS (AUG. 15) PR NEWSWIRE - McDonnell Douglas Corp. (NYSE: MD) has chosen Unigraphics as its standard mechanical computer-aided design, manufacturing and engineering system.

Unigraphics is marketed by the Manufacturing and Engineering Systems Division of McDonnell Douglas Systems Integration Co., the corporation's commercial computer systems division.

In making the announcement, McDonnell Douglas President Gerald A. Johnston said the corporation intends to use Unigraphics as the software foundation for creating a seamless line of communication among its design, engineering and manufacturing operations.

"Our transition to this advanced computing environment will allow faster progress toward collaborative, concurrent design processes, shorter product time-to-market cycles, higher product quality and more timely customer support," Johnston said.

Unigraphics will become the cornerstone of an integrated computer-aided design, manufacturing and logistics (CAD/CAM/CALS) system that conforms with the Department of Defense's CALS initiative.

This initiative calls for computer-to-computer data exchange and the functional integration of engineering, manufacturing, support and logistics - largely through access to a common database.

According to Jim Longshore, McDonnell Douglas vice president and CAD/CAM/CALS program manager, Unigraphics was chosen because it is already widely used by McDonnell Douglas and other aerospace companies and because Unigraphics outperformed comparable systems in extensive benchmark tests.

"We consider Unigraphics, with its comprehensive manufacturing and engineering software modules and availability on different types of workstations, to be the best in its class," Longshore said.

Already, some 1,100 Unigraphics systems are in use at McDonnell Douglas.

Longshore expects this number to grow considerably over the next few years.

John J. Mazzola, vice president and general manager of McDonnell Douglas Systems Integration's Manufacturing and Engineering Systems Division, said he was extremely pleased with McDonnell Douglas' decision to adopt Unigraphics as a standard.

"The continued recognition of Unigraphics as a technology standard is beneficial to McDonnell Douglas as well as to its customers, partners and suppliers," he said. "This decision will accelerate access to major CAD/CAM benefits - such as reduced project time span - to our entire client database."

SALINE, MI (AUG. 15) PR NEWSWIRE - Philips Display Components Company (PDCC) of Ann Arbor, Mich., today, in a ceremony attended by Gov. James J. Blanchard, U.S. Sen. Carl Levin and other federal, state and local officials, began construction of its new state-of-the-art, color television picture tube plant.

Cost of the new plant will exceed $100 million and is expected to create approximately 400 new jobs in the area. Construction is expected to be completed in early 1992 and will exceed 320,000 square feet.

The new facility will initially manufacture one million 27-inch color television picture tubes and will be designed with the ability to produce high-definition picture tubes in the future.

During the ceremony, Dr. Iva Wilson, PDCC president, said the decision to build the new plant is just another example of the company's commitment to grow in and contribute to the resurgence of the consumer electronic industry in America and, more specifically, in Michigan.

"In order for Philips to operate a successful business in the highly competitive and globally oriented consumer electronic industry, we must continue to position ourselves to take advantage of opportunities," Wilson said. "The United States is the largest market for our products, and it is for this reason we choose to grow and expand here, where people who

purchase our product benefit from our success through the creation of jobs.

Wilson went on to say that Michigan was chosen for its excellent skilled workforce, the superior technological resources available in the Ann Arbor/Saline area and the positive reinforcement the company has received from all units of government.

Philips Display Components Company is a division of North American Philips Corporation. North American Philips Corporation is one of the nation's 100 largest manufacturers with more then 50,000 American employees. With its Philips, Magnavox, Philco and Sylvania audio-video brands, North American Philips is the second largest color television producer in the United States.

DETROIT (AUG. 15) PR NEWSWIRE - FirstFed Michigan Corporation (NASDAQ-NMS: FFOM) announced today that it is commencing a stock repurchase program to acquire up to 750,000 shares, or approximately 7 percent, of the corporation's outstanding common stock. The program is expected to be completed within 12 months, subject to market conditions.

In making this announcement, C. Gene Harling, chairman of the board, stated, "In view of the current market value of our common stock, combined with the corporation's financial condition, we consider the stock to be an attractive investment."

According to Harling, the repurchases generally would be effected from time to time at the discretion of management through open market purchases although he did not rule out the possibility of unsolicited negotiated transactions or other types of repurchases. Any repurchased stock will become authorized but unissued shares and will be used for general corporate purposes.

On July 25, FirstFed announced that net earnings for the first six months of 1990 totaled $12.1 million, up 24 percent from $9.8 million for the first six months of 1989.

FirstFed Michigan Corporation is the holding company of First Federal of Michigan, a Detroit-based savings and loan association. First Federal has 74 offices throughout the Lower Peninsula of Michigan. Its Bay Savings Bank subsidiary, based in Newport News, Va., operates nine offices in Virginia, and its Omni Savings Bank subsidiary has four offices in Columbia, S.C.

#90227p5759 08/15/1990 ~PR Newswire

ORLANDO, FLA. (AUG. 15) PR NEWSWIRE - Major Realty Corporation (NASDAQ: MAJR) Tuesday reported revenues of $987,000 and a net loss of $2,845,000, or ($0.41) per share for the six months ended June 30, 1990.

Revenues for the comparable period of last year were $6,298,000 and net income of $2,680,000, or $0.37 per share.

For the three months ended June 30, 1990, the company reported revenues of $564,000 and a net loss of $1,549,000 or ($0.22) per share as compared to revenues of $3,207,000 and a net loss of $1,904,000 or ($0.26) per share for the comparable period of the prior year.

The company reported gains on real estate sales of $2.5 million and a net gain from real estate sales by The Major-Pru Development Joint Venture of $4.7 million for the six months ended June 30, 1989. No similar real estate transactions were reported for the six months ended June 30, 1990. The losses incurred during the six months ended June 30, 1990, primarily represented anticipated startup costs following the merger of the company on Oct. 12, 1989, and the installation of new management.

James M. Adams III, chairman and chief executive officer, announced that the company has reached an agreement in principle to engage Eastdil Realty Inc. and Wertheim Schroder & Co., Incorporated, two prestigious New York investment banking firms specializing in real estate and international finance, to assist the company in accomplishing certain financial objectives required to maximize value of the company's assets for its shareholders.

Major Realty owns 598 acres of land in the Orlando area which includes 270 acres located next to Universal Studios Theme Park in Orlando, which opened in June of 1990. In addition, the company owns 10 acres located on the waterfront in downtown Tampa, across from Harbour Island, an upscale mixed-use development.

BURBANK, CALIF. (AUG. 15) PR NEWSWIRE - Summit Health Ltd. (NASDAQ: SUMH) today announced the following organizational changes within the Hospital Group.

Glenn Sperry has been appointed chief executive officer of Health Choice Arizona. With over 20 years of HMO experience, Sperry will oversee the development of Summit's initial penetration into the AHCCCS capitated market for Pima and Maricopa Counties, Ariz.

As a result of this new business entry and Summit senior management's shift to increase regional responsibility, Mark Werber, in addition to this responsibility for our three Arizona hospitals, now has expanded authority that includes Health Choice Arizona and Davenport Medical Center Davenport, Iowa.

With Werber among assuming the full-time position of regional vice

president, we are pleased to announce the appointment of Jeffrey Ashin as the executive director of Mesa General Hospital Medical Center, Mesa, Ariz., effective Sept. 4, 1990. Ashin previously served as executive director at Midway Hospital Medical Center in Los Angeles.

Summit Health Ltd. is an investor-owned health care company, which operates 12 hospitals, with a total of 1,648 licensed beds, 17 long-term care centers and four retirement centers with a total of 2,699 licensed beds. Summit's 33 facilities are located in California, Arizona, Texas and Iowa. Its network of services includes: hospitals, long-term care centers, retirement centers, alcohol and drug rehabilitation, hemodialysis urgent care and the rental of medical office buildings.

#90227p5764 08/15/1990 ~PR Newswire

ATLANTA (AUG. 15) PR NEWSWIRE - The U.S. Environmental Protection Agency announced today that very low levels of octachlorodibenzo-dioxin were found in residential soil samples near the defunct Caldwell Systems Inc. (CSI) hazardous waste treatment facility in Lenoir, N.C.

"The levels found do not present a human health threat and residents should not curtail activities on their property as a result of these findings," said Greer C. Tidwell, EPA regional administrator. "EPA plans further sampling to determine the nature and extent of dioxin contamination," Tidwell added.

Dioxin exists in numerous forms. The samples, taken in May of this year, showed traces of octachlorodibenzo-dioxin - a less toxic variety of dioxin - below EPA's level of concern, the level that EPA views as a threat to human health. Levels detected are, at maximum, two percent of EPA's concern level.

The most toxic form of the chemical (2,3,7,8 tetrachlorodibenzo-p-dioxin) was not found in any samples. No dioxin in any form was found in water samples. No other hazardous substances were detected in residential soil samples at a level of concern.

Analysis of the samples collected from residential wells did not detect levels of any contaminants that would prevent continued use of those wells for drinking water purposes. Analysis of surface water samples did not detect any contaminants at a level of concern.

The sampling results will be discussed tonight at a public meeting in Lenoir at the West Caldwell County High School. EPA officials and

officials of the Agency for Toxic Substances and Disease Registry (ATSDR) will explain the sampling results and answer questions. The meeting will begin at 7:30 p.m.

Officials from EPA and ATSDR will be available for questions from the news media immediately following the public meeting. Suzanne Durham, EPA's community relations coordinator, said EPA and ATSDR officials also will be available on Thursday, Aug. 16, 9 a.m. to 2 p.m., at the Hudson Town Hall Council Room, 550 Central St., Hudson, N.C., to assist in addressing individual concerns.

CSI operated an incinerator and handled waste solvents, sludges, furniture industry wastes, U.S. Navy Otto (torpedo) fuel, EPA Superfund wastes, and other materials as well as its own waste. The facility's incineration operations ceased on May 31, 1988, and all other operations stopped during December 1989.

ATLANTA (AUG. 15) PR NEWSWIRE - Scientific-Atlanta, Inc. (NYSE: SFA) today reported results for the fiscal year ended June 29, 1990.

Record earnings per share of $1.90 were up 24 percent from $1.53 in 1989. Net earnings of $44.3 million increased by 22 percent for the second year in a row and compared to earnings of $36.3 million in 1989. Strong growth in sales of cable television equipment, better margins, and lower effective income tax rates were the principal factors in the strong earnings performance.

Sales of $614.3 million for fiscal 1990, up 12 percent, compared to sales of $546.8 million in the prior fiscal year. New orders booked totaled $591.9 million with backlog at fiscal year end of $198.4 million.

Record fourth quarter sales of $161.1 million were 2 percent ahead of the fourth quarter of fiscal 1989. Fourth quarter earnings of $13.3 million were 24 percent ahead of the prior year. Earnings per share of 57 cents were up 24 percent from the fourth quarter of fiscal 1989. New orders of $161.3 million were up 6 percent from the same quarter a year ago.

Sales in the company's Broadband Communications Group were at an all-time high in fiscal 1990 because of the success of new products and good levels of cable construction activity.

Fiscal 1990 was a year of unprecedented success in the subscriber equipment business. Sales of new addressable set-top terminals set

records. The next generation of addressable subscriber equipment--interdiction--was introduced, and several key commitments were obtained. Interdiction is a unique technology that allows cable operators to addressably control the delivery of programming to the subscriber without the need for electronic devices in the subscriber's home. Interdiction was tested by Warner Communications in Williamsburg, Virginia during the year; and following Warner's announcement of the test's success, commitments were made by Jones Intercable and Tele-Communications Inc. (TCI), the nation's largest cable operator. Jones will carry out the first full system deployment in Elgin, Ill., starting in fiscal 1991, and TCI has selected a single-dwelling version of the technology to be deployed when available during fiscal 1991.

Scientific-Atlanta, Inc., is a leader in cable television equipment and satellite-based communications networks, and is a key supplier of electronic instruments and systems for industrial, telecommunications and government applications.

CHICAGO (AUG. 15) PR NEWSWIRE - The board of directors of Cirrus System Inc. yesterday approved the membership applications made by 87 financial institutions including Bank of America, Security Pacific Bank, Wells Fargo Bank, Barnett Banks of Florida and Chase Manhattan Bank.

As a result, on Aug. 20 these institutions will be able to display the Cirrus and MasterCard logos on their ATMs and accept transactions from 275 million MasterCard and Cirrus cardholders from around the world.

All of the institutions approved are also members of Plus. In order to provide consumers with greater convenience, earlier this year Cirrus and Plus eliminated rules preventing members of one network from joining the other as ATM-acquiring only members.

Participating in the two competing international networks by displaying both logos on ATMs is referred to as terminal duality in the banking industry. Thus, when a financial institution displays dual logos (Cirrus and Plus) on the same ATM, cardholders of either network can use that machine.

Outside the U.S., duality between the two networks already exists in Mexico and has been approved by Cirrus for Venezuela, Spain, Hong Kong, the Philippines, Singapore, and Thailand.

The institutions approved for Cirrus acquirer-only membership will add

more than 13,000 ATMs in 39 states and Puerto Rico and the U.S. Virgin Islands to the Cirrus network almost immediately.

Twenty one of the 87 new members approved by the board are Principal members, meaning they can link directly to Cirrus and sponsor other financial institutions as Correspondent members. The total number of Plus members expected to join the Cirrus network by the end of 1990 is over 200.

Noting that cardholders already turn to Cirrus for cash nearly nine million times a month, John O. Smith, president of Cirrus, said, "The key aspect of ATM duality is that it offers significant additional convenience to Cirrus cardholders. Over the next year, the number of U.S. ATMs available to our cardholders is expected to almost double."

He added, "The addition of Bank of America, Security Pacific and Wells Fargo really strengthens our position in California - nearly tripling our number of locations. California is a popular travel destination in the United States, and it's probably the hottest ATM market in the country. Of equal or, perhaps, greater importance is that duality will give our cardholders access to cash in virtually every gateway and hub airport in the U.S."

Smith also noted, "Every one of these new members wants to begin accepting transactions just as soon as they can get our logos on their ATMs. It's not surprising they're so eager to start. We offer an exceptional opportunity.
